WHEREAS, the applicant states the building is 6 stories and penthouse and 25 stories, 329 ft. 11 in. in height, 100 ft. and 100 ft. 5 in. front by 100 ft. 5 in. and 162 ft. 6 in. in depth, of fireproof construction, erected 1921, located in a restricted retail use, B area, class 1¼ and class 1½ height district, and used and occupied since 1921 and 1925 as follows—3 to 9 west 56th street—subcellar—boiler room, no persons; basement—storage, 15 persons; 1st floor—retail stores, 40 persons; 2nd to 6th floors—manufacturing (needle trades, jewelry and optical trades), 90 persons each floor; penthouse—offices and projection room, 12 persons; no change in use or occupancy in this portion is now proposed; the use and occupancy of the 25 story portion of the building at 728-734 5th avenue is as follows—basement—shipping, lockers, storage, 55 persons; 1st floor—stores, 105 persons; 2nd to 6th floor—offices and salesrooms, 143 persons each; 7th to 13th floors—offices, 53 persons each; 14th floor—offices, 39 persons; 15 to 21st floor—offices, 39 persons each floor—22nd to 25th floor—offices, 27 persons each floor; no change in use or occupancy is now proposed; the building is provided with an standpipe system, an approved two-source sprinkler system in the penthouse only; there is an approved interior fire alarm system; there are two interior fireproof stairs 44 in. wide from roof bulkhead direct to street and one fire tower; and

WHEREAS, Violation No. 5254 was issued September 6, 1955, for failing to provide two legal means of egress from the subcellar as required by Section 270 of the Labor Law; and

WHEREAS, the owner was convicted and fined in Municipal Term, Magistrates' Court, December 28, 1955, on a charge of violation of the Labor Law; and

WHEREAS, the applicant states that the premises consist of a 25-story building used for offices and salesrooms up to the sixth floor and offices from the 7th to the 25th floors and a six story annex used for storage in the cellar, retail shops in the first floor and manufacturing from second to sixth floors with the penthouse for office use and projection room as permitted by the Board under Cal. No. 491-24-A; that the buildings were erected in 1921 and except use of the penthouse over the six story annex have been occupied since erection in accordance with Certificate of Occupancy No. 3960 and No. 10010, and no question raised as to the subcellar egress until the recent amendments to the Labor Law; and

MINUTES

WHEREAS, the applicant contends that the subcellar is a boiler room but not in regular use as the premises is supplied with heat by the New York Steam Company and the boiler room would only be used if the failure of the steam supply or in an unusually severe cold night when the existing boilers might be used; that there are no persons regularly employed in the subcellar; that the subcellar is now provided with two good means of exit consisting of steel stairs leading to the corridor on the cellar floor which has three fireproof enclosed stairways leading to the first floor hall and a five foot wide masonry tunnel about 60 ft. long leading to an engineer's ladder to an area way at cellar level which in turn leads to a passage into the cellar hall opposite a fireproof stairway which leads in turn to the street; that in addition there is an engineer's ladder from this areaway leading to sidewalk trap door at street level; and

WHEREAS, the applicant contends that the objection would only be issued because the boiler room is located under the six story and penthouse factory portion, whereas, if the boiler room were located under the 25-story office portion, it would be in compliance with the Building Code; and

WHEREAS, the applicant requests that in view of the fact that the boiler room is rarely, if ever, in use; the fact that no persons are regularly employed therein and as the existing means of exit are adequate, it is requested that the Board modify Section 270 of the Labor Law so as to accept the existing egress from the subcellar boiler room; and

WHEREAS, under Cal. No. 491-24-A, the Board modified a decision of the Fire Commissioner requiring sprinklers throughout the building so as to permit the storage of film in the penthouse story of the six-story portion of the building on condition that the film be stored in the vault equipped with a two-source sprinkler system provided such film storage did not exceed 250 reels or 250,000 running feet; and

WHEREAS, the applicant now states that there is no nitrate film stored in the building; and

WHEREAS, the applicant states that the boiler room is no longer used in the subbasement in connection with the heating of the building, except in an emergency, as the building is now heated by the New York Steam Company facilities and that the sub-cellar is not used for any human occupancy or storage.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on B. N. App. 3539/55, Objection No. One and that the appeal be and it hereby is *granted*, until January 1, 1957, at which time the recent amendment to the Labor Law presumably will take care of the situation.

WHEREAS, the district maps accompanying the zoning resolution show that the site in a business use, D area, class 1 height district; Beach 129th street is in business and residence use, D area, class 1 height districts; Cronston avenue is in a residence use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated March 4, 1955 acting on N.B. Applic. 151-55, reads:

"1. Area occupied by structure on plot in a D zone is in excess as permitted under Article IV, Sec. 14 of Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 80 ft. frontage by 100 ft. in depth, now vacant; that it is proposed to erect a two story, non-fireproof building with a cellar, three stores on the street level and two professional offices and two apartments on the 2nd floor; and

WHEREAS, the applicant contends that Beach 129th street is the only business use area between 116th street and Beach 166th street; that the neighborhood has developed very rapidly in the past five years and is in dire need of business facilities, both stores and offices; that because of the resort character of the area, apartments and dwellings are in great demand; that it has been the custom in the past, in this neighborhood, to occupy a greater percentage

MINUTES

of the building area than permitted by the zoning resolution; that the lots to the north and to the south are occupied almost 100% by buildings; that in addition, it is proposed that the present buildings have a rear yard of 20 ft., which will be equal in height to the structure and will exceed the legally required rear yard for a D district; that the present owners have held this property for the last 10 years; that the property is assessed at \$14,000 and in order to erect an economical feasible structure, it is necessary that 65% of the area be occupied; that the total area of the lot is 8,000 sq. ft.; permitted under existing zoning, 4,400 sq. ft.; request variance to occupy 5,100 sq. ft.; excess, 700 sq. ft.; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21 to permit in a D area, business use district, the erection of a two story, non-fireproof building, with a cellar, three stores on the street level, and two professional offices and two apartments on the second floor, using more than the area permitted *on condition* that the two side yards, or courts, 13 feet wide, and the rear yard 20 feet in depth, shall be maintained clear and unoccupied from the grade level to the sky; that the building shall be limited to a two story structure as shown on plans filed with this application marked "Received April 1, 1955" (6 sheets) and "January 18, 1956" (one sheet); that the building shall not be increased in height or area beyond that as shown; and that all permits shall be obtained and work completed and a Certificate of Occupancy obtained within the requirements of Section 22A of the Zoning Resolution.

* Correction—Address of premises affected corrected from "220-226 Beach 129th street" to read "440-446 Beach 129th street", etc.

* CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on July 24, 1956, as they appeared in Bulletin No. 31, Vol. 41, are hereby corrected to read as follows:

181-56-BZ

APPLICANT—Joseph Lau, for A. L. Eastmond and Sons, Inc., owner.

SUBJECT—Application February 15, 1956—(decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence and retail use district, a parking lot for more than 5 motor vehicles.

PREMISES AFFECTED—313-315 West 142nd street, north side, 64 ft. 11 in. east of Bradhurst avenue, Block 2043 Lots 32 and 33, Borough of Manhattan.

APPEARANCES—

For Applicant: Joseph Lau.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on July 3, 1956 after due notice by publication in the Bulletin;

and laid over to July 24, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in residence and retail use, B area, class 1½ height districts; Bradhurst avenue is in a residence, B area, class 1½ height district; Eighth avenue is in a retail use, B area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated February 1, 1956 acting on Alt. Applic. 1481-55, reads:

"1. Proposed parking lot for more than 5 motor vehicles in a residence district is contrary to Art. II, Sec. 3 of Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 ft. frontage by 99 ft. 11 in. depth, now vacant; that it is proposed to occupy the premises as a parking lot for more than five motor vehicles; and

WHEREAS, the applicant states that Alt. No. 1481-55 was filed with the building department for the use of the vacant lot in a retail and residence use district for a parking lot for more than five motor vehicles; that the vacant property proposed to be used for parking purposes is composed of two lots, each of which is 25 ft. by 99 ft. 11 in., thus forming a combined area of 50 ft. by 99 ft. 11 in.; that this property is located 35 ft. 1 in. in a residence district and 13 ft. 11 in. in a retail district; and

WHEREAS, the applicant states that the use district from Bradhurst avenue to 100 ft. east along West 142nd street is residence use; that the use district along West 142nd street from a point 100 ft. east of Bradhurst avenue was changed from residence to business in December 1926 and further changed to retail by an amendment dated August 26, 1954, which is its present designation; that there is no petition before the planning commission to change the use; and

WHEREAS, the applicant contends that this entire neighborhood is densely populated and there is a great need for parking lots to aid in reducing the parking on the adjacent over-crowded streets; that this property was used for dumping of refuse; that the owner has recently removed all the rubbish and has erected a protective fence and a locked gate to eliminate the trespassers and the hazards; that this lot will be leveled, graded, surfaced and clean gravel or steam cinders treated with a binder and properly rolled; that there shall be erected on the lot lines, where required, a woven wire fence of the chain link type, not less than 5 ft. 6 in. in height with no openings except 12 ft. wide at the building line and have a gate directly on a line with the curb cut; that proper bumpers shall be maintained against all walls and fences for protection; that the curbing and sidewalk are in a new condition at present and the lot will be graded to meet it; that a sign not exceeding 15 sq. ft. will be attached to the fence at the entrance advertising parking use, the rates charged and such other information as required by the commissioner of licenses; that the sign will not be illuminated nor extend beyond the building line; that owner is paying taxes for these lots without benefit of income and since the adjoining neighborhood consists of old residential buildings and not too profitable business possibilities, he is unable to determine the ultimate development in this section; that the owner of the properties under appeal also owns the property adjacent to the east, that is, block 2043, lots 34, 36 and 20, thus making him an interested owner in the future development of this neighborhood; that the owner intends to hold this property together with his other property adjacent, so that when the neighborhood shows development in one substantial manner or another, he will then be in a position to properly develop his property in accordance with the general trend; that the use of these two lots for a period of 10 years for a parking lot is believed by the owner to be a reasonable request as it will be beneficial to the public for parking and will help to alleviate the blocking up of the street in the adjacent neighborhood;

MINUTES

borhood by passenger cars; that the lot will be maintained in a manner to comply with all requirements for a parking lot and that a certificate of occupancy will be obtained; that no servicing of cars or other non-conforming uses will be conducted on the premises; and

WHEREAS, the applicant states that the present owner has held title to lot 33 since November 20, 1952 and to lot 32 since October 28, 1954; that the assessed valuation of lot 32 is \$7,500 and of lot 33, \$7,500 making a total of \$15,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions h and e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Sections 7h and 7e for a *term of five (5) years from the date of this resolution* to permit the use of lots 32 and 33 as proposed for the parking and storage of motor vehicles as indicated on plans filed with this application marked "Received February 15, 1956," 2 sheets, *on condition* that all buildings and uses on the

premises shall be removed and the plot graded substantially to the grade of West 142nd Street and shall be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that on all lot lines where walls of adjoining buildings do not occur there shall be erected a woven wire fence of the chain link type on a masonry base to a total height of not less than 5 ft. 6 in.; that on the street building line such fence may have an opening not over 15 ft. in width fitted with gates which shall normally be kept closed when the premises are not in operation; that suitable terminating posts shall be erected at either side of the gate for support; that opposite such entrance there may be a curb cut not exceeding 15 ft. in width; that during the term of this variance the premises shall not be occupied for any other use; that signs shall be restricted to a permanent sign attached to the fence near the entrance advertising the parking use and the rates charged and such other information as may be required by the Commissioner of Licenses; that such sign shall not exceed 15 sq. ft. in area, shall not be illuminated and shall not extend beyond the building line; and that all permits shall be obtained and all work completed and a certificate of occupancy obtained within the requirements of Section 22A of the Zoning Resolution.

* Correction—The term of variance for a period of five (5) years inserted in the resolution as indicated in italics.

NOTICE

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication of this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure

to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying property owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1014, Municipal Building, Manhattan, at five cents each—postage to be added if the forms are forwarded by mail.

THE BUILDING LAWS

NOW ON SALE

THE VARIOUS BUILDING LAWS OF THE CITY OF NEW YORK published in four volumes, amended to September, 1955, are now ON SALE AT THE CITY RECORD OFFICE, ROOM 2213, MUNICIPAL BUILDING, MANHATTAN, N. Y. 7. Each volume contains a Table of Contents indicating what matters appear in each one of the four volumes.

The prices are as follows: One Dollar and Fifty Cents each for Volumes Nos. I, II and IV (\$1.65 each by mail); and One Dollar for Volume III (\$1.15 by Mail). The price for the complete set of four volumes is Five Dollars and Fifty Cents (\$6 by mail).

We require PAYMENT IN ADVANCE. Make check payable to the Supervisor of The City Record.

RULES RELATING TO SMOKING IN PROTECTED PORTIONS OF FACTORIES, AND IN SPECIAL CLASSES OF OCCUPANCIES.

Adopted by the Board of Standards and Appeals August 13, 1918, effective September 9, 1918, under the powers conferred upon the Board by Section 718-a, Subsections 2 and 3 (Old Charter) to supplement Section 283 of the Labor Law (Old Section 83c).

[Cal. 1262-18-SR]

Labor Law

Section 283. Smoking.

1. No person shall smoke in a factory. A notice of such prohibition stating the penalty for violation thereof shall be kept posted in every entrance hall, elevator, stair hall and room of a factory in English, and in such other languages as the fire commissioner of the city of New York in such city and elsewhere the commissioner shall direct.

2. The board in its rules may permit smoking in protected portions of a factory, or in such classes of occupancies where in its opinion the safety of the employees will not be endangered thereby. The fire commissioner of the city of New York in such city and elsewhere the commissioner may issue such permits in accordance with rules adopted by the board.

3. The fire commissioner of the city of New York in such city and elsewhere the commissioner shall enforce this section.

Rule 1. Permit.

(a) Prohibition. No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the administrative official.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stair hall or room throughout the building, as well as in every elevator car, in English, and also in such other language or languages—as the administrative official shall direct, a notice of such prohibition, and the penalty for its violation.

(b) Application. Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the administrative official.

(c) Time Limit. Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon the expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) Conditions. The permit shall state the conditions under which the hours between which, and the place or places in such factory where smoking may be permitted, and this

permit shall be framed and kept posted in a conspicuous place in the factory.

(e) Revocation. Violation of any of the conditions specified in the permit in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the administrative official, and shall not again issue a permit for the same premises until at least one year has elapsed.

Rule 2. Permissible Cases.

Smoking may be permitted in:

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fireresisting partitions, with all openings therein protected by selfclosing fire doors, and further, unless the building is of fireproof construction or provided with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire retarding material.

(3) Such chemical fire extinguishers as the administrative official may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horsehoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the administrative official may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

Minutes of Regular Meeting, Tuesday Afternoon, October 23, 1956, Affecting Calendar Numbers 258-37-A—Vol. II, 153-54-A—Vol. II, 56-56-A, 101-55-A, 352-56-A, 652-56-A, 132-55-A—Vol. II, 37-55-A, 259-56-A, 127-56-A, 1545-39-BZ, 585-41-BZ—Vol. II, 530-42-BZ—Vol. III, 781-45-BZ, 602-48-BZ, 118-54-BZ, 881-54-BZ, 718-49-BZ—Vol. IV, 483-50-BZ—Vol. IV, 115-32-

COURT DECISION

Matter of Clarizio vs. Murdock:—On April 20, 1956, the Board granted a variance under Section 21 to permit in a residence use, E area district the erection of a two-family dwelling with less than 10 ft. setback required on each street front; Cal. No. 561-55-BZ; Premises 2894 Roebling Avenue, southwest corner of Edson Avenue, The Bronx.

At Special Term, Supreme Court, Mr. Justice Hofstadter dismissed the proceeding as not timely, in the following decision:

"Motion to dismiss petition for an order to set aside a decision of the Board of Standards and Appeals granting a zoning resolution is granted. The decision was made on April 20, 1956; the present proceeding was instituted by service of the notice of motion and petition on July 31, 1956, returnable September 10, 1956. Administrative Code Section 668e-1.0 requires that the petition be presented within thirty days after the filing of the board's decision in its office. This provision is exclusive and the four months' limitation prescribed by Article 78 of the Civil Practice Act is inapplicable (521 Fifth Avenue Corp'n. v. Murdock, 62 N. Y. S. 2d, 414; Barry v. Board of Standards and Appeals, N.Y.L.J. July 6, 1955, Special Term, Part I, Bronx County). It follows that the proceeding is not timely and is accordingly dismissed" (N.Y.L.J. October 26, 1956, page 8).

HOURS OF CONSULTATION

10 A.M. to 1 P.M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman*.

NOTICE IS HEREBY GIVEN of a public hearing *Wednesday afternoon, November 14, 1956*, at 2 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

208-56-SM

APPLICANT—Coralux Corporation of New Jersey, owner.

SUBJECT—Application February 20, 1956—Coralux Acoustical Plaster.

317-55-SA

APPLICANT—Almo Laboratories Company, Inc., owner.

SUBJECT—Application April 14, 1955—Rinsrator, Model R-3 Injector Unit (for injecting wetting agent into final sterilizing rinse water).

57-54-SA

APPLICANT—Calray Distributors Inc., agent for Hastings Air Conditioning Company, Inc., owner.

SUBJECT—Application January 25, 1954—Hastings Heatwell Round Head Conversion Burner, Models MXO-10 and MXO-13 (gas fired).

740-55-SA

APPLICANT—George W. Kamin for Cribben & Sexton Co., owner (I. Neil Thompson, agent).

SUBJECT—Application August 1, 1955—Universal Insulated Console Type Domestic Gas Ranges, Models 7905, 7906, 8018, 8019, 8020, 8022, 8023, 8204, 8205, 8304, 9116, 9117, 9118, 9123, 9124, 9304, 9305, 7909, 8029, 8030, 8035, 8206, 8307, 9127, 9130, 9131, 9132 and 9309.

730-55-SA

APPLICANT—Synchronous Flame Inc., owner.

SUBJECT—Application September 2, 1955—Syncro-Flame Combination Gas Oil Burner, Models SF 10E, 20E, 30E, 40E, 60E, 80E, 100E; Gas Burner Models SF 10EG, 20EG, 30EG, 40EG, 60EG, 80EG, 100EG, SF150, 300, 400 and Oil Burner Models, SF10EO, 20EO, 30EO, 40EO, 60EO, 80EO and 100EO.

32-56-SA

APPLICANT—Philan, Inc., agent, for Columbus Coated Fabrics Corp., owner.

SUBJECT—Application January 3, 1956—Guard Vinyl Wall Covering.

862-54-SA

APPLICANT—John Wood Company, Bennett Pump Division, owner.

SUBJECT—Application November 8, 1954—Bennett Pumping Unit, Model 70 and Bennett Island Dispensers, Models 952, 953, 962, 963, 972, 973, 982, 983 and 74-RL, 749-RC.

383-56-SM

APPLICANT—Greenline Metal Products, Inc., owner.

SUBJECT—Application May 10, 1956—Greenline Emergency Release (lock release) Model F-2.

389-52-SM—Vol. II

APPLICANT—Tectum Corporation, owner.

SUBJECT—Application for consideration—reopened January 4, 1955 for amendment to consider additional roof plank and tile, Models P-200, P-250, P-300, T-200-32, T-250-32, T-300-32 and T-300-48—re Tectum Roof Plank (incombustible) Models A-2 and A-3; previously approved.

984-54-SM

APPLICANT—Inland Steel Products Company, owner.

SUBJECT—Application for consideration—reopened March 13, 1956 for amendment to resolution as to additional sections of Celluflor and the use of this material as a component part of a three hour floor construction—re Celluflor (cellular steel oor panels); previously approved.

52-56-SA

APPLICANT—Acme National Sales Company, Inc., owner.

APPEARANCES—

For Applicant: Paul Friedman, Morris Dolgin, Israel M. Dolgin and Harry Robbins.

For Opposition: Virginia Foeman, F. A. Beckles, Samuel D. Quarterman, Arthur C. Johnson, Zenobia Dixon, Lillian L. Wood, Mrs. Edmond Purois, Mrs. C. L. D. Ferguson, Helen Butts, Sarah A. Smith, Ruth and Albert Leach, Gladys Duggins, Hettie Daniels, Essie M. Quarterman, Zapa Brinkley, Della McKoy, Fred L. Johnson, James and Florence McCrutchon and Philip Cohen.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to November 14, 1956, at 10 A. M. for inspection and decision in conjunction with Cal. 758-53-A—Vol. II; hearing closed.

758-53-A—Vol. II

APPLICANT—Paul Friedman, for Morris and Israel M. Dolgin, owners (Cornell Paper and Box Co., Inc., lessee).

SUBJECT—Application reopened January 17, 1956 as Vol. II—re Appeal from a decision of the borough superintendent—exits.

PREMISES AFFECTED—664-666 Halsey Street, south side, 200 ft. west of Patchen avenue, Block 1667, Lot 32, Borough of Brooklyn.

APPEARANCES—

For Applicant: Paul Friedman, Morris Dolgin, Israel M. Dolgin and Harry Robbins.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to November 14, 1956, at 10 A. M. for inspection and decision in conjunction with Cal. No. 757-53-BZ, Vol. II; hearing closed.

585-54-BZ

APPLICANT—Kitzler and Nurick, for Stern Holding Corp., owner (Victor and Adeline Girard, lessees).

SUBJECT—Application July 1, 1954—(decision of the borough superintendent) under section 7c, 7h of the zoning resolution, to permit in a residence and business use district, the proposed extension of existing parking and storage of motor vehicles on open portion of plot which is located in a Class B Multiple Dwelling, and the parking of cars in the required rear yard.

PREMISES AFFECTED—194-200 Schermerhorn street, 311-319 State street, southeast corner and 53-71 Hoyt street, Block 171, Lots 1, 2, 60 to 66, inclusive and part of Lot 7. Borough of Brooklyn.

APPEARANCES—

For Applicant: R. S. Hardy.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to November 14, 1956, at 10 A. M. at the request of applicant to file further revised plans and new decision of the borough superintendent.

713-55-BZ

APPLICANT—Meyer Kraushaar, for Cohen-Kraushaar Realty Corp., owner.

SUBJECT—Application September 14, 1955—re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district the erection and maintenance of a gasoline service station,

MINUTES

lubritorium, minor repairs (hand tools only), auto washing (non-automatic), office, sales and storage of motor accessories, parking for cars waiting to be serviced.

PREMISES AFFECTED—181-01 to 181-11 (181-05 official) Horace Harding expressway and 58-25 to 58-53 Utopia parkway, northeast corner and 58-28 to 58-52 182nd street, Block 7065, Lot 8, Fresh Meadows, Borough of Queens.

APPEARANCES—

For Applicant: Meyer Kraushaar.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings and John J. Saunders, Board of Education.

ACTION OF BOARD—Laid over to December 4, 1956, at 10 A. M. for further consideration as to school proposed for adjacent block; hearing previously closed.

979-55-BZ

APPLICANT—Lama, Proskauer and Prober, for M. H. C. Realty Corp., owner.

SUBJECT—Application December 12, 1955—(decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a retail use district, the erection and maintenance of a gasoline service station, lubritorium, office and sales, car washing, minor auto repairs, parking and storage of motor vehicles, with a ground sign projecting beyond the building line.

PREMISES AFFECTED—206-09 to 206-17 (206-11 official) Hollis avenue and 109-42 to 109-46 207th street, northwest corner, Block 10913, Lot 26, Hollis, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: Jack Stillman.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to December 4, 1956, at 10 A. M. at the request of the applicant; hearing previously closed.

1000-55-BZ

APPLICANT—Leonard F. Rothkrug, for G. H. N. B. Realities, Inc., owner.

SUBJECT—Application December 20, 1955—(decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence use district, a parking lot for more than 5 cars.

PREMISES AFFECTED—940-942 Marcy avenue, west side, 80 ft. south of Macon street, Block 1850, Lots 26 and 35, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug and G. Price.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings and John J. Saunders, Board of Education.

ACTION OF BOARD—Laid over to October 30, 1956, at 10 A. M. for revised plans showing parking spaces and also a second means of exit; hearing previously closed.

1008-55-BZ

APPLICANT—Thomas R. Sullivan, for Milton Jaeger, owner.

SUBJECT—Application December 22, 1955—(decision of the borough superintendent) under sections 7f, 7i, 7e and 7h of the zoning resolution, to permit in a retail and local retail use district, the proposed erection and maintenance of a gasoline service station, car washing, lubritorium, sale of accessories, minor motor vehicle repairs with hand tools only, parking for more than 5 motor vehicles.

PREMISES AFFECTED—1252 Forest avenue and 444 Jewett avenue, southwest corner, Block 388, Lot 54, West Brighton, Borough of Richmond.

APPEARANCES—

For Applicant: Thomas R. Sullivan.

For Opposition: B. Franklin Spencer and W. Thorn.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over, date to be determined, for inspection and decision; hearing closed.

1016-55-BZ

APPLICANT—Robert Gottlieb, for Hermany Realty Corp., owner (Hermany Farms, Inc., lessee).

SUBJECT—Application December 29, 1955—(decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence and business use district, the parking and storage of more than 5 motor vehicles, in conjunction with a milk bottling plant 50 ft. to the west.

PREMISES AFFECTED—2351-2355 Hermany avenue, north side, 191.52 ft. west of Zerega avenue and 2346-2350 Story avenue, Block 3698, Lots 31-34 and 58, Borough of The Bronx.

APPEARANCES—

For Applicant: Robert Gottlieb, William Schwartz and Gerald Levy.

For Opposition: John Hornung, Matthew R. Dwyer and Francis J. McCaffrey.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to November 27, 1956, at 10 A. M. for inspection and decision; hearing closed.

1017-55-BZ

APPLICANT—Robert Gottlieb, for Hermany Realty Corp., owner.

SUBJECT—Application December 29, 1955—(decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a business use district, the erection and maintenance of a gasoline service station, lubritorium, car wash, motor vehicle repair shop and auto parking.

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on July 26, 1956 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on October 2, 1956 after due notice by publication in the Bulletin; laid over to October 23, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a retail use, D area, class 1 height district; 70th drive, 71st avenue and Metropolitan avenue are in residence and retail use, D area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated May 24, 1956 acting on N. B. Applic. 327-56, reads:

"1. The erection and maintenance of a gasoline service station, lubritorium, auto laundry (non automatic), minor auto repair shop with hand tools only and the parking of motor vehicles awaiting service in a Retail Use District is contrary to Art. II Section 4A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 120.91 ft. in depth, presently vacant; that it is proposed to erect a gasoline service station, lubritorium, auto laundry, parking of motor vehicles awaiting service, for a term of fifteen years; and

WHEREAS, the applicant states that the plot, now vacant, is known as lot No. 1 in block 3900; that this parcel was part of a larger plot covering the entire block front on the south side of Metropolitan avenue between 71st avenue and 71st road; that the plot was reapportioned by the assessor's office into lot No. 1 for this application and lot No. 6 for the adjoining parcel on the corner of 71st road; that while both parcels are under the same ownership, this application for the gas station is solely for lot No. 1 and there will be no application to use lot No. 6 for the same purpose; that Esso Standard Oil company have entered into a long term lease for the operation of a gas station at this location and is contingent upon a variance from the Board; that the present owners purchased this parcel together with the parcel now known as lot No. 6 on May 7, 1956; that prior to the purchase a conditional contract was entered into with Messrs. Soviero and Wall, who had acquired the property during April, 1955; that a considerable sum of money was paid for the conditional contract and the grantor or seller refused to extend the time until the application could be acted upon by the Board; that rather than lose the huge part-payment on the contract the present owners elected to acquire title to the property as aforementioned; that an administrative appeal is being filed in conjunction with this application under the General City Law, Section 35, inasmuch as part of the plot under consideration is in the bed of Metropolitan avenue under the plan of the City to widen this

MINUTES

street to 100 ft.; that the proposed widening on the south side of Metropolitan avenue is about 26 ft. and the final map (Map No. 44) was approved by the borough president's office on July 2, 1914; that however, the city has not vested title and at the present time there are no proceedings pending; that the present application does not contravene sections 7A and 21A of the zoning resolution; and

WHEREAS, the applicant states that the zoning maps on July 25, 1916 show that the plot under consideration was zoned for business use for a distance of 100 ft. parallel to Metropolitan avenue, with the balance of the block to Union turnpike zoned for residence use; that the premises are now included within a retail use district, D area district and class 1 height district; that the rezoning from business to retail use was effective May 18, 1953 in accordance with city planning amendment No. 9758; that present zoning maps show Metropolitan avenue as being 100 ft. wide and the retail use district extending 100 ft. deep parallel to said avenue; that physical Metropolitan avenue is open to a width of 65 ft.; that however with the proposed widening on both the north and south sides as provided in map No. 44 as adopted July 2, 1914, the legal width of Metropolitan avenue is 100 ft., and accordingly the plot in question is located entirely in a retail use zone, abutting retail zone on the east and abutting residence use on the south; and

WHEREAS, the applicant further states that existing conditions indicate the plot is vacant and is substantially level with the grades of the surrounding streets; that proposed conditions provide for the erection of a modern three-bay service station accessory building finished with face brick and porcelain enamel trim for use as an office and sales room, rest rooms, a combination heater and storage room, and three service bays for auto lubrication, non-automatic car wash, minor repairs and adjustments with hand tools only; that the building has an area of about 1,800 sq. ft. and will occupy approximately 15% of the entire parcel; that it will be set back 18 ft. from the adjoining residence use on the south and will have an interior side yard of 14 ft.; that interior lot line fences consisting of 4 ft. 6 in. high chain link fence on a 1 ft. high masonry base, for a total height of 5 ft. 6 in., will be provided; that a similar fence will be returned along the building line of 71st avenue for a distance of 50 ft.; that twelve 550 gallon gasoline tanks will be installed together with four dispensing pumps, on one concrete pump island; that the pumps will be of the low approved type, set back to the proposed building line, or an approximate distance of 26 ft. from the present building line; that one 550 gallon fuel oil tank in connection with an approved type Gilbert & Barker ceiling suspended furnace will be installed; that suitable planted area will be provided to the rear of the building in the aforementioned 18 ft. distance which will act as a buffer for the adjoining residence on 71st avenue; that the planted area will also be provided along a portion of 71st avenue; that the yard area will be paved with asphaltic concrete; that one Esso brand sign on a post standard will be erected near the intersection on a 5 ft. by 5 ft. by 1 ft. high segmental concrete block; that new concrete sidewalks and ramps will be constructed on Metropolitan avenue and the present ribbon sidewalk south of the proposed new concrete ramp on 71st avenue will be repaired as required; that there will be two 30 ft. curb cuts on Metropolitan avenue and one 20 ft. curb cut within the first 25 ft. on 71st avenue; that no curb cut will be within 5 ft. of any lot or street line as extended; and

WHEREAS, the applicant contends that the plot in question differs from Vol. I of this application, namely Cal. Nos. 914-50-BZ, Vol. I and 915-50-A, Vol. I, in both zoning and general city law No. 35, in that the parcel involved covers only one half of the block front (100 ft. by 120 ft.) instead of the entire block frontage of 200 ft. on which it was proposed to erect a supermarket with customer parking; that the supermarket as proposed was in excess of the zoning law area requirements; that the proposed building will occupy about 15% of the plot, while the supermarket would have occupied almost the entire plot from the pro-

posed street line; that in addition to Cal. Nos. 914-50-BZ and 915-50-A, applications known as Cal. Nos. 912-50-BZ and 913-50-A were filed simultaneously for the same owner at that time (Queens Equity Realty Corp.); that the latter two applications covered the block front on the south side of Metropolitan avenue between 71st avenue and 70th drive; that all four applications were withdrawn after public hearing on September 18, 1951; that at the present time the block front on the south side of Metropolitan avenue between 71st avenue and 70th drive, previously applied for under Cal. No. 912-50-BZ, is being used by Carvel for customer parking and the sale of ice cream, etc.; that in block 3895 on lot 37, located at the southwest corner of Metropolitan avenue and 70th drive, there is a gas station; and

WHEREAS, the applicant further contends that section 7, subdivisions f and i provides that the Board may, in appropriate cases, after public hearing and notice and subject to appropriate conditions and safeguards, determine and vary the application of the use district regulations herein established, in harmony with their general purpose and intent; that under section 7, subdivision f wherein the premises in question are located in a retail use district and the provisions of section 21-A do not apply, it is felt that this is an appropriate case for the Board to determine and vary the application of the use district regulations for a term of fifteen years inasmuch as the site is located on Metropolitan avenue which is an important traffic artery running easterly generally from the East river in the Borough of Brooklyn to Jamaica; that the neighborhood is substantially built up with stores in the business section and small homes in the residential sections; that the small dwellings with detached garages along 71st avenue were presumably erected during the late "twenties"; that the present owner will be subject to a continued hardship and will be prevented from erecting a conforming use wherein the structure would front on the building line because of the proposed widening line which, if actually established, would take about 2700 sq. ft. from the parcel; that this probably accounts for the fact that this parcel, including the adjoining parcel at the corner of 71st road and the parcel occupied by Carvel between 71st avenue and 70th drive, were never developed in modern times; that this parcel and including the adjoining parcel at 71st road, until recently had been owned by the same family since 1912, and that the Board of Estimate as of July 1914 adopted a proposed widening line extending across the front of the parcel in question of about 27 ft. inside the present southerly street line of Metropolitan avenue; that the proposed widening line, if actually established, would thus take from the owner a strip along Metropolitan avenue with an area of approximately 22% of the entire parcel; that the erection of a modern servicer with driveways in the front would remove the serious hardship to which the owners of this parcel are subjected because of the proposed street widening line cutting across the front of their property, about which widening the city has done nothing down to the present time and has nothing contemplated; that in addition there is no economic demand for use of the subject premises for development with a use permitted in a retail use district such as residences, light manufacturing and/or additional stores, but there is an economic demand for use of the plot as a gas station; that Metropolitan avenue is a heavily travelled thoroughfare which sustains a substantial volume of transient traffic; that request is also made to permit minor auto repairs and adjustments with hand tools only as this type of work is essential to the proper operation of a modern servicer; that a granting of a variance would not adversely affect any adjoining property owner; that a modern gas station at this point would be desirable for neighborhood use inasmuch as the surrounding residence property is built up with small homes and individual garages; and

WHEREAS, the applicant states that the present owners have held title to the property since May 7, 1956 and that the assessed valuation of land is \$14,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee

MINUTES

recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of 15 years to permit the occupancy as proposed as a gasoline service station and accessory uses and as indicated on plans filed with this application marked "Received May 31, 1956", 5 sheets, *on condition* that any buildings or structures now on the premises shall be removed and the premises shall be graded substantially to the grade of Metropolitan Avenue and 71st Avenue (Continental Avenue); that the premises shall be arranged and constructed as indicated on such plans; that the accessory building shall be of the arrangement and design as indicated except that the toilet rooms shall be arranged so that the doors thereto shall not be contiguous; that there shall be no cellar under the accessory building; that the accessory building shall be faced on all sides with face brick; that pumps shall be of a low approved type and erected not nearer than 26 ft. from the present building line of Metropolitan Avenue, as shown; that the gasoline storage tanks shall not exceed twelve 550 gallon approved storage tanks; that along the interior lot lines to the east, south and west for a distance of 50 ft. there shall be erected on a masonry base a woven wire fence of the chain link type, to a total height of not less than five feet six inches; that such fence on the rear line shall be so located as not to disturb or interfere with the growth of the existing hedge on the lot line of Lot No. 115; that such planting areas shall be maintained as indicated to the rear and west side of the accessory building; that such areas shall be planted with suitable planting material of the shrubbery type and shall be protected with concrete curbing not less than 8 in. in height and 6 in. in width; that curb cuts shall be restricted to two curb cuts to Metropolitan Avenue not over 30 ft. in width and one curb cut to 71st (Continental) Avenue not over 20 ft. in width within the first 25 ft. of the intersection of the present building line of Metropolitan Avenue; that the portion of the plot proposed for street widening may be used as hereinabove permitted and an application shall be resubmitted to the Board for amendment in the event that the portion proposed for street widening is condemned for that purpose; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that signs shall be restricted to permanent signs attached to the facade of the accessory building and to the illuminated globes of the pumps excluding all roof signs and temporary signs but permitting the erection of one post standard within the intersection for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line of Metropolitan Avenue for a distance of not over 4 ft.; that at such intersection there shall be erected a block of concrete extending for a distance of not less than 5 ft. along either building line from the intersection and not less than 12 in. in height; that for a similar term there may also be permitted the parking of motor vehicles awaiting service provided such motor vehicles are parked in a portion of the area of the plot where they will not interfere with the servicing of the station; that under Section 7i there may be, for a similar term, minor repairing for adjustments with hand tools only maintained solely with the accessory building; that where not occupied by accessory building and pumps and planting the premises shall be surfaced with concrete or asphaltic pavement; and that all permits shall be obtained and all work completed and a certificate of occupancy obtained within the requirements of Section 22A of the Zoning Resolution.

915-50-A—Vol. II

APPLICANT—Samuel Miller, for S. Jules Lakin and Malcolm L. Bennett, owners (Esso Standard Oil Co., lessee).

SUBJECT—Application reopened July 26, 1956 as Vol. II—filed pursuant to section 35, of the General City Law re premises in bed of proposed widening of Metropolitan avenue.

PREMISES AFFECTED—102-06 Metropolitan avenue, southeast corner of 71st avenue, Block 3900, Lot 1, Forest Hills, Borough of Queens.

APPEARANCES—

For Applicant: Murray Stockman, Joseph B. Lynch and Jacob I. Isaacs.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated May 24, 1956 on N.B. Applic. 327-56 reads:

"2. No construction permitted in the bed of mapped streets without permission of the Board of Standards and Appeals. Section 35 General City Law."

and

WHEREAS, the applicant states the premises consist of a lot 100 ft. front by 120.91 ft. in depth, in a retail use, B area, class one height district, now vacant, upon which it is proposed to erect a one story 14 ft. high, class 3 constructed building, 61 ft. front by 30 ft. in depth, and to use the premises as a gasoline service station, lubritorium, auto laundry, minor automobile repairs with hand tools, and the parking of motor vehicles awaiting service; and

WHEREAS, the applicant states that portions of the premises are located within the proposed widening line of Metropolitan Avenue; that although this proposed widening has been shown on the City Map for approximately 24 years, no steps have been taken by the City to acquire title to the property needed for the widening; and

WHEREAS, the applicant states that no substantial structure will be placed within the proposed street widening area; that the owner proposes to erect a brand sign along the frontage of the street at the present building line advertising only the brand of gasoline on sale; that the only other improvements within the proposed street widening are a portion of the fence along the easterly lot line, the curbs, sidewalks and driveways; the gasoline dispensing pumps will be located along the future building line; and

WHEREAS, the applicant states that if the street is widened, the signs, the fence and the curb cuts and driveways will be removed and the pumps re-located an adequate distance from the new street line and all of this work will be done at the expense of the owner or operator and will not be considered as an element of any claim to be urged in the condemnation proceeding; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the decision of the borough superintendent, acting on N. B. App. 327-56, Objection No. 2 be and it hereby is *modified* under the powers vested in the Board by Section 35 of the General City Law, and that the appeal be and it hereby is *granted*, to permit the portion of the premises within the bed of the mapped street, as required, to be maintained as permitted under resolution adopted this day under Cal. No. 914-50-BZ—Vol. II.

THE RESOLUTION—

WHEREAS, this application was restored to docket January 10, 1956, previously dismissed for lack of prosecution on November 29, 1955; and

WHEREAS, a public hearing was held on this application on September 11, 1956 after due notice by publication in the Bulletin; laid over to October 2, 1956, for further consideration, and for applicant to furnish additional information as to upland property and marginal street; then to October 23, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a business use, A area, class 1½ height district; Flatlands avenue and East 108th Street are in business and residence use, A area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated May 16, 1956, acting on N. B. Applic. 1527-54, reads:

"1. Premises located on a marginal street comes within jurisdiction of Department of Marine and Aviation.

2. Proposed gasoline service station, lubritorium and office in a Business use zone is contrary to Article II, Section 4a, subsection 46 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot 98 ft. frontage by 120 ft. in depth, irregular, now vacant; that it is proposed to erect and maintain a gasoline service station, lubritorium, motor vehicle repair shop, office and accessories store, with curb cuts more than the permitted width as relates to the total frontage of the property; that the plot is at present vacant and is sub-standard for consideration other than as contemplated by this application; and

WHEREAS, the applicant contends that the plot is located in a business use district and is unsuited for residential construction; that Flatlands avenue is a main thoroughfare and is used both by private cars and commercial traffic and a gas station on the subject premises would serve a useful and practical purpose for the use of the community and general public; that this property cannot support a conforming use that would cover expenses, let alone show a profit, since Flatlands avenue is a principal artery of traffic; that the City has completed making this section of Flatlands avenue a 100 ft. wide street with a 6 ft. mall divider of east and west traffic; that one of the main reasons for construction of the 6 ft. mall was to prevent the tenants of the Breucklen housing project, which is partially opposite the subject site, from crossing heavily trafficked Flatlands avenue; that this type of highway construction, plus the fact that the housing project has several shopping centers within the development itself, makes it absolutely impossible for the property in question to serve a conforming use; that also in the immediate vicinity of this property, the Seaview housing development, the Bayview housing development and the substantial construction operations in one family and other homes will develop the immediate sur-

rounding areas as a new residential community, and the proposed gas station will aid in serving many thousands of new families moving into the area; that therefore, the only utilization for some equitable return of investment would be the proposed gas station; and

WHEREAS, the applicant states that the premises in question consists of an irregular plot with frontage on Flatlands avenue of 48 ft. and a depth of 120 ft.; that the present owner took title to this property in February 1950, at which time the land in question was zoned as undetermined; that at time of purchase there had been a permit issued for the construction of a gas station at the proposed site; that upon checking with the Title Guarantee and Trust Company the owner was informed that this land was considered "under-water land" and therefore was uninsurable; that after 2 or 3 years of negotiation with the City, it eventually culminated by the Board of Estimate approving a resolution declaring that the 48 ft., out of a 340 ft. plot, is "upland"; that it wasn't until 1½ years of further research, that the title company indicated their willingness to insure this plot; and

WHEREAS, the applicant further contends that the property in question has been enlarged so as to add an additional 50 ft. fronting on Flatlands avenue and extending irregularly from 30 to 40 ft. contiguous to the subject property; that by the addition of the contiguous 50 ft. frontage, the property will be properly utilized so as to provide additional parking area, means of access to the property for the purposes of obtaining gas and servicing; and

WHEREAS, the applicant states that original plans No. 2687B were filed and approved for construction before the change of zone, plans submitted May 6, 1955; that the subsequent change of zoning with the consequent prohibition of fulfillment of the contract for the erection of the gas station, without fault on his part, will necessarily result in an intentional and involuntary breach of contract unless relief is granted by this application; that the proposed building will be highly modern in design, with landscaping in the rear of the plot and will thereby improve the appearance of the community by developing an open, unsightly piece of land which as it now exists is an eyesore, since it is presently illegally being used as a dumping ground; and

WHEREAS, the applicant states that the present owner has held title to the property since February 15, 1950 and that the assessed valuation of land is \$100; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, in the opinion of the Board, from advices received, the premises are under the jurisdiction of the Department of Buildings; and

WHEREAS, the Board found this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of fifteen years to permit the premises to be occupied as a gasoline service station and accessory uses, substantially as proposed and as indicated on revised plans marked "Received June 27, 1955", two sheets, "July 5, 1955", 2 sheets, and "May 17, 1956", one sheet, *on condition* that all existing uses on the premises shall be removed and the premises shall be levelled substantially to the grade of Flatlands avenue and shall be constructed and arranged as indicated on revised plans marked "Received July 5, 1955", 2 sheets, and "June 27, 1955" two sheets; that the accessory building shall be faced with face brick and shall be arranged as proposed and without cellar; that additional toilet facilities shall be furnished so that there shall be one for each sex; that pumps shall be of a low approved type and erected

MINUTES

not nearer than 15 ft. from the street building line of Flatlands Avenue; that along the lot line to the south and north there shall be erected, on a masonry base, a woven wire fence of the chain link type not less than 5 ft. 6 in. in height; that the foundation for such wall shall be constructed in accordance with the requirements of the Building Department; that curb cuts shall be restricted to three curb cuts each 20 ft. in width, where shown, with no portion of any curb cut nearer than 5 ft. to a side lot line as prolonged; that within the premises there may be erected one post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than 4 ft.; that such sign shall be toward the center or toward the south end of the premises; that under Section 7i there may be minor repairing for adjustments with hand tools only maintained solely within the accessory building for a similar term; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that signs shall be restricted to permanent signs attached to the facade of the accessory building and to the illuminated globes of the pumps excluding all roof signs and temporary signs but permitting the post standard hereinbefore permitted; that the sidewalk and curbing in front of the premises shall be reconstructed or restored to the satisfaction of the Borough President; that all permits shall be obtained and all work completed and a certificate of occupancy shall be obtained within the requirements of Section 22A of the Zoning Resolution.

776-55-BZ

APPLICANT—Patrick D. Concagh, for Fred Filonio, owner.

SUBJECT—Application September 30, 1955—decision of the borough superintendent) under sections 7c, 7f, and 7i of the zoning resolution, to permit in a business and residence use district, the erection and maintenance of a gasoline service station, car wash, lubritorium, sales room, and motor vehicle repairs with hand tools only.

PREMISES AFFECTED—3801-3811 Boston road and 3500-3512 Baychester avenue, northeast corner, Block 4895, Lot 6, Borough of The Bronx.

APPEARANCES—

For Applicant: P. D. Concagh.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on July 17, 1956 after due notice by publication in the Bulletin; laid over to July 24, 1956, for inspection and decision; hearing closed; then to September 18, 1956, for further consideration after applicant has filed more complete plans giving grades and showing the treatment of the premises in view of the grades and any retaining walls that may be necessary; then to October 2, 1956, at the request of the applicant to file further revised plans and other information requested by the Board at the meeting of July 24, 1956; hearing previously closed; then to October 23, 1956, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in business and residence use, C area, class 1 height districts; Boston road and Baychester avenue are in a business use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated June 14, 1956 acting on N. B. Applic. 1575-55, reads:

"1. On a premises located partly in business and partly in residence the proposed gasoline service station, car wash, lubritorium, stock room, sales room and

minor auto repairs (hand tools) is contrary to Sect. 4 & Sect. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 100.15 ft. frontage by 179.19 ft. in depth, irregular, now vacant; that it is proposed to construct a modern gasoline service station with accessory uses of lubritorium, car wash, office and salesroom for the storage and sale of automobile accessories and minor auto repairs; that the accessory building will be located at the rear of that portion of the plot which lies within the business use district; that actually no part of the proposed building or uses will extend into the residential district so that the residential portion of the plot will act as a buffer zone between the station and the residential area to the north of the site; that it is also proposed to construct an appropriate type fence dividing the two portions of the plot, should the Board so deem it necessary; that however, since adjoining lot No. 16 to the north of the site is now and always has been vacant, the distance between the nearest point of the gas station and the nearest built upon property to the north will be over 143 ft.; and

WHEREAS, the applicant states that the subject plot has a frontage of 100.15 ft. on Boston road by an irregular depth of 183.41 ft. along its western lot line on Baychester avenue and 179.19 ft. along its eastern lot line; that the plot is situated in a business and residential use, C area, class 1 height district; that Boston road to a depth of 100 ft. is in a business use district and the area to the rear is in a residential district; that as of July 25, 1916 the plot was located entirely in a residence district; that this designation was changed on January 20, 1927 to a business use for 100 ft. in depth along Boston road, its present designation; that the present area and height designations relate back to 1916 without change; and

WHEREAS, the applicant further states that most of the property in this locality consists of vacant lots; that block 4894 adjacent to the site on the west is entirely vacant except for lots 22 and 23 located on the far northwest corner of the block; that the adjacent block to the east of the site, No. 4896, is also vacant with the exception of lots 10 and 20 and well over 65% of the remaining lots within the affected area are vacant; that because of this undeveloped condition within the area and the general character of the neighborhood, especially along Boston road at this point, there is no economic demand at this time for the development of the site for any conforming use; and

WHEREAS, the applicant contends that the dispensing pumps will be located on the front of the plot, facing on Boston road; that this point will be the center of activity within the station and so will be well removed from any residential properties which might be affected by the operation of the station; that the operation of the proposed station will certainly not increase the nuisance from smoke, noise and odors which already exist on Boston road by reason of the heavy flow of traffic on that highway; that the proposed service station will fill a public need; that Boston road is a very heavily trafficked highway and it is the main thoroughfare for auto trucks to and from New England as well as the cities of Westchester county which lie along the shores of Long Island sound; that Baychester avenue is an important intersection which connects Boston road with northern Bronx and lower Westchester; that automobile traffic along Baychester avenue will increase immensely in the near future with the opening of the New England thruway; that the site is located three blocks from the thruway; that a grant of this application for a term of years, until such time as the character of the neighborhood changes, will therefore be in harmony with the general purposes and intent of the zoning resolution; and

WHEREAS, the applicant states that the present owner has held title to the property since December 13, 1954 and that the assessed valuation of land is \$14,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and also the plans have been studied as last submitted on October 17, 1956

MINUTES

and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of fifteen years to permit that portion of Lot No. 6 located wholly within the business use district to be maintained as a gasoline service station and accessory uses substantially as proposed and as indicated on plans filed with this application marked "Received September 30, 1955", one sheet, and "October 17, 1956", 3 sheets, *on condition* that the premises shall be levelled substantially to the grade of Boston Road with due consideration for the grading and shedding of water; that there shall be erected as may be required at the north end a retaining wall and along Baychester Avenue for a distance of approximately sixty feet; that on such retaining wall at the Baychester Avenue building line and the rear line of this gasoline service station plot and on the easterly line there shall be erected a woven wire fence of the chain link type not less than 5 ft. 6 in. in height, with suitable terminating posts; that the accessory building shall be located substantially where shown and for the use as indicated and of the design as shown on such plans; that the accessory building shall be faced on the front and two sides with face brick but may be faced with common brick at the rear; that pumps shall be of a low approved type erected not nearer than 15 ft. to the street building line of Boston Road; that gasoline storage tanks shall not exceed ten 550 gallon approved tanks; that curb cuts shall be restricted to two curb cuts to Boston Road each 30 ft. in width, where shown, and one within the first 25 ft. from the intersection not over 20 ft. in width; that at the intersection there shall be erected and maintained a block of concrete extending for a distance of not less than 5 ft. along either street line from the intersection and not less than 12 in. in height; that the premises where not occupied by accessory buildings and walls and pumps shall be paved with concrete or asphaltic pavement; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that under Section 7i there may be minor repairing for adjustments only maintained within the accessory building and with hand tools only; that signs shall be restricted to permanent signs attached to the accessory building and to the illuminated globes of the pumps excluding all roof signs and temporary signs but permitting the erection within the building line at the intersection of Baychester Avenue and Boston Road of one post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend over the building line for a distance of not more than 4 ft.; that the doors to the toilet rooms shall be relocated so as not to be contiguous; that there shall be no cellar; that all permits shall be obtained and work completed and a certificate of occupancy obtained within the requirements of Section 22A of the Zoning Resolution.

829-55-BZ

APPLICANT—Kitzler and Nurick, for George Braun, owner.

SUBJECT—Application October 24, 1955—re (decision of the borough superintendent) under sections 7a, 7e and 21 of the zoning resolution, to permit in a residence use district, a proposed extension of an existing office and carpet cleaning plant by new building built as an extension to an existing garage is contrary to resolution of Board of Standards and Appeals 239-30-BZ further premises is located in a residence use district and use of same for storage of rugs and carpets in conjunction with rug

cleaning plant is contrary to section 3 of zoning resolution.

PREMISES AFFECTED—222-31 96th avenue, north side, 72.94 ft. west of 224th street, Block 10811, Lot 24, Queens Village, Borough of Queens.

APPEARANCES—

For Applicant: Henry J. Nurick.

For Opposition: Charles Struckler.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on September 25, 1956 after due notice by publication in the Bulletin; laid over to October 23, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 224th street are in a residence use, E-1 area, class ½ height district; 96th avenue is in unrestricted and residence use, B area, class ½ height districts; and

WHEREAS, the decision of the borough superintendent, dated September 4, 1955 acting on N. B. Applic. 4248-55, reads:

"1. Proposed extension of existing office and carpet cleaning plant by new building built as an extension to existing garage is contrary to resolution of the Board of Standards and Appeals 239-1930 B.Z. further premises is located in a residence use district and use of same for storage for rugs and carpets in conjunction with rug cleaning plant is contrary to Sec. 3 of zoning resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 89.2 ft. frontage by 100 ft. in depth, irregular, occupied by drying platforms for rugs and carpets; that it is proposed to maintain these drying platforms and to erect a one story, class 3 constructed building, 30 ft. by 40 ft. in area, to be used for storage of carpets and rugs in conjunction with the carpet cleaning located in the business use district and in existence since 1926 on adjoining lot No. 19; and

WHEREAS, the applicant states that lot No. 19 is developed with a one story building used for offices and carpet cleaning, erected in 1926 when 95th avenue (Howell street) was in an unrestricted use district; that in 1930, this building was extended to the end of the lot under Cal. No. 239-30-BZ, with a one story extension, 16 ft. by 40 ft.; that on the same lot there also exists a garage, erected under N. B. Applic. No. 14722-25 for two commercial vehicles and one pleasure car; that lot 24, directly in the rear of the carpet cleaning plant, has been occupied with wood platforms of various sizes for the purpose of drying the cleaned carpets and rugs by exposure to the sun; that it is proposed to remove some of these platforms which have been in existence since 1934 and to erect the one story building for storage purposes, where carpets brought to be cleaned and carpets already cleaned, may be stored; and

WHEREAS, the applicant contends that this storage building will have a driveway through the gate in the existing fence on 96th avenue; that in inclement weather it is proposed to deliver the rugs through the garage on 95th avenue; that there will be a fireproof self-closing door between the garage and the new building; that these properties have always been in the same family ownership and operation; that the southerly side of 96th avenue, opposite the site, from 222nd street to 224th street is in an unrestricted use district and is occupied by factories and storage yards for various materials; that the northerly side of 96th avenue west of the site is occupied by one family dwellings and garages and east of the site, vacant lot No. 23, under the

MINUTES

same ownership as lots 19 and 24; that the neighborhood will not be affected by this new building as conditions will practically remain the same, and the neighborhood does not warrant a conforming use; that this use was established when the zoning was unrestricted and has continued and prospered to date, so that this new building which is to be used for storage purposes only, is an absolute necessity for its continued existence and growth; and

WHEREAS, the applicant states that the present owner has held title to the property since May 1, 1934; that the assessed valuation of land is \$2,700; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted as an extension of an existing use on Lot 19 to Lot 24; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit the extension of use on Lot 19 to Lot 24 as proposed and as indicated on plans filed with this application marked "Received October 24, 1955", 4 sheets, *on condition* that the building and occupancy shall comply with all laws and rules applicable thereto; that the door proposed may be constructed in the existing garage for access to Lot 19; that such fire fighting equipment shall be installed in the building on Lot 19 and proposed on Lot 24 as the Fire Commissioner shall require; and that all permits shall be obtained and work completed within six months from the date of this amended resolution and that a new certificate of occupancy obtained.

958-55-BZ

APPLICANT—Robert Gottlieb, for Thomas DeFilippo, owner (Carboni Bros., lessee).

SUBJECT—Application December 6, 1955—re (decision of the borough superintendent) under section 7i of the zoning resolution, to permit in a business use district, the installation of a motor vehicle repair shop in a 1 story extension to a 4 story multiple dwelling, encroaching on the rear yard of the multiple dwelling.

PREMISES AFFECTED—355 East 119th street and 2325 1st avenue, northwest corner, Block 1796, Lots 24 and 124, Borough of Manhattan.

APPEARANCES—

For Applicant: Robert Gottlieb and Gerald Levy.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Negative: Chairman Murdock, Commissioner Kleinert,
Commissioner Keating and Deputy Chief Connolly .. 4

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on September 18, 1956 after due notice by publication in the Bulletin; laid over to October 16, 1956, for inspection and decision; hearing closed; then to October 23, 1956, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and First avenue are in a business use, B area, class 1½ height district; East 119th street is in business and residence use, B area, class 1½ height district; East 119th street is in business and residence use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated December 2, 1955 acting on Alt. Applic. 779-55, reads:

"A1. The installation of a Motor Vehicle Shop on the 1st story contrary to Sec. 60 of the M. D. Law & Art. II Sec. 4 and subd. 15 of the Zoning Resolution."
and

WHEREAS, the applicant states that the premises consist of a plot, 25 ft. 2 in. frontage by 100 ft. in depth on which was erected, in about 1895, a four story old law tenement 60 ft. deep; that in 1936 a one story, class 3 building was erected in the 40 ft. rear yard under Alt. Applic. No. 1553-36 and used as storage and office under certificate of occupancy No. 21678-36; that it is proposed to legalize the use of motor vehicle repairing in the one story extension to a four story multiple dwelling; and

WHEREAS, the applicant states that in February, 1938 a 19 ft. curb cut application was filed (D. C. Applic. 18-38) and the use of the space was listed as junk shop and rag storage; that the zone at that time was unrestricted; that on May 28, 1938 the entire zone was changed from unrestricted, 1½, B, to business, 1½, B; and

WHEREAS, the applicant contends that in the early part of 1953 the present tenants rented the premises and began to use it as a two car motor vehicle repair shop; that this use has continued until the present time and the tenants now wish to legalize this use; that this application is filed to permit the use of the 25 ft. by 40 ft. extension, now on separate lot 124, as a motor vehicle repair shop, using hand tools only, for a term of five years; that by subdividing the lot the motor vehicle repair shop is now no longer connected to the apartment house; that an "A" application is being filed to accept the permanent easement as legal ventilation for the rear of the apartment house windows above the one story motor vehicle repair shop; that the character of the neighborhood would not be changed by the use of the premises as proposed as there is only room for two automobiles in the place and the work is performed by hand tools only; that no work is performed in the street; that the shop fills a need in the neighborhood as they are quite busy repairing motors and ignition for most of the car owners on the street and in the immediate vicinity; and

WHEREAS, the applicant states that the present owner has held title to the property since April 25, 1942; that the assessed valuation of land is \$12,000 and of the building \$10,000 making a total of \$22,000; that the building was erected in 1895 and the extension in 1936; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and careful consideration has been given by the Board to the conditions and the Board cannot act on granting a use herein permitted nor act on the "A" appeal under Cal. No. 959-55-A for the reason that assigning to this one story building a new lot number deprives the multiple dwelling on the corner of its required rear yard on the same lot as required; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivision i of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on Alt. App. 779-55, Objection No. A1 be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

959-55-A

APPLICANT—Robert Gottlieb, for Thomas DeFilippo, owner (Carboni Bros., lessee).

SUBJECT—Application December 6, 1955—filed pursuant to section 310 of the Multiple Dwelling Law for variation of section 212 (subdivision 1) of the Multiple Dwelling Law re minimum dimensions of yards or courts.

PREMISES AFFECTED—355 East 119th street and 2325 1st avenue, northwest corner, Block 1796, Lots 24 and 124, Borough of Manhattan.

Negative: Chairman Murdock, Commissioner Kleinert,
Commissioner Keating and Deputy Chief Connolly .. 4

MINUTES

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated December 2, 1955, on Amendment to Alt. Applic. 779-55, reads:

"A2. Repeat, reconsideration denied. The diminishing of a yard in a Multiple Dwelling not acceptable as same is contrary to Sec. 212, subd. 1 of the M. D. Law; reapportionment of plot not acceptable as same leaves the multiple dwelling without a yard."

and

WHEREAS, the applicant states the premises consist of a plot 25 ft. 2 in. front by 100 ft. in depth, located in a business use, B area, Class 1½ height district upon which there exists a one story building 10 ft. in height and a four story building 45 ft. in height, having a total area of 25 ft. 2 ins. by 100 ft. at the street level and 25 ft. by 60 ft. at typical floor level, of class 3 construction, erected 1895 and 1936, and used and occupied since 1953: cellar—boiler room and storage; 1st floor—stores and motor vehicle repair shop, 3 persons; 2nd, 3rd and 4th floors—two apartments each floor; and

WHEREAS, Certificate of Occupancy No. 21678 was issued September 30, 1936, against Alt. Applic. 1553-36 describing the building as a residence and business building multiple dwelling, Class A and permitting the following use and occupancy: cellar—storage and boiler room; 1st story: store (office and storage); 2nd to 4th floors—two apartments each floor; and

WHEREAS, the applicant states that the premises consist of a corner lot upon which there exists a four story Old Law multiple dwelling 60 ft. deep and a one story extension 40 ft. in width using the complete rear yard of the lot; the rear one story building has been used as a motor vehicle repair shop contrary to Section 60 of the Multiple Dwelling Law and the owner has now reapportioned the lot, leaving the multiple dwelling on Lot 24 and the motor vehicle repair shop on Lot 124, and has filed a permanent easement with the Registrar of the City of New York limiting the height of the motor vehicle repair shop to one story, thus insuring a yard at the second floor level for the multiple dwelling; and

WHEREAS, the applicant contends that as the reapportionment and the easement are unacceptable to the Department of Buildings, it is requested that the Board accept the permanent easement as substantial compliance with the requirements of Section 212, subdivision 1, of the Multiple Dwelling Law; and

WHEREAS, the applicant contends that as the building is in a business district, the rear yard can be built upon to a height of 23 ft. and as the existing building is only 13 ft. in height in the rear and the yard above is open to the sky, it is therefore requested that the permanent easement be accepted as providing a legal rear yard which is 40 ft. in depth instead of the 13 ft. depth required by the Multiple Dwelling Law; and

WHEREAS, the applicant states that even if the premises are sold separately the limitation set forth in the easement will permanently insure a legal rear yard behind the corner multiple dwelling above the first floor level; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and careful consideration has been given by the Board to the conditions and the Board cannot act on granting a use herein permitted nor act on the "A" appeal for the reason that assigning to this one story building a new lot number deprives the multiple dwelling on the corner of its required rear yard on the same lot as required.

Resolved, that the decision of the borough superintendent, acting on Alt. App. 779-55, Objection No. A2 be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

Commissioner Keating and Deputy Chief Connolly .. 4

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on September 25, 1956 after due notice by publication in the Bulletin; laid over to October 23, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Richardson avenue and Matilda avenue are in business and residence use, C area, class 1 height districts; Nereid avenue is in a business use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated November 17, 1955 acting on N. B. Applic. 1850-55, reads:

"1. Proposed use of gasoline service station, minor auto repairs, lubritorium, car wash and overnight parking for more than five motor vehicles in a Res. & Bus. use district is contrary to Art. II Sect. 3 & 4 of the Z. R."

and

WHEREAS, the applicant states that the premises consist of a plot, 200.02 ft. frontage by 125.01 ft. in depth, irregular, now vacant; that it is proposed to construct a gasoline service station of modern design with accessory uses of lubritorium, car wash and office for the storage and sale of accessories and for minor repairs; that the accessory building will be located at the rear of the plot but within the business district; that in fact, no part of the station or its uses will extend into the residential portion of the plot, which is approximately 25 ft. by 100 ft. in area; that the accessory building will be white porcelain faced so as to be in harmony with the residential character of the area to the north and south of Nereid avenue; that the site will be levelled off substantially to grade and surfaced with porous asphalt paving except at the concrete islands where the dispensing pumps are located; that it is also proposed to use part of the business portion of the plot for accessory parking of cars awaiting service and no fee will be charged; and

WHEREAS, the applicant states that the property which is the subject of this application is located on the southerly side of Nereid avenue between Richardson and Matilda avenues, and covers the entire block front of 200 ft. and extends in depth along Matilda avenue to a distance of approximately 125 ft. and along Richardson avenue to a distance of 75 ft.; that the plot is entirely vacant and formerly consisted of lots 26, 29, 32, 34 and 35; that these tax lots were recently consolidated into one, which is now known as lot No. 26; and

WHEREAS, the applicant states that the site is situated in a business and residential use, C area, class 1 height district; that Nereid avenue, on both sides of the avenue, for a depth of 100 ft., is located in a business use district and this business use zone extends westward as far as a point 100 ft. west of Carpenter avenue from whence the zone changes to unrestricted; that Carpenter avenue is one block west of the site; that the unrestricted zone extends west-

MINUTES

ward, at this point, across Bronx boulevard, Bullard avenue, Bronx River parkway, the railroad tracks and as far as Webster avenue; that there has been no change in zone since 1916 and there is no application pending at the present time for a change in zone; and

WHEREAS, the applicant further states that along Nereid avenue, at this point, the prevailing uses are stores with residential quarters above these stores; that there are also parking lots, a funeral parlor, a church and a diner; that two blocks west of the site, on the northwest corner of Bronx boulevard and Nereid avenue there is a three story factory and on the southwest corner there also exists a three story factory; that on the southeast corner, directly opposite, there is a large Tydol gasoline station and directly opposite that, on the northeast corner, there is a very small Texaco station; that the southwest corner of Carpenter avenue and Nereid avenue, one block from the site, is being used as a parking lot and car wash, which may or may not be part of the Tydol station; that directly opposite the site, on Nereid avenue, there is a wooded area which extends across the block front and extends to a depth of about 75 ft.; that between Richardson avenue and White Plains road, on the south side of Nereid avenue, there are stores, a parking lot and a multiple dwelling; that on the north side of the avenue, there are stores, a funeral parlor and a church; that the elevated structure of the White Plains road branch of the east side I.R.T. subway runs along White Plains road, one block away from the site; that there is a subway station on Nereid avenue; that White Plains road is developed exclusively with retail stores which extend for several blocks north and south of Nereid avenue; that this is the shopping center for this area and abundantly supplies the needs of the residents of this neighborhood; that Matilda and Richardson avenues, 100 ft. north and 100 ft. south of Nereid avenue, are residential; and

WHEREAS, the applicant contends that the residential area to the north of Nereid avenue certainly will not be adversely affected; that Nereid avenue is 100 ft. wide at this point and is a very heavily trafficked highway; that the principal activity of the station will be confined to the front of the plot which faces on Nereid avenue and this will be some distance away from any residential building; that Nereid avenue is one of the principal cross county thoroughfares in northern Bronx; that it intersects and connects with such main highways as Baychester avenue, White Plains road, Bronx River parkway and Webster avenue as well as McLean avenue which is its continuation to Westchester county; that Bronx River parkway is located a short distance to the west of the site, a distance of approximately six short blocks, and because of the recent widening of this parkway, auto traffic along Nereid avenue is on the increase; that the proposed station will not only serve the needs of this traffic increase but will also serve the large residential area to the north and south of Nereid avenue; that there is no economic demand at the present time for the development of the plot for any conforming use, such as stores or dwellings as the neighborhood is over-supplied by the presence of large numbers of retail stores along White Plains road, while the nuisances of automobile traffic on Nereid avenue and the proximity of the elevated structure, a block away, makes any residential development undesirable; and

WHEREAS, the applicant states that the present owner has held title to the property since May 19, 1953 and that the assessed valuation of land is \$17,400; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should not be granted; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivisions e, f, i and h of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on N. B. App. 1850-55, Objection No. One be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

10-56-BZ

APPLICANT—Raymond Irrera, for Rebann Laundry Corp., owner.

SUBJECT—Application January 11, 1956—(decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district, the change in use of an existing dwelling to offices.

PREMISES AFFECTED—32-78 47th street, west side, 119.12 ft. north of 34th avenue, Block 722, Lot 70, Long Island City, Borough of Queens.

APPEARANCES—

For Applicant: Raymond Irrera.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 2, 1956 after due notice by publication in the Bulletin; laid over to October 23, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, B area, class 1½ height district; 47th street is in residence, restricted retail and manufacturing use, B area, class 1½ height districts; 34th avenue is in manufacturing, restricted retail and unrestricted use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated December 15, 1955 acting on Alt. Applic. 1901-55, reads:

"1. Proposed conversion to an office building, within a residence use district is contrary to Art. II Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 34 ft. frontage by 50 ft. in depth, on which is located a two family dwelling; that it is proposed to change occupancy of existing dwelling to offices; and

WHEREAS, the applicant states that the premises consist of a plot, having a frontage on 47th street of 34 ft. and a depth of 50 ft., this plot being subdivided from the original plot known as block 722, lot 70, which had a frontage on 47th street of 65.10 ft. and a depth of 50 ft.; that the plot is located in a residence use, B area district and a 1½ times height district, upon which there is a one story and cellar frame building 25.34 ft. front by 36.74 ft. deep, erected as a two family dwelling under N.B. 286 of 1902, occupied as follows: cellar—storage; 1st floor—two 3-room apartments; that the premises were altered by the present owners by the erection of a toilet extension at the side of the building, the installation of a new private bathroom at the rear of the building, replacing two entrance doors with one, building new front stoop of brick with iron railings and minor alterations to the interior partitions, creating one general office and two private offices, and general renovation of floors, walls and ceilings; that all of the work was done on the 1st floor in November, 1953 and the building used for office use since that date; that the building houses the offices of the Rebann laundry corporation, who are also owners of the one story brick laundry building located in block 723 and known as lot 8, and also owners of block 722, lot 72; and

WHEREAS, the applicant contends that the occupancy as an office building with three male and three female employees is a quiet and non-disturbing occupancy, with no hazards

MINUTES

of any kind, and that the offices are located in the subject building because there is no space available in the laundry building across the street; that since there are non-conforming uses in this same block, such as brick garage in block 722, lot 65 to the north and adjacent to subject property and a portion of the laundry building across the street to the east in block 723, lot 8, and since the subject premises is close to 34th avenue which is zoned a business use and merely 19 ft. north of the business use district line, that a grant of this application would have no adverse effect upon the character of the neighborhood; and

WHEREAS, the applicant states that the present owner has held title to the property since June 3, 1953; that the assessed valuation of land is \$7,000 and of the building \$5,000 making a total of \$12,000; that the building was erected in 1902; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of five years, to permit the use of the building as proposed as an office for the laundry occupying lot 8 in Block 1723 across 47th street, and to permit the alterations as proposed and shown on plans filed with this application, marked "Received January 11, 1956", 7 sheets, *on condition* that no further uses shall be made of the building other than as herein permitted; that the building shall not be increased in height or area and in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified this day by the Board under Cal. 11-56-A; that the unbuilt upon space shall not be used for the parking or storage or trucks or other motor vehicles; and that all permits including a certificate of occupancy shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

11-56-A

APPLICANT—Raymond Irrera, for Rebann Laundry Corp., owner.

SUBJECT—Application January 11, 1956—Appeal from a decision of the borough superintendent, re use of frame building-offices.

PREMISES AFFECTED—32-78 47th street, west side, 119.12 ft. north of 34th avenue, Block 722, Lot 70, Long Island City, Borough of Queens.

APPEARANCES—

For Applicant: Raymond Irrera.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated December 15, 1955, on Alt. App. 1901-55 reads:

"2. Occupancy of a frame building for Business Use is contrary to Sec. 4.2.1. of the Bldg. Code."

"3. Extension of a frame building within the fire limits is contrary to Sec. 4.1.2. of the Bldg. Code."

and

WHEREAS, the applicant states the premises consist of a lot 34 ft. front by 50 ft. in depth, located in a residence use, B area, Class 1-1/2 height district, upon which there exists

a one story and cellar frame building, 25.34 ft. front by 36.54 ft. in depth, erected as a two-family dwelling under N.B. App. 286-1902 for occupancy as follows: cellar—storage; 1st floor—two 3-room apartments, and later altered by the erection of a toilet extension at the side in November, 1953; and the building has been used for office use since that time; that the building is used for offices of the Rebann Laundry Corporation, the owner of the one-story brick laundry building located on Lot 8 in Block 723, and the owner of Lot 72, in Block 722; and

WHEREAS, the applicant contends that the use of the building as an office building with three male and three female occupants is a non-disturbing occupancy with no hazard of any kind; that the offices are located in this building because there is no space available in the laundry building across the street; that even though the building is frame, the type of use proposed does not constitute a hazard, and since the building is only one story in height and has an area of approximately 925 sq. ft., it is requested that the Board modify the decision of the borough superintendent as to Item No. 2 of that decision so as to permit the use as proposed; and

WHEREAS, the applicant contends as to Objection No. 3 issued by the borough superintendent that the extension at the side of the building was erected for toilet facilities only and is a mere 35 sq. ft. in area; and it is therefore requested that a variance be granted as to this objection; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the decision of the borough superintendent, dated December 15, 1955, acting on Alt. App. 1901/55, Objections 2 and 3, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the use and the requirements of the building shall be in accordance with the resolution adopted this day by the Board under Cal. 10-56-BZ.

68-56-BZ

APPLICANT—Paul Friedman, for Edward J. Blumberg, Ira Blumberg and Etta Blumberg, Executors of Julius Blumberg, owners.

SUBJECT—Application January 30, 1956—(decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a business use district, the erection and maintenance of a gasoline service station, lubricatorium, minor repairs with hand tools only, car washing (non-automatic), office, storage and sale of auto accessories, parking and storage of more than 5 motor vehicles awaiting service, for a term of 15 years; proposed station partially in the bed of a mapped street.

PREMISES AFFECTED—142-18 to 142-20 Rockaway boulevard and 126-01 to 126-09 142nd street, southeast corner, Block 12059, Lot 7, South Ozone Park, Borough of Queens.

APPEARANCES—

For Applicant: Paul Friedman.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 2, 1956 after due notice by publication in the Bulletin; laid over to October 23, 1956, for inspection and decision; hearing closed; and

MINUTES

WHEREAS, the district maps accompanying the zoning resolution show that the site and Rockaway boulevard are in a business use, D area, class 1 height district; 142nd street is in business and residence use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated January 12, 1956 acting on N.B. Applic. 5499-55, reads:

"1. The use of a premises for a gasoline service station, minor auto repairs (with hand tools only), auto laundry (non-automatic), parking for more than 5 cars awaiting service and sale of auto accessories is contrary to Art. 2 Section 4, s.s. 15, 29, 46 of zone resolution.

3. Sign & light standard contrary to Article 2, Sect. 4 s.s. 49 of zone resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 70 ft. frontage by 95.28 ft. in depth, irregular, now vacant that it is proposed to construct and maintain for a term of fifteen years, a two bay gasoline service station with the customary accessory uses; that no portion of the proposed building will be in the bed of the mapped street; and

WHEREAS, the applicant contends that there is no economic demand for the development of the subject premises for a conforming use; that the property has been in the Blumberg family for approximately 25 years, having been purchased by Julius Blumberg now deceased; that upon the death of Julius Blumberg, title devolved to the present owners, who are executors of his estate, subject to the dower interest of his wife; that diligent effort, both before and after the death of Julius Blumberg, to sell or lease or develop the property for a conforming use have been fruitless, as is more fully set forth in a letter dated January 5, 1956, copy of which is submitted with this application; that there is an economic demand for the development of the subject premises for the proposed use, as Rockaway boulevard is a main thoroughfare carrying a substantial volume of automobile traffic and the owners have had several offers to lease or sell the property if it can be used as a gas station; that a grant of this application would not adversely affect the surrounding neighborhood; that only one curb cut is proposed on 142nd street, located within 25 ft. of Rockaway boulevard so that the provisions of section 7A will not be violated; that a conforming parking lot could have its curb cut 5 ft. away from its southerly lot line instead of 65.28 ft. as proposed herein; that the properties which abut the southerly lot line would be protected by the erection of a 5 ft. 6 in. high brick fence wall except where the unpierced rear wall of the proposed building occurs, and along the building line of 142nd street a similar wall will be constructed from the southerly lot line to a distance of approximately 30-ft. south of Rockaway boulevard; that within the above mentioned fence walls, a 3 ft. wide landscaped area would be maintained for the functional purpose of protecting the wall from impact by automobiles; that the proposed building would be set back more than 65 ft. from the intersection of the building lines of Rockaway boulevard and 142nd street, thus promoting public safety; that the proposed building, being small in area and height, would afford more light and ventilation to nearby properties than would be provided through a conforming building; that the proposed building would occupy only 1410 sq. ft. or 21% of the area of the plot, in contrast with a permissible area of coverage of 5502 sq. ft. or 82%, and it will be only 15 ft. 6 in. in height in contrast to a permissible 87½ ft. in height; that the character of the neighborhood would not be adversely affected as the residential area south of the premises will be protected as aforesaid; that the residential area starting 100 ft. north of Rockaway boulevard is too remote to be affected in any way by the proposed use and the business district of Rockaway boulevard, which has numerous small stores, already has a used car lot at block 12039, lot 82 and an auto parts use at block 12059, lot 34; that the existing billboard sign would be removed and the proposed use would be maintained in a

clean and sanitary manner; that the car washing would be of the non-automatic type and will not create the hazards incident to the speed laundry type of operation; that minor repairs would be with hand tools only and will exclude heavy collision work, welding and spraying; that the proposed sign and light standard is a customary accessory to a gas station; and

WHEREAS, the applicant states that the present owners have held title in executors and dower right in widow since May 9, 1955 and title in Julius Blumberg (deceased) from August 7, 1930 until death; that the assessed value of lot 7 is \$3,400 and of lot \$4,000 making a total of \$7,400; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions f and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of fifteen years, to permit the plot to be occupied for a gasoline service station and accessory use, as proposed and indicated on plans filed with this application marked "Received January 30, 1956", 1 sheet, "February 6, 1956", 2 sheets and "February 14, 1956", 1 sheet, *on condition* that any buildings or uses on the premises shall be removed and the plot graded substantially to the grade of Rockaway boulevard and constructed and arranged substantially as indicated on the aforementioned plans and in accordance with the requirements of this resolution; that the accessory building shall be of face brick on the exterior and be in harmony in design with the requirements of a residential district, shall have no cellar and shall be substantially arranged as indicated on such plans; that its design shall be submitted to the Board for further consideration and approval within one month from the date of this resolution; that there shall be no windows in the rear wall of the accessory building; that such retaining walls shall be constructed as may be necessary to support the higher bank of the adjoining premises, erected and maintained at the expense of this owner; that along the side lot line of 142nd street but removed 5 feet therefrom there shall be erected a masonry wall of face brick for the distance shown on plans; that on the easterly lot line there may be maintained a woven wire fence of the chain link type, erected on a masonry base to a total height of not less than 5 feet 6 inches; that planting shall be maintained to the west of the wall and between such wall and the building line, as indicated, maintained with suitable shrubbery material, and protected with a concrete curbing as proposed 10 in. in height and 10 in. in width; that the sidewalks and curbing abutting the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that curb cuts shall be restricted to two to Rockaway boulevard, each not over 25 ft. in width and one to 142nd street, where shown within the first 25 feet from the intersection and not over 20 ft. in width; that pumps shall be of a low approved type erected not nearer than 15 ft. to the street building line of Rockaway boulevard; that gasoline storage tanks shall not exceed ten 550 gallon approved tanks; that the balance of the premises where not occupied by accessory building, walls, and pumps shall be paved with concrete or asphaltic paving; that under section 7i there may be for a similar term minor repairing for adjustments only with hand tools, maintained solely within the accessory building; that any other use herein proposed not within the provisions of subdivisions f and i of Section 7 may be permitted under section 7e; that there may be parking and storage of motor vehicles awaiting service; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified by the Board this day under Cal. 69-56-A; and that all permits required shall be obtained, including a certificate and all work completed within the requirements of Section 22A of the Zoning Resolution.

69-56-A

APPLICANT—Paul Friedman, for Edward J. Blumberg, Ira Blumberg and Etta Blumberg as Executors of Estate of Julius Blumberg, owners.

SUBJECT—Application January 30, 1956—filed pursuant to section 35, General City Law re premises in bed of mapped street—142nd street.

PREMISES AFFECTED—142-18 to 142-20 Rockaway boulevard and 126-01 to 126-09 142nd street, southeast corner, Block 12059, Lot 7, South Ozone Park, Borough of Queens.

APPEARANCES—

For Applicant: Paul Friedman.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated January 12, 1956, on N.B. Applic. 5499-55 reads:

"2. Proposed gas station lies partially in bed of mapped st. Secure approval of Bd. of Standards and Appeals as per Sec. 35 of General City Law."

and

WHEREAS, the applicant states the premises consist of a lot 70 ft. front by 95.28 ft. irregular in depth, located in a business use, D area, class one height district, upon which it is proposed to erect a one story, 15 ft. 6 in. high, class 3 constructed building, 47 ft. front by 30 ft. in depth, for use as a gasoline service station, and accessory uses, and to use the balance of the plot for parking of more than five cars awaiting service; and

WHEREAS, the applicant has filed a copy of communication dated December 7, 1955, from the Borough President, stating that Section 138 of the Final Map was approved by the Board of Estimate October 24, 1919 and indicates that 142nd street between the intersecting streets in question to have a width of 60 ft.; that the acquisition of title to the land required for this widening will cause the taking of about 5 ft. from the property on each side; that no condemnation proceedings are contemplated since no petitions have been filed by adjacent property owners for the acquisition of title and improvement of this street to its mapped width; and

WHEREAS, the applicant states that no damages will be claimed by the owner against the City by reason of the condemnation of the portion of the plot within the bed of the mapped street widening arising out of the establishment of the proposed use, or by reason of compliance with and conditions which the Board may impose in connection with application filed for zoning variance under Cal. No. 68-56-BZ; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the decision of the borough superintendent, acting on N.B. App. 5499/55, Objection No. 2 be and it hereby is *modified* under the powers vested in the Board by Section 35 of the General City Law, and that the appeal be and it hereby is *granted*, to permit the use of that portion of the premises within a mapped street, *on condition* that the requirements of the resolution adopted this day by the Board under Cal. 68-56-BZ shall be complied with; that in the event there is a proposal to condemn the property for such street widening, this application shall be resubmitted to the Board for reconsideration as to conditions.

95-56-BZ

APPLICANT—Ervin Palmer, for 85 Lewis Street Realty Inc., owner.

SUBJECT—Application February 10, 1956—(decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a retail and residence use district, a proposed garage for five (5) motor vehicles (trucks) on a lot partly in a residence use district is not permitted in a residence use district by Art. II, Sec. 3 of the Zone Resolution. Proposed 100% coverage of an interior lot by a garage partly within a residence use district and wholly in a C area district is not permitted by Art. IV, Sec. 13b of the Zone Resolution.

PREMISES AFFECTED—111 Madison street, north side, 85 ft. west of Market street, Block 277, Lot 19, Borough of Manhattan.

APPEARANCES—

For Applicant: Ervin Palmer.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 2, 1956 after due notice by publication in the Bulletin; laid over to October 23, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Henry street and Market street are in retail and residence use, C area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated January 13, 1956 acting on N.B. Applic. 144-55, reads:

"1. Proposed garage for five (5) motor vehicles (trucks) on a lot partly in a residence use district is not permitted by Art. II, Para. 3 of the Zoning Resolution.

2. Proposed 100% coverage of an interior lot by a garage partly in a residence use district and wholly in a "C" area district is not permitted by Art. IV, Para. 13(b) of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 25 ft. frontage by 100 ft. in depth, now vacant; that it is proposed to erect a garage of class 3 construction, one story in height, to be used by the owner as a garage for five trucks for removal of building rubbish; and

WHEREAS, the applicant states that there is a corporate ownership, but all of its stock is held by Max Uram whose business is, and his father's business before this, building rubbish removal; that he owns three or four trucks which are loaded at various jobs, dumped and then the empty trucks are returned to their home garage; that the Urams have always been located in this section of the city and their garage must be located close to home because of the necessity for an early start and other personal reasons; that they were successively ousted from their homes and garages by property condemnation proceedings, never by their own choice; that for many years they were located at 328 Stanton street until a City-housing project forced them to move in 1947 or 1948 to 85 Lewis street and thereafter to their present building at 63 Willett street, which is a combined residence and garage building; that when rumors started about condemnation proceedings against this property recently, Uram looked for and purchased the parcel which is the subject of this application; that if this appeal should be granted, he would only have his garage here and would reside nearby, but elsewhere; that it is requested that the Board grant approval to build on the entire property extending from the conforming (retail) district into the non-conforming residential zone; that a building smaller than requested would not give sufficient space for our trucks and for reasonable expansion; that to the rear of the subject

MINUTES

lot, the property is vacant; that when the owner built his last garage and residence, about four years ago, he was permitted full occupancy on his property which was then also in a C zone; that section 13b then permitted 100% occupancy for a lawful garage and now the same law reads accessory garage; that because the city is compelling the owner to leave this location and go to the new one, it is felt that he should be given the same area as was his in 1952 by granting this variation; and

WHEREAS, the applicant states that the present owner has held title to the property since June 28, 1955 and that the assessed valuation of land is \$6,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution, as to use, and that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21, and is therefore entitled to relief, as to area, on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use and area district regulation of the zoning resolution and that the application be and it hereby is granted under Section 7c as to use for a term of 20 years, and Section 21 as to area coverage, to permit the erection of the proposed one-story garage, as indicated on plans filed with this application, marked "Received February 10, 1956", 3 sheets, on condition that all buildings and uses now on the premises shall be removed; that the building shall in all other respects comply with all laws, rules and regulations applicable thereto; that there shall be no windows in such garage opening on adjoining premises at either side or rear; that there may be roof skylights provided same are not nearer than 15 feet to the rear lot line; that such portable fire-fighting appliances shall be installed as the fire commissioner shall direct; that there shall be no cellar in the building; that the use herein permitted shall be for the use or storage of five trucks of the owner for use in removal of building rubbish, as proposed; and that all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

114-56-BZ

APPLICANT—Carl H. Salminen, for Graziano Pressimone, owner.

SUBJECT—Application February 17, 1956—re (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use G-1 area district, the proposed erection of a two family dwelling, with less than the required side yards, with parking in the required 15 ft. setback from 155th street.

PREMISES—35-24 and 35-26 155th street, west side, 202.10 ft. north of Northern boulevard, Block 5625, Lots 32 and 33, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Carl H. Salminen and Henry V. Pecora.

For Opposition: John F. Fitzsimons.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly .. 4

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on September 18, 1956 after due notice by publication in the Bulletin; and laid over to October 16, 1956, for inspection and decision; hearing closed; then to October 23, 1956, at request of applicant's representative and for decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in residence and local retail

use, G-1 area, class ½ height districts; Northern boulevard is in business and retail use, C area, class ½ height districts; 35th avenue is in residence and local retail use, G-1 area, class ½ height districts; 155th street is in business, retail and residence use, G-1 and C area, class ½ height districts; and

WHEREAS, the decisions of the borough superintendent, dated February 15, 1956 acting on N.B. Applies. 480-56 and 481-56, read:

"1. Erection of two family dwelling in a G-1 zone is contrary zoning resolution sect. 16-C (a).

2. In a G-1 zone each building shall have two side yards of at least 5'-0" each, extending the full depth of lot as per Zoning Resolution Sect. 16-C (c).

3. Required front yard cannot be used as parking area. Required setback in G-1 zone is 15'-0" min. as per Zoning Resolution Sect. 16-C (b)."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 ft. frontage by 101.63 ft. in depth, now vacant; that it is proposed to erect and maintain two 2-family solid masonry attached dwellings, each 22 ft. front by 47 ft. in depth, 3 stories in height, with less than two 5 ft. side yards each and with parking in the required 15 ft. setback;

WHEREAS, the applicant states that the area was changed from residence C to residence G-1 on June 7, 1949 and the height was changed from height 1 to height ½ on July 17, 1952; that there are no changes pending in the city planning commission; and

WHEREAS, the applicant contends that plans for a one family dwelling under N.B. 4164-55 were approved by the department of buildings on November 21, 1955; that the owner applied for a mortgage from the Dime Savings Bank in Brooklyn and was refused on the grounds that the locality did not warrant a one family dwelling due to the proximity of an apartment house, used car lot, gas station, brake testing center, warehouse and other two family dwellings; that the owner also applied for mortgages with five other local banks but they would only grant approximately 50% of the true valuation; that the owner was in no financial position to invest capital of his own to the extent of 50%; that the other recourse for the owner is to build two family dwellings on which he could receive an appropriate loan to carry out the venture; that the owner is anxious to vacate from his present quarters and move into one of the proposed two family dwellings; that in view of the hardship and expense that the owner has gone through, it is requested that the Board vary the provisions of the zoning resolution in allowing two family dwellings to be erected and to waive the side and front yard requirements; that the general purpose, intent and harmony of the surrounding character of the community will not be impaired by the granting of these variances; and

WHEREAS, the applicant states that the present owner has held title to the property since July 15, 1955 and that the assessed valuation of land is \$3,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that the applicant failed to substantiate a basis to warrant exercise of discretion to grant under Section 21 of the zoning resolution and was therefore not entitled to relief on the grounds of practical difficulty or unnecessary hardship.

Resolved, that the decision of the borough superintendent, acting on N.B. App. 480-56 and 481-56, Objections No. 1, 2 and 3 be and it hereby is affirmed and that the application be and it hereby is denied.

119-56-BZ

APPLICANT—William A. Giesen, for Frank Gaudio, owner.

SUBJECT—Application February 17, 1956—(decision of the borough superintendent) under section 7b of the zoning resolution, to permit partly in a C area and partly in an E-1 area district, the conversion of a two family dwelling to a 3 family dwelling.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 2, 1956 after due notice by publication in the Bulletin; laid over to October 23, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in retail and residence use, C and E-1 area, class 1¼ height districts; Williamsbridge road is in business and retail use, C and E-1 area, class 1¼ height districts; Neill avenue is in retail, business and residence use, C and E-1 area, class 1¼ height districts; and

WHEREAS, the decision of the borough superintendent, dated February 8, 1956 acting on Alt. Applic. 875-55, reads:

"A1. The proposed conversion of the existing two story and basement brick dwelling now occupied by two families, erected April 21, 1947 and lying partially in an E-1 district and partially in a C area zone to a multiple dwelling is contrary to Sect. 15A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 ft. frontage by 100 ft. in depth, on which is located a two family dwelling; that 50% of this plot is presently zoned as retail use, C area, the other 50% is zoned as residence use, E-1 area and the entire plot is located within a class 1¼ height district; that as of July 25, 1916 the property in question was zoned as a business use, C area; that the present use designations and the E-1 area designation became effective on December 14, 1953; that the height designation has not been changed since July 25, 1916; and

WHEREAS, the applicant states that the present owner purchased the property on June 18, 1946, the year the house was erected; that at that time the owner was led to believe by the builder that the premises could be legally occupied as a three family dwelling, since the approved plan called for a room arrangement in the basement obviously indicated as an apartment although listed otherwise, including a full bathroom and combination sink and tub; and

WHEREAS, the applicant states that Williamsbridge road which is 75 ft. west of the property in question is zoned as retail use south of Neill avenue and business use north of Neill avenue; that the corner property adjacent to the premises under appeal is occupied for commercial purposes and the northwest corner of Neill avenue and Williamsbridge road is occupied by billboards; that the 175 ft. plot on the west side of Williamsbridge road is occupied as a gas station and beyond that is a garage and factory, while all the lots on the entire east side of Williamsbridge road, shown on the block diagram which have been developed, have been developed for commercial use; and

WHEREAS, the applicant contends that the building has been continuously occupied since its purchase by three families, and prior to the change in zone on December 14, 1953, a certificate of occupancy for three families could have been obtained by filing the necessary plans and application with the building department and the making of a few minor alterations for compliance with the multiple dwelling law; that the owner of this building is well along in years and does not earn more than a moderate income and requires

the income from this basement apartment to carry the cost of house and high tax burden; that the present classification by the tax department is "C-5—Converted Dwelling"; that for these reasons and particularly because premises are located partly within a retail use, C area district, and to attempt to upgrade the zoning of a neighborhood already developed to the extent of this one under appeal, creates a hardship on owners such as this one, it is requested that the Board grant the variance sought; and

WHEREAS, the applicant states that the present owner has held title to the property since June 18, 1946; that the assessed valuation of land is \$3,600 and of the building \$16,400 making a total of \$20,000; that the building was erected in 1946; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which noted that the premises are located partly in one district and partly in another and that in the C area district the use herein proposed could be permitted, and also noted that the premises are now occupied by three families; and

WHEREAS, the applicant changed the basis of his application from Section 21 to Section 7b; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision b of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7b, to permit the use as proposed extending into the more restricted district, substantially as proposed and indicated on plans filed with this application, marked "Received February 17, 1956", 7 sheets, *on condition* that the building shall not be increased in height or area and that the building and occupancy in all other respects shall comply with all laws, rules and regulations applicable thereto; and that all permits required, including a new certificate of occupancy, shall be obtained and all work completed within six months from the date of this resolution.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on September 11, 1956 after due notice by publication in the Bulletin; laid over to September 18, 1956, at the request of an objector; no further request for adjournment; then to October 16, 1956, for inspection and decision; hearing closed; then to October 23, 1956, for inspection and decision; and

MINUTES

WHEREAS, the district maps accompanying the zoning resolution show that the site, Ogden avenue, West 167th street and Union place are in local retail and residence use, B area, class 1 $\frac{1}{4}$ height districts; and

WHEREAS, the decision of the borough superintendent, dated March 14, 1956 acting on N.B. Applic. 288-56, reads:

"1. In a residence and local retail use districts the proposed 'Gas & oil selling station, office, salesroom, lubritorium, car washing, storage, minor repairs with hand tools in accessory building only, and parking and storage of motor vehicles' is contrary to sections 3 and 4-C of the Zon. Res.

2. Proposed curb cut within 75' of the Residence district is contrary to Sect. 7A of the Zon. Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 217.58 ft. frontage by 167.56 ft. in depth, irregular, presently developed with two 1-story metal garages 45 ft. by 18 ft., a one story frame shop 12 ft. by 21 ft. 6 in. and a three story frame store and dwelling 45 ft. by 45 ft., irregular in shape; that the open portion of the plot is being used for parking and storage of motor vehicles; that it is proposed to demolish the present building and secure a variance for a period of fifteen years in order to erect a modern gas station consisting of ten 550 gallon approved type buried gasoline tanks and six dispensing pumps; that the contemplated accessory building will be one story in height, of class 3 construction with a frontage of 75 ft. and a depth of 28 ft. and 60 ft., being irregular in shape, and contain the conjunctive uses of lubritorium, car wash, minor auto repairs with hand tools only, storage room, office and sales; that the open area not used for the gas station will be reserved for the parking and storage of motor vehicles; that it is further proposed to erect a 5 ft. 6 in. high chain link fence on the existing retaining wall along the northerly lot lines, where the buildings do not occur; that the entire plot will be leveled substantially to the grade of Ogden avenue and West 167th street; that there are no windows in the north wall of the accessory building, so that the operation within the building will be strictly confined, with no emission of possible noise; that the gasoline pumps as proposed, not nearer than 15 ft. from the Ogden avenue building line, will afford ample protection to pedestrian travel and will keep the cars being serviced off the sidewalk; that the curb cuts as proposed with a minimum of 25 ft. between curb cuts will provide a safety island on the sidewalk and allow normal pedestrian travel to pass the proposal with safety; and

WHEREAS, the applicant states that the premises are located in a class B area district and class 1 $\frac{1}{4}$ height district; that part of the premises within 100 ft. of Ogden avenue is in a local retail use district and the balance of the premises is in a residence use district; that as of July 25, 1916 the entire premises was in a business use district and received its present use designation on May 20, 1952; and

WHEREAS, the applicant further states that the one story metal garage facing Ogden avenue was erected under B.N. 331-1929 and certificate of occupancy No. 1638 of 1929 was issued for use as a five car garage; that the one story metal garage facing West 167th street was erected under B.N. 493-1928 and certificate of occupancy No. 1355-28 was issued for use as a five car garage; that there were no records available for the one story frame shop facing Ogden avenue or for the three story frame store and dwelling; that the open portion of the plot now being used for parking and storage of motor vehicles was installed under Alt. Applic. No. 880-1950 and certificate of occupancy No. 7974-1950 was issued for use as parking and storage of motor vehicles; and

WHEREAS, the applicant contends that the proposal would furnish more permanent light and ventilation to the nearby properties than a conforming use since the proposed building will be one story in height and occupy an area of 2,676 sq. ft., or approximately 6% of the area of the lot, while a conforming use could occupy 100% of the area of the lot and could be constructed to a height well over 70 ft.; that the accessory building, as proposed to be set along West

167th street and the northerly lot line, will provide an open view of this five-cornered intersection and add to the safety of automobile traffic; that the large open portion of the plot reserved for parking and storage of motor vehicles will help to alleviate the acute parking situation in this area; that the non-conforming parking lots in block No. 2516, lots 14, 5, 64 and 63, and block 2526, lot 102, proves conclusively that the proposal is within keeping at this point; that there are no other gas stations within a 500 ft. radius of the plot and therefore the proposal is of vital importance to the community; that the land is very high in assessed value and due to the gore shape of the lot makes the proposal mandatory so that the owner may realize an equitable return on his investment; that the proposed curb cut within 75 ft. of the residence use district is necessary for the proper operation of the gas station and will not affect the residential aspect of West 167th street any more than the store show window in lot 44, block 2528, which adjoins the site; and

WHEREAS, the applicant states that the present owner has held title to the property since May 13, 1953; that the assessed valuation of land is \$28,800 and of the buildings \$6,000 making a total of \$34,800; that the buildings were erected in 1928 and 1929; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of fifteen years to permit the premises to be occupied as a gasoline service station, parking and accessory uses and to continue the parking and storage use now existing on a portion of the premises substantially as proposed and as indicated on plans filed with this application marked "Received March 29, 1956", four sheets, *on condition* that all buildings and uses on the premises shall be removed and the premises shall be levelled substantially to the grade of Ogden Avenue and shall be constructed and arranged as indicated on such plans; that the accessory building shall be located where shown; that there shall be no cellar under such accessory building; that the accessory building shall in all other respects comply with the requirements of the Building Code and shall be faced on all sides with face brick where walls of adjoining buildings on the lot line do not occur; that pumps shall be of a low approved type, facing Ogden Avenue and erected not nearer than 15 feet therefrom; that gasoline storage tanks shall not exceed ten 550 gallon approved tanks; that curb cuts shall be restricted to three curb cuts to Ogden Avenue each 30 ft. in width and one curb cut of similar width to West 167th Street, and one 14 ft. curb cut for exit to the car washing building; that signs shall be restricted to a permanent signs attached to the facade of the accessory building and to the illuminated globes of the pumps excluding all roof signs and temporary signs but permitting the erection within the intersection of a post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line of Ogden Avenue for a distance of not over 4 ft.; that at such intersection there shall be erected a block of concrete extending for a distance of not less than 5 ft. along either building line from the intersection and not less than 12 in. in height; that all existing curb cuts not herein permitted shall be filled with curbing and the sidewalk and curbing repaired or restored to the satisfaction of the Borough President; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that under Section 7e for a similar term there may be minor repairing with hand tools only maintained solely within the accessory building for adjustments; that under Section 7h for a similar term there may

MINUTES

be parking and storage of motor vehicles of the pleasure car type only carried on on such portion of the premises where unbuilt upon and which will not interfere with the servicing of the station; that on the rear lot lines to the north and west, where walls of adjoining buildings do not occur on the lot line, there shall be erected a woven wire fence of the chain link type erected on a masonry base to a total height of not less than 5 ft. 6 in.; that under Section 7A any uses contrary thereto are herein permitted; that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

376-56-BZ

APPLICANT—Paul Friedman, for Tobias Zwerdling and Theresa Z. Stavisky, owners.

SUBJECT—Application May 21, 1956—re (decision of the borough superintendent) under sections 7e and 7h of the zoning resolution, to permit in a residence use district, the erection of a gasoline service station, lubritorium, accessory car washing, minor motor vehicle repairs, and parking of motor vehicles waiting service.

PREMISES AFFECTED—109-78 to 109-86 (109-80 official) Francis Lewis boulevard, northwest corner of 110th avenue, Block 10945, Lot 118, Hollis, Borough of Queens.

Commissioner Keating and Deputy Chief Connolly ... 4

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on September 25, 1956 after due notice by publication in the Bulletin; laid over to October 23, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 110th avenue are in a residence use, D-1 area, class ½ height district; Francis Lewis boulevard is in residence and retail use, D-1 area, class ½ height districts; and

WHEREAS, the decision of the borough superintendent, dated May 3, 1956 acting on N.B. Applic. 1385-56, reads:

"1. The use of the premises as a gasoline service station, lubritorium, car washing (non-automatic), minor repairs with hand tools only, office, sales and storage of auto accessories, parking of cars waiting to be serviced in a Residence Use District is contrary to Art. II Sec. 3 Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 105 ft. frontage by 100 ft. in depth, now vacant; that it is proposed to erect and maintain for a stated term of fifteen years a parkway type gasoline service station, lubritorium, non-automatic car washing, minor repairs with hand tools only, office, storage and sales of auto accessories and parking for more than five motor vehicles awaiting service; and

WHEREAS, the applicant states that on July 25, 1916 the property was zoned as a business use, one times height and D area district; that on January 21, 1947 the present residence use designation became effective and on June 30, 1952 the present height and area designations became effective; that no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the applicant contends that there is no economic demand for the use of the subject premises for a conforming residential development; that the property has been under the same ownership since 1929 at which time it was located within a business use district; that it was the intention of the owner to develop the property with stores,

but there was no economic demand for store development; that the owner of the adjoining premises to the north constructed a series of buildings with stores on the street floor and apartments on the second floor, but was unable to rent the stores and converted them all, except one, to apartments; that the only store that remained was a bar and grill, which immediately adjoins the subject premises; that the premises is located on Francis Lewis boulevard which sustains heavy automotive traffic; that the property also adjoins, to the northwest, a parking lot for the A & P supermarket located at 205-26 Hollis avenue, for which the Board permitted parking in a residence district under Cal. No. 148-33-BZ—Vol. III, on December 20, 1949; that the adjoining property to the north is developed with a two-story building with an unpierced wall on the southerly building line; that the building has a residence on the 2nd floor and a bar and grill on the 1st floor; that the adjoining property to the northwest is developed with a supermarket, with accessory off street parking at the rear of the building in a residence district for which the Board granted a variance under Cal. No. 148-33-BZ—Vol. III; that the adjoining property to the west will be protected by the proposed fence wall and landscaping arrangement of the subject premises; that it is proposed to erect an accessory building with an unpierced rear wall, set back 10 ft. from the westerly building line, and to erect a 5 ft. 6 in. solid brick fence wall extending from the wall of the building to 110th avenue and extending along 110th avenue for a distance of 45 ft.; that the intervening area between the rear of the building and fence wall and the westerly lot line is to be seeded and landscaped; that it is also proposed to install a 4 ft. 6 in. wide seeded and landscaped strip adjoining the fence wall and along the northerly lot line; that the easterly side of Francis Lewis boulevard is developed with two story stores and residence buildings, or is vacant; that Francis Lewis boulevard is a 100 ft. wide thoroughfare divided by a center mall separating northbound and southbound traffic; that the proposed structure set back 63 ft. from the Francis Lewis boulevard building line and 47 ft. from the 110th avenue building line will enhance traffic safety by providing clear visibility at the intersection whereas a conforming use structure, built to within 10 ft. of the building lines will endanger public safety by creating a blind intersection; and

WHEREAS, the applicant states that the present owner has held title to the property since July 10, 1929 and that the assessed valuation of land is \$7,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should not be granted; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivision e and h of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on N. B. App. 1385-56, Objection No. One be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 2, 1956 after due notice by publication in the Bulletin; laid over to October 23, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and South Conduit avenue are in retail and residence use, D area, class ½ height districts; Rockaway boulevard is in a retail use, D area, class ½ height districts; and

WHEREAS, the decision of the borough superintendent, dated April 25, 1956 acting on N. B. Applic. 1566-56, reads:

"1. Proposed use of premises located in a retail district and part residence use district as a gasoline service station, accessory sales, car wash, lubritorium, minor motor vehicle repairs and parking and storage for more than 5 motor vehicles is contrary to Art. I, Sec. 4-A and Sec. 3 of Zoning Resolution.

2. Curb cuts are contrary to Sec. 7-A of zone resolution as to location."

and

WHEREAS, the applicant states that the premises consist of a plot, 122.05 ft. frontage by 81.94 ft. in depth, on which is located a non-fireproof building 48 ft. by 30 ft., one story in height, occupied as a gasoline service station including accessory sales, car laundry, lubritorium and minor motor vehicle repairs; that it is proposed to occupy the plot for gasoline service station, accessory sales, car laundry, lubritorium, minor motor vehicle repairs and parking and storage of more than five motor vehicles; and

WHEREAS, the applicant states that the gas station at these premises was established under fire department approval No. 2486 on November 27, 1925 for the installation of gasoline tanks and pumps and certificate of occupancy No. 842 was issued by the department of buildings in 1927; that the premises described in the fire department application included the entire plot involved herein and virtually the entire plot has since been used as a gas station; that however, a recent examination of the zoning maps discloses that at the time of said application a narrow, irregular strip along the easterly lot line, with a depth of about 1.3 ft. at the southerly end and about 7.3 ft. at the northerly end, was in a residence use district, the balance of the plot having been in an undetermined use district, and request is made for the extension of the area of the service station use to include that small portion in the residence district; that at present the property is improved with a one story brick building approximately 16 ft. by 24 ft.; that this building has a peaked tile roof and contains an office, one toilet and a heater room; that the property is also improved with two 2-pump islands, an outside lift and ten 550 gallon gasoline tanks; that a wood picket fence runs along the southerly interior lot line and near the easterly interior lot line; that the owner now desires to remove the existing service station building and fence, and to erect a new two bay service station building; that it is to be 48 ft. long by 30 ft. in depth and is to accommodate, in addition to the office, a two bay lubritorium, including auto laundry, ladies' and men's rest rooms and a storage and heater room; that the building will be of class 3 construction with concrete foundations, masonry walls and wood roof and will be faced with porcelain enamel; that the building will be of a canopy design and above the roof, facing Rockaway boulevard, an illuminated free standing sign is proposed; that no changes are contemplated with respect to existing curb cuts, pump islands and the underground storage tanks; that the entire area is to be paved and a new chain link fence installed; and

WHEREAS, the applicant contends that each of the streets abutting the site is an important vehicular thoroughfare; that the existing building was erected prior to 1927 and does not meet present day requirements of either the public or progressive service station operation; that open greasing facilities are outmoded and the enclosed lubritorium will make available a modern greasing facility to the advantage of the public, the owner and the persons employed at the station; that operating personnel will work under more favorable conditions since they will not be exposed to bad weather conditions; that the proposed auto laundry is necessary by reason of public demand for complete servicing facilities at one station; that a larger office will replace the present one which is entirely inadequate; that the proposed modernization will improve the general appearance of the neighborhood; that parking and storage of more than five motor vehicles is requested in conformity with municipal efforts to encourage off street parking; that the owner is at present under a special and unique hardship in respect of the property involved in this application; that by reason of its inability to effect the proposed improvements and thereby increase its economic productivity, the owner is burdened with the full cost of carrying and maintaining this property and cannot realize the full economic potential of the property in order to defray such costs; that the granting of this application will not alter the essential character of the locality; and

WHEREAS, the applicant states that the present owner has held title to the property since November 5, 1937; that the assessed valuation of land is \$10,000 and of the building \$5,000 making a total of \$15,000; that the building was erected in August, 1927; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended the application to rebuild the existing gasoline service station be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions c, i and e and A of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit the reconstruction and rearrangement of the lawfully existing gasoline service station, substantially as proposed and indicated on plans filed with this application, marked "Received May 22, 1956", 4 sheets, *on condition* that all buildings and uses not proposed to be retained as shown on such plans shall be removed and the premises shall be constructed and arranged as shown thereon; that the accessory building shall be faced on all four sides with face brick, shall have no cellar and no windows on the east side; that there may be one door in such building at the rear to the heater and storage room, as shown; that any pumps installed, not already existing, shall be of a low approved type, erected not nearer than 15 ft. to the street building lines; that along the rear lot line to the south where walls do not occur on the lot line, there shall be erected a woven wire fence of the chain link type, erected on a masonry base to a total height of not less than 5 ft. 6 in.; that a similar fence shall be maintained along the easterly lot line where shown; that curb cuts shall be as now existing to South Conduit avenue and Rockaway boulevard, provided permits have been or will be obtained for same; that the sidewalks and curbing abutting the site shall be reconstructed or repaired to the satisfaction of the Borough President; that where not occupied by accessory building, fences and pumps, the premises shall be paved with concrete or asphalt; that signs shall be restricted to permanent signs attached to the facade of the accessory building and the illuminated globes of the pumps, excluding all roof signs and temporary signs, but permitting the erection within the intersection of a post standard for supporting a sign, which may be illuminated, advertising the brand of gasoline sold, which sign may have two leaves, and may extend over the building lines of Rockaway boulevard and South Conduit avenue not more

MINUTES

than 4 feet; that within such intersection there shall be erected a block of concrete not less than 12 in. in height, extending 5 feet in each direction; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that under section 7i, there may be minor repairing with hand tools only for adjustment, maintained solely with the accessory building; that under section 7e there may be parking and storage of motor vehicles on the unbuilt upon portion of the plot, arranged so as not to interfere with the service of the station; that under Section 7A any use herein above permitted may be permitted; and that all permits, including a new certificate of occupancy, shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

424-56-BZ

APPLICANT—Charles A. Buckley, Jr., for Harry Heiman, owner.

SUBJECT—Application June 13, 1956—re (decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit partly in a retail use district and partly in a residence use district, the erection and maintenance of a gasoline service station, accessory car washing, minor repairs to motor vehicles and storage and parking of more than five cars.

PREMISES—1200-1222 Gunhill road, south side, for Tenbroeck avenue to Pearsall avenue, 3248 Tenbroeck avenue and 3241-3249 Pearsall avenue, Block 4617, Lot 32, Borough of The Bronx.

APPEARANCES—

For Applicant: Charles A. Buckley, Jr.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE—

Affirmative 0

Negative: Chairman Murdock, Commissioner Kleinert,
Commissioner Keating and Deputy Chief Connolly.. 4

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on September 18, 1956 after due notice by publication in the Bulletin; laid over to October 16, 1956, for inspection and decision; hearing closed; then to October 23, 1956, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in retail and residence use, D area, class ½ height districts; Gunhill road is in retail and local retail use, D area, class ½ height districts; Pearsall avenue and Tenbroeck avenue are in residence, retail and local retail use, D area, class ½ height districts; and

WHEREAS, the decision of the borough superintendent, dated September 12, 1956, acting on N.B. Applic. 158-56, reads:

"1. Proposed use of gasoline station lubritorium, minor auto repairs, sales of auto accessories, auto laundry, and parking and storage of more than five motor vehicles partly in a residence use district and partly in a retail use district is contrary to Art. II Sect. 3(29)(46)(52) and Sect. 4-A of the Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 214.78 ft. frontage by 120.30 ft. in depth now vacant; that it is proposed to erect and maintain a gasoline service station, lubritorium, minor repairs, sale of auto accessories, auto laundry, parking and storage of more than five cars; and

WHEREAS, the applicant states that Gunhill road, facing which the proposed station is to be erected, is one of the principal east-west traffic arteries in the North Bronx; that in addition to carrying a heavy volume of passenger vehicle traffic, it also carries a very considerable amount of commercial traffic; that the essential business nature of this artery has been emphasized by several recent decisions of

the Board permitting the construction of service stations upon this road; that the site in question is presently vacant, the land lying well below street level, and is being utilized as a general disposal area with the consequence that it is becoming an eye-sore in the neighborhood; that in view of the type of development on contiguous property on Gunhill road, it is unlikely that this site would be developed in the near future for residential purposes and the presence of empty taxpayers in the vicinity would appear to foreclose any logical development of the property in that line; and

WHEREAS, the applicant further states that immediately to the east of the site in question, on the same side of Gunhill road, is a solid block of taxpayers, while to the west on the same side of the road there is a wooden building presently utilized as a real estate office, which in turn is bordered by vacant, rocky land extending to Boston road, occupied solely by a shack selling melons; that the other side of Boston road is occupied by a gas station; that directly across Gunhill road from the property in question, the land is presently vacant; that however, on the southwest corner of Boston road and Gunhill road there is also located a gas station and to the east of the property, directly across Gunhill road from this site, there is located another gas station recently constructed under permission extended by the Board; that this site is merely a matter of a few hundred feet from the proposed site; that adjoining this station, to the east on the southeast corner of Gunhill road and Bouck avenue, there is another gas station under construction; and

WHEREAS, the applicant contends that in view of the foregoing, the site in question is eminently suited for development as a service station and that the site is unlikely to be developed for any other purpose in the immediate future; that it should be noted that the two recent variances granted by the Board have both been on the north side of Gunhill road, consequently servicing west bound traffic; that the recent development of this area having necessitated the location of these stations, it is submitted that facilities are equally needed on the south side of Gunhill road to service east bound traffic; that if the variance is granted it is proposed to erect a modern gasoline service station, the architecture of which will blend with and be a credit to the neighborhood; that this is to be done in conjunction with one of the major oil companies; and

WHEREAS, the applicant states that the present owner has held title to the property since July 30, 1953 and that the assessed valuation of land is \$24,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should not be granted; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivision f and i of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on N. B. Applic. 158-56, Objection No. 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

464-56-BZ

APPLICANT—Ivan E. Zukovskyj, for Mychailo Drebycz, owner.

SUBJECT—Application July 2, 1956—(decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use, E area district, the maintenance of a 2 family dwelling which encroaches upon the required 10 foot setback.

PREMISES AFFECTED—1880 Hutchinson River parkway, east side, 25 ft. south of Morris Park avenue, Block 4190, Lots 14 and 15, Borough of The Bronx.

APPEARANCES—

For Applicant: Ivan E. Zukovskyj.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 23, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Hutchinson River parkway and Morris Park avenue are in a residence use, E area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated June 20, 1956, acting on N. B. Applic. 673-54, reads:

"1. Final survey shows that portion of bldg. encroaches into the reg'd 10'-0" setback in an E area district and is contrary to Sec. 15d of the Z. R."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 ft. frontage by 95.02 ft. in depth on which is located a two family dwelling; that it is proposed to maintain two family dwelling which encroaches on the required 10 ft. setback; and

WHEREAS, the applicant states that in the plot plan of working drawing submitted to the department of buildings of The Bronx under N. B. 673-54 for approval of construction of a new two family dwelling on lots 14 and 15 of block 4190, the following error was made: the required setback of this building is shown 10 ft. for the main portion of the building and 9 ft. 4 in. for the entrance portion because of its 8 in. projection; that his error was overlooked by the building department also and plans were approved with the error; that after completion of the house, the owner applied for a certificate of occupancy which has been refused because of an encroachment of the required setback—4½ in. at the north end of the main entrance part of the building and 6 in. at its south end; and

WHEREAS, the applicant contends that the main body of the building is actually set back by 10 ft. 5 in. at the north end and by 10 ft. 3½ in. at the south end; that the legal 10 ft. setback of the encroaching portion of this house in accordance with the zoning resolution would be an extreme hardship as the house is already completed and finished; that there are other buildings in the neighborhood which encroach the required setback by many feet (adjacent house No. 1878 and house No. 1868); that approval is requested for the existing location of the subject building in order to be granted a certificate of occupancy; and

WHEREAS, the applicant states that the present owner has held title to the property since March 30, 1954; that the assessed valuation of land is \$3,250 and of the building \$25,000 making a total of \$28,250; that the building was erected February 1, 1956; and

WHEREAS, the existing front yard is in substantial compliance for the average width; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21 as to area, to permit the existing building to remain with the front required setback of the dimension indicated on plans filed with this application, marked "Received July 2, 1956," 5 sheets, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on September 11, 1956 after due notice by publication in the Bulletin; laid over to September 25, 1956, at the request of an objectant; no further request for adjournment; then laid over from September 25, 1956 to October 23, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, B area, and class 1¼ height district; East 167th Street is in a business use; Morris avenue is in a business and residence use district; and East 169th street is in a business use district; and

WHEREAS, the decision of the borough superintendent, dated June 22, 1956 acting on Alt. Applic. 289-56, reads:

"1. In a residence district the proposed parking lot for more than five cars is contrary to Sect. 3, Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot 150 ft. frontage, by 100 ft. in depth, now vacant; that it is proposed to use said premises for a parking lot for more than five motor vehicles; and

WHEREAS, the applicant contends that the property which is the subject of this application for a variance, is located in a residential, B area district; that the area is densely populated, and there is a great need for parking facilities in order to aid in reducing the parking of automobiles on the adjacent streets; that except for street parking, there are no parking facilities of any kind available within a three-block radius of the subject premises; that the property is adjacent to a heavily travelled shopping area, to wit, 167th street, which greatly adds to the need for parking facilities in the area; that the property in question is presently vacant; that it is an eyesore in that to some degree it is used for dumping, without permission of the owner, apparently by some people in the neighborhood; that there is no constructive use for the property in question except for the maintenance of parking facilities; that the Board's attention is called to the fact that the lot is immediately adjacent to a fire house, and despite this fact, there are many cars parked on the street which run the risk of traffic violation because of the absence of parking facilities; that the presence of a parking lot would eliminate this inherently dangerous condition; that there should also be considered the fact that there are no parking facilities immediately available to the many multiple dwellings which line Morris avenue on both sides of the street; that it is proposed that the lot be leveled, graded and surfaced, if permission is granted for use as a parking lot, and that the proper fences will be erected thereon; and

WHEREAS, the applicant respectfully requests that the Board grant this application for a variation of Section 3 of the Zoning Resolution, under the authority vested in the Board by Section 7(h); and

WHEREAS, the applicant states that the present owner has held title to the property since March 27, 1950; that the assessed valuation of the land is \$25,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee

MINUTES

recommended that the application should be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h for a term of two years to permit the premises to be occupied for parking and storage of motor vehicles substantially as proposed and as indicated on plans filed with this application marked "Received July 6, 1956", 3 sheets, *on condition* that the plot shall be levelled substantially to the grade of Morris avenue and constructed and arranged as indicated on such plans; that there shall be erected on the rear lot line and side lot lines, where walls of adjoining buildings do not occur on the lot line, and on the street line where shown, a woven wire fence of the chain link type not less than 5 ft. 6 in. in height; that the plot shall be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that curb cuts shall be restricted to one curb cut not over 17 ft. in width, including splays, to Morris avenue; that the opening in the fence on the building line shall be not over 14 ft. in width and shall be fitted with gates which shall be normally kept closed when the parking lot is not in operation; that under the terms of this variance the premises shall be used for no other use and no building shall be erected thereon except that there may be a building not over 100 sq. ft. in area and not over one story in height, of class three construction, solely for an office and shelter for the attendant; that signs shall be restricted to a permanent sign attached to the fence, not extending beyond the building line and not illuminated, advertising the parking and storage use and such other information as may be required by the Commissioner of Licenses; that such sign shall not exceed 10 sq. ft. in area; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that a continuous wood bumper shall be maintained secured to the ground against the fences and a sufficient distance away from such fences to avoid damage thereto; and that all permits including a certificate of occupancy shall be obtained and all work completed within six months from the date of this resolution.

497-56-BZ

APPLICANT—William J. Calise, for Michael De Matteo, owner.

SUBJECT—Application July 12, 1956 (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence use district, the use of a vacant lot for the parking of more than five (5) motor vehicles.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 2, 1956 after due notice by publication in the Bulletin; laid over to October 23, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and East 3rd street are in a residence use, D area, class 1 height district; Avenue C and Avenue D are in a retail use, D area, class 1 height district;

and

WHEREAS, the decision of the borough superintendent, dated May 28, 1956 acting on Alt. Applic. 718-56, reads:

"1. Proposal to occupy subject premises, located in a Residence Use District, for parking for more than five (5) motor vehicles is contrary to Art. II Sect. 3 of the Zon. Resol."

and

WHEREAS, the applicant states that the premises consist of a plot, 44 ft. 11½ in. frontage by 105 ft. 9 in. in depth, now vacant; that it is proposed to use vacant lot for the parking of more than five motor vehicles; and

WHEREAS, the applicant states that the plot has an area of 4,754.55 sq. ft. and is bounded on the north by East 3rd street, on the east by a multiple dwelling in the same ownership, on the west by a multiple dwelling and on the south by the yard of a home for the aged now standing vacant; that it is believed that the home will be reoccupied after considerable renovation; and

WHEREAS, the applicant contends that on the north side of 3rd street between Avenues C and D there are 25 non-conforming stores and other uses, and on the south side, 12; that the nearest legal off street parking lot is 255 East 3rd street and there is a great demand for additional space in the neighborhood; that the owner has carefully considered the possibility of constructing a conforming use on this plot but came to the obvious conclusion that it would be entirely inappropriate and a total waste of money in this noisy, commercial district; that the only practical possibility appears to be the operation of a greatly needed off street parking lot; that the operation of this much needed parking lot on the subject site would be of great benefit to this congested area and could not harm the neighborhood in any way; and

WHEREAS, the applicant states that the present owner has held title to the property since April 24, 1956 and that the assessed valuation of land is \$13,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years, to permit the parking of more than five motor vehicles, substantially as proposed and indicated on plans filed with this application, marked "Received July 12, 1956", 2 sheets, *on condition* that all buildings and uses on the site shall be removed and the premises leveled substantially to the grade of East 3d street, surfaced with clean gravel or steam cinders, treated with a binder and properly rolled; that there shall be erected on the lot lines where walls of adjoining buildings do not occur, a woven wire fence of the chain link type not less than 5 ft. 6 in. in height; that such fence along the street building line may have an opening for entrance and egress not exceeding 12 ft. with curb cut opposite of similar width; that such opening shall be equipped with gates that shall be kept closed when the parking lot is not in operation; that such portable fire-fighting appliances shall be installed as the fire commissioner shall require; that during the term of this variance, the premises shall be used for no other use and no building erected thereon, except there may be erected a building not over 100 sq. ft. in area and one story in height, located adjacent to the entrance, where shown; that proper bumpers shall be maintained on all lot lines for protection to fence and abutting buildings; and that all permits required, including a certificate of occupancy shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly . . . 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 2, 1956 after due notice by publication in the Bulletin; laid over to October 23, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Main street and Sanford avenue are in residence and restricted retail use, C area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated June 25, 1956 acting on E.S. Applic. 47-56, reads:

"1. Proposed roof sign in a Restricted Retail Use District is contrary to Art. II Sec. 4-B of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 251.31 ft. frontage by 247.75 ft. in depth, now occupied by a partially constructed building; that it is proposed to erect a business sign on the roof of building under construction; and

WHEREAS, the applicant states that the zoning was changed from business to restricted retail on October 13, 1953; and

WHEREAS, the applicant states that the proposed sign is a three dimensional sign constructed of plexiglass, on a plastic base, which will be structurally safe; that it will be 13 ft. in diameter, constructed in the shape of a shell emblem, illuminated from the inside with neon tubing and will be located above the roof; that the proposed sign will be a business sign of a type permitted within the restricted retail use district and will be located within such portion of the plot to be within the boundary of the restricted retail use district; that the sign will be a non-flashing business sign complying with the zoning resolution in all respects, except that it will be located on the roof of the building; that a larger business sign of a similar nature could be erected on the site if it were undeveloped, provided it was 10 ft. above grade and did not exceed 3 ft. in height; that this proposed sign is essential to the conduct of the owner's business; and

WHEREAS, the applicant contends that the Shell Oil Company has located its main divisional offices in this building, substantially removed from rapid transit facilities, and it is necessary that persons having business with the company be able to identify the building when approaching it from the north and south to facilitate the conduct of business and the Board is therefore requested to grant a variance for a term of 21 years, or so long as it is occupied by Shell Oil Company; and

WHEREAS, the application states that the present owner has held title to the property since May 18, 1955 and that the assessed valuation of land is \$86,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7e, to permit the

erection and maintenance of the sign and sign structure, as proposed and indicated on plans filed with this application, marked "Received July 19, 1956", 4 sheets, on condition there shall be only two signs, one facing north and one facing south and none to the rear; that this variation shall continue only so long as such sign is used to advertise the tenant in the building, namely the Shell Gas Company; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

Adjourned: 1:35 P.M.

JOSEPH J. DOYLE, Chief Clerk.

REGULAR MEETING

TUESDAY AFTERNOON, OCTOBER 23, 1956, 2 P.M.

Present: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly.

258-37-A—Vol. II

APPLICANT—Edgewater Rest, Alice H. Finn, owner; Jane Boylan, former owner.

SUBJECT—Application for consideration—reopening for extension of term of variance—re Appeal from a decision of the borough superintendent; previously granted on condition.

PREMISES AFFECTED—35-55 223rd street, northeast corner of 37th avenue, Block 6192, Lot 60, Bayside, Borough of Queens.

APPEARANCES—

For Applicant: Alice H. Finn and Edward S. Finn.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, this application was amended by the Board as Vol. II, on May 26, 1953, on certain conditions; and

WHEREAS, the applicant requested an extension of the term of variance.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on July 7, 1937, as thereafter amended by resolutions adopted through May 26, 1953 only so far as it refers to the term of the variance, so that as amended this portion of the resolution shall read:

"* * * granted for a term of five years from the date of this amended resolution, to permit such occupancy; that other than as herein amended the resolution above cited shall be complied with in all respects; and that all permits, including a new certificate of occupancy, shall be obtained and all work completed within six months from the date of this amended resolution." (Alt. App. 2830/52.)

153-54-A—Vol. II

APPLICANT—Robert Gottlieb, for Carl Rubman, owner.

SUBJECT—Application reopened June 19, 1956 as Vol. II—re Appeal from a decision of the borough superintendent—re increase in the number of persons on 2nd floor.

PREMISES AFFECTED—721 Burke avenue, northeast corner of Cruger avenue, Block 4597, Lots 5 and 9, Borough of The Bronx.

APPEARANCES—

For Applicant: Gerald Levy.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Resolution amended.

MINUTES

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-
ert and Commissioner Keating 3
Negative 0
Absent: Deputy Chief Connolly 1

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent April 26, 1956, on Alt. App. 392/56 reads:

"1. The proposed increase in the number of persons on the 2nd floor from 30 to 50 is contrary to Cal. No. 153-54-A."

and

WHEREAS, the applicant states the building is 2 stories, 24 ft. in height, 100 ft. by 50 ft. in area, Class 3 construction, erected in 1928 on a lot 100 ft. front by 100 ft. in depth, in a retail use, C area, Class 1¼ height districts; used and occupied since 1929: cellar—storage and boiler-room, 0 persons; 1st floor—retail stores, 20 persons; 2nd floor—factory (sewing) 30 persons. No change in use is proposed. The occupancy of the 2nd floor will be increased to 50 persons. The building is provided with one 5 ft. wide iron stairs, enclosed in fire-retarded partitions, equipped with fireproof, self-closing doors, leading direct to street and provided with ladder and scuttle to roof and one fire escape on the front extending to street by stair; window and door openings on course thereof are fireproof, self-closing; and

WHEREAS, Certificate of Occupancy #16845 was issued August 8, 1955, against Alt. App. 1189/53, approved pursuant to variance granted by the Board under Cal. Nos. 152-54-BZ and 153-54-A, permitting the present occupancy; and

WHEREAS, the applicant states the building is equipped with a 5 ft. iron stair, enclosed with fire-retarded partition leading directly to street on Cruger avenue; that as a secondary means of egress there is a 45° counterbalanced stair at the extreme corner from the main exit; that access to the fire escape is from a door on 2nd floor; and

WHEREAS, the applicant states that under Cal. No. 153-54-A, Vol. I the Board permitted the change of use on 2nd floor from dancehall with an occupancy of 200 persons to manufacturing (sewing) with an occupancy of 30 persons; and

WHEREAS, the applicant states that the second floor occupied by a single tenant is now proposed to have its occupancy increased to fifty persons and that it is proposed to alter the stairhall platform by enlarging it to 5 ft. by 10 ft. 6 in. with properly fire-retarded partitions; that the allowable number of occupants for this altered stair would be 57; and

WHEREAS, the applicant contends that as the amount of occupants requested is less than can be accommodated on the primary means of egress and as the stair is actually 5 ft. wide instead of 3 ft. 8 in., the width upon which its capacity is calculated, it is requested to allow fifty occupants on the second floor, using the present means of egress as proposed to be altered in substantial compliance with the requirements of Section 270 of the Labor Law.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on November 23, 1954 by adding thereto:

"that in the event the owner desires to increase the occupancy of the second floor from thirty to fifty persons, as cited in the decision of the borough superintendent acting on Alt. App. 392/56, Objection No. 1, and proposes to make certain changes as above set forth, such additional occupancy may be permitted as now indicated on revised plans marked 'Received May 25, 1956' (4 sheets), as to the second floor, provided that the requirements of the resolution above cited shall be complied with where not inconsistent with this *amended* resolution."

56-56-A

APPLICANT—Sidney Daub, for Kohnert Realty Corp., owner.

SUBJECT—Application January 16, 1956—Appeal from a decision of the borough superintendent, re egress.

PREMISES AFFECTED—155-157 Wooster street, west side, 95 ft. south of West Houston street, Block 515, Lot 25, Borough of Manhattan.

APPEARANCES—

For Applicant: Sidney Daub.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-
ert and Commissioner Keating 3

Negative 0

Absent: Deputy Chief Connolly 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated January 6, 1956, on Alt. Applic. 1866/55 reads:

"1. Provide two (2) means of egress for all floors including the cellar and 1st floor enclosed as required by law and leading directly to the street.

A fire escape is not acceptable as a means of egress from a factory building over five (5) stories high. Sect. 271 Labor Law."

and

WHEREAS, the applicant states that building is 8 stories, 105 ft. in height 50 ft. front by 100 ft. in area at first floor; 50 ft. by 90 ft. in area at typical floor, of fireproof construction, erected prior to 1913, located on a lot 50 ft. front by 100 ft. in depth in a unrestricted use, B area, class 2 height district and used and occupied as follows: cellar—boiler room and wood storage, one person; 1st floor—manufacturing wood toys, 10 persons; 2nd floor—manufacturing wood toys and office, 10 persons; 3rd floor—toy storage, one person; 4th floor—packing wood toys 5 persons; 5th floor—letter mailing service, 15 persons; 6th floor—manufacturing leather goods, 20 persons; 7th floor—packing wood toys, 10 persons; 8th floor—manufacturing wood toys, 5 persons; no change in use or occupancy is now proposed; the building is equipped with an approved standpipe system, an approved interior fire alarm system, and regular monthly fire drills are maintained; there is one 3 ft. wide interior steel and slate stairs fireproof enclosed, equipped with fireproof bulkhead and extending direct to street and one fireproof enclosed, equipped with fireproof self-closing doors and extending from roof bulkhead direct to street, and one fire escape located on the rear extending from roof bulkhead direct to street and one fire escape located on the rear extending to roof by stairs and to yard by stair, with egress through fireproof passage at cellar of No. 475 West Broadway, window and door openings on the course of the fire escape are fireproof self-closing; and

WHEREAS, Violation No. 5377 of 1955 was issued September 9, 1955 for violation of section 271 of the Labor Law, Rule 1.4 of the Factory Exit Rules of the Board in that cellar and 2nd to 8th floors were not provided with two legal means of egress and that the fire escape was not properly maintained; and

WHEREAS, the applicant states that the building is owned and used by a wood toy manufacturer with the exception of the 5th and 6th floors which are rented to other tenants; that on April 9, 1915 the State Labor Department issued violations to provide additional means of egress and to continue the exit stairs to the roof and to enclose all interior stairways; that Item 1 of the Labor Department's Order was submitted to the Board for consideration under Cal. No. 1552-17-S and the Board accepted the fire escapes with egress from lower termination connecting with the adjacent building to the north, No. 75 West Houston street; and that the Board under Cal. No. 832-18-S accepted the fire escape balconies located at the window sill levels and Alt. Applic. 295/18 was filed with and approved by the Department of Buildings to complete the work required by the Board; that the fire escapes in question are at the rear and have 4 ft. wide balconies with 22 in. wide 45° stairways

MINUTES

from second story to the main roof of the building, and 5 ft. high guard rails on the outside of the balconies and stairways and 3 ft. high guard rails on the inside of the stairs and well openings; that the openings on the course of the fire escapes are provided with fireproof wire-glass automatic windows and 2 ft. wide fireproof wire-glass doors at sill level, with iron steps leading thereto; that egress from the second story level of the fire escapes no longer exist as the adjoining building has been demolished and a 45° 2 ft. wide stairway from a second story to the rear yard of No. 475 West Broadway has been provided with egress to the street by a 3 ft. wide fireproof passage through the cellar of No. 475 West Broadway leading direct to the street; that this fireproof passageway is required for egress from fire escapes on the rear of No. 475 West Broadway which is a tenement and has a 25 ft. by 30 ft. yard; that the primary means of egress in the building in question consists of a 3 ft. wide steel and slate stairway from first story to the roof with fireproof bulkhead enclosed in fireproof partitions throughout, equipped with fireproof self-closing doors, with egress to the street at first story through fireproof enclosed hallway; that exits from the cellar consist of a 3 ft. wide steel stairway at the north near the rear enclosed at cellar level with fireproof partitions equipped with fireproof self-closing door; that at the front of the cellar there is a 3 ft. 8 in. wide steel stairway leading to the sidewalk with sidewalk doors over same; it is proposed to remove any locking device from the under side of the sidewalk doors and to provide an easy opening device consisting of a torsion spring actuated slip bolt arranged with pull chain extending to within 4 ft. of the cellar floor; that no lock will be provided on these doors; that heating coils will be installed at the sides of the doors to prevent any freezing; that the stairway will be provided with a fireproof enclosure at the cellar level and the boiler room at the front will be separated from the stairway by a fireproof enclosure; that no manufacturing will be carried on in the cellar, which will be used for storage in connection with the business of manufacturing wood toys on the first story and the upper portions of the building; that there is installed in the cellar a perforated pipe system of sprinklers at the ceiling equipped with Fire Department siamese at sidewalk; the entire building is equipped with an approved standpipe system connected to a 3,500 gallon wood gravity tank located above the roof; that interior fire alarm system is provided throughout the building and monthly fire drills are maintained; and

WHEREAS, the applicant requests that the Board accept the existing fire escapes for the upper stories of the building and the present means of egress with their proposed improvements as cellar exits for the reason that no manufacturing will be conducted in the cellar and as the building is of fireproof construction throughout with a light occupancy; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. App. 1866/55, Objection No. One and that the appeal be and it hereby is *granted*, to permit the continuation of the existing means of exit, as shown on plans filed with this appeal, marked "Received January 16, 1956" (5 sheets), *on condition* that the building shall not be increased in height or area; that the building and occupancy in all other respects shall comply with all laws, rules and regulations applicable thereto; that the sprinkler system, standpipe system, interior fire alarm system and fire drills shall be maintained in accordance with the requirements therefor; and *on the further condition* that the fire escape shall be repaired and maintained in good structural condition to satisfy the requirements of the Department of Buildings as to Violation 5377-55.

101-55-A

APPLICANT—Samuel Rosenblum, for 89 Nassau Street Corp., owner.

SUBJECT—Application February 4, 1955—re Appeal from a decision of the borough superintendent—egress.

PREMISES AFFECTED—87-89 Nassau street, southwest corner of Fulton street, Block 79, Lot 1, Borough of Manhattan.

APPEARANCES—

For Applicant: Samuel Rosenblum.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert

and Commissioner Keating 3

Negative 0

Absent: Deputy Chief Connolly 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated January 26, 1955, on Alt. App. 1809-54 reads:

"3. Revised. A fire escape is not acceptable as a means of egress in a factory building over five (5) stories high. Provide two (2) means of egress from all floors including cellar and sub-cellar and leading directly to the street. Sect. 271 Labor Law."

and

WHEREAS, the applicant states the building is nine stories and penthouse, 116 ft. in height, 57 ft. 10 in. front by 110 ft. 3 in. in depth, of fireproof construction, erected 1891, located in an unrestricted use, B area, class 2½ height district, and used and occupied since 1891 as follows: sub-cellar—elevator machinery and storage, no persons; cellar—stores and restaurant, 100 persons; 1st floor—stores, 50 persons; 2nd floor—watch repairing, dentist, etc., 6 persons; 3rd floor—jewelry, stamps, and diamonds, 13 persons; 4th floor—diamonds, jewelry and watches, 12 persons; 5th floor—engraving, jewelry repairs, etc., 26 persons; 6th, 7th, 8th, 9th and penthouse floors—watch repairing, jewelry, etc., 24 persons on the 6th, 31 on the 7th, 28 on each of the 8th and 9th and 4 persons on the penthouse story; no change in use or occupancy is proposed; the building is equipped with an approved stand-pipe system, an approved interior fire alarm system and one interior 3 ft. 11 in. wide stairs of iron and marble leading from penthouse story direct to street and one fire escape extending to penthouse floor with egress from its lower termination by stair to yard level and thence through passageway at subway level and stairs to street; window and door openings on the course of the fire escape are fireproof self-closing; and

WHEREAS, Violation No. 3510-54 was issued by the Borough Superintendent May 27, 1954 for occupying the second to tenth floors for manufacturing, contrary to Certificate of Occupancy #17881 and for failure to provide two legal means of egress from each floor as required by Section 270 of the Labor Law; and

WHEREAS, upon prosecution had in the Court of Special Sessions on January 25, 1955, the matter was adjourned to March 29, 1955; and

WHEREAS, Certificate of Occupancy No. 17881-31, issued against Alt. App. 628-30 permits the following use and occupancy: sub-cellar—storage; cellar—stores and lunchroom, 100 persons; 1st floor—retail stores, 100 persons; mezzanine—office, 3 persons; 2nd floor—office and restaurant, 90 persons; 3rd to 10th floors—offices, 50 persons each floor; and

WHEREAS, the Board is in receipt of a Certificate dated July 20, 1956 from the Borough Superintendent, pursuant to Section 668, subd. C of the New York Charter that a stay in the prosecution of this violation would cause imminent peril to life and property in that the interior stair is not completely enclosed and the doors from tenants' spaces opening on same are of wood and glass; and that the second means of egress is through an exterior fire escape access to which is through occupied tenants' spaces (except on the 8th floor) and windows on the course of the fire escape are

MINUTES

high off the floor and are not provided with iron steps leading thereto; and access to these windows is blocked by work benches and furniture and some of the doors were locked; and

WHEREAS, applicant states that under Cal. No. 734-25-S, acted upon by the Board, the conditions were stipulated as to exits and maintenance of occupancy; and the resolution provided that industrial occupancy throughout the building should be limited to 85 persons, restricted to the conduct of jewelry and watch repair and diamond setting; that this is the type of industrial occupancy maintained today; that the rest of the building is used for offices; that this appeal was from an order of the Fire Commissioner who had jurisdiction at that time, and the orders were similar in scope to the objections now raised by the Department of Buildings; and

WHEREAS, the applicant states that each floor is divided into small units, mainly individual offices with one or two persons in each unit; that while the building is classified as a factory building, actually the uses are closely akin to office uses; and

WHEREAS, the applicant contends that Certificate of Occupancy No. 17881 issued in 1931, against Alt. App. 628-30, should not have been issued as such Alt. Application involved only changes in stores on the first floor and in the cellar and stated that no work was involved above the first story and no change of occupancy was contemplated; and while the assertion was made that the floors were used for offices, such offices were actually in the category of jewelry trades and no change of occupancy was contemplated; and since no work was done above the first story, there was no necessity for a new Certificate of Occupancy; that at the time of issuance of such certificate no cognizance was taken of the resolution adopted by the Board under Cal. No. 734-25-S; that even after the issuance of such certificate the Fire Department records indicated that the building was used for factory purposes; that the whole difficulty now lies in the fact that the Bureau of Buildings issued a Certificate of Occupancy based on the misstatement of the occupancy, calling it offices when it was technically a factory confined to the jewelry trade within the purview of the resolution of the Board under Cal. 734-25-S; and

WHEREAS, the applicant states that the restaurant use on the second floor which was subject to action by the Board under Cal. No. 599-46-A has vacated the premises; and

WHEREAS, the applicant states that it is now the desire of the owner to maintain the conditions provided for in the resolution adopted by the Board under Cal. 734-25-S, the occupancy to be limited to that specified in the resolution as to the type of use and the number of occupants; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. App. 1809/54, Objection No. 3 and that the appeal be and it hereby is *granted, on condition* that the means of exit shall be maintained substantially as proposed and as indicated on plans filed with this application marked "Received February 4, 1955" (6 sheets), as revised by plans marked "Received October 4, 1956", (2 sheets); that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the building shall not be increased in height or area; and that a new Certificate of Occupancy shall be obtained.

352-56-A

APPLICANT—Millard Bresin, for Quadro Service Inc., owner.

SUBJECT—Application May 8, 1956—Appeal from a decision of the borough superintendent, re exits, live load, etc.

PREMISES AFFECTED—125-131 South 1st street, north side, 149 ft. 9 in. east of Berry street and 144-150 Grand

street, south side, 159 ft. 2 in. east of Berry street, Block 2392, Lot 18, Borough of Brooklyn.

APPEARANCES—

For Applicant: Millard Bresin and Joseph C. Haus.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert,

Commissioner Keating and Deputy Chief Connolly... 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated May 1, 1956 on Alt. App. 562/56 reads:

"1. Provide 2 means of exit from all floors each bldg. in conformity with Sect. 270 of the Labor Law.

"2. A liveload of 50 lbs. per sq. ft. required for office occupancy."

and

WHEREAS, the applicant states that the existing buildings are one, three and four stories, 13, 35 and 46 ft. in height, of class 3 construction, 101 ft. 4¼ in. front by 200 ft. in depth at street level, 25 ft. and 25 ft. front by 36 ft. and 62 ft. 3 in. in depth, of class 3 construction, erected prior to 1901 and in 1926, located on a lot 101 ft. 4¼ in. front by 200 ft. in depth in an unrestricted, use, B area, class 1½ height district, and used and occupied since 1947 as follows: No. 150 Grand street and No. 129 to 131 South First street: 1st floor—manufacturing electric fixtures, 40 persons; no change in use or occupancy is proposed; No. 144 to 148 Grand street—cellar—boiler room, washroom and locker room; 1st floor—manufacturing electric fixtures, 10 persons; 2nd, 3rd and 4th floors—2 families each, proposed to be used and occupied as follows—cellar—boiler room, wash and locker rooms; 1st floor—factory, electric fixtures, 10 persons; 2nd floor—offices; 3rd floor—offices and lunchroom; 4th floor—offices and lunchroom; 5 persons on the 3rd floor; 4 persons on the 4th floor; No. 125 South 1st street—cellar—ordinary use; basement—file room; 1st floor—offices, 4 persons; 2nd floor—offices, 6 persons; 3rd floor—offices and lunchroom, 3 persons; proposed to be used and occupied as follows—cellar—to be filled in; basement—to be filled in; 1st floor—manufacturing of electric fixtures, number of persons not stated; 2nd floor—offices, 6 persons; 3rd floor—offices and lunch room, 3 persons; the buildings are equipped with two—3 ft. wide steel stairs enclosed in fire retarded partitions equipped with fireproof self-closing doors; the stair in the Grand street portion of the building extends to roof bulkhead; there is a ladder and scuttle to roof in the South 1st street building, in addition, there are two fire escapes, one on the Grand street front and one on the rear of the South 1st street building; the fire escape on the South 1st street building extends to roof by ladder; the Grand street fire escape extends to street by ladder; egress from the fire escape on the rear of the South 1st street building is over the roof of a one-story extension; windows and doors on the course of the fire escapes are not fireproof self-closing; and

WHEREAS, Certificate of Occupancy No. 44445, issued April 23, 1927 against N.B. App. 9153-26, for No. 150-152 Grand street describes the building as a one-story public garage; and

WHEREAS, Certificate of Occupancy No. 142358, issued January 11, 1955, against Alt. App. 1003-53, for premises No. 146-148 Grand street describes the building as an old law tenement, Class A and factory, of non-fireproof construction, one and four stories in height and permits the following use and occupancy—cellar—storage, boiler room and locker room; 1st floor—factory, 15 persons; 2nd, 3rd and 4th floors—2 families each; and

WHEREAS, the applicant states the premises are divided into three areas by fire walls; that the portion to the east running from South 1st street to Grand street is one story in height, constructed as a garage under N.B. App. 9153-26 for which Certificate of Occupancy No. 44445 was issued; that this building has been in use as a factory since 1943; that the portion at the southwest corner of the site fronting

MINUTES

on South 1st street is one and three stories in height; the three story and basement and cellar portion is classified as an Old Law tenement but is now being occupied for offices and has been so occupied for the past ten years; it is proposed to fill in the cellar and basement of this building and change the use of the first floor to factory and the upper two floors for offices; that the portion of the building at the northwest corner of the site, fronting on Grand street, is a one and four story building, erected as an Old Law tenement; that under Alt. App. 1003-53, a one-story extension was added taking in the rear yard of the tenement and a 25 ft. by 100 ft. portion to the west; that this one story extension in the first floor of the tenement is used for factory purposes and the upper floors are occupied by six families, for which Certificate of Occupancy #142358 was issued; it is proposed to change the occupancy of the upper floors to offices; and

WHEREAS, the applicant contends as to Objection 1, issued by the borough superintendent, applying to the exits from the upper floors of the three and four story sections, that these upper floors will be used only for offices and the exits will comply with the Building Code for office occupancy and the Labor Law is applied only since these floors are part of a factory building; that the upper floors of the four story building on Grand street, 25 ft. by 62 ft. in area, are served by a 3 ft. wide steel stair leading directly to the street and extending to the roof bulkhead; stairhall partitions are fire retarded and all doors to stair hall are fireproof self closing; that the landings have tile floors and ceilings are fire retarded; that all doors leading from the floor areas will be 3 ft. wide, fireproof, self-closing; that in addition to the stairway there is, at the front of the building, a Multiple Dwelling type fire escape in good condition which will be maintained; that the upper floors of the 3-story building fronting on South 1st street are served by a wood stair; that it is proposed to install a new 3 ft. wide stair enclosed in a fire retarded enclosure in a continuous passageway leading directly to the street; that in addition to this proposed stair there exists a fire escape at the rear of the building terminating on the roof of the proposed extension; that this new roof will be concrete and will provide a safe landing place in case of an emergency, and it is therefore requested that the fire retarded stairways and fire escapes be accepted as exits in view of the low occupancy of the upper floors; and

WHEREAS, the applicant contends as to Objection 2 issued by the borough superintendent that the upper two floors of the three story portion on South 1st street are the only floors affected by this objection; that due to the low occupancy of these floors it is requested that the 40 lb. liveload be accepted as only 10 lbs. below that which is required for office use; and

WHEREAS, the applicant states that the material sprayed in the spray booths on the first floor are electric fixtures sprayed with enamel or lacquer; that these spray booths were installed under approved Alt. App. 1995-43 and have been installed according to the Rules of the Board and comply in all respects with the Board's rules and all other rules and regulations; that all spraying material is stored in a fireproof room vented to the outer air and equipped with a fireproof self-closing door; that approximately 300 gallons of enamel, lacquer, solvent and thinner are stored in this room; that the enamel and solvent have a flash point of 80°F and the lacquer and thinner have flash points of 45°F; and

WHEREAS, the applicant states that in addition to the egress proposed from the second story of the South 1st street building, a balcony and drop ladder will be provided to provide egress from the new roof of the one story extension to the street.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. App. 562/56, Objection No. 1 and 2 and that

the appeal be and it hereby is *granted*, to permit the occupancy of the building as proposed and as indicated on plans filed with this appeal marked "Received October 9, 1956", (10 sheets), *on condition* that all the work as proposed including the filling in of existing cellars and basement except the cellar and basement of the former Old Law tenement on Grand street shall be carried out; that the means of exit from the South 1st street side of the building consisting of a balcony and drop ladder to street as means of exit from the rear fire escape from the former Old Law tenement facing South 1st street shall be maintained; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; and that such work requiring licenses from the Fire Commissioner shall be subject to such licenses which shall be obtained.

652-56-A

APPLICANT—Maurice Courland, for The Jewish Agency, Inc., owner.

SUBJECT—Application October 1, 1956—Appeal from a decision of the borough superintendent—re construction.

PREMISES AFFECTED—14-18 East 66th street, south side, 122 ft. west of Madison avenue, Block 1380, Lots 61, 62 and 63, Borough of Manhattan.

APPEARANCES—

For Applicant: Maurice Courland and Raphael H. Courland.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated October 15, 1956, on amendment to Alt. App. 1299/56 reads:

"Consideration of this objection was denied on 9/13/56. It will not be further considered."

and

WHEREAS, the decision of the borough superintendent dated September 13, 1956, on Alt. App. 1299/56 reads:

"Proposed alteration to bldg. is contrary to 4.2.1 B.C. since the tabular height limit of 4 stories or 50' is exceeded."

and

WHEREAS, this decision was superseded by decision of October 15, 1956, upon the filing of the following amendments on October 15, 1956:

"Herewith are filed Drawing #1 and Drawing #2, both Revised 10/15/56, to supersede Drawing #1 and Drawing #2, both of 8-27-56.

Also filed herewith is a new Specification Sheet to supersede previous Spec. Sheet.

Reconsideration is requested on the following objections:

No. 1 Proposed alteration to building is contrary to 4.2.1 B.C. since the tabular height limit is exceeded."

and

WHEREAS, the applicant states the premises consist of three buildings each 25 ft. front, 4 stories, basement and cellar, 58 ft. in height, of Class 3 construction, erected about 1890; and

WHEREAS, the applicant states #14 East 66th street is used and occupied as a 2-family dwelling with cooking on the premises and not more than 15 sleeping rooms in the building pursuant to Certificate of Occupancy #15139 issued against Alt. App. 4011/29; and

MINUTES

WHEREAS, the applicant states that #16 East 66th street is used and occupied: cellar—boiler room and storage; basement to 4th floors, inclusive, executive offices, pursuant to B.N. App. 2623/44, approved December 26, 1944 and work completed January 1945; that No. 18 East 66th street is similar to Nos. 14 and 16 and apparently has been used and occupied the same as #16 East 66th street; and

WHEREAS, the applicant states that it is proposed to combine the three buildings into one and erect a new 6 ft. 10 in. extension at the front to the building line and install an additional (6th) story; to raise the first tier at street grade of steel and reinforced concrete, Class I construction and delete the old basement story and set in its stead a new first floor; to raise the second tier 2 ft. 6 in. and reconstruct it of steel and reinforced concrete in Class I construction; to replace the present fifth tier (roof beams) with steel joists of Class 2 construction; to replace the existing wood stairs and elevator with new fireproof stairs and elevators, all of Class I construction from cellar to roof; to sub-divide floors for proposed use; to ventilate the entire building according to the building code and to use and occupy the combined building as follows: cellar—accessory nonstorage garage, boiler room and stockroom; basement—car loading berth, cafeteria, library and lecture hall; 1st floor—library and offices; 2nd, 3rd, 4th, 5th and 6th floors—administrative offices, 45 persons per floor; and

WHEREAS, the applicant states the proposed construction actually introduces a higher degree of fire resistance in places where none presently exists than is required under the provisions of the Building Code; that the entire cellar and first floor will be of Class I construction; that all stair and elevator hall exits and lobbies to the street will be placed within regions of fire-resistivity greatly superior to that of Class 3 construction; that the two lower floors will afford a shorter path to safety from smoke and fire for occupants of the upper floors than would be the case if the entire building were of Class 3 construction; that the new roof tier and present sixth tier (old roof) will be of Class 2 construction; that the occupants of the top floor will be protected against fire to a greater degree than ordinary Class 3 construction would provide; and

WHEREAS, the applicant contends that compliance with the Code would impose a severe financial hardship upon the owner, an eleemosynary institution; and

WHEREAS, the applicant therefore requests the modification of the borough superintendent's decision so as to permit the construction and alterations of the buildings as herein proposed and indicated on plans filed herewith.

Resolved, that the decision of the borough superintendent, dated September 13, 1956 and October 15, 1956, acting on Amendment to Alt. App. 1299/56 be and it hereby is *modified* and that the appeal be and it hereby is *granted* to permit the consolidation of three existing buildings and increase in coverage by constructing a new front to the street line and an additional story to the building, substantially as proposed and as indicated on plans filed with this appeal marked "Received October 1, 1956", (2 sheets), and October 15, 1956", (2 sheets), *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that the building shall not be increased in height or area further than what is now proposed.

We require PAYMENT IN ADVANCE. Make check payable to the Supervisor of The City Record.

WILLIAM VIERTTEL, Supervisor of The City Record.

RULES

AMENDMENTS TO THE RULES FOR ERECTION, ALTERATION, REPAIR, EXCAVATION FOR AND DEMOLITION OF BUILDINGS

Adopted by The Board of Standards and Appeals,
October 26, 1943, Effective December 13, 1943;
Amended Oct. 14, 1955, Effective Nov. 10, 1955;
and Amended June 4, 1956, effective July 2, 1956.
(Cal. No. 784-41-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, (3) and (4) of The New York City Charter; Sections C26-189.0, C26-191.0, C26-504.0(a), and C26-689.0 of the Administrative Code

7.8.1 Design and Construction of Forms. The design and construction of forms shall conform to the following requirements:

7.8.1.1 Forms shall conform to the shape, lines, and dimensions of the member as called for on the plans. Forms shall be substantial and sufficiently tight to prevent leakage of mortar; and shall be properly braced or tied together so as to maintain position and shape and insure safety to workmen and passersby. Temporary openings shall be provided where necessary to facilitate cleaning and inspection immediately before depositing concrete.

7.8.1.2 Where the height of the shores exceeds ten feet, adequate diagonal bracing shall be provided in both longitudinal and transverse directions. In addition, adequate diagonal braces shall be provided at the ends of the framework. Diagonal bracing shall extend from the top to bottom of shores.

7.8.1.3 The unbraced length of wood shores supporting forms shall not exceed fifty times the least dimension. Metal shores or frames shall be approved by the Board of Standards and Appeals and shall be installed in accordance with the approval of the board. Shores shall be adequately secured at the top and shall be properly wedged at top or bottom, if required.

7.8.1.4 Where shores rest upon the ground, adequate mud sills, or other bases, shall be provided to support the shores adequately.

7.8.1.5 Qualified workmen shall be detailed constantly during the placing of concrete to insure that there is no movement of shores, braces or other supports. The name of the foreman in charge of the formwork shall be posted in the field office of the contractor.

7.8.1.6 The individual, firm or corporation who does the concrete work shall be responsible for the adequate design and construction of all forms used in the construction of the building. Wherever the shore height exceeds fourteen feet, or the load on the forms exceeds one hundred fifty pounds per square foot, or power buggies are used, or two stage shores are used, the individual, firm or corporation who does the concrete work shall certify to the department that the form design has been checked and approved as adequate by a licensed professional engineer who has had at least five years of experience as a structural engineer, and that the forms have been constructed in conformance with the design which was checked and approved by the said engineer.

APPEALS AS TO MULTIPLE DWELLINGS

The Legislature, under Chapter 333 of 1948, has clarified Section 60 of the Multiple Dwelling Law by describing the agency authorized to grant variances under this Section, so as clearly to mean in New York City—the Board of Standards and Appeals.

Chapter 508 of 1948 has also been adopted by the Legislature, amending the Multiple Dwelling Law to provide, under new Section 310, for a Board of Appeals. By description the Board of Appeals means in New York City—the Board of Standards and Appeals. Section 310 provides as follows as to appeals:

LAWS OF NEW YORK—By Authority CHAPTER 508 OF 1948

§ 310. Board of appeals. 1. As used in this section "board" shall mean the agency of a city constituted as a board and authorized by law both to grant variances of the zoning resolution and to make rules supplemental to laws regulating construction, maintenance, use and area of buildings.

2. Where the compliance with the strict letter of this chapter causes any practical difficulties or any unnecessary hardships the board shall have the power, on satisfactory proof at a public hearing, provided the spirit and intent of this chapter are maintained and public health, safety and welfare preserved and substantial justice done, to vary or modify any provision or requirement of this chapter, or any rule, regulation, supplementary regulation, ruling or order of the department with respect to the provisions of this chapter, as follows:

a. For multiple dwellings and buildings existing on July first, nineteen hundred forty-eight, provisions relating to:

- (1) Height and bulk;
- (2) Required open spaces;
- (3) Minimum dimensions of yards or courts; or
- (4) Means of egress.

b. For multiple dwellings and buildings erected or to be erected after July first, nineteen hundred forty-eight, and

such dwellings thereafter altered or to be altered, provisions relating to:

- (1) Required open spaces; or
- (2) Minimum dimensions of yards or courts.

Variations or modifications may be granted pursuant to this paragraph b only on condition that open areas for light and air are provided which are at least equivalent in area to those required by the applicable provisions of this chapter.

3. An application for such a variance or modification may be made by any person aggrieved or by the head of any public agency, within such time and under such procedure, conditions and rules as may be prescribed by the board. The board shall fix a reasonable time for the hearing of an application and shall require that due notice be given of the time and place of such hearing to the applicant and to the department. Any person or a duly authorized representative of any public agency may appear at any such hearing and be heard on any such application.

4. In every case the board shall state the reason or reasons for its decision. All decisions of the board shall be subject to review in the same manner as is provided by law for review of decisions of such board respecting variances of the zoning resolution.

5. A record of all decisions of the board, indexed according to the section or sections of this chapter affected thereby, shall be kept in the office of the board. Such record shall be open to public inspection at all times during business hours.

RULES RELATING TO SMOKING IN PROTECTED PORTIONS OF FACTORIES, AND IN SPECIAL CLASSES OF OCCUPANCIES.

Adopted by the Board of Standards and Appeals August 13, 1918, effective September 9, 1918, under the powers conferred upon the Board by Section 718-a, Subsections 2 and 3 (Old Charter) to supplement Section 283 of the Labor Law (Old Section 83c).

[Cal. 1262-18-SR]

Labor Law

Section 283. Smoking.

1. No person shall smoke in a factory. A notice of such prohibition stating the penalty for violation thereof shall be kept posted in every entrance hall, elevator, stair hall and room of a factory in English, and in such other languages as the fire commissioner of the city of New York in such city and elsewhere the commissioner shall direct.

2. The board in its rules may permit smoking in protected portions of a factory, or in such classes of occupancies where in its opinion the safety of the employees will not be endangered thereby. The fire commissioner of the city of New York in such city and elsewhere the commissioner may issue such permits in accordance with rules adopted by the board.

3. The fire commissioner of the city of New York in such city and elsewhere the commissioner shall enforce this section.

Rule 1. Permit.

(a) Prohibition. No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the administrative official.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stair hall or room throughout the building, as well as in every elevator car, in English, and also in such other language or languages—as the administrative official shall direct, a notice of such prohibition, and the penalty for its violation.

(b) Application. Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the administrative official.

(c) Time Limit. Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon the expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) Conditions. The permit shall state the conditions under which the hours between which, and the place or places in such factory where smoking may be permitted, and this

permit shall be framed and kept posted in a conspicuous place in the factory.

(e) Revocation. Violation of any of the conditions specified in the permit in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the administrative official, and shall not again issue a permit for the same premises until at least one year has elapsed.

Rule 2. Permissible Cases.

Smoking may be permitted in:

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fireresisting partitions, with all openings therein protected by selfclosing fire doors, and further, unless the building is of fireproof construction or provided with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire retarding material.

(3) Such chemical fire extinguishers as the administrative official may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the administrative official may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

PUBLIC HEARINGS

Tuesdays at 10 a.m. to 2 p.m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building,
Borough of Manhattan.

HOURS OF CONSULTATION

10 A.M. to 1 P.M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman*.

NOVEMBER 7, 1956, 10 A. M.

NOTICE IS HEREBY GIVEN, of a public hearing Wednesday morning, November 7, 1956, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

60-54-BZ—Vol. II

APPLICANT—Reginald S. Hardy, for Charles Costa, owner.

SUBJECT—Application reopened July 24, 1956 as Vol. II—re (decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a retail use district a gasoline service station, lubritorium, auto laundry (non automatic), minor auto repair shop (with hand tools only), parking of motor vehicles awaiting service, for a term of 15 years.

PREMISES AFFECTED—904 Burke avenue, southeast corner of Bronxwood avenue, Block 4574, Lot 24, Borough of The Bronx.

Laid over from October 16, 1956, to November 7, 1956, for inspection and decision; hearing closed.

13-53-BZ—Vol. II

APPLICANT—Solfred Maizus, for Samuel M. Berley and Lee E. Ellman, owners.

SUBJECT—Application reopened May 29, 1956 as Vol. II—re (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence use district parking lot for more than 5 cars.

PREMISES AFFECTED—79-17 41st avenue, north side, from 79th to 80th streets, Block 1490, Lot 18, Jackson Heights, Borough of Queens.

Laid over from October 16, 1956, to November 7, 1956, for inspection and decision; hearing closed.

346-55-BZ

APPLICANT—Vincent D. Luongo, for Frederick Zimmer, owner.

SUBJECT—Application May 3, 1955—re (decision of the borough superintendent) under sections 7c and 7a of the zoning resolution, to permit in a business use district, proposed extension of building and openings between adjacent parts of buildings; new extension to be used for machine shop and welding and storage of acetylene and oxygen bottles; new storage space to be used for the parking of 3 trucks.

PREMISES AFFECTED—249-251 4th avenue, east side, 20 ft. north of Carroll street, Block 958, Lot 2, Borough of Brooklyn.

Laid over from October 16, 1956, to November 7, 1956, for inspection and decision; hearing closed.

347-55-A

APPLICANT—Vincent D. Luongo, for Frederick Zimmer, owner.

CALENDAR

SUBJECT—Application May 3, 1955—Appeal from a decision of the borough superintendent—re exits.

PREMISES AFFECTED—249-251 4th avenue, east side, 20 ft. north of Carroll street, Block 958, Lot 2, Borough of Brooklyn.

865-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Nat Paterson and Herbert H. Pensig, owners.

SUBJECT—Application October 28, 1955—re (decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a business use district the erection and maintenance of a gasoline service station, lubricatorium, car washing, minor auto repairs, office, sales, storage, parking and storage of motor vehicles.

PREMISES AFFECTED—89-15 Rockaway boulevard and 101-12 to 101-28 90th street, northwest corner, Block 9093, Lot 13, Ozone Park, Borough of Queens.

Laid over from October 16, 1956, to November 7, 1956, for inspection and decision; hearing closed.

889-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Meyer W. Crane, owner.

SUBJECT—Application November 9, 1955—re (decision of the borough superintendent) under sections 7e and 7h of the zoning resolution, to permit in a residence use district, the erection and maintenance of a gasoline service station, lubricatorium, car wash, minor auto repairs, office, sales, storage room, parking and storage of motor vehicles.

PREMISES AFFECTED—69-15 164th street, east side, 110 ft. south of 69th avenue, Block 6931, Lot 41, Flushing, Borough of Queens.

Laid over from October 16, 1956, to November 7, 1956, for inspection and decision; hearing closed.

1015-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Daniel and Mildred Gallo, owners.

SUBJECT—Application December 23, 1955—re (decision of the borough superintendent) under sections 7c and 7A of the zoning resolution, to permit in a business and residence use district, the proposed extension of an existing non-storage garage for more than 5 motor vehicles and gasoline service station, lubricatorium, minor auto repairs and car washing, to include brake work, wheel alignment, storage room, office, sales, parking and storage of motor vehicles, with curb cuts within 75 ft. of the residence use district.

PREMISES AFFECTED—81-01 to 81-15 (81-11 official) 41st avenue and 40-47 to 40-53 81st street, northeast corner, Block 1492, Lots 35 and 37, Elmhurst, Borough of Queens.

Laid over from October 16, 1956, to November 7, 1956, for inspection and decision; hearing closed.

NOTICE IS HEREBY GIVEN of a public hearing *Wednesday afternoon, November 14, 1956*, at 2 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

208-56-SM

APPLICANT—Coralux Corporation of New Jersey, owner.

SUBJECT—Application February 20, 1956—Coralux Acoustical Plaster.

317-55-SA

APPLICANT—Almo Laboratories Company, Inc., owner.

SUBJECT—Application April 14, 1955—Rinsrator, Model R-3 Injector Unit (for injecting wetting agent into final sterilizing rinse water).

57-54-SA

APPLICANT—Calray Distributors Inc., agent for Hastings Air Conditioning Company, Inc., owner.

SUBJECT—Application January 25, 1954—Hastings Heatwell Round Head Conversion Burner, Models MXO-10 and MXO-13 (gas fired).

740-55-SA

APPLICANT—George W. Kamin for Cribben & Sexton Co., owner (I. Neil Thompson, agent).

SUBJECT—Application August 1, 1955—Universal Insulated Console Type Domestic Gas Ranges, Models 7905, 7906, 8018, 8019, 8020, 8022, 8023, 8204, 8205, 8304, 9116, 9117, 9118, 9123, 9124, 9304, 9305, 7909, 8029, 8030, 8035, 8206, 8307, 9127, 9130, 9131, 9132 and 9309.

730-55-SA

APPLICANT—Synchronous Flame Inc., owner.

SUBJECT—Application September 2, 1955—Syncro-Flame Combination Gas Oil Burner, Models SF 10E, 20E, 30E, 40E, 60E, 80E, 100E; Gas Burner Models SF 10EG, 20EG, 30EG, 40EG, 60EG, 80EG, 100EG, SF150, 300, 400 and Oil Burner Models, SF10EO, 20EO, 30EO, 40EO, 60EO, 80EO and 100EO.

32-56-SA

APPLICANT—Philan, Inc., agent, for Columbus Coated Fabrics Corp., owner.

SUBJECT—Application January 3, 1956—Guard Vinyl Wall Covering.

862-54-SA

APPLICANT—John Wood Company, Bennett Pump Division, owner.

SUBJECT—Application November 8, 1954—Bennett Pumping Unit, Model 70 and Bennett Island Dispensers, Models 952, 953, 962, 963, 972, 973, 982, 983 and 74-RL, 749-RC.

383-56-SM

APPLICANT—Greenline Metal Products, Inc., owner.

SUBJECT—Application May 10, 1956—Greenline Emergency Release (lock release) Model F-2.

389-52-SM—Vol. II

APPLICANT—Tectum Corporation, owner.

SUBJECT—Application for consideration—reopened January 4, 1955 for amendment to consider additional roof plank and tile, Models P-200, P-250, P-300, T-200-32, T-250-32, T-300-32 and T-300-48—re Tectum Roof Plank (incombustible) Models A-2 and A-3; previously approved.

904-54-SM

APPLICANT—Inland Steel Products Company, owner.

SUBJECT—Application for consideration—reopened March 13, 1956 for amendment to resolution as to additional sections of Cellufloor and the use of this material as a component part of a three hour floor construction—re Cellufloor (cellular steel oor panels); previously approved.

52-56-SA

APPLICANT—Acme National Sales Company, Inc., owner.

SUBJECT—Application for consideration—reopened July 17, 1956 for amendment to resolution as to additional gas range Model RO-5G—re Acme Refrigerator-Range (gas fired), Model RG5F; previously approved.

360-50-SA

APPLICANT—ABC Oil Burner, owner.

SUBJECT—Application for consideration—reopened July 17, 1956 for amendment to resolution as to additional trade names, Solar Flame Oil Burner, Model 55A, Crane Line, Model 5114 and Airline Oil Burner, Model FOB-55A—re Burnham Oil Burner, Model 55, Homer Oil Burner, Model 55, Comfortzone Oil Burner, Model 55, Norge-Heat Oil Burner, Model FOB 55, Radiation Oil Burner, Model 55, Richmond Oil Burner, Model P10A, P11A and P12A, Rybolt Oil Burner, Model 55, Certified Oil Burner, Model 55, Solar Flame Oil Burner, Model 55, Weil-McLain Oil Burner, Model 55, Cities Service Oil Burner, Model CS55, Kleen-Heat Oil Burner, Model 80, Fitzgibbons Oil Burner, Model 50 and Kewanee Oil Burner, Model 55. The Hess Company, Hess Oil Burner, Model 55. Ingersoll Steel Division, Borg Warner Corporation, Ingersoll Oil Burner, Model 55, Ko-Z-Aire Company, Ko-A-Aire Oil Burner, Model 55, Kiske Products Incorporated, Kensico Oil Burner, Model 55. Utica Radiator Corporation, Utica Oil Burner, Model 55. Dunkirk Radiator Corporation, Dunkirk Oil Burner, Model 55, International Heater Company of Utica, New York, under the trade name of International Economy and Economy 55AZ. The Coleman Company, Wichita, under the trade name Coleman Model 194-700, 194-705, 595-700,

350-56-BZ

APPLICANT—Home and Hospital of the Daughters of Jacob, Inc., owner.

SUBJECT—Application May 7, 1956—(decision of the borough superintendent) under sections 7h and 21 of the zoning resolution, to permit in a residence use district, a proposed parking lot for more than 5 motor vehicles, accessory to a hospital on the opposite side of the street.

PREMISES AFFECTED—1175-1199 Findlay avenue, west side, 200 ft. south of East 168th street, Block 2435, Lot 25, Borough of The Bronx.

APPEARANCES—

For Applicant: Louis V. Viola and Morris Hyshiver.

For Opposition: Joseph B. Franklin.

For Administration: Samuel L. Becker, Dep't of Buildings and John J. Saunders, B'd of Education.

ACTION OF BOARD—Laid over to November 27, 1956, at 10 A. M. for inspection and decision; hearing closed.

363-56-BZ

APPLICANT—Holtzman, Sharf, Mackell and Hellenbrand, for Elmore Construction Corp., owner.

SUBJECT—Application May 15, 1956—(decision of the borough superintendent) under sections 21, 7A and 7e of the zoning resolution, to permit in a local retail and residence use district, the erection and maintenance of a gasoline service station, lubritorium, office, sales and storage of auto accessories, car washing (non automatic) and ground signs, parking of cars waiting to be serviced, show window and signs within 75 ft. of the residence use district; building within the required 20 ft. setback.

PREMISES AFFECTED—228-12 to 228-20 Linden boulevard and 117-02 to 117-10 229th street, southwest corner, Block 12745, Lot 6, Springfield, Borough of Queens.

APPEARANCES—

For Applicant: Edward Sharf and Ingram S. Carver.

For Opposition: Thomas D. Lloyd, Seymour Dornfeld, Mary McCarthy, Thomas C. Rizzo and Gerald S. Walsh.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to November 27, 1956, at 10 A. M. for inspection and decision; hearing closed.

437-56-BZ

APPLICANT—Paul Friedman, for Parsons Homes, Inc., owner.

SUBJECT—Application June 19, 1956—(decision of the borough superintendent) under sections 7e and 21 of the zoning resolution, to permit in a residence use, E-1 area district, the erection and maintenance of a gasoline service station, auto washing, lubrication, office and accessory sales, minor repairs with hand tools only, for a term of 15 years, without required rear yard.

PREMISES AFFECTED—148-20 Cross Island parkway, west side, 102.67 ft. south of 14th avenue, Block 4645, Lot 3, Whitestone, Borough of Queens.

MINUTES

APPEARANCES—

For Applicant: Paul Friedman.
For Opposition: Samuel Bodian for Park Dept.
For Administration: Samuel L. Becker, Dep't of Buildings.
ACTION OF BOARD—Laid over to November 27, 1956,
at 10 A. M. for inspection and decision; hearing closed.

452-56-BZ

APPLICANT—Frederick A. Ketcher, for Adolph C. Bloch-
ner, owner.
SUBJECT—Application June 26, 1956—(decision of the
borough superintendent) under section 7h of the zoning
resolution, to permit in a local retail and residence use
district, the parking and storage of more than 5 motor
vehicles.
PREMISES AFFECTED—1172 Castle Hill avenue, east
side, 53.06 ft. south of Gleason avenue, Block 3820, Lots
5, 6 and 12, Borough of The Bronx.

APPEARANCES—

For Applicant: Frederick A. Ketcher.
For Opposition: David Vorhaus and Max Nussbaum.
For Administration: Samuel L. Becker, Dep't of Buildings.
ACTION OF BOARD—Laid over to November 27, 1956,
at 10 A. M. for inspection and decision; hearing closed.

605-56-BZ

APPLICANT—Samuel Miller, for Episcopal Church of St.
Peters, owner (Esso Standard Oil Co., purchaser under
contract).
SUBJECT—Application September 5, 1956—(decision of
the borough superintendent) under sections 7c, 7e, 7f and
7i of the zoning resolution, to permit in a residence, retail
and restricted retail, D area district a gasoline service
station, lubritorium, auto laundry (non automatic), minor
auto repair shop with hand tools only and parking of
motor vehicles awaiting service for a term of 15 years.
PREMISES AFFECTED—2511 Westchester avenue,
northwest corner of St. Peters avenue, Block 3980, Lot 1,
Borough of The Bronx.

APPEARANCES—

For Applicant: Joseph B. Lynch and Rev. Leslie Lang.
For Opposition: None.
For Administration: Samuel L. Becker, Dep't of Build-
ings.
ACTION OF BOARD—Laid over to November 27, 1956,
at 10 A. M. for inspection and decision; hearing closed.

215-34-BZ—Vol. II

APPLICANT—Paul Friedman, for Catherine L. Harrison,
owner.
SUBJECT—Application reopened May 29, 1956 as Vol. II
—re (decision of the borough superintendent) under sec-
tions 7e and 7h of the zoning resolution, to permit for a
term of fifteen years in a local retail use district, the
erection of a gasoline service station and the accessory
uses of minor motor vehicle repairs and parking of cars
waiting service (previously denied by the Board under
Sec. 21 of the Zoning Resolution).
PREMISES AFFECTED—118-02 to 118-12 Merrick bou-
levard, southwest corner of 118th avenue, Block 12371,
Lot 324, St. Albans, Borough of Queens.

APPEARANCES—

For Applicant: Paul Friedman.
For Opposition: None.
For Administration: Samuel L. Becker, Dep't of Build-
ings.
ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keat-
ing and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on
May 29, 1956 subject to regular procedure; and
WHEREAS, a public hearing was held on this application
on September 25, 1956 after due notice by publication in
the Bulletin; laid over to October 16, 1956, for inspection
and decision; hearing closed; then to October 23, 1956, for
further consideration; then to October 30, 1956, for further
consideration and decision; and

WHEREAS, the district maps accompanying the zoning
resolution show that the site is in a local retail use, D
area, class ½ height district; Merrick boulevard is in resi-
dence, local retail and retail use, D area, class ½ height
districts; 118th avenue is in local retail and residence use,
D area, class ½ height districts; and

WHEREAS, the decision of the borough superintendent,
dated April 16, 1956 acting on N.B. Applic. 1163-56, reads:

"1. The use of the premises as a gasoline service
station, lubritorium, car washing (non-automatic),
minor repairs with hand tools only, office, sales and
storage of auto accessories and parking of more than
five cars waiting to be serviced in a Local Retail Use
District is contrary to Art. II Sec. 4-c of Zoning
Resolution."

and

WHEREAS, the applicant states that the premises consist of
a plot, 114.56 ft. frontage by 100 ft. in depth, now vacant,
except for billboards, and a search in the department of
buildings failed to disclose any permit or other approval
for said signs; that it is proposed to erect and maintain
for a stated term of fifteen years, a parkway type gasoline
service station and accessory uses; and

WHEREAS, the applicant states that as of July 25, 1916
the property was zoned as a business use and one times
height district; that the present local retail designation
became effective on January 21, 1947 and the present class
½ height designation became effective June 30, 1952; that
the area designation has not been changed since July 25
1916 and no zoning amendment relating to this property is
pending at the present time; and

WHEREAS, the applicant states that on November 27, 1934
the Board under Cal. No. 215-34-BZ, Volume I denied an
application under section 21 of the zoning resolution to
permit in a business use district the erection and mainte-
nance of a gasoline service station at the subject premises;
that on a certiorari to review the Board's determination the
Board was sustained, Matter of Jamaica Savings Bank,
N. Y. L. J. May 11, 1935, Motion for reargument denied,
N. Y. L. J. December 3, 1935; affirmed, Appellate Divi-
sion, Second Department, N. Y. L. J. May 15, 1936; and

WHEREAS, the applicant states that the instant application
differs materially and substantially from the previously
denied application in the following respects: that the basis
of appeal is different in that the previous application was
made and heard under section 21, under which practical
difficulties or unnecessary hardships must be proven within
the meaning of Otto v. Steinhilber, the leading case on the
subject, whereas the instant application is based upon sections
7e and 7h under which the criteria of proof required is
substantially different; that the instant application is for a
stated term of fifteen years whereas the previous application
was for a grant in perpetuity; that it is now proposed to
construct a parkway type accessory building with gable
roof and to confine all accessory uses such as lubritorium,
non-automatic auto washing, minor repairs with hand tools
only, within the building; that previously the application
was for a small building to be used only for office and
lavatory, with two open grease pits and lifts; that there
was no provision made previously for any fencing or land-
scaping to protect and buffer adjoining properties; that it is
now proposed to construct a 5 ft. 6 in. high brick fence wall
along the rear building line, as a continuation of the un-
pierced rear wall of the proposed building, and extending
along the 118th avenue frontage for a distance of 65 ft.;
that the instant application also proposes a 5 ft. wide seeded
and landscaped area protected by a 6 in. by 8 in. concrete

MINUTES

curb adjacent to the proposed fence wall and also along the southerly building line; that as to curb cuts, the previous application proposed two curb cut entrances of undisclosed dimension on 118th avenue and two curb cut entrances on Merrick boulevard; that two curb cuts of 30 ft. each are now proposed on Merrick boulevard and one curb cut along 118th avenue 20 ft. in width, located within 25 ft. of Merrick boulevard; and

WHEREAS, the applicant contends that there is no economic demand for the development of the premises with a conforming store use as existing store facilities are adequate for the neighborhood, the residential portion of which is developed with one and two family houses, so that there is no future residential development to provide adequate support for additional stores; that furthermore, St. Albans hospital, which occupies an extensive area on the easterly side of Merrick boulevard, precludes any possible residential support for stores; that Merrick boulevard is a heavily travelled thoroughfare and as such is unsuitable for residence development; that there is an economic demand for the development of the subject premises with a gasoline service station as it is located along Merrick boulevard which sustains a substantial volume of automotive traffic; and

WHEREAS, the applicant further contends that the proposed use will not adversely affect the neighborhood; that the balance of the block front is zoned for local retail use and the nearby properties to the south on Merrick boulevard are developed with stores on the 1st floor with dwellings above, except that the immediately adjacent building is a one story store used as a laundry and cleaning store, with an unpierced wall facing the subject premises; that the property opposite the subject premises to the north is also zoned as local retail and is developed with a two story store and residence; that the adjoining property to the west is developed with a residence, which is to be buffered by a 5 ft. 6 in. high brick fence wall; that the properties on the easterly side of Merrick boulevard opposite the subject premises will not be adversely affected as Merrick boulevard is 100 ft. wide at this point with the U. S. Naval Hospital occupying the entire frontage along this portion of the boulevard, the buildings of which are set back almost 100 ft. from the street line behind a 12 ft. high woven wire enclosure with no exit or entrance on Merrick boulevard; that the proposed use would furnish more light and ventilation to nearby properties than a conforming use since the proposed building, one story, 13 ft. in height, will occupy an area of 1815 sq. ft. while a conforming use could occupy an area of 6733 sq. ft. and could be constructed to a height of 50 ft.; that the proposed use will promote traffic safety as the proposed building, set back from the intersection, will provide clear visibility to traffic at the corner; and

WHEREAS, the applicant states that the present owner has held title to the property since January 5, 1956 and that the assessed valuation of land is \$7,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of 15 years to permit the premises to be occupied as a gasoline service station and accessory uses substantially as proposed and as indicated on plans filed with this application marked "Received May 7, 1956" (4 sheets), and "August 24, 1956" (one sheet), *on condition* that all buildings and uses on the premises shall be removed and the premises shall be levelled substantially to the grade of Merrick boulevard and shall be constructed and arranged as indicated on plans above cited; that the accessory building shall be of the design and arrangement as shown, without cellar; that there shall be no windows in the rear wall of the building; that pumps of

a low approved type shall be located as shown, with none nearer than 15 ft. to the street building line of Merrick boulevard; that the number of gasoline storage tanks shall not exceed twelve 550 gallon approved tanks; that along the lot line from the accessory building to 118th avenue there shall be erected a masonry wall faced with face brick to a total height of not less than 5 ft. 6 in.; that a similar wall shall be erected along the building line of 118th avenue for a distance of approximately 65 ft.; that against such walls there shall be planting areas, where shown; that along the southerly lot line a similar wall shall be constructed for the full depth of the lot where adjoining buildings do not occur on the lot line with planting area where shown; that curb cuts shall be restricted to two curb cuts to Merrick boulevard, where shown, each not over 30 ft. in width, and one curb cut to 118th avenue within the first 25 ft. from the intersection, such curb cut to be not more than 20 ft. in width; that at the intersection there shall be erected a block of concrete extending for a distance of 5 ft. from the intersection along either street line and not less than 12 inches in height; that sidewalks and curbing abutting the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that under Section 7i there may be minor repairing within the accessory building with hand tools for adjustments; that under Section 7h for a similar term there may be parking of cars awaiting service provided such parking is on spaces where the parking will not interfere with the servicing of the station; that signs shall be restricted to permanent signs attached to the facade of the accessory building, excluding all roof signs and temporary signs, and to the illuminated globes of the pumps and permitting the erection of a post standard within the intersection for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale, and permitting such sign, at right angles to Merrick boulevard, to extend beyond the building line for a distance of not over 4 ft.; and that all permits shall be obtained and all work completed and a certificate of occupancy obtained within the requirements of Section 22A of the Zoning Resolution.

1086-46-BZ—Vol. III

APPLICANT—Leonard A. Swarthe, for A. H. and H. H. Karsten, owners.

SUBJECT—Application reopened February 7, 1956 as Vol. III—re (decision of the borough superintendent) under sections 7e, 7c and 21 of the zoning resolution, to permit in a residence use district, the conversion of a public garage to factory use.

PREMISES AFFECTED—2333-2345 Waterbury avenue, north side, 291.56 ft. east of Havemeyer avenue, Block 3833, Lots 70 and 74, Borough of The Bronx.

APPEARANCES—

For Applicant: Leonard A. Swarthe.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on February 7, 1956 subject to regular procedure, to consider change of use; and

WHEREAS, a public hearing was held on this application on October 2, 1956 after due notice by publication in the Bulletin; laid over to October 30, 1956, for inspection and decision; and for applicant to file revised plans covering the two proposed occupancies; hearing closed; and

MINUTES

WHEREAS, the district maps accompanying the zoning resolution show that the site and Waterbury avenue are in a residence use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated December 9, 1955 acting on Alt. Applic. 1130-55, reads:

"1. Proposed factory in a residence use district is contrary to Art. II, Sect. 3 of the Z. R."

and

WHEREAS, the applicant states that the premises consist of a plot, 150 ft. frontage by 83.07 ft. in depth, on which is located a garage for more than five motor vehicles; that it is proposed to permit conversion of public garage, to factory uses; and

WHEREAS, the applicant states that at the time of the erection of the building this site was in a business use district and adjacent Zerega avenue was in an unrestricted use district; that the entire section was in a 1½ height class and C area; that on April 26, 1945 the use, height and area designations were changed into a more restrictive classification; that the northwesterly part of the block along Westchester avenue was designated as retail use, the rest as residence; that all was changed into class 1 height and D area, which designations are in force at this date; and

WHEREAS, the applicant states that the building was erected as a public garage for more than five motor vehicles under variance granted by the Board under Cal. No. 298-22-BZ and N.B. Applic. 286 of 1923; that the building consists of one story and cellar; that the cellar is of fireproof construction, the 1st floor has brick walls and is of a non-fireproof, class 3 construction; that certificate of occupancy No. 1168 issued August 4, 1923 is still in force and effect; and

WHEREAS, the applicant further states that the building, from the date of its erection in 1923 until March 1946 was occupied as a public garage for more than five motor vehicles; that due to the uninhabited and unprogressive conditions of the immediate vicinity, the financial status of the property was never sound; that on June 12, 1946 the property was sold to David Kaye and Nathan Miller and the latter purchased the property to convert the building into a factory; that an application was filed with the Board to make possible such a conversion under Cal. No. 1086-46-BZ on December 23, 1946; that these owners, to safeguard the vacant property while awaiting the decision of the Board, tried to keep the building boarded up, but vandalism was so rampant that on November 26, 1946 the building department placed violation U.B. 415-1946 against the premises; that the vandals even dug up and stole two 550 gallon gasoline storage tanks, which were replaced under F.P. No. 1097-47 on or about July 20, 1947; that the Board at its regular meeting on March 4, 1947 granted a variance on the application of the use district for a term of five years to permit the existing building to be occupied as proposed (as a factory for manufacture of fluorescent fixtures); that the costs of alterations and installation of necessary equipment required an investment of \$25,000 which had to be amortized in 4½ years, due to the time element imposed by the Board, in addition to the investment of \$48,000, the cost of said property; that it was evident that such a move would have been foolhardy from a financial point of view and therefore Mr. Kaye and Mr. Miller sold the property; that on May 26, 1947 the present owners located at 2336 Hermany avenue, The Bronx, purchased the property; that they contemplated maintaining their milk bottling distribution plant at 2338 Hermany avenue and to use the premises at Waterbury avenue as a garage for more than five motor vehicles to store and repair motor vehicles owned and operated by themselves exclusively, to store milk products in refrigerators and to maintain offices and stockrooms; that the adjacent 50 ft. by 83 ft. yard was to be used as a parking lot for employees only; and

WHEREAS, the applicant further states that on November 7, 1947 an application for a variance was filed with the Board and on December 2, 1947 the Board acted upon the application by reopening Cal. No. 1086-46-BZ, Vol. II; that shortly after this variance was granted, the owners

met with serious financial reverses and had to liquidate all their business; that the property at 2333-2345 remained as a public garage for more than five motor vehicles; that this property was then, in 1949, placed for sale without any results to date; that there were a few buyers who could have used it for manufacturing purposes, but the risk of not being able to obtain a variance from the Board drove away all the purchasers; that therefore the last five years, the Karstens not only cannot get any financial return on their investment but have to sustain additional heavy losses to maintain the property, pay taxes, interest on the mortgage and meet mortgage amortizations in order not to lose more by a foreclosure; that finally the Karstens are forced to seek relief of their hardship from the Board; and

WHEREAS, the applicant contends that in 1953, ten out of 27 owners of properties in the affected area, within 400 ft. on each side of the premises let their properties be foreclosed by the city for non-payment of taxes; that most of the block in which the site is located consists of rubbish dumping grounds; that only one new venture was added in this area since 1923, and it is a gas station on the southeast corner of Havemeyer and Westchester avenues; that home seekers do not care for the rubbish filled-in land and the general character of the surrounding environment, which further proves that the environment is not conducive to residential use; that it is doubtful whether the official change in designation in the use, height or area will change the situation when a time element of 33 years and a subway station nearby, failed to bring improvement; that in fact, Munn avenue in the rear of the premises and Waterbury avenue east of Zerega avenue are still only mapped, but not cut through avenues; and

WHEREAS, the applicant states that the present owner has held title to the property since May 26, 1947; that the assessed valuation of land is \$12,000 and of the building \$36,000 making a total of \$48,000; that the building was erected August 4, 1923; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on March 4, 1947, as thereafter amended by resolution adopted on June 22, 1948, by adding thereto:

"that in the event the new owners desire to change the use of the building from garage to factory for the occupancy by the Kampco Co. for the manufacturing, mixing and packing of ingredients for terrazzo and concrete flooring and American Zyloptic Co. Inc., for the manufacture of optical supplies, including plastic frames for lenses; that such occupancy may be permitted under section 7c *on condition* that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto, including the requirements of the State Labor Law, and to permit the use of the portion of the premises now unbuilt upon for the parking and storage of employees' cars, with a curb cut on Waterbury avenue with a ramp down to the existing lower grade; and that all permits, including a certificate of occupancy shall be obtained and all work completed within six months from the date of this *amended* resolution."

623-53-BZ—Vol. II

APPLICANT—Max Horn, for James J. Wolfson, Sidney M. Siegel and David Koss, owners.

SUBJECT—Application reopened October 2, 1956 for consideration as to time to complete, expired May 10, 1956—re (decision of the borough superintendent) under section 7e of the zoning resolution, permitting for a term of twenty years, in a residence use district, the erection and maintenance of a business structure (stored) and permitting the parking of patrons' and employees' motor

MINUTES

vehicles on unbuilt portion of plot (previously withdrawn re, permit the erection and maintenance of a gasoline service station).

PREMISES AFFECTED—60-01 to 60-31 Beach Channel drive and 305-321 Beach 60th street, southwest corner, 60-02 to 60-30 Arverne boulevard, Block 385, Lot 45, Arverne, Borough of Queens.

APPEARANCES—

For Applicant: M. Horn.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, on May 10, 1955, this application (Vol. II) was granted by the Board on certain conditions, under section 7e of the zoning resolution, to permit in a residence use district, for a term of twenty years, the erection and maintenance of a business structure (stores) and to permit the parking of patrons' and employees' motor vehicles on unbuilt upon portion of the plot (previously withdrawn), re, permit the erection and maintenance of a gasoline service station; and

WHEREAS, the applicant requested reopening of this application and extension of time, to obtain permits and complete the work, which had expired by time limitation; and

WHEREAS, this application was reopened on October 2, 1956 and set for hearing on October 30, 1956 at 10 A. M., subject to regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin; and

WHEREAS, a public hearing was held on this application on October 30, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated August 27, 1956 acting on N.B. Applic. 2866-54, reads:

"1. Amendment to extend approval more than one year is contrary to Bd. of Stds. and Appeals Resolution 623-53-BZ, Vol. II, dated May 10, 1955, Bulletin #20, Vol. XL and is referred back to the Board for reconsideration."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on May 10, 1955, only so far as it refers to obtaining permits and the completion of the work so that as *amended* this portion of the resolution shall read:

"that all permits required shall be obtained and all work completed and a certificate of occupancy obtained within the requirements of Section 22A of the Zoning Resolution." (N.B. App. 2866-54.)

919-50-BZ

APPLICANT—Lama, Proskauer and Prober, for Sinclair Refining Co., owner.

SUBJECT—Application reopened October 2, 1956 for consideration as to extension of term of variance, expired May 29, 1956—re (decision of the borough superintendent) previously granted on condition under sections 7c, 7i and 7A of the zoning resolution, permitting in a business use district, the reconstruction of existing gasoline service station, lubritorium, car washing, sales training room, storage and office and permitting ground signs and permitting distance from intersection.

PREMISES AFFECTED—69-02 to 69-20 Northern boulevard and 33-01 to 33-09 69th street, southeast corner and 33-02 to 33-10 70th street, Block 1242, Lot 1, Jackson Heights, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, on May 29, 1951 this application was granted by the Board on certain conditions, under sections 7c and 7A of the zoning resolution, to permit in a business use district, the reconstruction of existing gasoline service station, to be used as a gasoline service station, lubritorium, car washing, sales training room, storage and office, and to permit ground signs, and to permit curb cuts more than the permitted distance from the intersection; and

WHEREAS, time to obtain permits and complete the work was extended on May 27, 1952 and May 9, 1953; and

WHEREAS, the resolution was amended on October 14, 1953; and

WHEREAS, the applicant requested reopening of this application and extension of the term of variance, which had expired by time limitation on May 29, 1956; and

WHEREAS, this application was reopened on October 2, 1956 and set for hearing on October 30, 1956 at 10 A. M., subject to regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin, and a copy of certificate of occupancy in effect to May 29, 1956; and

WHEREAS, a public hearing was held on this application on October 30, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated September 27, 1956 acting on Alt. Applic. 1319-55, reads:

"1. Proposed extension of time for variance granted for parking and storage of motor vehicles for an additional 5 years is contrary to Article II Section 4-46 as premises is used as a gasoline service station and premises is in a business use district. Variance granted by Board of Standards and Appeals for 5 years has now expired."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on May 29, 1951, as amended by resolution adopted December 13, 1955, only so far as it refers to the term of the variance as to the use of the premises for parking and accessory uses, so that as amended this portion of the resolution shall read:

"that there may be parking of cars awaiting to be serviced, or having been serviced; such parking to be in spaces indicated toward the north of the plot; and that such parking shall be of pleasure type vehicles only."

Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 30, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Oak avenue and 158th street are in a residence use, G-1 area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated May 24, 1955 acting on N.B. Applic. 2875-53, reads:

"1. Offset of chimney from Oak avenue building line is contrary to Art. 4 Sec. 16C(b) of Zone Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 60 ft. frontage by 110 ft. in depth, on which is located a two family residence and two car garage, 35 ft. front by 69.8 ft. in depth, two stories, 24 ft. in height, of class 4 construction; that as of July 25, 1916 the property was zoned as a residence D-1; that on January 22, 1926 it became residence, F-1 and on May 13, 1954 was changed to residence, G-1, class 1 height; and

WHEREAS, the applicant states that it was unintentionally overlooked by the architect, and unnoticed by the plan examiner who approved the plan filed under N.B. 2875-53, to secure a certificate of occupancy until the building was complete and the final survey was submitted; that a temporary certificate of occupancy was issued, Temp. Q-9-5087 on March 24, 1954 and expired June 25, 1954; that the application for a certificate of occupancy was disapproved on August 20, 1954 and was disapproved more recently on May 24, 1955 upon the grounds that the offset of chimney from Oak avenue building line is contrary to Art. 4, Sect. 16c(b) of the zoning resolution; and

WHEREAS, the applicant contends that the offset of the chimney is and was unintentionally constructed 13 ft. 6 in. from the Oak avenue building line, while the main building line is at the required 15 ft.; that it is the 18 in. extension which is the basis for the disapproval by the department of buildings; that the offset in no way degrades the appearance or normal condition of the area or neighborhood, nor does it create any hazard or interference with the surrounding area; that to change or remove the chimney offset would place a serious financial burden upon the owner and builder; that extensive alterations would be required to build the chimney into the dwelling, thereby reducing the interior of the residence and affect the beauty, comfort, as well as the value of the residence; and

WHEREAS, the applicant states that the present owner has held title to the property since March 30, 1954; that the assessed valuation of land is \$4,100 and of the building \$18,900 making a total of \$23,000; that the building was erected in 1953; and

WHEREAS, it appears that the plans had been filed and approved including the chimney in question prior to the change of zoning to present G-1; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21 to permit the extension into the side yard of the chimney, as proposed and as indicated on plans filed with this application marked "Received June 17, 1955", 8 sheets, and "October 2, 1956", one sheet, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits shall be

obtained and all work completed and a certificate of occupancy shall be obtained within six months from the date of this resolution.

1000-55-BZ

APPLICANT—Leonard F. Rothkrug, for G.H.N.B. Realities, Inc., owner.

SUBJECT—Application December 20, 1955—re (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence use district a parking lot for more than 5 cars.

PREMISES AFFECTED—940-942 Marcy avenue, west side, 80 ft. south of Macon street, Block 1850, Lots 26 and 35, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings, and John J. Saunders, Board of Education.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating
and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on September 25, 1956 after due notice by publication in the Bulletin; laid over to October 23, 1956, for inspection and decision; hearing closed; then to October 30, 1956, for revised plans showing parking spaces and also a second means of exit; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, C area, class 1¼ height district; Fulton street is in a retail use, C area, class 1¼ height district; Marcy avenue is in residence and retail use, C area, class 1¼ height districts; and

WHEREAS, the decision of the borough superintendent, dated December 15, 1955 acting on Alt. Applic. 4411-55, reads:

"1. The proposed parking lot for more than 5 cars partly in a retail use district & partly in a residence use district is contrary to Art. II Sec. 3 of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 45 ft. frontage by 193 ft. in depth, presently vacant except for two advertising signs proposed to be removed; that it is proposed to occupy the premises as a parking lot for more than five cars; and

WHEREAS, the applicant states that the premises are located in a residence use, C area, class 1¼ height district; that Marcy avenue, Verona place, Fulton street and the site were in a business use district on July 25, 1916; that the use district was changed to its present designation on March 17, 1953; that Fulton street is presently in a retail use district; and

WHEREAS, the applicant states that the tax block in which the site is located is irregular and unique in boundary so that its center has been vacant and unusable although the remainder of the block is heavily developed on the street frontages; that there is an urgent and pressing need for parking facilities in this neighborhood as the area is heavily developed with business uses and fully attached residential dwellings; that this development took place before the popular use of the automobile so that no provision was made for automobile parking; that there is almost a total absence of any off street parking facilities within the entire 500 ft. radius and there are no public garages or parking lots within several blocks of the site; and

WHEREAS, the applicant contends that both Marcy avenue and Fulton street are heavily trafficked and the retail and business development along Fulton street attracts automo-

MINUTES

bile traffic from a large area; that this traffic situation coupled with the private cars of the large number of residential housing units creates a tremendous traffic problem and results in bumper to bumper street parking all through the day; that the owner is also the owner of lot 16 in this tax block, fronting on Macon street; that it is not proposed to include said lot in this appeal so that only one curb cut out to Marcy avenue is proposed; that the premises which was located in a business use district could have been occupied as a parking lot until the zone was changed in March 17, 1953; that the site could presently be occupied as a parking lot accessory to the multiple dwellings on this block; that the irregular and unique shape of the site makes it unusable for any conforming use; and

WHEREAS, the applicant states that the present owner has held title to the property since May 13, 1955; that the assessed valuation of land is \$14,650 and of the building \$250 making a total of \$14,900; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years to permit the premises to be occupied for parking and storage of motor vehicles substantially as proposed and as indicated on plans filed with this application marked "Received December 20, 1955", 2 sheets, as amended by revised plans marked "Received October 25, 1956", one sheet, *on condition* that all buildings and uses on the premises, including Lot 16, shall be removed and the premises shall be graded and surfaced with clean gravel or steam cinders and treated with a binder properly rolled so as to be substantially to the grade of Marcy avenue; that on the interior lot lines there shall be erected a woven wire fence of the chain link type not less than 5 ft. 6 in. in height; that a similar fence shall be erected on the street line of Marcy avenue with a gate for entrance and exit not over 10 ft. in width; that on lot 16, to Macon street, there shall be gates at the rear line and at the street building line, as shown, which shall normally be kept closed but which shall be available for emergency entrance or exit but not for regular daily use; that during the term of this variance the premises shall be occupied for no other use; that there may be erected near the entrance a building not over one hundred square feet in area and not over one story in height as an office and shelter for the attendant; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that signs shall be limited to a sign attached to the fence, at Marcy avenue, advertising the parking and storage use and the prices charged and such other information as may be required by the Commissioner of Licenses; and that all permits shall be obtained and all work completed and a certificate of occupancy obtained within six months from the date of this resolution.

Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 2, 1956 after due notice by publication in the Bulletin; laid over to October 30, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Junction boulevard are in a retail use, C area, class 1½ height district; 35th avenue is in retail and residence use, C area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated June 4, 1956 acting on N. B. Applic. 1384-56, reads:

"1. Proposed gasoline service station, lubritorium, car washing (non automatic) minor repairs hand tools only —office sales & storage of auto accessories & parking of more than 5 cars waiting to be serviced, located in a retail use district, is contrary to Art. 2 Sec. 4-A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 108.38 ft. frontage by 100.66 ft. in depth, now vacant except for billboard sign; that it is proposed to erect and maintain for a term of fifteen years a modern parkway type gasoline service station, lubritorium, non-automatic car wash, minor repairs with hand tools only, office, sale and storage of auto accessories and parking of more than five cars awaiting service; and

WHEREAS, the applicant states that the subject premises is presently zoned as a retail use, class 1½ height and C area district; that as of July 25, 1916 the property was zoned as a business district and the present retail designation became effective on April 29, 1954; that the height and area designations have not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the applicant contends that there is no economic demand for use of subject premises for retail store development as existing store facilities in the area are sufficient to satisfy present needs of residents in the neighborhood; that there is no economic demand for residential development as it is located at the intersection of two heavily travelled thoroughfares, it is located in a retail use district which is largely developed with commercial uses and adjoins a large parking lot in block 1469, lots 20 and 21; that there is a demand for a gas station at the subject premises as it is located at the intersection of Junction boulevard and 35th avenue, both heavily trafficked thoroughfares and because there are no similar facilities in the immediate area; that a grant of this application would have no adverse effect upon nearby properties as the premises are located entirely within a retail use district; that both sides of Junction boulevard within the area of notification are zoned for retail or business use, except block 1729; that the adjoining property to the south and the balance of the block front on Junction boulevard is developed with a large parking lot and retail stores and the property opposite, to the north, is developed with stores; that the properties opposite the subject premises on Junction boulevard and in the retail use district are developed with some old frame dwellings, a large used car lot and a store, and the property adjacent, to the west, is vacant; and

MINUTES

WHEREAS, the applicant further contends that the proposed structure will be a parkway type building with gable roof and brick facade; that adjoining properties will be protected and buffered by the proposed fencing and landscaping arrangement; that it is proposed to set back the building 10 ft. from the westerly building line and erect a 5 ft. 6 in. high brick fence wall extending from the unpierced rear wall of the building to the 35th avenue building line and extending along the 35th avenue building line for a distance of approximately 56 ft.; that it is also proposed to seed and landscape the westerly 10 ft. strip between the fence wall and adjoining property thus creating a landscaped buffer between the proposed and the adjoining property; that it is also proposed to erect a 4 ft. high cyclone fence on the southerly lot line, adjacent to the large parking lot, and to install a seeded and landscaped strip 4 ft. 6 in. wide adjoining the proposed fence and fence walls, protected by a 6 in. by 8 in. concrete curb; that the existing billboard signs will be removed; that the proposed structure, one story 18 ft. in height and occupying an area of 1950 sq. ft., would provide more light and ventilation to nearby properties than if a conforming use structure were erected; and

WHEREAS, the applicant states that the present owners have held title to the property since October 15, 1952 and that the assessed valuation of land is \$135,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions f, h and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of fifteen years, to permit the premises to be occupied as a gasoline service station with accessory uses solely within the retail use portion of plot, substantially as proposed and indicated on plans filed with this application, marked "Received June 29, 1956", 3 sheets, *on condition* that all existing buildings, structures and uses shall be removed from the site and the premises leveled substantially to the grade of Junction boulevard, constructed and arranged as indicated on such plans; that the accessory building and wall shown extending to 35th avenue shall be constructed and maintained wholly within the retail use portion of site; that the plot for a distance of 10 feet behind such wall to the lot line at the west shall be landscaped and kept in neat condition at all times; that the accessory building shall have no cellar and no windows in the rear of the building and in all other respects shall comply with all laws, rules and regulations applicable thereto; that the design of the building shall be as shown, faced with face brick on all exterior sides; that pumps shall be of a low approved type, erected not nearer than 15 feet to the building line of Junction boulevard; that in addition to the wall above specified, a wall shall also be continued along the building line of 35th avenue for a distance of approximately 55 feet as shown; that at the northeasterly end of such wall there shall be a suitable terminating post and the wall at that point for a distance of 10 feet may be reduced to 4 ft. 6 in. in height; that all other walls shall be of masonry not less than 5 ft. 6 in. in height; that along the southerly lot line from the accessory building to the building line of Junction boulevard there shall be a woven wire fence of the chain link type to a total height of not less than 5 ft. 6 in. with a masonry termination post; that planting, as shown, adjacent thereto shall be with suitable planting material, maintained and protected by a concrete curbing 8 in. high and 6 in. wide; that the sidewalks and curbing abutting the plot shall be reconstructed or repaired to the satisfaction of the borough president; that curb cuts shall be restricted to two, each 30 ft. in width to Junction boulevard, and one to 35th avenue 20 ft. wide within the first 25 ft. from building line of Junction boulevard; that such portable fire fighting ap-

pliances shall be maintained as the fire commissioner shall direct; that under section 7i for a similar term there may be minor repairing of motor vehicles with hand tools only maintained solely within the accessory building; that under section 7h for a similar term there may be parking of cars awaiting service; that the number of gasoline storage tanks shall not exceed ten 550 gallon approved tanks; that signs shall be restricted to permanent signs attached to the front facade of the accessory building, and to the illuminated globes of the pumps, excluding all roof signs and temporary signs, but permitting the erection within the building line of a post standard for supporting a sign at right angles to Junction boulevard, extending not more than 4 feet over the building line advertising only the brand of gasoline on sale; that such sign may be illuminated; that at the intersection of the two streets there shall be erected a block of concrete not less than 12 in. in height extending 5 feet along each building line; that where not occupied by accessory building, pumps, walls and planting, the premises where unbuilt upon shall be paved with concrete or asphalt; and that all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

THE RESOLUTION—

REPORT OF COMMITTEE ON TEST

WHEREAS, the report of a Committee on Test reads:

Re: Cal. 1003-54-SA

Subject: Linde Liquid Transport Semi-Trailer for Liquid Oxygen, Nitrogen and Argon, Models 250 and 300.

Linde Air Products Company, a division of Union Carbide and Carbon Corp., New York, owner-manufacturer filed December 24, 1954 an application with the Board of Standards and Appeals for approval of the Linde Liquid Transport Semi-Trailer for Liquid Oxygen, Nitrogen and Argon, Models 250 and 300 under the provision of C19-11.0 Administrative Code.

Purpose

Semi-trailer tank trucks for the transportation and delivery of liquid oxygen, argon or nitrogen.

Description

The Linde Model 250 and 300 Liquid Transport Semi-Trailers used for the transportation of liquid oxygen, nitrogen or argon are frameless vehicles capable of carrying approximately 2600 gallons of liquid. The liquid is carried in a stainless steel cylindrical tank of welded construction suitable for extremely low temperature service. The liquid container has a maximum operating pressure of 15 psi and is hydrostatically tested at 50 psi at the time of construction. The liquid container is completely insulated with a suitable non-combustible insulating material.

The design data is as follows:

MODEL		
	250	300
Liquid Container		
Capacity*	2600 gallons	2600 gallons
Length	16'-2½"	17'-1"

Test	30 psi Air Internal	30 psi Air Internal

MINUTES

The liquid container is supported by metallic members within the outer steel casing which also holds the insulation and protects it from moisture. A vacuum is maintained between the inner container and outer casing.

The outer steel cylindrical casing acts as the frame of the semi-trailer with a tandem axle assembly welded to the under side near the rear and a suitable steel-frame outrigger, which supports the kingpin for the fifth wheel, welded to the front end. The tandem axles are either Fruehauf Model GT-55 Tandem Axle Assembly manufactured by Fruehauf Trailer Co., Detroit, Michigan or Truxmore, Model 900 Duaload Tandem Axle Assembly manufactured by the Truck Equipment Co., Buffalo, New York.

All lines from the inner liquid container are brought out into an operating cabinet on the rear of the casing which protects all valves, safety devices liquid level gauges etc., from the weather. All equipment such as brakes, brake reservoirs, warning devices, fuel tanks, etc., comply with the Interstate Commerce Commission, Motor Carrier Safety Regulations.

The liquid container and outer casing are provided with suitable safety devices to prevent any undue rise in pressure, the primary device on the liquid container is a 1½" safety valve on a 1½" inside diameter pipe set to open at 15 psi. Further protection is provided in the form of a 2" diameter bursting disc on a separate 2" line and designed to rupture at approximately 29 psi. The outer steel casing is protected by a 4" relief device on a 2" diameter pipe designed to release at about 1½ psi.

In operation the container is filled at the supply point with liquid oxygen, nitrogen or argon to a calibrated trycock level. Because of the vacuum insulation, pressure rise in the liquid container seldom exceeds four or five psi by the time the unit reaches its destination. To prevent excessive rise in pressure in the liquid container, a ½" safety valve set to relieve at 10 psi is installed in the vent line ahead of the shut-off valve. Should this safety valve become inoperative, the container is still protected by the safety devices mentioned above.

At the unloading point, the filling connection of the semi-trailer is connected by a suitable flexible metal hose to the inlet of a pump which is part of the receiving equipment. Pressure in the liquid container on the transport semi-trailer is increased slightly by vaporizing a small amount of liquid and returning the gas back into the liquid container. Gravity head plus the pressure head forces the liquid out into the inlet of the pump.

The liquid transport semi-trailers for liquid oxygen, liquid nitrogen and liquid argon are operated only by personnel especially trained by Linde Air Products Co. for such work. The equipment is entirely owned and maintained by Linde Air Products Company.

Inspection and Test

The trucks were inspected and tested at an installation of the applicant at their premises. Present were Asst. Engrs. J. A. Darts and G. F. Sklenarik, Committee on Test and others representing the applicant. The filling, unloading and safety devices were inspected and the equipment operated as designed.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant, the Committee on Test recommends the approval of the Linde Liquid Transport Semi-Trailer for Liquid Oxygen, Nitrogen and Argon, Models 250 and 300 when constructed in accordance with this report and the data submitted, provided each truck trailer will bear a label permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for transport and delivery of oxygen, nitrogen or argon in New York City under Cal. No. 1003-54-SA," and provided further that the operator

of each such vehicle have a certificate of fitness issued by the Fire Commissioner.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Cal. No. 1005-54 SA

Subject: Linde Liquid Storage Tank for Oxygen, Nitrogen and Argon, Models LO-300, LO-600 and LO-1500.

Linde Air Products Company, a Division of Union Carbide and Carbon Corp., New York, owner-manufacturer, filed December 24, 1954 an application with the Board of Standards and Appeals for approval of the Linde Liquid Storage Tank for Oxygen, Nitrogen and Argon, Models LO-300, LO-600 and LO-1500 under the provisions of section C-19-91.0 Administrative Code.

Purpose

Insulated tanks for the storage of liquefied oxygen, nitrogen or argon.

Description

The Linde Liquid Storage Tank is used for above ground storage of large quantities of liquid oxygen, nitrogen or argon.

The storage tank consists of an inner liquid container of welded construction fabricated of a metal suitable for low temperature service. The design characteristics of the various models are as follows:

	Models		
	LO-300	LO-600	LO-1500
Inner Container			
Capacity*	2,600 gal.	5,200 gal.	13,000 gal.
Design Pressure	85 psi	78 psi	43 psi
Hydrostatic Test	127 psi	118 psi	65 psi
Outside Diameter	9' 0"	84"	9' 0"
Steel Thickness	.152"	.219"	.250"
Material	Stainless Steel	Stainless Steel	"Everdur"***

* Capacity to full trycock.

** Copper silicon alloy.

MINUTES

Primary Safety			
Valve Setting	65 psi	59 psi	25 psi
Bursting Disc	90 psi	75 psi	45 psi
Outer Casing			
Design Pressure	15 psi ext.	15 psi ext.	15 psi ext.
Pneumatic Test	22½ psi	22½ psi	30 psi
Outside Diameter	10' 10"	108"	11' 6"
Shell Thickness	.250"	.328"	.500"
Material	Carbon	Carbon	Carbon
Length (Approx.)	Steel	Steel	Steel
	Sphere	22' 7"	34' 0"

Each tank is built according to ASME code requirements. In operation, liquid oxygen, nitrogen or argon is delivered to the tank in an approved mobile transport truck of conventional or semi-trailer design. The liquid is fed by gravity plus a small pressure head from the transport to a rotary pump located near the storage tank which pumps the liquid into the tank. Pressure rise in the liquid container is limited by a pressure actuated electrical switch which opens an electric solenoid gas blow down valve at a set pressure. Should this device become inoperative for any reason, the tank is protected by the safety devices aforementioned.

Inspection and Test

A typical tank installation was inspected at the premises of the applicant at Linden, New Jersey by Asst. Engrs. J. A. Darts and G. F. Sklenarik, Committee on Test and Messrs. H. C. Stelling and R. Neary representing the applicant. The tank was constructed and equipped as described.

Recommendation

On the basis of the inspection and the data submitted, the Committee on Test recommends the approval of the Linde Liquid Storage Tank for Oxygen, Nitrogen and Argon, models LO-300, LO-600, LO-1500, for use in New York City under the provisions of C-19-91 Administrative Code when constructed and equipped in accordance with this report and on condition that such storage tanks will be installed outdoors, where permitted by law, with a clearance of at least 25 feet in all directions, with no smoking, open flames or storage of combustible materials permitted in the tank area, the area to be so posted; that each installation will be serviced, maintained and periodically inspected by specially trained Linde Air Product Co. personnel holding Certificates of Fitness issued by the Fire Commissioner and further that all electrical work shall be in accordance with the Electrical Code of the City of New York and that each installation shall bear a label, permanently affixed, reading as follows, "Approved by the Board of Standards and Appeals, for use in New York City under Cal. No. 1005-54 SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer.

Resolved, that the Board of Standards and Appeals does hereby approve this appliance in accordance with the above report.

746-38-SA—Vol II

APPLICANT—John Wood Company, Bennett Pump Division, owner.
SUBJECT—Application for consideration—reopening for report as to additional models—re Bennett Pumps for Motor Fuels, Models 748, 749, 548 and 549; previously approved.
APPEARANCES—
For Applicant: John Medel.
ACTION OF BOARD—Application reopened for report as to additional models.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

1016-39-SM—Vol. IV

APPLICANT—National Gypsum Company, owner.
SUBJECT—Application for consideration—reopening for report as to extension of uses of sheathing—re Gold Bond Acoustamatic Tile, Gold Bond Insulation Tile and Gold Bond Insulation Plank; previously approved.
APPEARANCES—
For Applicant: James J. Larkin.
ACTION OF BOARD—Application reopened for test and report as to extension of use of sheathing.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

1224-39-SM—Vol. II

APPLICANT—Sloan Valve Company, owner.
SUBJECT—Application for consideration—reopening as Vol. II for test and report as to additional models—re Sloan V-100-A Vacuum Breaker; previously approved.
APPEARANCES—
For Applicant: None.
ACTION OF BOARD—Application reopened as Vol. II for test and report as to additional models.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

459-45-SM

APPLICANT—Truscon Steel Company, owner.
SUBJECT—Application for consideration—reopening for report as to change in model numbers—re Truscon Steel Double Hung Windows, Series 138 and 145; previously approved.
APPEARANCES—
For Applicant: Albert B. Meyer.
ACTION OF BOARD—Application reopened for report as to proposed change in model numbers.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

547-50-SM

APPLICANT—National Gypsum Company, owner.
SUBJECT—Application for consideration—reopening for report as to proposed change of construction—re Gold Bond Thermacoustic; previously approved.
APPEARANCES—
For Application: James J. Larkin.
ACTION OF BOARD—Application reopened for report as to proposed change of construction.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

APPLICANT—Albina Engine and Machine Works, owner.
SUBJECT—Application for consideration—dismiss reopening of July '7, 1953—re Albina Mechanical Stirrup; previously approved.

APPEARANCES—

For Applicant: None.

ACTION OF BOARD—Application dismissed for lack of prosecution.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

65-51-SA

APPLICANT—Hershner Manufacturing Co., for H. R. Hershner, owner.

SUBJECT—Hemco Oil Burners, Models H1, H1A and H2, approval of.

APPEARANCES—

For Applicant: None.

ACTION OF BOARD—Application dismissed for lack of prosecution.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

122-51-SA

APPLICANT—Montgomery Ward, for Kingston Products Corp., owner-manufacturer.

SUBJECT—Ward (vaporizing type of oil furnace), Models 15K-6111A and 15K-6112A, approval of.

APPEARANCES—

For Applicant: None.

ACTION OF BOARD—Application dismissed for lack of prosecution.

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

432-55-A—Vol. II

APPLICANT—Leonard F. Rothkrug, for Belfan Building Corp., owner.

SUBJECT—Application reopened July 10, 1956 as Vol. II—re Appeal from a decision of the borough superintendent—cellar egress.

PREMISES AFFECTED—8-12 Forrest street, south side, 97 ft. east of Bushwick avenue, Block 3145, Lot 12, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug and Larry Meltzer.
For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 3
Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated October 9, 1956, on Amendment to Alt. App. 4927/54 reads:

"2. Egress as now proposed from cellar and the occupancy of first and cellar floors varies from approval of Bd of Stds & Appeals. (Cal. 432-55-A.)

Note—steps at front from cellar projects beyond building line."

and

WHEREAS, the applicant states the building is 6 stories, 70 ft. in height, 50 ft. by 110 ft. in area, of fireproof construction, erected 1906, located in an unrestricted use, B area, Class 1½ height district, and used and occupied since 1956 as follows—cellar—food packaging and distributing, 10 persons; 1st floor—food packaging and distributing, 24 persons; 2nd floor—manufacturing dresses, 22 persons; 3rd floor—manufacturing sporting equipment, 18 persons; 4th floor—manufacturing coats, 40 persons; 5th floor—manufacturing yarn, 10 persons; 6th floor—manufacturing utility bags, 18 persons; for which no certificate of occupancy has been issued. The building is provided with one 3 ft. 6 in. wide interior steel stairs, fireproof enclosed, equipped with kalamein self-closing doors and leading from roof bulkhead direct to street and two fire escapes, one at front and one at rear; fire escapes extend to roof by ladder and to street by stair and to yard by ladder; and

WHEREAS, Violation #3158-54 was issued to provide additional egress from the rear fire escape and additional egress from the cellar to street, and

WHEREAS, the Board on September 27, 1955, under Cal. No. 432-55-A, Vol. I, modified Objection #1, issued by the borough superintendent May 17, 1945, on Alt. App. 4972/54 on condition that the means of egress including passageway from the rear fire escape to the street constructed within the cellar be maintained as indicated on plans filed with such appeal marked "Received May 19, 1955" (2 sheets), as amended by revised plans marked "Received September 15, 1955" (2 sheets), and it was then represented to the Board that the cellar, used for assembly of book shelves, was to be discontinued and the cellar maintained vacant and the first floor used for bookbinding; and

WHEREAS, the applicant now requests permission to rearrange the exit passageway from the cellar as indicated on plans filed October 9, 1956 (3 sheets), and to use the cellar for the packaging and distribution of food products with an occupancy of ten persons and to continue the use of the first floor for packaging and distribution of food products with an occupancy of 24 persons.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on September 22, 1955, by adding thereto:

"that the decision of the borough superintendent, acting on amendment to Alt. App. 4972/54, Objection 2, be and it hereby is modified so as to permit the change of use in the cellar to packaging and distribution of food products with an occupancy of ten persons and to continue the processing of the food with an occupancy of twenty-four persons on the 1st floor and to rearrange the passageway from the cellar, as proposed and indicated on plans filed with this appeal, marked "Received October 9, 1956", 2 sheets, on condition that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that the building shall not be increased in height or area."

RULES

AMENDMENTS TO THE RULES FOR ERECTION, ALTERATION, REPAIR, EXCAVATION FOR AND DEMOLITION OF BUILDINGS

Adopted by The Board of Standards and Appeals,
October 26, 1943, Effective December 13, 1943;
Amended Oct. 14, 1955, Effective Nov. 10, 1955;
and Amended June 4, 1956, effective July 2, 1956.
(Cal. No. 784-41-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, (3) and (4) of The New York City Charter; Sections C26-189.0, C26-191.0, C26-504.0(a), and C26-689.0 of the Administrative Code

7.8.1 Design and Construction of Forms. The design and construction of forms shall conform to the following requirements:

7.8.1.1 Forms shall conform to the shape, lines, and dimensions of the member as called for on the plans. Forms shall be substantial and sufficiently tight to prevent leakage of mortar; and shall be properly braced or tied together so as to maintain position and shape and insure safety to workmen and passersby. Temporary openings shall be provided where necessary to facilitate cleaning and inspection immediately before depositing concrete.

7.8.1.2 Where the height of the shores exceeds ten feet, adequate diagonal bracing shall be provided in both longitudinal and transverse directions. In addition, adequate diagonal braces shall be provided at the ends of the framework. Diagonal bracing shall extend from the top to bottom of shores.

7.8.1.3 The unbraced length of wood shores supporting forms shall not exceed fifty times the least dimension. Metal shores or frames shall be approved by the Board of Standards and Appeals and shall be installed in accordance with the approval of the board. Shores shall be adequately secured at the top and shall be properly wedged at top or bottom, if required.

7.8.1.4 Where shores rest upon the ground, adequate mud sills, or other bases, shall be provided to support the shores adequately.

7.8.1.5 Qualified workmen shall be detailed constantly during the placing of concrete to insure that there is no movement of shores, braces or other supports. The name of the foreman in charge of the formwork shall be posted in the field office of the contractor.

7.8.1.6 The individual, firm or corporation who does the concrete work shall be responsible for the adequate design and construction of all forms used in the construction of the building. Wherever the shore height exceeds fourteen feet, or the load on the forms exceeds one hundred fifty pounds per square foot, or power buggies are used, or two stage shores are used, the individual, firm or corporation who does the concrete work shall certify to the department that the form design has been checked and approved as adequate by a licensed professional engineer who has had at least five years of experience as a structural engineer, and that the forms have been constructed in conformance with the design which was checked and approved by the said engineer.

RULES RELATING TO SMOKING IN PROTECTED PORTIONS OF FACTORIES, AND IN SPECIAL CLASSES OF OCCUPANCIES.

Adopted by the Board of Standards and Appeals August 13, 1918, effective September 9, 1918, under the powers conferred upon the Board by Section 718-a, Subsections 2 and 3 (Old Charter) to supplement Section 283 of the Labor Law (Old Section 83c).

[Cal. 1262-18-SR]

Labor Law

Section 283. Smoking.

1. No person shall smoke in a factory. A notice of such prohibition stating the penalty for violation thereof shall be kept posted in every entrance hall, elevator, stair hall and room of a factory in English, and in such other languages as the fire commissioner of the city of New York in such city and elsewhere the commissioner shall direct.

2. The board in its rules may permit smoking in protected portions of a factory, or in such classes of occupancies where in its opinion the safety of the employees will not be endangered thereby. The fire commissioner of the city of New York in such city and elsewhere the commissioner may issue such permits in accordance with rules adopted by the board.

3. The fire commissioner of the city of New York in such city and elsewhere the commissioner shall enforce this section.

Rule 1. Permit.

(a) Prohibition. No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the administrative official.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stair hall or room throughout the building, as well as in every elevator car, in English, and also in such other language or languages—as the administrative official shall direct, a notice of such prohibition, and the penalty for its violation.

(b) Application. Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the administrative official.

(c) Time Limit. Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon the expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) Conditions. The permit shall state the conditions under which the hours between which, and the place or places in such factory where smoking may be permitted, and this

permit shall be framed and kept posted in a conspicuous place in the factory.

(e) Revocation. Violation of any of the conditions specified in the permit in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the administrative official, and shall not again issue a permit for the same premises until at least one year has elapsed.

Rule 2. Permissible Cases.

Smoking may be permitted in:

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fireresisting partitions, with all openings therein protected by selfclosing fire doors, and further, unless the building is of fireproof construction or provided with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire retarding material.

(3) Such chemical fire extinguishers as the administrative official may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;
(2) Such chemical fire extinguishers as the administrative official may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

Minutes of Regular Meeting, Wednesday Afternoon, November 7, 1956, Affecting Calendar Numbers 175-54-A, 345-55-A, 147-49-A—Vol. III, 314-56-A, 510-56-A, 588-41-BZ, 220-44-BZ—Vol. II, 408-44-BZ—Vol. III, 283-52-BZ, 446-53-BZ—Vol. II, 597-44-BZ—Vol. II, 850-47-BZ, 457-50-BZ—Vol. II, 942-54-BZ, 190-55-BZ, 386-55-BZ, 454-55-BZ, 867-55-BZ, 901-55-BZ, 116-56-BZ, 958-27-BZ—Vol. II, 823-46-BZ—Vol. II, 396-

SECTION 21-C

At its October 25, 1956 meeting the Board of Estimate rejected by an unanimous vote the proposal of the City Planning Commission which would give it power to grant variances of the Zoning Resolution in projects having an area of 200,000 square feet.

As it is expected that some similar proposal may be advanced by the Planning Commission having as its purpose reduction in the Charter powers of the Board of Standards and Appeals and assumption of such powers by the City Planning Commission through amendment of the Zoning Resolution briefs on the law submitted to the Planning Commission but not all filed with the Board of Estimate will be published in the Bulletin in succeeding issues.

HOURS OF CONSULTATION

10 A.M. to 1 P.M.

Any person desiring to consult the chairman or the engineers, pertaining to the work of the board, will be seen only between the hours of ten in the morning and one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the Chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellants and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman*.

APPLICANT—Almo Laboratories Company, Inc., owner.

SUBJECT—Application April 14, 1955—Rinsrator, Model R-3 Injector Unit (for injecting wetting agent into final sterilizing rinse water).

57-54-SA

APPLICANT—Calray Distributors Inc., agent for Hastings Air Conditioning Company, Inc., owner.

SUBJECT—Application January 25, 1954—Hastings Heatwell Round Head Conversion Burner, Models MXO-10 and MXO-13 (gas fired).

740-55-SA

APPLICANT—George W. Kamin for Cribben & Sexton Co., owner (I. Neil Thompson, agent).

SUBJECT—Application August 1, 1955—Universal Insulated Console Type Domestic Gas Ranges, Models 7905, 7906, 8018, 8019, 8020, 8022, 8023, 8204, 8205, 8304, 9116, 9117, 9118, 9123, 9124, 9304, 9305, 7909, 8029, 8030, 8035, 8206, 8307, 9127, 9130, 9131, 9132 and 9309.

730-55-SA

APPLICANT—Synchronous Flame Inc., owner.

SUBJECT—Application September 2, 1955—Syncro-Flame

Combination Gas Oil Burner, Models SF 10E, 20E, 30E, 40E, 60E, 80E, 100E; Gas Burner Models SF 10EG, 20EG, 30EG, 40EG, 60EG, 80EG, 100EG, SF150, 300, 400 and Oil Burner Models, SF10EO, 20EO, 30EO, 40EO, 60EO, 80EO and 100EO.

32-56-SA

APPLICANT—Philan, Inc., agent, for Columbus Coated Fabrics Corp., owner.

SUBJECT—Application January 3, 1956—Guard Vinyl Wall Covering.

862-54-SA

APPLICANT—John Wood Company, Bennett Pump Division, owner.

SUBJECT—Application November 8, 1954—Bennett Pumping Unit, Model 70 and Bennett Island Dispensers, Models 952, 953, 962, 963, 972, 973, 982, 983 and 74-RL, 749-RC.

383-56-SM

APPLICANT—Greenline Metal Products, Inc., owner.

SUBJECT—Application May 10, 1956—Greenline Emergency Release (lock release) Model F-2.

389-52-SM—Vol. II

APPLICANT—Tectum Corporation, owner.

SUBJECT—Application for consideration—reopened January 4, 1955 for amendment to consider additional roof plank and tile, Models P-200, P-250, P-300, T-200-32, T-250-32, T-300-32 and T-300-48—re Tectum Roof Plank (incombustible) Models A-2 and A-3; previously approved.

984-54-SM

APPLICANT—Inland Steel Products Company, owner.

SUBJECT—Application for consideration—reopened March 13, 1956 for amendment to resolution as to additional sections of Cellufloor and the use of this material as a component part of a three hour floor construction—re Cellufloor (cellular steel oor panels); previously approved.

52-56-SA

APPLICANT—Acme National Sales Company, Inc., owner.

SUBJECT—Application for consideration—reopened July 17, 1956 for amendment to resolution as to additional gas range Model RO-5G—re Acme Refrigerator-Range (gas fired), Model RG5F; previously approved.

360-50-SA

APPLICANT—ABC Oil Burner, owner.

SUBJECT—Application for consideration—reopened July 17, 1956 for amendment to resolution as to additional trade names, Solar Flame Oil Burner, Model 55A, Crane Line, Model 5114 and Airline Oil Burner, Model FOB-55A—re Burnham Oil Burner, Model 55, Homer Oil Burner, Model 55, Comfortzone Oil Burner, Model 55, Norge-Heat Oil Burner, Model FOB 55, Radiation Oil Burner, Model 55, Richmond Oil Burner, Model P10A, P11A and P12A, Rybolt Oil Burner, Model 55, Certified Oil Burner, Model 55, Solar Flame Oil Burner, Model 55, Weil-McLain Oil Burner, Model 55, Cities Service Oil Burner, Model CS55, Kleen-Heat Oil Burner, Model 80, Fitzgibbons Oil Burner, Model 50 and Kewanee Oil Burner, Model 55. The Hess Company, Hess Oil Burner, Model 55. Ingersoll Steel Division, Borg Warner Corporation, Ingersoll Oil Burner, Model 55, Ko-Z-Aire Company, Ko-A-Aire Oil Burner, Model 55, Kiske Products Incorporated, Kensico Oil Burner, Model 55. Utica Radiator Corporation, Utica Oil Burner, Model 55. Dunkirk Radiator Corporation, Dunkirk Oil Burner, Model 55, International Heater Company of Utica, New York, under the trade name of International Economy and Economy 55AZ. The Coleman Company, Wichita, under the trade name Coleman Model 194-700, 194-705, 595-700, 592-700, 595-705 and 592-705 and by the Timken Silent Automatic Divisions of Timken Detroit Axle Company,

CALENDAR

under the trade name Silent Automatic Models 80-HOA, 996-HOA, 135-HOA, 148-HOA, 132-HOA and 90-HOA. The Crane Company, Chicago, Illinois, under the trade name of Crane Line Oil Burner, Models 4606, 4608, 4869, 4870 and 4871 and 4868. Jackson and Church under the trade name Jackson and Church Poweroil Model JC-55A and Power Oil Model 55-A. Rybolt Heater Company, under trade name of Rybolt Model 55A, Firewel Company under trade name of Firewel Burner Model 55A, Lycoming-Spencer under trade name of Spencer Heater Model 55A, National U. S. Oil Burner, Model 55A, Richmond Oil Burner, Models P10AA, P10AAE and P10AA3 and Carrier Oil Burner, Models 38M-175K-101, 38M-175K-201, 38M-105K-101, 38M-105K-201, 38M-140K-101, 38M-140K-201 and by Westinghouse Electric Corp. Air-Conditioning Division under the trade name Westinghouse Model 55A and by the H. B. Smith Company under the trade name Smith ABC Burner; previously approved.

1105-48-SA

APPLICANT—ABC Oil Burner, Corp., owner.
SUBJECT—Application for consideration—reopened July 17, 1956 for amendment to resolution as to additional trade name of U. S. Solar Flame Oil Burner. Model 52A—re Cities Service Oil Burner Model CS 52A, Luxaire Oil Burner Model 52A, Moncrief Oil Burner Model 52A, Kalmazoo Oil Burner Model 52A, Meyer Oil Burner Model 52A, Dowagiac Oil Burner Model 52A, Comforts Zone Oil Burner Model 52A, Solar Flame Oil Burner Model 2, Liebhich Oil Burner 2L6 and Pacific Steel Boiler #6 Oil Burner and Fitzgibbons Oil Burner Model 52A, Kleen-Heat Oil Burner Model 77A, Norge Oil Burner Model COB-12 Burnham Oil Burner Model 52A, International Economy Oil Burner, Silent Automatic Models OCE-14, OCE-25 and OCE-35, Crane Line Oil Burner Models 4872, 4888, 7872 and 7888, Jackson and Church Poweroil Model JC-52A and the Armstrong Oil Burner Model D-6-1 and C-6-2 and Silent Automatic Oil Burner Models 14-COA, 25-COA and 35-COA; previously approved.

72-52-SA

APPLICANT—J. A. Flynn for Todd Shipyards Corp., owner (Combustion Eq. Div.).
SUBJECT—Application for consideration—reopened October 4, 1955 for amendment to resolution as to additional models and sizes of Todd Oil Burners, Models BPMAH, BPAM, PAH, BPA, BA and B—Re Todd Rotary Oil Burners, Types PAVL and PAVH; previously approved.

986-55-A

APPLICANT—Charles M. Spindler, for Casella Brothers Holding Corp., owner.
SUBJECT—Application December 14, 1955—re Appeal from a decision of the borough superintendent—exits, etc.
PREMISES AFFECTED—1-9 Devoe street and 186 Union avenue, northeast corner, Block 2761, Lot 1, Borough of Brooklyn.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on July 3, 1956 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on November 7, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Haskin street are in business and residence use, D and DD area, class 1 height districts; East Tremont avenue is in business and residence use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated May 17, 1956 acting on Alt. Applic. 313-56, reads:

"1. The proposed extension of the existing commercial building in the residence portion of the lot is contrary to Sect. 3 of the zoning resolution and to Cal. No. 274-26-BZ of the Bd. of S. & A."

and

WHEREAS, the applicant states that the premises consist of a plot, 116.32 ft. frontage by 159.41 ft. in depth, on which is now located a one story building of class 3 construction, occupied as bowling alley, bar and grill, gasoline service station and repair shop; that it is proposed to erect and maintain an extension to existing building, 4 ft. by 25 ft., to be used for pinsetting machines, for bowling alleys; and

WHEREAS, the applicant states that the property referred to is presently zoned as a class 1 height district; that the portion of the property within 100 ft. of East Tremont avenue is presently zoned as a business district and a D area district and the remainder is zoned as a residence district and a DD area district; that as of July 25, 1916 the entire property was zoned as a 1¼ times district and a C district; that the present height and area designations became effective on April 20, 1953; that the use designation has not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the applicant further states that the particular portion of the premises for which the alteration is proposed

is presently being used as a restaurant and bowling alleys; that the premises front on East Tremont avenue, which is located in a business use district; that the rear of the premises extends into a residential use district; and

WHEREAS, the applicant contends that in a prior application, to wit, 274-26-BZ, the Board granted a variance which permitted the present use of the premises; that in recent years the operator of the bowling alley has experienced serious difficulty in the conduct of its business; that the lots cannot be operated for parking purposes economically unless the use requested herein is permitted; that the variation applied for will not change the general character of the neighborhood; and

WHEREAS, the applicant states that the present owner has held title to the property since February 15, 1952; that the assessed valuation of land is \$19,600 and of the building \$23,400 making a total of \$43,000; that the building was erected December, 1941; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on July 13, 1926, as thereafter amended by resolutions adopted through October 30, 1954, by adding thereto:

"that in the event the owner desires to extend the building in depth as proposed and indicated on plans filed with this application, marked 'Received June 12, 1956', 1 sheet, and 'October 8, 1956', 2 sheets, such extension may be permitted as indicated on such plans to the extent of 4 feet in depth, on condition that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto and that the resolutions above cited shall be complied with in all other respects; and that all permits, including a new certificate of occupancy shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this amended resolution."

317-33-BZ—Vol. II

APPLICANT—Ervin Palmer, for Dickel Construction Company, owner (Arnold Lowenstein, lessee).

SUBJECT—Application reopened October 9, 1956 as Vol. II—re (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a business use district, the proposed extension of the roof of lubricatorium which is contrary to Resolution of Board of Standards and Appeals, Cal. 317-33-BZ.

PREMISES AFFECTED—139-01 to 139-21 Jamaica avenue and 139-02 to 139-18 89th avenue, northeast corner, Block 9673, Lot 1, Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Ervin Palmer.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on October 9, 1956 subject to regular procedure, and set by the Board for hearing on November 7, 1956; and

WHEREAS, a public hearing was held on this application on November 7, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Jamaica avenue and 89th

MINUTES

avenue are in a business use, C area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated August 20, 1956 acting on Alt. Applie. 1312-56, reads:

"1. The proposed extension of the roof of lubricatorium is contrary to Art. 2 Sec. 4(a) (46) of the Zone Res. The B.S. & A. approved a gasoline service station on this plot under Cal. 317-33-BZ but the plans & records on this file (Alt. 1955-33) are missing from the files of this dept."

and

WHEREAS, the applicant states that the premises consist of a plot, 212 ft. 1 in. frontage by 102 ft. 7 in. in depth, on which is located a gasoline service station; and

WHEREAS, the applicant states that the existing one story accessory building is located at the intersection of Jamaica avenue and rear lot line and is about 72 ft. wide, 26 ft. in depth and about 14 ft. high; that this is an existing gas station approved by the Board on March 6, 1934 under Cal. No. 317-33-BZ and erected in accordance with the amended resolution dated February 11, 1935; and

WHEREAS, the applicant contends that there are no changes contemplated at this time to the station proper; that the only change requested is to the accessory building itself, which is not to be enlarged or changed in area in any way; that due to new methods of car lubrication it is no longer desirable to have greasing pits; that they are generally substituted by lifts and in order to install lifts in this building, it is necessary to raise the roof so as to accommodate the height necessary for these lifts; that this application is therefore to obtain approval for raising the roof approximately 4 ft. only over that portion of the accessory building which now contains the two greasing pits which will be substituted by two lifts; that this change will also necessitate the replacing of the two existing 10 ft. high overhead doors, with 12 ft. high overhead doors; and

WHEREAS, the applicant states that the present owner has held title to the property since January 18, 1924; that the assessed valuation of land is \$42,500 and of the building \$9,500 making a total of \$52,000; that the building was erected in 1934.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on March 19, 1934, as thereafter amended by resolutions adopted through January 29, 1935, by adding thereto:

"that in the event the owner desires to increase the height of a portion of the first story of the accessory building so as to provide additional height for the lubricatorium section, such change may be made as proposed and as indicated on plans filed with this application marked 'Received September 17, 1956', 3 sheets, on condition that in all other respects the resolutions above cited shall be complied with; and that all permits shall be obtained and all work completed and a new certificate of occupancy obtained within the requirements of Section 22A of the zoning resolution."

118-48-BZ—Vol. III

APPLICANT—Leonard F. Rothkrug, for Pert Realty Corp., owner.

SUBJECT—Application reopened October 11, 1955 as Vol. III—re (decision of the borough superintendent) under sections 7f, 7i, 7h and 21 of the zoning resolution, to permit in a business use district, the extension of the mezzanine and increase of building use to include 2-550 gal. gasoline pumps, storage of more than 5 motor vehicles, major repairing of motor vehicles, repairing of radiators and adjustment of new parts dealt in by lessee, including all heavy and general repairing, storage and sale of auto parts, loading and unloading and customer and employee parking.

PREMISES AFFECTED—150-15 Hillside avenue, north side, 110 ft. east of 150th street, Block 9706, Lot 91, Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Leonard F. Rothkrug and Marty Lipschutz.

For Opposition: Myron Krieger.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative. Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on October 11, 1955 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on September 11, 1956 after due notice by publication in the Bulletin; laid over to October 2, 1956, at the request of an objector; no further request for adjournment; then to October 30, 1956, for inspection and decision; hearing closed; then to November 7, 1956, for applicant to file revised plans showing the arrangement of the first floor and fencing around parking area; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Hillside avenue are in a business use, C area, class 1½ height district; 150th street is in a residence use, C area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated August 15, 1955 acting on Alt. Applie. 1664-55, reads:

"1. The proposed extension of mezzanine & increase of building use to include 2-550 gal. gasoline pumps, storage of more than 5 motor cars, major repairing of motor vehicles, repairing of radiators & adjustment of new parts dealt in by lessee including all heavy & general repairing, storage & sales of auto parts, loading & unloading, & customer & employee parking, is contrary to the B.S. & A. decision—re: Cal. #118/48 BZ, dated July 17, 1951 & amended 6/24/52 & 11/18/52 & 10/23/51, the above uses are contrary to Art. 2 Sec. 4(29) (46) of Zone Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 140 ft. frontage by 100 ft. in depth, on which is located a two story building occupied as a machine shop, storage of anti-freeze and motor oil storage of more than five motor vehicles, auto repairs and sales and offices; that it is proposed to occupy the premises as a machine shop, storage of anti-freeze and motor oil storage of more than five motor vehicles, auto repairs, sales office, accessory parking, loading and unloading; and

WHEREAS, the applicant states that Cal. No. 118-48-BZ was denied by the Board on September 28, 1948; that Cal. No. 118-48-BZ, Vol. II was an application reopened May 22, 1951 under sections 7f, 7i and 21 affecting the subject premises and including the adjoining lot 88, granted on July 17, 1951 under 7i to permit minor repairs of motor vehicles only in conjunction with repairing of radiators and adjustment of new parts dealt in by the owner and excluding all general and heavy repairing, and under 7f to permit use as a garage for more than five cars, not as a public storage garage but only in connection with the owner's business, all for a term of 21 years; that at the final hearing of the application, lots 88 and 90 were withdrawn from the appeal; that the application was amended on October 23, 1951 so as to permit two 550 gallon gasoline storage tanks and two pumps inside the building and to permit the storage of anti-freeze and motor oil in 550 gallon drums, 5 gallon tins, 1 gallon cans and 1 quart cans; that the time in which to complete work under the appeal was extended on June 24, 1952; that the appeal was amended November 18, 1952 to reduce the height of the building from four stories to two

MINUTES

stories; that the building has been completed substantially as proposed; and

WHEREAS, the applicant contends that it is proposed to effectuate the withdrawal of lots 88 and 90, as set forth in the resolution of July 17, 1951; that the premises was occupied at the time of the granting of this appeal by a used car dealer whose occupancy of the premises and business operation was suspect and notorious; that the said tenant has not been a tenant or occupant of the premises for over two years and is in no way connected or related to the owner of the premises; that the new site will consist of a plot 140 ft. front on Hillside avenue by 100 ft. in depth, on which there has been erected a building 120 ft. front on Hillside avenue by 100 ft. in depth, 30 ft. 4 in. in height, of class 1 fireproof construction; that it is proposed to extend the mezzanine as approved by the Board, to the rear wall of the building thereby creating a second floor and thereby changing the designation of the existing second floor to a third floor; that the third floor will be occupied as offices for the New York State Department of mental hygiene; that it is proposed to relocate the two 550 gallon gasoline tanks from inside the building to a place 8 ft. outside the building; that the amendment of this application of October 23, 1951 permitted the installation of two 550 gallon storage tanks; that the mechanics of effecting this installation has brought to light the difficult structural problems and the objection of the fire department in view of the motor vehicle repairs permitted to be conducted in the building; that it is proposed to bury the tanks as close to the outside of the building as is physically possible; that the pumps are to remain within the building; that there will be no gasoline service station; that permission is requested to have customer and employee accessory parking on the unbuilt upon portion of the premises; that accessory parking is a permitted use within this use district; that no fee for parking will be charged, nor will there be any overnight parking; that the proposed parking will be exclusively for the employees of the owner's business, the employees in the offices of the New York State Department of Mental Hygiene and customers and visitors; that there will be no sales or display of cars; that the unbuilt upon portion of these premises consist of a small plot 20 ft. front on Hillside avenue by 100 ft. in depth; that there is an urgent need for parking facilities in this area; that accessory parking is consonant with zoning trends in the city and in conformance with the character of the area; and

WHEREAS, the applicant states that the present owner has held title to the property since May 3, 1945, April 3, 1947 and November 15, 1950; that the assessed valuation of land is \$80,000 and of the building \$205,000 making a total of \$285,000; that the building was erected in 1955; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 17, 1951, as thereafter amended by resolution adopted October 23, 1951 through November 18, 1952 by adding thereto:

"that the plot may be increased by the addition of 20 ft. to the east; that in such lot there may be buried two 550 gallon tanks supplying the two gasoline pumps heretofore permitted for private use only within the building; that the construction of the buried tanks shall comply with the requirements therefor and shall be buried to a point where there is no danger due to leakage in connection with the boiler room in the building; and to permit within such 20 ft. lot the parking of cars of the employees of the building and for loading and unloading as proposed and as shown on plans marked "Received September 14, 1955", 9 sheets, and revised plans marked "Received November 2, 1956", 2 sheets, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that along the easterly lot line of the additional 20 ft. space there shall

be a woven wire fence erected on a masonry base to a total height of 5 ft. 6 in. with suitable terminating post at the building line, and a gate to Hillside Avenue which shall normally remain closed; that the parking and loading area shall be leveled substantially to the grade of Hillside Avenue and shall be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that in all other respects the resolutions above cited shall be complied with; except that the present mezzanine floor may be extended in area as proposed and as shown on plans above cited; that the term of the variance as permitted by the resolutions above cited, and including this amended resolution, may run under Section 7f for a term of 21 years from the date of this resolution as amended this day; and that all permits shall be obtained and all work completed and a new certificate of occupancy obtained within six months from the date of this amended resolution."

256-49-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for A. J. Burrows Co., owner.

SUBJECT—Application reopened May 8, 1956 as Vol. II—re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district, the proposed change of occupancy to manufacturing and assembly of electronic equipment.

PREMISES AFFECTED—25-27 Columbia place, east side, 248 ft. north of State street and 26-28 Willow place, Block 259, Lot 15, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama and Albert J. Burrows.

For Opposition: Eugene H. Zimmerman.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly .. 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on May 8, 1956 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on October 23, 1956 after due notice by publication in the Bulletin; laid over to November 7, 1956, at the request of an objector; no further requests for adjournment considered; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, B area, class 1½ height district; Willow place and Columbia street are in residence and local retail use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated March 26, 1956 acting on Alt. Applic. 36-56, reads:

"3. Proposed change of occupancy, in a residence zone, to manufacturing and assembly of electronic equipment is contrary to Art. II, PP. 3 of the Zoning Resolution.

Note: Premises were subject of Bd. of Standards variance under Cal. #256-49-BZ which expired July 25, 1955 and Cal. 257-49-A."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 ft. frontage by 150 ft. 9 in. in depth presently developed with a building, one and two stories in height, of class 3 construction, having a frontage of 52 ft. and a depth of 136 ft. 6 in., erected prior to 1913; that in 1927 certificate of occupancy No. 2605 was issued on report No. 7339-1927 for use as a gymnasium and school; that the building was later altered under Alt. Applic. 2940-1928 and conditional variance of the Board under Cal. No. 256-49-BZ and Cal. No. 257-49-A; that certificate of occupancy No. 134166 was

MINUTES

issued for use as follows: Columbia place, front wing: cellar—boiler room and vacant space; first floor—furniture factory; second floor—furniture factory; Willow place, rear wing: cellar—furniture factory; first floor—office; that the buildings are now vacant and it is proposed to secure a variance for a period of ten years in order to use the building as follows: Columbia place, front wing: cellar—boiler room and vacant space; first floor—assembly of electronic equipment; second floor—assembly of electronic equipment and caustic dip; Willow place, rear wing: cellar—manufacturing of metal chassis and parts for electronic equipment; first floor—manufacturing, assembly, testing of electronic equipment and offices; that it is proposed to use the open court facing Willow place for loading and unloading; and

WHEREAS, the applicant states that the premises are located in a class B area district, class 1½ height district and a residence use district; that as of July 25, 1916 that part of the premises within 100 ft. of Columbia place was in an unrestricted use district and the present use designation became effective July 28, 1952; and

WHEREAS, the applicant contends that the building in question up to July 25, 1955 had a legal use of "furniture factory" that was granted by the Board under Cal. No. 256-49-BZ for a temporary period of five years; that the change of use as proposed will not be detrimental to the immediate vicinity since there are many non-conforming uses within the affected area as follows: block 259, lot 7—store and dwelling; block 259, lot 10—garage; block 259, lots 18, 21 and 22—store and dwellings; block 258, lot 17—store and dwelling; block 260, lot 1—store and dwelling; block 260, lot 11—sub-station; that the building is high in assessed value and cannot possibly be put to a conforming use; and

WHEREAS, the applicant states that the present owner has held title to the property since March 3, 1950; that the assessed valuation of land is \$15,000 and of the building \$25,000 making a total of \$40,000; that the building was erected prior to 1913; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 21, 1950, by adding thereto:

"that the use as now proposed and indicated on plans filed with this application, marked 'Received March 29, 1956', 6 sheets, may be permitted, namely, manufacturing and assembling of electronic equipment throughout the building by the A. J. Burrows Company, *on condition* that the portion of the premises within the residential district shall be occupied as to the first floor only as an office, as indicated on such plans; that the existing fence along the building line of Willow place shall be restored and repaired so as to provide a continuous fence along the frontage of the premises with no openings therein except two gates for emergency entrance and exit only and not for general use; that the open spaces on Willow place shall be kept seeded to grass and properly mowed and not occupied for any other purpose; that there shall be no parking of cars in this space; that proper concrete walks shall be maintained from the entrance to the street and from the exit as shown from the cellar; that there shall be no signs on the portion of the building facing Willow place; that the building shall not be increased in height or area or as to general design or construction as to the portion on Willow place in the residential district; that the main entrance to the building shall be on Columbia place; that the wood trim, windows and doors shall be kept painted; that such portable fire-fighting equipment shall be maintained as the fire commissioner shall direct; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by resolution of the

Board adopted under Cal. 257-49-A on July 8, 1952, which resolution shall continue in effect and be complied with; and that all permits required, including a certificate of occupancy shall be obtained and all work completed within six (6) months from the date of this resolution."

13-53-BZ—Vol. II

APPLICANT—Solfred Maizus, for Samuel M. Berley and Lee E. Ellman, owners.

SUBJECT—Application reopened May 29, 1956 as Vol. II—re (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence use district, a parking lot for more than 5 cars.

PREMISES AFFECTED—79-17 41st avenue, north side, from 79th to 80th streets, Block 1490, Lot 18, Jackson Heights, Borough of Queens.

APPEARANCES—

For Applicant: Charles I. Goldman.

For Opposition: Alice M. Ressler.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Kcating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on May 29, 1956 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on October 16, 1956 after due notice by publication in the Bulletin; laid over to November 7, 1956 for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 41st avenue are in a residence use, B area, class 1½ height district; 79th street and 80th street are in business and residence use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated April 23, 1956 acting on Alt. Applic. 717-56, reads:

"1. Parking lot in a residential district for more than 5 cars is contrary to section 3, article II of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 200 ft. frontage by 312.23 ft. in depth, now vacant; that it is proposed to maintain a parking lot for 215 cars until such time as the owners find it feasible to utilize the property for permanent development in conformity with the use, height and area districts as presently zoned; that it is also proposed to level the plot to the grade of the adjoining streets, pave the surface with clean cinders compactly rolled and saturated with an oil binder; that it is proposed to limit ingress and egress to one curb cut on 41st avenue, 25 ft. wide, with 1½ ft. splays on each side; that it is also proposed to surround the property lines with a 5 ft. high woven wire fence secured to 1½ in. steel pipe anchored in concrete, except for an opening on the building line opposite the curb cut and along the rear property line which same is now protected with existing fences or masonry walls; that it is further proposed to provide an 8 in. by 10 in. wood bumper to protect the fence and adjoining property walls and open areas from damage by moving cars while being parked and to install a 4 ft. high privet hedge between the fence and the bumper along the street fronts; that it is also proposed to erect an attendant's shelter of frame construction, 12 ft. by 12 ft. in area, 10 ft. 2 in. in height, on the southeast corner of the plot; and

MINUTES

WHEREAS, the applicant contends that under the same ownership is the six story multiple dwelling being completed on Block 1489, Lot 18 containing 198 apartments, but garage space for only 59 cars; that rentals now indicate the ratio of garage space to apartments is inadequate and additional parking facilities need be provided; that the Elmhurst General hospital, directly opposite the site on blocks 1498, 1499 and 1500, has also seriously increased the need for off street parking in this area; that 2½ years ago 160,000 sq. ft. of space for parking was requested by the hospital authorities but lack of appropriations prevented the purchase of the required land; that the existing parking lot on 41st avenue between 80th and 81st streets, block 1491, lot 24 is now occupied to capacity by residents in the vicinity who park on a monthly basis, forcing transients to park on public streets; and

WHEREAS, the applicant states that the present owner has held title to the property since June 8, 1953 and that the assessed valuation of land is \$146,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years to permit the premises to be occupied for the parking and storage of motor vehicles substantially as proposed and as indicated on plans filed with this application marked "Received May 1, 1956", 3 sheets, *on condition* that there shall be maintained along the rear lot line a planting area for a distance of ten feet with suitable heavy hedge material and protected with concrete curbing not less than eight inches in height and six inches in width; that along the rear lot line and all side and front lines there shall be erected a woven wire fence of the chain link type not less than 5 ft. 6 in. in height except for an entrance and exit, where indicated on 41st avenue; that such entrance shall not exceed fifteen feet in width; that the curb cut opposite such entrance shall not exceed twenty-five feet in width; that during the term of this variance the premises shall be occupied for no other use and no building shall be erected thereon except that there may be erected a building to be used solely for an office and shelter for the attendant and erected near the entrance, where shown; that the plot shall be leveled substantially to the grade of 41st avenue and shall be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that signs shall be restricted to a permanent sign attached to the fence near the entrance advertising the parking and storage use and the rates charged and such other information as may be required by the Commissioner of Licenses; that such sign shall not exceed twenty square feet and shall not be illuminated and shall not extend beyond the building line; and that all permits shall be obtained and all work completed and a certificate of occupancy obtained within six months from the date of this resolution.

60-54-BZ—Vol. II

APPLICANT—Reginald S. Hardy, for Charles Costa, owner.

SUBJECT—Application reopened July 24, 1956 as Vol. II—re (decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a retail use district, a gasoline service station, lubritorium, auto laundry (non automatic), minor auto repair shop (with hand tools only), parking of motor vehicles awaiting service, for a term of 15 years.

PREMISES AFFECTED—904 Burke avenue, southeast corner of Bronxwood avenue, Block 4574, Lot 25, Borough of The Bronx.

APPEARANCES—

For Applicant: R. S. Hardy, Joseph B. Lynch, Charles Costa and Charles Costa, Jr.

For Opposition: Thomas F. McCarthy, Mrs. L. Rosenholtz, Mrs. N. Zanfardino and Mrs. Y. Zanfardino.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition. THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Keating and Deputy Chief Connolly

Negative

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on July 24, 1956 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on October 16, 1956 after due notice by publication in the Bulletin; laid over to November 7, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a retail use, C area, class 1¼ height district; Bronxwood avenue and Radcliff avenue are in a residence use, C area, class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated September 13, 1956 acting on N.B. Applic. 1726-56, reads:

"1. The erection of a gasoline service station, lubritorium, auto laundry (non automatic), minor auto repair shop with hand tools only and the parking of motor vehicles awaiting service in a Retail Use District is contrary to Art. 2 Section 4A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 125 ft. frontage by 80 ft. in depth, now vacant except for two billboards; that it is proposed to erect a modern gasoline service station, lubritorium, auto laundry (non-automatic), minor auto repair shop with hand tools only, parking of motor vehicles awaiting service, for a term of fifteen years; and

WHEREAS, the applicant states that the premises originally were in a business use, C area, class 1 height district but were changed to the present zoning designation on July 20, 1942; and

WHEREAS, the applicant states that the plot is approximately at street grade along Burke avenue but it slopes upward so that the southerly lot line is considerably higher than the northerly or street line; that it is proposed to level the property substantially to the grade of Burke avenue, with perhaps a very slight upward slope towards the southerly or rear lot line; that it is also proposed to erect a modern gasoline service station accessory building of masonry construction, with the front and side walls of face brick trimmed with porcelain enamel, having a frontage of 56 ft. 8 in. and a depth of 27 ft. 8 in.; that it will be located on the southerly lot line, 43 ft. 4 in. east of the Bronxwood avenue line and 25 ft. west of the easterly lot line; that it is also proposed to install twelve 550 gallon storage tanks and four dispensing pumps, located on two islands along the Burke avenue frontage but situated 15 ft. south of the building line; that access to the station will be afforded by three 30 ft. curb cuts located on Burke avenue and one 20 ft. curb cut on Bronxwood avenue, located within 25 ft. of the intersection of that avenue with Burke avenue; that the easterly and southerly lot lines, where not occupied by the wall of the accessory building, will be occupied by a 4 ft. 6 in. woven wire fence mounted on a 12 in. concrete curb; that this fence and curb will also be continued along Bronxwood avenue from the southerly lot line for a distance of 28 ft., or to a point opposite the front of the accessory building; that provision has also been made for decorative planting along the easterly lot line; and

MINUTES

WHEREAS, the applicant states that the owner and his family have owned property in the immediate vicinity for many years and have erected many buildings of all types in the neighborhood; that the owner formerly owned and resided in the premises known as No. 3030 Bronxwood avenue in block 4574, lot 16; that he recently sold that property and now lives at No. 3039 Bronxwood avenue in block 4573, lot 34, diagonally opposite the premises; that he has substantial other property interests within the affected area and naturally he would not press this application if it would endanger those interests; that although the premises are in a retail use district, it is obvious that they are not adapted for any such use; that the retail shopping area in this neighborhood is to be found along White Plains road, about six blocks west of the subject premises, which is adequate for the entire locality; that there has been no recent development along Burke avenue at this point except a building used by the State of New York as an unemployment insurance office at the northeasterly corner of Burke and Barnes avenues in block 4605, lot 12, and a building, apparently designed for retail use, now under construction at the northeasterly corner of Burke and Radcliff avenues in block 4609, lot 8; that these few improvements have been confined to the northerly side of that thoroughfare; that the southerly side within the affected area is entirely vacant except for a small real estate office at the southeasterly corner of Burke and Matthews avenues in block 4573, lot 25 and a barber shop directly to the east of the premises in block 4574, lot 30; that much of the remaining property along the southerly side of the street, that is, block 4572, lot 29; block 4573, lots 29 and 32; block 4574, lot 31; block 4575, lots 25 and 29 and block 4576, lot 25, has been acquired by the City of New York because of the owners' failure to pay taxes; that even the vacant property along the northerly side of Burke avenue, that is block 4608, lot 3 has been similarly acquired by the city; that obviously, this general condition could not exist if the property could profitably be used for a conforming use; that the owner has tried to interest prospective purchasers and tenants in this property on innumerable occasions since acquiring the property, but none of these efforts have proved successful; and

WHEREAS, the applicant contends that the streets upon which the premises abut are heavily trafficked and their intersection is controlled by a traffic light located on the northeasterly corner; that this traffic would furnish no business for any conventional retail business which might be established but would, however, furnish a considerable amount of business for the proposed gas station; that in addition there has been a great deal of residential improvement in this section and occupants of these new houses will require motor vehicle facilities; that at the present time there are no gasoline service facilities available along Burke avenue from the northwesterly corner of White Plains road to Boston Post road, a distance of some 14 blocks; that a similar situation exists along Bronxwood avenue; that there is a gas station some distance to the south of the premises at Boston Post road, which is now being reconstructed pursuant to permission granted by the Board; that there is no other gas station along Bronxwood avenue between Boston Post road and 225th street, some distance to the north of the site; that the proposed gas station has been designed so as to eliminate the possibility of its having any adverse effect on nearby properties; that it will be screened by a 5 ft. 6 in. fence along the easterly and southerly sides, which will isolate it from adjacent properties; that of more importance than that, however, is the fact that lot 24 in block 4574 is also owned by Mr. Costa and it is stipulated that this lot will be kept separate and apart from the proposed gas station and will be used only in a manner conforming to use district restrictions; that this will serve to protect the property to the south which is located in a residence use district; and

WHEREAS, the applicant states that the present owner has held title to lot 25 since December 16, 1952 and to lot 29

since January 16, 1953; that the assessed valuation of land is \$20,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of fifteen years to permit the premises to be occupied as a gasoline service station and accessory uses substantially as proposed and as indicated on plans filed with this application marked "Received September 18, 1956", 3 sheets, and "October 2, 1956", 3 sheets, *on condition* that all buildings and uses on the premises shall be removed and the premises shall be leveled substantially to the grade of Burke avenue and shall be constructed and arranged substantially as indicated on such plans; that the accessory building shall be of the area and design and arrangement as indicated; that there shall be no cellar under such building; that the accessory building shall be faced on the front and on two sides with face brick; that the doors to the toilet rooms shall be rearranged so as not to be contiguous; that the accessory building shall in all other respects comply with the requirements of the Building Code; that there shall be no windows opening to the rear of this portion of the plot; that along the rear lot line and along the side lot line and on Bronxwood Avenue there shall be erected a woven wire fence of the chain link type on a masonry base where such fences are shown; that pumps shall be of a low approved type erected not nearer than fifteen feet to the street building line of Burke Avenue; that tanks shall be restricted to twelve 550 gallon approved gasoline storage tanks; that along the side and rear lot lines, where shown, there shall be maintained a planted area with suitable planting material and protected with a concrete curb not less than eight inches in height and six inches wide; that curb cuts shall be restricted to three curb cuts to Burke Avenue, where shown, and one to Bronxwood Avenue within the first twenty-five feet from the intersection; that no portion of any curb cut shall be nearer than five feet to a lot line as prolonged; that sidewalks and curbing abutting the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that signs shall be restricted to permanent signs facing Burke Avenue attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs but permitting the erection of one post standard at the intersection for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend over the building line of Burke Avenue for a distance of not over four feet; that the balance of the premises where not occupied by the accessory building, pumps and planted areas shall be paved with a concrete or asphaltic pavement; that at the intersection, within the building line, there shall be erected a block of concrete extending for a distance of not less than five feet along either building line and not less than twelve inches in height; that under Section 7i, for a similar term, there may be minor repairing with hand tools only for adjustments maintained solely within the accessory building; that under Section 7e there may be parking of motor vehicles awaiting service, for a similar term; such parking shall be on such part of the premises where it shall not interfere with the servicing of the station; and that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

APPLICANT—Vincent D. Luongo, for Frederick Zimmer, owner.

SUBJECT—Application May 3, 1955—re (decision of the borough superintendent) under sections 7c and 7a of the zoning resolution, to permit in a business use district, proposed extension of building and openings between adjacent parts of buildings; new extension to be used for machine shop and welding and storage of acetylene and oxygen bottles; new storage space to be used for the parking of 3 trucks.

PREMISES AFFECTED—249-251 4th avenue, east side, 20 ft. north of Carroll street, Block 958, Lot 2, Borough of Brooklyn.

APPEARANCES—

For Applicant: Vincent D. Luongo.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition. THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 16, 1956 after due notice by publication in the Bulletin; laid over to November 7, 1956 for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a business use, B area, class 1½ height district; 4th avenue and Carroll street are in business and unrestricted use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated April 27, 1955 acting on amendment to Alt. Applic. 4351-53, reads:

"2. Proposed extension of building and openings between adjacent parts of buildings constitutes an extension of a non-conforming use and is contrary to Article II, PP. 6 and PP. 4(a) subsection 4 of the zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 40 ft. frontage by 100 ft. in depth, on which are located two 2-story brick buildings of class 3 construction, 20 ft. front by 40 ft. 2 in. in depth, two 1-story frame class 4 storage sheds and one metal shed, used as a machine shop; that the brick buildings were erected under Permit No. 5195-1912 and the original use was for a wagon shop, feed store and horse shoeing shop; that the premises has been in continual use as machine shop, welding, sale of welding machines, supplies and equipment and repairs to welding equipment, and offices since 1917; that the use of welding is confined to No. 249 4th avenue; that it is proposed to alter and extend the existing two story brick, class 3 buildings now used for machine shop, welding, offices, sale of welding machines and equipment and the repairs of welding machines; that it is also proposed to demolish the frame sheds at the rear of the lot and to erect a new one story concrete block extension at the rear of No. 249 4th avenue, to extend the present machine and welding use and also to erect a new one story concrete block extension at the rear of lot at No. 251 4th avenue for the storage of acetylene and oxygen bottles; that the open space between the rear yard of No. 251 4th avenue and new storage space will be used for the parking of owner's trucks; that the party wall dividing No. 249 and No. 251 4th avenue will be made part of the machine shop; that it is also proposed to construct a new driveway in No. 251 4th avenue to permit the parking of trucks in the rear yard; and

WHEREAS, the applicant contends that it is necessary for the owner to expand his facilities as the present buildings are inadequate for his needs; that the increased area of the new extension will be used primarily for the machine shop and to replace the present illegal frame sheds used for the storage of oxygen and acetylene bottles, which are permitted uses in a business district; that however, the amount of welding, which is a non-conforming use, will be still confined only to the repairing of electrically operated welding machines and equipment, which is a very small part of this business; that the number of persons employed will be ten men; that the second floor will be used only for offices with an occupancy of 8 men and 2 women; and

WHEREAS, the applicant further contends that the auto repair shop at No. 251 4th avenue has been discontinued and premises are no longer used for that purpose; that welding was legal in premises No. 249 4th avenue until 1949, when permit for increased number of cylinders of acetylene and oxygen was refused; that premises at the present time does not have a permit from the fire department; and

WHEREAS, the applicant states that the present owner has held title to the property since 1948; that the assessed valuation of land is \$10,000 and of the building \$8,000 making a total of \$18,000; that the building was erected in 1912; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit the proposed extension to the existing building on Lot No. 2 substantially as proposed and as indicated on plans filed with this application marked "Received May 3, 1955", 9 sheets, *on condition* that the extension shall not exceed one story in height, as shown; that all existing sheds or other structures on this portion of the plot shall be removed; that there shall be no windows opening to the adjoining premises to the north, south or east; that the open yard shall be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that on the lot lines where walls of the proposed building do not occur and there are no walls of adjoining buildings on the lot line, there shall be erected a woven wire fence of the chain link type not less than 5 ft. 6 in. in height; that the building, as proposed, and the existing building shall be for the use as proposed and in all other respects shall comply with all laws, rules and regulations applicable thereto other than as modified this day under Cal. No. 347-55-A and shall comply with all requirements of the Fire Commissioner; that the signs on the existing building shall be removed and no signs shall be erected except signs in conformity with the Building Zone Resolution for the building use district; that such fire fighting equipment shall be maintained as the Fire Commissioner shall direct; that the open space may be occupied for the parking of three trucks as proposed and other cars awaiting service; and that all permits shall be obtained and all work completed and a new certificate of occupancy obtained within the requirements of Section 22A of the Zoning Resolution.

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated April 27, 1955, on Amendment to Alt. App. 4351-53 reads:

"3. Exits from first floor to be remotely located as per Section 270 of the Labor Law.

"4. Provide 2 means of egress from 2nd floor in full compliance with Section 270 of Labor Law."

and

WHEREAS, the applicant states the building is two stories, 20 ft. in height, 40 ft. by 40 ft. ½ in. in area, of class 3 construction, erected 1912, located on a lot 40 ft. front by 100 ft. depth, in a business use, B area, class 1½ height district, and used and occupied since 1917: 1st floor—machine shop and welding, 4 persons; 2nd floor—offices, 3 persons; and proposed to be increased in area to 40 ft. front by 100 ft. and 40 ft. ½ in. in depth on the first floor, in class 3 constructions to a height of 20 ft. and to be used and occupied as follows: 1st floor—sale of welding apparatus, supplies, repair of welding machines, welding, storage and sale of oxygen and acetylene, machine shop and parking for three trucks, 10 persons; 2nd floor—offices, 10 persons; that the building is provided with one 3 ft. wide steel interior stairs enclosed in one-hour rating fire retarded partitions, equipped with one-hour fireproof self-closing doors; stair hall leads direct to street and is provided with ladder and scuttle to roof; there is one fire escape on the front; and

WHEREAS, Order No. 41204LC, issued by the Fire Commissioner May 1, 1952, was to discontinue the storage and use of oxygen and acetylene; to obtain a certificate of occupancy; to separate the storage of oxygen from acetylene cylinders by providing fire retarded rooms, vented to the outer air; and to post "No Smoking" signs; and

WHEREAS, the owner was convicted and fined in Municipal Term, Magistrates' Court, August 9, 1954, on a charge of violation of Section C19-90.0 of the Administrative Code; and

WHEREAS, the applicant has filed a communication from the Fire Department stating that premises 251 4th Avenue was the subject of an application to the Fire Department for permission to use oxy-acetylene blowpipe apparatus; that such application was dated March 11, 1946 and no Fire Department permit has been granted for same; and that the Fire Department record indicates that for 249 4th Avenue, the first application was filed December 8, 1919, for use of an oxy-acetylene blowpipe apparatus, and permit issued April 8, 1920; and permit subsequently issued up to and including December 12, 1949; and that on November 17, 1951, application was filed for the storage for sale of 50 cylinders of acetylene and 100 cylinders of oxygen and no permit has been issued on this application; and

WHEREAS, the applicant states that the premises consist of two 2-story brick buildings of class 3 construction, and a one-story class 4 frame storage shed at the rear; the brick buildings were erected under Permit No. 5192-1912 for wagon shop and horseshoeing; that the premises has been in continuous use as machine shop, welding, sale of welding equipment and repairs to welding equipment and as offices since 1917; that the use of welding is confined to 249 4th avenue; and

WHEREAS, the applicant states that it is now proposed to demolish the frame sheds at the rear of the lot and to erect a new one-story masonry extension at the rear of No. 249 4th avenue; to extend the present machine shop and welding

use and to erect a new one-story concrete block extension at the rear of 251 4th avenue for the storage of acetylene and oxygen cylinders; that the open space between the rear yard of No. 251 4th and the new storage space will be used for the parking of the owner's trucks; that the party wall dividing 249 and 251 will be partially removed and the portion of No. 251 will be made part of the machine shop; that a new driveway will be constructed in No. 251 to permit the parking of trucks in the rear yard; that two means of egress for the factory use will be provided on the first floor at the front of the building leading directly to the street; that the second floor will be used solely for office use; no factory use will be conducted on the second floor; that the existing wood exit stairs will be replaced by a new steel stairs enclosed in 4-in. concrete block partitions on the first floor and in fire retarded one-hour partitions at the second floor; that this new stairs will lead directly to the street; that a scuttle with 70° ladder will be provided leading to the roof; that a fire escape balcony with drop ladder to the street now exists on the front wall; and

WHEREAS, the applicant requests that a variance be granted as to the first floor means of egress leading directly to the street in view of the fact that the area for the machine shop is small and confined to the front portion of the building and the portion of the new extension will be used for the storage of materials; and requests that the means of egress from the second floor be accepted since the area for use of offices would be greatly reduced if additional stairs to roof were installed and it would cause undue financial hardship on the owner and that at no time will the second floor be used for factory use but strictly for office space for the owner, his salesmen and office help; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Amendment to Alt. App. 4351-53, Objection No. 3 and 4 and that the appeal be and it hereby is *granted on condition* that the exits as cited in Objections 3 and 4 shall be as proposed and in compliance with the requirements of the resolution adopted this day under Cal. No. 346-55-BZ and the plans referred to therein.

676-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Stanley S. Kilburn, owner.

SUBJECT—Application August 25, 1955—(decision of the borough superintendent) under sections 7c and 7i of the zoning resolution, to permit in a business use district the proposed change of use of auto showroom, office, parking of more than 5 motor vehicles, sale and display of more than 5 new and used cars, garage for not more than 5 motor vehicles, to auto showroom, offices, parking of more than 5 motor vehicles, sale and display of more than 5 used cars and motor vehicle repairs.

PREMISES AFFECTED—208-24 Northern boulevard, and 45-02 to 45-10 Oceania street, southwest corner, Block 7305, Lot 50, Bayside, Borough of Queens.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 7, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Northern boulevard are in a business use, D area, class 1 height district; Oceania street is in business and residence use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated August 16, 1955 acting on Alt. Applic. 1457-55, reads:

"1. Proposed change of use of auto showroom, office, parking of more than 5 motor vehicles, sale & display of more than five new & used cars, garage for not more than five motor vehicles, to auto showroom, offices, parking of more than five motor vehicles, sale & display of more than 5 new & used cars, motor vehicle repair shop in a business district is contrary to Art. II Sec. 4(29) of Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 125 ft. frontage by 100 ft. in depth; that the premises are presently developed with a one story building of class 3 construction having a frontage of 60 ft. and a depth of 44 ft. 4 in. and being used as an auto showroom and office, and the open area adjoining is used for the parking and storage of more than five motor vehicles and the sale and display of more than five new and used cars; that these uses were established under N.B. 4566 of 1952 and certificate of occupancy No. Q88826 was issued for said uses; that the site is also developed with a one story building of class 3 construction having a frontage of 49 ft. and a depth of 26 ft., used as a garage for not more than five motor vehicles; that this use was established under N.B. 6234 of 1951 and certificate of occupancy No. Q81501 was issued for said use; that it is proposed to convert the present five car garage into a motor vehicle repair shop by installing three auto lifts, and maintain the present legal auto showroom and the open parking and storage of more than five motor vehicles and the open sales and display of more than five new and used cars; and

WHEREAS, the applicant contends that the only new use requested is that of motor vehicle repairs, which use is vitally required to service cars dealt in by the auto agency occupying the subject premises; that all repairs will be performed within the building and therefore the proposed use will have no more effect on the community than the five car garage use which it is proposed to replace, inasmuch as there are to be no openings in the walls of the repair shop facing the westerly or southerly lot line; that all entrances and exits to the site will be confined to Northern boulevard so as not to affect the residential aspect of Oceania street; and

WHEREAS, the applicant further contends that the proposal is entirely in keeping at this point as is evidenced by the motor vehicle repair shop directly across the street in block 6279, lot 21; that also within the affected area, block 7309, lots 13 and 15 are used for motor vehicle repairs and block 7305, lot 25 is occupied as a store and garage building; that in addition Northern boulevard at this point is given over to many uses pertaining to automobiles such as used car sales in block 6274, lots 20 and 22; used car sales in block 6275, lot 33; used car sales in block 6280, lot 20; auto parking in block 7305, lot 23; auto parking in block 7309, lot 7 and although these latter uses may be conforming uses, they indicate that the area has no need for stores and that the proposal is in keeping at this point; that Northern boulevard is a heavily trafficked auto lane and as such the services requested are required and in conformity with Northern boulevard as it has developed; that Oceania street is to be widened a distance of 10 ft. at some future date although at this time the City does not have title to said 10 ft. and no proceedings are pending to acquire title; and

WHEREAS, the applicant states that the present owner has held title to the property since September 15, 1949; that the

assessed valuation of land is \$17,150 and of the building \$22,500 making a total of \$40,000; that the building was erected in 1952; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions c and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit the additional use of the motor vehicle repair shop substantially as proposed and as indicated on plans filed with this application marked "Received August 25, 1955", 4 sheets, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits, including a certificate of occupancy shall be obtained within six months from the date of this resolution.

1015-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Daniel and Mildred Gallo, owners.

SUBJECT—Application December 23, 1955—(decision of the borough superintendent) under sections 7c and 7A of the zoning resolution, to permit in a business and residence use district, the proposed extension of an existing non-storage garage for more than 5 motor vehicles and gasoline service station, lubritorium, minor auto repairs and car washing, to include brake work, wheel alignment, storage room, office, sales, parking and storage of motor vehicles, with curb cuts within 75 ft. of the residence use district.

PREMISES AFFECTED—81-01 to 81-15 (81-11 official) 41st avenue and 40-47 to 40-53 81st street, northeast corner, Block 1492, Lots 35 and 37, Elmhurst, Borough of Queens.

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 16, 1956 after due notice by publication in the Bulletin; laid over to November 7, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 41st avenue are in residence and business use, B area, class 1½ height districts; 81st street is in a residence use, B area, class 1½ height district; 82nd street is in a business use, B area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated December 6, 1955 acting on Alt. Applic. 2521-55, reads:

"1. Proposed extension of use of an existing non-storage garage for more than five motor vehicles and gas station to include lubritorium, minor auto repairs, car washing, brake work, wheel alignment, storage room, boiler room, office and sales, and parking and storage of motor vehicles in open spaces in a plot located partly within a Business use district and partly within a Residence use district is contrary to Art. II Sect. 4(a) and sect. 3 of the Zone Resolution.

2. Proposed erection of a ground sign projecting beyond the building line in a plot located partly within a Business use district and partly within a Residence

MINUTES

use district is contrary to Art. II Sect. 4(a) subdiv. (49) and sect. 3 of Zone Resolution.

3. Proposed business entrance (curb cut) within 75' of a Residence use district is contrary to Art. II Sect. 7A of the Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 160.6 ft. frontage by 71.33 ft. in depth, presently developed with a building one story in height, of class 3 construction, having a frontage of 90 ft. and a depth of 106.32 ft., erected under N.B. Applic. 1599-1916 for use as a garage and office; that the building was later altered under Alt. Applic. 158-49 and certificate of occupancy No. 58770 was issued for use as non-storage garage for more than five motor vehicles and gas station; that the premises are now being used as a non-storage garage for more than five motor vehicles, gas station, lubritorium, minor auto repairs and car wash; that the gas station is now provided with one 550 gallon and one 1,000 gallon buried gas tanks and three dispensing pumps; that it is proposed to maintain the present legal uses of non-storage garage for more than five motor vehicles and gas station; that it is also proposed to extend the present gas station by demolishing the front part of the existing building, erecting a new front wall, remove the existing pumps, install four new approved type gasoline pumps set 15 ft. back of the 41st avenue building line and also add the new conjunctive uses of lubritorium, minor auto repairs, car wash, brake work, wheel alignment, storage room, boiler room, office and sales, parking and storage of motor vehicles in the open space; that the present 550 gallon and 1,000 gallon gas tanks are to be maintained and five new 550 gallon gas tanks are to be added; and

WHEREAS, the applicant contends that the present gas station and garage are legal uses and it is proposed only to extend this present legal use; that the other additional uses proposed are only incidental to the gas station; that the garage and gas station have been in continuous operation since its inception which proves that the use is entirely in keeping at this point; that the alteration of the building, which provides for a new facade, will enhance the appearance of the structure and in turn improve the neighborhood; that the extension of the gas station will be beneficial to the adjoining property owner of lot 33 as it will move the pumps further away from his home; that there are no other gas stations within the affected area; that there is a non-conforming use of parking of motor vehicles directly across 81st street in block 1491, lot 24; that the proposed signs and light standards at the intersection of 41st avenue and 81st street and at the apex of the property are required to advertise the brand of gasoline sold at the premises; that the proposed signs will only project 4 ft. over the building line and will be set 12 ft. above grade, the sign itself being approximately 36 sq. ft. in area; that the two proposed 30 ft. wide curb cuts on 41st avenue, in the business zone part of the site, are only replacing a present cut; that the manner in which 41st avenue is zoned, with the south side of 41st avenue being in a business zone, directly opposite that part of the site in a residence zone would make it possible to develop the said south side of 41st avenue store fronts and entrances and prohibit curb cuts to the site on the north side; and

WHEREAS, the applicant states that the present owner has held title to the property since February 25, 1932; that the assessed valuation of land is \$29,000 and of the building \$22,000 making a total of \$51,000; that the building was erected in 1916; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted to permit the rearrangement of the gasoline service station and the lawfully existing garage; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit the rearrangement of the gasoline service station and the reduction and rearrangement of the existing garage substantially as proposed and as indicated on plans filed with this application marked "Received December 23, 1955", 5 sheets, *on condition* that all existing structures now on the premises, not proposed to be continued, shall be removed and the premises shall be reconstructed and arranged as indicated on such plans showing proposed conditions; that the pumps shall be of a low approved type and erected not nearer than fifteen feet to the street building line of 41st avenue; that new gasoline storage tanks shall not exceed those shown, consisting of five new tanks; that any existing tanks proposed to be continued in use shall be tested by the Fire Commissioner as being usable; that the reconstruction of the garage shall be as proposed on such plans and in all other respects shall comply with all laws, rules and regulations applicable to the building and occupancy; that there shall be erected on the interior lot line to the north from the garage to approximately Baxter avenue, where shown, a woven wire fence of the chain link type erected on a masonry base to a total height of not less than 5 ft. 6 in.; that curb cuts shall be restricted to three curb cuts each 30 ft. in width to 81st street; that any curb cuts not complying with this requirement shall be removed; that the sidewalk and curbing abutting the premises shall be reconstructed or restored to the satisfaction of the Borough President; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs but permitting the erection within the building line of two post standards, one to the east and one to the west where shown, each for supporting signs which may be illuminated advertising only the brand of gasoline on sale and permitting such signs to extend beyond the building line for a distance of not over four feet; that at the intersection of 81st street and 41st avenue there shall be erected and maintained a block of concrete extending not less than five feet along either building line and not less than twelve inches in height; that the premises where not built upon or occupied by pumps shall be paved with concrete or asphaltic pavement; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; and that all permits shall be obtained and all work completed and a new certificate of occupancy obtained within the requirements of Section 22A of the zoning resolution.

1018-55-BZ

APPLICANT—Robert Gottlieb, for Rose K. Lyons, owner.

SUBJECT—Application December 29, 1955—(decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a local retail use district, a parking lot for more than 5 motor vehicles.

PREMISES AFFECTED—133-135 West 165th street and 1058-1066 Ogden avenue, northeast corner, Block 2514, Lot 1, Borough of The Bronx.

APPEARANCES—

For Applicant: Gerald Levy and Rose R. Lyons.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

MINUTES

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 7, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a local retail use, B area, class 1¼ height district; West 165th street and Ogden avenue is in local retail and residence use, B area, class 1¼ height districts; and

WHEREAS, the decision of the borough superintendent, dated December 15, 1955 acting on Alt. Applic. 1175-55, reads:

"1. Proposed parking lot for more than 5 motor vehicles in a local retail use district is contrary to Sec. 4-c of the Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 74.83 ft. frontage by 89.21 ft. in depth, now occupied as a parking lot for five motor vehicles, and a one story taxpayer occupied by four retail stores; that it is proposed to use the entire yard for the parking and storage of about 16 passenger type automobiles; and

WHEREAS, the applicant states that the property is located in a local retail zone; that it originally was business zone and was changed to local retail on May 20, 1952; and

WHEREAS, the applicant requests that the Board grant a variance to permit this use for a term of five years; that the property has been held by the present owner since 1912; that at one time there were two large metal garages in the yard, but as these rusted away, they were removed; that since then the plot was illegally used for parking; that recently Alt. Applic. 946-55 was approved for parking and storage of five motor vehicles; and

WHEREAS, the applicant contends that the need in this section for off street parking is very great and as the property is assessed at a high figure, the owner would like to use the balance of the yard for parking of additional cars; that the character of the neighborhood would not be changed by this proposed use; that there are seven large six story apartment houses within 200 ft. of the subject plot, and all could use parking space as this is one of the many sections of The Bronx in which it is practically impossible to find space on the street for additional parking; that the lot is now levelled and surfaced and will be properly fenced; and

WHEREAS, the applicant states that the present owner has held title to the property since 1912; that the assessed valuation of land is \$20,000 and of the building \$6,000 making a total of \$26,000; that the building was erected in 1931; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years to permit the unbuilt upon rear portion of the premises to be occupied for the parking of motor vehicles to a total of not more than sixteen cars, as now proposed and as indicated on plans filed with this application marked "Received December 29, 1955", 3 sheets, *on condition* that the premises shall be leveled substantially to the grade of the abutting streets and shall be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that on all interior lot lines where walls of adjoining buildings do not occur on the lot line, and excluding the line of the existing store building, there shall be erected a woven wire fence of the chain link type not less than 5 ft. 6 in. in height, with a similar fence erected on the street building line continuously except for an opening not over 12 ft. in width for entrance and exit, with curb cut opposite not more than 15 ft. in width; that during the term of this variance this portion of the premises shall be occupied for

no other use and no building shall be erected thereon; that no sign shall be constructed or maintained except that there may be a sign attached to the fence near the entrance advertising the parking use of the premises and the rates charged and such other information as may be required by the Commissioner of Licenses; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; and that all permits shall be obtained and all work completed and a certificate of occupancy obtained within six months from the date of this resolution.

93-56-BZ

APPLICANT—Charles M. Spindler, for Saul and Herman Shapiro, owners.

SUBJECT—Application February 9, 1956—(decision of the borough superintendent) under sections 7c, 7i and 7A of the zoning resolution, to permit in a retail use district, the proposed reconstruction of present gasoline service station and use of premises for gasoline service station, auto washing, lubrication, office, sale of auto accessories, minor repairs with hand tools only, parking and storage of cars awaiting service: proposed sign and show window within 75 ft. of the residence use district.

PREMISES AFFECTED—4002-4014 Avenue U and 2001-2011 Kimball street, southeast corner, Block 8557, Lot 39, Borough of Brooklyn.

APPEARANCES—

For Applicant: Joseph C. Haus.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 16, 1956 after due notice by publication in the Bulletin; laid over to November 7, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a retail use, D area, class ½ height district; Avenue U and Kimball street are in retail and residence use, D area, class ½ height districts; and

WHEREAS, the decision of the borough superintendent, dated January 16, 1956 acting on Alt. Applic. 4631-55, reads:

"1. Proposed reconstruction of present gasoline service station and use of premises for Gasoline service station, auto washing, lubrication, office, sale of auto accessories, minor repairs with hand tools only, parking and storage of cars awaiting service on the vacant portion of the lot, in a Retail use district is contrary to Art. II, PP. 4-A of the Zoning Resolution.

2. Proposed sign and show window within 75' of the Residence zone in a transition from a Residential to non-residential zone is contrary to Art. II, PP. 7-A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 118 ft. 7¾ in. frontage by 100 ft. in depth, on which is located a gasoline selling station, auto washing, lubrication, office and sale of auto accessories; that it is proposed to demolish the present accessory building, with the exception of the brick rear wall, and to construct a new accessory building using this rear wall; that the building will be of modern design with a face brick facade facing both streets; that the present outside greasing facilities will be eliminated and housed within the new building; that the present pump island, located 8 ft. from the building line will be removed and two new pump islands will be installed along Avenue U, set 15 ft. back from the

MINUTES

building line; that a woven wire fence on a concrete base will be installed along both interior lot lines; that a strip of planting and shrubbery protected by a concrete curb, will be provided along the south lot line adjacent to Kimball street, and the balance of the site will be paved; and

WHEREAS, the applicant states that in 1916 the premises were located in an undetermined use district; that the use zoning was changed to business on July 29, 1940 and again changed from business to retail on July 22, 1954; that the height zoning of the premises was changed from 1 to ½ on August 25, 1955; that the area zoning has remained unchanged since 1916; and

WHEREAS, the applicant further states that the site is located on the southeast corner of Avenue U and Kimball street, with a frontage of 118 ft. 7¾ in. on Avenue U and a frontage of 100 ft. on Kimball street; that this site is now occupied as a gas station which was established in 1927 under fire department plan No. 3937-27; that under that plan, which was approved when the premises were in an undetermined zone, the site had a frontage of 138 ft. on Avenue U and a depth of 60 ft.; that in 1928 an amendment was approved in the fire department for the installation of additional gasoline tanks and under this amendment the depth of the plot was increased to its present depth of 100 ft.; that the 20 ft. plot to the east of the site (lot No. 45), which was covered by the original permit, is no longer part of the gas station site, having been subdivided from the site in 1939; that Alt. Applic. No. 11284-28 was approved for the occupancy of the premises as a gas selling station; that the present accessory building was built as two buildings with a party wall, in 1929 under N.B. No. 3402-29 and N.B. No. 3403-29; that certificate of occupancy No. 90104 was issued on February 16, 1938 for a gas selling station; and

WHEREAS, the applicant also states that application is being made under section 7i to permit minor repairs with hand tools only, confined to the interior of the accessory building; that the building department has also raised an objection under section 7A relative to the sign and show window in the accessory building facing Kimball street; that since the present building has such a show window, and since the building as altered will be set back 35 ft. from Kimball street, the validity of this objection is questionable, but if the Board deems the objection applicable, a modification is hereby requested to permit the show window and sign as proposed; and

WHEREAS, the applicant contends that Kimball street adjacent to the site is an unpaved dirt road, without curbs or sidewalks; that there are a number of non-conforming uses within the affected area, some of which were subjects of zoning variances by the Board; that it is felt that the present proposal will considerably improve the appearance of the site and thereby benefit surrounding property; and

WHEREAS, the applicant states that the present owner has held title to the property since September 1, 1955; that the assessed valuation of land is \$22,000 and of the building \$4,000 making a total of \$26,000; that the building was erected in 1927; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted to permit the reconstruction of the lawfully existing gasoline service station; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7c to permit the reconstruction of the lawfully existing gasoline service station as proposed and as indicated on plans filed with this application marked "Received February 9, 1956", 5 sheets, on condition that all existing buildings and uses not proposed to be retained as shown on such

plans shall be removed; that the accessory building shall be constructed where shown and shall be of the design and arrangement as indicated; that there shall be no cellar under the accessory building; that in all other respects the accessory building shall comply with the requirements of the Building Code; that pumps shall be of a low approved type and erected not nearer than fifteen feet to the building line of Avenue U; that along the rear and side lot lines to the east and along the lot line of Kimball street for a distance of approximately 65 feet there shall be erected a woven wire fence of the chain link type on a masonry base to a total height of not less than five feet six inches with suitable terminating posts; that curb cuts shall be restricted to two curb cuts to Avenue U not over 30 ft. in width, and one curb cut to Kimball street within the first 25 ft. from the intersection and not over 20 ft. in width; that any existing curb cuts not included in the above shall be removed; that the sidewalk and curbing abutting the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that signs shall be restricted to a permanent sign attached to the Avenue U facade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs but permitting the erection within the building line of one post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend over the building line of Avenue U for a distance of not more than four feet; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that the premises where not occupied by the accessory building and pumps and planting toward the rear, where shown, shall be paved with concrete or asphaltic pavement; that around the proposed planting there shall be a protective curb not less than eight inches in height and six inches in width; that under Section 7i, for a similar term, there may be minor repairing with hand tools only for adjustment maintained solely within the accessory building; that any sign or show window or curb cut not in accordance with the requirements of Section 7A are hereby permitted thereunder for a similar term; and that all permits shall be obtained and all work completed and a certificate of occupancy obtained within the requirements of Section 22A of the Zoning Resolution.

438-56-BZ

APPLICANT—Jane Nicastri, owner.

SUBJECT—Application June 14, 1956—(decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a business and residence use district, the parking and storage of more than 5 motor vehicles.

PREMISES AFFECTED—3143-3145 East Tremont avenue, northeast corner of Baisley avenue, Block 5311, Lots 16 and 17, Borough of The Bronx.

APPEARANCES—

For Applicant: Gordon I. Novod and Jane Nicastri.

For Opposition: Mary F. Suandrlik, and Elizabeth H. N. Land.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 7, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, East Tremont avenue and Baisley avenue are in business and residence use, D and DD area, class 1 height district; and

MINUTES

WHEREAS, the decision of the borough superintendent, dated May 15, 1956 acting on Alt. Applic. 1017-55, reads:

"1. Parking & storage of more than five motor vehicles extending into a residence use district is contrary to Art. II Sect. 3 of the Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 70 ft. frontage by 150 ft. in depth, now vacant; lution show that the site, East Tremont avenue and Baisley of more than five motor vehicles; and

WHEREAS, the applicant states that the premises for which this variance is sought consists of two vacant lots fronting 70 ft. on East Tremont avenue, which is in a business zone; that lot 17, which is 73.08 ft. deep at its deepest point lies entirely within the business zone and its use as a parking lot is permitted by the zoning resolutions; that lot 16, which is 182.69 ft. deep at its longest point may be used as a parking lot for the first 100 ft.; that this application is directed to the remainder of lot No. 16; and

WHEREAS, the applicant states that the neighborhood in which these lots are located is primarily a business district; that directly south of these lots and on the other side of East Tremont avenue is St. Raymond cemetery and adjoining them to the east is a bowling alley, automobile repair shop and gas station; that on the corner to the west is another gas station; that these lots have been unused for many years; and

WHEREAS, the applicant states that the present owner has held title to the property since November 1, 1954 and that the assessed valuation of land is \$13,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c for a term of five years, to permit the premises known as lots 16 and 17 to be occupied as proposed for the parking and storage of motor vehicles, *on condition* that fences of a woven wire type shall be constructed along the street building lines of Baisley and East Tremont avenues and along the interior lot lines where walls of adjoining buildings do not occur, with no openings therein except one to East Tremont avenue where indicated on plans filed with this application, marked "Received June 14, 1956", 2 sheets; that such fences shall be of woven wire type and where not now existing of such construction shall be to a total height of not less than 5 ft. 6 inches; that in such fence there shall be a gate not less than 12 in. wide with curb cut opposite not over 15 ft. in width, located where shown; that such gate shall be kept closed at all times when the parking lot is not in operation; that the use of the parking lot shall be primarily for the owner and patrons of the adjoining bowling alley; that proper bumpers shall be maintained against the fence for protection thereof; that such portable fire fighting appliances shall be installed as the fire commissioner shall direct; that the premises shall be leveled substantially to the grade of East Tremont avenue, surfaced with clean gravel or steam cinders, treated with a binder and properly rolled; and that all permits required, including a certificate of occupancy, shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

Adjourned: 3:55 P. M.

JOSEPH J. DOYLE, *Chief Clerk.*

REGULAR MEETING

WEDNESDAY AFTERNOON, NOVEMBER 7, 1956,
2 P. M.

Present: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly.

THE RESOLUTION—

WHEREAS, this application was amended by the Board
as Vol. II, on July 1, 1947, on certain conditions; and

WHEREAS, time to obtain permits and complete the work
was extended on February 25, 1948; and

WHEREAS, the term of variance was extended on April
24, 1956; and

WHEREAS, the resolution was amended on April 24, 1956;
and

WHEREAS, the applicant requested an extension of time
to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does
hereby *amend* the resolution adopted on April 24, 1956, under
Volume II, only as to the time within which to obtain
permits and complete the work, so that as amended this
portion of the resolution shall read:

"that all permits required shall be obtained and all work
completed within six months and a certificate of occu-
pancy shall be obtained." (Alt. App. 88/44).

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened, resolution amended and time extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on December 10, 1940, on certain conditions; and

WHEREAS, the resolution was amended on October 31, 1950; and

WHEREAS, time to obtain permits and complete the work was extended from time to time and last extended on March 22, 1955; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on December 10, 1940, as thereafter amended by resolutions adopted through March 22, 1955, only so far as it has reference to the following:

"that the Board hereby affirms the resolutions above cited as adopted on December 10, 1940, as amended through March 22, 1955, to permit the construction of the proposed gasoline service station previously permitted by resolution adopted December 10, 1940, and in accordance with working plans as required and as submitted and approved on May 7, 1941; and that all permits required shall be obtained and all work completed within requirements of Section 22A of the Zoning Resolution from the date of this amended resolution." (Alt. 2764/50 and N.B. 1353/56)

* Correction—"N.B. 1353/56" added to the end of resolution.

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on November 17, 1953, as they appeared in Bulletin No. 47, Vol. 38, are hereby corrected to read as follows:

126-53-BZ

APPLICANT—Charles M. Spindler, for Raymond and Egidio Barone, owners.

SUBJECT—Application for consideration—approval of working drawings—re Application (decision of the borough superintendent), previously granted on condition, under section 7c of the zoning resolution, permitting in a business use district, the reconstruction and extension in area of existing gasoline service station, and the construction of a structure for use as a non-storage garage for

more than five motor vehicles, auto washing, lubritorium, storage and sale of accessories, motor vehicle repair shop and office.

PREMISES AFFECTED—6302-6312 Fort Hamilton parkway and 936-948 63rd street, southwest corner (Block 5736, Lot 21), Borough of Brooklyn.

APPEARANCES—

For Applicant: Robert W. Artus.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended, working drawings approved and additional conditions imposed.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connors 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on July 28, 1953, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution and approval of working drawings as being in substantial compliance with the requirements of the resolution of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on July 28, 1953, by adding thereto:

"that working drawings hereinbefore required are hereby approved, on condition that the plot shall be leveled substantially to the grade of the abutting streets; that all existing buildings and uses shall be removed, except such parts of existing buildings to be consolidated with the proposed new building, and the gasoline service station shall be arranged as indicated on such working drawings marked 'Received September 22, 1953' (3 sheets); that the arrangement of the accessory building shall be as shown thereon, constructed of face brick and Carrara glass on exposed front and side and with cast stone and metal trim, as indicated; that in all other respects the building shall comply with the requirements of the Building Code; that greasing equipment shall be of the hydraulic type; that gasoline pumps shall be of approved type, located where shown, and the number of such tanks shall not exceed eight 550 gallon tanks; that the balance of the premises shall be paved with concrete or bituminous paving; that the proposed unbuilt upon space in the rear shall be surfaced similarly to the gasoline selling area and properly drained and shall be used only for parking and storing of cars; that where walls of adjoining buildings do not occur, suitable masonry walls not less than 5 ft. 6 in. in height shall be constructed; that curb cuts shall be restricted to two to Fort Hamilton Parkway, each not over 30 feet in width, and one curb cut to 63d street of similar width, located where shown; that the sidewalks and curbing around the premises shall be repaired or reconstructed to the satisfaction of the Borough President; that there shall be erected within the intersection a block of concrete not less than 12 in. in height, extending for a distance of at least 5 feet from the intersection along either building line; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs, but permitting the erection of a post standard within the intersection for supporting a sign which may be two-leaved, advertising only the brand of gasoline on sale, such sign to extend beyond the building line for a distance of not over 4 feet; that such portable fire fighting appliances shall be installed as the Fire Commissioner shall direct; and under section 7i, there may be repairing of motor vehicles with hand tools only and for minor adjustments maintained only within the accessory building; and that all permits required shall be obtained and all work completed as required in the

MINUTES

resolution above cited, adopted on July 28, 1953." (Alt. 3636/52).

* Correction—The words '*parking and*' inserted in the resolution before the words '*storing of cars*' as indicated in italics.

*CORRECTION

The Minutes of the meeting of the Board of Standards and Appeals held on February 21, 1956, as they appeared in Bulletin No. 10, Vol. 41, are hereby corrected to read as follows:

702-54-BZ

APPLICANT—William A. Giesen, for Tri-Gar Holding Corp., owner (Berl-Berry Motors, Inc., lessee).

SUBJECT—Application August 29, 1954—(decision of the borough superintendent) under sections 7e, 7f, 7i and 21 of the zoning resolution, to permit in a business use district the proposed use of garage with display of new and used cars, gasoline service and oil selling station and repair shop for motor vehicles.

PREMISES AFFECTED—2915 White Plains road, northwest corner of Arnow avenue, Block 4542, Lot 1, Borough of The Bronx.

APPEARANCES—

For Applicant: Louis Glickhouse.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application withdrawn.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner and Commissioner Keating 3

Negative 0

Absent: Deputy Chief Connors 1

THE RESOLUTION—

WHEREAS, the applicant states that the owner wishes to withdraw this appeal since he has abandoned the proposal to occupy the building as was requested.

Resolved, that the application be, and it hereby is *withdrawn*.

* Correction—To record Louis Glickhouse in appearance for the applicant.

*CORRECTION

The Minutes of the meeting of the Board of Standards and Appeals held on July 24, 1956, as they appeared in Bulletin No. 31, Vol. 41, are hereby corrected to read as follows:

998-54-BZ

APPLICANT—Henry C. Brockman, for Gulf Oil Corporation, owner.

SUBJECT—Application for consideration—reopening as to amendment for additional tanks and location of same—re Application (decision of the borough superintendent); previously granted on condition, under sections 7c, 7i and 7A of the zoning resolution, permitting in a business use district, the reconstruction of existing gasoline service station to include lubritorium, car washing (non-automatic), motor vehicle repairs and office and permitting the parking of motor vehicles waiting to be serviced with a curb cut nearer the residence use district than is permitted.

PREMISES AFFECTED—5099 Broadway, southwest corner of West 218th street, Block 2243, Lot 273, Borough of Manhattan.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened, and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on June 7, 1955, on certain conditions; and

WHEREAS, time to obtain permits and complete the work was extended on June 12, 1956; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 7, 1955, as thereafter *amended* by resolutions adopted through June 12, 1956, only so far as it has reference to additional gasoline storage tanks and pumps, so that as *amended* this portion of the resolution shall read:

"that the six existing 550 gallon gasoline tanks and the four proposed new 550 gallon tanks, may be relocated as now indicated on revised plan marked 'Received July 3, 1956' (1 sheet), (Misc. App. FP 1274/55)."

* Correction—Address of premises affected changed from '5009 Broadway' to '5099 Broadway'.

SUBJECT—Application reopened May 29, 1956—re amendment to resolution as to additional models 816-D-1-N.P., 20-V5D-1-N.P., 20-V5D-1-7-N.P., 1630-D-3-N.P., 1636-4DC-3B-N.P., 1636-D4C-3B-7-N.P., 3053-3-N.P., 3656-3-N.P., 6416-N.P. and 262-N.P.—re Waterman Gas Ranges, Models 21-D-1, 21-D-2, 3663-3 and 3653-6; previously approved.

APPEARANCES—

For Applicant: John De Luca.

ACTION OF BOARD—Resolution amended in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 542-55-SA

Subject: Amendment to resolution as to additional models of gas ranges.

Henry Waterman & Bro. Corp., New York requested by letter dated May 15, 1956 that the resolution adopted December 13, 1955 under Cal. No. 542-55-SA be amended so as to include additional models of domestic gas ranges. The application was reopened by a vote of the Board May 29, 1956.

Purpose

The appliances are domestic gas ranges used for cooking purposes.

Description

The Board approved various models of domestic gas ranges under the above Calendar number on December 13,

MINUTES

1955. The requested models are similar to those approved except that the pilot light has been removed.

Recommendation

The Committee on Test recommends that the resolution adopted December 13, 1955 under Cal. No. 542-55-SA be amended so as to include the models 816-D-1-N.P., 20-V5D-1-N.P., 20-V5D-1-7-N.P., 1630-D-3-N.P., 1630-D-3-7-N.P., 1636-D4C-3B-N.P., 1636-D4C-3B-7-N.P., 3053-3-N.P., 3656-3-N.P., 6416-N.P., and 262-N.P. which may be constructed without a device which shall automatically shut off the gas as there is no constantly burning flame or thermostat. The Committee further recommends that all installation comply with the requirements of C26-695.0.9.26 Administrative

Building Code as these models have not been approved by a recognized testing laboratory.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of December 13, 1955 in accordance with the above report.

* Correction—Model No. "6415-N.P." changed to "6416-N.P."

RULES RELATING TO SMOKING IN PROTECTED PORTIONS OF FACTORIES, AND IN SPECIAL CLASSES OF OCCUPANCIES.

Adopted by the Board of Standards and Appeals August 13, 1918, effective September 9, 1918, under the powers conferred upon the Board by Section 718-a, Subsections 2 and 3 (Old Charter) to supplement Section 283 of the Labor Law (Old Section 83c).

[Cal. 1262-18-SR]

Labor Law

Section 283. Smoking.

1. No person shall smoke in a factory. A notice of such prohibition stating the penalty for violation thereof shall be kept posted in every entrance hall, elevator, stair hall and room of a factory in English, and in such other languages as the fire commissioner of the city of New York in such city and elsewhere the commissioner shall direct.

2. The board in its rules may permit smoking in protected portions of a factory, or in such classes of occupancies where in its opinion the safety of the employees will not be endangered thereby. The fire commissioner of the city of New York in such city and elsewhere the commissioner may issue such permits in accordance with rules adopted by the board.

3. The fire commissioner of the city of New York in such city and elsewhere the commissioner shall enforce this section.

Rule 1. Permit.

(a) Prohibition. No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the administrative official.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stair hall or room throughout the building, as well as in every elevator car, in English, and also in such other language or languages—as the administrative official shall direct, a notice of such prohibition, and the penalty for its violation.

(b) Application. Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the administrative official.

(c) Time Limit. Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon the expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) Conditions. The permit shall state the conditions under which the hours between which, and the place or places in such factory where smoking may be permitted, and this

permit shall be framed and kept posted in a conspicuous place in the factory.

(e) Revocation. Violation of any of the conditions specified in the permit in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the administrative official, and shall not again issue a permit for the same premises until at least one year has elapsed.

Rule 2. Permissible Cases.

Smoking may be permitted in:

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fireresisting partitions, with all openings therein protected by selfclosing fire doors, and further, unless the building is of fireproof construction or provided with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire retarding material.

(3) Such chemical fire extinguishers as the administrative official may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;

(2) Such chemical fire extinguishers as the administrative official may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

RULES

AMENDMENTS TO THE RULES FOR ERECTION, ALTERATION, REPAIR, EXCAVATION FOR AND DEMOLITION OF BUILDINGS

Adopted by The Board of Standards and Appeals,
October 26, 1943, Effective December 13, 1943;
Amended Oct. 14, 1955, Effective Nov. 10, 1955;
and Amended June 4, 1956, effective July 2, 1956.
(Cal. No. 784-41-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, (3) and (4) of The New York City Charter; Sections C26-189.0, C26-191.0, C26-504.0(a), and C26-689.0 of the Administrative Code

7.8.1 Design and Construction of Forms. The design and construction of forms shall conform to the following requirements:

7.8.1.1 Forms shall conform to the shape, lines, and dimensions of the member as called for on the plans. Forms shall be substantial and sufficiently tight to prevent leakage of mortar; and shall be properly braced or tied together so as to maintain position and shape and insure safety to workmen and passersby. Temporary openings shall be provided where necessary to facilitate cleaning and inspection immediately before depositing concrete.

7.8.1.2 Where the height of the shores exceeds ten feet, adequate diagonal bracing shall be provided in both longitudinal and transverse directions. In addition, adequate diagonal braces shall be provided at the ends of the framework. Diagonal bracing shall extend from the top to bottom of shores.

7.8.1.3 The unbraced length of wood shores supporting forms shall not exceed fifty times the least dimension. Metal shores or frames shall be approved by the Board of Standards and Appeals and shall be installed in accordance with the approval of the board. Shores shall be adequately secured at the top and shall be properly wedged at top or bottom, if required.

7.8.1.4 Where shores rest upon the ground, adequate mud sills, or other bases, shall be provided to support the shores adequately.

7.8.1.5 Qualified workmen shall be detailed constantly during the placing of concrete to insure that there is no movement of shores, braces or other supports. The name of the foreman in charge of the formwork shall be posted in the field office of the contractor.

7.8.1.6 The individual, firm or corporation who does the concrete work shall be responsible for the adequate design and construction of all forms used in the construction of the building. Wherever the shore height exceeds fourteen feet, or the load on the forms exceeds one hundred fifty pounds per square foot, or power buggies are used, or two stage shores are used, the individual, firm or corporation who does the concrete work shall certify to the department that the form design has been checked and approved as adequate by a licensed professional engineer who has had at least five years of experience as a structural engineer, and that the forms have been constructed in conformance with the design which was checked and approved by the said engineer.

THE BUILDING LAWS

NOW ON SALE

THE VARIOUS BUILDING LAWS OF THE CITY OF NEW YORK published in four volumes, amended to September, 1955, are now ON SALE AT THE CITY RECORD OFFICE, ROOM 2213, MUNICIPAL BUILDING, MANHATTAN, N. Y. 7. SECTION 21-C

The New York Chamber of Commerce at its monthly meeting on October 4, 1956 adopted unanimously the following resolution:

RESOLVED, That the jurisdictional changes proposed in the Zoning Resolution transferring authority to permit variances or exceptions affecting large-scale development projects from the Board of Standards and Appeals to the City Planning Commission be opposed and that this action be brought to the attention of the appropriate City Authorities.

This resolution approved the report of the Chamber's Committee on City affairs which read:

The City Planning Commission has under consideration changes in the Zoning Resolution of the City of New York which would permit the Commission to grant exceptions which are for all practical purposes variances to the zoning regulations for so-called large scale business and residential projects.

The Board of Standards and Appeals traditionally has been responsible and staffed for the granting of variances, not only to the Zoning Resolution, but also to the Building Code, Labor Law, Multiple Dwelling Law and other statutes regulating the construction, maintenance and use of buildings.

Such variances differ from amendments to the controlling laws in that the variance is withheld or granted for one specific case, after an application has been made and an investigation and hearing held. The decision of the Board of Standards and Appeals is quasi-judicial and is subject to judicial review. Amendments are changes in the controlling laws, which in the case of the Zoning Resolution revise the use, height or area regulations within the limits of an entire section or neighborhood of the City, or for the entire City. This is the charter responsibility of the City Planning Commission with respect to which the Board of Standards and Appeals is a functional or regulating agency.

The proposed changes in the Zoning Resolution would take this power from the Board of Standards and Appeals and authorize the City Planning Commission to grant variances in the "larger" building programs. In addition, the proposed changes fail to supply a court appeal procedure to which those aggrieved by Board decisions have ready recourse.

Under the City Charter, the City Planning Commission has been given authority to prepare the master plan of the City; to adopt amendments to zoning regulations; and to propose additional zoning resolutions—all subject to approval of the Board of Estimate.

The Board of Standards and Appeals was specifically vested by the Legislature with the authority to grant

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on May 15, 1956 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on November 14, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a retail use, E-1 area, class 1 height district; Hylan boulevard and Linwood avenue are in retail and residence use, E-1 area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated March 19, 1956 acting on Alt. Applic. 33-56, reads:

"1. Proposed extension of a legal non-conforming gasoline service station to include office, sales, car wash, lubritorium and motor vehicle repair in a Retail Use District is contrary to Art. II Sect. 4A of the Zoning Resolution.

2. Proposed extension located in an "E-1" Area district with less than a 15'-0" rear yard is contrary to Art. IV Sect. 15A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 103.75 ft. frontage by 35 ft. in depth, on which is located a gasoline service station; that it is proposed to erect and maintain an extension to existing gasoline service station to include offices, sales, car wash, lubritorium and motor vehicle repair shop; proposed extension, 41 ft. by 24 ft., with less than required rear yard; and

WHEREAS, the applicant states that zoning changes since 1916 are as follows: 1916-1924—residence use, D area; 1927—business use, class 1 height, D area; 1937—business use,

MINUTES

class 1 height, D area; 1942—business use, class 1 height, E area; 1947—business use, class 1 height, E area; 1953—business use, class 1 height, E area; 1955—retail use, class 1 height, E-1 area; and

WHEREAS, the applicant further states that the present building is a small brick building 15 ft. by 22 ft. used as office storage, sales, etc.; that under the present setup all the services usually performed in a gas station such as minor repairs, lubrication, car wash, etc., must be performed in the open and such a condition causes the operator great physical hardship, winter or summer; that in fact, this is the prime reason that prompted the former owner to sell the property, as lessees of the station would not stay for any length of time; that the present owner, a young veteran, has invested all his savings to purchase this station, and by the addition of the proposed extension expects to be able to realize a fair living; that as there is a great demand in the surrounding area for a first class motor vehicle repair shop and operator, which this owner is, and one of the requests of this application is to be permitted to repair motor vehicles, which would be done mainly by the use of hand tools and equipment and all within the confines of the building; that as to objection No. 2 which requires a 15 ft. minimum rear yard, it may be seen that some very peculiar zoning has caused this situation, being a retail use district and an E-1 area district; and

WHEREAS, the applicant contends that as the lot is only nominally 35 ft. deep it would be impossible to hold to the area restriction and build any type building at all; that the present small office or service building is located within 2 ft. of the rear line; that as may be seen from photograph No. 4, a 10 ft. or 12 ft. high retaining wall is on the rear property line of this lot; that if the extension is to be built at all it must be located on this retaining wall or else it would be impossible to use the front portion for cars coming in for gasoline and service; that this owner has recently purchased 60 ft. of lot No. 1 immediately adjoining to the west; and

WHEREAS, the applicant states that the present owner has held title to the property since August 19, 1955; that the assessed valuation of land is \$900 and of the building \$2,100 making a total of \$3,000; that the building was erected in 1929.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on May 28, 1929 by adding thereto:

"that under sections 7i and 21 of the zoning resolution, the erection of an additional building may be permitted as proposed, with the rear yard of the building substantially as stated in applicant's statement and as shown on plans filed with this application, marked "Received April 13, 1956", 4 sheets; that such building shall be for the use as proposed, containing the existing greasing equipment now in the open; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that any openings in the rear wall shall be filled with glass block as approved for exterior walls without openings therein; that such portable fire fighting appliances shall be maintained as the fire commissioner shall direct; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

115-36-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Ralph Iovine, owner.

SUBJECT—Application reopened July 8, 1952 as Vol. II—re (decision of the borough superintendent) under sections 7e and 7i of the zoning resolution, to permit in a business use district, the proposed change of occupancy from office, storage of roofer's materials and equipment,

office, lunch room, automobile wrecking yard, parking and storage of more than 5 cars, to body and fender repairs, painting and spraying, junk yard, auto wrecking, use of oxygen with a combustible gas.

PREMISES AFFECTED—5283-5291 Kings highway, east side, 60 ft. 9¾ in. north of Preston court, Block 7949, Lots 20 and 23, Borough of Brooklyn.

APPEARANCES—

For Applicant: James E. Vassalotti.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on July 8, 1952 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on October 23, 1956 after due notice by publication in the Bulletin; laid over to November 14, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Kings highway are in a business use, C area, class 1 height district; Preston court is in business and unrestricted use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated June 2, 1955 acting on N.B. Applic. 858-55, reads:

"1. Proposed change of use in a business use district, from office and storage of roofer's materials and equipment, office, lunch room, automobile wrecking yard, (hand tools only) and parking and storage of not more than (5) five cars, to body and fender repairs, painting and spraying, junk yard, auto wrecking, use of oxygen with a combustible gas, is contrary to Art. II PP. 4(a) Sub. Sect. 4, 20, 29, 50 of the Zoning Resolution. Note: These premises are the subject of a previous Board of Standards grant Cal. #115-36-BZ."

and

WHEREAS, the applicant states that the premises consist of a plot, 101 ft. 7/8 in. frontage by 127 ft. 2¾ in. in depth, irregular, now being used as a junk yard for auto parts, auto wrecking, body and fender repairs and the use of oxygen with a combustible gas; that the site is also developed with a one story, concrete block, three car garage; that it is proposed to remove the present three car garage and secure a variance for a term of ten years in order to maintain the present junk yard for used auto parts, auto wrecking, body and fender repairs, the use of oxygen with a combustible gas, and erect a new one story building of class 3 construction, with a frontage of 38 ft. and a depth of 40 ft., the building to contain the use of auto painting and spraying, auto body and fender repairs, and an office; and

WHEREAS, the applicant states that as of July 25, 1916 the site was in an unrestricted use district and a class A area district and received its present use and area designations on June 16, 1922; and

WHEREAS, the applicant further states that on October 30, 1936 under Cal. No. 115-36-BZ, the Board granted a variance for a period of five years to use the premises as auto wrecking lot and the storage of five motor vehicles, which variance covered a plot having a frontage of 101 ft. on Kings highway; that on May 26, 1942 the Board granted an amendment to reduce the size of the plot to a frontage of 60 ft. 9¾ in., and maintain the same use for an additional period of two years; that on July 25, 1950 the variance was extended for an additional two years; that certificate of occupancy No. 127235 was issued for above uses; and

WHEREAS, the applicant contends that inasmuch as the main use of auto wrecking and the storage of used auto

MINUTES

parts was previously granted by the Board, the additional conjunctive uses will not affect the area; that the removal of all the old sheds and buildings and the replacement with a modern masonry building will improve the appearance of the area; that within the affected area, the site is adjoined to the east by an unrestricted zone and the only dwellings in the entire area are in this unrestricted zone; that within the affected area, in the business zone, the following non-conforming uses occur: block 7948, lots 11 and 22—gas station and used car parts; block 7969, lot 60—gas station; block 7969, lot 65—auto laundry; block 7949, lots 39, 33 and 10—coal yard, gas station and lumber yard; that with the railroad embankment to the north, the unrestricted zone to the east and the many non-conforming uses as shown, it would be economically unfeasible and impossible to erect a conforming use on the site at this time; that the area has not improved since 1936, when the Board granted the original auto wrecking variance; and

WHEREAS, the applicant states that the present owner has held title to the property since February 25, 1949; that the assessed valuation of land is \$12,000 and of the building \$2,500 making a total of \$14,500; that the building was erected in 1936; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions e and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7 e and i to permit the continuance of the use of the premises as previously granted to the former owner by resolution adopted October 20, 1936; and to permit the additional use as proposed for painting and spraying, body and fender repairs in the proposed building as shown on plans filed with this application marked "Received June 6, 1955", 3 sheets *on condition* that the existing building, formerly a garage, overlapping the lot line, shall be removed and the new building shall be erected substantially as proposed and not over one story in height; and complying in all other respects with the requirements of the Building Code therefor; that fences around the premises shall be constructed in accordance with the requirements of the zoning resolution therefor; that curb cuts shall be restricted to two curb cuts each not over 30 ft. in width, located where shown; that the sidewalk and curbing abutting the premises shall be repaired or restored to the satisfaction of the Borough President; that any permits for the use of welding and any inflammable materials shall be subject to the issuance thereof by the Fire Commissioner; that the use of the premises as herein permitted, may be for a term of ten years from the date of this resolution and that all permits shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

326-41-BZ—Vol. II

APPLICANT—Leonard F. Rothkrug and William H. Healy, for Margharita Boccia, owner.

SUBJECT—Application reopened December 13, 1955 as Vol. II—re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district, the proposed continued use of a frame building for 7 car garage.

PREMISES AFFECTED—2222 Homecrest avenue, west side, 180 ft. south of Avenue V, Block 7372, Lot 16, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug and Frank Boccia.

For Opposition: Alexander Lavrowsky.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly... 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on December 13, 1955 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on November 14, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, D area, class 1½ height district; Homecrest avenue is in residence and business use, D area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated October 7, 1955 acting on Alt. Applic. 4377-54, reads:

"1. The proposed continued use of a frame bldg. for a (7) seven car garage located in a residence use district, is contrary to Art. 2 Sect. 3 of the zone resolutions. Note—a variation for this use was granted under 326-41-BZ & expired 10-15-51."

and

WHEREAS, the applicant states that the premises consist of a plot, 80 ft. frontage by 120 ft. in depth, on which is located a garage for seven motor vehicles; and

WHEREAS, the applicant further states that the premises consist of a plot 80 ft. front on Homecrest avenue by 120 ft. in depth on which there is constructed a two family frame dwelling, not subject to this appeal, and a 1½ story frame building 71 ft. front at the rear lot line by 21 ft. in depth, 18 ft. in height, erected in 1906 as a stable, altered under Cal. No. 326-41-BZ, granted October 15, 1941 for a term of ten years as a garage for seven motor vehicles and occupied under certificate of occupancy No. 107041, issued October 15, 1942, which certificate expired October 15, 1951; that the occupancy by seven motor vehicles has continued subsequent to the expiration of the variance and application is now made to continue the use; and

WHEREAS, the applicant contends that the garages are principally accessory to the dwelling and for the family of the owner, who have four cars of their own; that there is no transient parking or rental signs or other indication of a business use; that the premises is maintained on a non-commercial basis and the proposed continuance of the use is in keeping with the character of the neighborhood; that the building was erected as a stable and if the application to convert the stable to the garaging use had been timely made, then it would have been permitted under the zoning resolution; that the use of the premises for private garaging of cars is less objectionable than the stable originally erected; and

WHEREAS, the applicant states that the present owner has held title to the property since November 25, 1932; that the assessed valuation of land is \$8,000 and of the building \$5,000 making a total of \$13,000; that the building was erected in 1906; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 15, 1941, by adding thereto:

"that the existing garages as previously permitted for a term of ten years expiring October 15, 1951, may be continued for a term of five years from the date of this *amended* resolution, as proposed and indicated on plans filed with this application, marked 'Received November 5, 1955', 1 sheet, and 'October 10, 1956', 1 sheet, *on condition* that only pleasure cars shall be stored within the garages; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that the buildings shall be maintained in good structural condition and kept painted; that in all other respects the resolution adopted by the Board

MINUTES

on October 15, 1941, shall be complied with; and that all permits, including a new certificate of occupancy shall be obtained and all work completed within six months from the date of this *amended* resolution."

173-49-BZ—Vol. II

APPLICANT—Leonard F. Rothkrug, for Pasamo Realty Corp., doing business as United Kosher Provisions Co., owner.

SUBJECT—Application reopened November 29, 1955 as Vol. II—re (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a residence use, C area district, the extension of a meat packing plant using more than the area permitted.

PREMISES AFFECTED—1690-1692 Pacific street, south side, 75 ft. east of Schenectady avenue, Block 1342, Lots 12 and 13, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on November 29, 1955, subject to regular procedure; and

WHEREAS, a public hearing was held on this application on October 9, 1956 after due notice by publication in the Bulletin; laid over to November 14, 1956, for inspection and decision; hearing closed.

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, C area, class 1 height district; Pacific street is in residence and manufacturing use, C area, class 1 height districts; Troy avenue is in a manufacturing use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated September 23, 1955 acting on Alt. Applic. 2229-55, reads:

"1. Business use occupancy in a Residential use district is contrary to Art. II, Sect. 3 of Zone Resolution.

2. Area of new extension will exceed permissible area for 'C' zone and is therefore contrary to Art. IV Sect. 13 of Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 57 ft. 4½ in. frontage by 107 ft. 2¼ in., irregular in depth, on which is located a one story building 27 ft. front by 86 ft. 2½ in. in depth, 14 ft. in height, of class 3 construction, set back 10 ft. from the building line, presently used as a meat packing plant, altered and extended under Alt. Applic. 4211-48 and Cal. No. 173-49-BZ; that there is also constructed a two family, two story frame dwelling at the front of lot 12 in block 1342, which is proposed to be maintained as existing with the necessary side and rear yards, and which is not subject to this application; that it is proposed to extend the existing building at the rear by a one story addition 30 ft. 3½ in. front by 37 ft. in depth, 13 ft. in height, of class 3 construction, to be used and occupied as accessory to and in conjunction with the meat packing plant on the adjoining lot, as previously considered by the Board; that it is also proposed to maintain a rear yard of 10 ft. minimum depth along both rear lot lines; and

WHEREAS, the applicant states that the building was erected in 1933 at which time certificate of occupancy No. 72546-33 was issued to permit occupancy for pickling beef and smoking of meats; that at the time of erection, the

premises was located in an unrestricted use district and was rezoned to its present designation on November 4, 1940; that the present owners have been the principals in the conduct of the business prior to the change of zone and at the time the building was erected in 1933; that legal title was then transferred for tax purposes to a wholly owned real estate corporation; and

WHEREAS, the applicant contends that a grant of this appeal can have no adverse effect upon the neighborhood in that the new extension is located at the rear of the lot and is not visible from the street front; that the neighborhood is developed with many non-conforming uses commonly found in a manufacturing or unrestricted use district, the Pacific street frontage opposite the site being in a manufacturing use district; that the proposed extension will provide necessary additional area for the conduct of the business which was existing prior to the change in zone and there is no other vacant land which can be economically utilized; that the building is set back 10 ft. from the building line with the minimum 10 ft. depth of the rear yard, together with the vacant land associated with the dwelling (not subject to this appeal); that the area coverage is less than would ordinarily be permitted in a C area district; and

WHEREAS, the applicant states that the present owner has held title to the property since May 12, 1955; that the assessed valuation of land is \$5,700 and of the building \$10,600 making a total of \$16,300; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the applicant has rearranged the lots and omitted the present two family dwelling from his application; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution, as to use, and that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21, and is therefore entitled to relief, as to area, on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulation of the zoning resolution and that the application be and it hereby is *granted* under Sections 7c and 21, to permit an extension of the building on lot 13 as now existing, to cover the rear portion of former lot 12 now part of lot 13 and to permit the one-story extension as thereon shown, leaving the present two family dwelling on lot 12; *on condition* that the building shall be constructed as proposed and indicated on plans filed with this application, marked "Received October 31, 1955", 2 sheets, "October 25, 1956", 2 sheets and "November 13, 1956", 1 sheet; that the building shall not be further increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable; that the smoke stack shall be maintained and the requirements of the Department of Health and all other departments having jurisdiction shall be complied with; that the two openings in the proposed extension at the rear may be constructed but shall be filled with glass block as approved for exterior walls; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

252-55-BZ

APPLICANT—John F. Fitzsimons, for William Brown, Inc., owner.

SUBJECT—Application March 29, 1955—re (decision of the borough superintendent) under sections 7e and 7i of the zoning resolution, to permit in a business use district, the demolition of existing one story shed at rear of premises and the construction of a structure to be used for welding, painting, and spraying; and to permit the change in occupancy of one story structure from repair of

MINUTES

auto glass, auto locks and sale of auto accessories, to motor vehicle repair shop.

PREMISES AFFECTED—1190-1192 Bedford avenue, west side, 40 ft. south of Putnam avenue, Block 1996, Lot 29, Borough of Brooklyn.

APPEARANCES—

For Applicant: John F. Fitzsimons.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings and John J. Saunders, Board of Education.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 9, 1956 after due notice by publication in the Bulletin; laid over to November 14, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Bedford avenue are in a business use, B area, class 1¼ height district; Putnam avenue is in residence and business use, B area, class 1¼ height districts; and

WHEREAS, the decision of the borough superintendent, dated March 3, 1955 acting on N.B. Applic. 1592-54, reads:

"1. Welding, painting and spraying accessory to motor vehicle repair shop on front of lot in a business use district is contrary to Art. II Sect. 4a, par's 4 & 29 of Zone Resolution."

and

WHEREAS, the decision of the borough superintendent, dated March 3, 1955 acting on Alt. Applic. 3986-49, reads:

"1. Office and sale and display of auto accessories, motor vehicle repair shop and parking and storage of cars awaiting service in a business use district is contrary to Art. II Sect. 4a, par. 29 of Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 40 ft. frontage by 90 ft. in depth, on which is located a three story brick store and office, a one story brick structure used for repair of auto glass, keys, locks and sale of accessories; that at the rear of site there is a one story frame storage shed which is to be removed; that it is proposed to erect a class 3 structure, 20 ft. by 40 ft., one story in height, at rear of site, to be used as welding, painting and spraying; that the one story building facing Bedford avenue is proposed to be used as a motor vehicle repair shop; that it is further proposed to permit parking and storage of cars awaiting service on unbuilt upon portion of plot; that there will be no change in the three story structure; and

WHEREAS, the applicant states that the use, area and height designations have not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the applicant contends that the premises are in a neighborhood in a section of Brooklyn long ago developed; that the present legal use, insofar as motor vehicles are concerned, is limited to the repair of auto glass, auto locks and the sale of automobile accessories; that the premises have been under the one control since 1944; that prior to the formation of the corporation, William Brown was the sole owner of the premises; that the neighborhood is irregularly developed with some non-conforming uses; that in block 1827, lot 2, there is a motor vehicle repair shop; that under Cal. No. 20-42-BZ, the Board granted a variation for premises on the southwest corner of Putnam and Bedford avenues, block 1996, lot 27, to permit an auto repair shop; that the term of the variance, however, has since expired; that there is a store for the sale of auto accessories at 1188 Bedford avenue, 1169 Bedford avenue and 1184 Bedford avenue; that 1198 Bedford avenue is occupied by a tire company; and

WHEREAS, the applicant states that the present owner has held title to the property since September 14, 1944; that the assessed valuation of land is \$5,600 and of the building \$7,000 making a total of \$12,600; that the building was erected in 1949; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions e and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Sections 7e and i, for a term of ten years, to permit the premises to be occupied substantially as proposed for occupancy by William Brown, Inc., as indicated on plans filed with this application, marked "Received March 29, 1955", 7 sheets, on condition that the proposed building at the rear shall replace the existing frame storage shed which is to be removed; that there shall be no openings in the rear or side lot line walls to adjoining property; that such fire-fighting appliances shall be maintained as the fire commissioner shall direct; that the intervening yard between the existing and proposed buildings shall be properly paved to the satisfaction of the borough superintendent; that the existing buildings may be occupied as proposed and shown on plans above cited and such buildings shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto other than as modified by resolution adopted by the Board this day under Cal. 253-55-A; and that all permits required shall be obtained, including a certificate of occupancy, and all work completed within the requirements of Section 22A of the Zoning Resolution.

253-55-A

APPLICANT—John F. Fitzsimons, for William Brown, Inc., owner.

SUBJECT—Application March 29, 1955—Appeal from a decision of the borough superintendent—re exits.

PREMISES AFFECTED—1190-1192 Bedford avenue, west side, 40 ft. south of Putnam avenue, Block 1996, Lot 29, Borough of Brooklyn.

APPEARANCES—

For Applicant: John F. Fitzsimons.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated March 3, 1955, on N.B. App. 1592-54 reads:

"2. Provide two legal exits leading direct to street as per Sect. 270 Labor Law."

and

WHEREAS, the applicant states that the building will be one-story, 8 ft. in height, 40 ft. by 20 ft. in area, of class 3 construction, located on a lot 40 ft. by 90 ft. in area, in a business use, B area, class 1¼ height district, used and occupied for welding, painting, spraying, (processes accessory to a motor vehicles repairs) and

WHEREAS, the applicant states that the proposed building will be used for welding, painting and spraying as accessory to a proposed motor vehicle repair shop in the building to be located on the front of the lot at 1190 Bedford avenue; that premises 1192 is now improved with a three-story brick building used for office, and sale and display of auto accessories; that between the buildings located on the front of

MINUTES

the plot and the proposed new building there will be an open area 40 ft. by 30 ft. and exits to the street from the rear building will be provided through both buildings as indicated on plans filed with this appeal; and

WHEREAS, the applicant contends that since the total operation of the premises will be under single control, it is requested that this appeal be granted permitting the construction and egress as proposed; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on N.B. App. 1592/54, Objection No. 2, and that the appeal be and it hereby is *granted, on condition* that the exits from the rear building shall be maintained across the open space and through each of the two buildings existing, facing Bedford avenue; and that in the northerly building there shall be an entrance not over 3 feet in width at the rear as well as the front, as shown, to permit direct exit through such building as well as through the southerly building to Bedford avenue; and that in all other respects the requirements of the resolution adopted by the Board this day under Cal. 252-55-BZ shall be complied with.

Commissioner Keating and Deputy Chief Connolly .. 4

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 9, 1956 after due notice by publication in the Bulletin; laid over to November 14, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Church avenue are in a retail use, C area, class 1 height district; East 54th street is in retail and residence use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated October 24, 1955 acting on N.B. Applic. 2533-55, reads:

"1. The proposed gasoline service station, lubritorium, car washing, minor auto repairs, office and sales, storage room, parking and storage of motor vehicles located in a retail use district, is contrary to Art. II, Sec. 4-A of the Zoning Resolution.

2. The proposed show window and sign facing E. 54th St. and within 75'-0" of a residential district, is contrary to Art. II, Sec. 7-A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist

of a plot, 100 ft. $\frac{1}{8}$ in. frontage by 86 ft. $8\frac{1}{8}$ in. in depth, irregular, now vacant; that it is proposed to secure a variance for a period of fifteen years in order to erect and maintain a modern gasoline service station consisting of ten gasoline tanks of 550 gallon capacity each and four dispensing pumps; that the proposed accessory building will have a frontage of 60 ft., a depth of 28 ft., one story in height, of class 3 construction, and contain the conjunctive uses of lubritorium, car wash, minor auto repairs, office and sales and storage room; that part of the open area will be reserved for parking and storage of motor vehicles; and

WHEREAS, the applicant states that as of July 25, 1916 the premises were located in a business use district and the present use designation became effective on March 25, 1954; and

WHEREAS, the applicant contends that all auto service will be confined to the building so that the community will not be adversely affected; that Church avenue is a main auto lane leading across Brooklyn and as there are no other gas stations in the affected area and there are many dwellings in said area, the proposal is in keeping at this point and a required service; that the proposal to use part of the site for parking and storage of motor vehicles will help the parking problem in the area; that almost every available lot in the affected area is developed with stores so that there are sufficient stores in the area for public requirements and the erections of additional stores would be unwarranted; that the proposed show window is required for proper design of the building and cannot affect the residential aspect of East 54th street as said window sets 20 ft. back of the East 54th street building line; that the building across the street in block 4701, lot 10 is developed with show windows and signs within 75 ft. of the residence zone and said show windows occur directly on the building line; and

WHEREAS, the applicant states that the present owner has held title to the property since May 14, 1955 and that the assessed valuation of land is \$26,800; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application should not be granted; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivisions f, i and A of the zoning resolution; and

Resolved, that the decision of the borough superintendent, acting on N.B. App. 2533/55, Objections No. 1 and 2, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

1013-55-BZ

APPLICANT—Burke, Green and Groh, for Reginald and Frances Mamiaro, owners.

SUBJECT—Application December 23, 1955—(decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a local retail use district, the erection and maintenance of a gasoline service station, auto wash, lubritorium, office, accessory sales, minor repairs with hand tools only.

PREMISES AFFECTED—240-11 Hillside avenue, northwest corner of 241st street, Block 7908, Lot 1, Bellrose, Borough of Queens.

APPEARANCES—

For Applicant: Robert T. Groh.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioner Kleinert,

Commissioner Keating and Deputy Chief Connolly 4

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 9, 1956 after due notice by publication in the

MINUTES

Bulletin; laid over to November 14, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in local retail use, D area, class 1/2 height district; Hillside avenue and 241st street are in local retail and residence use, D area, class 1/2 height districts; and

WHEREAS, the decision of the borough superintendent, dated December 6, 1955 acting on N.B. Applic. 9456-55 reads:

"1. Proposed use of premises located in a local retail district as a gasoline service station, auto washing, lubrication, office and sales of accessories, and minor repairs with hand tools only is contrary to Article II Sec. 4-c of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 100 ft. in depth, now vacant; that it is proposed to construct a modern gasoline service station; that the accessory building will be faced with face brick, have a peaked roof and will be set well back from both building line; that both interior lot lines, except where the unpierced masonry wall of the proposed accessory building abuts the west lot line, will be fenced with 3 ft. 6 in. high iron pickets on a 2 ft. high brick base; that a similar fence will extend along the 241st street building line for approximately 65 ft.; that a wide area will be left behind the building for a grass plot and shrubbery and a planted area will also be provided along the west lot line; that the entire site, where not occupied by the accessory building or devoted to the shrubbery, will be paved with concrete or bituminous paving; that only one pump island will be provided along the Hillside avenue frontage, none on 241st street; that two 30 ft. curb cuts will be provided on Hillside avenue and one 20 ft. curb cut on 241st street near the corner; that minor repairs with hand tools will be done only within the accessory building; and

WHEREAS, the applicant states that the property at the present time is in a local retail use district, D area, class 1/2 height; that the local retail use area became effective January 27, 1941; that as of June 25, 1916 the area was zoned as a business use and the 1/2 height district became effective June 30, 1952; that prior to that time, from June 25, 1916 it was a class 1 height district; that the area designation has not changed since June 25, 1916; and

WHEREAS, the applicant contends that the Hillside area in the past three years has become very heavily trafficked and the increase in population in the surrounding district has brought about the necessity for additional gas stations in this area; that this site, opposite a business district and a block from an existing gas station, renders it conducive to the development of a necessary additional one in this area; and

WHEREAS, the applicant states that the present owner has held title to the property since November 14, 1952 and that the assessed valuation of land is \$13,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application should not be granted; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivision e of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on N.B. Applic. 9456/55, Objection No. 1 be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

1019-55-BZ

APPLICANT—Andrew Di Camillo, for Joseph J. Carlucci, owner.

SUBJECT—Application December 29, 1955—(decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a retail use, D area district,

the erection of an extension to a 3 story building, using more than the area permitted.

PREMISES AFFECTED—7204 13th avenue, west side, 20 ft. south of 72nd street, Block 6188, Lot 39, Borough of Brooklyn.

APPEARANCES—

For Applicant: Andrew Di Camillo.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert,

Commissioner Keating and Deputy Chief Connolly... 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 14, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 13th avenue are in a retail use, D area, class 1 height district; 72nd street is in residence and retail use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated December 27, 1955 acting on Alt. Applic. 2977-54, reads:

"1. Proposed new extension exceeds area for a D area district & violates Art. 4 Sect. 14c of zone resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 19 ft. 8 in. frontage by 100 ft. in depth, on which is located a three story building of class 3 construction, occupied by store and two families; that it is proposed to construct one story concrete blocks extension in the rear of the first floor, to be 19 ft. 8 in. wide, 20 ft. 3 in. deep and 13 ft. in height; that this extension will cover the remainder of the plot on the first floor and will be used for store purposes; that the type of business consists of a variety store; and

WHEREAS, the applicant contends that at the time the present owner purchased the premises, the depth of the first floor was 55 ft.; that due to increased business he was compelled to construct an extension in 1952, which was done under Alt. Applic. 1044-52, but unfortunately this did not solve his problem; that although he spent considerable money to build this extension, he has concluded that his only help lies in the additional space; that the extension constructed in 1952 was the maximum allowable coverage; that the owner purchased the building for his business and in good faith constructed the extension in 1952; that this application is the result of unforeseen problems rather than a selfish motive; that adjoining premises to the north in block 6188, lot 38, occupies full plot for two floors; that the proposed extension will have no openings in the rear or side walls and could in no way adversely affect adjoining premises; that the owner will comply with any conditions set by the Board; and

WHEREAS, the applicant states that the present owner has held title to the property since May 31, 1951; that the assessed valuation of land is \$3,400 and of the building \$12,100 making a total of \$15,500; that the building was erected in 1905; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21 as to area, to permit the one story extension of the existing building substantially as proposed and as indicated on plans filed with this application marked "Received December 29, 1955", 3 sheets, *on condition* that there shall be no windows in such

MINUTES

extension in the rear or side walls; that any skylight erected on the roof shall not be nearer than 10 ft. from the rear lot line; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; and that all permits shall be obtained and all work completed and a new Certificate of Occupancy obtained within the requirements of Section 22A of the zoning resolution.

273-56-BZ

APPLICANT—Morris Bernard Adler, for 1132 DeKalb Avenue Corp., owner.

SUBJECT—Application April 13, 1956—(decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a retail use district, the change of use from factory use on the first floor, extending the area permitted for manufacturing use and the erection of a 1 story extension.

PREMISES AFFECTED—1102 DeKalb avenue, south side, 200 ft. east of Reid avenue, Block 1604, Lot 15, Borough of Brooklyn.

APPEARANCES—

For Applicant: Morris Bernard Adler and Samuel Cooperberg.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly	4
Negative	0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 14, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Reid avenue are in a retail use, C area, class 1 height district; DeKalb avenue is in retail and business use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated March 21, 1956 acting on Alt. Applic. 92-56, reads:

"1. The proposed change of use from store to factory of the 1st floor exceeding in area that permitted in a retail use district is contrary to Art. II Sect. 4-A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 25 ft. frontage by 100 ft. in depth, on which is located a two story and cellar building of class 3 construction, now vacant, 25 ft. front, 86 ft. in depth, one and two stories in height; that it is proposed to change use of first floor to factory use, exceeding the area permitted for factory use and the erection of a one story extension; and

WHEREAS, the applicant states that this site was originally in an unrestricted use district, changed to business use district on April 15, 1921 and then changed to a retail use district on March 15, 1953; and

WHEREAS, the applicant further states that the existing two story and cellar, class 3 structure, was erected under N.B. Applic. 1635-23 and was completed on August 16, 1923; that from date of completion, the original owner-builder occupied the first floor as a branch of an extensive chain of retail butcher shops; that due to the down grade of retail business on this block, the butcher shop was closed and the premises were sold; and

WHEREAS, the applicant contends that the present owner, who is in the ladies dress manufacturing business at 1130-1132 DeKalb avenue, on the adjoining block to the east, purchased the subject property with a view to obtaining

much needed additional manufacturing space for expanding business; that the block upon which the subject building is located is presently non retail in character as evidenced by the large number of non-conforming uses now in occupancy; that the buildings on the northerly side of DeKalb avenue between Broadway and Reid avenue, and the adjacent building to the west of the subject property are factory occupied; that the proposed alteration, that is, the erection of a one story extension to existing building, and change in use of the subject property is in keeping with uses already established on this block and there can be no adverse effect upon property owners within the affected area; and

WHEREAS, the applicant states that the present owner has held title to the property since February 7, 1956; that the assessed valuation of land is \$4,500 and of the building \$11,000 making a total of \$15,500; that the building was erected in 1923; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of ten years, to permit the change of use and extension of area of the building used for factory work substantially as proposed and as indicated on plans filed with this application marked "Received April 13, 1956", 4 sheets, *on condition* that the building shall not be further increased in height or area; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified this day by resolution adopted under Cal. No. 274-56-A; that the type of manufacturing proposed shall be needlework trades; that the cellar shall be used in connection therewith for storage of materials; and that all permits shall be obtained and all work completed and a certificate of occupancy obtained within the requirements of Section 22A of the zoning resolution.

274-56-A

APPLICANT—Morris Bernard Adler for 1132 DeKalb Avenue Corp., owner.

SUBJECT—Application April 13, 1956—Appeal from a decision of the borough superintendent, re exits, etc.

PREMISES AFFECTED—1102 DeKalb avenue, south side, 200 ft. east of Reid avenue, Block 1604, Lot 15, Borough of Brooklyn.

APPEARANCES—

For Applicant: Morris Bernard Adler and Samuel Cooperberg.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly	4
Negative	0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated March 21, 1956, on Alt. App. 92-56, reads:

"2. Provide at least two exit stairs enclosed in one hour partitions leading directly to the street and complying in all details with Sect. 270 of the Labor Law."

and

WHEREAS, the applicant states the building is 2 stories, 25 ft. 8 in. in height, 25 ft. front by 65 ft. in area, of class 3 construction, erected 1923, now located on a lot 25 ft. front by 100 ft. in depth, in a retail use, C area, Class 1 height district, and used and occupied as follows: cellar—ordinary use and storage; 1st floor—store; 2nd floor—store; and proposed to be used and occupied as follows: cellar—or-

MINUTES

dinary use and storage; 1st floor—manufacturing garments, 12 persons; 2nd floor—offices, 8 persons; that the building is provided with one 3 ft. 8 in. wide interior wood stairs enclosed in partitions of wood studs, fire retarded, equipped with one hour self-closing fireproof doors; stairhall leads direct to street and is provided with a ladder and scuttle to roof; no certificate of occupancy has been issued for the existing use; and

WHEREAS, the applicant contends that the stairway from the second floor leads directly to the street and is 4 ft. wide, enclosed in fire retarded partitions constructed of wood studs, metal lath and Portland cement plaster with hard white finish; the soffit of the stair is similarly finished; that the door to the stairway at the second floor is kalamein, self closing; that on the second floor in the stairway enclosure there is a fixed iron ladder leading to a scuttle in the roof; that the net usable floor area for offices on the second floor is 1303 sq. ft. and the existing stairway is adequate for exit purposes for the limited occupancy and would have been acceptable under the Administrative Building Code were it not for the classification of the building on the first floor as a factory.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. App. 92-56, Objection No. 2 and that the appeal be and it hereby is *granted, on condition* that the means of exit from the first floor and second floor for the occupancy as proposed and permitted this day under resolution adopted under Cal. No. 273-56-BZ shall be as indicated on plans filed with this appeal marked "Received April 13, 1956", 3 sheets; and that in all other respects the requirements of the resolution as adopted this day under Cal. No. 273-56-BZ shall be complied with.

374-56-BZ

APPLICANT—Moritz Simon, for H and A Realty Corp., owner (Harold Amateau, lessee).

SUBJECT—Application May 21, 1956—(decision of the borough superintendent) under sections 7b and 7A of the zoning resolution, to permit in a residence and local retail use district, the change of occupancy and alteration of an existing old law tenement, with extension within 75 ft. of residence use district.

PREMISES AFFECTED—55 East 115th street, north side, 84 ft. east of Madison avenue, Block 1621, Lot 24, Borough of Manhattan.

APPEARANCES—

For Applicant: Moritz Simon and Ann Amateau.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 14, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, East 115th street and Madison avenue are residences and local retail use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated September 2, 1956 acting on Alt. Applic. 1134-54, reads:

"1. Proposed store and offices located partly in a residence district is contrary to Sec. 3 of Z.R. and Sec. 7A of Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 26 ft. frontage by 100.11 ft. in depth, now

occupied by an old law tenement; that it is proposed to alter the premises basically by removing the 3rd, 4th and 5th floors and to convert the two lower floors into commercial use; and

WHEREAS, the applicant states that prior to the change of zoning on July 31, 1947 the premises on both sides of East 115th street between Madison avenue and Park avenue were located in a business use district and 70% of all these buildings are now occupied as stores or other commercial uses on the first floor; that the zoning map as of July 31, 1947 shows a change of the area in question from business use into local retail and residence use, and the use district boundary line divides the owner's lot, with 16 ft. frontage located in a local retail district use and 10 ft. in a residence district use; and

WHEREAS, the applicant further states that the subject building was erected in 1890 and consists of five stories and cellar, and was occupied until February 9, 1956 as an old law tenement with two 6-room apartments on each floor; that on January 26, 1956 the building was certified as unfit for human habitation and on or about February 9, 1956 all tenants vacated the premises; that since this date the owner, who purchased the property in 1954 for the sum of \$17,000 does not have any revenues from his invested capital but only losses resulting from payment of real estate taxes and mortgage interest; that a sale of the property in its present condition would result in a loss to the owner of \$10,000; and

WHEREAS, the applicant contends that to restore the former use of the building as an old law tenement by altering the premises in order to make it structurally safe, or to convert it into smaller residential units, is highly undesirable since no improvements beyond an obsolete tenement layout can be obtained, besides which the building's slum characteristics will still remain; that in order to make use of the entire floor area, the owner desires to include that portion located in the residence use district into the proposed use as a store for church goods on the first floor and offices on the second floor and storage in the cellar; that this portion extends only 10 ft. beyond the boundary line of the district in which such use is authorized; that besides the removal of the upper 3rd, 4th and 5th floors, the owner plans to replace the entire front of the remaining two floors with a modern facade, using light colored face brick and aluminum on doors and window trimmings; that this alteration will greatly improve the present conditions in this bleak slum area; that the entrance to the premises will be placed into the conforming portion of the local retail district, whereas the display window, showing church goods, is bound to stay in a non-conforming use district, since the entire lot is within 75 ft. from the residence district; and

WHEREAS, the applicant states that the present owner has held title to the property since February 24, 1954; that the assessed valuation of land is \$6,500 and of the building \$7,000, making a total of \$13,500; that the building was erected in 1890; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision b and 7-A of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Sections 7b and 7-A to permit the erection of the two story building for stores and offices substantially as proposed and as indicated on plans filed with this application marked "Received May 21, 1956", 4 sheets, and "October 21, 1956", 2 sheets, *on condition* that all buildings and structures on the premises shall be removed and the premises shall be constructed as proposed with a two story building or alteration of present building reduced to two stories for the occupancy of the concern for the sale of religious supplies, now occupying the store on Lot 39, Block 1620, and for the occupancy of the second floor as indicated for medical or dental offices; that this variance shall continue only so long as the street floor

MINUTES

of this building is occupied by such concern, namely Harold Amateau or his successor in the same line of business; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

706-56-BZ

APPLICANT—Leonard Lazarus, for Ferdinand Castagna, Janet Hess, Hanna Hess and J. Louis Lazarus, owners.

SUBJECT—Application October 18, 1956—(decision of the borough superintendent) pursuant to section 9A of the zoning resolution for a variation of sections 8c and 9A of the zoning resolution, to permit in a Class $\frac{3}{4}$ height district, the erection of a portion of a proposed building in excess of the height permitted by section 8(c) of the zoning resolution, within two miles of a designated airport.

PREMISES AFFECTED—138-20 31st road, southwest corner of 140th street, Block 4374, Lot 1, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Leonard Lazarus.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings and John J. Saunders, B'd of Education.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 14, 1956, after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, E area, Class $\frac{3}{4}$ height district; 31st Road is in a residence use, E area, $\frac{3}{4}$ height district and a retail use, F area, class $\frac{3}{4}$ height district; 138th street and 140th street are in a residence use, D and E area, class $\frac{3}{4}$ and class 1 height districts and 139th street is in a residence use, E area, class $\frac{3}{4}$ height district; 31st Road is in a residence use, E area, class $\frac{3}{4}$ height district; and

WHEREAS, the decision of the borough superintendent dated September 20, 1956, on N.B. App. 2721-56, reads:

"2M. Proposed building located in a $\frac{3}{4}$ height district within two miles of a designated airport, exceeds the height limit prescribed in Sec. 8(c) and Sec. 9-A, zoning resolution."

and

WHEREAS, the applicant states the premises consist of a plot fronting 505 ft. on 31st Road, with a depth of 213 ft. along 140th street and a depth of 35 ft. along 138th street, upon which it is proposed to erect a six story Class 3 constructed, Class A multiple dwelling, 59 ft. in height, consisting of two sections, each 179 ft. 4 in. front by 110 ft. in depth, connected below grade by a non-storage accessory garage for 54 cars; and

WHEREAS, the applicant states that only the southerly portion of Section 1-2 of the proposed building has been objected to by the Department of Buildings as exceeding the height limit prescribed in Section 8(c) and Section 9-A of the zoning resolution, since that portion of the building lying more than 100 ft. south of 31st Road must be treated as if it fronted on a 60 ft. street; and

WHEREAS, the applicant contends that the proposed setback of the building from the property line will be sufficient to permit the proposed height of six stories in a $\frac{3}{4}$ height district were it not for the fact that the property lies within two miles of a designated airport; that despite the fact that the property is within two miles of a designated air-

port the full six story height for the entire building would be permitted if 140th street were 80 ft. in width instead of 60 ft.; that 140th street is the only one of the four streets bounding the block in question which is not 80 ft. in width; that the balance of the block, consisting of Lot 50, will be improved with a similar type of development consisting of six story, elevator apartment buildings; that to the north and northwest of the site in question Mitchell Gardens and Linden Hill developments are located, all of which are six stories in height; that the portion of the plot to which the objection of the borough superintendent applies, due to the width of the street, is actually farther from the airport than the portions of the plot to which no objection has been raised because of the greater width of the streets upon which such portions front; and

WHEREAS, the applicant states that the premises were originally zoned unrestricted in 1916 and changed to residence use on August 13, 1938; that the height district designation was One Times in 1916 and on March 30, 1940 the portion of the property north of 31st Road was changed to a $\frac{1}{2}$ times height district and on January 22, 1951, that portion was changed to a Class $\frac{3}{4}$ district, and on July 17, 1952, the Class $\frac{3}{4}$ district was expanded to include the entire property in question, and that as of 1916 the property was in a D area district until March 30, 1940, when it was changed to an E area district; and

WHEREAS, the records indicate that the proposed apartment house located on an 80 ft. street and a 60 ft. street, has a section on the 60 ft. street which does not comply with the requirements, although the section on the 80 ft. street is nearer to the airport, a distance of $1\frac{1}{2}$ miles; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 9A of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the height district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 9A, to permit the portion of the building to be of the height proposed, as indicated on plans filed with this application, marked "Received October 18, 1956", 14 sheets, "November 2, 1956", 1 sheet, and "November 9, 1956", 5 sheets, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

Adjourned: 3:25 P. M.

JOSEPH J. DOYLE, *Chief Clerk*.

REPORT OF COMMITTEE ON TEST

Re: Cal. 1105-48-SA

Subject. Amendment to resolution as to additional trade name.

Automatic Burner Corp., Chicago, Illinois, requested by letter dated May 24, 1956, that the resolution adopted May 3, 1949 and amended through December 14, 1954 under Cal. No. 1105-48-SA be amended so as to permit the ABC Oil Burner, Model 52A to be marketed under the trade name of U. S. Solar Flame Oil Burner Model 52A. The application was reopened by a vote of the Board July 17, 1956.

Description

The model 52A was approved by the Board under Cal. No. 1105-48-SA on May 3, 1949.

Recommendation

The Committee on Test recommends that the resolution adopted May 3, 1949 and as amended through December 14, 1954 under Cal. No. 1105-48-SA be amended so as to permit the ABC Oil Burner Model 52A to be marketed under the following trade names; including those previously approved under Cal. No. 1105-48-SA; Cities Service Oil Burner Model CS 52A, Luxaire Oil Burner Model 52A, Moncrief Oil Burner Model 52A, Kalamazoo Oil Burner Model 52A, Meyer Oil Burner Model 52A, Dowagiac Oil Burner Model 52A, Comforts Zone Oil Burner Model 52A, Solar Flame Oil Burner Model 2, Liebhich Oil Burner 2L6 and Pacific Steel Boiler #6 Oil Burner and Fitzgibbons Oil Burner Model 52A, Kleen-Heet Oil Burner Model 77A, Norge Oil Burner Model COB-12, Burnham Oil Burner Model 52A, International Economy Oil Burner, Silent Automatic Models OCE-14; OCE-25 and OCE-35, Crane Line Oil Burner Models 4872, 4888, 7872, 7888, 4460, 4464, 4466, 4467, 4468, 4472, and 4888. Jackson and Church Poweroil Model JC-52A and the Armstrong Oil Burner Model D-6-1 and C-6-2 and Silent Automatic Oil Burner Models 14-COA, 25-COA, 35-COA and the National U. S. Burner, Model 52A, 52AF-H2-4437 and 52AF-G1-4436 and by the National-U. S. Radiator Corp. under the trade name of U. S. Solar Flame Oil Burner Model 52A, on condition that the requirements of the resolution adopted May 3, 1949 under Cal. No. 1105-48-SA be complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,

GEORGE F. SKLENARIK,

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 72-52-SA

Subject: Amendment to resolution as to additional models and sizes of Todd Oil Burners.

Todd Shipyard Corp. (Products Division) New York requested by letter dated August 2, 1955 that the resolution adopted November 4, 1953 be amended to include additional models and sizes of Todd Oil Burners. The application was reopened by a vote of the Board October 4, 1955.

Purpose

The appliances are oil burners for firing low or high pressure boilers.

Description

The burner unit consists primarily of an atomizer spinning cup, driven in conjunction with a fan, at 3500 R.P.M., from a 1750 R.P.M. electric motor, or at 3500 R.P.M. from a 3500 R.P.M. electric motor by "V" belts. Oil is drawn from the storage tank by a pump, which is an integral part of Models "BPMAH", "BPAH", "BPAM" and "BPA" burner assemblies. Models "BAH", "BA" and "B" are furnished with approved type remote pumps. Part of the oil is delivered into a cylindrical atomizing cup from which it is discharged centrifugally and part of the oil is returned to the suction line or direct to the fuel oil storage tank. The oil flows into and spreads over the inside of the atomizing cup and reaching the end is thrown off at a right angle as a thin sheet of oil. Primary air delivered by the fan assists in the atomization of the oil and is uniformly directed at this thin sheet of oil breaking it down into finely atomized particles which is ignited by a gas-electric ignition assembly. Additional air known as secondary air is supplied as required directly underneath the fire by a standard secondary air door or through openings in the checkerwork floor by a special air door, the draft being created by the stack.

In the event of ignition failure or flame extinguishment while there is a demand for heat, the safety combustion control operates to shut-off the burner, which then cannot be started without manually operating the reset button on the control assembly.

The burner is manufactured in seven (7) models, "BPMAH", "BPAH", "BPAM", "BAH", "BPA", "BA" and "B" and eight (8) sizes, Nos. "12", "22", "35", "50", "75", "100", "150" and "200". The various sizes indicates the maximum capacity range in G.P.H. All sizes are essentially the same design and differ only in the size of some of the parts. The following table illustrates the basic differences between the various models:

"BPMAH"—Belt drive, integral pump, metering unit, automatic operation, electric preheater—No. 6 oil

"BPAH"—Belt drive, integral pump, automatic operation, electric preheater—No. 6 oil

"BPAM"—Belt drive, integral pump, automatic operation, metering unit—No. 5 oil

"BAH"—Belt drive, automatic operation, electric preheater, approved type remote pump—No. 6 oil

"BPA"—Belt drive, integral pump, automatic operation—No. 5 oil

"BA"—Belt drive automatic operation, approved type remote pump—No. 5 oil

"B"—Belt drive, manual operation, No. 5 oil (or) No. 6 oil with approved type remote pump and preheater

Size "12" has a capacity range between 3 gallons and 12 gallons per hour, and is equipped with a 1½ H.P. motor. Size "22" has a capacity range between 5 gallons and 22 gallons per hour and is equipped with a ¾ H.P. motor. Size "35" has a capacity range between 7 gallons and 35 gallons per hour and is equipped with a 1 H.P. motor. Size "50" has a capacity range between 10 gallons and 50 gallons per hour and is equipped with a 1½ H.P. motor. Size "75" has a capacity range between 15 gallons and 75 gallons per

MINUTES

hour and is equipped with a 3 H.P. motor. Size "100" has a capacity range between 20 gallons and 100 gallons per hour and is equipped with a 5 H.P. motor. Size "150" has a capacity range between 30 gallons and 150 gallons per hour and is equipped with a 7½ H.P. motor. Size "200" has a capacity range between 40 gallons and 200 gallons per hour and is equipped with a 10 H.P. motor.

Model "B" is designed for manual operation to burn either No. 4, 5 or 6 fuel oil.

All models except Model "B" will be completely assembled at the factory in units consisting essentially of a burner unit, strainer, safety combustion control, low voltage modutrol control and magnetic type motor starter of Underwriters Laboratories' listing. The "BPMAH", "BPAH" and "BAH" burners consist of the above and in addition, are equipped with an Underwriters Laboratories' listed electric preheater mounted as part of the burner assembly. The preheater is provided with a thermostat and contactor to control the supply of electrical power and also prevents operation of the burner if the oil is not heated to a proper temperature.

Model "BPMAH" may also be assembled for forced draft, as a complete package firing unit, for firing industrial fuel oils of the Commercial Standard No. 6, or lighter grades. This will consist essentially of a "TODD" Rotary Fuel Oil Burner (belt drive), assembled with a forced draft fan, burner windbox, refractory combustion throat, structural support frame, strainers and front plate, with all wiring, piping and valves assembled and tested. This model burner includes electronic safety combustion control, air flow safety control, separate high limit and operating controls, and motor controllers.

Proper air-fuel ratio is maintained at all firing rates by positive displacement metering pump linked to primary and secondary air volume regulators. Burner modulates through range of five to one input ratio and always starts at minimum firing rate.

The controls consist of a four (4) prong polarized plug (Underwriters Laboratories' listing) wired in series with the magnetic oil valve circuit and burner motor circuit. The twist lock plug connector is mounted on the burner front plate so that the burner has to be closed to complete the circuit and contact is immediately broken should the burner be swung out of the furnace before the oil is shut-off. An Asco or General Control magnetic oil valve is installed in the pump discharge line which provides a means of shutting off the oil supply to the burner when the circuit is broken. The gas-electric ignition consists of a Minneapolis Honeywell or General Control gas valve, Underwriters Laboratories' listed 5000 volt interchangeable ignition transformer and electrode.

Safety Combustion Controls:

Each burner is equipped or provided with, one of the following controls or control systems, except Model "B", which is a manually operating type burner:

Underwriters Laboratories' listed CCC 26RJ8 program control with 48 PT-1 flame scanner or Minneapolis-Honeywell R-178 protectorelay with Minneapolis-Honeywell C-7003 photocell or Minneapolis-Honeywell R-161 protectorelay with combustion control F-18-T or Minneapolis-Honeywell stack-switch C-403 with Minneapolis-Honeywell protectorelay R-161-B.

Inspection Test

Details of the units were examined by Asst. Engr. J. A. Darts Committee on Test.

The additional models have been approved by the Underwriters Laboratories under Misc Petroleum 589 application No. 55K-930.

Recommendation

The Committee on Test recommends that the resolution adopted November 4, 1953 under Cal No. 72-52-SA be amended so as to include the following oil burners BPMAH, BPAH, BPAM, BAH, BPA, BA and B with fuel oils as herein described when constructed as herein described on

condition that the requirements of the resolution adopted November 4, 1953 under Cal. 72-52-SA be complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,

GEORGE F. SKLENARIK,

Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of November 4, 1953 in accordance with the above report.

389-52-SM—Vol. II

APPLICANT—Tectum Corporation, owner.

SUBJECT—Application for consideration—reopened January 4, 1955 for amendment to consider additional roof plank and tile, Models P-200, P-250, P-300, T-200-32, T-250-32, T-300-32 and T-300-48—re Tectum Roof Plank (incombustible) Models A-2 and A-3; previously approved.

APPEARANCES—

For Applicant: E. J. Jateczak.

ACTION OF BOARD—Resolution amended in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

Re: Cal. 389-52-SM—Vol. II

Subject: Application reopened for amendment to consider additional roof plank and tile.

Harold Perrine, agent, for Tectum Division Alliance Manufacturing Co., Newark, Ohio, owner, filed December 13, 1954 an application with the Board of Standards and Appeals for consideration as to reopening as Vol. II for additional Tectum Roof Plank and Tile models P-200, P-250, P-300, T-200-24, T-200-32, T-250-32, T-300-32, T-300-48. The application was reopened as Vol. II January 4, 1955 for test and report.

Purpose

The material is to be used as an incombustible roof deck, the individual plank to be installed as a simple beam.

Description

Tectum Roof Plank and Tile models P-200, P-250, P-300, T-200-24, T-200-32, T-250-32, T-300-30, T-300-48 are identical in composition to Tectum Roof Plank models 2A and 3A previously approved by the Board under Cal. No. 389-52 SM.

The dimensions of the slabs are 29 inches in width, various lengths and 2, 2½ and 3 inches in thickness. The long dimension is tongue and grooved.

Roof plank is used for short span application on joists or purlins and is installed at right angles to such roof members. Roof tile is used for long span application on bulb-tee sub-purlins and is installed parallel to roof framing members.

The weights of the slabs are 4¼ lbs./sq. ft. for the 2 inch slab, 5¼ lbs./sq. ft. for the 2½ inch slab and 6¼ lbs./sq. ft. for the 3 inch slab.

Inspection and Test

Samples of the board were selected at random from stock at the plant of the applicant. Specimens of 2, 2½ and 3 inch thickness were selected.

The samples were subject to load tests which were conducted in accordance with the requirements of C-26-626.0 Administrative Building Code. The tests were conducted at Manhattan College in the presence of Asst. Engr. G. F.

MINUTES

Sklenarik Committee on Test and Harold Perrine and E. J. Jatzak representing the applicant.

Results were:
2" thick slab—29" wide by 36" long (center to center with 1" bearing on each side).
Area = 7.25 sq. ft.—Load 1300 lbs.
Load in lbs./sq. ft. = $1300 \div 7.25 = 179$.
Safe carrying capacity in accordance with C-26.626.0 = $179 \div 4 = 45$ lbs.
2½" thick slab—29" wide by 42" long (center to center with 1" bearing on each side).
Area = 8.45 sq. ft.—Load = 1660 lbs.
Load in lbs./sq. ft. $1660 \div 8.45 = 196$ lbs.
Safe carrying capacity in accordance with C-26.626.0 = $196 \div 4 = 49$ lbs.
3" thick slab—29" wide by 48" long (center to center with 1" bearing on each side).
Area = 9.67 sq. ft.—Load 1783 lbs.
Load in lbs./sq. ft. = $1783 \div 9.67 = 183$ lbs.
Safe carrying capacity in accordance with C-26-626.0 = $183 \div 4 = 46$ lbs.

Recommendation

On the basis of the inspection and test and the data filed by the applicant the Committee on Test recommends the approval of Tectum Roof Plank and Tile models P-200, P250, P300, T-200-24, T-200-32, T-250-32, T-300-32 and T-300-48 for use as simple spans under C26-191-0 for use as an incombustible material which, however, shall not include the use of this material as a wall, floor or roof system, where a fire resistive rating is required. Approval is also recommended for use of this material in Class I and Class II construction under C-26-619.0 where protective covering is proposed to be omitted from trusses, beams and sub-purlins where a clear height of, at least 20 ft. exists below the lower chord of the trusses for roof loads of 40 lbs/sq. ft as provided in C-26-348.0 provided no fire resistive rating is required of such roofs.

The Committee recommends the following loads for the following thicknesses and spans. Spans measured center to center.

Thickness	Load (including wts of slab)	Span
2 "	45 lbs	36"
2½"	49 lbs	42"
3 "	46 lbs	48"

and provided further that all erection work shall be under the supervision of the applicant and each bill of lading pertaining to this roof plank and tile shall carry a stamp reading, "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 389-52 SM Vol. II."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,

GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of October 21, 1952 in accordance with the above report.

57-54-SA

APPLICANT—Calray Distributors Inc., Agent for Hastings Air Conditioning Co., Inc., owner.

SUBJECT—Application January 25, 1954—Hastings Heatwell Round Head Conversion Burner, Models MXO-10 and MXO-13 (gas-fired), approval of.

APPEARANCES—

For Applicant: Felix M. Roth.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 57-54-SA

Subject: Hastings Heatwell Round Head Conversion Burner, Models MXO-10 and MXO-13, (gas fired).

Calray Distributors Inc., New York, agent for Hastings Air Conditioning Co., Hastings, Nebraska, owner-manufacturer, filed January 25, 1954 an application with the Board of Standards and Appeals for approval of the Hastings Heatwell Round Head Conversion Burner, Models MXO-10 and MXO-13 under the provisions of Article 12 Administrative Building Code.

Purpose

Gas burners designed for installation in existing heating systems.

Description

The Hastings Heatwell Round Head Conversion Burners are produced in two sizes designated as models MXO-10 and MXO-13. The former has a minimum input rating of 60,000 Btu with natural gas and the latter 90,000 Btu with the same fuel.

The burners consist of a round cast iron burner head which is adjustable by means of a telescoping burner tube so that it may be centered in the firebox. Burner ports are a series of slots formed in the cast iron ring of the head which provide an essentially horizontal flame distributed around the combustion chamber.

A squirrel cage blower supplies air for combustion. A damper provides for adjustment of air volume. A delayed action pressure switch will delay the start of the blower until the burner has been lighted. Ignition is by pilot light.

If the pilot light should become extinguished or if the blower fan should fail, the gas supply will automatically be cut off.

Inspection and Test

All data submitted by the applicant were examined at the offices of this Board by Ass't Engr. G. F. Sklenarik, Committee on Test. The models MXO-10 and MXO-13 are approved by the American Gas Association under certificates 20-213.101-1 and 20-213-1.101-1.

Recommendation

On the basis of the data submitted, the Committee on Test recommends the approval of the Hastings Heatwell Round Head Conversion Burners models MXO-10 and MXO-13 for use in New York City when installed in accordance with this report and the provisions of Article 12 Administrative Building Code and provided that each appliance will bear a label, permanently affixed, reading as follows "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 57-54-SA."

All ports and orifices to be maintained for the type of gas used.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,

GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

John Wood Company, Bennett Pump Division, Muskegon, Mich., owner-manufacturer, filed November 8, 1954 an application with the Board of Standards and Appeals for approval of the Bennett Pumping Unit, Model 70 and Bennett Island Dispensers Models 952, 953, 962, 963, 972, 973, 982, 983, 748RC and 749RC, under the provisions of C-19-69.c Administrative Code.

Purpose

Appliances for pumping and dispensing motor fuel.

Description

The Bennett Pumping Unit, Model 70, is a submerged type centrifugal pump to be installed in underground storage tanks and for use with remote dispensing units. The pump is assembled with an explosion proof $\frac{3}{4}$ h.p. motor, sealed in oil, and a three stage centrifugal pump. Pump and motor are combined in a single unit which is submerged in the storage tank through a suitable threaded opening.

An explosion proof electrical junction box is located above the discharge head on top of the pump. It is secured to a seamless metal conduit which serves to carry the wires to the pump motor. The junction box and discharge head are kept accessible by constructing a reinforced concrete manhole, extending from storage tank level to ground level, around each model 70 pump installed. The space below the junction box is then filled with clean sand.

The discharge head contains a line check valve with a built in relief valve to protect the dispensers, discharge lines and discharge head from abnormal pressures due to temperature rise of liquid content.

Air and vapor separation is provided for through a nipple connecting discharge head to storage tank.

A control box of heavy gage steel containing the starter with over load protection and cut out relay is provided for each installation. Such control box is installed in the service station building.

The model 70 pump is approved by the Underwriters' Laboratories under file MH 6022.

The Bennett Island Dispensers are intended for use with the model 70 pump or other approved remotely installed pumps. They are made of pressed steel with bonderized surfaces and finished in a high-bake, glossy enamel. A four cylinder displacement type meter is used in all models. All models have hoses 12 feet 6 inches in length, $\frac{3}{4}$ inch diameter, equipped with standard nozzles that cannot be locked in the open position. All dispensers are equipped with an Underwriters' approved safety valve which prevents creating pressure in those dispensers not in use when the pumping system is in operation.

The model 952 dispenser computes both gallons delivered and the amount of the sale.

The model 953 dispenser computes only gallons delivered.

The hose on these two models is controlled by a weighted pulley.

The models 962 and 963 are similar to the 952 and 953 respectively except that the hoses are controlled by means of a cable and weight.

The models 972, 973, 982 and 983 are similar to the above series except that they are twin units. The 972 is a twin computer type for single product delivery, the 973 is a twin non-computer type for single product delivery. The 982 is a twin-computer type for two product delivery. The 983 is a twin non-computer type for two product delivery.

The 748RC and 749RC are of the same basic design but have housings especially made for the Gulf Oil Co.

Inspection and Test

All data submitted by the applicant were examined at the offices of the Board by Ass't Engr. G. F. Sklenarik, Committee on Test.

Recommendations

On the basis of the data submitted by the applicant the Committee on Test recommends the approval of the Bennett Model 70 Pump for service station use only and the Bennett Island Dispensers Models 952, 953, 962, 963, 972, 973, 982, 983, 748RC and 749RC, when installed in accordance with this report and under the provisions of section C-19-69.C Administrative Code and provided that all electrical work will be in accordance with the Electrical Code of the City of New York and that each appliance will bear a label, permanently affixed, reading "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 862-54 SA".

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,

GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this appliance in accordance with the above report.

317-55-SA

APPLICANT—Almo Laboratories Co., Inc., owner.

SUBJECT—Application April 14, 1955—Rinsrator, Model R-3 (for injecting wetting agent into final 130° sterilizing rinse water in dishwashers), approval of.

APPEARANCES—

For Applicant: Otto W. Jaeger, Jr.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 317-55-SA

Subject: Rinsrator, Model R-3 (for injecting wetting agent into final sterilizing rinse water).

Almo Laboratories Co. Inc. New York filed April 14, 1955, an application with the Board of Standards and Appeals for approval of the appliance known as Rinsrator (Model R-3 Injector Unit) under the provisions of the Submerged Inlet Rules of the Board.

Purpose

The purpose of the appliance is to inject a wetting agent into the final rinse water of a dishwashing machine to aid in the air drying of the dishes.

MINUTES

Description

The appliance consists of an ejector, needle valve, ball cock and Flowrator meter, all mounted in an aluminum block. The main stream is connected to the injector at the top of the block and as flow takes place a partial vacuum is produced at the nozzle and throat of the injector. This partial vacuum causes the reagent to flow up through the Flowrator meter, past the ball check valve and needle valve, through the horizontal passage in the block and into the ejector. Mixing of the reagent and the main stream takes place in the lower half or mixing chamber of the ejector. The needle valve permits manual adjustment of the reagent flow rate, the ball check valve prevents back flow of main stream into the reagent line during shut-down and the flowrator meter gives a continuous indication of reagent flow rate.

The appliance is installed on a dishwashing machine by taking part of the stream of water by means of a Mono-flow T to the top of the ejector connection and connecting the bottom of the ejector to another Mono-flow T at which point the flow with the reagent in it mixes with the main stream and from thence on into the final rinse spray nozzle of the machine.

In between the two Mono-flow T's is installed a pressure reducing valve to adjust the pressure coming out of the ejector to be greater than the pressure in the main stream flowing through the pressure reducing valve.

Inspection and Test

The appliance was inspected by Asst. Engr. J. A. Darts Committee on Test and was found to operate as designed.

Recommendation

On the basis of the inspection and the data filed by the applicant, the Committee on Test recommends the approval of the appliance known as Rinsrator, Model R-3 Injector Unit for voluntary use in New York City when constructed as herein described and when installed with an approved vacuum breaker and check valve as required under the Submerged Inlet Rules of the Board on condition that each appliance bears a label, permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 317-55-SA."

The Committee further recommends that the chemical used in the injector shall be a chemical approved by the Department of Health for the service intended.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,

GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

730-55-SA

APPLICANT—Synchronous Flame, Inc., owner.

SUBJECT—Application September 2, 1955—Syncro-Flame Combination Gas-Oil Burner, Models SF-10E, SF20E, SF30E, SF40E, SF60E, SF80E, SF100E and Models SF150, 300 and 400 for gas only, SF10EG, SF20EG, SF30EG, SF40EG, SF60EG, SF80EG, SF100EG, SF10EO, SF20EO, SF30EO, SF40EO, SF60EO, SF80EO, SF100EO, approval of.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal 730-55 SA

Subject: Syncro-Flame Combination Gas Oil Burner, Models SF 10E, 20E, 30E, 40E, 60E, 80E, 100E; Gas Burner Models SF 10EG, 20EG, 30EG, 40EG, 60EG, 80EG, 100EG, SF150, 300, 400 and Oil Burner Models SF10EO, 20EO, 30EO, 40EO, 60EO, 80EO, 100EO.

Synchronous Flame Inc., of Walworth, Wisconsin, owner-manufacturer, filed September 2, 1955 an application with the Board of Standards and Appeals for approval of the Syncro-Flame combination gas-oil burners models SF 10E, 20E, 30E, 40E, 60E, 80E, 100E; gas burner models SF 10EG, 20EG, 30EG, 40EG, 60EG, 80EG, 100EG, SF150, 300, 400, oil burner models SF10EO, 20EO, 30EO, 40EO, 60EO, 80EO, 100EO, under the provisions of Article 12, Administrative Building Code; section C-19-57.0 Administrative Code and the Oil Burner Rules of the Board.

Purpose

Gas, oil and combination gas-oil burners for residential, commercial and industrial heating installations.

Description

The SF-E models are a series of gun type burners designed for burning either gas or fuel oil. Their capacities vary from a minimum of .075 gallon of oil per hour and 100,000 Btu per hour on gas fuel for the SF10E to a maximum of 33 gallons of oil per hour and 4,600,000 Btu per hour on gas fuel for the SF 100E. They are so designed that only one fuel can be burned at a time.

Oil is burned through a pressure atomizing nozzle which is concentrically installed in the shell head of the unit. Gas is burned through a jet type burner placed above the oil burner nozzle. In each case fan air is provided for combustion and primary and secondary air are adjustable to the fuel being burned.

When firing on gas, ignition is provided by a pilot gas flame. The pilot gas is ignited by two electrodes across which a strong spark of electricity plays continuously during operation. When the pilot flame is ignited it contacts a flame rod which is installed as a safety control. This permits a current to flow that actuates a relay and causes the main gas valve to open and the fuel to burn. If the pilot gas should fail to ignite or should burn with a very short flame that would not contact the flame rod, the main fuel valve will not open and in that case the burner fan will continue to operate for 45 seconds and then shut down. To restart the burner after such a shut down it is then necessary to trip the reset lever on the relay, a Minneapolis-Honeywell RA 89OB, allowing about one minute from the time the motor stopped.

Gas is supplied to the burners at pressures of 2½ to 4 inches water column.

When oil is burned, ignition is provided by two electrodes producing an arc in the path of the main oil spray. A photo electric cell, installed as a safety control for oil burning, is located where it can scan the oil flame, and it performs the same function on oil operation that the flame rod does on gas operation. If the oil spray does not ignite, the RA 89OB relay will shut off the fan and oil pump. Again the burner may be restarted after one minute by tripping the reset lever on the relay.

The burners are designed for #2 fuel oil.

Flame failure on either fuel will cause automatic shut down of fuel supply.

Change over from one fuel to the other will be by manual control.

The SF 10 EG through SF 100 EG are gas burners only and are similar in design and operation to the gas burners installed in the SF-E combination series. The SF 150, 300,

MINUTES

and 400 series are conversion gas burners with a range of from 75,000 to 400,000 Btu input.

The SF10EO through SF100EO models are oil burners only and are similar in design and operation to the oil burners installed in the SF-E combination series.

An automatic 20 second prepurge operation is provided on the SF10E through SF40E combination burners when on oil fire, whereby the blower fan starts and operates for 20 seconds prior to ignition of the fuel oil. Prepurge and post purge operation of 20 seconds duration is provided on the SF60E through SF100E combination burners for both fuels and on the SF60EG through SF100EG gas burners.

The SF 60E through SF 100E and the SF40EO through SF 100EO are designed for two stage oil burning operation. This provides for a low fire start establishing combustion and draft at a level well under the capacity of the furnace or boiler and then introducing the full capacity into a hot combustion chamber with established draft.

Two stage gas firing is standard on the SF 100E combination burner and in the SF100EG gas burner.

Inspection and Test

A combination burner, SF60E, was inspected at 62 Hope Street, Brooklyn. Present were Ass't Engr. G. F. Sklenarik of the Committee on Test and Mr. Wierum of the Brooklyn Union Gas Company. The burner was constructed and equipped as described in this report. It was installed with limit controls, a pressurestat and aquastat, actuated by a hot water boiler. The burner functioned as designed.

The SF 150 gas series are AGA approved, all other series have been approved by the Underwriters' Laboratories.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant, the Committee on Test recommends the approval of Syncro-Flame Combination Gas-Oil Burners models SF10E, SF20E, SF30E, SF40E, SF60E, SF80E, SF100E, Gas Burners models SF10EG, SF20EG, SF30EG, SF40EG, SF60EG, SF80EG, SF100EG and SF150, SF300, SF400, Oil Burners, Models SF10EO, SF20EO, SF30EO, SF40EO, SF60EO, SF80EO, SF100EO, for use in New York City in residential commercial or industrial installations when installed in accordance with this report and in accordance with the provisions of Article 12 Administrative Building Code and the Oil Burner Rules of the Board; and provided that all electrical work will be in accordance with the Electrical Code of the City of New York and further provided that each burner will bear a label, permanently affixed, reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 730-55 SA".

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 740-55-SA

Subject: Universal Insulated Console Type Domestic Gas Ranges, Various Models.

G. W. Kamin for Cribbin and Sexton Co., filed August 1, 1955 an application with the Board of Standards and Appeals for approval of the Universal Insulated Console Type Domestic Gas Ranges, various models, under the provisions of C26-695.0 Administrative Building Code and for use under Section 64 of the Multiple Dwelling Law.

Purpose

The appliances are gas fired ovens used for cooking purposes.

Description

The ranges are designed for domestic use and the model designation refers primarily to styling, location of burners, size of range and the insertion, if any, of automatic timers.

Inspection and Test

The appliances have been approved by the American Gas Association under Cert 1-(1032.0, — 1.0, — 6.0-9.0)001, 1-(01032 — 2.0, — 1.0 — 6.0 — 9.0)001, 1-(1032.1, — 1.1) .001. The details of construction were examined by Asst. Engr. J. A. Darts Committee on Test.

Recommendation

As the wording of Section 64 as amended by Int. 1142 of the Multiple Dwelling Law reads in part as follows: "All automatically controlled gas appliances shall be equipped with a device which shall shut-off automatically the gas supply when the pilot light or other constantly burning flame in such appliance is extinguished" and as the American Standard for the Installation of Gas Piping and Gas Appliances in Building approved by ASA and sponsored by the AGA 1954 gives the following definitions:

1. Appliance—automatically controlled, appliances equipped with an automatic pilot and other automatic devices which

(a) accomplish complete turn-on and shut-off of the gas to the main burner or burners.

(b) graduate the gas supply to the burner or burners, but do not affect complete shut-off of the gas.

2. Automatic Ignition—automatic ignition shall be interpreted as means which provide for ignition of the gas at a burner when the gas burner valve controlling the gas to that burner is turned on and will effect re-ignition if the flames on the burner have been extinguished by means other than closing the gas burner valve.

3. Thermostat—an automatic devices actuated by temperature changes; designed to control the gas supply to a burner or burners in order to maintain temperatures between predetermined limits; the Committee on Test recommends as follows: The models 7905, 7906, 8018, 8019, 8020, 8022, 8023, 8204, 8205, 8304, 9116, 9117, 9118, 9123, 9124, 9304, 9305, 7909, 8029, 8030, 8035, 8206, 8307, 9127, 9130, 9131, 9132 and 9309 shall be constructed with an approved device which shall shut-off automatically the gas supply when the pilot light or other constantly burning flame is extinguished as the above models are considered to be an automatically controlled gas appliance under the definitions as herein set forth and the requirements of Section 64 Multiple Dwelling Law, all installations shall be in accordance with the requirements of C26-695.0.2a Administrative Building Code as the above models have been approved by a recognized testing laboratory and all installations shall comply with Section 64 of the Multiple Dwelling Law.

MINUTES

The Committee further recommends that all appliances bear a label permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 740-55-SA" and in addition thereto shall also indicate the model designation and the additional wording "Equipped with Approved automatic shut-off."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

32-56-SM

APPLICANT—Philan, Inc., for Columbus Coated Fabrics Corp., owner.

SUBJECT—Application January 3, 1956—Guard Vinyl Wall Covering, approval of.

APPEARANCES—

For Applicant: A. Albert Cooper.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 32-56-SM

Subject: Guard Vinyl Wall Covering.

Philan Inc. for Columbus Coated Fabrics Corp. Columbus Ohio, filed January 3, 1956 an application with the Board of Standards and Appeals for approval of the material known as Guard Vinyl Wall Covering under the provisions of C26-667.0.7.b Administrative Building Code.

Purpose

The material is to be used as a veneering material when placed upon an incombustible backing.

Description

The material is basically a woven cotton fabric and having a vinyl film bonded to one face of the fabric. The gauge of the material is 14.5 gauge.

Inspection and Test

The material was tested at the office of the Board by Asst. Engr. J. A. Darts Committee on Test and was found to comply as to thickness. The material will burn, in itself, when not applied to an incombustible backing.

Recommendation

On the basis of the inspection of test and the data filed by the applicant, the Committee on Test recommends the approval of the material known as Guard Vinyl Wall Covering 14.5 gauge for use as a veneering material under the provisions of C26-667.0.7.b Administrative Building Code on condition that each container or wrapper in which this material is marketed shall be stamped or labeled "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 32-56-SM."

The Committee further recommends that this material shall not be used in public halls of multiple dwellings as

prohibited under Sections 101, 142, 146, 148 and 149 of the Multiple Dwelling Law.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

52-56-SA

APPLICANT—Acme National Sales Company, Inc., owner.
SUBJECT—Application for consideration—reopened July 17, 1956 for amendment to resolution as to additional gas range Model RO-5G—re Acme Refrigerator-Range (gas fired), Model RG5F; previously approved.

APPEARANCES—

For Applicant: Irving Horowitz.

ACTION OF BOARD—Resolution amended in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

RE: Cal. 52-56-SA

Subject: Amendment to resolution as to additional gas range model RO5G.

Acme-National Sales Company, Inc., New York requested that the resolution adopted June 19, 1956 be amended to include the additional Model RO5G Refrigerator-Range. The application was reopened by a vote of the Board July 17, 1956.

Description

The Model RO5G is a combination sink, four burner range, oven-broiler and small refrigerator. It differs from the Models RG5F and RGS4AF previously approved by the Board in that an oven-broiler section has been added.

The Model RO5G, equipped with a top pilot light has been approved by the American Gas Association under Certificates 1-(976.1 and .11) .001 and (976.01 and -1.11) .001.

Recommendation

The Committee on Test recommends that the resolution adopted June 19, 1956 be amended to include the Model RO5G Refrigerator-Range on condition that the requirements of the resolution adopted June 19, 1956 under Cal. No. 52-56-SA be complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of June 19, 1956 in accordance with the above report.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 208-56-SM

Subject: Coralux Acoustical Plaster.

Wm. A. Burr for Coralux Corp. of New Jersey, filed February 20, 1956, an application with the Board of Standards and Appeals for approval of the material known as Coralux Acoustical Plaster under the provisions of C26-88.0 and C26-191.0 Administrative Building Code.

Purpose

The material is to be used as an acoustical plaster for noise reduction.

Description

The material is made of clay binder, asbestos fibers and expanded coralux Perlite Aggregate (Approved by the Board under Cal. 17-51-SM).

In application, the acoustical plaster is applied in two coats, each $\frac{1}{4}$ of an inch in thickness, over a scratch and brown coat of either portland cement or gypsum base plaster.

Inspection and Test

The manufacture of the material was inspected by Asst. Engr. J. A. Darts Committee on Test at the plant of the applicant located in Metuchen, New Jersey. Tests were conducted on samples of the material and it was found to comply with the requirements of C26-88.0 Administrative Building Code.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Tests recommends the approval of the material known as Coralux Acoustical Plaster for voluntary use in New York City as an incombustible acoustical plaster as having met the requirements of C26-88.0 Administrative Building Code on condition that each bag in which the material is to be marketed shall be marked or labeled "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 208-56-SM."

The Committee further recommends that this material shall not be used in lieu of the required plaster.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,

GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

For Applicant: Leonard F. Rothkrug.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and time to complete work extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board on July 24, 1956, on certain conditions; and

WHEREAS, the applicant requested an extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on July 24, 1956, only

as to the time within which to obtain permits and complete the work, so that as amended this portion of the resolution shall read:

"that all permits required and a new certificate of occupancy shall be obtained and all work completed within two months from the date of this amended resolution." (Alt. App. 1000/53)

965-54-A

APPLICANT—William J. Griffin and John J. Carroll, for Vito Cosentino, owner.

SUBJECT—Application December 21, 1954—Appeal from a decision of the borough superintendent—re egress.

PREMISES AFFECTED—4609 8th avenue, east side, 60 ft. 2 in. south of 46th street, Block 760, Lot 5, Borough of Brooklyn.

APPEARANCES—

For Applicant: William J. Griffin and John J. Carroll.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated November 22, 1954, on Alt. App. 5130/53, reads:

"1. Provide at least two exits from the cellar enclosed in fireproof partitions and leading to the street as required by the Labor Law, Sect. 270."

and

WHEREAS, the applicant states the building is one story, 15 ft. in height, 40 ft. front by 90 ft. in depth, of class 3 construction, erected 1927, located on a lot 40 ft. front by 100 ft. in depth, in a business use, D area, Class 1 height district, and used and occupied since April, 1954; cellar—boiler room, no persons; 1st floor—spraying and finishing of novelty jewelry, 30 persons; and

WHEREAS, Certificate of Occupancy #1127949 was issued July 2, 1945, against N. B. App. 14060/26 permitting the following use and occupancy: cellar—boiler room, number of persons not stated; 1st floor—manufacturing infants wear, 22 persons; and

WHEREAS, the applicant states the building was erected under N. B. App. 14060/26, one story in height, 40 ft. by 90 ft. in area, with a cellar 37 ft. by 38 ft. in area, and used as a general market under Certificate of Occupancy #43611, that subsequently Certificate of Occupancy #112749 was issued in 1945 upon special report permitting the cellar to be used as a boiler room and the first floor for manufacturing infants wear; that the building was purchased by the present owner in March, 1954, and one month later transferred his business of spraying and finishing of novelty jewelry to these premises; that Alt. App. 5130/53 was filed to legalize the existing occupancy; and

WHEREAS, the applicant states that the existing exit from the cellar is to the sidewalk; and

WHEREAS, the applicant contends that the cellar will not be used for human occupancy or for any manufacturing and will be used only as a boiler room and for housing of machinery in operating the equipment on the first floor; that it is proposed to provide an additional means of egress from the cellar to the street by means of a fireproof stairway enclosure and stairs.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. App. 5130/53, Objection No. 1, and that the appeal be and it hereby is granted, on condition that the two means of exit from the cellar shall be maintained, as indicated on plans filed with this appeal marked "Received December 21, 1954" (3 sheets); and that the cellar shall

MINUTES

have no human occupancy and be used only for mechanical equipment used in the operation of the building; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto.

132-55-A—Vol. II

APPLICANT—Leonard F. Rothkrug, for Polish Falcons Nest 265, Inc., new owner (Becker and Assael Sportswear, Inc., lessee of 2nd and 3rd floors).

SUBJECT—Application reopened October 23, 1956 as Vol. II—re Appeal from a decision of the borough superintendent—change of occupancy of 1st floor to restaurant, bar, cabaret, dance and loading platforms.

PREMISES AFFECTED—2236-2244 Pitkin avenue, south side, 25 ft. west of Hendrix street, Block 4010, Lots 21 and 23, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated August 29, 1956, on Alt. App. 110/54, reads:

"1. Occupancy of 1st floor as a restaurant, Bar, Cabaret, Dance and loading platform, does not agree with factory use as appd. by the B.S.&A., see Cal. #132-55-A."

and

WHEREAS, the applicant states the building is three stories 35 ft. in height, 25 ft. by 100 ft., irregular in area at first floor, 25 ft. by 90 ft. in area, at typical floor, of class 3 construction, erected 1922, located on a lot 75 ft. front by 100 ft., irregular, in area, in a business use, C area, class 1 height district, and used and occupied since 1924 as follows: cellar—storage, no persons; 1st floor—meeting room, now vacant, 175 persons; 2nd floor—manufacturing textile fabrics, 20 persons; 3rd floor—manufacturing textile fabrics, 25 persons; and now proposed to be used and occupied as follows: cellar—no change; 1st floor—catering, cabaret and meeting room, 175 persons; 2nd floor—manufacturing textile fabrics, 20 persons; 3rd floor—manufacturing textile fabrics, 25 persons. The building is provided with one interior 4 ft. wide stairs, one hour enclosed, equipped with fireproof self-closing doors and leading direct to street and provided with a ladder and scuttle to roof, and one fire escape on the rear extending to roof by ladder and to yard by stairs with access to street through front yard, window and door openings on the course of the fire escape are fireproof self-closing; and

WHEREAS, on June 5, 1956, under Cal. 132-55-A, Vol. I, the Board granted a variation of the requirements of the Labor Law as cited in Objection 1 issued by the borough superintendent February 14, 1955, on Alt. App. 110-54 to permit the continuance of the existing means of egress for the use of the entire building by one tenant for the manufacture of textile fabrics with a maximum occupancy of 25 persons on the third floor and 20 persons on each of the first and second floors, with the cellar used only for storage; and

WHEREAS, the applicant now states that the new owners, Polish Falcons Nest 265, Inc., is a fraternal organization and proposes to occupy the first floor of the building as indicated on revised plans marked "Received September 5, 1956", one sheet; that the new use will not be factory use and will not be in conjunction with any of the upper floors and the appeal does not affect the first floor in practical consideration; and

WHEREAS, the applicant states that it is proposed to comply in all respects with the resolution adopted by the Board June 5, 1956; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on June 5, 1956, by adding thereto:

"that in the event the new owner, Polish Falcons Nest 265, Inc., desires to change the occupancy of the first floor to restaurant, bar, cabaret, dancing, and loading platform, as acted on by the borough superintendent on August 29, 1956, under Alt. App. 110/54, such use may be permitted on the first floor, on condition that in all other respects the resolution above cited shall be complied with."

510-56-A

APPLICANT—L. Davidson, for Star Corrugated Box Co., Inc., owner.

SUBJECT—Application July 3, 1956—Appeal from a decision of the borough superintendent, re siamese connection-sprinkler system.

PREMISES AFFECTED—55-15 Grand avenue, north side, 259.2 ft. west of 57th street, Block 2610, Lot 336, Maspeth, Borough of Queens.

APPEARANCES—

For Applicant: L. Davidson.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated June 7, 1956 on Misc. App. 143/56, reads:

"1. Proposition shall be referred to the Board of Standards and Appeals for further consideration. Action on the existing sprinkler system heretofore permitted under Cal. 1221-38-A was based on conditions as then represented.

"In addition, the proposed sprinkler system shall be cross-connected by an 8 inch main to a suitable point on the existing 6 inch sprinkler feed main located at the rear section of structure in order to correct the following defects:

a—The existing 6 inch feed main at rear of structure is overloaded. C26-1355.O Adm. Code.

b—Each siamese connection shall service the entire sprinkler system within a single structure. C26-1350.O Adm. Code."

and

WHEREAS, the applicant states the building is two stories, cellar and penthouse, 35 ft. in height, 220 ft. by 560 and 570 ft. in depth, at street level, 220 by 560 ft. in depth at typical floor level, of fireproof construction, erected 1924, 1937 and 1948, located on a lot 288 ft. by 615 ft. in area, in an unrestricted use district, and used and occupied since 1925, 1938 and 1948 as follows; cellar—boiler room; 1st floor—garage for four trucks, one person; warehouse, 40 persons; 2nd floor—factory, 180 persons; and proposed to be used and occupied as follows: cellar boiler room, 3 persons; 1st floor—garage for four trucks, one person, warehouse, 7 persons, factory, 110 persons; 2nd floor—factory, 180 persons. The building is equipped with an approved standpipe system and approved fire alarm system and regular monthly fire drills are maintained; there are four interior 3 ft. 8 in. wide steel stairs with cement treads enclosed in 6 inch terra cotta blocks and in brick, equipped with fireproof self-closing doors; three stairs lead to roof bulkhead; stairs lead direct to street; and

MINUTES

WHEREAS, Certificate of Occupancy #Q30482 was issued by the borough superintendent February 17, 1944 against Alt. App. 1546/43, describing the building as of fireproof construction, commercial classification and permitting the following use and occupancy: cellar—boiler room, one person; 1st floor—storage of fibreboard in rolls and storage garage for four trucks, 30 persons; 2nd floor—manufacturing, 25 persons in accordance with variance granted by the Board under Cal. No. 831-42-A; and

WHEREAS, the applicant states that the warehouse being constructed under Alt. App. 2363/54 is completed except for the sprinkler installation which is now under way; that this warehouse will be used for the storage of kraft paper in rolls; that the sprinkler contractor filed plans for the sprinkler installation under Misc. App. 143/56 and the borough superintendent requires the new 8 inch water main for the new portion of the sprinkler system to be cross connected to the existing sprinkler line inside the existing building, and this appeal is made for waiving of the requirements of the borough superintendent; and

WHEREAS, the applicant contends that the existing sprinkler system has been installed and approved and is in continuous use; that the warehouse and a shipping building are being erected connected to the existing structure and according to the Code requirements a six inch supply main is all that is legally required to supply the new sprinkler heads; that the applicant, however, is voluntarily installing an 8 inch supply line from the City main and a fire hydrant in the yard for emergency use, in addition, a deluge system is being installed on the exterior walls to protect the plant against external hazards; that the requirement for a cross connection in the sprinkler system is a hardship in that the actual installation would interfere with working conditions in the plant in addition to the high cost of making such a connection; that the plant is inspected monthly by the Factory Insurance Association; that the insurer can see no advantage to be gained by cross connecting the new City water connection and the old City water connection at this plant; that except for a relatively small portion of the old plant at the rear of the first floor, the entire plant is of class one construction; that in the non-fireproof portion of the first floor there are a total of 323 heads on a six inch line feeding from the old 8 inch main; that the 44 heads on a 3½ inch line feed from the new 8 inch main and are located in a fully fireproofed area; that the existing sprinkler system was previously improved and the new system is to be installed according to the Code requirements; that the borough superintendent will approve the extension to the sprinkler system if the cross connection is installed; that this requirement is arbitrary and relief is requested so that the applicant can proceed to complete the sprinkler system without this cross-connection; and

WHEREAS, the applicant contends as to Objection #1A, that the existing six inch line is overloaded; that Section C26-1355.0 of the Administrative Code permits 275 heads, with 10% excess or 303 heads on this line; that there are 303 heads on the 1st floor and 323 on the second floor; that under Cal. No. 1221-38-A the Board approved this line for 326 heads; that in view of the practical difficulty, the interference with business and the high cost of the cross connection, and as such a connection would not be of any practical benefit, and as it is not a Code requirement, it is requested that the cross connection be waived; and

WHEREAS, the applicant contends as to Objection 1B, that the new buildings are separated from the old by firewalls equipped with self-closing fire doors; that there are two separate siamese connections; that the first eight inch main was installed in 1925, and the second eight inch main connection in 1956; that the 1956 8 inch main connection serves the new additions and no change has been made to the old sprinkler system; that the sprinkler heads comply with the Code requirements in the new buildings; and

WHEREAS, the applicant states that in computing the occupancy capacity of the second floor no allowance was made for the sprinkler installation; that the stairways have a capacity of 249 persons without any allowance for the

sprinkler system and the actual occupancy will be 180 persons on the second floor; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the decision of the borough superintendent, acting on Misc. App. 143/56, Objection No. 1, (a) & (b), be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the number of heads in each fire area shall be approximately as proposed and shown on plans filed with this appeal marked "Received October 25, 1956", (3 sheets); that the resolution adopted by the Board January 10, 1939, under Cal. #1221-38-A as amended by resolution adopted May 31, 1939, shall be complied with; that the sprinkler siamese of each sprinkler system shall be provided with a metal sign satisfactory to the Fire Commissioner, with letters not less than 2" in height, stating the section of the building served by such siamese; that the siamese serving the outside deluge system shall be similarly labeled to the satisfaction of the Fire Commissioner; that all siameses shall be painted or repainted green to the satisfaction of the Fire Commissioner; that the building shall not be further increased in height or area; that the protection of fire wall openings shall be as proposed and shown on such plans; that the existing fire alarm system and fire drills shall be maintained; that the resolutions adopted by the Board under Cal. Nos. 831-42-A, 1221-38-A, 523-49-A and 54-53-A shall be complied with and the building and occupancy shall comply with all laws, rules and regulations applicable thereto and a new certificate of occupancy shall be obtained.

604-55-A

APPLICANT—Max Horn, for George E. Cooke, owner (Arthur W. Maling, lessee).

SUBJECT—Application July 19, 1955—Appeal from a decision of the borough superintendent—re occupancy of one trailer for temporary residence of owner of lot—construction, height of floor—sanitary, etc.

ACTION OF BOARD—Laid over; date of hearing to be set after owner of premises has filed an administrative appeal as to exits.

434-16-BZ—Vol. IV

APPLICANT—Reginald S. Hardy, for Marjorie E. Hart, owner (J. J. Hart, Inc., lessee).

SUBJECT—Application for consideration—reopening for extension of time to complete which expired September 6, 1956—re Application (decision of the borough superintendent); previously granted on condition, under section 7f of the zoning resolution, permitting in a business and unrestricted use district, the proposed addition of garage for more than five motor vehicles to proposed occupancy granted by the Board. Proposed driveway on Bedford place is contrary to original and amended resolution of the Board.

PREMISES AFFECTED—1095-1107 Atlantic avenue and 14-36 Bedford place, northwest corner, Block 2021, Lot 20, Borough of Brooklyn.

APPEARANCES—

For Applicant: Reginald S. Hardy.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, this application was amended by the Board as Vol. IV, on March 6, 1956, on certain conditions; and WHEREAS, the applicant requested an extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on January 16, 1917, as thereafter amended by resolutions adopted through March 6, 1956 only as to the time within which to obtain permits and complete the work, so that as amended this portion of the resolution shall read:

"that in view of the statement by the applicant that all of the work has been done, that all permits required shall be obtained within six months from the date of this amended resolution." (Alt. App. 1927/47.)

1284-23-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Culver Garage Corp., owner.

SUBJECT—Application for consideration—reopening for extension of time to complete which expired November 1, 1956—re Application (decision of the borough superintendent); previously granted on condition, under sections 7i and 19A of the zoning resolution, permitting in a residence and business use district, the maintenance of a legal use of public garage, store and one family dwelling and permitting the continuance of present use of motor vehicles repairing and permitting the proposed opening in rear wall between buildings and permitting the loading and unloading space without the required height and width of door openings.

PREMISES AFFECTED—8222-8226 18th Avenue, west side, 70 ft. north of 84th street, Block 6314, Lot 72, Borough of Brooklyn.

APPEARANCES—

For Applicant: Reginald S. Hardy.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. II, on October 19, 1954, on certain conditions; and

WHEREAS, the resolution was amended on January 4, 1955 and November 9, 1955; and

WHEREAS, time to obtain permits and complete the work was extended from time to time and last extended on May 1, 1956; and

WHEREAS, the applicant requested a further extension of time to obtain a certificate of occupancy.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on October 19, 1954 only as to the time within which to obtain permits and complete the work, so that as amended this portion of the resolution shall read:

"that in view of the statement by the applicant that the work has been entirely completed and additional time is required to obtain a certificate of occupancy, that all permits required shall be obtained and all work completed within six months from the date of this amended resolution." (Alt. App. 3668/53.)

(Continued from page 1861)

variances. As originally and properly conceived, the City Planning Commission was given no similar legal authority and is not staffed to exercise it. The Commission's charter duties are exacting and have not been as fully executed as the needs of the City have required.

Further, any action by the City Planning Commission is dependent upon the approval of the Board of Estimate. It has been recommended that the Board of Estimate divest itself of the responsibility for making minor administrative decisions which unnecessarily occupy too great a portion of its time and effort.

Adoption of the amendments would result in confusion of policy making with administration, the establishment of arbitrary lines of demarcation based upon square footage, jurisdictional disputes and uncertainties, and needless duplication of activity and personnel. The responsibilities presently placed upon the City Planning Commission challenge its full capacity without adding the burden of administrative action on variances or exceptions.

The claimed benefits to be derived from the amendments would be questionable.

The Committee suggests that steps be taken to increase efficiency in granting variances within the existing administrative structures; an enlargement of the Board's engineering staff and physical facilities; acceleration of its procedures and more realistic compensation of personnel.

The Chamber believes that the proposed changes are inadvisable and unnecessary, and that the sought-after increase in efficiency can be attained within the present logical framework and by better cooperation between the City Planning Commission and a strengthened Board of Standards and Appeals.

THE BUILDING LAWS

NOW ON SALE

THE VARIOUS BUILDING LAWS OF THE CITY OF NEW YORK published in four volumes, amended to September, 1955, are now ON SALE AT THE CITY RECORD OFFICE, ROOM 2213, MUNICIPAL BUILDING, MANHATTAN, N. Y. 7. Each volume contains a Table of Contents indicating what matters appear in each one of the four volumes.

The prices are as follows: One Dollar and Fifty Cents each for Volumes Nos. I, II and IV (\$1.65 each by mail); and One Dollar for Volume III (\$1.15 by Mail). The price for the complete set of four volumes is Five Dollars and Fifty Cents (\$6 by mail).

We require PAYMENT IN ADVANCE. Make check payable to the Supervisor of The City Record.

WILLIAM VIERTTEL, Supervisor of The City Record.

RULES

AMENDMENTS TO THE RULES FOR ERECTION, ALTERATION, REPAIR, EXCAVATION FOR AND DEMOLITION OF BUILDINGS

Adopted by The Board of Standards and Appeals,
October 26, 1943, Effective December 13, 1943;
Amended Oct. 14, 1955, Effective Nov. 10, 1955;
and Amended June 4, 1956, effective July 2, 1956.
(Cal. No. 784-41-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, (3) and (4) of The New York City Charter; Sections C26-189.0, C26-191.0, C26-504.0(a), and C26-689.0 of the Administrative Code

7.8.1 Design and Construction of Forms. The design and construction of forms shall conform to the following requirements:

7.8.1.1 Forms shall conform to the shape, lines, and dimensions of the member as called for on the plans. Forms shall be substantial and sufficiently tight to prevent leakage of mortar; and shall be properly braced or tied together so as to maintain position and shape and insure safety to workmen and passersby. Temporary openings shall be provided where necessary to facilitate cleaning and inspection immediately before depositing concrete.

7.8.1.2 Where the height of the shores exceeds ten feet, adequate diagonal bracing shall be provided in both longitudinal and transverse directions. In addition, adequate diagonal braces shall be provided at the ends of the framework. Diagonal bracing shall extend from the top to bottom of shores.

7.8.1.3 The unbraced length of wood shores supporting forms shall not exceed fifty times the least dimension. Metal shores or frames shall be approved by the Board of Standards and Appeals and shall be installed in accordance with the approval of the board. Shores shall be adequately secured at the top and shall be properly wedged at top or bottom, if required.

7.8.1.4 Where shores rest upon the ground, adequate mud sills, or other bases, shall be provided to support the shores adequately.

7.8.1.5 Qualified workmen shall be detailed constantly during the placing of concrete to insure that there is no movement of shores, braces or other supports. The name of the foreman in charge of the formwork shall be posted in the field office of the contractor.

7.8.1.6 The individual, firm or corporation who does the concrete work shall be responsible for the adequate design and construction of all forms used in the construction of the building. Wherever the shore height exceeds fourteen feet, or the load on the forms exceeds one hundred fifty pounds per square foot, or power buggies are used, or two stage shores are used, the individual, firm or corporation who does the concrete work shall certify to the department that the form design has been checked and approved as adequate by a licensed professional engineer who has had at least five years of experience as a structural engineer, and that the forms have been constructed in conformance with the design which was checked and approved by the said engineer.

APPEALS AS TO MULTIPLE DWELLINGS

The Legislature, under Chapter 333 of 1948, has clarified Section 60 of the Multiple Dwelling Law by describing the agency authorized to grant variances under this Section, so as clearly to mean in New York City—the Board of Standards and Appeals.

Chapter 508 of 1948 has also been adopted by the Legislature, amending the Multiple Dwelling Law to provide, under new Section 310, for a Board of Appeals. By description the Board of Appeals means in New York City—the Board of Standards and Appeals. Section 310 provides as follows as to appeals:

LAWS OF NEW YORK—By Authority CHAPTER 508 OF 1948

§ 310. Board of appeals. 1. As used in this section "board" shall mean the agency of a city constituted as a board and authorized by law both to grant variances of the zoning resolution and to make rules supplemental to laws regulating construction, maintenance, use and area of buildings.

2. Where the compliance with the strict letter of this chapter causes any practical difficulties or any unnecessary hardships the board shall have the power, on satisfactory proof at a public hearing, provided the spirit and intent of this chapter are maintained and public health, safety and welfare preserved and substantial justice done, to vary or modify any provision or requirement of this chapter, or any rule, regulation, supplementary regulation, ruling or order of the department with respect to the provisions of this chapter, as follows:

a. For multiple dwellings and buildings existing on July first, nineteen hundred forty-eight, provisions relating to:

- (1) Height and bulk;
- (2) Required open spaces;
- (3) Minimum dimensions of yards or courts; or
- (4) Means of egress.

b. For multiple dwellings and buildings erected or to be erected after July first, nineteen hundred forty-eight, and

such dwellings thereafter altered or to be altered, provisions relating to:

- (1) Required open spaces; or
- (2) Minimum dimensions of yards or courts.

Variations or modifications may be granted pursuant to this paragraph b only on condition that open areas for light and air are provided which are at least equivalent in area to those required by the applicable provisions of this chapter.

3. An application for such a variance or modification may be made by any person aggrieved or by the head of any public agency, within such time and under such procedure, conditions and rules as may be prescribed by the board. The board shall fix a reasonable time for the hearing of an application and shall require that due notice be given of the time and place of such hearing to the applicant and to the department. Any person or a duly authorized representative of any public agency may appear at any such hearing and be heard on any such application.

4. In every case the board shall state the reason or reasons for its decision. All decisions of the board shall be subject to review in the same manner as is provided by law for review of decisions of such board respecting variances of the zoning resolution.

5. A record of all decisions of the board, indexed according to the section or sections of this chapter affected thereby, shall be kept in the office of the board. Such record shall be open to public inspection at all times during business hours.

RULES RELATING TO SMOKING IN PROTECTED PORTIONS OF FACTORIES, AND IN SPECIAL CLASSES OF OCCUPANCIES.

Adopted by the Board of Standards and Appeals August 13, 1918, effective September 9, 1918, under the powers conferred upon the Board by Section 718-a, Subsections 2 and 3 (Old Charter) to supplement Section 283 of the Labor Law (Old Section 83c).

[Cal. 1262-18-SR]

Labor Law

Section 283. Smoking.

1. No person shall smoke in a factory. A notice of such prohibition stating the penalty for violation thereof shall be kept posted in every entrance hall, elevator, stair hall and room of a factory in English, and in such other languages as the fire commissioner of the city of New York in such city and elsewhere the commissioner shall direct.

2. The board in its rules may permit smoking in protected portions of a factory, or in such classes of occupancies where in its opinion the safety of the employees will not be endangered thereby. The fire commissioner of the city of New York in such city and elsewhere the commissioner may issue such permits in accordance with rules adopted by the board.

3. The fire commissioner of the city of New York in such city and elsewhere the commissioner shall enforce this section.

Rule 1. Permit.

(a) Prohibition. No person shall smoke, or carry a lighted cigar or cigarette in any factory as defined in Article 1, Section 2, of the State Labor Law, nor in any portion of a factory, within the City of New York, except in such protected portions or special classes of occupancies as are specified in Rule 2 of these rules, and then only after the issuance of a permit by the administrative official.

It shall be the joint and several duty of the owner and of the lessee or lessees of the building containing such factory or factories to cause to be posted in each and every entrance hall, stair hall or room throughout the building, as well as in every elevator car, in English, and also in such other language or languages—as the administrative official shall direct, a notice of such prohibition, and the penalty for its violation.

(b) Application. Application for such permit shall be made only by the owner of the building on suitable blank forms to be furnished by the administrative official.

(c) Time Limit. Such permit shall be for a definite period, not exceeding one year, and shall not be renewed upon the expiration until a reinspection of the premises for which it is issued has been made for the purpose of determining whether existing conditions warrant a renewal.

(d) Conditions. The permit shall state the conditions under which the hours between which, and the place or places in such factory where smoking may be permitted, and this

permit shall be framed and kept posted in a conspicuous place in the factory.

(e) Revocation. Violation of any of the conditions specified in the permit in addition to incurring such penalties as are prescribed by law, shall be full and sufficient cause for the revocation of such permit by the administrative official, and shall not again issue a permit for the same premises until at least one year has elapsed.

Rule 2. Permissible Cases.

Smoking may be permitted in:

(a) Factories engaged in the manufacture of cigars, cigarettes, or smoking tobacco, when necessary for the efficient conduct of the business, provided that:

(1) No smoking other than that for sampling, testing and experimental purposes is carried on.

(2) Such smoking is conducted in a room provided especially for that purpose, separated from the rest of the building by fireproof or fire-resisting partitions, with all openings therein protected by self-closing fire doors, and further, unless the building is of fireproof construction or provided with an approved automatic sprinkler system, the floor and ceiling of such room shall be covered with fire-retarding material.

(3) Such chemical fire extinguishers as the administrative official may direct are installed.

(4) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

(b) Factories devoted entirely to one of the following occupancies:

Blacksmithing or horseshoeing;
Boiler making;
Brick, terra cotta or artificial stone works;
Forge shops;
Foundries;
Iron, steel, brass or copper works;
Machine shops;
Smelting;
Stone or monumental works;

provided that in any case:

(1) The building is not of wooden construction;
(2) Such chemical fire extinguishers as the administrative official may direct are installed;

(3) All waste paper and other inflammable waste materials are deposited in fireproof receptacles.

SECTION 21-C

The Astoria Property Owners Association of Long Island
City filed the following report with the City Planning
Commission:

The report of the New York City Charter Revision Com-
mission, dated August 17, 1936, stated its intent in recom-
mending the establishment of a City Planning Commission,
as follows:

"The primary purpose of such a Commission is to
guide and to influence the City in its development and
future growth. The growth and development of a
modern city depend upon the wisdom and foresight with
which capital improvements are undertaken and the ex-
tent to which the integrity of zoning regulations and
of the City Map is maintained. * * * Great waste
has resulted and a species of log-rolling has developed
in connection with measures affecting local or special
interests".

The report continues to define the purpose of the Planning
Commission as an agency to function in the broad field
of general, long range planning on a Master Plan, as it
affects the interest of the entire City, rather than a "local"
or "special" area.

On the other hand, the Board of Standards and Ap-
peals under the Charter, is vested with the power to
grant variances, "so that the spirit of the law shall be
observed, public safety secured and substantial justice done",
and it has the power of prescribing the means and methods
of practice to effectuate such provisions and to impose
conditions which will insure the full compliance with the
spirit and intent of any change.

Section 21-C and the related sections applies specifically
to changes in zone and not general, long range planning
of an area. On the basis of the record, particularly with
respect to housing projects, there is reason for concern
in the proposed removal of jurisdiction from the Board
of Standards and Appeals over particular projects and
applications and to transfer the same to the City Planning
Commission.

The status of the Board of Standards and Appeals before
Courts of Law on Judicial review, is substantially different
from that reviewing the action of the City Planning Com-
mission which is a part of the legislative branch of City
government. The decisions of the courts reviewing action
by the Planning Commission and the Board of Estimate
which follows, are clear on the point.

Opposition to the City Planning Commission's proposed
21-C is fully justified on the basis of the legal status
alone.

For the reasons stated, and others which may be advanced
orally during hearing on the proposal, it is suggested that
any change relative to the subject matter of Section 21-C
and other related sections, be based on continued jurisdiction
of the Board of Standards and Appeals and that the follow-
ing recommendations be considered in connection therewith.

NOVEMBER 27, 1956, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing Tuesday morning, November 27, 1956, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

1016-55-BZ

APPLICANT—Robert Gottlieb, for Hermany Realty Corp., owner (Hermany Farms, Inc., lessee).

SUBJECT—Application December 29, 1955—re (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence and business use district, the parking and storage of more than 5 motor vehicles, in conjunction with a milk bottling plant 50 ft. to the west.

PREMISES AFFECTED—2351-2355 Hermany avenue, north side, 191.52 ft. west of Zerega avenue and 2346-2350 Story avenue, Block 3698, Lots 31-34 and 58, Borough of The Bronx.

Laid over from October 9, 1956 to October 23, 1956, at the request of an objector; no further request for adjournment considered; then to November 27, 1956, for inspection and decision; hearing closed.

1017-55-BZ

APPLICANT—Robert Gottlieb, for Hermany Realty Corp., owner.

SUBJECT—Application December 29, 1955—re (decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a business use district, the erection and maintenance of a gasoline service station, lubritorium, car wash, motor vehicle repair shop and auto parking.

PREMISES AFFECTED—861-875 Zerega avenue and 2361-2385 Hermany avenue, northwest corner, Block 3698, Lot 47, Borough of The Bronx.

Laid over from October 9, 1956 to October 23, 1956, at the request of an objector; no further request for adjournment considered; then to November 27, 1956, for inspection and decision; hearing closed.

344-33-BZ—Vol. V

APPLICANT—Lama, Proskauer and Prober, for Nicholas Scandore, owner.

SUBJECT—Application reopened September 13, 1955 as Vol. V—re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district, proposed change of use of cellar to pastry baking, dishwashing, boiler room, storage of tables and chairs, employees' locker room, maintenance room, oven and refrigeration and change on second floor to banquet hall, kitchen and office; also removal of limitation as to size of orchestra.

PREMISES AFFECTED—1048-1072 Ocean parkway, west side, 380 ft. south of Avenue J and 1151-1167 East 5th street, Block 5495, Lot 870, Borough of Brooklyn.

Laid over from October 30, 1956 to November 27, to await the decision of the court as to violations and for further inspection; hearing closed.

100-56-A

APPLICANT—Lama, Proskauer and Prober, for Nicholas Scandore, owner.

SUBJECT—Application February 1, 1956—Appeal from a decision of the borough superintendent—re exits.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application dismissed as being improperly before the Board.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, at the hearing it was brought out that part of the property for which applicant had applied for a variance was not in the ownership stated in the application, and the owner of such portion did not desire any variation of the Zoning Resolution; and

WHEREAS, the applicant was advised by the Board that a separation of the lots was necessary if he desired to bring a proper application before the Board.

Resolved, that the application be and it hereby is *dismissed* as being improperly before the Board.

544-44-BZ—Vol. IV

APPLICANT—Siegel and Green, for All States Holding Corp., owner.

SUBJECT—Application reopened July 26, 1956 as Vol. IV—re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district, proposed use as offices and showroom, of a 5 story building of class 1 constructional required stairs not on same lot.

PREMISES AFFECTED—418-422 East 54th street, south side, 294 ft. east of 1st avenue, Block 1365, part of Lot 13, Borough of Manhattan.

APPEARANCES—

For Applicant: Max Siegel and Norman Ginzburg.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. IV on July 26, 1956 subject to regular procedure, to consider proposed change of use; and

WHEREAS, a public hearing was held on this application on November 20, 1956 after due notice by publication in the Bulletin; and

MINUTES

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, B area, class 2 height district; East 54th street is in residence and local retail use, B area, class 2 height districts; First avenue is in local retail use, B area, class 2 height district; and

WHEREAS, the decision of the borough superintendent, dated June 28, 1956 acting on Alt. Applic. 785-56, reads:

"1. Proposed use as offices & showroom in a residence use district is not permitted. Art. II, PP. 3 Zoning Res.

2. Where required stairs are not on the same lot, an easement must be filed.

3. Work on other lots must be filed on them."

and

WHEREAS, the applicant states that the premises consist of a plot, 75 ft. frontage by 110 ft. in depth; that it is proposed to generally alter the interior facilities of the existing building by removing one of the interior stairways and provide fire wall exits into the public hall of the adjacent buildings, making available passenger elevators located in those buildings for the benefit of the subject building; that it is also proposed to install new show windows on the street floor, replacing the garage type doors and windows; that it is further proposed to modernize and paint the existing facade to upgrade its appearance and use the building for showrooms, offices and storage; and

WHEREAS, the applicant states that the subject premises consist of a plot 75 ft. front by 110 ft. deep on which there exists a fireproof five story and cellar building, equipped with a 100% automatic sprinkler system and an interior fire alarm system; that there exists two interior stairways, a garage type freight elevator, toilets and similar facilities and subdivisions to accommodate the tenancies; and

WHEREAS, the applicant states that the subject building is one of a group of three contiguous commercial buildings under the same ownership, extending through to East 53rd street; that these premises are now located within a residence use district as the result of a general rezoning of this area in 1930; that prior thereto the premises and the existing buildings thereon were located within an unrestricted use district since the adoption of the original zoning resolution and such non-conforming buildings may therefore be continued pursuant to section 6 of the zoning resolution; that the subject building was originally erected as a garage and subsequently converted to other commercial uses pursuant to variances granted by the Board; that the last variance under Cal. No. 544-44-BZ, Vol. III permitted the building to be occupied by CBS television departments; that the CBS lease is due to expire on November 30, 1956 and the owner is desirous of continuing a commercial use for the building rather than re-converting to its former garage occupancy; and

WHEREAS, the applicant contends that the existing garage type of building does not lend itself for a conversion to any use other than for commercial purposes; that demolishing the existing building for a new conforming residential building is not considered practical and would jeopardize the owner's equity in this useful existing building; that while this subject block is now zoned for residence use, it is not exclusively used for residential purposes as there exist other non-conforming uses in this block; that the proposed change in the types of use is to be entirely within the existing building, with no proposed building enlargements of any kind; that the owner intends to restrict the type of occupancy to wholesale showrooms for the trade dealing in house furnishings; that this type of use will generate a minor amount of pedestrian and vehicular traffic and will be in harmony with the other commercial uses now existing in the other buildings; and

WHEREAS, the applicant states that the present owner has held title to the property since October, 1936; that the assessed valuation of land is \$205,000 and of the buildings \$215,000 making a total of \$420,000; that the buildings were erected in 1911; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on November 21, 1944, as thereafter amended by resolutions adopted through November 22, 1949 by adding thereto:

"that in the event the owner desires to change the use of the building from storage and shipping to offices and showroom and storage as now proposed and as shown on plans filed with this request marked 'Received July 17, 1956', 8 sheets, such change of use may be permitted and the alteration as to the exits may be permitted as shown and proposed, *on condition* that the building shall not be increased in height or area; and that in all other respects shall comply with all laws, rules and regulations applicable thereto; that a sprinkler system and interior fire alarm system shall be maintained in accordance with the requirements therefor and to the satisfaction of the Fire Commissioner; that this resolution supersedes the previous resolution which is due to expire; that the grant of this variance is for a term of ten years from the date of this amended resolution; that an easement agreement as to the use of the stair in the adjoining building as a required means of exit for this building shall be filed with the Department of Buildings and a copy filed with this Board; and that all permits shall be obtained, including a new certificate of occupancy and all work completed within six months from the date of this amended resolution."

476-46-BZ—Vol. II

APPLICANT—Burke, Green and Groh, for Conduit Realty Inc., owner.

SUBJECT—Application reopened February 7, 1956 as Vol. II—(decision of the borough superintendent) under section 7e of the zoning resolution, to permit in residence use district, the erection and maintenance of a gasoline service station, sales and service, minor auto repairs with hand tools only, lubrication and car wash.

PREMISES AFFECTED—101-10 South Conduit avenue, southeast corner of 101st street, Block 11585, Lot 23, Ozone Park, Borough of Queens.

APPEARANCES—

For Applicant: Robert T. Groh.

For Opposition: S. Bodian, for Dept. of Parks.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on February 7, 1956 subject to regular procedure, to consider new proposal; and

WHEREAS, a public hearing was held on this application on October 2, 1956 after due notice by publication in the Bulletin; laid over to October 30, 1956, for inspection and decision; hearing closed; then to November 20, 1956, for applicant to file revised plans showing grades and treatment; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, 155th avenue and 101st street are in a residence use, E-1 area, class ½ height district; South Conduit boulevard is in a residence use, E-1 area, class ½ height district; and

WHEREAS, the decision of the borough superintendent, dated December 6, 1955 acting on N.B. Applic. 4416-55, reads:

"1. Proposed use of premises as a gasoline service station sales and service, doing minor auto repairs with hand tools; lubrication and car wash is contrary to

MINUTES

Article II Sec. 3 of zoning resolution. Note premises are in a residence district."

and

WHEREAS, the applicant states that the premises consist of a plot, 157.14 ft. frontage by 120.12 ft. in depth, irregular, now vacant; that it is proposed to construct a parkway type gasoline service station; that the building will be constructed of cement stucco and seamed faced stone, pillars to be constructed of seamed faced granite; that the roof will contain wood gutters and will be of the asphalt shingle type; that there will be three glass paneled doors, one of which will lead to an automobile wash and the other two to lifts for oiling and greasing; that minor repairs with hand tools only will be conducted entirely within the building; and

WHEREAS, the applicant states that as of June 25, 1916 the property was zoned unrestricted use and the present zoning became effective on November 28, 1938; that originally the area zone was D and as of November 28, 1938 it was changed to an F area and the present area designation became effective July 22, 1954; that the original height area was class 1 and the present height district became effective November 28, 1938; that there are no changes pending before the City planning commission at the present time; and

WHEREAS, the applicant further states that the outside of the building will be constructed of masonry construction, wood rafters and steel sash; that the floor will be concrete flooring; that there will be four parkway type pumps located 20 ft. from the property line on the South Conduit side of the property; that the entire station will contain concrete or bituminous paving and there will be twelve 550 gallon gasoline tanks set in the ground covered with 4 in. reinforced concrete; that there will be a post standard and sign placed on a 12 in. concrete curb on both the easterly and westerly ends of the property facing South Conduit avenue; that a 5 ft. brick wall will be constructed from the easterly line of the property running southerly for a distance of 50 ft. and another 5 ft. brick wall will be constructed along the rear line of the property from the edge of the building to 101st street and another brick wall running from the southerly end of the property on the east side of 101st street beginning with a 4 ft. brick wall and diminishing to a 3 ft. brick wall for a distance of 29 ft.; that two 30 ft. curb cuts will be erected on 101st street, the nearest being within 10 ft. of the intersection of South Conduit avenue and 101st street and three 30 ft. curb cuts erected along South Conduit avenue side of the property; that there will be a planting area, 52 ft. by 57 ft. on the southeasterly end of the property which shall include all of the property located immediately behind the proposed building; that another small planting area will be located on the easterly side of the property and a final planting area along the rear property line from the edge of the building to 101st street; that in front of the planting area along the rear property line there will be placed a 6 in. by 6 in. concrete curb which shall separate the planting area from the gas station itself; and

WHEREAS, the applicant contends that the property itself is situated next to the Long Island railroad on the southerly side of South Conduit avenue; that it is surrounded by 101st street on the west and 155th avenue on the south; that immediately in the rear of said property is a small Socony-Mobil gas station; that easterly is a restaurant and bar supply outfit with four residential houses next to the restaurant and bar supply outfit; that the corner is ideally situated for a parkway type of gas station and it is requested that the Board will favorably consider this application; and

WHEREAS, the applicant states that the present owner has held title to the property since May 23, 1955 and that the assessed valuation of land is \$9,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the application was laid over for applicant to file plans, which have been filed, showing the proposed grade of the lot which will result in the filling of the lot to the south, to raise the grade sufficiently; and the committee

recommended that the application should be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of fifteen years to permit the premises to be occupied as a gasoline service station and accessory uses substantially as proposed and as indicated on plans filed with this application marked "Received December 23, 1955", 4 sheets, and "March 6, 1956", one sheet, and "November 16, 1956", 4 sheets, *on condition* that all buildings and uses on the premises shall be removed and the premises shall be graded as proposed on such revised plans marked "Received August 16, 1956" and the premises shall be constructed and arranged substantially as indicated thereon; that there shall be a retaining wall toward the east, where shown, and constructed of masonry; that the wall shall also be constructed along the line of 154th avenue and returned to 101st street for a distance of approximately 25 ft.; that these walls shall also be constructed of brick masonry matching brick used on the extension of the accessory building and properly coped, to a total height above the grade of the proposed grade of the gasoline service station of 5 ft. 6 in.; that the accessory building shall be of the design and arrangement as shown thereon; that there shall be no cellar under the accessory building; that the doors to the toilet rooms shall be rearranged so as not to be contiguous; that the accessory building shall be faced with face brick on the front and two ends; that the rear may be of common brick or block; that there may be cast stone or granite used in place of the brick, as proposed; that such cast stone shall be of a type approved by the Board; that pumps shall be of a low approved type erected not nearer than 20 ft. to the building line of South Conduit avenue, as proposed; that the gasoline storage tanks shall not exceed twelve 550 gallon approved tanks; that curb cuts shall be restricted to three curb cuts each not over 30 ft. in width to South Conduit avenue and two of similar width to 101st street; that planting shall be maintained at the points indicated on such plans with suitable planting materials and properly protected with curbing not less than 8 ins. above grade and not less than six inches in width; that at the intersection there shall be erected a block of concrete extending for a distance of not less than five feet from the intersection along either street line and not less than 12 ins. in height; that where not occupied by accessory building, planting and pumps the premises shall be paved with concrete or asphaltic pavement; that signs shall be restricted to permanent signs attached to the facade of the accessory building and to the illuminated globes of the pumps excluding all roof signs and temporary signs but permitting the erection within the building line of one post standard at the intersection for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line, at right angles to South Conduit Avenue, for a distance of not more than four feet; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that on the rear and east lot lines where walls are not shown or proposed there shall be erected a woven wire fence of the chain link type not less than 5 ft. 6 in. in height; that under Section 7i there may be minor repairs with hand tools only for adjustments maintained solely within the accessory building; and that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the zoning resolution.

100-47-BZ—Vol. II

APPLICANT—Gabriel Nathan, for Robert Wallis, owner.
SUBJECT—Application reopened July 17, 1956 as Vol. II
—re (decision of the borough superintendent) under

MINUTES

section 21 of the zoning resolution, to permit in a residence use district, the extension to an existing structure on first floor, using more than the area permitted.

PREMISES AFFECTED—11 East 67th street, north side, 225 ft. east of 5th avenue, Block 1382, Lot 10, Borough of Manhattan.

APPEARANCES—

For Applicant: Gabriel Nathan and Sidney S. Hein.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, this application under section 21 of the zoning resolution was granted by the Board on September 30, 1947, permitting in a residence use district the extension to an existing structure on the first floor using more than the area permitted; and

WHEREAS, under Cal. No. 519-56-A an application was filed by Gabriel Nathan for Robert Wallis, for variation of the provisions of Sections 171 and 172 of the Multiple Dwelling Law, relating to height, bulk and required open spaces in connection with the alteration of the building in question to a multiple dwelling; and

WHEREAS, on July 17, 1956, the Board reopened Cal. No. 100-47-BZ, to be set for hearing with reference to such application for Multiple Dwelling Law variance under Cal. No. 519-56-A and as to rear yard as previously permitted; and

WHEREAS, a public hearing was held on this application on November 20, 1956, after due notice by publication in the Bulletin; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on September 30, 1947, by adding thereto:

"that the conditions of the resolution as adopted September 30, 1947 may be continued as to the rear yard and the laboratory as permitted, *on condition* that the requirements of the resolution adopted by the Board this day under Cal. 519-56-A as to changing the classification of the premises to a Class A converted dwelling are complied with; that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

519-56-A

APPLICANT—Gabriel Nathan, for Robert Wallis, owner.

SUBJECT—Application June 26, 1956—filed pursuant to section 310 of the Multiple Dwelling Law for variation of sections 171(1) and 172(1) of the Multiple Dwelling Law re height, bulk and legal yard required at rear.

PREMISES AFFECTED—11 East 67th street, north side, 225 ft. east of 5th avenue, Block 1382, Lot 10, Borough of Manhattan.

APPEARANCES—

For Applicant: Gabriel Nathan and Sidney S. Hein.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated June 12, 1956 on Alt. App. 742-56 reads:

"A-1. The above building not acceptable as a Converted Dwelling as the bulk and volume has been increased after April 18, 1929, in that the height of the building has been increased from 5 to 6 stories and therefore is contrary to Sec. 171 of the M. D. Law.

A-2. The above building not provided with a legal yard at rear as per Sec. 172 subd 1 of the M. D. Law."

and

WHEREAS, the applicant states the building is six stories, 67 ft. in height, 23 ft. front by 98.5 ft. in area, at street level, 23 ft. front by 52 ft. in depth at typical floor level, of class 3 construction, erected 1881, and used and occupied since 1881 as follows: cellar—boiler room and storage; basement to fifth floors, inclusive,—dwelling, one family including the accessory practice of medicine; and

WHEREAS, Certificate of Occupancy 17215, issued January 7, 1931, against Alt. App. 616-29, permits the use of the building as a one-family dwelling; and

WHEREAS, the applicant states it is now proposed to alter the building and use and occupy it as follows: cellar—boiler room and storage; no persons; basement and first floor, combined—dwelling, one family, including the accessory practice of medicine, 4 persons; 2nd and 3rd floors, combined dwelling, one family, including the accessory practice of medicine, 4 persons; 4th floor—dwelling, one family; 5th floor—dwelling, one family; that the building is provided with one 3 ft. wide interior wood stairs enclosed in partitions of wood studs and plaster, equipped with hard-wood self-closing doors; stairhall leads direct to street and is provided with access to roof by circular stair and bulk-head; and

WHEREAS, the applicant states the building is four and six stories, of class three construction, which it is proposed to convert to a class A multiple dwelling with accessory practice of medicine; and

WHEREAS, the applicant contends as to Objection A-1, issued by the borough superintendent, that Section 171(1) of the Multiple Dwelling Law prohibits a conversion to a multiple dwelling of a building whose bulk and volume has been increased since April 18, 1929; that Alt. App. 616-29, for the construction of an additional story was filed March 30, 1929, and permit issued May 3rd, 1929; and

WHEREAS, the applicant contends as to Objection A-2, issued by the borough superintendent relating to insufficient rear yard as required under Section 172(1) of the Multiple Dwelling Law, that the required rear yard together with other open spaces should equal an area 13 ft. by 23 ft. or 299 sq. ft.; that the actual open area equals 75 sq. ft.; that the deficiency amounts to 224 sq. ft.; that the building was erected as a five story private residence with three story extension under N. B. App. 777-1881, that an additional story was constructed on the rear extension under Alt. Appl. 1036-1908 and the elevator installed under Alt. App. 877-1913; that in 1929 a penthouse story was added to the main building under Alt. App. 616-29 for an area 23 ft. by 52 ft. 2 in. and Certificate of Occupancy 17215 issued; that in 1943 permission was granted under B. N. App. 1804-43 to use the premises as a club for the armed services for a period of six months and no certificate of occupancy was issued; that the building was purchased in 1945 by the present owner and altered for use as residence and for practice of medicine under Alt. App. 745-45 at which time an application was filed with the Board for a variance under Cal. No. 100-47-BZ to permit the construction of a one story laboratory on the ground floor rear using more than the permitted area of the lot and such variance was granted and the work completed; and

WHEREAS, the applicant further contends that nearly all of the buildings in the square block enclosing the subject property contain extensions varying from one to five stories in height built up to or near to the rear lot line; that the property to the rear on Lot 63, is built right up to its rear lot line as is the property on Lot 64 to the rear of Lot 9 adjoining the site; that the building on Lot 11 immediately

MINUTES

adjoining the site to the east is built up to the rear lot line; that in this block there are three apartment houses, 14, 16 and 19 stories in height and 4 converted dwellings, one of which, on lot 9, immediately adjoins the premises in question; that on the opposite side of the street in Block 1381 there are three apartment houses of 5, 7 and 13 stories and four converted dwellings; that the granting of this application would benefit the owner and the public interest without adversely affecting anyone, while a denial would harm the owner without benefiting anyone; that the proposed occupancy is low; that all other requirements of the Multiple Dwelling Law will be complied with and the public halls will be sprinklered in compliance with Section 187 of the Multiple Dwelling Law.

Resolved, that the decision of the borough superintendent, acting on Alt. App. 742-56, Objections No. A-1 and A-2, be and it hereby is *modified* under the powers vested in the Board by Section 310 of the Multiple Dwelling Law, and that the appeal be and it hereby is *granted*, to permit the alteration of the existing building to a Class A converted dwelling, substantially as proposed and indicated on plans filed with this application, marked "Received June 26, 1956", 10 sheets, and to permit the continuance of the existing rear yard, as permitted under resolution adopted by the Board under Cal. No. 100-47-BZ on September 30, 1947, *on condition* that the requirements of Article VI of the Multiple Dwelling Law shall be complied with in all other respects; that the main or street floor, a technical basement, and the floor above shall be occupied as one duplex apartment for the owner and may be used by him in the practice of medicine, residing and maintaining the professional office proposed in the apartment; that the second and third floors may be constructed as an apartment for use by the doctor practicing medicine and residing in such apartment; that the apartments proposed on the upper floors may be rented for usual residential occupancy; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto.

91-55-BZ—Vol. II

APPLICANT—Larry Meltzer, for Mace Service Stations, Inc., owner.

SUBJECT—Application reopened July 17, 1956 as Vol. II—re (decision of the borough superintendent) under sections 7c and 7i of the zoning resolution, to permit in a business and residence use district, the reconstruction of an existing gasoline service station, garage for more than 5 motor vehicles, greasing, car washing and auto repairs.

PREMISES AFFECTED—583-593 Liberty avenue and 279-295 Barbey street, northeast corner, Block 3965, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: Larry Meltzer.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on August 17, 1956 subject to regular procedure, to consider revised plans; and

WHEREAS, a public hearing was held on this application on November 14, 1956 after due notice by publication in the Bulletin; laid over to November 20, 1956, for applicant to file additional plans of existing conditions; and

WHEREAS, the district maps accompanying the zoning

resolution show that the site, Barbey street and Liberty avenue are in business and residence use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated June 14, 1956 acting on Alt. Applic. 3388-54, reads:

"1. Plans submitted for approval are not in agreement with those approved by Bd. of Standards & Appeals under Cal. 91-55-BZ."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 150 ft. in depth, on which is located a gasoline service station, garage for more than five motor vehicles, greasing and auto repairs; that it is proposed to reconstruct existing gasoline station, garage for more than five motor vehicles, greasing, car washing and auto repairs; and

WHEREAS, the applicant states that this entire plot was in an unrestricted use district until May 15, 1941 when it was changed to its present status; and

WHEREAS, the applicant further states that in June 1954 a fire destroyed the entire roof of the building; that on July 6, 1955, the Board granted a variance permitting the reconstruction of the garage and gas station, but the work authorized by this variance has not yet started; that these premises have now changed ownership; that the new owners purchased the premises on March 1, 1956 and they propose to alter this building by setting back the garage wall 54 ft. from the Liberty avenue building line and create a new arrangement of vehicular openings; that within this 54 ft. setback it is proposed to maintain a gasoline selling station; and

WHEREAS, the applicant contends that there is no change in the size of the plot and no change in the use and occupancy from that previously approved by the Board; that the gas station is being changed to provide a more modern and efficient arrangement, by removing a small island-type office arrangement and increasing the depth of the gas station for more open area and greater maneuverability; that the proposed changes are an improvement to the general appearance of the station and as a result improves the entire area; and

WHEREAS, the applicant states that the present owner has held title to the property since March 1, 1956; that the assessed valuation of land is \$19,000 and of the building \$12,500 making a total of \$31,500; that the building was erected in 1923; and

WHEREAS, the premises and surrounding area were previously inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 6, 1955 by adding thereto:

"that in the event the owner desires to make changes in the lay-out as now proposed and as shown on revised plans marked 'Received October 30, 1956', 2 sheets, such changes in the reduction of the existing garage building resulting in the enlargement of the gasoline selling area may be permitted *on condition* that in all other respects the resolution above cited shall be complied with where not inconsistent with the terms of this amended resolution; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution."

219-55-BZ

APPLICANT—Max Horn, for Tru-Art Aluminum Grille Co., Inc., owner.

SUBJECT—Application March 18, 1955—re (decision of the borough superintendent) under section 7a of the zoning resolution, to permit in a retail use district, the occupancy of a frame building for a factory use (manufacture of aluminum grille doors).

PREMISES AFFECTED—217-03 Merrick boulevard, north side, 146 ft. west of 218th street, Block 12956, Lot 36, Springfield, Borough of Queens.

MINUTES

APPEARANCES—

For Applicant: Max Horn, Maurice Krug and Elliot P. Marchant.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 14, 1956 after due notice by publication in the Bulletin; laid over to November 20, 1956, for applicant to file additional information as to coverage of objections of the Department of Buildings; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Merrick boulevard are in a retail use, D area, class ½ height district; 218th street is in retail and residence use, D area, class ½ height district; and

WHEREAS, the decision of the borough superintendent, dated July 19, 1956 acting on Alt. Applic. 2506-54, reads:

"3. Occupancy of a building for factory use in a Retail Use District is contrary to Article II Sec. 4A of the Zoning Resolution."

and

WHEREAS, the decision of the borough superintendent, dated November 15, 1956 acting on Alt. Applic. No. 2506-54, reads:

"3. Occupancy of a building for factory use in a Retail use district is contrary to Art. II Sec. 4A and Sec. 6 of Zoning Resolution. Note part of building is existing."

and

WHEREAS, the applicant states that the premises consist of a plot, 60 ft. frontage by 91.5 ft. in depth, irregular, on which is located a one story building of class 4 construction, 53 ft. front, 62 ft. in depth, irregular; that it is proposed to occupy frame building as factory for the manufacture of aluminum grille doors; and

WHEREAS, the applicant states that the premises under appeal consists of a plot on the north side of Merrick boulevard distant 146.01 ft. west of 218th street, with a frontage of 60 ft. on Merrick boulevard and a depth of 71.5 ft. and 72.07 ft. respectively, with a 20 ft. by 40 ft. addition; that on this plot is an existing frame building purchased May 19, 1954 by the present owner for the manufacture of aluminum door grilles; that it is now zoned retail use, D area and ½ height, having been changed from business D to retail D on January 21, 1947; and

WHEREAS, the applicant states that the present owner purchased the property on the strength of its prior uses, namely, that the building was used for an auto paint and spray shop under N. B. 381-22 and later included also auto repair work; that in 1946, Mr. Max Gelfand purchased the property and leased it to Hines and Toomey who carried on the auto repair and spraying business until 1948, when Mr. Gelfand used it for manufacturing wood screens, storm sash and doors until about the time the present owner purchased the property in May, 1954; that in April 1956, the owner acquired a 20 ft. by 40 ft. interior lot, which enlarged his plot by 800 sq. ft.; that the proposed building was simplified by lining it up in the rear, with the shortened original building; that objection No. 3 issued by the borough superintendent should not apply in this case because the building had been used for auto painting and spraying and built for that purpose under N. B. 381-22 and later used also for auto repair work; that all this was long before the change in zone on January 21, 1947 from business D to retail D; and

WHEREAS, the applicant contends that the use of this building for the manufacture of aluminum screen door grilles is clearly a far cleaner and certainly a much safer,

quieter use than auto painting, auto repairs etc.; that furthermore the existing building looks more like a modern store than a factory; that the new addition will further improve the building; that the neighbor in the rear on 133rd road is particularly pleased because the existing building will be cut down in the rear about 9 ft.; that the side addition will line up in the rear with this shortened original building; that loading and unloading will be within the building; and

WHEREAS, the applicant states that objection No. 3 reads "Occupancy of a building for factory use in a retail use district is contrary to Art. II Sec. 4A and 6 of the zoning resolution. Note—part of building is existing"; that the existing frame building was built under N. B. 381-22 for an auto paint and spray shop and that this was then in a permissible zone; that the objection actually refers to the extension or enlargement of a legally existing building for factory use; that the Board is requested to grant the variance to permit the enlargement of this building for the manufacturing of aluminum grilles and allied items, because the present use and the same use in the enlarged building, while technically a factory, is in appearance and desirability much better than the original uses, and the building and uses are welcomed by the neighbors as attested to by the consents filed; and

WHEREAS, the applicant states that the present owner has held title to the property since May 19, 1954; that the assessed valuation of land is \$6,000 and of the building \$2,500 making a total of \$8,500; that the building was erected in 1922; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c, to permit the occupancy for factory use throughout of the existing building and the extension, as proposed and indicated on plans filed with this application, marked "Received June 4, 1956", 5 sheets, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board this day by resolution adopted under Cal. 549-56-A; that the use of the building shall be as stated and for no other use; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

549-56-A

APPLICANT—Max Horn, for Tru-Art Aluminum Grille Co., Inc., owner.

SUBJECT—Application July 24, 1956—Appeal from a decision of the borough superintendent—re use of frame building for business.

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated November 15, 1956, on Alt. App. 2506-54, reads:

"1. Proposed extension of existing frame building used for business and to be used for business is contrary to Sec. 4.2.1. BC. Note: proposed extension is of class 3 construction.

"2. Occupancy of a frame bldg. and the proposed addition for factory use, less than 25 ft. from non-fireproof surrounding buildings is contrary to Sec. 270 of Labor Law.

"4. Extension of a frame building within the fire limits is contrary to Sec. 4.1.2. and 4.2.3. of the Building Code."

and

WHEREAS, the applicant states the building is one story, 16 ft. in height, of class 4 construction, 27 ft. front by 71 ft., irregular, in depth, erected 1922, located on a lot 60 ft. front by 92 ft., irregular in depth, now in a retail use, D area, class ½ height district, and used and occupied since 1954 as follows: cellar—boiler room; 1st floor—auto painting and mo.or vehicle repairing for which no certificate of occupancy has been issued; and proposed to be used and occupied on the first floor for the manufacture of aluminum door grilles, 11 persons; cellar to be filled in; the building will be increased in area to 58 ft. 2 in. by 62 ft., irregular, in class 4 construction; and

WHEREAS, the applicant states that there is an existing frame building on the lot purchased May 19, 1954, by the present owner, for the manufacture of aluminum door grilles; the building was erected as an auto paint and spray shop under N.B. 381-22, and later changed to include motor vehicle repairs; that the building was used by Heinz & Toomey for auto repairs and spraying until 1946 when its use was changed from manufacturing wood screens, storm sash and doors, until the present owner purchased it in 1954; and

WHEREAS, the applicant contends as to Objection No. 1, issued by the borough superintendent, that the existing frame building was built for a paint and spray shop under NB 381-22; that the proposed extension is of masonry construction and is attached to the existing building; that the completed unit as indicated on the plans involves removing about 9 feet of the rear of the present frame building and closing in the balance of this old building with a masonry wall; that in effect, the completed building will have only one frame wall left, and the parts of this wall less than 3 ft. from the west lot line will be brick filled; and approaches in fire rating almost that of a full masonry building; and

WHEREAS, the applicant contends as to Objection No. 2, issued by the borough superintendent, that the old building when cut down in size will be over 25 ft. from the dwelling in the rear, not counting the garage of that dwelling; that while this is technically a factory and does not conform with Sec. 270 of the Labor Law, it does not constitute any hazard because of the nature of the business, and is certainly less hazardous than the former uses of paint and spray shop, and later wood screens, etc.; and that the Board is respectfully requested to grant this because of the better conditions than the former uses; and

WHEREAS, the applicant contends as to Objection No. 4, issued by the borough superintendent, that the Board is respectfully requested to grant this variance because the frame building was constructed under an approved plan, NB 381-22, and that the new addition, replacing the rear frame wall with a masonry wall corrects this condition; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the decision of the borough superintendent, dated July 19, 1956, acting on Alt. App. 2506-54, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the proposed extension shall be of Class 3 construction; that the existing frame building shall not be increased in height or area and shall be fire-retarded as to the cellar and first floor ceiling; that in all other

respects the building and occupancy shall comply with the requirements of the Building Code, the Labor Law and all other rules and regulations applicable thereto and the requirements of the resolution adopted by the Board this day under Cal. 219-55-BZ.

Adjourned: 3:10 P. M.

JOSEPH J. DOYLE, *Chief Clerk*.

REGULAR MEETING

TUESDAY AFTERNOON, NOVEMBER 20, 1956, 2 P.M.

Present: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly.

984-54-SM

APPLICANT—Inland Steel Products Company, owner.

SUBJECT—Application for consideration—reopened March 13, 1956 for admendment to resolution as to additional sections of Cellufloor and the use of this material as a component part of a three hour floor construction—re Cellufloor (cellular steel floor panels); previously approved.

APPEARANCES—

For Applicant: George A. Campbell, Jr.

ACTION OF BOARD—Resolution amended in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly ... 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 984-54-SM

Subject: Amendment to resolution as to additional sections of Cellufloor and the use of this material as a component part of a three hour floor construction.

Inland Steel Products Co. Milwaukee Wisconsin requested by letter dated February 17, 1956 that the resolution adopted February 15, 1956 under Cal. No. 984-54-SM be amended so as to include additional sections of cellular steel floor and the use of this material as a component part of a fire proof floor construction. The application was reopened by a vote of the Board March 13, 1956.

Purpose

The material is a steel structure sub-floor panel, which, in conjunction with its protective ceiling is used as a fire resistive floor.

Description

The panels are manufactured from 12, 14, 16 and 18 gauge Grade C steel conforming to A.S.T.M. A-245. This standard requires that the steel have the following properties:

Tensile strength = 55,000 p.s.i.
Yield Point = 33,000 p.s.i.
Elongation in 8" (standard flat specimen) = 18%
Elongation in 2" (standard sheet specimen) = 22%

The steel sheets are galvanized and the coating has a zinc weight of not less than 0.5 ozs. per sq. ft.

The top surfaces is fluted with grooves not less than 1½ inches deep, 2 inches wide and spaced 6 inches on center. The cross section of the panels have webs spaced two per 6 inches and have a ratio of top horizontal surface width between webs to thickness of metal not exceeding 90.

Inspection and Test

The physical properties of the sections are contained in the Inland Steel Products Co. catalogue. These values

MINUTES

have been checked by physical tests conducted at the applicant's plant located in Milwaukee, Wisconsin in the presence of Asst. Engrs. J. A. Darts and G. Sklenarik, Committee on Test and M. G. Robertson representing the applicant.

Test procedure.

Deflection tests were conducted on the following specimens with the following results:

1. Specimen	Span	Deflection at Design Load	
		Theoretical	Actual
1. B-18	10'-0"	1.12	0.93
2. B-16	10'-0"	1.08	1.02
3. B-14	12'-0"	1.52	1.52
4. C-18	15'-0"	0.79	0.79
5. C-14	19'-3"	1.52	1.52
6. BF-18-16	6'-0"	0.270	0.242
7. BF-16-16	7'-0"	0.40	0.40
8. BF-14-14	7'-0"	0.394	0.345
9. FB-18-16	7'-0"	0.47	0.46
10. FB-16-16	7'-0"	0.47	0.42
11. FB-14-14	8'-0"	0.59	0.56
12. BB-18-18	9'-0"	0.43	0.43
13. BB-18-16	9'-0"	0.41	0.41
14. BB-16-16	12'-0"	0.79	0.77
15. BB-14-14	10'-0"	0.561	0.478
16. BB-12-12	15'-6"	1.345	1.20
17. CF-18-16	12'-0"	0.402	0.317
18. CF-16-16	14'-6"	0.63	0.63
19. CF-14-14	16'-0"	0.77	0.69
20. FC-18-16	15'-6"	0.83	0.75
21. FC-16-16	14'-6"	0.69	0.68
22. FC-14-14	16'-0"	0.83	0.83
23. FC-14-12	20'-0"	1.36	1.20
24. BC-16-16	17'-6"	0.82	0.82
25. BC-12-12	19'-6"	1.00	0.98
26. CC-16-16	19'-9"	0.75	0.69

The loading for the deflection tests were conducted in accordance with the requirements of C26-626.0 Administrative Building Code.

Web strength tests were conducted on the following specimens with the following results:

Section	Span	Theoretical	Actual
C-18	7'-0"	1590 lbs.	5220 lbs.
C-16	7'-0"	2690 lbs.	7200 lbs.
B-16		3360 lbs.	9200 lbs.

It will be noted that the tests were conducted to demonstrate that the panels are designed according to engineering practice as recommended by the American Iron and Steel Institute in their specifications for the Design of Light Gauge Steel Structural Members published in the Light Gauge Steel Design Manual dated January 1949.

A fire test was conducted at the Underwriters Laboratory in Chicago, Illinois, in the presence of the same persons witnessing the load test. The test was conducted in accordance with the requirements of C26-588.0, C26-589.0 and C26-590.0 Administrative Building Code.

The construction of the test panel was as follows:

The Cellufloor units, designated as a BB section, were installed in such a manner that the units rested on the outer edges of the furnace and also rested on a 12 inch 27 lb. I beam so that the construction was basically two simple beams. Where the two units of Cellufloor met at the I beam a 6 inch 16 gauge cover plate was installed and the whole upper section of the floor was protected by means of 3 1/4 of 2500 p.s.i. structural sand and gravel concrete. The under side of the floor was protected by a metal lath and perlite gypsum plaster ceiling; this ceiling was installed in the following manner. Wire ties, 18 gauge galvanized, were hooked over the joining legs of the cellufloor panels every 2'-0" and 0'-4.8 inches along the length of the panel, the loose end of the wire was then tied to 3/8 inch high rib lath and the lath was drawn up snug against the under side of the cellufloor units. A mix of 100 lbs. of fibered gypsum to 2 1/2 cu. ft. of perlite is applied in two coats to a thickness of 1 inch is applied to the metal lath.

The structural beam is protected by wrapping the beam with the same type of lath, without any air space at the bottom flange, and then applying 1 1/2 inches of 1:2 1/2; 1:2 1/2 perlite plaster.

The complete assembly successfully met the fire hose stream tests as required under C26-588.0, C26-589.0 and C26-590 Administrative Building Code. The beam received a four hour fire resistive rating and the floor received a five hour resistive rating.

Recommendation

On the basis of the inspection and test and the data filed by the applicant the Committee on Test is of the opinion that Inland Steel Products Co. material known as Cellufloor Sections B, C, BF, FB, BB, CF, FC and BC are designed in accordance with engineering practice as recommended by the American Steel Institute in their specifications for the Design of Light Gauge Structural Steel Members, as published in Light Gauge Steel Design Manual dated January 1949 and accordingly recommends the approval of Cellufloor (Cellular steel floor panels) as manufactured by Inland Steel Products Co., for loads and deflections as calculated by the manufacturer in accordance with the formulae set forth in the above-mentioned manual; for use under the provisions of C26-241.0 as floors in non-fire-proof Class 3 buildings where no fire resistive rating is required; for roof construction under C26-241 and C26-243.0 when proportioned for loads as provided in C26-347.0, when protected with approved roof surfacing. Approval is further recommended for the use of the panels under C26-618.0 where fireproofing protection is omitted by the code from trusses.

It is further recommended that the bearing on supporting steel shall not be less than 3 inches; each panel shall have one 3/4 by 1/8 weld to supporting steel at each end; longitudinal joints to be welded at not more than 4'-0" on centers (all welding to comply with the Fusion Welding Rules of the Board); all welds to be coated with sealing coat of paint.

Openings in any floor or roof construction greater than 30 sq. inches must be reinforced with compensating steel.

The Committee further recommends that the sections herein described may be used as a floor or roof construction in Class I and Class II buildings as set forth under C26-239.0 and C26-240 Administrative Building Code when the floor or roof is constructed as herein described; consisting of the cellular steel panel, 3 1/4 inches of 2500 p.s.i. sand and gravel concrete on top and protected with a 3/8 inch high rib lath, drawn snug against the lower plane of the cellular panels, and 1 inch of perlite plaster (1:2 1/2, 1:2 1/2 mix) when applied in accordance with the requirements of C26-464.0 Administrative Building Code, to the face of the lath and further that any structural steel beams that forms part of this construction shall be protected with 1 1/2 inches of perlite plaster applied to 3/8 inch high rib lath, drawn snug against the beam.

The Committee further recommends that all plans filed with the Department of Buildings showing the proposed use of this type of construction shall be stamped or labeled "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 984-54 SM" and further that all invoices, bills of lading and for bills of material shall be similarly marked.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,

GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test

Resolved, that the Board of Standards and Appeals does hereby amend the resolution of February 15, 1956 in accordance with the above report.

1014-54-SA

APPLICANT—The Bica Co., owner.

SUBJECT—Application December 17, 1954—Sonic Ray Heaters (gas-fired), Models D, F, T, AD, AF and AT, approval of.

APPEARANCES—

For Applicant: Irving F. Poerass and Guy Conforti.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 1014-54-SA

Subject: Sonic Ray Heaters (Gas-Fired) Models D, F, T, AD, AF and AT.

The Bica Company of Girard, Ohio, owner-manufacturer, filed December 17, 1954 an application with the Board of Standards and Appeals for approval of the Sonic Ray Heaters (gas-fired) models D, F, T, AD, AF and AT under the provisions of C-19-91.0 Administrative Code and the requirements of the Fire Commissioner.

Purpose

Salamanders for providing heat for the setting of concrete and drying of plaster during cold weather.

Description

The Sonic Ray Heaters are cylindrical shaped salamanders designed to burn liquefied petroleum gas (propane).

The heaters consist of an outer steel shell mounted on four legs. A head plate is secured by brackets to the outer shell. The head plate carries an inner cylindrical heat deflector that fits concentrically into the shell. Below the inner heat deflector is a jet type burner so placed that its flame impinges on the under side of the deflector. This causes the flame to come up the sides of the heater between the deflector and the outer shell, heating the top and sides of the unit.

The fuel, propane gas, is supplied to the burner from a standard I.C.C. cylinder equipped with a non-adjustable type regulator which is factory set for a pressure not to exceed 11 inches w.c. and a heavy wall neoprene hose made with threaded connections.

The heaters are available with a pilot light and Minneapolis-Honeywell automatic gas shut-off valve. In addition the T models have temperature control.

Models AD, AF and AT are rated at 50,000 BTU per hour input.

Models D, F and T, are rated at 85,000 BTU and up. The higher heat rating is accomplished by using a larger burner orifice or by increasing gas pressure.

Inspection and Test

Sample heaters were inspected at the Stilcon Sales Corp., Long Island City. Present were Asst. Engr. G. F. Sklenarik, Committee on Test and representatives of the applicant.

A model F unit was tested for operation and automatic gas shut off. Automatic gas shut off was effected within 60 seconds after flame extinguishment.

Recommendation

Sonic Ray Heater models AD, AF and AT rated at 50,000 Btu hour input have been tested and found to conform to the safety standards of the American Gas Association for unvented space heaters. Models D, F and T, because of their higher input ratings, are not acceptable to the American Gas Association as unvented space heaters. Since models D, F and T are not designed for venting, the Committee on Test recommends the approval for use in New York City as unvented salamanders, only the Sonic Ray Heaters, Models AD, AF and AT when equipped with automatic gas

shutoff valves under the provisions of section C-19-91.0 Administrative Code, the requirements of the Fire Commissioner and Rule 2.7 of the Rules of the Board for the Erection, Alteration, Repair, Excavation for and Demolition of Buildings and provided each such appliance will bear a label, permanently affixed, reading "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 1014-54 SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,

GEORGE F. SKLENARIK,

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated July 20, 1956, on N. B. Apps. 862 and 863 of 1955, reads:

"1. Proposed changes are contrary to Bd. of Standards & Appeals ruling per 221-55-A and may be submitted for their reconsideration."

and

WHEREAS, the applicant states that as to 266-14 East Williston avenue, located on Lot 22, to which N. B. App. 862/55 applies, that this lot is located almost entirely within the local retail use, D area district, and that it is proposed to attach a one car garage to the east side of the dwelling, the garage to be built of concrete blocks with a brick front; and it is also proposed to finish the attic with three rooms and bath to be used as a second apartment, making this a two-family dwelling; and

WHEREAS, the applicant states as to premises 84-20 267th street, southwest corner of East Williston avenue, located on Lot 28 to which N. B. App. 863/55 applies, that permission is requested to reverse the building but leave the garage in the same position as formerly approved under Cal. No. 221-55-A, Vol. I, and to finish three rooms and bath in the attic and to occupy this building as a single family dwelling as previously permitted; and

WHEREAS, the applicant states that the remaining building subject to action by the Board under Volume I of this appeal, to which N. B. App. 864/55 applies, located at 84-26 267th street, will remain unchanged and this application does not now apply to that building.

Resolved, that the decision of the borough superintendent, dated July 20, 1956, acting on N. B. App. 862 & 863/55 be and it hereby is *modified* and that the appeal be and it hereby is *granted* to permit the changes as proposed and as indicated on plans filed with this appeal marked "Received July 20, 1956" (7 sheets), *on condition* that in all other respects the buildings and occupancy shall comply with all laws, rules and regulations applicable thereto and the requirements of the resolution adopted May 10, 1955, where not inconsistent with the terms of this amended resolution.

668-55-A

APPLICANT—Hurley and Hughes, for Chase Manhattan Bank, owner.

SUBJECT—Application August 22, 1955—Appeal from a decision of the borough superintendent, re egress.

PREMISES AFFECTED—212 Broadway and 165 Fulton street, northeast corner, Block 89, Lot 12, Borough of Manhattan.

APPEARANCES—

For Applicant: Edward J. Hurley.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated August 5, 1955, on Alt. App. 418/55 reads:

"Provide two means of egress for all tenants all floors leading directly to the street and enclosed as required by Sect. 271 of the Labor Law and Rules of B. S. & A. Floors shall include cellar and 1st floor.

"A fire escape is not acceptable as a second means of egress in a factory bldg. over 5 stories high. 271 L.L."

and

WHEREAS, the applicant states the building is 6 stories, and penthouse, 75 ft. in height, 29 ft. by 76.2 ft. in area,

of class 3 construction, erected prior 1870, located in a retail use, B area, class 2½ height district, and used and occupied since prior to 1916 as follows: sub-cellar—boiler room, no persons; cellar—pen repairs and book storage; 1st floor—stores, 10 persons; 2nd floor—to 6th floors inclusive—manufacturing clothing and the repair and sales of business machines, 18 persons on the 2nd, 5 on the 3rd, one on the 4th, 3 on the 5th and 8 on the 6th; penthouse, manufacturing jewelry, number of occupants not stated; no change in use or occupancy is now proposed. The building is with an interior fire alarm system and regular monthly fire drills are maintained; there is one interior steel stairs with slate treads enclosed in fireproof and fire retarded partitions, equipped with kalamein self-closing doors; stairhall leads from penthouse direct to street, in addition, there is a fire escape on the Fulton Street side extending to roof by ladder and to street by counterbalanced ladder; window and door openings on the course of the fire escape are fireproof self-closing; and

WHEREAS, Violation 705 was issued January 28, 1955 for occupying the building as a factory with 13 persons at manufacturing throughout the building, including the cellar, contrary to its approved use as an office building; and

WHEREAS, the applicant states the building was erected prior to 1870 and the penthouse added in 1870; the Fire Department records show the building occupied as store and lofts in 1915, and most of the building occupied for light manufacturing in 1919, including eye-glass grinding, jewelry repairing, tailoring, clock repairing, jewelry engraving and photo studios; that the exits were legalized in 1919 under Fire Department Order No. 90482LF and the fire alarm system installed under Fire Department Order No. 93408LF; that inspection in 1933, showed the occupancy unchanged; that the net rentable area on the 2nd to 6th floors is 1367 sq. ft. per floor; that the occupancy averages 10 persons per floor; that exits consist of a 3 ft. wide fire retarded stairway and a Labor Law fire escape; that as all of the manufacturing in the building is of the light type, such as watch repairing, typewriter repairing, pen repairing, tailoring, and jewelry repairing, shirtmaking and as the manufacturing is limited to 25 per cent of the floor area, and as the stores on the first floor are small, it is impractical to provide a second means of egress; that there is no manufacturing in the stores; that most of the cellar is used for book storage, with no human occupancy; that in view of the long established use, the low occupancy and the small area involved, it is requested that the exits be accepted as shown on plans filed with this appeal; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. App. 418-55, and that the appeal be and it hereby is *granted*, *on condition* that the means of exit as indicated on plans filed with this appeal, marked "Received August 22, 1955", (9 sheets), shall be maintained as proposed and the exterior fire escape along Fulton street may be permitted as a second means of exit, as shown thereon, provided there is a counter-balanced ladder to the street and that the primary means of exit extends to the roof, as shown; that the interior fire alarm system and regular monthly fire drills shall be maintained in accordance with the requirements therefor; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto, including the requirements of the State Labor Law.

458-56-A

APPLICANT—Julius Eckmann, for 509 Madison Avenue Corp., owner.

SUBJECT—Application June 18, 1956—Appeal from a decision of the Fire Commissioner, re maintenance of fire drills.

MINUTES

PREMISES AFFECTED—509 Madison avenue and 28-30 East 53rd street, southeast corner, Block 1288, Lot 51, Borough of Manhattan.

APPEARANCES—

For Applicant: Julius Eckmann.

For Administration: Lieut. John P. Manfredi, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the fire commissioner, dated June 12, 1956, reads:

"With reference to your letter of June 8, 1956, please be advised that your request for the owner of the above premises to be 'relieved of the requirement to conduct monthly fire drills' must be denied.

The State Labor Law requires this drill as well as a fire alarm in a factory building with more than 25 persons above the first story."

and

WHEREAS, the applicant states the building is 22 stories, 248 ft. in height, 100.5 ft. by 68.4 feet in area, fireproof construction, erected in 1928, located in a restricted retail use, B area, Class 2 height district; used and occupied since 1929 as follows: cellar—lunchroom and stockrooms, 25 persons; 1st floor—stores, 40 persons; mezzanine—stores and repairs, 15 persons; 2nd floor—offices, showroom, furrier, 40 persons; 3d floor—Offices, showrooms, dresses and tailor, 40 persons; 4th to 18th stories—offices and showrooms, 40 persons per floor except the 17th and 18th floors which have 40 persons each; 19th floor—offices, showrooms and dental laboratory, 40 persons; 20th floor—offices, showrooms and tailor, 40 persons; 21st floor—offices, showrooms, jeweler, and millinery manufacturing, 30 persons; 22nd floor, offices, 15 persons. No change in use or occupancy is now proposed. The building is provided with approved standpipe and interior fire alarm system and regular monthly fire drills are maintained. There is one 3 ft. 8 in. wide fireproof stairs and one fire tower; and

WHEREAS, Certificate of Occupancy #15463 issued July 26, 1929, against N.B. 393/28 permits the following: 1st floor—stores; 2nd to 21st floors—showrooms, office and factory, 60 persons per floor; pent house—apartment and contains the stipulation that not more than 25% of floor area is to be used for manufacturing; and

WHEREAS, the applicant states the building is primarily used for showrooms and offices with a small percentage used for manufacturing; that the total floor area is 95,300 sq. ft. of which 43,000 sq. ft. is used for offices; 42,000 sq. ft. for showrooms and 10,300 sq. ft. for manufacturing of which only 5300 sq. ft. is actual factory area and 5000 sq. ft. for office space in connection therewith; that the total number of factory employees is 29 persons; that the total number of persons permitted throughout the building is 1200; that of the 29 persons engaged in factory work, it is only 3% in excess of the permitted occupancy; that as the fire drill is required when more than 25 persons above the first floor are engaged in factory work, the requirements for this building is due to the excess of only eight persons at factory work; that to be required to maintain fire drills would impose a hardship, in that several hundred occupants are affected and their office and business routine would be disturbed by fire drills; that the factory work in the building is not hazardous and not of the type requiring any special permit from the Fire Commissioner; and

WHEREAS, the applicant stated that the number of persons engaged in work for a factory would be gradually decreased as statutory tenants removed and ultimately there would be no factory work in the building.

Resolved, that the decision of the fire commissioner, dated June 12, 1956, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, to permit the omission

of the fire drills, as shown on plans filed with this appeal, marked "Received June 18, 1956" (11 sheets), *on condition* that the number of persons engaged at factory work shall be less than thirty persons; and that in the event there are more than 30 persons engaged in factory work and the building is occupied throughout substantially for manufacturing, the requirement for the fire drill shall be restored; that this variance shall continue for a term of one year from the date of this resolution.

588-40-A

APPLICANT—Henry L. McCarthy, for The City of New York Department of Welfare, owner.

SUBJECT—Application for consideration—reopening for extension of term of variance which expired February 17, 1953—re Appeal from a decision of the borough superintendent; previously granted on condition.

THE RESOLUTION—

WHEREAS, this application was amended by the Board as Vol. II, on July 28, 1953, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution and extension of time to complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 28, 1953, only so far as it refers to the location of the gasoline pumps so that as *amended* this portion of the resolution shall read:

"that the number of gasoline pumps shall not exceed eight and shall be of an approved low type and erected not nearer than 15 ft. to the street building line of Hylan Boulevard except that the existing pumps may be permitted to be continued in their present location until such time as the Borough President requires the sidewalks to be installed at which time the pumps shall be moved to comply with the requirements of the resolution; and to extend the time within which to obtain permits and complete the work so that as *amended* this portion of the resolution shall read:

"that all permits shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution from the date of this *amended* resolution; that in all other respects the resolution above cited shall be complied with." (Alt. App. 309/52 and Alt. App. 422/56.)

928-54-BZ

APPLICANT—Larry Meltzer, for Jack and Palma Tarulli, owners.

SUBJECT—Application for consideration—reopening for extension of time to complete—re Application (decision of the borough superintendent); previously granted on condition, under sections 21, 7e and 7f of the zoning resolution, permitting in a business use, D area district, the demolition of frame office, structure and permitting the extension of existing class 3 structure using more than the area permitted, to be used by fuel oil distributor, storage, sale and service of oil burner, parts and equipment, and permitting the use of structure as a storage garage for owner's motor vehicles, no public sale of gasoline.

PREMISES AFFECTED—8726-8730 18th avenue, west side, 103 ft. 3½ in. south of Rutherford place, Block 6402, Lot 36, Borough of Brooklyn.

APPEARANCES—

For Applicant: Larry Meltzer.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and time to complete work extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on November 22, 1955, on certain conditions; and

WHEREAS, the applicant requested an extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on November 22, 1955, as follows:

"*Resolved*, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulation of the zoning resolution and that the application be and it hereby is *granted* under Section 7f as to use and Section 21 as to area, for a term of ten (10) years, to permit the extension of the building as proposed and as indicated on plans filed with this application, marked 'October 6, 1955', 1 sheet, and 'December 7, 1954', 5 sheets, *on condition* that the building shall not be increased in height or area beyond what is proposed and in all other respects shall comply with all laws, rules and regulations applicable thereto for the use proposed in connection with adjoining and abutting buildings on the same plot operated by the owner in the fuel oil distribution business; that two additional 550 gallon gasoline storage tanks may be installed within the building for use by this owner in connection with the pump permitted by the Fire Department within the building for his private use; that any curb cut to the premises shall be subject to a legal permit therefor; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution." (N.B. 443/48.)

678-55-BZ

APPLICANT—Lama, Proskauer and Prober, for The Dime Savings Bank of Brooklyn, Sidney Silverman, Max Zeisk and Howard I. Goldberg, owners.

SUBJECT—Application for consideration—reopening for extension of time to complete which expired November 15, 1956—re Application (decision of the borough superintendent); previously granted on condition, under section 7c of the zoning resolution, permitting in a business and residence use district, the extension of present banking facilities in a business use district, into the residence use district and the parking of patron's and executive's cars (no fee charged) in conjunction with new Drive-In Banking Booth.

PREMISES AFFECTED—8501-8523 19th avenue and 1901-1911 86th street, northeast corner and 1902-1910 85th street, Block 6345, Lots 1, 6, 9 and 11, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and time to complete work extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on November 15, 1955, on certain conditions; and

WHEREAS, the resolution was amended on April 3, 1956; and

WHEREAS, the applicant requested an extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on November 15, 1955 only as to the time within which to obtain permits and complete the work, so that as *amended* this portion of the resolution shall read:

3
University of Illinois Library
Serials Dept.
Chicago, Ill.

MINUTES

"that in view of the statement by the applicant that plans have been approved by the Department of Buildings, and that contracts have been let, that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this *amended* resolution." (Alt. App. 2865/55.)

765-55-BZ

APPLICANT—Leonard F. Rothkrug, for Nicholas Esposito, d/b/a Nick's Service Station, owner.

SUBJECT—Application for consideration—reopening for amendment of resolution—re Application (decision of the borough superintendent); previously granted on condition, under sections 7c and 7i of the zoning resolution, permitting in a residence use D area district, the extension of an existing gas station to include auto accessories, lubritorium, motor repairs and auto laundry.

PREMISES AFFECTED—56-01 Main street, southeast corner of 56th avenue, Block 5165, Lot 28, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on July 3, 1956, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 3, 1956 by adding thereto:

"that in the event the owner desires to construct the accessory building to a total width of 83 ft. as now proposed and as shown on revised plans marked 'Received October 26, 1956' (one sheet), such changes may be made *on condition* that in all other respects the resolution above cited shall be complied with." (Alt. 1531/55.)

Adjourned: 5:00 P.M.

JOSEPH J. DOYLE, *Chief Clerk.*

RECOMMENDATIONS

RE: ZONING RESOLUTION Section 21-C

1. Due to the size of the area proposed for change it is recommended that all property owners in area selected and within 1,000 feet, shall be notified by Registered Mail, not less than 30 days prior to hearing by the Board of Standards and Appeals.
2. Required publication in local newspaper of general circulation, of proposed change, including map or diagram of affected area.
3. The Board of Standards and Appeals, at the time the above notification is given to the property owners, shall be required to also give notice of any improvements required, such as sewers, street widening, schools, etc., in connection with, or as a result of the project construction. Estimated amount of general capital budget expenditure in connection therewith and if assessable the estimated amount and proration of the same to be charged on local property, the Borough or City at large. The said notice to be given to the property owners entitled to notice by Registered Mail.
4. Written area notices and the opportunity to approve, or reject, shall not be deemed to limit or preclude public protest, in the public interest, without regard to ownership of property in the area.

5. *Proof of ownership of the selected site must be a requirement for filing a petition by the applicant for "Project" or zone change approval.*
6. The names and addresses of all actually interested parties, members, officers and corporate stock owners or other interests, must be filed with the application to the Board of Standards and Appeals and copies shall be made available for public inspection and distribution.
7. Proof of financial responsibility for completion, plus a performance bond to insure start and completion within a stated period of time. Such time to be established and approved by the Board of Standards and Appeals.
8. As a prerequisite to any change in connection with Section 21-C or related sections, notice shall be given to the President of the Borough in which the change is to be made and shall require a record of his approval or disapproval.
9. All applicants should be required to acknowledge that they have examined the surrounding area and the zoning restrictions in effect in the adjacent area, to preclude subsequent claim of hardship or damage in connection with subsequent petitions for change in the surrounding area.
10. The application for such change shall state if separate action will be taken by the project or property owner for tax exemption, abatement or other change in taxes or valuation in connection with the construction of the project.

SECTION 21-C

Statement to the City Planning Commission
by Reginald S. Hardy, Attorney-at-Law

I should like to take this opportunity to express my objection to the adoption of these amendments, both as a spokesman for and representative of Twenty Third Street Association, Incorporated and as an attorney who has had considerable experience in matters relating to the zoning of real property.

It would serve no useful purpose to discuss the terms of these proposed amendments in this memorandum. They purport to clothe the City Planning Commission with power to grant exemptions, exceptions or variances from the use, height and area district regulations imposed by the Zoning Resolution in cases involving so-called "large scale projects".

The term "large scale project" is not truly descriptive of the situations contemplated by these amendments. If they are adopted, some of their provisions would apply to plots of property having areas of but 75,000 square feet, or approximately one-half the size of many conventional blocks in this City. Other provisions would apply to plots having areas of 100,000 or 200,000 square feet. It is, therefore, apparent that these amendments relate to many properties which cannot be considered as the site of a "large scale project". We must, therefore, treat them as having general application throughout the City and not merely to properties involved in major rehabilitation or development programs.

I fail to see why any large scale project should require special zoning treatment. If, however, experience has demonstrated that such special treatment is necessary, I submit that it should be limited to major development programs and not extended to projects which involve only one or two city blocks.

In my opinion, the amendments under consideration are subject to the following objections:

I

The power to vary regulations imposed by the Zoning Resolution is vested in the Board of Standards and Appeals exclusively. The City Planning Commission is without power to vary such regulations.

II

All applications for variances of zoning regulations should be addressed to the Board of Standards and Appeals, which

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert,

Commissioner Keating and Deputy Chief Connolly.. 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on September 18, 1956 subject to regular procedure, to consider reconstruction; and

WHEREAS, a public hearing was held on this application on November 14, 1956 after due notice by publication in the Bulletin; laid over to November 27, 1956, for applicant to furnish additional information as to the present Lot No. 1; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in business and retail use, C area, class 1 height districts; Utica avenue is in a business use, C area, class 1 height district; Remsen avenue is in business, residence and retail use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated July 23, 1956 acting on N.B. Applic. 919-56, reads:

"1. Proposed reconstruction of the existing gasoline service station and extension of lot and change of use to gasoline service station, lubritorium, store, minor auto repairs, car washing, storage, parking and storage of motor vehicles on a plot partly in 'Business' and partly in a 'Retail' zone is contrary to Article II, PP. 4a, subsection 29 and 46 and Art. II, PP. 4-A of the Zoning Resolution."

(Note: These premises were the subject of a Board of Standards and Appeals variance under Cal. #797-28-BZ and an action by the Supreme Court).

MINUTES

and

WHEREAS, the decision of the borough superintendent, dated June 12, 1956 acting on Alt. Applic. No. 1536-56, reads:

"1. Proposed change of use from grease pits and auto laundry to house not more than five (5) cars to garage for more than 5 motor vehicles, lubrication, car washing, and minor auto repairs, on a plot partly in a Business and partly in a Retail zone is contrary to Art. II, PP. 4a, subsection 15 and 29 and Art. II, PP. 4-A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 155 ft. 5 in. frontage by 46 ft. 2 $\frac{3}{8}$ in. in depth, irregular, presently developed with a gas station consisting of eight 550 gallon gasoline tanks, six dispensing pumps, two open post lifts and several buildings; that building A is one story in height of class 3 construction, with a frontage of 24 ft., a depth of 10 ft., and now occupied as office and sales; that building B is one story in height of class 4 construction, with a frontage of 20 ft., a depth of 12 ft. and now occupied as an office; that building C is one story in height, of class 4 construction, having a frontage of 12 ft., a depth of 12 ft. and now occupied as an office; that building D is one story in height of class 3 construction, having a frontage of 44 ft. 7 $\frac{1}{4}$ in., an irregular depth of 63 ft. 1/9 in. and now occupied as garage, lubritorium, minor auto repairs and car washing; and

WHEREAS, the applicant states that the premises are located in a class 1 height district and a class C area district; that part of the premises within 100 ft. of Utica avenue is in a business use district and the balance of the premises is in a retail use district; that as of July 25, 1916 the entire premises was in a business use district and that part now within the retail use district received its present use classification on March 25, 1954; and

WHEREAS, the applicant states that department of buildings records show that the gasoline station on what is now known as Lot No. 1 was erected under Applic. No. 1117-1931 and certificate of occupancy No. 63959 was issued for office gasoline selling station and greasing pits on a plot having a frontage of 46 ft. 2 $\frac{3}{8}$ in. on East New York avenue, 40 ft. on Utica avenue, 49 ft. 2 $\frac{1}{8}$ in. on Remsen avenue and 74 ft. 9 $\frac{5}{8}$ in. on the southerly lot line; that said gas station was denied by the Board under Cal. No. 797-28-BZ; that the Board was reversed by the courts and permit issued by the department of buildings; that records further reveal that the building on lot No. 7 shown as building D was erected under N.B. Applic. 2928-1933 and certificate of occupancy No. 72611 was issued for greasing pits and auto laundry to house not more than five cars at any time; that no permits are revealed in the records for buildings B and C; and

WHEREAS, the applicant further states that it is now proposed to reconstruct the existing gas station by erecting a new accessory building one story in height, of class 3 construction, having a frontage of 44 ft., a depth of 27 ft. 8 in. and to contain the conjunctive uses of store, utility room, lubritory, car wash and minor auto repairs; that it is also proposed to rearrange the pumps so that they will not be nearer than 15 ft. to the street building lines and add two additional 550 gallon gasoline tanks, making a total of ten tanks; that it is further proposed to alter the building on lot No. 7 by opening two overhead doors facing the gas station and installing two lifts, and change the use of the building to non-storage garage for more than five motor vehicles, lubrication, car wash and minor auto repairs; and

WHEREAS, the applicant contends that the present gas station has been in operation since its inception in 1931 so that it has proven that it is in keeping and a required service at this point as Remsen avenue and Utica avenue are heavily trafficked auto lanes leading north and south across Brooklyn; that its rehabilitation will enable more efficient service to the public and improve the appearance of the community by the removal of the present old buildings and the erection of a new and modern, clean looking

accessory building; that although Utica avenue is in a business zone and Remsen avenue is partly in a business and partly in a retail use district, said streets have developed along the lines of and with uses only permitted in an unrestricted zone as shown by the many non-conforming uses now in the affected area, as follows: block 4593, lot 110—auto repair shop; block 4591, lots 12, 63 and 58—auto repair shop; block 4591, lots 54 and 48—gas station; block 4589, lot 95—auto laundry; that block 4593, lot 92, in a residence zone, is being used as a used car lot which is a non-conforming use in said zone and block 1430, lot 22 is being used by an ice cream company with its attendant heavy trucking and manufacturing use; that block 1424, lot 43; block 4591, lots 12, 18 and 23; block 4592, lot 4 and block 4588, lot 84 are being used for either parking lots or used car lots and although these uses are permissible, said uses, together with the non-conforming uses above outlined indicate that the entire affected area is generally devoted to the automobile trade, proving that the contemplated rehabilitation is in entire accord with the manner in which the area has developed; that inasmuch as the site has the legal non-conforming uses of a gas station, greasing pits and an automobile laundry, the proposed extension and additional conjunctive uses cannot affect the area; and

WHEREAS, the applicant states that the present owner has held title to lot 1, part A since September 17, 1934 and to part B since April 10, 1935; lot 7—September 17, 1934; that the assessed valuation of land is \$69,600 and of the buildings \$20,400 making a total of \$90,000; that the buildings were erected in 1931 and 1933; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, this gasoline station in part was granted by the court after denial by the Board under Vol. I in 1928 and at that time the plot known as lot 1 was 40 feet deep; that since that time the uses in connection with the gasoline station have spread over to other lots, 4, 82, 83 and 6, which have been merged into lot 1 in 1944 and 1945 and have been used for uses accessory to the gasoline station without variance; and that lot 7 is also part of this application; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions c and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7c, to permit the extension of the uses and area of the existing gasoline service station permitted by the court in reviewing the decision of the Board in 1928, substantially as now proposed and indicated on plans filed with this application, marked "Received July 23, 1956", 9 sheets, on condition that all buildings and uses on the premises not proposed to be retained shall be removed and the site rearranged and constructed as shown on aforementioned plans; that the proposed accessory building shall be located where shown, of the design indicated, faced on all sides with face brick, and shall have no cellar; that in all other respects the accessory building shall comply with the requirements of the Building Code; that all existing open grease pits shall be removed and installed in buildings as proposed; that pumps shall be of a low approved type, erected not nearer than 15 ft. to the street building lines of Remsen and Utica avenues; that curb cuts shall be restricted to the existing and proposed cuts shown on proposed plans, subject to proper permits; that where not occupied by accessory buildings and pumps, the plot shall be paved with concrete or asphalt; that the sidewalks and paving abutting the site shall be reconstructed or repaired to the satisfaction of the Borough President; that at the intersection of East New York avenue, Utica avenue and Remsen avenue there shall be erected a block of concrete not less than 12 in. high, extending for 5 feet along each building line; that signs shall be restricted to permanent signs attached to the facades of buildings, excluding all roof signs and tem-

MINUTES

porary signs, but permitting the erection within the building line of East New York avenue of two post standards, each to support a brand sign, which may extend not more than 4 feet over the building line; that on the interior lot lines where walls of proposed buildings do not occur, there shall be erected brick walls not less than 5 ft. 6 in. in height; that any windows opening on the interior lot lines shall be filled with glass blocks as approved for exterior walls; that such portable fire-fighting appliances shall be installed as the fire commissioner shall direct; that under section 7i there may be minor repairing with hand tools only for adjustments done solely within the accessory buildings; that there may also be parking and storage of cars on such portions of the premises as will not interfere with the service of the station; and that all permits required, including a new certificate of occupancy, shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

190-42-BZ—Vol. II

APPLICANT—Ingram S. Carner, for Pat Copertino, owner (Shell Oil Company, proposed lessee).

SUBJECT—Application reopened June 26, 1956 as Vol. II—re (decision of the borough superintendent) under sections 7f, 7i, 7h and 7e of the zoning resolution, to permit in a business and residence use district, the erection and maintenance of a gasoline service station, car wash, lubritorium, minor repairs with hand tools only, office, sales and storage of accessories, parking and storage of more than 5 cars waiting to be serviced.

PREMISES AFFECTED—7602-7622 New Utrecht avenue and 1638-1644 76th street, southwest corner, Block 6236, Lot 23, Borough of Brooklyn.

APPEARANCES—

For Applicant: Ingram S. Carner and Pat Copertino.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on June 26, 1956 subject to regular procedure, to consider extension of uses; and

WHEREAS, a public hearing was held on this application on October 30, 1956 after due notice by publication in the Bulletin; laid over to November 27, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, 76th street and 77th street are in business and residence use, C area, class 1 height districts; New Utrecht avenue is in a business use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated May 25, 1956 acting on N.B. Applic. 931-56, reads:

"1. Proposed building and premises on a lot partly in a business and partly in a Residence zone, to be used for Gasoline service station, car washing (non-automatic), lubritorium, minor repairs (hand tools only), office, sales and storage of auto accessories, parking of more than 5 cars waiting to be serviced, is contrary to Art. II, PP. 3 and PP. 4a, subsections 29 and 46 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 200 ft., 5½ in. frontage by 104 ft. in depth, irregular, now occupied by parking lot for more than five cars; that it is proposed to construct entirely within the business use district portion of the plot, a gasoline service station, lubritorium, auto washing (non-automatic), office, storage and sales of automobile accessories, and parking of cars waiting to be serviced, for a term of fifteen years; and

WHEREAS, the applicant states that the property referred to is presently zoned as a class 1 height district and a C area district; that the portion of the property within 100 ft. of New Utrecht avenue is presently zoned as a business district and the remainder is zoned as a residence district; that these designations have not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the applicant contends that there is no economic demand for the development of the premises for any use, other than as proposed; that nearby stores adequately serve the needs of the neighborhood and any additional stores would merely depreciate the rental value of existing stores in the neighborhood; that there is no economic demand for the development of the premises for residential purposes, as the property is located on New Utrecht avenue which is zoned and developed for business; that there is an economic demand for the development of the premises as a gas station because there is considerable local and transient support for said occupancy and because there is no similar use in the area of notification; that the proposed structure will provide more light and air to the adjoining properties, as it would occupy less area and bulk than a conforming use structure; that the structure would be limited to one story, 13 ft. 4 in. in height, whereas without a variance, a structure could be built to a height of 70 ft. on the New Utrecht avenue and 76th street building lines; that the proposed structure would be limited to an area of only 1568 sq. ft. or approximately 20% of the area of the lot, whereas without a variance a conforming use structure could be built to cover an area approximately 88% of the area of the lot; that the proposed building set back from the intersection of New Utrecht avenue would promote public safety as it would give clear visibility to traffic, while a building built at the corner, without a variance, would create a blind intersection and endanger public safety; that a grant of this application, subject to safeguards and conditions imposed by the Board such as, limitation as to term of years, landscaping and fences, would be a more desirable development from the neighborhood viewpoint than many conforming uses, such as manufacturing, factories, drive-in refreshment stand, diner, bar and grill, all of which would be established without a variance, and without any protection to adjoining property owners such as fences and landscaping, and all of which could maintain off street loading and accessory parking with entrances on 76th street; that a grant of the proposed application for a term of fifteen years and subject to such conditions and safeguards as the Board may deem appropriate, would permit the development of unimproved, non-productive land without adversely affecting anyone; and

WHEREAS, the applicant states that the present owner has held title to the property since November 24, 1954; that the assessed valuation of land is \$17,500 and of the building \$2,500 making a total of \$20,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions f, i and e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted*, under Section 7f for a term of fifteen years, to permit the use of the premises as a gasoline service station and accessory uses, substantially as proposed and indicated on plans filed with this application marked "Received June 12, 1956", 3 sheets, *on condition* that all buildings, structures and other uses on the plot shall be removed and the site leveled substantially to the grade of New Utrecht avenue; that the accessory building shall be of the design and arrangement shown thereon, except that it shall be faced with face brick and the toilet rooms shall be arranged so that doors are not contiguous; that it shall have no cellar and in all other respects shall comply with the requirements of the Building Code; that along the southerly lot line where walls of adjoining buildings do not occur

MINUTES

there shall be erected a brick wall not less than 5 ft. 6 in. in height, of brick agreeing with that of the accessory building and shall extend along the westerly lot line where wall of accessory building does not occur and along the westerly and northerly wall to 76th street, where shown, except where walls of adjoining brick buildings occur; that curb cuts shall be restricted to three to New Utrecht avenue, two 30 ft. in width each and one 20 ft. in width and one curb cut 20 ft. wide on 76th street within the first 25 feet from the intersection; that no curb cut shall be nearer than 5 ft. to a lot line as prolonged; that at the intersections to the north and south there shall be erected a block of concrete not less than 12 in. high, extending not less than 5 ft. along the lot lines; that pumps shall be of a low approved type, erected not less than 15 ft. to the street building line of New Utrecht avenue; that tanks shall be limited to twelve 550 gallon approved storage tanks; that landscaped areas shall be maintained where shown, planted with suitable material, protected by curbing not less than 6 in. high and 6 in. wide; that the balance of the premises where not built upon or occupied by pumps shall be paved with concrete or asphalt; that the sidewalks and curbing abutting the site shall be reconstructed or repaired to the satisfaction of the Borough President; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall direct; that signs shall be restricted to permanent signs attached to the facade of the accessory building and the illuminated globes of the pumps, excluding all roof and temporary signs, but permitting the erection at two points where shown a post standard supporting a brand sign, which shall not extend beyond the building line of New Utrecht avenue for a distance of more than 4 feet; that under section 7i there may be minor repairing with hand tools only, for minor adjustments, maintained solely within the accessory building; that under section 7e for a similar term there may be parking of cars on such portion of the premises as not to interfere with the service of the station; that under section 7e there may also be included a portion of the premises toward the west, actually in the residence district; and that all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

77-52-BZ

APPLICANT—Joseph B. Koppelman, for Jacob Scheiner, owner.

SUBJECT—Application reopened October 30, 1956 for consideration as to extension of term of variance—expired June 8, 1956 and new owner—re (decision of the borough superintendent) previously granted on condition, under section 7h of the zoning resolution, permitting in a residence use district, the parking of owner's three trailer trucks, for a term of years.

PREMISES AFFECTED—98 Monroe street and 12 Pelham street, southeast corner, Block 255, Lot 41, Borough of Manhattan.

APPEARANCES—

For Applicant: Joseph Koppelman.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, on July 25, 1952 this application was granted by the Board on certain conditions, under section 7h of the zoning resolution, to permit in a residence use district the parking of owner's three trailer trucks, for a term of two years; and

WHEREAS, on June 8, 1954 the Board extended the term of variance for two years, to expire on June 8, 1956; and

WHEREAS, the applicant requested reopening of this application and extension of the term of variance, which had expired by time limitation on June 8, 1956; and

WHEREAS, this application was reopened on October 30, 1956 and set for hearing on November 27, 1956 at 10 A. M., subject to regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin and a copy of certificate of occupancy in effect to June 8, 1956; and

WHEREAS, a public hearing was held on this application on November 27, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated October 11, 1956 acting on Alt. Applic. 987-54, reads:

"Reconsideration is hereby requested of the following objection: Storage of trucks in Residence Use District is contrary to Section 3 Article 2 of the Zoning Resolution.

Disapproved 10/11/56.

Reconsideration of this objection was denied on 6/1/54. It will not be further considered."

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on July 25, 1952, only so far as it refers to the term of the variance so that as amended this portion of the resolution shall read:

"granted under Section 7h for a term of five years from the date of this amended resolution, to permit the use of the premises as heretofore permitted except that it may be used for the parking of five trucks of the present owner instead of three trailer trucks as stored by former owner . . .; that other than as herein amended the resolution above cited shall be complied with in all respects; and that all permits, including a new certificate of occupancy, shall be obtained and all work completed within three months from the date of this amended resolution."

839-55-BZ

APPLICANT—Fred C. Dahlem, for Ralph Acampora, owner (Henrietta Taylor, lessee).

SUBJECT—Application October 26, 1955—(decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence use district, the extension of the parking and storage of motor vehicles from the business into the residence portion of the plot.

PREMISES AFFECTED—32 Nagle avenue, north side, 277 ft. east of Broadway and 620 West 196th street, Block 2172, part of Lot 68, Borough of Manhattan.

APPEARANCES—

For Applicant: Fred C. Dahlem and Henrietta Taylor.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings and John J. Saunders, Board of Education.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 27, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and West 196th street are in business and residence use, B area, class 1½ height districts; Nagle avenue is in a business use, B area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated October 25, 1955 acting on Alt. Applic. 1122-55, reads:

"1. Parking and storage of motor vehicles on vacant land located in a Business Use Dist. and extending into

MINUTES

a Residence Use District is not permitted. Article II Sect. 3 of the Zoning Resolution."

and
WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 175 ft. in depth, irregular, on which is now located a parking lot in the business use portion of the plot; that it is proposed to legalize rear portion of lot 68 for parking and storage of more than five motor vehicles; and

WHEREAS, the applicant states that plot is located in a business and residence district; that the business portion, 100 ft. by 100 ft., has certificate of occupancy No. 36048; that the rear portion extends into a residence district, irregular in shape, 78 ft. by 29 ft. by 25 ft. by 58 ft. 8½ in. by 78 ft. by 100 ft.; that this entire plot was used for storage of wagons, carriages and early model cars; that when the department first filed a violation against the use of the property for parking and storage of more than five motor vehicles, the attorney went to trial and the court dismissed the case (Magistrate's docket No. 358 and Special Sessions docket No. 275); that a transcript of this case was given to the Public Safety Division on July, 1948; that these cases after three or four years are either destroyed or stacked away where it is impossible to get same; and

WHEREAS, the applicant contends that this property would require piles for any new structure and that it would be too costly to erect a new apartment house; that there is dire need for off street parking in this area and the need will be greater as soon as alternate parking is extended to this area of the city; and

WHEREAS, the applicant states that the present owner has held title to the property since October 15, 1948 and that the assessed valuation of land is \$41,200; and

WHEREAS, the premises and surrounding area were formerly inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit the lawfully existing parking lot within the business district to be extended within the residence use district as proposed and as shown on plans filed with this application marked "Received October 26, 1955", 2 sheets, *on condition* that the plot shall be leveled and treated with clean gravel or steam cinders and treated with a binder and properly rolled; that there shall be erected on the interior lot lines a woven wire fence of the chain link type not less than 5 ft. 6 in. in height, except where retaining walls occur on West 196th street, where there shall be a similar woven wire fence not less than four feet in height erected on such retaining wall; that no additional openings for entrance and exit shall be constructed; that entrance and exit shall be solely from Nagle avenue; that no additional buildings shall be erected; that no other use of the premises shall be maintained during the term of this variance; that along the side lot lines adjoining Lots 64 and 72 there shall be erected also a woven wire fence of the chain link type not less than 5 ft. 6 in. in height; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; and that all permits shall be obtained and all work completed within six months from the date of this resolution and a new certificate of occupancy shall be obtained covering the addition to the plot as herein permitted to be used in conjunction with the front portion facing Nagle avenue in the business use district as permitted by the Department of Buildings.

1003-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Hammer Food Products Corp., owner.

SUBJECT—Application December 21, 1955—(decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in an unrestricted and residence use, C area district, the extension of an existing building, to include uses of boiler room, soda bottling plant, storage of boxes and bottles, garage for not more than 5 motor vehicles, driveway, load and unloading platform and office; proposed extension to exceed the permitted area.

PREMISES AFFECTED—3216-3219 (3198 displayed) Atlantic avenue, and 2-24 Fountain avenue, southwest corner, Block 4154, Lot 45, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: Mrs. Grippi, Scheralli, Mary Byers, Virginia Milano and Maria Franjere.

For Administration: Samuel L. Becker, Dep't of Buildings and John J. Saunders, Board of Education.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 27, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, and Fountain avenue are in unrestricted and residence use, C area, class 1 height districts; Atlantic avenue is in manufacturing, residence and unrestricted use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated November 30, 1955 acting on Alt. Applic. 3634-55, reads:

"1. The proposed extension of the building in a "C" area zone exceeds the permitted area as prescribed in Art. IV, Sec. 13 of the Zoning Resolution.

2. The proposed extension of the use for boiler room, soda bottling plant, storage of boxes & bottles, garage for not more than five motor vehicles, driveway, loading and unloading platform, office in a premises located partly in an unrestricted use zone & partly in a residence use district is contrary to Art. II, Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 199 ft. 8½ in. frontage by 34 ft. in depth, irregular, now developed with two buildings; that building A is two stories in height, of class 3 construction having a frontage of 149 ft. 11½ in. on Fountain avenue and 34 ft. on Atlantic avenue, erected under N. B. Applic. 2122-1923 for use as ice factory, for which use certificate of occupancy No. 22686 was issued; that the building was later altered under Alt. Applic. 2079-1948 and the use changed as follows: cellar—boiler room; 1st floor—soda bottling plant, mezzanine and office; 2nd floor—storage of boxes and bottles; that certificate of occupancy No. 127654 was issued for said use; that building B is one story in height, of class 3 construction, having a frontage of 49 ft. 9 in. on Fountain avenue and a depth of 95 ft., erected under N. B. 1466-1948 for use as storage garage for not more than five motor vehicles, driveway and loading platform in connection with soda bottling plant to the north; that certificate of occupancy No. 125092 was issued for said use; that the buildings are now being occupied conjunctively as follows: cellar—boiler room; 1st floor—soda bottling plant, storage of boxes and bottles, garage for not more than five motor vehicles, driveway, unloading and loading platform; mezzanine—office; 2nd floor—storage of boxes and bottles; that it is proposed to maintain the present legal uses and erect a new one story extension at the rear of the site, of class 3 con-

MINUTES

struction, 39 ft. 5½ in. by 71 ft. 8¾ in., irregular in shape, for use as storage of boxes and bottles to be used in conjunction with the present soda bottling plant; and

WHEREAS, the applicant contends that the proposed extension is a permissible use in the unrestricted use district portion of the plot; that portion proposed to be built upon on the residence use district portion of the plot only amounts to 58 sq. ft. and it is proposed to extend the legal use into said area; that the proposed extension will occupy an area of 3,807 sq. ft. and as the allowable coverage is 2,317.8 sq. ft., the proposal is 1,589.2 sq. ft. in excess of the permissible coverage; that the proposal is adjoined on the west by coal pockets and a gas station, so that the excess coverage cannot materially affect the adjoining property; that the land is high in assessed value and it is mandatory that the owner use every available inch of space to meet the needs of his ever expanding business; and

WHEREAS, the applicant states that the present owner has held title to the property since January 26, 1948; that the assessed valuation of land is \$36,500 and of the buildings \$78,500 making a total of \$115,000; that the buildings were erected in 1923; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution, as to use, and that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21, and is therefore entitled to relief, as to area, on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulation of the zoning resolution and that the application be and it hereby is granted under Section 7c as to extension of use and Section 21 as to extension of area, to permit the extension of the building as now proposed and as indicated on plans filed with this application marked "Received December 21, 1955", 7 sheets, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that there shall be no windows in the proposed extension opening to the adjoining lots 59 and 27; that the building shall not be further increased in height or area; and that all permits shall be obtained and all work completed and a new certificate of occupancy obtained within the requirements of Section 22A of the zoning resolution.

1020-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Mary Ann Romanelli, owner.

SUBJECT—Application December 29, 1955—(decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence use district, proposed parking and storage of motor vehicles.

PREMISES AFFECTED—423-425 Lincoln road, north side, 156 ft. 6½ in. west of New York avenue and 376-380 Lefferts avenue, Block 1330, Lots 24 and 48, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 30, 1956 after due notice by publication in the Bulletin; laid over to November 27, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, C area, class 1¼ height district; New York avenue is in a business use, C area, class 1¼ height district; Lefferts avenue and Lincoln road are in business and residence use, C area, class 1¼ height districts; and

WHEREAS, the decision of the borough superintendent, dated December 1, 1955 acting on Alt. Applic. 4155-55, reads:

"1. Proposed parking and storage of motor vehicles in a residence use district is contrary to Art. II, Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 49 ft. 6¾ in. frontage by 208 ft. 4½ in. in depth, irregular; that the premises are presently being used for parking and storage of motor vehicles and it is proposed to secure a variance for a period of five years in order to maintain the present use of parking and storage of motor vehicles; and

WHEREAS, the applicant contends that the parking situation in this area is acute as there are many six story apartment buildings on Lefferts avenue without garage facilities and this has caused a very serious parking problem for the many car owners within the affected area; that the premises, with access to two streets, lends itself to the proposal and will do much to alleviate the hardship of the car owners; that the garages on adjoining lots 23 and 45 in block 1330, having more than three cars each, are non-conforming uses and the store on lot 44 in block 1330 is a non-conforming use; that the entire plot will be levelled and graded and surfaced with cinder paving; that a 4 ft. 6 in. high chain link fence will be erected on all lot lines where adjoining buildings do not occur and at both building lines, except for a 14 ft. wide opening at each building line; and

WHEREAS, the applicant states that the present owner has held title to the property since October 14, 1955 and that the assessed valuation of land is \$12,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years, to permit the premises to be occupied for the parking and storage of motor vehicles, *on condition* that the plot shall be leveled substantially to the grade of Lincoln road and Lefferts avenue; that all existing structures shall be removed and the plot leveled with clean gravel and steam cinders, treated with a binder and properly rolled; that there shall be erected on all lot lines where masonry walls of adjacent buildings do not occur on the lot lines, a woven wire fence of the chain link type, not less than 5 ft. 6 in. in height, all as shown on plans filed with this application, marked "Received December 29, 1955", 3 sheets; that a similar fence shall also be maintained along the building lines of Lefferts avenue and Lincoln road and on each there may be an opening for exit and entrance, where shown, not exceeding 17 ft. in width; that such openings shall be fitted with gates which shall normally be kept closed when the lot is not in operation; that during the term of this variance, the premises shall be occupied for no other use and no building shall be erected thereon; that such portable fire fighting appliances shall be maintained as the fire commissioner shall direct; that signs shall be restricted to a permanent sign at each entrance, advertising the parking and storage use, the rates charged and such other information as may be required by the Commissioner of Licenses; that each such sign shall be not over 15 sq. ft. in area, shall not be illuminated or extend beyond the building line; and that all permits, including a certificate of occupancy shall be obtained and all work completed within six (6) months from the date of this resolution.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: Stanley Steingut, Irving Lew, J. D'Amato, Yetta Cohen and Bessie Amendolara.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 9, 1956 after due notice by publication in the Bulletin; laid over to November 14, 1956, for inspection and decision; hearing closed; then to November 27, 1956, at request of the applicant, who stated that the owner may sell the premises for conforming use purposes; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and East 39th street are in retail and residence use, D area, class 1 height districts; Church avenue is in a retail use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated March 8, 1956 acting on N.B. Applic. 97-56, reads:

"1. Proposed gasoline service station, lubricatorium, car washing, minor auto repairs, office & sales & also parking & storage of motor vehicles on open portion of lot on premises located within a retail & residential use district is contrary to Art. 2 Sect. 3 & Art. 2 Sect. 4A of zone resolution.

2. Proposed show window within 75 ft. of a residential use district is contrary to Art. 2 Sect. 7A of zone resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 60 ft. frontage by 108 ft. $\frac{3}{4}$ in. in depth, irregular, now vacant; that it is proposed to secure a variance for a period of fifteen years in order to erect and maintain a modern gasoline service station consisting of ten 550 gallon gasoline storage tanks and five dispensing pumps; that the proposed accessory building will have a frontage of 45 ft., a depth of 25 ft., one story in height, of class 3 construction and will contain the conjunctive uses of lubricatorium, minor auto repairs, car wash, storage and office and sales; that part of the site will be reserved for parking and storage of motor vehicles; that the building will be highly modern in design; that a 10 ft. landscaped area will be maintained at the southerly end of the plot which will afford the adjoining lot additional permanent light and ventilation and also act as a buffer between the proposal and the present dwellings on East 39th street; that curb cuts will be limited to two 20 ft. cuts on Church avenue and one 20 ft. wide cut on East 39th street; that the proposed gas pumps will be located 15 ft. back of the building line, thereby insuring pedestrian safety; and

WHEREAS, the applicant states that the premises are in a class D area district and class 1 height district; that part of the site within 100 ft. of Church avenue is in a retail use district and the balance is in a residence use district; that as of July 25, 1916 that part of the premises within 100 ft. of Church avenue was in a business use district; that the present use designation became effective on March 25, 1954;

and

WHEREAS, the applicant contends that although the rear of the site projects 8 ft. $\frac{3}{4}$ in. into the residence zone, said part of the site will be part of a 10 ft. wide landscaped area and will not be used in any manner; that Church avenue is a main auto thoroughfare leading across Brooklyn; that Church avenue is built up with many stores, satisfying all requirements of the public, except that there are no other gas stations within the affected area and the proposal will fill said required service; that the premises across the street in block 4876, lot 36 is developed with a one story brick building containing the use of rug cleaning, which is a non-conforming use in this retail use district and this non-conforming use further makes the site, with the development as proposed, in keeping at this point; that the present Church avenue stores within the affected area, of a necessity draws its shoppers from north and south of Church avenue; that the potential purchasing public south of Church avenue is only one block in depth as there is a cemetery on the south side of Snyder avenue, one block distant from the site; that there are sufficient stores now in the affected area; that although the show window facing on East 39th street is within 75 ft. of the residence zone on said street, it sets 15 ft. back of the building line and therefore cannot possibly affect the residential aspect of East 39th street; and

WHEREAS, the applicant states that the present owner has held title to lots 1 and 3 since July 6, 1920 and lot 4 since January 31, 1955; that the assessed valuation of land is \$8,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivisions f, h, i and A of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on N.B. App. 97/56, Objections No. 1 and 2, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

295-56-BZ

APPLICANT—Andrew Di Camillo, for Frederick J. McLaughlin, Sr., Frederick J. McLaughlin, Jr. and Gerard McLaughlin, owners.

SUBJECT—Application April 19, 1956—(decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a retail use, C area district, the proposed extension to the first story of an existing building, using more than the area permitted.

PREMISES AFFECTED—8225 3rd avenue and 301 83rd street, northeast corner Block 6007, Lot 5, Borough of Brooklyn.

APPEARANCES—

For Applicant: Andrew Di Camillo, F. J. McLaughlin, Jr. and Gerard McLaughlin.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 27, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 3rd avenue are in a retail use, C area, class 1 height district; that 83rd street is in retail and residence use, C area, class 1 height districts; and

MINUTES

WHEREAS, the decision of the borough superintendent, dated April 16, 1956 acting on Alt. Applic. 1113-56, reads:

"1. The proposed extension to the 1st floor of this bldg. located in a "C" area district exceeds the area permitted by the zoning Res., Art. IV, Sect. 13."

and

WHEREAS, the applicant states that the premises consist of a plot, 20 ft. frontage by 100 ft. in depth, on which is located a two story and basement brick building, erected in 1948 under N. B. Applic. 567-47; that the basement is 20 ft. by 83 ft. 11 in. and 91 ft. 1 in.; first floor—20 ft. by 48 ft.; 2nd floor—20 ft. by 48 ft.; that the building is occupied as follows: basement and 1st floor—mortuary chapel; 2nd floor—one family, for which certificate of occupancy No. 139289 was issued; that there is a one car garage attached to rear of building; that it is proposed to extend the rear chapel on the first floor; that the proposed extension would be constructed over the built-up basement including the one car garage; that the size of the extension is 20 ft. wide by 35 ft. 11 in. in depth; that the total size of the first floor will be 20 ft. by 83 ft. 11 in., for a total area of 1,680 sq. ft.; and

WHEREAS, the applicant states that the zone area of the plot is "C"; that the area of plot is 20 ft. by 100 ft., or 2,000 sq. ft.; allowable coverage of corner plot—75% of 2,000 sq. ft., or 1,500 sq. ft.; excessive coverage—180 sq. ft. for a total coverage of 84%; and

WHEREAS, the applicant contends that the owners have owned premises since June 3, 1953 and it is therefore not a recent purchase; that premises were extensively altered in 1953 under Alt. Applic. 1072-53; that at that time the occupancy of basement and first floor was changed from doctor's offices and part of one family, to chapels; that it was believed at the time that the two chapels on the first floor would be sufficient for the owners' purposes; that since then, in spite of considerable expense, it has been discovered that said chapels were too small and it is felt that the proposed extension is necessary to salvage the owners' mis-judgment a few years back; that the proposed extension is only 180 sq. ft. in excess area and this extension, on a corner building, would in no way adversely affect the surrounding area; that the building is architecturally treated to be harmonious to adjacent properties; that this extension as well as the present entrance to chapels, faces Third avenue which is a business street; that under present conditions the building is economically unsound and it is felt that the proposed alteration will remedy this condition; and

WHEREAS, the applicant states that the present owner has held title to the property since June 3, 1953; that the assessed valuation of land is \$3,700 and of the building \$27,300 making a total of \$31,000; that the building was erected in 1948; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21 to permit an extension in area to permit an increase of the chapel on the first floor as proposed and as indicated on plans filed with this application marked "Received April 19, 1956", 3 sheets, and "October 23, 1956", one sheet, *on condition* that in all other respects the building shall comply with all laws, rules and regulations applicable to the building and occupancy; that there shall be no window openings in the proposed extension to the rear and to the interior lot lines to the north and east; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

355-56-BZ

APPLICANT—Herman E. Horwood, for Ernest La Porte, Patrick Mattia, Anthony Povcromo, owners.

SUBJECT—Application May 3, 1956—(decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a business and residence use district, proposed extension of storage and parking of more than 5 motor vehicles and storage and sale of used cars. PREMISES AFFECTED—984-998 East 180th street and 2081-2099 Bryant avenue, southwest corner, Block 3132, Lot 35, Borough of The Bronx.

APPEARANCES—

For Applicant: Herman E. Horwood.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

Affirmative: Chairman Murdock, Commissioner Kleinert,

Commissioner Keating and Deputy Chief Connolly... 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 27, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Bryant avenue are in business and residence use, B area, class 1¼ height districts; East 180th street is in a business use, B area, class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated April 6, 1956 acting on Alt. Applic. 358-56, reads:

"1. The proposed extension of the storage and parking of more than 5 motor vehicles and storage and sales of used cars into a Residence use district is contrary to Sect. 3 of the Zon. Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 159.72 ft. frontage by 188.48 ft. in depth, on which is located the parking and storage of more than five motor vehicles and used car sales lot; and

WHEREAS, the applicant states that East 180th street is zoned for business to a depth of 100 ft. and the balance of the lot is in a residence use area, and the portion within the business use area is now occupied as a parking and used car sales lot with office, and this request is for permission to use the balance of the lot which is in the residence use area for a term of years, as parking only for more than five cars; that the owners purchased this plot with the idea of erecting a conforming use of stores and apartments but were unable to obtain any financing with either the F.H.A. or a bank, the reason being given that this neighborhood has deteriorated and they did not consider the project feasible; that the owners then applied for a permit for the parking and used car sales use on the portion of the lot where such use is legal, but still cannot earn enough income to pay interest and taxes from this portion of the lot; and

WHEREAS, the applicant contends that the surrounding streets are badly congested with parked cars, as there are many apartments and residences, most of which have no provision for parking, and in addition there are many parked cars which belong to persons who come from the suburbs to take the subway trains from the East 180th street terminus; that there is no curb cut requested on this additional portion of the lot, which will be enclosed in chain link fence similar to the present, so that there would be no entrance or exit from this lot in the residence use portion; that the owners have great difficulty in keeping this unused portion in a clean and sightly condition and permission to use same for the requested purpose would constitute an improvement in the neighborhood and assist the owners to obtain the much needed revenue; and

WHEREAS, the applicant states that the present owner has held title to the property since November 11, 1955 and that the assessed valuation of land is \$75,000; and

MINUTES

WHEREAS, under Certificate of Occupancy No. 18647, dated April 13, 1956, Alt. 156-56; Block 3132, Lot 35,—parking and storage of more than 5 motor vehicles and used car sales lot, only on the business use district portion of the plot, is permitted; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e to permit for a term of five years the extension of the parking use from the portion of the plot now permitted to be occupied for parking and for which Certificate of Occupancy 18647 has been issued, to the rear portion of the lot in the residential zone substantially as proposed and as indicated on plans filed with this application marked "Received May 3, 1956", 4 sheets, *on condition* that the additional premises shall be leveled substantially to the grade of East 180th street and surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that there shall be erected on all lot lines a woven wire fence of the chain link type not less than 5 ft. 6 in. in height; that the existing chain link cross fence at the terminus of the business district may be eliminated so as to allow the plot to be occupied throughout for parking; that no additional entrances shall be maintained except the one as proposed and as now existing to East 180th street; that during the term of this variance the premises shall be occupied for no other use and no building shall be erected thereon; that the existing attendant's office permitted within the business district may be maintained; that no additional signs shall be erected; that suitable bumpers shall be maintained along the lot lines for protection to the fences; and that all permits and a new certificate of occupancy covering the entire premises shall be obtained within six months from the date of this resolution.

Adjourned: 1:05 P. M.

JOSEPH J. DOYLE, *Chief Clerk.*

REGULAR MEETING TUESDAY AFTERNOON, NOVEMBER 27, 1956, 2 P. M.

Present: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly.

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 35-51-SA

Subject: Carrier Corporation Automatic Ice Maker, 26 Series.

The Carrier Corporation of Syracuse, New York, filed December 29, 1950 an application with The Board of Standards and Appeals for approval of the Carrier 26 Series Automatic Ice Maker, under provisions of Article 18—Chapter 19, Administrative Code.

Purpose.

The 26 Series Automatic Ice Maker provides a continuous supply of ice, cubed or crushed, automatically.

Description

These units consist of a machine section for forming ice cubes by mechanical refrigeration and a storage bin of varying size in which to store the ice. The mechanical section comes in two sizes with ice capacity of 200 and 450 pounds per twenty-four hours. The freezing coils are soldered to copper bands and attached at different points to each of twenty-six stainless steel freezing tubes. In operation ice builds up on inside wall of tube at these eight separate points to form eight cubes in each tube. When freezing is completed, automatic controls reverse the cycle, releasing the cubes which simply gravity drop into a bin or crusher. A rotary switch starts the machine; from then on it produces ice automatically. When the storage bin fills with cubes or crushed ice the machine shuts off automatically, starting again whenever some ice is used.

The cabinet panels are bonderized, baked-on gun metal gray or white finish, trimmed with stainless steel and chrome. The unit is equipped with a siphon interchanger which automatically siphons all but a small amount of ice water from the machine during each harvest cycle and stores it in a heat interchanger. This action reduces scaling to a minimum and simplifies the cleaning operation. Fresh make-up water passes through the interchanger and is pre-cooled by the siphoned-off ice water, thereby resulting in negligible capacity-loss from the siphoning operation.

The storage bin is available in three sizes—100 pounds, 160 pounds, and 240 pounds capacity. It has a baked-on finish, stainless steel liner, 2 inches of Fiberglass insulation on the sides and 2 inches of cardboard on the bottom. A partition separates cubes and crushed ice.

These units are equipped with hermetic compressors with a capacitor-start, induction-run motor. The compressors use Freon-12 as a refrigerant.

The condenser is the water-cooled, shell and finned copper coil type.

The refrigerant is controlled by capillary tubes with no moving parts.

The water pump has a stainless steel shaft bronze impeller. A thermally protected motor totally enclosed of the shaded pole type is directly connected to the water pump.

The switch has three positions for manual starting and stopping or for operating of the water pump for cleaning purposes.

The ice crusher has a cast aluminum rotor, with a stainless steel picks and sleeve bearings belt-driven by a 1/6 horsepower drip-proof, thermally protected motor, with adjustable drive-pulley.

Inspection and Test

These models were inspected and tested at the Thompson Road Plant of the Carrier Corporation in Syracuse, New York. Present at the test were Chief Engineer Leslie V. Huber of the Committee on Test; A. H. Moulton, District Service Supervisor; W. J. Linderman, Service Manager, Thermodyne Corporation; and Mr. W. F. Tyson, Carrier National Service Supervisor. Mr. Ferguson and Mr. Conklin of the Carrier Corporation Quality Control Department were also on hand to answer questions.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Carrier 26 C5 automatic ice maker for use in New York City under the provisions of Article 18 Chapter 19 Administrative Code on condition that the appliance bears a label, permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 35-51-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,

GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

MINUTES

Resolved, that the Board of Standards and Appeals does hereby approve this appliance in accordance with the above report.

208-54-SM

APPLICANT—Dresser Mfg. Division of Dresser Industries, Inc., owner.

SUBJECT—Application for consideration—reopened March 1, 1955 for amendment of resolution as to extension of use approved couplings—re Dresser Couplings and Fittings, Styles 38, 65 and 90; previously approved.

APPEARANCES—

For Applicant: Daniel J. Atwell.

ACTION OF BOARD—Resolution amended in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 208-54-SM

Subject: Amendment to resolution as to extension of use of approved couplings.

Dresser Industries Inc. Bradford Pa. requested by letter dated January 25, 1955 that the resolution adopted December 14, 1954 under Cal. No. 208-54-SM be amended so as to extend the permitted use of the material known as Dresser Couplings and Fittings Style 38, 65 and 90. The application was reopened by a vote of the Board March 1, 1955.

Purpose

The couplings are compression type fittings for gas service.

Description

There has been no change in the fittings from those approved by the Board December 14, 1954 under Cal. No. 208-54-SM.

Recommendation

The Committee on Test recommends that the resolution adopted December 14, 1954 under Cal. No. 208-54-SM be amended so as to permit the use of the Dresser Couplings and Fittings Style 38, 65 and 90 as a compression coupling under the permissive uses under C26-1327.0 Administrative Building Code as amended by Local Law 88 of 1953 on condition that the requirements of the resolution adopted December 14, 1954 under Cal. No. 208-54-SM be complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,

GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution of December 14, 1954 in accordance with the above report.

633-55-SM

APPLICANT—Columbia Acoustics and Fireproofing Co., for United States Mineral Wool Co., owner.

SUBJECT—Application July 27, 1955—Cafco Spray or Spray Don (sprayed insulation), approval of.

APPEARANCES—

For Applicant: Frank M. Stumpf and James L. Kempthorne.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 633-55-SM

Subject: Cafco Spray or Spray Don (sprayed insulation).

Columbia Acoustics and Fireproofing Company for United States Mineral Wool Co. Stanhope, New Jersey, filed July 27, 1955 an application with the Board of Standards & Appeals for approval of the material known as Cafco Spray or Spray Don (sprayed insulation) under the provisions of C26-588, C26-589, C26-590, C26-596, C26-597, C26-598 and C26-599.0 Administrative Building Code.

Purpose

The natural Cafco Spray or Spray Don is to be used as a fire retardant on steel floor and beam construction.

Description

Cafco Spray and/or Spray Don is the trade name of a mixture of mineral wool, asbestos and cement; the proportions of which are of a proprietary nature and are on file with the Board.

The fibers are applied by blowing them along with a mist of water, onto the surface which has been treated with a thin coat of latex type adhesive.

Inspection and Test

The material was tested, as part of a complete floor and ceiling construction, in accordance with the requirements of C26-588 through C26-590 and C26-596 through C26-599.0 Administrative Building Code, at the Underwriters Laboratory Chicago, in the presence of Asst. Engr. J. A. Darts Committee on Test.

Test Structure.

The test sample consisted of 12 inch 27 lb./ft. I beams; cellular floor units identified as Q deck as manufactured by the H. H. Robertson Co., Pittsburgh, Pa., concrete top flooring and Cafco Spray.

The floor units were laid on the I beams with a bearing on the beams of 2½ to 3½ inches and were secured to the beams by means of tack welds spaced 12 inches on center. The top of the units were covered with 2½ inches of concrete which had an average strength of 3700 p.s.i.

The ceiling and beam were prepared for application of the fibers with a thin spray coat of adhesive mixed with water in the proportions by weight of one part adhesive to three parts water. The fiber is thin sprayed on the ceiling and beam surfer, before the adhesive dries; from a nozzle which wetted the fibers with water. The fibers are applied in layers, tamped and sprayed lightly with water until the desired thickness is obtained. The finished thickness of the Cafco Spray on Spray Don was found to be 2½ inches on the beam and ¾ inches on the ceiling as measured from the bottom plane of the floor units.

The total load, live and dead, applied to the assembly during test was 131 lbs. per sq. ft.

The test was discontinued at 3 hours and 5 minutes at which time the temperature of the floor was 245° which was 80° below the limiting temperature of 325° and the temperature of the steel beam was 843° which was 153° below the limiting temperature of 1000°. The assembly also successfully met the requirements of the hose stream test.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the material known as Cafco Spray and/or Spray Don for use in New York City under C26-239.0 Administrative Building Code, as a fire protection on condi-

MINUTES

tion that the construction is as follows:

H. H. Robertson steel floor finished with 2½ inches of 3700 p.s.i. concrete on top and finished on the ceiling side with not less than ¾ of an inch of Cafco Spray and/or Spray Don applied directly to the ceiling side of the floor units. When this material is to be used as a protection for steel beams, the material shall be applied in thickness not less than 2½ inches from the face of the steel beam.

The Committee further recommends that all installations shall be under the supervision of the applicant or his licensed applicators.

The committee further recommends that due to the texture of the material, it shall not be installed any closer than 7'-0" from the floor and further each bag of the material shall be stamped or labeled "Approved by the Board of Standards & Appeals for use in New York City under Cal. No. 633-55-SM" and further that all plans submitted to the Department of Buildings showing the proposed use of this construction shall be similarly marked.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

1029-55-SM

APPLICANT—Matthew J. Langert, owner.

SUBJECT—Application December 19, 1955—Matthew J. Langert Rope Hitching Device for Swing Scaffolds (two point suspension), approval of.

APPEARANCES—

For Applicant: Matthew J. Langert.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

ert, Commissioner Keating and Deputy Chief Con-
nolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re.: Cal. No. 1029-55-SM

Subject: Matthew J. Langert Rope Hitching Device for swing Scaffolds (two point suspension).

Matthew J. Langert, owner and manufacturer, filed December 19, 1955, an application with the Board of Standards and Appeals for approval of the Matthew J. Langert Rope Hitching Device for Swing Scaffolds under the provisions of the Rules for Erection, Alteration, Repair, Excavation for and Demolition of Buildings adopted under Cal. No. 784-41-SR.

Purpose

The device is used in conjunction with swing scaffolds in order to raise or lower said scaffold and to obtain a more reliable hitch and to eliminate the lower block hook.

Description

The hitching device is made in the form of a triangle with round malleable steel having a tensile strength of 50,000 p.s.i. and a yield of 32,500 p.s.i. with the connections and welds being as strong as the stock itself, the lower or horizontal side being ½ inch diameter stock, the slanting sides being 1 inch diameter in their lower part and 1½ inches in diameter in the upper part with 2 inch diameter round malleable steel extending upward from the top or apex of the triangle.

At the top of the 2 inch stock to which the stirrup is attached, a ring is formed of the same steel ⅝ inch in diameter to which the lower block of the roped block and tackle is attached by means of a steel U and pin for the support of the whole of the stirrup including the hitching device and the load carried by the stirrup.

The stirrup is made up of a lower horizontal, a ½ inch by 1½ inch flat steel bar attached to the lower end of the stirrup made up on the outside of a combination of ½ inch round and ⅝ inch round stock and on the inside of ½ inch round stock; the slanting members and top horizontals of the stirrup being ⅝ inch round and the other members being either ½ inch or ⅝ inch round or a part of them being a combination of ½ inch and ⅝ inch round stock.

The hitch in the rope is continuously maintained on the hitching device during the lowering movements of the scaffold as well as when the scaffold is in the desired fixed position.

Inspection and Test

The device was inspected and tested by Asst. Engr. J. A. Darts Committee on Test. The device was loaded through the eye to 4,000 lbs. and there was no permanent distortion and the stirrup was loaded to 3,700 lbs. at which load there was no distortion.

The complete test report is on file with and is part of the record.

The device has been approved by the New York State Board of Standards and Appeals under B.S.A. approval 4157.

Recommendation

On the basis of the inspection and test and data filed by the applicant, the Committee on Test recommends the approval of the Matthew J. Langert Rope Hitching Device for Swing Scaffolds (two point suspension) for voluntary use in New York City under the provisions of Rule 7.5.4 of the Rules for Erection, Alteration, Repair, Excavation for and demolition of Buildings on condition that the stirrup bear a label reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 1029-55-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

1039-55-SA

APPLICANT—Charles M. Spindler, for Washex Machinery Corp., owner.

SUBJECT—Application December 31, 1955—Washex Tube Filters, Models 2000, 3000, 5000, 7000, 10,000 and 15,000, approval of.

APPEARANCES—

For Applicant: Joseph C. Haus.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Keating and Deputy Chief Con-
nolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re.: Cal. 1039-55-SA

Subject: Washex Tube Filters, Models 2000, 3000, 5000, 7000, 10,000 and 15,000.

MINUTES

Charles M. Spindler for Washex Machinery Corp. filed December 31, 1955 an application with the Board of Standards & Appeals for approval of the Washex Tube Filters, Models 2000, 3000, 5000, 7000, 10,000, and 15,000 under the provisions of Article 13 Chapter 19 Administrative Code and the Dry Cleaning Rules of the Board.

Purpose

The appliance is used to filter dry cleaning solvents.

Description

The tube filters are used in conjunction with other dry cleaning machinery for removal of suspended insoluble soil from dry cleaning solvent. The filter consists of an internally reinforced rectangular steel casing containing a series of vertical tubes, ranging in number from 72 in the smallest size filter to 504 in the largest size filter, made of open mesh screen, coated with a chemical filtering agent. The dirty solvent is pumped into the filter casing at the bottom, is forced, under pressure, through the filtering agent and screening and leaves the filter at the top from whence it recirculates to the washer through closed piping.

In operation there is no scraping necessary to remove the caked insoluble soil from the metal screening. The removal of the filter cake from the tube is accomplished by either backwashing which is accomplished by reversing the solvent flow so that the solvent flows down through the tubes and out through the screening, thereby dislodging the filter cake or by air blown through a special discharging pipe located just below the filter tubes.

Inspection and Test

The appliance was inspected and tested by Asst. Engrs. J. A. Darts and G. F. Sklenarik, Committee on Test and C. M. Spindler representing the applicant. The appliance operated as designed.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval for voluntary use in New York City, of the Washex Tube Filters, Models 2000, 3000, 5000, 7000, 10,000 and 15,000 in conjunction with other dry cleaning equipment, on condition that all installations shall conform to the requirements of Article 13 Chapter 19 Administrative Code and the Dry Cleaning Rules of the Board and further that the appliance bears a label, permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 1039-55-SA."

GEORGE F. SKLENARIK,
Assistant Engineer,

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

1041-55-SA

APPLICANT—Charles M. Spindler, for Washex Machinery Corp., owner.

SUBJECT—Application December 31, 1955—Washex Syntomat, Models P-65 and P-100 (for dry cleaning units using perchlorethylene (non-combustible) solvent), approval of.

APPEARANCES—

For Applicant: Joseph C. Haus.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:
REPORT OF COMMITTEE ON TEST

Re: Cal. 1041-55-SA.

Subject: Washex Syntomat Models P-65 and P-100.

Charles M. Spindler for Washex Machine Corp. filed December 31, 1955 an application with the Board of Standards & Appeals for approval of the Washex Syntomat, Models P-65 and P-100 under the provisions of Article 13 Chapter 19 Administrative Code and the Dry Cleaning Rules of the Board.

Purpose

The appliance is a dry cleaning appliance using perchlorethylene (a non combustible) as the solvent.

Description

The appliance is a combination washer and extractor used in the dry cleaning industry. The unit consists of the washing and extractor cylinder, solvent tanks, pumps and control valves and piping.

The machine consists of a rotating cylinder 42 inches in diameter by 20 inches long for the P-65 and 46 inches in diameter by 22 inches long for the P-100. All surfaces of the machine and tanks in contact with the solvent are finished with a baked on finish in order to prevent corrosion.

The tank size for the P-65 is two compartments holding 165 gallons of solvent each and for the P-100, two compartments holding 225 gallons of solvent each.

The following safety devices are incorporated in the design of the machine: A safety switch interlocked into the door so that the machine cannot start unless the door is properly closed. A static eliminator to ground any generated static electricity.

Inspection and Test

The appliance was inspected by Asst. Engr. J. A. Darts and G. F. Sklenarik, Committee on Test and C. M. Spindler representing the applicant. The equipment operated as designed. The physical dimensions of the baskets were checked in order to evaluate the load capacity on the basis of 2.8 lbs of dry wash per cu. ft. of basket.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Washex Syntomat, Model P-65 having capacity of 45 lb. dry wash and Model P-100 having capacity of 65 lbs. of dry wash.

The Committee further recommends that each machine bear a label permanently affixed reading as follows: "Approved by the Board of Standards & Appeals for use in New York City under Cal. No. 1041-55-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

150-56-SM

APPLICANT—Wilray Metal Fabricators, Inc., owner.

SUBJECT—Application February 1, 1956—Wilray Paint Storage Cabinets, approval of.

APPEARANCES—

For Applicant: Peter W. Stein.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

MINUTES

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 150-56-SM

Subject: Wilray Paint Storage Cabinet.

Wilray Metal Fabricators Inc., Bronx, New York, filed February 1, 1956 an application with the Board of Standards and Appeals for approval of the Wilray Paint Storage Cabinet under the provisions of the Paint Spraying Rules of the Board.

Purpose

The cabinet is to be used for the storage of flammable liquids, not in excess of 200 gallons.

Description

The cabinet is of double wall construction having a 1½ inch air space between the sheets. The entire cabinet is built of 18 gauge steel and is equipped with a self closing door and three point locking device. The exhaust outlet is located at the top of the cabinet for venting to the outer air and is connected to all compartments by a rectangular duct inside at the rear, this duct extends down to the bottom compartment and is open at the bottom to provide ventilation from the bottom and top.

Inspection and Test

Details of construction were examined by Asst. Engr. J. A. Darts, Committee on Test and the cabinet was found to comply with the requirements of the Paint Spraying Rules of the Board.

Recommendation

On the basis of the inspection, the Committee on Test recommends the approval of the Wilray Paint Storage Cabinet for the storage of flammable liquids, not to exceed 200 gallons, under the provisions of the Paint Spraying Rules of the Board on condition that each cabinet bear a label permanently affixed reading "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 150-56-SM."

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

531-56-SM

APPLICANT—Russell, Burdsall and Ward Bolt and Nut Co., owner.

SUBJECT—Application June 27, 1956—Empire (E) High Strength Bolts for Structural Steel Connections, approval of.

APPEARANCES—

For Applicant: None.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 531-56-SM

Subject: Empire (E) High Strength Bolts for Structural Steel Connections.

Russell, Burdsall & Ward, Portchester, New York, filed July 27, 1956, an application with the Board of Standards and Appeals for approval of the material known as Empire (E) High Strength Bolts under the provisions of C26-322.0, C26-368.0, C26-520.0 and C26-521.0 Administrative Building Code as amended by Local Laws 107, 108, 109 and 110 of 1955.

Purpose

The material is a bolt for fastening structural steel.

Description

The bolts, nuts and washers are manufactured in conformity with the requirements of the Specification of Quenched and Tempered Steel Bolts and Studs with Suitable Nuts and Hardened Steel Washers (ASTM A325). The bolts are identified by marking on the top of the head with three radial lines, with the letter "E" between the radial lines. The chemical composition of the bolts, nuts and washers is as follows:

Chemical Composition	Washers			
	Bolts	Nuts	Carburized & Tempered	
Carbon	0.30 Min.		0.25 Max.	
Manganese	0.30 Min.		1.00 Max.	
Phosphorus	0.048 Max.	0.13 Max.	0.048 Max.	0.048 Max.
Sulfur	0.058 Max.	0.23 Max.	0.058 Max.	0.058 Max.

Inspection and Test

The plant of the applicant was inspected by Asst. Engr. J. A. Darts, Committee on Test. The process of manufacture, from receipt of raw material to finished product, was observed.

Bolts and nuts taken from stock were tested in accordance with the requirements of ASTM A 325 and were found to comply.

Recommendations

On the basis of the inspection and test and the date filed by the applicant, the Committee on Test recommends the approval of the material known as Empire (E) High Strength Bolts for structural steel, for use in New York City under the provisions of C26-322.0, C26-368.0, C-26-520.0 and C26-521.0 Administrative Building Code as amended by Local Laws 107, 108, 109, and 110 of 1955 on condition that all bolts, studs, nuts and washers shall comply with the requirements of ASTM-A325 and further that all containers or cartons in which the material is to be marketed shall be tagged, stamped or labeled as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 531-56-SM", and further that each bolt shall be identified with the marking herein described.

The Committee further recommends that when the High Strength Bolts are used in construction the following conditions shall apply:

Torque shall be sufficient to provide an average stress on the bolt at least fifteen percent in excess of the minimum required bolt tension specified in subdivision d4 of Section C26-520.0.

The parts to be bolted shall be brought tightly together by sufficient high-strength bolts used as fitting-up bolts.

Bolts shall then be installed in the remaining holes and their nuts shall be made finger tight, which shall mean tightened firmly by hand or spud wrench only, without the use of torque or impact wrenches.

After the nuts have been made finger tight, each nut shall be given one complete turn to tighten the bolt.

The fitting-up bolts shall be then loosened and the nuts thereon shall be retightened finger tight. Each nut shall then be given one complete turn.

MINUTES

Bolts shall not be forced into holes. Holes out of alignment shall be drilled or reamed.

Impact wrenches shall be regulated so as to produce one turn of the nut on the bolts in place, in approximately ten seconds.

The tightness of the bolts may be tested by turning the nuts one-sixteenth of a turn tighter with a torque wrench and measuring the resulting torque. The torques on the nuts shall not be less than shown in column 4 of the following table for the size of the bolt.

Sufficient bolts shall be checked to determine whether the required tightness has been obtained.

Bolt Tension and Torque Values.			
1	2	3	4
Bolt Size Inches	Bolt Tension for Calibrat- ing Wrenches Pound	Required Minimum Bolt Tension Pounds	Approx. Equiv. Torque for required Min. Bolt Tension Pound-Feet
1/2	12,500	10,850	90
5/8	20,000	17,250	180
3/4	29,000	25,600	320
7/8	37,000	32,400	470
1	49,000	42,500	710
1 1/8	58,000	50,800	960
1 1/4	74,000	64,500	1,350

Nuts may be tightened by calibrated wrenches in place of giving each nut one turn. In such case, wrenches shall be calibrated not less than once each day by means of an approved calibrating and tension measuring device. The wrench shall be calibrated for the tension specified for the size of bolt in Column 2 of the table.

Where threads of bolts are injured, or the bolt is damaged in any way, the bolt shall be removed and replaced.

The installation of high-strength bolts shall be supervised by a licensed professional engineer or registered architect employed by the owner and acceptable of the Commissioner, to insure that high-strength bolts are installed according to the design and code requirements. Such acceptability shall not be unreasonably withheld. Upon the completion of the installation of the high-strength bolts, the licensed engineer or registered architect shall file a statement with the department, in a manner determined by the Commissioner, that the installation of the bolts was in accordance with the requirements of the Administrative Code and the design.

The licensed professional engineer or registered architect shall not be employed by nor receive compensation from any of the contractors engaged in the construction or alteration of the building.

The licensed professional engineer or registered architect or his representative shall be present at all times when high-strength bolts are installed. He shall observe whether the bolts are installed in compliance with the Administrative Code and this recommendation and wherever bolts do not conform to the code and he shall direct that such bolts be replaced or shall promptly report in writing such improperly installed bolts to the Borough Superintendent and the contractor.

Upon completion of the installation of the high-strength bolts, the licensed professional engineer or registered architect shall file a sworn statement in affidavit form, that the bolts were installed in accordance with the requirements of the Administrative Code and of this recommendation, unless the bolts were not so installed in which case the Borough Superintendent shall be advised in writing of the manner in which the bolts were not properly installed.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,

GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

REPORT OF COMMITTEE ON TEST

Re: Cal. 642-56-SM

Subject: Protectoseal Storage Cabinet Model 5545 (for storage of flammable liquids).

G. T. McCarty for Protectoseal Co., Chicago, Illinois, filed August 20, 1956, an application with the Board of Standards and Appeals for approval of the Protectoseal Storage Cabinet, Model 5545, under the Paint Spraying Rules of the Board.

Purpose

The material is to be used as a storage cabinet for flammable liquids.

Description

The cabinet is of double wall construction having a 1 1/2 inch air space between sheets. The entire cabinet is constructed of 18 gauge steel and the door is a double door with three point closure and lock type handle. The door sill is raised 2 inches above the bottom of the cabinet. The cabinet has two vent holes, each 2 inches in diameter and equipped with fire screens. The maximum capacity of the cabinet is 45 gallons.

Inspection and Test

Details of construction were examined by Asst. Engr. J. A. Darts Committee on Test and the cabinet was found to comply with the requirements of the Paint Spraying Rules of the Board.

Recommendation

On the basis of the inspection the Committee on Test recommends the approval of the material known as the Protectoseal Storage Cabinet, Model 5545 for the storage of flammable liquids under the provisions of the Paint Spraying Rules of the Board on condition that each cabinet bears a label permanently affixed reading, "Approved by the Board of Standards & Appeals for use in New York City under Cal. No. 642-56-SM."

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated September 5, 1956, on Alt. App. 2137/56, reads:

"1. The portion of the structure to be used for classroom use as proposed should be separated from the theatre by unpierced walls & floors having a fire resistive rating of at least 4 hours and the means of egress from the parts so used should be entirely separate from the means of egress from the theatre portion as required by the Bldg. Code Sect. 12.1.3 (c)."

and

WHEREAS, the applicant states the building is four stories, 60 ft. in height, 181 ft. 4 in. by 201 ft. in area, of fireproof construction, erected 1905, located in a business use, B area, class 2 height district, and used and occupied since 1908: cellar—boiler room, etc.; basement—shop and plenum chambers; 1st floor—concert hall opera house, 1800 persons; 2nd, 3rd floors—ballroom, balconies, lecture hall and offices, 3200 persons; 4th floor—solarium, art room and dressing room, 200 persons; it is now proposed to use the ballroom and servicing room adjacent to the westerly end of the ballroom, approximately 120 ft. long by 40 ft. and 35 ft. by 25 ft., respectively, as offices and classrooms for occupancy by not more than 300 persons; the building is equipped with an approved standpipe system, and approved two-source sprinkler system; there is an approved interior fire alarm system; there are five interior stairways, two of which are used in connection with the ballroom; stairs lead to roof bulkhead, are 5 ft. wide, of fireproof construction and where enclosures exist such enclosures are fireproof, in addition there are four exterior fire escape stairways; and

WHEREAS, Certificate of Occupancy #109005, issued July 29, 1943, against N.B. App. 4076/05 and Alt. App. 6228/30, permit the present use and occupancy; and

WHEREAS, the applicant states that it is now proposed to install nine classrooms and three offices in the present ballroom at the north side of the second floor in lieu of offices as originally approved by the Board under Cal. No. 114-49-A, Vol I; and

WHEREAS, the applicant contends that the proposed classroom partitions will be of 8 in. cinder or concrete blocks 10 ft. high and the ceiling over at this height will be of steel channels and approved celotex acoustiline as approved by the Board under Cal. No. 371-53-SM; that all doors to classrooms will be fireproof self-closing; and

WHEREAS, the applicant contends that the proposed classrooms will be conducted by the Brooklyn Academy, a school approved by the New York State Board of Regents, which will conduct college preparatory courses from 9 am to 3 pm weekdays and evening courses from 6:15 to 9:15 pm weekdays and from 9:00 am to 12 noon on Saturdays; that the total number of occupants in this portion of the building will never exceed 300 persons; that the Brooklyn Academy is sub-leasing the space from the Brooklyn Academy of Music, who in turn, have leased the entire building from the Department of Parks of the City of New York.

Resolved, that the decision of the borough superintendent, dated September 5, 1956, acting on Alt. App. 2137/56, Ob-

jection #1, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, to permit the portion of the balcony to be occupied for classrooms for the use proposed, as shown on plans filed with this appeal, marked "Received September 6, 1956" (5 sheets), *on condition* that from the balcony shown on the 2nd floor plan proposed to be occupied as a teacher's room and accessible by stairs, there shall be a means of reaching the proposed fireproof ceiling, and a suitably supported catwalk provided so as to permit access to the upper portion of such ceiling in the event of an emergency; and that the use as classrooms shall only be as proposed and shown on plans above cited for the space proposed.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, Order No. 97899LC, issued by the Fire Commissioner October 21, 1953 and repeated in a decision of the Fire Commissioner dated February 2, 1954, relating to premises 629 West 50th Street and 630 West 51st Street, Manhattan, reads:

"1. Discontinue storage and use of volatile inflammable oil in excess of 5 gals. above the first floor. One drum will be permitted on street level. Benzol, Toluol. C19-51.0-b-5.

"2. Provide an approved buried storage system."

and

WHEREAS, the applicant states the building is 6 stories, 75 ft. in height, 125.54 ft. front by 200.10 ft. in depth, of class 3 construction, erected 1900, located in an unrestricted use, A area, class 2 height district, and used and occupied since May, 1940 as follows—1st floor—factory, 20 persons; 2nd floor—offices, laboratory and storage of starch, 11 persons; 3rd floor—storage of roots and starches, 2 persons; 4th floor—same, one person; 5th floor—same, one person; 6th floor—same, 6 persons; no change in use or occupancy is proposed. The building is provided with an approved standpipe system, an approved one-source sprinkler system throughout, an approved interior fire alarm system, regular monthly fire drills are maintained; there are three interior steel and wood stairs, 3 ft. 6 in.; 4 ft.; and 4 ft. 6 in. in width, fireproof enclosed, equipped with fireproof self-closing doors, extending from roof bulkhead direct to street, and two rear exterior stairs, or fire escapes, extending to roof, one of which extends to roof by stair and one to street by stair and one to yard by stair, egress from the rear and side fire escapes is through alley and driveway to street, window and door openings on the course of the fire escapes are fireproof, self-closing; and

WHEREAS, the applicant has filed copies of certificates of occupancy #23755 issued June 29, 1938 against N.B. App. 12 of 1938 permitting the following use and occupancy: Cellar—boiler room; 1st floor—garage for more than five cars; 10 persons; mezzanine—office, 10 persons; this cer-

MINUTES

tificate of occupancy apparently has no relation to the building in question; and

WHEREAS, the applicant states there are three interior 3 ft. 8 in. wide stairs, enclosed in fireproof stair enclosures, sprinklered; that no certificate of occupancy has been issued as the building was erected prior to 1916; that on the first floor at ground level a solvent storage fireproof vault was erected equipped with a sprinkler system; that the building is on rock and it is impossible to comply with the Fire Commissioner's order to construct underground storage tank as the necessary blasting would cause possible damage to footing and masonry of the building and be excessive in cost, exceeding the cost of the building; that the existing vault is 10 ft. 6 in. by 36 ft. in area, 7 ft. 2 in. in height, constructed on rock with an 8 in. thick slab, having 12 in. concrete and brick walls and an 8 in. reinforced slab ceiling, equipped with sprinklers, and a three hour self-closing fireproof door, and vented to the exterior of the building with explosion proof motor; and

WHEREAS, the applicant contends that the manufacture of the product is under the supervision of trained chemists engaged by the applicant; that sand pails and CO₂ extinguishers and auxiliary fire appliances are kept in their proper places; that it is proposed to install a CO₂ System in the vault should the Board grant this appeal, together with a fusible link door to the vault; that it is necessary to store the amount of solvents to produce a batch of the product in accordance with Permit #150113 and it is earnestly requested that the Board react favorably to this request; and

WHEREAS, the applicant states that storage of the following quantities of materials is requested in the vault in question:

"No. 55 Gal. Drums & Mix. Flash Points. Open Cup.
"Toluol 15 Polyvan & Water 55 Gal. Drums 56° F
Benzol 5 Dextrine & Polyvan 55 Gal. Drums 50°
Alcohol Den. Ethyl 10 55 Gal. Drums 66° Dextrine
& Water
Vinyl Sol Unmixed
(MA 28-18 Caf A 1383)
Acetone 1 55 Gal. Drum adhesive unmixed thinner 15°
Methyl Ethyl Ketone unmixed thinner 1 55 gal. drum
30°
Kerosene Mixed with Casine and Veg. Glue and Water
2 55 gal. drum 100-165 F
Cellusolve Acetate (CAF A 1647) 1 55 Gal. Drum 142 F
Cellusolve Solvent Polyvane and Water 1 55 Gal Drum
126 F."

and

WHEREAS, the applicant states that the storage vault was constructed on Approved Alt. App. 4197/1947 and Certificate of Occupancy #36049 issued August 24, 1949; and

WHEREAS, the applicant states that a typical batch of the material mixed consists of 250 gallons or five drums of starch with an adhesive; that the sprinkler system is a two-source system fed from the City main and by gravity as installed under Alt. App. 723-48 with Fire Department approval and is equipped with a siamese connection; and

WHEREAS, the premises was inspected by a committee of the Board; and at the suggestion of the Board an application was filed with the Building Department and a new decision F.P. Misc. App. 1379/56 obtained and disapproved November 26, 1956, reading as follows:

"1. Provide a buried storage system, where the storage of volatile inflammable oils or liquids (Benzol or Toluol) on first floor, exceeds one drum (55 gallons); all in accordance with Fire Dept. Order #97.899-LC."

Resolved, that the decision of the Fire Commissioner as expressed in Order No. 97.899-LC, Objection No. 1 be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the vault to be constructed as passed on by the borough superintendent under F.P. Misc. App. 1379/56, objection dated November 26, 1956; that not

more than thirteen 55 gallon drums shall be stored within the vault containing volatile inflammable oils or liquids, to the satisfaction of the Fire Commissioner; that the sprinkler system shall be maintained in accordance with the requirements therefor.

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated January 7, 1955, on Alt. App. 514/54, reads:

"3. A fire escape is not acceptable as a legal means of egress in factory building more than 5 stories high. Section 271 L.L."

and

WHEREAS, the applicant states the building is 7 and 8 stories, 80 ft. in height, 225 ft. front by 98 ft. 9 in. in depth, of Class 3 construction, erected in 1889 in a business use, B area, Class 1½ height district, used and occupied since erection: cellar—factory, boiler, storage, 15 persons; 1st floor—factory, storage, loading, 32 persons; 2nd floor—factory, 16 persons, 21 on the 3d, 56 on the 4th, 126 on the 5th, 27 on the 6th, 38 on the 7th and 20 on the 8th floor; the building is provided with approved standpipe and one-source sprinkler systems throughout and an approved interior fire alarm system. There are three 3 ft. 4 in. and 3 ft. 9 in. wide interior wood stairs, enclosed in fire-retarded partitions, equipped with fireproof self-closing doors, which lead from roof bulkhead to street, and two fire escapes on the front, extending to roof by stair and by ladder and to street by stair; window and door openings on course thereof are fireproof, self-closing; and

WHEREAS, Violation #7582 was issued September 27, 1954 for failure to provide secondary means of egress for all tenants on all floors, including cellar, for buildings over 5 stories in height, as required by Section 271 of the Labor Law; and

WHEREAS, the applicant has amended his appeal to include a new decision of the borough superintendent dated July 5, 1956, on Alt. App. 514/54 reading:

"2. Revised. Provide two (2) means of egress leading directly to the street for all tenants all floors including the cellar and 1st floor enclosed as required in fire resistive materials and F.P.S.C. Doors. Sect. 271 Labor Law.

3. A fire escape is not acceptable as a legal means of egress in a factory bldg. more than five (5) stories high. Sect. 271 L. Law"

and

WHEREAS, the applicant states the manufacturing done in the building consist of the following: basement—printing, 15 persons, storage of wood turning materials, two persons; 1st floor—wood turner, 12 persons, dress pleating, 20 persons; storage of wood turning material, 1 person; 2nd floor—manufacturing store displays, 12 persons; manufacturing furniture, 10 persons and storage of furniture; 3d floor—screen printing, 12 persons; lamp manufacturing, 10 persons;

MINUTES

piano repairs, 4 persons and importing furniture, 2 persons; 4th floor—fur dyeing, 16 persons; luggage manufacturing, 40 persons and leather storage; 5th floor—jewelry hand painting, 15 persons; woodworker, 1 person; hat manufacturing, 18 persons and luggage manufacturing, 75 persons; 6th floor—manufacturing picture frames, 10 persons; storage of leather luggage, 2 persons; shipping baby plates, 5 persons; 7th floor—wood finisher, 4 persons; piece goods dyeing, 4 persons; manufacturing zippers, 12 persons; screen printing, 20 persons; 8th floor—piece goods dyeing, 20 persons; and

WHEREAS, the applicant contends that the building was erected under N.B. App. 527/81 and 277/85 and 1837/89 for piano manufacturing and factory use; that the factory uses have been continuous since 1889; that the existing approved one-source sprinkler system installed throughout the building is supplied by three gravity tanks totaling 18,000 gallons capacity; that the two fire escapes were erected under Alt. App. 1089/46 to comply with the requirements of the Department of Buildings; that these fire escapes have 45° stairs, fireproof doors leading to openings; are screened, equipped with counterbalanced stairs and comply fully with the Labor Law as then in effect; that the interior stairs were enclosed in fire-retarding material in accordance with the Labor Law in effect in 1915 and approved by the Bureau of Buildings at that time; and

WHEREAS, the owner was convicted and fined in Magistrate's Court August 25, 1954 on charge of violation of the Administrative Code.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. App. 514/54, Objection Nos. 2 and 3, and that the appeal be and it hereby is granted, to permit the continuance of the fire escapes as a second means of exit, as proposed and shown on plans filed with this appeal, marked "Received January 24, 1955", (10 sheets), on condition that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; that the cellar occupancy shall not be increased; that the one-source sprinkler system shall be maintained throughout the building; that the approved standpipe and interior fire alarm systems shall be maintained in accordance with requirements therefor and that the occupancy of the building shall remain substantially as proposed.

202-55-A

APPLICANT—Samuel Rosenblum, for L. F. and E. B. Salz, owners.

SUBJECT—Application March 10, 1955—Appeal from a decision of the borough superintendent—re provide two stairways.

PREMISES AFFECTED—44-50 West 28th street, south side, 100 ft. east of 6th (Avenue of The Americas) avenue, Block 829, Lot 68, Borough of Manhattan.

APPEARANCES—

For Applicant: Samuel Rosenblum and Charles Malkin.
For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated February 24, 1955, on B.N. App. 66/55, reads:

"1. Provide two (2) stways from the cellar enclosed in masonry F.P.S.C. doors and leading directly to the street, 271 L.L."

and

WHEREAS, the applicant states the building is 16 stories, 221 ft. in height, 99 ft. front by 98 ft. 9 in. in depth at first floor, 86 ft. in depth at typical floor, of fireproof construction, erected 1913, located in an unrestricted use, B area, class 1½ height district and used and occupied since 1913 as follows: as cellar—flower market and boiler room, 2 persons; 1st floor—flower market, 25 persons; 2nd, 3rd and 4th floors—photo-engraving, 80 persons on the second, 75 on the third and 75 on the fourth; 5th floor—manufacturing curtains, 50 persons; 6th floor—pleating, 90 persons; 7th floor—manufacturing comforters, 10 persons; 8th floor—manufacturing ties, 80 persons; 9th floor—manufacturing belts, 75 persons; 10th floor—manufacturing shirts, 70 persons; 11th floor—manufacturing shirts, 60 persons; 12th floor—manufacturing pens and brassieres, 65 persons; 13th floor—manufacturing brassieres, 80 persons; 14th floor—manufacturing dresses, and offices, 35 persons; 15th floor—manufacturing raincoats, 45 persons; 16th floor—electronic assembly, 70 persons; the building is provided with an approved standpipe system and an approved two-source sprinkler system; there is an approved interior fire alarm system, regular monthly fire drills are not maintained; there are two interior 3 ft. 8 in. wide fireproof stairs from roof bulkhead to street, and one fire escape at the rear extending to street by stair and yard by stair with egress to street through fireproof passageway; window and door openings on the course of the fire escape are fireproof, self-closing; and

WHEREAS, Violation No. 3629/53 was issued for erecting and maintaining wood partitions in the cellar contrary to to law and failing to provide two lawful means of egress from cellar in accordance with Section 271 of the Labor Law; and

WHEREAS, the applicant contends that this appeal is for the purpose of obtaining a variance of the Labor Law as to the cellar exits only; and

WHEREAS, the applicant states that pursuant to the amendment of the Labor Law effective in 1948, the department issued a violation calling for two means of egress from the cellar, and B.N. App. 66/55 was filed and objection received as a basis for this appeal; and

WHEREAS, the applicant states that the building is a 16 story tenant-factory, erected in 1913, equipped with two fireproof enclosed stairs and an outside fire escape stair protected throughout with a two-source automatic sprinkler system; that the first story and cellar is occupied by one tenant as a flower market and the first story store for the sale of flowers and the cellar for storage; that part of the violation referring to wood partitions is being complied with and all wood partitions will be removed; and

WHEREAS, the applicant contends that there is a fireproof enclosed stair leading to the first floor from the cellar and at the westerly end from the superintendent's office a 60° iron stair is provided leading to a freight hallway and, in addition, there is an engineer's ladder and trap door leading to the street; that only occasionally the cellar is used with about two persons employed; that the occupancy is non-hazardous and as there is a sprinkler system throughout and egress is available direct to the store, variance is requested for the acceptance of the existing cellar exits; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions; and

WHEREAS, the applicant has stated that all wood partitions in the cellar have been removed and replaced by fireproof partitions.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on B.N. 66/55, Objection No. 1, and that the appeal be and it hereby is granted, on condition that in addition to the stairway shown as a means of exit from the cellar on the west side, there shall also be a door from the elevator corridor to the space marked "superintendent's office", from which there is a stairway leading to the freight hall with direct access to street; that a two-course sprinkler system,

MINUTES

approved standpipe and interior fire alarm systems shall be maintained in accordance with requirements therefor; and that the building shall not be increased in height or area and shall be maintained in accordance with the requirements of this resolution and the plans marked "Received March 10, 1955" (2 sheets) and that all wood partitions in the cellar shall be removed, as proposed.

APPLICANT—Samuel Rosenblum, for 122 Fifth Avenue Corp., owner.

SUBJECT—Application March 11, 1955—Appeal from a decision of the borough superintendent—re egress.

PREMISES AFFECTED—122-124 5th avenue, west side, 60 ft. south of West 18th street, Block 819, Lot 39, Borough of Manhattan.

APPEARANCES—

For Applicant: Samuel Rosenblum.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated February 24, 1955, acting on BN 299/54, reads:

"1. Provide two means of egress from cellar areas to comply with Sec. 271 Labor Law."

and

WHEREAS, the applicant states the building is ten stories, 100 ft. in height, 71 ft. 6 in. by 175 ft. irregular in area, of fireproof construction, erected in 1899 in a business and unrestricted use, B area, Class 2 height district, used and occupied since erection as follows: cellar storage, 4 persons; 1st floor—stores and clothing cutting, 25 persons; 2nd floor—manufacturing clothing and stationery, 118 persons; 3d floor—manufacturing clothing, 30 persons; 4th floor—manufacturing leather goods, 180 persons; 5th and 6th floors—textile shrinking, 70 persons; 7th floor—novelty jewelry, clothing manufacturing, 35 persons; 8th floor manufacturing clothing and printing, 13 persons; 9th floor—manufacturing artificial leather, 40 persons; 10th floor—manufacturing artificial leather and pants, 20 persons. No change in use or occupancy is proposed. The building is equipped with an approved standpipe system and one-source sprinkler system throughout; there are three fireproof stairs, 3 ft. 4 in. and 3 ft. 6 in. wide, leading direct to street, two stairs are provided with ladder and scuttle to roof and the center stairs leads to a bulkhead to roof; and

WHEREAS, Violation #980 was issued February 16, 1954, for not providing two legal means of egress from cellar and first floor as required by Section 271 of the Labor Law; and

WHEREAS, the applicant states this is an appeal for a variance of provisions of the Labor Law as to exits from cellar and first floor only; that the building is a ten story factory building, equipped with an automatic sprinkler system throughout and an approved standpipe system and has three fireproof enclosed stairways; that no objection has been raised as to exits above the grade floor; and

WHEREAS, the applicant contends as to exits from the grade floor, that they conform to the Labor Law; that the north store at front has exit to street and in the rear an exit to the public corridor leading to 17th street; that the south store has exits at the front on Fifth avenue and a rear door to public corridor leading to West 17th street; that the rear stores also have two means of egress and apparently comply with the requirements therefor; and

WHEREAS, the applicant contends as to the cellar, that at the north front half there are three persons employed but not at factory work and there is an iron stair, fireproof

enclosed, leading to store floor; that this store has exits to street and the rear corridor; that this cellar portion also has available doors leading to the public corridor from which there is a fireproof stair to the first floor public corridor which leads to the street; that in the south half of cellar used for storage there is a door in the rear to the cellar corridor and a door to the vault with access to an iron ladder leading to main entrance hall. There is no one employed at factory work in southerly portion of cellar; that as to the rear portions of cellar used for storage only, doors lead to corridor with stairs to the first floor and there exists a horizontal exit to the west and an engineers ladder to street at 18th street; the entire premises are protected by a sprinkler system, and in view of the light occupancy in cellar and first floor, it is requested that the existing means of egress be accepted.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on B.N. 299/54, Objection No. 1, and that the appeal be and it hereby is *granted, on condition* that the cellar and first floor shall be maintained as proposed and indicated on plans filed with this appeal, marked "Received March 11, 1955", (2 sheets), and the exits from the cellar and first floor shall be maintained as thereon shown; that there shall be no manufacturing in the cellar and not more than three persons shall be employed in connection with the storage in the cellar, used in connection with the factory work on the first floor; that a one-source sprinkler system and approved standpipe system shall be maintained satisfactory to the fire commissioner; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; that the resolutions adopted by the Board under Cal. No. 714-19-A on November 11, 1919 and under Cal. No. 866-26-S adopted on January 4, 1927, shall be complied with where applicable.

274-55-A

APPLICANT—Howard H. Snyder, for 906 Corporation and Lanact Corporation, owners.

SUBJECT—Application April 1, 1955—filed pursuant to section 310 of the Multiple Dwelling Law for variation of section 53 of the Multiple Dwelling Law re Egress.

PREMISES AFFECTED—1239 Madison avenue, northeast corner of East 89th street, Block 1501, Lot 20, Borough of Manhattan.

APPEARANCES—

For Applicant: Howard H. Snyder.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated March 9, 1955, on amendment to Alt. App. 1535/54, reads:

"A1. As a certificate of occupancy is mandatory under Sec. 646B of the Charter, the existing double-rung ladder fire escapes must be replaced with new fire-escapes conforming to Sec. 53 MDL as required under Rule 4.7.3 of the Fire Escape Rules and Regulations."

and

WHEREAS, the applicant states the building is 7 stories, 75 ft. in height, 95 ft. 8 in. by 85 ft. 11 in. in area of class 3 construction, erected 1900, located on a lot 100 ft. 8 in. front by 85 ft. 11 in. in depth, in a retail use, B area, class 1½ height district, used and occupied since 1901, cellar boiler

MINUTES

room, storage and one apartment; 1st to 7th floors—3 apartments each floor; and proposed to be changed on the first floor to 2 apartments and one office; the building is provided with one 3 ft. wide, fireproof stairs, fireproof enclosed, leading from roof bulkhead direct to street and provided with no doors in the openings leading thereto; there are three fire escapes extending to roof by ladder and to street by ladder and to yard by stair and ladder; egress from the rear is through yard direct to street; and

WHEREAS, Violation No. 5891/54 was issued October 8, 1954, by the Division of Buildings for changing the southwest first floor apartment to business office without first obtaining a new certificate of occupancy; and

WHEREAS, the applicant states that this is a request to permit the owners to continue the use of the premises without removal and replacement of the fire escapes, to make such fire escapes conform to Section 53 of the Multiple Dwelling Law; and

WHEREAS, the applicant states that the alteration was made to an apartment on the first floor, changing it to office use; that the first floor construction is fireproof; that the hall entrance door to the apartment is fireproof self-closing; that windows on the fire escape passing the former apartment are fireproof, glazed with wire glass; that nothing above the first floor has been changed and those who would use the fire escape are safer than before on account of the precautions taken; and

WHEREAS, the applicant contends that the decision of the borough superintendent calls for all three of the fire escapes on the building to be replaced and this would be an undue hardship on the owners; that two of the fire escapes are not in any way affected by the alteration and the third fire escape has been made safer than before the alteration; that it is therefore requested that the Board grant a variance relieving the owners from the hardship which would result from compliance with the requirements; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the decision of the borough superintendent, acting on Alt. App. 1535/54, Objection No. A-1 be and it hereby is *modified* under the powers vested in the Board by Section 310 of the Multiple Dwelling Law, and that the appeal be and it hereby is *granted*, to permit the continuance of the building above the first story as previously proposed and as now proposed to be altered only as to the proposed office on the first story.

APPEARANCES—

For Applicant: Sidney Daub.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly

Negative

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated May 9, 1955, on B. N. 467/55 reads:

"1. The interior stairway from the cellar is required to be enclosed and lead directly to the street. Sect. 271 L.L."

and

WHEREAS, the applicant states the building is 12 stories, 150 ft. in height, 50 ft. front by 98 ft. 9 in. deep at street level, 50 ft. front by 88 ft. 9 in. at typical floor level, fireproof construction, erected in 1911, on a lot 50 ft. by 98 ft. 9 in. in area, in a business use, B area, Class 2 height district; used since erection as follows: cellar—storage of chinaware and gift novelties, 2 persons; 1st and 2nd floors combined—sales of gift novelties, 5 persons; 3d floor—cutting sport clothes, 10 persons; 4th floor—manufacturing clothing 25 persons; 5th floor—manufacturing suits, 15 persons; 6th floor—sales of novelties, 10 persons; 7th floor—sales of books and jewelry, 20 persons; 8th floor—manufacturing novelty jewelry, 20 persons; 9th floor—manufacturing clothing, 25 persons; 10th floor—sales of clothing, 10 persons; 11th floor—offices, 20 persons; 12th floor—sales of novelties, 10 persons. No change in use or occupancy is now proposed. The building is equipped with approved standpipe and two-source sprinkler system throughout. There is one 3 ft. 8 in. wide interior fireproof stairs from roof bulkhead direct to street and one exterior stairs on the rear extending to roof and yard by stair with egress to street through fireproof passage at 1st story mezzanine level; that window and door openings on course of such stairway are fireproof, self-closing; and

WHEREAS, Violation #5575/54 was issued September 24, 1954, for not having two legal means of egress for all tenants from all floors, including cellar, in accordance with Section 271 of the Labor Law as amended in 1947; and

WHEREAS, the applicant states the cellar is used for storage of china and gift novelties by the occupant of the first floor store and no manufacturing will be done in cellar or on 1st story; that a small portion of the cellar in front under the sidewalk is used for heating furnace and for sprinkler pumps and is separated from balance of cellar by fireproof, self-closing door; in addition there is a wrought iron stationary engineer's ladder leading to a 2 ft. 6 in. by 2 ft. 6 in. escape trap door at sidewalk, to be equipped with easy opening device, consisting of a torsion spring actuated slip bolt arranged with pull chain to within 4 ft. of cellar floors and no locking device will be provided on either side of this door; heating coils will be provided at door opening sides to prevent any freezing of the door; that the exits from the cellar space occupied by the 1st story tenant consists of 3 ft. 6 in. wide fireproof interior stairway located at east side near the front, extending to 1st story, equipped with fireproof partitions and fireproof, self-closing door at 1st story; that at rear of cellar is a 3 ft. 4 in. wide exterior steel stairway with fireproof windows on its course and with fireproof self-closing door leading thereto; that this stairway extends to 1st story fireproof enclosure at mezzanine level, where a passageway connects with interior fireproof enclosed primary stairway leading direct to the street; that the entire building is equipped with an approved two-source sprinkler system with connection to central office of the A.D.T.; the building is also equipped with a standpipe system; and

WHEREAS, the applicant requests the Board to grant a modification of the Labor Law requirements and accept present exits from the cellar, in view of fireproof construction, 2-source sprinkler system and no manufacturing in cellar or first floor; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on B.N. 467/55, Objection No. 1 and that the appeal be and it hereby is *granted, on condition* that the exits from the cellar shall be maintained as proposed and that the stairway to the east may be an open stair provided that there is a fireproof self-closing door at the head thereof; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the building shall not be increased in height or area;

MINUTES

that an approved standpipe system and two-source sprinkler system shall be maintained throughout as proposed and in accordance with the requirements therefor.

604-55-A

APPLICANT—Max Horn, for George Cooke, owner (Arthur W. Maling, lessee).

SUBJECT—Application July 19, 1955—Appeal from a decision of the borough superintendent, re trailer camp—construction, height of floor—sanitary drain, etc.

PREMISES AFFECTED—134-26 157th street, west side, 230 ft. south of 134th avenue, Block 12295, Lot 19, Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Max Horn, George E. Cooke and A. Maling.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated June 24, 1955, on Alt. App. 1043/55, reads:

"1. Construction of trailer camp is not in compliance with Building Code requirements.

"2. Height of floor of 8'-0" minimum required in conformity with 5.1.4.2 BC."

and

WHEREAS, the applicant states the premises consist of a lot 80 ft. front by 100 ft. in depth, located in a residence use, E area, Class 1 height district, upon which there exists a one story, 7 ft. 8 in. high, Class 4 constructed trailer, 8 ft. front by 38 ft. in depth, used and occupied as a one-family dwelling for which no certificate of occupancy has been issued; and

WHEREAS, Violation No. 197 was issued October 14, 1953, by the borough superintendent citing violation of Sect. 22 of Art. V of the Zoning Resolution in that the premises, located in a residence use district, was being unlawfully used to park and maintain a house trailer; and

WHEREAS, the applicant states that in March, 1955, the lessee entered into a contract with the owner to purchase the land in question conditioned upon the approval of the trailer use by the Board; that since only a single trailer is involved, the question of zoning does not arise; that the purpose of this appeal is to obtain a variance for the temporary use of the trailer so as to permit the issuance of a temporary certificate of occupancy; that prior to 1952 the lessee used the trailer for traveling, and in 1952 leased the land in question for use by the trailer as a home for himself and his wife and expects that within five years he will be able to erect a dwelling on the premises after selling the trailer; and

WHEREAS, the applicant contends as to Objection 1, issued by the borough superintendent, that the structural elements of the trailer are clearly not in compliance with the Building Code; and

WHEREAS, the applicant contends as to Objection 2, issued by the borough superintendent, that the trailer has a clear ceiling height of 6 ft. 6 in.; and

WHEREAS, the applicant states that the plumbing is now connected to a temporary cesspool which will be replaced by a legal connection to the sewer in the street if the Board grants the variance herein requested; and the new sewer and water connections will be so located as to be usable for any dwelling hereinafter erected on the premises; and

WHEREAS, the applicant, therefore, requests the Board grant a temporary variance for a period of five years to permit the trailer to remain on the lot on condition that the cesspool be discontinued and filled up and the drainage system connected to the public sewer; and

WHEREAS, in the opinion of the Board, the use of the premises for one trailer only does not constitute a trailer camp, as referred to in "Definitions", Section 1(y) of the Zoning Resolution, which requires two or more trailers to meet the classification as a trailer camp.

Resolved, that the decision of the borough superintendent, dated June 24, 1955, acting on Alt. App. 1043/55, Objections 1 and 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted* to permit the use as a single family temporary residence of the trailer now on the plot, as indicated on plans filed with this appeal marked "Received October 31, 1956", (2 sheets), *on condition* that immediately upon the passage of this resolution the lessee shall acquire the lot; that the trailer shall be used only for his own occupancy and for a term of one year from the date of this resolution; and that it shall be connected to a sewer and other facilities to the satisfaction of the Department of Buildings.

825-55-A

APPLICANT—Samuel Rosenblum, for James Thompson & Co. Inc., owner.

SUBJECT—Application October 21, 1955—Appeal from a decision of the borough superintendent—re egress.

PREMISES AFFECTED—112-114 Prince street, south side, 20 ft. west of Greene street, Block 500, Lot 19, Borough of Manhattan.

APPEARANCES—

For Applicant: Samuel Rosenblum and John Jay.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly... 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated October 10, 1955, on Alt. App. 1377/55 reads:

"1. Provide two (2) means of egress from all floors including cellar and 1st floor enclosed as req'd by law and leading directly to the street.

A fire escape is not acceptable as a legal means of egress in a factory bldg. over five (5) stories high." Sect. 271, Labor Law.

and

WHEREAS, the applicant states the building is 6 stories, 80 ft. 7 in. in height, 40 ft. by 71 ft. in area, Class 3 construction, erected in 1889, now in an unrestricted use, B area, Class 2 height district; occupied since erection: cellar—storage, boiler room and factory, 10 persons; 1st floor—shipping, 5 persons; 2nd floor—office, 15 persons; 3d to 6th floors—manufacturing of finished cotton goods, 15 persons per floor. Entire building occupied by one tenant. The building is provided with one 4 ft. 6 in. wide wood stairs, enclosed in fire-retarded partitions, equipped with fireproof, self-closing doors, leading direct to street and provided with ladder and scuttle to the roof. The building is provided with a thermostatic fire alarm with connection to Fire headquarters. There is one fire escape on the rear, extending to roof and yard by stairs, with egress to yard from base of the counterbalanced stair direct to street. Window and door openings on course thereof are fireproof, self-closing; and

WHEREAS, Violation #9637/53 was issued December 29, 1953, for failure to maintain proper exits throughout as required by Sec. 271 of Labor Law; and

WHEREAS, the applicant states the exits were made to conform with the Labor Law under previous requirements of the Departments having jurisdiction; that the interior stairway was enclosed in studs, wire lath and cement mortar with fireproof self-closing doors at openings; that the fire escape was provided with 45° stairs, two casement doors and a counterbalanced stair to yard, with direct egress, to Greene street; and

MINUTES

WHEREAS, the applicant contends the occupant uses three floors in the building in the rear at 113 Greene street for storage purposes and ramp bridges were provided on 3d, 4th and 5th floors to adjoining premises; that while these are not considered as exits, they do provide supplementary egress to the fire escape in the rear; that because the fire escape platforms are more than 8 in. below sill level, it is proposed to provide iron steps at window sill level to reach the balcony flooring without difficulty; and

WHEREAS, the applicant contends that the occupants per floor are less than the capacity of the interior stairs which is provided with a regulation fire retarded enclosure; that the fire escape has 45° stairs, fireproof windows and in addition there is supplementary egress to the adjoining premises and there is also an automatic fire alarm to headquarters. It is therefore requested that a variation of the Labor Law be granted with the acceptance of the exits as indicated on filed plans; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. App. 1377/55, Objection No. 1 and that the appeal be and it hereby is *granted, on condition* that the building shall not be increased in height or area; that the second means of exit from the cellar may be accepted as horizontal exit to the adjoining building to the west, with automatic sliding and hinged door at such opening; that a second means of exit from the upper stories may be continued as to the present fire escape on the rear with ladder to roof, and direct exit to Greene street, where and as shown on plans filed with this appeal marked "Received October 21, 1955", (7 sheets); that the proposed steps at the various floors to fire escape shall be constructed and maintained; that the thermostatic fire alarm connected with Fire Headquarters through an approved central station shall be maintained; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

SUBJECT—Application December 14, 1955—re Appeal from a decision of the borough superintendent—exits, etc.

PREMISES AFFECTED—1-9 Devoe street and 426 Union avenue, northeast corner, Block 2761, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: Joseph C. Haus.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly .. 4

Negative 0

THE RESOLUTION—

WHEREAS, the corrected decision of the borough superintendent dated November 20, 1956, on Alt. App. 4170/55 reads:

"1. The records of this department classify the use of this structure as "storage". Provide at least two means of exit from each floor including the cellar as required by Sect. 270 of the Labor Law."

and

WHEREAS, the applicant states the building is two stories, 24 ft. in height, 108 ft. front by 25 ft. and 50 ft. in depth, of class 3 construction, erected prior to 1890, located on a lot 108 ft. front by 50 ft. in depth, in an unrestricted and business use, B area, class 1½ height district and used and occupied since 1953: cellar—boiler room and storage (molds and dies) no persons; 1st floor—manufacturing and storage

of plastic products, 15 persons; 2nd floor—sewing, 45 persons; no change in use or occupancy is now proposed; and

WHEREAS, Certificate of Occupancy #72602, issued December 14, 1933, against Alt. Permit 2325/31, permits the following use and occupancy: cellar—ordinary use; 1st floor—storage; 2nd floor—storage; number of occupants not stated; and

WHEREAS, Violation 3293 was issued October 7, 1955, for using the first floor for manufacturing plastic forms and the second floor for manufacturing of coats contrary to Certificate of Occupancy #72602 and for not having two legal means of egress from the first and second floor; and

WHEREAS, the owner was convicted and fined on October 7, 1955 in Municipal Term, Magistrates' Court on a charge of violation of the Administrative Code; and

WHEREAS, the applicant states that this appeal is to secure a variation of the exit requirements of the Labor Law so as to permit the existing exits from an existing two-story and cellar factory building; and

WHEREAS, the applicant states that there are two buildings on this plot, the northerly building fronting on Union Avenue, known as 426 Union Avenue, is a three story brick multiple dwelling not affected by this appeal; that the building which is the subject of this appeal is an "L" shaped two-story brick building fronting 25 ft. on Union Avenue and 108 ft. on Devoe Street; that this building was erected prior to 1899 and its earliest record is Alt. App. 433/1899, which lists the use of the building as a factory; that at that time the present factory building consisted of two separate buildings, both listed as factories, and combined in 1919 into a single building under Alt. App. 2901/19, for occupancy as a factory; that under Alt. App. 9424/23 a rear extension was constructed and the occupancy listed as paper storage, office and two-car garage; however, there was an occupancy of 30 persons in the building indicating that it was still used for factory in connection with the paper business; that in 1931, Certificate of Occupancy #72602 was issued after completion of interior alterations; that this certificate listed the occupancy as storage but the plan upon which it was issued still shows 30 occupants in the building; that the present owners purchased the building over 30 years ago and used it for waste paper business until about three years ago; that baling and sorting of waste paper constituted a part of their business even though a major part of the floor space was used for storage; that, therefore, the building was always actually used for factory purposes despite the wording of the certificate of occupancy; that about three years ago the owners moved the waste paper business to a new location and rented the building in question as a tenant factory, and violation was issued for using the building as a factory contrary to the certificate of occupancy and plans filed to remove this violation resulting in the objections which are the subject of this appeal; and

WHEREAS, the applicant contends that although there is ample proof that the building was a factory prior to 1948, the Department of Buildings has based its objection on Sect. 270 of the Labor Law although such decision should be based on Sect. 271 of the Labor Law; and

WHEREAS, the applicant states that there are two exits from the first floor leading directly to the street; that these doors swing in the direction of exit and it is proposed to rehang the interior door leading from one of these exits so that all such doors will swing in the direction of egress; there are two exits from the second floor leading directly to the street, one a 3 ft. 8 in. wide interior stairway enclosed in masonry partitions on the first floor and leading direct to street, and the other a fixed 3 ft. wide exterior steel stairway on Devoe street; that the door from the second floor to the steel stairway will be rehung to swing in the direction of exit; the exterior stairway was shown as an existing stair on the 1923 approved alteration plan; that the cellar has no human occupancy and is used for a boiler room and the storage of small articles of discarded or obsolete forms and molds in connection with the first floor occupancy; that there is no occasion for employees to enter the cellar

MINUTES

except on infrequent occasions; that there are two means of egress from the cellar, one in the exterior concrete cellar stairs leading to sidewalk doors and the other a steep interior stairs leading to the first floor through a trap door; that the occupancy of the building is not hazardous; that the exits from both factory floors comply with Section 271 of the Labor Law and it is therefore requested that a variation be granted to permit the maintenance of the present exits with the change in door swings and installation of a ladder to the scuttle in the roof as is herein proposed; and

WHEREAS, the applicant states that the eight foot portion of the first floor of the building located in the business use district will be used for storage and no manufacturing will be conducted therein; and

WHEREAS, the premises were inspected by a committee of the Board; and

WHEREAS, the matter was laid over for the applicant to correct street number on Union avenue, which has been corrected; and a new decision of the borough superintendent has been filed on Alt. App. 4170/55 and new objection given as of November 20, 1956; and the committee recommended that the appeal should be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. App. 4170/55, Obj. No. 1, dated November 20, 1956 and that the appeal be and it hereby is granted, on condition that the exits as proposed and as shown on plans filed with this appeal marked "Received December 14, 1955", (2 sheets), shall be maintained including the means of exit as shown on the Devoe street side of the building on the exterior; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; that the portion of the building on the first floor to the east, as indicated on such drawings above cited, shall not be used for manufacturing, as proposed, within a distance of eight feet along the easterly side lot line.

314-56-A

APPLICANT—Manhattan Beach Community Group, Inc., for Neighboring Property owners.

OWNER OF PREMISES—West End Homes Inc.

SUBJECT—Application April 16, 1956—Appeal from a decision of the borough superintendent re revocation of Permits N.B. 2665-55 and N.B. 2666-55—zoning matter, re side and rear yards.

PREMISES AFFECTED—207 Beaumont street, southeast corner, and 208 Coleridge street, southwest corner, Block 7516. Lots 1615 and 1623, Borough of Brooklyn.

APPEARANCES—

For Applicant: Henry A. Robinson and Joseph B. Goldman.

For Owner: Joseph C. Haus.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: Commissioner Kleinert 1

Negative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated April 3, 1956, reads:

"Re N.B. 2664/55—211 Beaumont Street
N.B. 2665/55—207 Beaumont Street
N.B. 2666/55—208 Coleridge Street
N.B. 2667/55—212 Coleridge Street

Dear Sir:

This will acknowledge receipt of your letter March 23rd in which you request the revocation of the above numbered applications and the permits issued thereon, for the reason that the structures as approved do not comply with the requirements of the Zoning Resolution.

On March 14, 1956, I replied to a letter of February 28th from the Manhattan Beach Community Group,

Inc., of which you say you are the Chairman of the Special Zoning Committee. I stated in that letter that the plans for these buildings had been rechecked and were found to be in compliance with all the requirements of the Zoning Resolution and the Administrative Code.

On March 15th, you appeared at this office, I spent a considerable amount of time, going over the various requirements of the Zoning Resolution and the Administrative Code as they related to the buildings in question, I demonstrated to you in detail that the buildings in question complied fully with the requirements of the Zoning Resolution. I pointed out to you that the buildings at 207 Beaumont Street and 208 Coleridge Street, which are on corner lots comply fully with requirements as far as rear yards were concerned and that the southerly side yards for the buildings at 211 Beaumont Street and 212 Coleridge Street were not required side yards and were therefore in compliance with requirements.

We have gone into this matter in great detail. The plans have been carefully rechecked. There is no merit in your allegations of non-compliance with the requirements of the Zoning Resolution. Accordingly, your request that the above numbered applications and the permits issued thereon be revoked is herewith denied."

and

WHEREAS, the applicant states that each of the lots in question is 67 ft. front by 54 ft. in depth, located in a residence use, E-1 area, Class 1 height district and each building now under construction is 50 ft. front by 34 ft. in depth, 2 stories, 19 ft. in height; and

WHEREAS, the applicant states this is an appeal from a denial by the borough superintendent of the applicant's request to revoke the approval of plans filed and permits issued for the erection of buildings at 207 Beaumont street and 208 Coleridge street; and

WHEREAS, the applicant contends that the questions involved are:

1. Is the owner required to furnish a rear yard for each of the corner lots?

2. If rear yards are required then does the 5 ft. rear yard provided constitute compliance with the Zoning Resolution?

and

WHEREAS, the applicant contends that Section 17 of the Zoning Resolution entitled "Rear Yards" provides as follows:

"(a) Except in A districts, lots or portions of lots that are back to back and lots the backs of which abut a residence district shall have rear yards extending along the rear lot lines of such lots or portions of lots wherever they are more than 55 feet back from the nearest street * * * Within 55 feet of the nearest street no rear yards shall be required, except in D-1, E-1 * * * districts." (Italics added).

and

WHEREAS, the applicant contends that the general rule requiring rear yards appears to be that rear yards are required for lots that are back to back and lots the backs of which abut a residence district; that this rule applies not only to all such lots more than 55 feet in depth but also to all such lots in an E-1 district even though they are less than 55 feet in depth; that since the premises consist of lots the backs of which abut a residence district and since they are within an E-1 district, rear yards are required; and

WHEREAS, the applicant contends that Section 15-A provides that no building in an E-1 district shall be erected which does not comply with the provisions in force in an E district; and in an E district, Section 15 requires that if a building is erected in a residence district, the depth of the rear yard shall be at least 25% of the depth of the lot but need not exceed 25 feet at such level; that since the depth of the lots in question are 54 ft., the 5 ft. rear yard provided are 8 ft. 6 in. short of the required depth; and

WHEREAS, the applicant states the borough superintendent's decision is based on his interpretation that no rear yard

MINUTES

shall be required on any corner lot except where it abuts a residence district; that it is the contention of the borough superintendent that the lots in question do not abut a residence district since they are within a residence district; and

WHEREAS, the applicant contends that a reading of the sentence, "No rear yard shall be required on any corner lot except where it abuts a residence district" appearing in Section 17 of the Zoning Resolution, makes it self-evident that the borough superintendent's contention is erroneous; and

WHEREAS, a report of the Committee of the Board reads as follows:

November 8, 1956.

REPORT OF COMMITTEE.

Re: Cal. No. 314-56-A

Premises: Oriental Boulevard,
south side, from Beaumont to Coleridge
St., 207 Beaumont Street and
203 Coleridge Street, Manhattan Beach,
Brooklyn.

This is an appeal seeking to revoke the permits issued for the construction of two residential buildings, each on a corner lot. The buildings are now said to be completed.

The buildings are located within a residence use, E-1 district, and the only question involved is as to a rear yard. The buildings each front on the side street, hence, the rear yard, if required, is opposite the front, Article I, Paragraph h. It is claimed that each of these lots "abut" a residence district and hence a rear yard is required under the terms of Section 15A of the Zoning Resolution and Section 17.

In Section 17-a the fourth sentence states "no rear yard shall be required on any corner lot except where it abuts a residence district", and the next sentence reads: "where such corner lot abuts a residence district, there shall be a rear yard, located adjacent to the residence district". No other sentences or provisions of Section 17 are in dispute. The lots are not back to back but are back to side. The lots are within 55 feet of the nearest street and no rear yard would be required except in an E-1 district, in which these two dwellings are located.

The controlling provision of Section 17 is the sentence above quoted, which requires no rear yard on a corner lot, except where it abuts a residence district. The question, therefore, is narrowed down to whether these lots "abut a residence use district".

In Squires on Zoning in New York, published in 1948 by the Home Title Insurance Company, page 44, under the heading "A" as to rear yards, there is this statement: "A lot entirely within a residence use district does not abut a residence use district. In order to abut a residence use district, a lot must be in a different use district."

This interpretation has been accepted by the Board and is in general acceptance by the Department of City Planning and the Department of Buildings.

It is the opinion of the Board that no rear yard is required for these two lots and that the space provided at the rear is not a rear yard but a court, since there are windows required for ventilation in the rear wall. The Board finds that as the buildings are in compliance with the Zoning Resolution as to required open spaces, the appeal should be denied and the decision of the Borough Superintendent as appealed from affirmed.

(Sgd.) HARRIS H. MURDOCK,

Chairman,

SEAN P. KEATING,

Commissioner,

P. JOSEPH CONNOLLY,

Deputy Chief,

I believe this lot does 'abut' a residence district.

EDWIN W. KLEINERT

(Dissenting),

Commissioner.

Resolved, that the decision of the borough superintendent, acting on 2664/55, 2665/55, 2666/55 and 2667/55, be and it hereby is affirmed and that the appeal be and it hereby is denied, in accordance with the above report of the Committee.

346-56-A

APPLICANT—M. Martin Elkind, for 48 East 57th Street Realty Co., owner.

SUBJECT—Application May 4, 1956—Appeal from a decision of the borough superintendent re use of non-fire-proof building for business—re stairways, etc.

PREMISES AFFECTED—48 East 57th street, south side, 125 ft. west of Park avenue, Block 1292, Lot 42, Borough of Manhattan.

APPEARANCES—

For Applicant: M. Martin Elkind.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly

Negative

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated April 24, 1956, on amendment to Alt. App. 1187/55 reads:

"1. Use of 5th floor as office & showroom is contrary to 4.2.1 B.C.

2. Provide 2 hr. fire resistive rating for stairway enclosure as required by 6.4.1.8.1 (b) B.C."

and

WHEREAS, the applicant states the building is 5 stories, 55 ft. 6 in. in height, 24 ft. front by 100 ft. 5 in. in depth at street level, 24 ft. by 65 ft. at typical floor level, Class 3 construction, erected in 1872 on a lot 24 ft. front by 100 ft. 5 in. in depth, in a restricted retail use, B area, Class 1½ height district, used and occupied since 1917: cellar—storage and boiler room, 0 persons; 1st floor—(former basement) store, 5 persons; 2nd floor (formerly 1st) furnished rooms, 4 persons; 3d, 4th and 5th floors—furnished rooms, 4 persons each. Now proposed to be used as follows—cellar—storage and showroom, 5 persons; 1st floor—store, 5 persons; 2nd, 3d, 4th and 5th floors—offices and showrooms, 10 persons each floor. The building is proposed to be provided with one 3 ft. 8 in. wide interior steel stairs, enclosed in partitions of wood studs, covered both sides with fire-retarded material, equipped with kalamein, self-closing doors, leading from roof bulkhead direct to street; and

WHEREAS, the applicant states the building will be completely renovated; that all existing interior partitions will be removed and the stairs replaced and an elevator installed. The basement floor will be removed and reset at sidewalk level, so that this story will become a legal first floor and the present first floor reset so as to provide adequate ceiling height for the floor below; that the front will be altered by remodeling windows on 1st and 2nd floors; additional steel framing will be installed on all floors to create increased floor load capacities and support the elevator shaft; and

WHEREAS, the applicant contends that the building will exceed the height limitations for business use in nonfire-proof structures by only one story; that the entire usable floor area is relatively small; that the egress will be greatly improved by replacing present wood stairs with an iron stairs and the width of stairs increased to 3 ft. 8 in. minimum; that the enclosure around stairhall will be provided with greater protection by removing all existing wood lath and plaster, replacing same with one-hour materials and all doors in the enclosing partitions will be 1-hour rating; that in the cellar the boiler room will be entirely removed and no boiler on premises; heat will be provided by the New

MINUTES

York Steam Co.; that the nature of the occupancy will be non-hazardous; and

WHEREAS, the applicant contends as to Objection 2, that a modification is requested to permit the stair enclosure as proposed; that all platforms and floor surfaces within the stair and stairhall area will be furnished with cinder deafening and cement before any floor covering is placed thereon; that all enclosing partitions will be covered both sides with rock lath and plaster conforming with the requirements for one-hour protection.

Resolved, that the decision of the borough superintendent, dated April 24, 1956 acting on amendment to Alt. App. 1187/55 be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall not be increased in height or area and shall be maintained as proposed and as indicated on plans filed with this application marked "Received May 4, 1956", (2 sheets) and "November 21, 1956", (10 sheets); that the building shall comply with all laws, rules and regulations for the use of the building as proposed as a store on the first floor and offices and showrooms above.

WHEREAS, the applicant requested a further amendment of the resolution and time to complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 26, 1954, as thereafter *amended* by resolutions adopted through November 9, 1955, by adding thereto:

"that the number of gasoline storage tanks may be increased from eight to twelve, as shown on revised plans marked 'Received November 8, 1956' (1 sheet); and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this *amended* resolution" (Alt. 1109/54).

674-55-BZ

APPLICANT—Lama, Proskauer and Prober, for May Goodfarb, owner (Polo Ground Motors, Inc., lessee).

SUBJECT—Application for consideration—reopening for amendment as to pumps—re Application (decision of the borough superintendent); previously granted on condition, under sections 7f, 7i and 7A of the zoning resolution, permitting in a retail use district, the erection and maintenance of a gasoline service station, lubritorium, minor auto repairs, car washing, storage room, office and sales, parking and storage of motor vehicles, with show windows, curb cuts and signs within 75 ft. of the residence use district.

PREMISES AFFECTED—1920-1924 Amsterdam avenue and 501 West 155th street, northwest corner, Block 2114, Lot 40, Borough of Manhattan.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dept. of Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly... 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on June 19, 1956, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on June 19, 1956, only as to pumps, by adding thereto:

"that pumps shall be of a low approved type, erected not nearer than 15 feet to the street line and located

where indicated on revised plan marked 'Received November 1, 1956', (1 sheet), and that in all other respects the resolution above cited shall be complied with." (N.B. 137/55)

68-56-BZ

APPLICANT—Paul Friedman, for Edward J. Blumberg, Ira Blumberg and Etta Blumberg, Executors of Julius Blumberg, owners.

SUBJECT—Application for consideration—reopening for amendment as to design of accessory building—re Application (decision of the borough superintendent); previously granted on condition, under sections 7f and 7i of the zoning resolution, permitting in a business use district, the erection and maintenance of a gasoline service station, lubritorium, minor repairs with hand tools only, car washing (non-automatic), office, storage and sale of auto accessories, parking and storage of more than five motor vehicles awaiting service, for a term of 15 years.

PREMISES AFFECTED—142-18 to 142-20 Rockaway boulevard and 126-10 to 126-09 142nd street, southeast corner, Block 12059, Lot 7, South Ozone Park, Borough of Queens.

APPEARANCES—

For Applicant: Paul Friedman.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on October 23, 1956, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 23, 1956, only so far as it refers to the approval of design required to be submitted for further consideration, by adding thereto:

"that the design of the building as now proposed and as indicated on plans filed with this application marked 'Received November 14, 1956', (one sheet), is hereby *approved* as in compliance with the requirements of the resolution; and that in all other respects such resolution shall be complied with." (N.B. 5499/55)

69-56-A

APPLICANT—Paul Friedman, for Edward J. Blumberg, Ira Blumberg and Etta Blumberg, as Executors of Estate of Julius Blumberg, owners.

SUBJECT—Application for consideration—reopening for amendment of resolution—re Application January 30, 1956 filed pursuant to section 35, General City Law—re premises in bed of mapped street—142nd street.

PREMISES AFFECTED—142-18 to 142-20 Rockaway boulevard and 126-01 to 126-09 142nd street, southeast corner, Block 12059, Lot 7, South Ozone Park, Borough of Queens.

APPEARANCES—

For Applicant: Paul Friedman.

For Administration: Samuel L. Becker, Dept. of Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

THE RESOLUTION—

WHEREAS, this application was granted by the Board on October 23, 1956, on certain conditions; and

MINUTES

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 23, 1956, so that as *amended* the resolution shall read:

"that the decision of the borough superintendent, acting on N.B. App. 5499/55, Objection No. 2, be and it hereby is *modified* under the powers vested in the Board under Section 35 of the General City Law; that the appeal be and it hereby is *granted* to permit the use of that portion of the premises within the presently mapped street *on condition* that no damages shall be claimed by the owner against the City by reason of condemnation of that portion of the lot within the bed of the presently mapped street arising out of the establishment of the proposed use or by reason of compliance with the conditions imposed by the Board under Cal. No. 68-56-BZ by resolution adopted October 23, 1956 as *amended* this day.

572-31-BZ—Vol. II

APPLICANT—Esso Standard Oil Company, for Margaret Watson, owner.

SUBJECT—Application for consideration—reopening for extension of time to complete which expired June 15, 1955—re Application (decision of the borough superintendent); previously granted on condition, under sections 7c and 7i of the zoning resolution, permitting in a residence and business use district, the extension in use and area of existing gasoline service station, to include gasoline service station, lubritorium, car wash, motor vehicle repairs, welding and office and to include garage for more than five motor vehicles and the parking of motor vehicles; an application for a gasoline station filed in 1931 was denied, but upon Court review the application was referred back to the Board to permit the use with the existing garage on the premises under certain conditions.

PREMISES AFFECTED—112-05 to 112-07 Sutphin boulevard, northeast corner of 113th avenue, Block 12168, Lot 1, Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and set for hearing on December 18, 1956, at 10 A.M., subject to the regular procedure, waiving all requirements except a new decision of the Borough Superintendent and two publications in the Bulletin, in view of the expiration of the variance on June 15, 1955.

JOSEPH J. DOYLE, Chief Clerk.

(Continued from Page 1949)

possesses power to vary other regulations governing building within The City of New York, in the interest of administrative expediency.

III

The proposed amendments would, in many cases, place a veto power in the hands of a single member of the Board of Estimate.

IV

No provision is made in the proposed amendments or in any statute for a judicial review of an action of the City Planning Commission thereunder.

Presumably, these amendments were proposed to remedy supposed or real defects in the Zoning Resolution or to promote increased efficiency in administering zoning regulations in the City. I do not want to appear to take a purely negative attitude in this matter and I am, therefore, taking the liberty of suggesting other amendments of the Zoning Resolution, which, in my opinion, would achieve these ends without disturbing existing zoning procedures.

I

The Power to Vary Regulations Imposed by the Zoning Resolution Is Vested in the Board of Standards and Appeals Exclusively. The City Planning Commission Is Without Power to Vary Such Regulations.

The original enabling act which authorized the enactment of zoning regulations in The City of New York (*Chapter 470 of the Laws of 1914*) contained no provision for the granting of variances or otherwise relieving owners of property from the stringent restrictions contemplated thereby. Because of this lack of flexibility, considerable doubt was

expressed as to the constitutionality of any regulations which might be enacted thereunder. Accordingly, the Legislature of the State of New York amended the enabling act (*Chapter 601 of the Laws of 1917*) to permit regulations adopted pursuant thereto to

“—provide that the Board of Appeals may determine and vary their application in harmony with their general purpose and intent and in accordance with general or specific rules therein contained.”

(*Greater New York Charter*, §§242-a, 242-b).

The same statute empowered designated members of the Board of Standards and Appeals, which had been created by *Chapter 503 of the Laws of 1916*, to

“—hear and decide all matters referred to them or upon which they are required to pass under any resolution of the board of estimate and apportionment adopted pursuant to sections two hundred forty-two-a and two hundred forty-two-b of this charter.”

(*Greater New York Charter*, §718-d).

These provisions have been reenacted in the New York City Charter with slight change in verbiage but, I submit, with no change in intent or meaning.

New York City Charter, §§200, 666(5);

The Administrative Code, §§200-1.0, 200-2.0.

It thus appears that the legislative authorities have always intended that zoning power in the City of New York was to be vested in two bodies; the legislative functions, *i.e.*, the enactment of a Zoning Resolution and the classification of property, in the City Planning Commission and Board of Estimate or its predecessors and the administrative functions, *i.e.*, the granting of exceptions and variances, in the Board of Standards and Appeals.

STATEMENT

It will be observed that the City Planning Commission and the Board of Estimate were authorized by the Legislature to prescribe the conditions under which the Board of Standards and Appeals may act. The power to grant variances and exceptions, however, was conferred directly on the Board of Standards and Appeals by the State Legislature and not by the City Planning Commission or by the Board of Estimate. The City Planning Commission or the Board of Estimate may alter the conditions under which the Board may act but they may not transfer its powers to any other board or agency nor may they assume to exercise such powers themselves.

Neither the City Planning Commission nor the Board of Estimate is empowered by law to vary zoning regulations. The City Planning Commission is not the legislative body of the city. It possesses only such powers in respect of zoning as are conferred upon it by law. It is true that it is empowered "to regulate and limit" the height and bulk of buildings and the use of real property within The City of New York but this power relates only to the enactment of general zoning regulations and the establishment of the various zoning districts. It does not permit the granting of variances of or exceptions affecting specific parcels of property. If any argument is needed to demonstrate this fact it is to be found in the provisions of Section 200-1.0 of the Administrative Code which require the regulations enacted by the City Planning Commission relative to the height and bulk of buildings and the area of yards to "be uniform for each class of buildings throughout each district". This provision specifically limits the power of the City Planning Commission to the enactment of general regulations for, obviously, the granting of variances and exceptions does not tend toward uniformity of regulation but rather to a lack of uniformity.

The concentration of the power to grant variances of zoning regulations in the Board of Standards and Appeals did not occur through mere chance or coincidence. It was the result of a deliberate intent on the part of the Legislature to place this power in the hands of persons peculiarly fitted by education, training and experience to exercise it. One of the members of the Board of Standards and Appeals is required to be a licensed architect of fifteen years experience. Another must be a professional engineer who has practiced his profession for a similar period of time. The third member must be an officer of the uniformed force of the Fire Department above the grade of Battalion Chief. These men are peculiarly fitted to pass upon the questions committed to them. The provisions of the New York City Charter prescribing the qualifications of the members of the City Planning Commission, on the other hand, contain no similar requirements.

I have not overlooked the decision of the Appellate Division of the Supreme Court in *Congregation Beth Israel v. Board of Estimate of The City of New York*, 285 App. Div. 629, in urging this contention.

The order reviewed in that case dismissed the complaint in an action to enjoin the construction of a public garage approved by the City Planning Commission under Section 21-F of the Zoning Resolution. The Court held that the provisions of that section were "general and uniform in scope and applicability" and, therefore, within the powers of the Commission (p. 637). Nothing contained in the opinion of the Court in that case can be deemed to sustain the contention that the Commission may grant a variance of or exception to the general regulations which, of course, would not be "general and uniform in scope and applicability". Indeed, the Court expressly distinguished the enactment of a general zoning provision from the granting of a variance and, at least by implication, indicated that the latter was beyond the powers of the Commission.

In view of this very serious question as to the validity of the amendments under consideration, I urge that other means be sought to bring the desired results.

II

Applications to Vary Zoning Regulations Should Be Addressed to the Board of Standards and Appeals, Which Possesses Power to Vary Other Regulations Governing Buildings Within the City of New York, in the Interest of Administrative Expediency.

The Board of Standards and Appeals is empowered by law to vary the application of various statutes and regulations governing the construction, maintenance and operation of buildings within The City of New York, including Building Code, Labor Law, Multiple Dwelling Law, General Munciple Law, and others.

It has been the experience of many persons engaged in zoning activities that many projects which involve or require variances of zoning regulations also involve variances of one or more of these other statutes.

In such cases, under existing procedure, dual applications are made to the Board of Standards and Appeals. Both applications are heard at the same time and as part of the same proceeding and, if warranted, relief is granted as to both the zoning regulations and the other statutes involved.

If the proposed amendments were to be enacted, a person seeking relief thereunder might well be required to make one application to the City Planning Commission and another to the Board of Standards and Appeals, thereby entailing duplication of effort and additional expense and delays. Furthermore, if one administrative agency were to adopt a favorable view and the other an unfavorable view toward such applications, the applicant would find himself at a stalemate.

In my opinion, administrative efficiency can best be obtained by continuing all of these powers in a single board and providing for uniformity in form of application and procedure.

III

The Proposed Amendments Would, in Many Cases, Place a Veto Power in the Hands of a Single Member of the Board of Estimate.

The proposed amendments provide that any action by the City Planning Commission thereunder shall be approved by the affirmative votes of a majority of the Board of Estimate before it shall become operative, unless a designated number of objections are filed, in which event, the action shall not become effective unless approved by the unanimous vote of the entire Board. In many cases, therefore, one member of the Board of Estimate would have the power to veto the action of the City Planning Commission and of his colleagues on the Board of Estimate.

This concentration of power in the hands of a single individual is not consistent with the prevailing conception of rule by majority vote. I submit that, while it has existed to some degree in the past, it should not be further extended.

IV

No Provision Is Made for the Judicial Review of Actions of the City Planning Commission Under the Proposed Amendments.

At present, an owner of property, who is aggrieved by an action of the Board of Standards and Appeals, is afforded a full review of such action in a judicial proceeding.

New York City Charter, §668e;

Administrative Code, §668e-1.0.

There is no statutory provision expressly authorizing a judicial review of an action of the City Planning Commission under the proposed amendments and there is some doubt as to whether a right to such a review exists. Some of the persons urging that these amendments be adopted have expressed the view that any action thereunder would be legislative in character. If that be true, no judicial review thereof would be possible. I respectfully urge that the granting or denial of a zoning variance or exception is of such great consequence to the owner of the affected property and to the owners of neighboring properties that a full judicial review should be accorded. The denial of the right to such a review might raise further doubts as to the validity of the proposed amendments.

STATEMENT

Even if an action of the City Planning Commission under the proposed amendments were to be held to be subject to judicial review, a proceeding to obtain such a review would be governed by Article 78 of the Civil Practice Act and would be protracted and unduly expensive.

V

The Results Sought to be Obtained by the Proposed Amendments Can be Achieved in Other and Less Objectionable Ways.

As I have pointed out above, I believe that the results which the proponents of the amendments under consideration desire to achieve can be obtained in another manner.

I believe that the present Zoning Resolution, with minor amendments, is adequate to accomplish the desired purposes and that the Board of Standards and Appeals can properly administer these regulations, if augmented as hereinafter suggested.

The provisions of the present Zoning Resolution relative to use district restrictions are, I believe, adequate for all practical purposes. Article III, relating to height districts, and Article IV, relating to area districts, are, however, inadequate in that they do not expressly confer sufficient power on the Board to vary the restrictions imposed thereby. Accordingly, they should be revised to empower the Board

expressly to grant variances or exceptions without regard to the existence of "unnecessary hardships or practical difficulties", as required by Section 21 of the Zoning Resolution. If the Board were thus empowered to act, it could grant relief in appropriate cases and could achieve the results sought to be obtained by the proposed amendments.

It cannot be urged with any degree of assurance that such amendments would not be completely effective for the Board has never possessed the powers which would be conferred upon it thereby and, consequently, cannot be charged with the failure to exercise them up to this time.

During the past few years, there has been a substantial increase in the number of applications presented to the Board of Standards and Appeals, due, in part, to an expansion of its jurisdiction and, in part, to an increase in building activities following the end of World War II and the Korean conflict. It would appear that the Board is not adequately staffed to carry on this increased work efficiently. I, therefore, recommend that arrangements be made to increase the technical and clerical staff of the Board to handle this increase in work. I am confident that, if that were done, zoning applications could be disposed of by the Board in a manner that would prove satisfactory to all persons concerned.

RULES

OIL BURNER RULES

(217-21-SR)

RULES COVERING THE INSTALLATION AND USE OF OIL BURNING EQUIPMENT AND THE STORAGE OF OILS USED IN CONNECTION THEREWITH

Adopted by the Board of Standards and Appeals June 15, 1934, Amended July 12, 1935, January 28, 1936, December 4, 1936, July 1, 1941, June 15, 1948, July 13, 1951 and September 14, 1956, effective October 8, 1956.

(Superseding Fuel Oil Rules adopted by the Board of Standards and Appeals, November 6, 1919; amended January 6, 1922; January 18, 1924; November 3, 1926; September 11, 1928; January 11, 1929; March 20, 1931; May 12, 1931; November 24, 1931; May 10, 1932; June 24, 1932; November 4, 1932).

Authority: Section 666, paragraph 2 of the New York City Charter and C19-57.0 Administrative Code.

Rule 2. Definitions.

2.6 CONTROLS: Such electrical or mechanical devices as are installed for the purpose of providing safe and continuous or intermittent operation.

2.10 ELECTRICALLY GROUNDED: For protection against lightning shall mean storage tanks set directly in or on the ground and/or with underground piping connections. Where storage tanks without underground piping connections are built on bases above the surface of the earth outside of buildings, such storage tanks shall be grounded at two (2) points 180° (degrees) apart as follows:

2.14 INDUSTRIAL INSTALLATIONS: Oil burner installations for industrial purposes under same requirements as for Commercial Installations.

Rule 3. Oil Permitted.

3.1 Oil permitted under these rules shall be any hydrocarbon oils free from acid, grit and fibrous or other

foreign matter. The fuel oils shall be classified as provided in current Commercial Standard published by the U. S. Department of Commerce, and shall have a flashpoint not lower than 100 degrees Fahrenheit when tested in a Pensky-Martens closed cup tester (American Society for Testing Materials Method D-93-36) and marketed under the following commercial grades:

{	Range Oil	
{	No. 1 Fuel Oil	
	No. 2 "	"
	No. 4 "	"
	No. 5 "	"
	No. 6 "	"

Rule 4. Standards for Approval of Oil Burners by the Board.

4.1 Approved burners, including oil-burning heaters, shall be an assembly of approved parts and electrical controls suitable for use with each other for the service intended, as approved, such burners shall be provided with suitable safeguards to prevent abnormal discharge of oil.

Rule 6. Location of Tanks.

6.1 Inside of Buildings, Above Ground.

6.1.2 Storage tanks having a capacity of more than two hundred and seventy-five (275) gallons, when installed inside of buildings shall be located on the lowest floor level and all portions of such tanks above the floor shall be protected by not less than four inches (4") of masonry with weep holes along the bottom one inch in diameter not more than 3 ft. apart. The masonry walls of a structure may be used as part of the protection.

Storage tanks may be placed in a protective enclosure having solid masonry walls not less than eight inches (8") in thickness and of dimension not less than fifteen (15") greater on all sides than the outside dimensions of the

RULES

storage tanks. The walls of enclosure shall be carried up to a height not less than two feet (2') above the top of the tank or to the ceiling where the ceiling is less than two feet (2') above the top of the tank. A fireproof access door shall be installed in the enclosure above the point where the enclosure has a capacity equal to the largest tank installed, and for each additional 10 feet or fraction thereof by which the longest inside dimension of the enclosure exceeds 35 feet an additional fireproof access door shall be similarly installed at one or more intervals of not less than 10 feet.

Columns, pipes, or similar obstructions, may project into the required fifteen inches (15") of space within the enclosure, provided that access door or doors are so arranged that all portions of the enclosure are accessible. The ceiling above the tank enclosure shall be either fireproof or fire-retarded.

6.3 Outside of Buildings, Below Ground.

6.3.3 All buried storage tanks prior to or at the time of installation, shall be thoroughly cleaned and coated on the outside with two (2) coats of red lead and coated at the site with hot tar, asphalt or other equivalent rust-resisting material. All tanks shall be electrically grounded.

6.4 Outside of Buildings, Above Ground.

6.4.1 Storage tanks of a capacity greater than 275 gallons located outside of buildings above ground shall be not less than one and one-quarter (1¼) tank diameters and in no case less than ten feet (10') from the line of adjoining property, the nearest building or adjacent tank. Such tanks shall be electrically grounded. The maximum capacity of individual tanks located outside of buildings above ground shall be fixed by the following schedule:

If distant 25 feet from line of adjoining property which may be built upon.....	16,000 gallons
If distant 30 feet.....	24,000 "
If distant 40 feet.....	36,000 "
If distant 50 feet.....	48,000 "
If distant 60 feet.....	60,000 "
If distant 75 feet.....	96,000 "
If distant 85 feet or more..	100,000 "

6.4.1.1 Two hundred and seventy-five (275) gallon tanks shall be located so as not to interfere with or obstruct any means of egress.

6.4.3 All above ground storage tanks prior to or at the time of installation, shall be thoroughly cleaned and coated on the outside with two (2) coats of red lead and coated at the site with hot tar, asphalt or other equivalent rust-resisting materials. All tanks shall be electrically grounded. All above ground two hundred and seventy-five (275) gallon tanks shall be protected against injury in a manner satisfactory to the Administrative Official.

6.5 Tanks Located Along Line of Subways.

6.5.1 Along the line of subways no buried tank shall be placed within twenty feet (20') from the outside line of the subway wall, and where practicable, tanks shall be placed in a lower position than the roadbed of the subway, except as may be modified in specific instances by the Board of Standards and Appeals. Where an above ground tank within a building is located within the outer lines of the

subway, or within twenty feet (20') from the outside line of the subway wall, such tank shall be placed within a welded steel oil-tight pan of not less than 18 gauge metal of adequate capacity to contain the contents of the tank.

Rule 7. Piping.

7.2. Relief Valves.

7.2.2 Oil preheaters shall be of approved type and provided with a relief or pressure regulating valve in the piping system to prevent excessive oil pressure. Oil preheaters shall not be installed in the steam or water space of the boiler and shall be so designed that in the event of oil leakage within the preheater, the oil shall be prevented by an approved method from entering the water or steam circulation system. Water piping connection shall be equipped with a blow-down system providing positive flushing of the water side of the preheater. Two (2) thermometers shall also be installed, one on the intake oil line of the preheater and the other on the discharge oil line.

7.2.3 Relief valves shall be set to discharge at not more than one and one-half (1½) times the maximum working pressure of the system. The discharge from relief valves shall be returned to storage tank or to the supply line. Pressure regulating valves and viscosity valves are not included within the scope of this subdivision. There shall be no shut-off valve in the line of relief.

7.3 Vent Pipes.

7.3.4 Vent pipes shall be provided with an approved weatherproof hood having a free area of not less than the pipe size area and shall terminate outside the building not less than two feet (2') from any building opening and not less than two feet (2') nor more than twelve feet (12') above the fill pipe terminal, except as may be otherwise approved by the Board. When such openings are fixed and constructed of incombustible materials they shall not be deemed openings within the intent of this rule. If the vent pipe terminal is not visible from the fill pipe terminal location, a one-inch (1") line shall be connected to tank and shall parallel the fill pipe and terminate at the fill pipe terminal with unthreaded end. Such tell-tale lines shall be provided with a check valve set to prevent flow of surface water to storage tank.

Rule 7.4 Fill Pipes.

7.4.1 Fill pipe shall terminate outside the buildings with the fill pipe terminal located at or above grade at least two feet (2') from any building opening and five feet (5') from any subway grating, at or below the level of the fill pipe terminal. No fill pipe shall be less than two inches (2") in diameter and no fill pipe for #6 oil shall be less than three inches (3") in diameter. Where #6 oil is used, the fill pipe terminal shall be located within three feet (3') of the curb, unless otherwise required by the Highway Department or the Transit Authority. Where there are facilities for the delivery tank truck to drive onto the premises, the fill pipe terminal may be located elsewhere than at the curb provided that the location complies with the other requirements of this rule.

RULES

7.4.3 Where the top of the storage tanks is above the fill pipe terminal the fill pipe shall be connected to the top of the tank and be provided with a shut-off valve and swing check valve which shall be located at the fill pipe terminal, or the shut-off valve may be located inside the building at or below the level of the fill pipe terminal, in an accessible location.

Rule 8. Valves and Control of Oil Flow.

8.2 Each supply line for storage tanks of more than two hundred and seventy-five (275) gallons' capacity, shall be provided with a shut-off valve at the burner and where the top of the tank is above the oil inlet connection to the burner and/or transfer pump, shall be provided with an approved anti-syphon device located at the highest point in the supply line, except that where heavy oil (No. 6 Commercial Standard Grade) having a viscosity of one hundred (100) seconds or more Saybolt Furol at one hundred and twenty-two degrees Fahrenheit (122° F.) is used, the anti-syphon device shall not be required. No anti-syphon device shall be required where a foot valve is installed at the inlet of the suction line.

Rule 10. Permits, Plans, Inspection and Tests of Storage Tanks and Piping.

10.1 Permits.

10.1.2 Application for permit shall be made and fee covering the permit as per Rule 10.4.1 be paid within ten days after the completion of the installation by the installer who holds a certificate of license issued by the Fire Commissioner, on forms furnished by the Fire Commissioner which shall include the location of the building in which the installation has been made, name and address of owner and/or occupant, name and address of installer, make and approval number of burners, pumps and other devices, capacity, number and location of storage tanks, together with approval of such installation by the Borough Superintendent of Buildings when required under Rule 10.2.

10.1.3 No permit shall be issued by the Fire Commissioner until the installer has furnished an

affidavit that the installation complies with all requirements, and that the CO₂ content of the flue gas by actual test of the completed installation is not less than 8 per cent without smoking.

10.3 Inspection and Tests of Installations of Storage Tanks and Piping.

10.3.1 All fuel oil storage tanks and piping installed as required to be tested by these Oil Burner Rules, shall after installation, except as indicated in this section, be tested by the installer in the manner and to the pressures set forth in this section, and proved tight before any fuel oil system shall be placed in operation. A sworn statement by the installer in proper affidavit form attesting to such installation and test shall be filed with the Fire Commissioner.

(See Sections of the Administrative Code C19-19, as amended by Local Law 46 of 1951 and C19-152).

Rule 12. Ventilation.

12.1 No burner shall be installed in any boiler, heater, range or stove unless each boiler, heater, range or stove be connected to a legal chimney, complying with Article 12 of the Building Code, except that several units may be connected to a common chimney.

12.2 Adequate ventilation, at least equivalent to area of the smoke pipe at the point where it enters the flue, shall be provided in all rooms in which burners are installed, except that in commercial installations the area for natural fixed ventilation shall be at least equivalent to eight (8) square inches for each gallon of oil for which the fuel burning equipment is rated. Where the fixed ventilation is supplied mechanically and electrically interlocked with the burner, at least the equivalent of two (2) square inches for each gallon of oil for which the fuel burning equipment is rated, shall be provided.

12.3 Dampers shall be so constructed that they cannot completely cut off the passage of flue gases at any time. Approved automatic draft controls may be installed when necessary to provide proper draft where the draft is excessive.

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication of this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure

to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying property owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1014, Municipal Building, Manhattan, at five cents each—postage to be added if the forms are forwarded by mail.

RULES

AMENDMENTS TO THE RULES FOR ERECTION, ALTERATION, REPAIR, EXCAVATION FOR AND DEMOLITION OF BUILDINGS

**Adopted by The Board of Standards and Appeals,
October 26, 1943, Effective December 13, 1943;
Amended Oct. 14, 1955, Effective Nov. 10, 1955;
and Amended June 4, 1956, effective July 2, 1956.**
(Cal. No. 784-41-SR)

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, (3) and (4) of The New York City Charter; Sections C26-189.0, C26-191.0, C26-504.0(a), and C26-689.0 of the Administrative Code

7.8.1 Design and Construction of Forms. The design and construction of forms shall conform to the following requirements:

7.8.1.1 Forms shall conform to the shape, lines, and dimensions of the member as called for on the plans. Forms shall be substantial and sufficiently tight to prevent leakage of mortar; and shall be properly braced or tied together so as to maintain position and shape and insure safety to workmen and passersby. Temporary openings shall be provided where necessary to facilitate cleaning and inspection immediately before depositing concrete.

7.8.1.2 Where the height of the shores exceeds ten feet, adequate diagonal bracing shall be provided in both longitudinal and transverse directions. In addition, adequate diagonal braces shall be provided at the ends of the framework. Diagonal bracing shall extend from the top to bottom of shores.

7.8.1.3 The unbraced length of wood shores supporting forms shall not exceed fifty times the least dimension. Metal shores or frames shall be approved by the Board of Standards and Appeals and shall be installed in accordance with the approval of the board. Shores shall be adequately secured at the top and shall be properly wedged at top or bottom, if required.

7.8.1.4 Where shores rest upon the ground, adequate mud sills, or other bases, shall be provided to support the shores adequately.

7.8.1.5 Qualified workmen shall be detailed constantly during the placing of concrete to insure that there is no movement of shores, braces or other supports. The name of the foreman in charge of the formwork shall be posted in the field office of the contractor.

7.8.1.6 The individual, firm or corporation who does the concrete work shall be responsible for the adequate design and construction of all forms used in the construction of the building. Wherever the shore height exceeds fourteen feet, or the load on the forms exceeds one hundred fifty pounds per square foot, or power buggies are used, or two stage shores are used, the individual, firm or corporation who does the concrete work shall certify to the department that the form design has been checked and approved as adequate by a licensed professional engineer who has had at least five years of experience as a structural engineer, and that the forms have been constructed in conformance with the design which was checked and approved by the said engineer.

Minutes of Regular Meeting, Tuesday Afternoon, December 4, 1956, Affecting Calendar Numbers 683-38-SA—Vol. IV, 78-53-SM, 502-53-SM, 568-55-SA, 1040-55-SA, 173-56-SM, 174-56-SM, 328-56-SM, 371-56-SA, 386-56-SA, 881-50-SM, 434-55-A, 754-55-A, 324-56-A, 612-56-A, 661-49-A—Vol. III, 435-55-A, 997-55-A, 439-56-A, 178-41-BZ—Vol. II, 619-41-BZ—Vol. II, 765-48-

SECTION 21-C

September 17, 1956.

Hon. James Felt, Chairman,
and Members of The City Planning Commission:

Dear Sirs:

The duties of the Planning Commission are set forth in Chapter 8 of the New York City Charter which was approved by municipal referendum and by the State Legislature. Nowhere in the Charter is there any provision which permits the Commission to acquire other functions already assigned by a provision of the Charter to another agency. Neither in the Charter nor in the Zoning Resolution is there any authorization or even suggestion that the Planning Commission can arrogate to itself the varying powers of the Board of Standards and Appeals provided for in Chapter 27, Section 666, Paragraph 5, of the Charter. The wording of Paragraph 5 reads: "The Board shall have power: To determine and vary the application of the Building Zone Resolution as may be provided in such Resolution". This means that the Commission with the approval of the Board of Estimate may provide in the Zoning Resolution the conditions under which the Board may determine and vary the application of the Zoning Resolution. It does not mean that the varying power can be assumed by the Planning Commission or assigned to any other agency. Neither does it mean that the Resolution may be so amended as to deprive the Board of its Charter powers to grant variances and to adopt rules to supplement the Zoning Resolution as provided in Section 666, Paragraph 2, of the Charter.

That the Commission has attempted unlawfully to take away from the Board of Standards and Appeals its Charter powers of variance and to take away the Board's Charter powers to adopt rules and to assign such powers to another agency, is a matter of record in repeated attempts over the past several years. The Board has protested to no avail. On one occasion the Planning Commission voted four to three not to restore jurisdiction to the Board with the suggestion that the Courts should decide. Why is it that where the law is clear, the requirements of the Charter are so flagrantly disregarded?

It is apparent that the Commission is studiously avoiding the use of the words "vary" and "variance" in its amendments to the Zoning Resolution in its current proposal to make further inroads on the Board's jurisdiction under the proposed Amendment to 21-C. In using other words or terms, such as "exception," "approval" and other similar words, the Commission apparently thinks that it has found a way to vary the law without conflicting with the Board's powers. Such factious reasoning is to no avail. Any action

CALENDAR

DOCKET

New Cases filed up to December 4, 1956

811-56-SM—Scaffolding Specialty Co., Inc., Arch Sectional Steel Scaffolding, manufactured by Scaffolding Specialty Co., Inc., Material.

812-56-SM—JM Rock Wool Blankets, Spincooustic, Spintex, Banacoustic, MK, KK and MM and JM Transite Acoustic Panel, manufactured by Johns-Manville Sales Corp., Material.

813-56-SM—JM Class A Universal Partitions, manufactured by Johns-Manville Sales Corp., Material.

814-56-SA—Caloric Gas Range, Models H16, H16D, CPH-16, CPH16D, with or without suffixes, C, X, T, B and I, manufactured by Caloric Appliance Corp., Appliance.

815-56-SA—Caloric Gas Range, Models 22, 22D, CP22 and CP22D, with or without suffixes, X, T, K, I, manufactured by Caloric Appliance Corp., Appliance.

816-56-A—B.M.—90-100 John street and 24 Gold street, southeast corner and 15-23 Platt street, Block 69, Lot 39, Borough of Manhattan, Amendment to B.N. 848-56—re wood stud partitions.

817-56-BZ—B.Q.—10-14 Beach 31st street, east side, 100.06 ft. north of Dwight avenue, Block 232, Lot 62, Far Rockaway, Borough of Queens, N.B. 2164-56—re area excessive—residence use district.

818-56-BZ—B.M.—168-170 West 4th street, south side, 58 ft. east of Jones street, Block 590, Lot 29, Borough of Manhattan, Alt. 1485-56—re business use—residence use district.

819-56-BZ—B.Q.—207-10 to 207-24 48th avenue (207-20 official) and 48-01 to 48-09 207th street, southeast corner, Block 7366, Lot 1, Bayside, Borough of Queens, N.B. 3655-56—re gasoline service station, lubritorium, parking and storage in open area—residence use district.

820-56-BZ—B.Bx.—1660-1666 Southern boulevard, northeast corner of East 173rd street and northwest corner of Hoe avenue, Block 2938, Lots 1 and 46, Borough of The Bronx, Alt. 1139-56—re parking and storage and office—residence and business use district.

821-56-BZ—B.Bx.—322 West 231st street, southeast corner of Irwin avenue, Block 3406, Lots 130 and 133, Borough of The Bronx, Amendment to Alt. 1026-56—re parking and storage of more than 5 motor vehicles.

822-56-SM—UV490-12FRC and UV490-12FRM Flame Resistant vinyl coated cotton fabric for folding doors, manufactured by Joanna Western Mills Co., Material.

823-56-BZ—B.B.—1601-1615 55th street, northeast corner of 16th avenue, Block 5485, Lot 1, Borough of Brooklyn, N.B. 1790-56—re gasoline service station, lubrication, sale of auto

accessories, parking and storage of cars; entrances, signs, show windows within 75 ft. of residence use district—business and residence use district.

824-56-BZ—B.B.—2505-2521 Coney Island avenue, east side, 140.50 ft. south of Avenue V, Block 7371, Lots 83 and 89, Borough of Brooklyn, N.B. 1976-56—re gasoline service station, auto showroom, repair shop, parking and storage of motor vehicles—business use district.

825-56-A—B.B.—195 Wilson avenue and 156-166 Stockholm street, northeast corner, Block 3257, Lot 6, Borough of Brooklyn, Alt. 1075-56—re egress.

826-56-BZ—B.Bx.—1079 Nelson avenue, west side, 197.3 ft. south of West 166th street, Block 2514, Lot 30, Borough of Bronx, Alt. 1081-56—re change in occupancy from fire house to Pickture Film Production, reviewing room and rewinding of film—residence and local retail use district.

827-56-BZ—B.B.—7210 13th avenue, 80 ft. south of 72nd street, Block 6188, Lot 42, Borough of Brooklyn, Alt. 479-56—re area excessive; yard—retail use district.

Restored to Docket

407-40-BZ—Vol. IV—B.B.—1927-1935 Flatbush avenue, northeast corner of Kings highway, Block 7819, Lot 20, Borough of Brooklyn, Alt. 4474-55—re gasoline service station, lubritorium, minor auto repairs with hand tools only, parking of motor vehicles awaiting service, etc.—business use district.

421-37-BZ—Vol. III—B.Bx.—1110 East 216th street and 3585 Wilson avenue, southwest corner, Block 4710, Lots 24 and 26, Borough of The Bronx, Alt. 1105-56—re parking and storage of motor vehicles (non-accessory); curb cut—residence use district.

295-32-BZ—Vol. II—B.B.—594-596 Jamaica avenue and 602-604 Force Tube avenue, southeast corner, Block 3904, Lots 1 and 2, Borough of Brooklyn, Alt. 2979-56—re gasoline service station, auto repair shop; business entrances and show windows within 75 ft. of residence use district—business and residence use district.

144-19-BZ—Vol. IV—B.Q.—23-69 to 23-71 38th street, east side, 162.21 ft. north of Astoria boulevard (Triboro Bridge Plaza), Block 803, Lot 13, Long Island City, Borough of Queens, Alt. 1110-56—re proposed extension of time for use of premises as a factory for manufacturer of display cards and posters—residence and business use district.

145-36-BZ—Vol. II—B.Bx.—3515 Webster avenue and 413 Gun Hill road, northwest corner, Block 3356, Lots 214 and 220, Borough of The Bronx, N.B. 1872-56—re extension of gasoline service station, parking and storage of more than 5 motor vehicles into a business use district; proposed new building to include car washing, lubritorium, motor vehicle repairs with hand tools only—unrestricted and business use district.

CALENDAR

32-26-BZ—Vol. III—B.B.—4919-4935 Kings highway and 1550-1552 Utica avenue, Block 7733, Lot 53, Borough of Brooklyn, Amendment to Alt. 3696-56—re gasoline service station, office, lubritorium, auto laundry, auto repairs with hand tools only, parking of cars waiting to be serviced and auto showroom for franchised dealer, etc.—business use district.

DESIGNATIONS: B.—Department of Buildings; B.B.—Department of Buildings, Brooklyn; B.M.—Department of Buildings, Manhattan; B.Q.—Department of Buildings, Queens; B.R.—Department of Buildings, Richmond; B.Bx.—Department of Buildings, Bronx; H.D.—Health Department; F.D.—Fire Department, and M. and A.—Dept. of Marine and Aviation.

Further Sections will be published, containing other approved materials and appliances.

DECEMBER 11, 1956, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing Tuesday morning, December 11, 1956, at 10 o'clock in Room

1013, Municipal Building, Manhattan, on the following matters:

865-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Nat Patterson and Herbert H. Pensig, owners.

SUBJECT—Application October 28, 1955—re (decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a business use district the erection and maintenance of a gasoline service station, lubritorium, car washing, minor auto repairs, office, sales, storage, parking and storage of motor vehicles.

PREMISES AFFECTED—89-15 Rockaway boulevard and 101-12 to 101-28 90th street, northwest corner, Block 9093, Lot 13, Ozone Park, Borough of Queens.

Laid over from October 16, 1956, to November 7, 1956, for inspection and decision; hearing closed; then to December 11, 1956, for further consideration by the Board.

607-56-BZ

APPLICANT—Spencer L. Eddy, for Harry and Benjamin Neisloss and Benjamin Braunstein, trustees (Esso Standard Oil Co., lessee).

SUBJECT—Application September 10, 1956—re (decision of the borough superintendent) under sections 7f, 7i and 21 of the zoning resolution, to permit in a retail use, F area district the erection of a gasoline service station, lubritorium, auto laundry (non automatic), minor auto repair shop with hand tools only, parking of motor vehicles awaiting service, for a term of 15 years.

PREMISES AFFECTED—29-30 Union street, west side, 189.24 ft. north of 31st road, Block 4343, Lot 105, Flushing, Borough of Queens.

Laid over from November 7, 1956, to December 11, 1956, for inspection and decision; hearing closed.

536-56-BZ

APPLICANT—Robert Gottlieb, for Casper R. Nevola, owner.

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on February 7, 1956 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on September 25, 1956 after due notice by publication in the Bulletin; laid over to October 23, 1956, for inspection and decision; information from the Board of Education; hearing closed; then to October 30, 1956, for further consideration by the Board; then to November 20, 1956, for Park Department to furnish plan of grass plot fenced and location of proposed entrance; and for further consideration; then to December 4, 1956, for applicant to correct his plans as to Wells Street; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Chestnut street and Conduit boulevard are in business and residence use, C area, class 1 height districts; Liberty avenue is in business and local retail use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated December 13, 1955 acting on N. B. Applic. 2123-55, reads:

"3. Proposed building and premises, partly in business and partly in a residence zone, to be used for gasoline selling station, office, repair shop, lubritorium, and day and night parking of more than 5 motor vehicles, is contrary to Article II, PP. 3 and PP. 4-a subsections 29 and 46 of the Zoning Resolution.

4. Proposed business entrances (curb cuts) and show windows within 75' of a Residence zone in a transition

from non-residential to residential zones is contrary to Art. II, PP. 7-A of the Z. R."

and

WHEREAS, the applicant states that the premises consist of a plot, 110 ft. frontage by 160 ft. 2½ in. in depth, irregular, now vacant; that it is proposed to permit the erection of a one story brick building of class 3 construction, of modern design and of size and layout as shown on plans submitted with this application and to be occupied as stated in application; and

WHEREAS, the applicant states that a portion of this property was improved with a one story brick building of class 3 construction on a plot of larger size as shown on plan marked "old condition"; that this building was granted under Cal. No. 395-29-BZ; that this entire building was demolished and a considerable portion of the plot was removed for the widening of Conduit boulevard, which is now under construction; that these premises were operated to the final day when property was vested to the authorities; that these premises were operated under certificate of occupancy No. 82803, issued June 16, 1937; that this property is now situated in a business use district, 100 ft. north of property line and the balance is in a residence use district, C area, class 1 height district; and

WHEREAS, the applicant further states that all gasoline tanks and buildings have been demolished and only a vacant plot remains; that the present owner has tried to dispose of the property but due to the triangular shape and different use zones was unable to find a buyer; that this property will have eight approved 550 gallon gasoline tanks with pump islands located as shown on plans submitted with this application; that curb cuts will be located as shown on accompanying plans; that the owner will construct a gasoline station of every modern detail and design; and

WHEREAS, the applicant states that in 1916 this plot was zoned for unrestricted use and changed by amendment dated March 28, 1924 to unrestricted use 100 ft. north of Liberty avenue into business use, and by amendment dated April 27, 1925 to a business use 100 ft. north of Liberty avenue into residence use; and

WHEREAS, the applicant contends that the portion of the old building which remained on balance of plot was an eyesore and the authorities later removed same; that this portion was a part of existing gas station; that it is proposed to erect new signs and stanchions and modern gasoline pumps, and all sidewalks for full widths on both streets, and the entire station will be fully concreted and properly drained; that a grant herein will not adversely affect the neighborhood, since this use was an established use on the portion of the plot that was removed; and

WHEREAS, the applicant states that the present owner has held title to the property since July 17, 1951 and that the assessed valuation of land is \$10,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions f, i, h and e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7f, for a term of fifteen years, to permit the premises to be occupied as a gasoline service station and accessory uses, substantially as proposed and indicated on plans filed with this application, marked "Received January 3, 1956", 4 sheets, on condition that the premises shall be leveled substantially to the grade of Liberty avenue; that any use or structure presently on the site shall be removed; that the accessory building shall be faced with face brick on the exterior, shall have no cellar and shall be of the design and arrangement shown on such plans; that pumps shall be of a low approved type, erected not nearer than 15 feet to the street building line of Liberty avenue; that curb cuts shall be restricted to

MINUTES

three to Liberty avenue, each not over 30 ft. in width, as indicated; that on the north lot line, along the street known as Wells street or Conduit boulevard, there shall be erected a woven wire fence of the chain link type erected on a masonry base to a total height of not less than 5 ft. 6 in. with no openings therein; that a similar fence shall be erected along the rear lot line to the west, where walls of proposed accessory building do not occur; that substantial terminating posts shall be erected on such fences for stability; that the balance of the site where not occupied by accessory building and pumps shall be paved with concrete or asphalt; that the sidewalks and curbing abutting the premises shall be repaired or reconstructed to the satisfaction of the borough president; that the number of gasoline storage tanks shall not exceed ten 550 gallon tanks; that signs shall be restricted to permanent signs attached to the accessory building and the illuminated globes of the pumps, excluding all roof signs and temporary signs, but permitting the erection of one post standard within the intersection, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line not more than 4 feet and which may be illuminated; that such fire fighting equipment shall be maintained as the fire commissioner shall direct; that under section 7i for a similar term, there may be minor repairing for adjustments with hand tools only, maintained solely within the accessory building; that under section 7h for a similar term, there may also be parking of cars, provided same are parked so as not to interfere with the servicing of the station; and that all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 2, 1956 after due notice by publication in the Bulletin; laid over to November 14, 1956, for inspection and decision; hearing closed; then to December 4, 1956, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 79th street are in business and residence use, C and D area, class 1 height districts; 18th avenue is in a business use, C and D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated January 5, 1956 acting on N.B. Applic. 2848-55, reads:

"1. Proposed building and premises, on a lot partly in a business and partly in a residence zone, to be used for gasoline service station, lubritorium, car washing,

office and sales, minor auto repairs and parking and storage of motor vehicles in open spaces is contrary to Article II, Section 3 and Article II, Section 4a, subsections 29 & 46 of the Zoning Resolution.

2. In a transition from non-residential to residential use district, show windows and signs within 75' of the residence zone is contrary to Art. II, Section 7A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. $\frac{1}{8}$ in. frontage by 98 ft. $9\frac{3}{8}$ in. in depth, now vacant; that it is proposed to secure a variance for a period of twenty years in order to erect and maintain a modern gasoline service station consisting of ten 550 gallon buried gasoline tanks and four dispensing pumps; that the contemplated accessory building will be one story in height, of class 3 construction, having a frontage of 44 ft., a depth of 28 ft., and contain the conjunctive uses of lubritorium, car wash, minor auto repairs, storage, office and sales; that the open area not intended to be used for the gas station will be used for parking and storage of motor vehicles; that the entire gas station will be confined to the business portion of the lot and the small portion of $2\frac{1}{4}$ in. in the residence use district will form part of a 10 ft. wide landscaped area adjoining the easterly lot line; and

WHEREAS, the applicant states that the premises are located in a class 1 height district; that the portion of the site within 100 ft. of 18th avenue is in a business use district and class C area district and the balance of the plot is in a residence use district and a class D area district; and

WHEREAS, the applicant contends that the building as contemplated will be modern in design; that there are no other gas stations within the affected area; that there are sufficient stores within the area for public requirements and therefore it would be economically unfeasible to erect additional stores; that there will be a 2 ft. high brick wall surmounted with a 3 ft. 6 in. high steel picket fence erected along the north and east lot lines where adjoining buildings do not occur; that a similar wall will be erected along the building line of 79th street for a distance of 50 ft.; that the 10 ft. wide planted area along the easterly lot line will provide permanent additional light and ventilation to the adjoining property and a permanent buffer to the proposal; that there are to be no windows on the east wall of the accessory building so that all operations within the building will be strictly confined, with no emission of possible noise; that the proposed dispensing pumps, set not nearer than 15 ft. from the street building line, will protect pedestrian travel and keep the cars off the side walk; that the entire plot where not occupied by the accessory building will be tarvia or concrete paved; that there will be one 20 ft. curb cut on 79th street and two 30 ft. cuts on 18th avenue; that it would be legally possible for the owner to erect stores, with the attendant traffic problem that would result to the area, whereas the proposed gas station has room to park its own cars with no parking or traffic problem being presented to adjoining owners; that the premises, although vacant at this time were once developed with a one family dwelling; that in 1954 the building was in a considerable state of disrepair so that it became an unsafe building and as a result the City removed the building; that the signs and show window within 75 ft. of the residence zone on 79th street cannot materially affect the residential aspect of 79th street as the proposed building is set 41 ft. back of the 79th street building line and said show windows and signs cannot possibly be visible from the residences on 79th street; and

WHEREAS, the applicant states that the present owner has held title to the property since January 20, 1938 and that the assessed valuation of land is \$8,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions f, i, h and A of the Zoning Resolution.

MINUTES

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f, for a term of fifteen years, to permit the premises to be occupied as a gasoline service station and accessory uses, substantially as proposed and indicated on plans filed with this application, marked "Received January 25, 1956," 3 sheets, *on condition* that the premises shall be leveled substantially to the grade of the abutting streets; that any use or structure on the site shall be removed; that the accessory building shall be faced with face brick on the exterior, shall have no cellar and shall be of the design and arrangement shown on such plans; that pumps shall be of a low approved type, erected not nearer than 15 feet to the street building line of 18th avenue; that on the lot lines to the east and north where walls of adjoining buildings do not occur, there shall be erected a brick wall at least 2 feet in height with steel picket fence above, to a total height of 5 ft. 6 inches; that planting areas shall be maintained along the rear portion of the plot, where indicated, planted with suitable material, properly protected by curbing 8 in. in height and 6 in. in width; that a similar wall shall be erected and maintained along the street building line of 79th street, where shown, for a distance of not less than 50 feet; that curb cuts shall be restricted to two on 18th avenue, each 30 ft. in width, located where shown, and one to 79th street located within the first 25 feet of the intersection; that the sidewalks and curbing abutting the site shall be repaired or reconstructed to the satisfaction of the Borough President; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that the number of gasoline storage tanks shall not exceed 12 550 gallon approved tanks; that the balance of the premises where not occupied by planting, accessory building and pumps shall be paved with concrete or asphalt; that signs shall be restricted to permanent signs attached to the accessory building on 18th avenue and the gasoline pumps, excluding all roof and temporary signs, but permitting the erection at the intersection of a post standard to support a sign, which may be illuminated, advertising only the brand of gasoline sold, and which may extend beyond the building line of 18th avenue not more than 4 feet; that at such intersection there shall be constructed a block of concrete not less than 12 in. high, extending for at least 5 ft. along each street line from the intersection; that under Section 7i, there may be minor repairing with hand tools only for adjustments maintained solely within the accessory building; that under section 7h for a similar term there may be parking of cars, provided same are so parked as not to interfere with the servicing of the station; that under Section 7A, any use found not to be in accord therewith may be permitted for a similar term; and that all permits required shall be obtained, including a certificate of occupancy, and all work completed within the requirements of Section 22A of the Zoning Resolution.

149-56-BZ

APPLICANT—Leonard F. Rothkrug, for Gair Realty Corp., owner.

SUBJECT—Application February 17, 1956—(decision of the borough superintendent) under section 19A(j) of the zoning resolution, to permit in an unrestricted use district, a voluntary loading berth in conjunction with existing manufacturing and warehouse uses less than 25 ft. from intersection.

PREMISES AFFECTED—110 Water street, southwest corner of Washington street, Block 37, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug and Arthur A. Riis.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 4, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in an unrestricted use, A area, class 2 height district; and

WHEREAS, the decision of the borough superintendent, dated February 14, 1956 acting on B.N. Applic. No. 1965-55, reads:

"1. Curb cut for a voluntary berth less than 25'-0" from any point of intersection of two streets is contrary to Sect. 19-A and Art. IV of the Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 200 ft. front on Washington street, 244 ft. 3 in. front on Water street, 201 ft. 4 in. front on Main street and 243 ft. 10 in. on Front street (constituting the entire tax block 37), on which is located a nine story building 200 ft. front on Washington street, 125 ft. front on Water and Front streets, erected in 1913 of fireproof construction and used and occupied by many varied tenants for manufacturing and warehouse uses; that it is proposed to locate two voluntary loading and unloading berths, each 15 ft. 5 in. in width by 41 ft. in depth, on the Water street frontage, at the southwest corner of Washington and Water streets; and

WHEREAS, the applicant contends that this is one of the most heavily developed areas for manufacturing and warehouse uses in the city; that the buildings within the affected area are mostly multi-storied fireproof buildings, erected before World War I as part of the Gair Industrial buildings and Arbuckle warehouses; that the proposed voluntary loading berths could have been created at the time the building was erected, or at any time for nearly 30 years thereafter; that Water street on which frontage the curb cuts are proposed, is a one way street, running westerly; that Washington street is likewise a one way street, running southerly; that this area is away from the stream of motor vehicle and pedestrian traffic, except in conjunction with manufacturing and warehouse uses; that the proposed berths are required for efficient business operations and are in keeping with modern trends of business operations and zoning; that the location of the berths are dictated by the construction of the building—the location of a fire escape at the third bay of the building; and

WHEREAS, the applicant states that the present owner has held title to the property since March 30, 1921; that the assessed valuation of land is \$160,000 and of the building \$860,000 making a total of \$1,020,000; that the building was erected in 1913; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 19A, Subdivision j of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 19A, subdivision j, to permit the loading and unloading berths, substantially as proposed and indicated on plans filed with this application, marked "Received February 17, 1956", 3 sheets, *on condition* that in all other respects the loading berths shall comply with all requirements therefor; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

APPLICANT—Frederick A. Ketcher, Adolph C. Blechner, owner.

SUBJECT—Application June 26, 1956—(decision of the borough superintendent) under sections 7e and 7h of the zoning resolution, to permit in a residence use district, a proposed frame office and plot for sale of used cars.

PREMISES AFFECTED—2040 Bruckner boulevard, south side, 290 ft. west of Olmstead avenue, Block 3683, Lot 23, Borough of The Bronx.

APPEARANCES—

For Applicant: Frederick A. Ketcher.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0
Negative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Keating and Deputy Chief Con-
nolly 4

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 7, 1956 after due notice by publication in the Bulletin; laid over to December 4, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, F-1 area, class ½ height district; and

WHEREAS, the decision of the borough superintendent, dated June 14, 1956 acting on Alt. Applic. 586-56, reads:

"1. In a residence district the proposed 'Frame office and plot for sale of used cars' is contrary to Sect. 3, Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 79 ft. in depth, on which is located a building one story in height, 12 ft. front by 8 ft. 6 in. in depth; that it is proposed to occupy the premises for the sale of more than five used cars, and an office; that it is also proposed to level the plot, surface with cinders treated with a binder and properly rolled and enclose it with a low chain link fence; that there will be two entrances on Bruckner boulevard and one 3 ft. access gate on Houghton avenue; that a small frame building will be provided solely for the attendant; that properly controlled lighting will be installed to prevent any reflection into adjoining premises; that it is further proposed that only one neon sign will be erected facing Bruckner boulevard which will be permanently attached above the fence and will be no larger than 60 sq. ft.; and

WHEREAS, the applicant contends that the owner has held title to and has paid taxes on this plot for more than 55 years; that the loss on principal and the annual taxes of \$120 have placed a severe and increasing financial burden on the owner; that the continuous changes in street grading, widening, zoning and the accompanying changes in the character of the neighborhood have made construction of a conforming use an extremely speculative venture; that Bruckner boulevard is a main traffic artery for both automobiles and trucks; that for the past ten years there have been steady automotive non-conforming uses along Bruckner boulevard eastward from the Bronx river, to and beyond White Plains avenue; that this inexorable movement of business eastward has been all too obvious in banking circles and any possibility of a loan, for residence purposes, on land facing Bruckner boulevard between White Plains avenue and Castlehill avenue is considered too speculative; that there has been no new construction of apartment houses or homes facing Bruckner boulevard between White Plains avenue and Castlehill avenue; that the owner has not been able to develop this plot for any conforming use which would be economically sound and until such time as neighborhood factors will change, the granting of this applica-

tion for temporary use would permit the owner to make a reasonable use of his property without adversely affecting anyone; and

WHEREAS, the applicant states that the present owner has held title to the property since February 2, 1901 and that the assessed valuation of land is \$3,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application should not be granted; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivisions e and h of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on Alt. App. 586/56, Objection No. 1, be and it hereby is affirmed and that the application be and it hereby is denied.

457-56-BZ

APPLICANT—Leonard F. Rothkrug and Samuel Gardstein, for Jacob Blei and Kate Trachtman, owners.

SUBJECT—Application June 7, 1956—(decision of the borough superintendent) under sections 7h and 7e of the zoning resolution, to permit in a residence use district, the proposed parking of motor vehicles, accessory and consumer parking, accessory loading and unloading in conjunction with adjoining factory.

PREMISES AFFECTED—152-154 India street, south side, 150 ft. east of Manhattan avenue, Block 2541, Lots 12 and 13, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug, Samuel Gardstein and William Trachtman.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Keating and Deputy Chief Con-
nolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 4, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, C area, class 1 height district; India street is in business and residence use, C area, class 1 height districts; Manhattan avenue is in a business use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated May 24, 1956 acting on Alt. Applic. 1433-56, reads:

"1. Proposed parking of motor vehicles and accessory employee and customer parking and also accessory loading & unloading in conjunction with adjoining factory at 148 India St. (same corner) in a residential district is contrary to Art. 2 Sect. 3 of Zoning Resolutions."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 ft. frontage by 100 ft. in depth, now vacant, and used for loading and unloading in conjunction with adjoining factory; that the premises are being used and occupied with a certificate of occupancy; that there are two existing curb cuts 16 ft. and 11 ft. 6 in. from the subject premises out to India street, for which there are no records; and

WHEREAS, the applicant states that certificate of occupancy No. 118282 was issued on August 21, 1947 after completion of work under Alt. Applic. 5101-46 affecting the

MINUTES

adjoining building, 148 India street, as follows: basement—manufacture of trunks, suitcase shoos—3 persons; first floor, lumber trim manufacture—5 persons; second floor, manufacture of chairs—10 persons; that this certificate of occupancy was issued while the premises was in a residence use district as a legal prior existing non-conforming use; that the zoning objection raised by the building department examiner was reconsidered by the borough superintendent because of his satisfaction as to evidence which showed a continuity of substantially similar uses since 1893; that the adjoining building has a loading door along its side lot line adjoining the subject premises; that the physical appearance of this opening indicates that it has been in existence and in use prior to July 25, 1916 and therefore the loading and unloading use of the subject premises constitutes a legal non-conforming use; and

WHEREAS, the applicant contends that the subject premises have been used for accessory customer and employee parking for many years; that no records are available to determine conclusively that this use was also established prior to 1916; that the neighborhood was developed prior to 1900 and before the advent of the automobile and therefore there is an absence of garages and adequate parking facilities; that alternate street parking regulations on this block creates an urgent need for parking facilities; that adjoining lot 14 in block 2541 is developed with two 2-family frame dwellings without any side lot line windows and the lot abutting to the south in block 2541, lot 54, is developed with two 2-family dwellings without a rear yard and without any windows on the rear lot line; that the proposed uses cannot adversely affect this area because it has existed substantially as proposed since the development of the neighborhood; that the premises cannot economically be developed with any conforming use in that there is no demand for new residences in this area; that it is proposed to use the premises principally as an accessory parking lot for customers and employees; that overnight parking will be limited to non-transients on a monthly basis and will be a service to residents in the community; and

WHEREAS, the applicant states that the present owner has held title to the property since September 18, 1952 and that the assessed valuation of land is \$5,000; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions e and h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Sections 7e and 7h, for a term of five years, to permit the premises to be occupied for the loading and unloading of material manufactured in the adjoining building on lot 10, and for parking and storage of motor vehicles, substantially as proposed and indicated on plans filed with this application, marked "Received June 7, 1956", 2 sheets, *on condition* that the plot shall be leveled substantially to the grade of abutting streets, and shall be graded with steam cinders or clean gravel, treated with a binder and properly rolled; that there shall be erected on interior lot lines where walls of adjoining buildings do not occur, a woven wire fence of the chain link type, not less than 5 ft. 6 in. in height, with no openings therein except two for exit and entrance, which shall be fitted with gates which shall be kept closed when the parking lot and unloading or loading are not in operation; that the existing curb cuts may be continued provided there are licenses therefor; that during the term of this variance, the premises shall be used for no other uses than those herein permitted and no building shall be erected thereon; that no signs shall be erected except one attached to the fence near the entrance, advertising the parking and storage use and such other information as the commissioner of licenses may require; that such sign shall not be illuminated or extend beyond the building line and shall not exceed 15 sq. ft. in area; that such portable fire-fighting appliances

shall be maintained as the fire commissioner shall direct; and that all permits, including a certificate of occupancy, shall be obtained and all work completed within six months from the date of this resolution.

473-56-BZ

APPLICANT—Fred E. Hertan, for Robert Figari, owner (GLM Realty Corp., lessee and Dan's Supreme Super Market, Inc., sub-lessee).

SUBJECT—Application July 6, 1956—re (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a business and residence use district, the parking of more than 5 motor vehicles.

PREMISES AFFECTED—138-37 to 138-49 Queens boulevard, northeast corner, of 86th avenue, Block 9649, Lot 17, Briarwood, Borough of Queens.

APPEARANCES—

For Applicant: Fred E. Hertan.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 4, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 86th avenue are in business and residence use, C area, class 1½ height districts; Queens boulevard is in a business use, C area, class 1½ height district; 139th street is in a residence use, C area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated June 13, 1956 acting on Alt. Applic. 701-56, reads:

"1. A parking lot in a business district extending into a residence district is contrary to Article II Section 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 101.07 ft. frontage by 133.01 ft. in depth, irregular, partly occupied by a one story brick building housing six stores and four dwelling units as follows: candy and stationery store, in the rear of which there are three rooms occupied as a dwelling; grocery store, in the rear of which there are two rooms occupied as a dwelling; chinese laundry; liquor store, in the rear of which there are three rooms occupied as a dwelling; grocery store, in the rear of which there are three rooms occupied as a dwelling; bar and grill; and

WHEREAS, the applicant states that the building on the plot extends 70 ft. deep from Queens boulevard; that the remaining 63.01 ft. is an open, vacant yard; that directly to the north of the site and adjoining it, is a plot block 9649, lot 29, partly occupied by a supermarket; that in the rear of this supermarket on said block 9649, lot 29, is a parking area presently used by patrons and employees of the supermarket; that this parking area is adjacent to and abuts the open, vacant area of the site under consideration; that this application is made for leave to use the open, vacant area directly behind the stores in the rear of the site in conjunction with and under the same control as the existing and presently used parking area in the rear of the plot, block 9649, lot 29, directly to the north and adjacent to it; and

WHEREAS, the applicant states that the existing use regulations of the site under consideration are business and residence; that 30 ft. of the depth of this vacant area is zoned for business use and the remainder and rearmost

MINUTES

33.01 ft., fronting on 139th street and 86th avenue, is zoned for residential use; that it is proposed to properly surface and grade the parking area and that a chain link type fence be installed along the side and rear lot lines along 86th avenue and along 139th street; that this fence will continue and match the fence now existing along the rear lot line of the aforementioned adjoining parking area to the north, now existing and in use; that a curb cut to allow an additional entrance to the proposed parking area is proposed on 86th avenue; and

WHEREAS, the applicant contends that this vacant area of the site in question presently serves as an unsightly dumping ground and as such, it is useless, has no value and serves no purpose; that it is a detriment to the community and has become an unnecessary hardship to the owner and lessee; that a grant of a variance to permit the proposed use in conjunction with and under the same control as the existing parking area adjacent to it, would be of great benefit to the community as a whole and would in no way interfere with the character of the neighborhood or the harmony and general purpose and intent of the zoning resolutions; that there is a severe off-street parking space shortage in this shopping district, thereby causing crowded street parking and traffic hazard; that the proposed use would greatly alleviate and ameliorate this condition, with the consequent benefit to the shoppers, the shop owners and the community; that there is a genuine need for the use proposed; and

WHEREAS, the applicant states that the present owner has held title to the property since January 29, 1952; that the assessed valuation of land is \$56,500 and of the building \$28,500 making a total of \$85,000; that the building was erected in 1940; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e, for a term of five years, to permit on portion of the plot where unbuilt upon, parking and storage of motor vehicles in conjunction with a similar use on the adjoining lot, No. 29, under other ownership, as proposed and indicated on plans filed with this application, marked "Received July 6, 1956", 3 sheets; *on condition* that there shall be erected on the rear and side exterior lot lines, a woven wire fence of the chain link type, not less than 5 ft. 6 in. in height with no openings therein except one to lot 29 adjoining and one to 86th avenue, each not over 20 ft. in width, which shall be fitted with gates which shall be kept open only when the adjoining stores are in operation; that no parking shall be permitted on that portion of the plot required as a rear yard for the six stores facing Queens boulevard and with due regard for the four apartments in the rear of such store buildings; that the plot shall be leveled substantially to the grades of abutting streets, and shall be surfaced with clean gravel or steam cinders, treated with a binder and properly rolled; that signs shall be restricted to one sign attached to the fence at the entrance on 86th avenue, advertising the parking and storage use, the rates charged and such other information as the commissioner of licenses may require; that such sign shall not exceed 15 sq. ft. in area, shall not be illuminated and shall not extend beyond the building line; that during the term of this variance the area proposed for parking shall be occupied for no other purpose; and that all permits required, including a certificate of occupancy, shall be obtained and all work completed within six months from the date of this resolution.

THE RESOLUTION—

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 683-38-SA Vol. IV

Subject: Amendment to resolution as to additional models of gas-fired unit heaters; Model Series UCS 30-55, 50-55, 65-55, 85-55, 100-55, 125-55, 155-55, 175-55, 200-55 and 225-55.

Surface Combustion Corp. requested by letter dated May 21, 1956 that the resolution adopted September 20, 1938 and amended at various times through September 12, 1950 be amended so as to include additional models of gas-fired unit heaters; Series UCS 30-55, 50-55, 65-55, 85-55, 100-55, 125-55, 155-55, 175-55, 200-55, and 225-55. The application was reopened by a vote of the Board June 5, 1956 under Cal. No. 683-38-SA Vol. IV.

Description

The UCS Series are similar to the UBS-94 Series, approved by the Board September 12, 1950 under Cal. 683-38-SA Vol. III. The only change being in the external appearance as there has been a change in the fan guard enclosure.

Recommendation

The Committee on Test recommends that the resolution adopted September 20, 1938 and amended September 12, 1950 be amended so as to include the UCS Series, Models 30-55, 50-55, 65-55, 85-55, 100-55, 125-55, 155-55, 175-55, 200-55 and 225-55 on condition that the requirements of the resolution adopted September 20, 1938 are complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,

GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolutions of September 20, 1938 through September 12, 1950 in accordance with the above report.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 78-53-SM

Subject: Amendment to resolution as to extension of use of Per Alex Insulated Roof Systems.

Per Alex of New Jersey, Inc. requested by letter dated July 15, 1955 that the resolution adopted May 24, 1955 under Cal. No. 78-53-SM be amended so as to extend the use of Per Alex Insulated Roof Systems. The application was reopened by a vote of the Board September 13, 1955.

Purpose

The material is an incombustible poured in place roof construction.

Description

The Per Alex Insulated Roof System of roof construction consisting of Buffalo Steel No. 214 sub purlins welded to the main purlins or joists on a maximum of 2'-8" centers with Steeltex Lath clipped to the subpurlins and a 0'-2½" perlite concrete slab. An alternate method is to use HiRib metal lath, clipped to the subpurlins instead of the Steeltex Lath.

The perlite concrete is of a design mix of 1 bag of approved HiEarly cement, 1½ bags of PerAlex (approved under Cal. No. 595-52-SM) (4 cu. ft. per bag) so that mix is basically a 1:6 mix by volume, 8 oz. of PerAmix (air intraining agent) and 11½ gallons of water.

Inspection and Test

Slabs were load tested at the applicant's plant in the presence of Asst. Engr. J. A. Darts Committee on Test and E. Hoops representing the applicant.

The tests were conducted in accordance with the requirements of C26-626.0 Administrative Building Code.

The 214 bulb tees were welded to the main supports on 2'-8" centers and the Steeltex lath was clipped to the tees, a perlite concrete of a mix as herein described was poured on top of the lath to a depth of 0'-2½". The second test sample was similar to the first except that HiRib Lath was used instead of the Steeltex lath, but in all other respects the test samples were similar.

Results of test.

1 and 2.

Area under test—10⅔ sq. ft.

Load in lbs. end or simple spans—2200 lbs

Load in lbs. center span —3300 lbs

Load in lbs./sq.ft. end span —2200—10.6—207 lbs./sq.ft.

Load in lbs/sq.ft. center span —3300—10.6—310 lbs/sq.ft.

Safe carrying capacity per C26-626.0 Administrative Building Code

End Span—207—4 = 52 lbs/sq.ft.

Center Span—310—6 = 52 lbs/sq.ft.

The test loading was discontinued at these loads (2200 lbs. and 3300 lbs.) and there was no sign of failure.

Recommendation

On the basis of the inspection and test, the Committee on Test recommends that the resolution adopted May 24, 1955 under Cal. No. 78-53-SM be amended so as to permit the material Per Alex Insulated Roof System as herein described, to be used as a roof system under the provisions of C26-618.0 and C26-619.0.b Administrative Building Code for loads (live and dead) not to exceed 52 lbs/sq.ft. when

the tees are spaced not more than 2'-8" on centers on condition that in all other respects the requirements of the resolution adopted May 24, 1955 under Cal. No. 78-53-SM are complied with.

(Sgd.) HARRIS H. MURDOCK,

502-53-SM

APPLICANT—W. A. Burnham, for Smith and Kanzler Spraybest, Inc., owner.

SUBJECT—Application June 12, 1953—Spraybest Retardent Steel Floor and Beam, approval of.

APPEARANCES—

For Applicant: Leo H. Greenspan.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Keating and Deputy Chief Con-
nolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 502-53-SM

Subject: Spraybest Retardent Steel Floor and Beam.

Smith & Kanzler Corp., Linden, New Jersey filed June 12, 1953 an application with the Board of Standards and Appeals for approval of the material known as Spraybest, now known as Spray Craft under the provisions of C26-590 and C26-596.0 through C26-599.0 Administrative Building Code.

Purpose

The material is to be used as a fire retardent for floor and ceiling construction.

Description

The material Spraybest is a mixture of mineral wool, asbestos and cement, the proportions of which are of a proprietary nature and are on file with the Board.

The material is air blown from a water spray head onto the surfaces to be coated. The surfaces onto which the fibers are blown are prepared, prior to blowing, by spraying them with an adhesive, which is a latex base synthetic resinous alkydester which is water soluble.

Inspection and Test

The material was tested, as part of a complete floor and ceiling construction in accordance with the requirements of C26-588.0 through C26-590 and C26-596 through C26-599.0 Administrative Building Code at the Underwriters Laboratory.

Test Structure:

The test sample consisted of a 12 inch 27 lbs. I beam, cellular floor units identified as manufactured by the H. H. Robertson Company, Pittsburgh, Pa., concrete top flooring and Spraybest.

The cellular floor units were laid on the I beams with a bearing on the beams of 1½ inches and were secured to the beams by means of tack welds spaced 12 inches on center. The top of the units were covered with concrete, to a depth of 2½ inches above the top plane of the floor units, having a strength of 3200 psi.

MINUTES

The ceiling and beam were prepared for application of the fibers with a thin spraycoat of adhesive mixed with water in the proportions by weight of one part of adhesive to three parts water. The fiber was then sprayed on the ceiling and beam surface before the adhesive dried, from a nozzle which wetted the fibers with water. The fibers are applied in layers and tamped, sprayed lightly with water, sprayed again until the desired thickness is reached. The finished thickness of the material was found to be $3\frac{1}{8}$ inches on the beam and $1\frac{1}{2}$ inches on the ceiling as measured from the bottom plane of the floor units.

The total load, live and dead, applied to the assembly during test was 142.5 lbs. per sq. ft.

The test was discontinued at 4 hours and 5 minutes at which time the temperature of the floor was 228°F which was 93°F below the temperature of 321°F and the temperature on the steel beam was 674°F which was 326°F below the limiting temperature of 1000°F . The assembly also successfully met the requirements of the hose stream test.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the material known as Spraybest and/or Spraycraft for use in New York City under C26-239.0 Administrative Building Code as a fire protection on condition that the construction is as follows:

H. H. Robertson cellular steel floors finished with $2\frac{1}{2}$ inches of 3200 psi concrete on top and finished on the ceiling side with not less than $1\frac{1}{2}$ inches of Spraybest and/or Spraycraft applied directly to the ceiling side of the floor units. When the material is to be used as a protection for steel beams, the material shall be applied in thickness not less than $3\frac{1}{8}$ inches from the face of the beam and flanges.

The Committee further recommends that all installation shall be under the supervision of the applicant or his licensed applicators.

The Committee further recommends that due to the texture of the material, it shall not be installed any closer than 7'-0" from the floor and further each bag of the material shall be stamped or labeled as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 502-53-SM," and further that all plans submitted to the Department of Buildings showing the proposed use of this construction shall be similarly marked.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,

GEORGE F. SKLENARIK,
Assistant Engineer,

REPORT OF COMMITTEE ON TEST

Re: Cal. 568-55-SA.

Subject: Product Tank for Coca-Cola.

Heintz Manufacturing Co. Philadelphia, Pa. filed June 24, 1955 an application with the Board of Standards and Appeals for approval of the appliance known as the Product Tank for Coca Cola under the provisions C-19-90.0 Administrative Code.

Purpose

The appliance is designed for transporting premixed Coca Cola to the locations where the Coca Cola is dispensed.

Description

The appliance is a tank constructed in accordance with the A.S.M.E. requirements for unfired pressure vessels. The tank is 0'-9" out side diameter by $1'-10\frac{3}{8}"$ over all height and contains $43\frac{1}{4}$ gallons of premixed Coca Cola. The tank heads and shell are made of Type 304 18-8 stainless steel in 20 gauge metal (0.035 inches). The cover plate is of 14 gauge (0.083). The tank is provided with fittings for gas and liquid lines, dip tube and a bottom sump for complete drainage.

When the machine is delivered to the location it is connected to a standard carbon dioxide dispenser, equipped with a relief valve set at 125 p.s.i.

Inspection and Test

The appliance was inspected by Asst. Engr. J. A. Darts Committee on Test. The appliance is subjected to a hydrostatic test of 300 lbs. per sq. inch.

Recommendation

On the basis of the inspection and test the Committee on Test recommends the approval of the appliance known as Product Tank for Coca Cola for use in New York City under the provisions of C19-90.0 Administrative Code on condition that the tank bears a label permanently affixed reading "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 568-55-SA."

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

MINUTES

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 1040-55-SA.

Subject: Washex Combination Washer-Extractor Models P-65 & P-100 (dry cleaning equipment using solvent having flash point above 100°F.)

Charles M. Spindler for Washex Machine Corp. filed December 31, 1955, an application with the Board of Standards and Appeals of the Washex Combination Washer-Extractor Models P-65 and P-100 under the provisions of Article 13 Chapter 19 Administrative Code and the Dry Cleaning Rules of the Board.

Purpose

The appliance is a dry cleaning appliance using solvent having a flash point above 100°F.

Description

1. The appliance is a combination washer and extractor and in the dry cleaning industry. The unit consists of the washing and extractor cylinder, solvent tanks, pumps and control valves and piping.

2. The machine consists of a rotating steel cylinder 42 inches in diameter by 20 inches long for the Model P-65 and 46 inches in diameter by 24 inches long for the Model P-100 when Stoddard Solvent is used and 46 inches in diameter by 22 inches long when the Model P-100 is used with solvent having a 140°F flash.

3. The tank size for the P-65 is two compartments holding 165 gallons of solvent each and for the P-100, two compartments holding 225 gallons of solvent each.

4. The following safety devices are incorporated in the design of the machine. A safety switch interlocked into the door so that the machine cannot start unless the door is properly closed. A static eliminator to ground any generated static electricity.

Inspection and Test

The appliance was inspected by Asst. Engr. J. A. Darts and G. F. Sklenarik Committee on Test and C. M. Spindler representing the applicant. The equipment operated as designed. The physical dimensions of the baskets were checked in order to evaluate the load capacity on the basis of 2.8 lbs. of dry wash per cu. ft. of basket.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Washex Combination Washer-Extractor Model P-65 on having a capacity of 45 lbs. of dry wash when the solvent used has a flash point of 140°F shall be installed in accordance with the Dry Cleaning Rules of the Board, the Committee further recommends that the P-65 having a capacity of 45 lbs. of dry wash and the P-100 having a capacity of 65 lbs. of dry wash when the solvent used is a Stoddard solvent shall be installed in accordance with the requirements of Article 13 Chapter 19 Administrative Code.

The Committee further recommends that all motors, switches, controls, etc. shall be underwriters approved explosion proof equipment and that each machine bears a label, permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City, under Cal. No. 1040-55-SA.", and further that all electric connections shall comply with the requirements of the Electrical Code of the City of New York.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 173-56-SM

Subject: Veterans Tank and Welding Company, 550 Gallon Gasoline tank.

Veterans Tank and Welding Company, New York City filed February 14, 1956 an application with the Board of Standards and Appeals for approval of a 550 Gallon Gasoline Storage Tank under the provisions of Section C-19-69.C of the Administrative Code.

Purpose

A storage tank for gasoline.

Description

This 550 Gallon Gasoline Tank is made of hot rolled steel. It is cylindrical, 42 inches in diameter and 7 ft. 2 in. in length. The end heads are dished outward and all seams are welded.

Head thickness is $\frac{5}{8}$ inch, shell thickness is $\frac{1}{4}$ inch. Five openings are provided to receive piping, 2-3½ inch, 2-3 inch and 1-2 inch.

The finished tank is coated with red lead and then with an asphaltum paint.

Inspection and Test

A sample tank was inspected at the premises of the applicant, 126-30 37th Avenue, Corona. Present at the test were Asst. Engr. G. F. Sklenarik, Committee on Test and Mr. G. Romano the applicant.

The tank successfully withstood a hydrostatic pressure test of 115 lbs. per sq. inch for 20 minutes without leakage or distortion.

Recommendation

On the basis of the test and the data submitted, the Committee on Test recommends the approval of the Veterans Tank and Welding Company, 550 Gallon Gasoline Storage Tank under the provisions of C-19-69.C Administrative Code provided each tank will bear a label, permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 173-56-SM."

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 174-56-SM

Subject: Veterans Tank and Welding Company, 275 Gallon Fuel Oil Tank.

Veterans Tank and Welding Company, Corona, New York filed February 14, 1956 an application with the Board of Standards and Appeals for approval of their 275 gallon fuel oil storage tank under the provisions of the Oil Burner Rules of the Board.

Purpose

A storage tank for fuel oil.

Description

A steel tank made with flat heads, obround top and flat bottom mounted on four pipe legs.

The bottom of the tank is made of $\frac{3}{8}$ inch plate with a 3 inch flange on each side. The end heads are also made of $\frac{3}{8}$ inch plate. The shell of the tank is of 10 ga. steel.

The end heads are tied together by means of a 2 x 2 x $\frac{1}{4}$ angle.

The tank is provided with 4-2 inch fittings in the top to receive piping and in addition there is a $\frac{1}{2}$ inch opening in an end head for gravity discharge and a $\frac{1}{2}$ inch opening in the bottom for clean out.

Inspection and Test

A sample tank was inspected and tested at the premises of the applicant. Present were Asst. Engr. G. F. Sklenarik, Committee on Test and Mr. G. Romano, owner of the Veterans Tank and Welding Company.

The tank was subject to a hydrostatic pressure test of 100 lbs. per sq. inch. There was some distortion but the tank did not rupture.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval for use in New York City of the Veterans Tank and Welding Company, 275 Gallon Fuel Oil Storage Tank under the provisions of the Oil Burner Rules provided each tank will bear a label, permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. REPORT OF COMMITTEE ON TEST

Re: Cal. No. 328-56-SM

Subject: Fabrilit V-180, V-190, V-193, V-200, V-9328, V-9338, V-6028, V-6200, V-6040 (wall covering).

E. I. Du Pont De Nemours and Company of Newburgh, New York filed April 13, 1955 an application with the Board of Standards and Appeals for approval of the material known as Fabrilit V-180, V-190, V-193, V-200, V-9328, V-9338, V-6028, V-6200, V-6040 under the provisions of C26-667.0 Administrative Building Code.

Purpose

The material is to be used as a wall covering.

Description

The material is a vinyl coated cotton drill, sateen or sheeting and is finished in different type surfaces, namely, plain, embossed, weave, etc. (purely for decorative effect).

Inspection and Test

The material was inspected by Asst. Engr. J. A. Darts Committee on Test and on gauging was found to be less than 1/20th of an inch in thickness.

Recommendation

On the basis of the inspection and the data filed by the applicant, the Committee on Test recommends the approval of the material known as Fabrilit V-180, V-190, V-193, V-200, V-9328, V-9338, V-6028, V-6200 and V-6040 for use as a veneering material under the provisions of C26-667.0.b Administrative Building Code on condition that each container or wrapper in which the material is shipped shall be stamped or labeled as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 328-56-SM."

The Committee further recommends that these materials shall not be installed in public halls of Multiple Dwellings as prohibited under Section 101, 142, 146, 148 and 149 of the Multiple Dwelling Law.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,

371-56-SA

APPLICANT—Murray H. Steckel, for Monarch Laundry Machinery Corp., owner.

SUBJECT—Application May 14, 1956—Monarch Hi-Lo Washer, Model HL, approval of.

APPEARANCES—

For Applicant: Murray H. Steckel.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

MINUTES

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 371-56-SA

Subject: Monarch Hi-Lo Washer Model HL.

Murray H. Steckel for Monarch Laundry Machine Corp. filed May 14, 1956 an application with the Board of Standards and Appeals for approval of the Monarch Hi-Lo Washers Model HL under the provisions of the Submerged Inlet Rules of the Board.

Purpose

The appliance is a semi-automatic clothes washing machine.

Description

The washer is a semi-automatic machine consisting of three compartments, two of which contain agitators for washing and the other containing an extractor for rinsing—extracting operations. The machine weighs approximately 500 lbs and is 65 inches long by 28 inches deep and 42 inches high. The machine utilizes three electric motors in its operation. The machine is equipped with three rubber hoses (two braid heavy duty), two for cold and one for hot water connection, and all three hoses are equipped with female brass connections with gaskets to fit standard hose connections or faucets. One hot and cold hose are for the purpose of supplying the washing compartments with hot and cold water and the other cold water supply hose is for supplying cold water for spray rinsing in the extractor compartment. The hoses supply water to two center fixture faucets, placed similarly to a center fixture faucet on a sink. There is an air gap of approximately four inches between the faucet nozzle and the rim of wash compartment. The two wash compartments are provided with one inch drain valves designed for one inch discharge hoses for connection to the sewer line. The extractor compartment has a one and one quarter inch discharge outlet and has no means for closing the discharge and the drain is continually open. An over flow is provided between the wash compartment and the extractor compartment.

A safety latch is provided for the extractor compartment and is so arranged that the brake mechanism must be fully applied before the extractor lid is released. An electrical switch mechanism is provided on the brake pedal to cut the power supply to the extractor drive motor in the event that brake is applied while extractor is in operation.

Inspection and Test

Details of construction were examined by Asst. Engr. J. A. Darts Committee on Test and the air gap in the wash compartments was noted.

Recommendation

On the basis of the foregoing inspection, the Committee on Test recommends the approval of the Monarch Hi-Lo Washer Model HL (clothes washing machine), as meeting the requirements of Rule 2 of the Submerged Inlet Rules, and as meeting the requirements of C26-1277.0.h, when connected for the individual unit, and for more than one unit, provided that the connections to the waste line shall be in accordance with the following:

Maximum No. Per Battery	Waste Line Diameter
3	2"
12	3"
30	4"

Slop requirements:

Water line diameter 2½ inches to 4 inches slop sink

3 ft. x 3 ft. x 3 ft. All slop sinks to have mushroom strainers having a diameter the same size as the waste line.

The foregoing table is based upon there being no specific provision for this type of equipment in C26-1291.0 wherein the fixture equivalents can be determined from the table contained therein for this equipment when connected in batteries and in addition, the discharge pump on each individual washing machine unit greatly facilitates the rate of discharge to the waste line. In all cases the size of the trap and branch to the soil stack from the slop sink to be one commercial size larger than the branch line header connection in the battery units. The requirements of the Electric Code shall be met.

It is further recommended that each unit bear a label reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 371-56-SA", and that all installations in batteries be submitted to the Department of Buildings and Department of Water Supply, Gas and Electricity for inspection in order that the requirements of this approval be complied with.

The Committee further recommends that an approved vacuum breaker and check valve be installed on the water supply line, feeding the extractor compartment, in accordance with the Submerged Inlet Rules of the Board.

(Sgd.) HARRIS H. MURDOCK,

Chairman,

JOHN A. DARTS,
Assistant Engineer,

GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this appliance in accordance with the above report.

386-56-SA

APPLICANT—Gilbert and Barker Manufacturing Co., owner.

SUBJECT—Application March 8, 1956—Gilbarco Commercial Fleet Remote Control Gasoline Dispensers, Models CFPRCE-6 and CFPRCE-7, approval of.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 386-56-SA

Subject: Gilbarco Commercial Fleet Remote Control Gasoline Dispensers, Models CFPRCE-6 and CFPRCE-7.

Gilbert and Barker Mfg. Co., West Springfield, Mass., filed March 8, 1956 an application with the Board of Standards and Appeals for approval of Gilbarco Commercial Fleet Remote Control Gasoline Dispensers, models CFPRCE-6 and CFPRCE-7 under the provisions of section C-19-69.C Administrative Code.

Purpose

For dispensing gasoline to automotive vehicles.

Description

The model CFPRCE-6 is built for remote control operation with the motor, pump unit, air separator and air separator pump removed. Air separation takes place at the

MINUTES

remote pumping unit, which pumps the product to the model CFPRCE-6 installed on an island. Delivery of product to the nozzle is accomplished by means of an operating handle on the side of the dispenser, which is used to start and stop the remote pump unit motor. The handle is also connected to a feed line valve (Underwriters' valve) operated by a rod which opens and closes the valve in sequence with the start and stop of the remote pump unit motor.

The operating handle and switch rod assembly are also interlocked with an interlock mechanism so that after a delivery has been made and the handle is turned to the "off" position, a second delivery cannot be made until the register numerals have been set back to zero.

The feed line valve (Underwriters' valve) is equipped with a built-in relief device which prevents excessive pressure in the visigauge, meter and hose caused by expansion of gasoline during hot weather. The feed line valve also prevents pressure in the hose of other dispensers connected to the same supply line and not in operation while dispensing gasoline from the dispensers connected to the same discharge line and which are in operation.

The dispenser is also equipped with a combination strainer-check valve with a built in relief set at 35 p.s.i. to prevent excessive pressure in the system. This valve is located at the line connection at the base of the dispenser.

The model CFPRCE-6 is equipped with an external standard 3/4 in. hose which extends from the discharge outlet connection 12 feet to the nozzle tip. Hose valve is manually controlled and the maximum flow is 15 gallons per minute. This model is also equipped with a zero start ticket printer and register and an interlock mechanism.

The model CFPRCE-7 remote control dispenser is identical to the model CFPRCE-6 in outward appearance as well as interior construction with the exception that it delivers up to 22 gal. per min. and it is equipped with a 1 in. external hose.

The model CFPRCE-7 is also equipped with an accumulative printer and register and an interlock mechanism.

Inspection and Test

These dispensers were inspected at the plant of the applicant at West Springfield, Mass. and found to operate as designed. Present at the test were Asst. Engr. G. F. Sklenarik, Committee on Test, Mr. William Keay and others representing the applicant.

The appliances are listed by the Underwriters' Laboratories under file MH 1941.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Gilbarco Commercial Fleet Remote Control Gasoline Dispensers, Models CFPRCE-6 and CFPRCE-7 for use in New York City under the provisions of C-19-69.c Administrative Code, on condition that all electrical work will be in accordance with the Electrical Code of the City of New York and that each appliance will bear a label, permanently affixed, reading "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 386-56-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,

GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

881-50-SM

APPLICANT—Seaporcel Metal Inc., owner-manufacturer.

SUBJECT—Application August 31, 1950—Seaporcel (building veneer), approval of.

APPEARANCES—

For Applicant: Fred Burmeister.

ACTION OF BOARD—Taken off list for revised report; date to be set.

434-55-A

APPLICANT—Nathan R. Ginsburg, for Yale Management Corp., owner.

SUBJECT—Application May 31, 1955—Appeal from a decision of the borough superintendent—re egress, etc.

PREMISES AFFECTED—133 West 24th street, north side, 400 ft. west of Avenue of The Americas (6th), Block 800, Lot 21, Borough of Manhattan.

APPEARANCES—

For Applicant: Nathan R. Ginsburg.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated May 3, 1955, on Alt. App. 382/55, reads:

"1. Two lawful means of egress are required from each floor area, including cellar, as per Sec. 271 of Labor Law. Fire escape not acceptable as a means of egress on a building more than five stories in height under Sec. 271 of labor law as amended 7-1-47."

and

WHEREAS, the applicant states the building is seven stories, 77 ft. in height, by 112 ft. 4 in. in depth at first floor, 105 ft. in depth at second floor, of class 3 construction, erected 1903, located on a lot 25 ft. front by 116 ft. 4 in. in depth, now in a manufacturing use, B area, class 2 height district, and used and occupied since 1903: cellar—boiler room and storage, one person; 1st floor—store and show-room, 2 persons; 2nd floor—manufacturing baby hats, 12 persons; 3rd floor—jobber of glass bottles, 2 persons; 4th floor—storage of knit products, 5 persons; 5th floor—manufacturing (textile cutting) 5 persons; 6th floor—manufacturing knit products, 4 persons; 7th floor—lace dyeing, 4 persons. The building is provided with an interior fire alarm system, monthly fire drills are not maintained; there is one interior 42 in. wide wood stairs with sheet metal soffit; stair enclosure consists of metal lath and plaster on both sides of wood studs; stair doors are metal clad self-closing; stairhall leads direct to street and to roof bulkhead; in addition, there is one fire escape on the rear extending to yard by stair with egress to street through adjoining premises; window and door openings on the course of the fire escape are fireproof self-closing; and

WHEREAS, Violation 4175 was issued January 5, 1955, for not having two legal means of exits from all floors including cellar as per Section 271 of the Labor Law as amended July 1, 1947, and for installing floor drains on the 7th floor without a permit therefor, and Violation 6021-53 was issued for installing concrete slab and floor drains on the 7th floor without filing plans and obtaining a permit therefor; and

WHEREAS, the applicant states the building has been in use as a factory since prior to the enactment of the Labor Law amendment requiring a second stair in a building over five stories in height; and

WHEREAS, the applicant contends that as the building is only 25 ft. in width it would be economically unfeasible to construct a second stair; that, in addition, the emergency rent laws which preclude the eviction of existing tenants to obtain space to construct such a stairway and it is therefore requested that the Board permit the continued use of the building as a factory building with existing exits on condition that the occupancy be limited to capacity of the

MINUTES

primary means of egress without any credit for the fire escapes; and

WHEREAS, the applicant states there will be no manufacturing in the cellar, which will be used as a boiler room and storage only, in conjunction with the first floor.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. App. 382/55, Objection No. One and that the appeal be and it hereby is *granted*, to permit as a second means of exit the existing fire escape on the rear leading to the rear yard of the building at 134 West 25th street from which unimpeded means of exit shall be available to the street; that the exits from the cellar may be as provided and as shown and indicated on plans filed with this appeal marked "Received May 31, 1955" (2 sheets), including door which shall be made to swing outwardly to the light court to the west from which access may be had to a fire escape of the adjoining building and through to the street; that no factory work shall be carried on in the cellar; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; and that the interior fire alarm system and monthly fire drills shall be maintained.

754-55-A

APPLICANT—Norman Lederer and Leonard Joseph, for Thorman Baum and Co., Inc., owner (Waterfront Commission of New York Harbor, lessee).

SUBJECT—Application September 23, 1955—Appeal from a decision of the borough superintendent—re stair capacity.

PREMISES AFFECTED—345-349 West 14th street, north side, 108 ft. east of 9th avenue, Block 738, Lot 10, Borough of Manhattan.

APPEARANCES—

For Applicant: Norman Lederer.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated September 6, 1955, on Alt. App. 1219/55 reads:

"1. Proposed number of persons on 3rd floor (300) exceeds stair capacity contrary to C26-292.0 Admin. Code."

and

WHEREAS, the applicant states the building is 3 stories, 32 ft. in height, 75 ft. front by 103 ft. 3 in. in depth at first floor, 75 ft. by 90 ft. at typical floor, Class 3 construction, erected in 1923, on a lot 75 ft. front by 103 ft. 3 in. in an unrestricted use, B area, Class 1½ height district; used and occupied since 1953: cellar—boiler room and storage; 1st floor—wholesale produce market, 14 persons; 2nd floor—office and storage, 12 persons; 3d floor—employment information office of Waterfront Commission of N. Y. Harbor, 122 persons, for which Certificate of Occupancy #44379 was issued July 18, 1955, against Alt. App. 339/55. No change in use or occupancy is now proposed except for the third floor where the occupancy will be changed to 300 persons. The building is provided with two 3 ft. 8 in. wide steel stairs, enclosed in terra cotta blocks, equipped with steel, self-closing doors; stairhalls lead direct to street; one is provided with ladder and scuttle to roof and the other with a bulkhead to the roof; and

WHEREAS, the applicant states the purpose of this appeal is to secure permission to increase the number of occupants

to 300 on the third floor; that the premises are used by the Waterfront Commissioner as an employment information office where men who work on the docks report for assignment to their jobs; that there are two steel stairs each 3 ft. 8 in. wide with cement treads and platforms, both leading directly from 1st floor to street; that in the normal activities of the Commission, the workers call at the office for a few moments to receive assignments and depart; that as many as 300 men together may report at one time but such group remains just for a brief period in the morning and for the balance of the day the 3rd floor is virtually unoccupied except for an office force of five persons; and

WHEREAS, the applicant contends that in view of the conditions under which the third floor is occupied, it is requested the decision of the borough superintendent be modified so as to permit the occupancy of 300 persons in lieu of 240 now permitted by the Code, due to a recent amendment.

Resolved, that the decision of the borough superintendent, dated September 6, 1955, acting on Alt. App. 1219/55, Objection No. 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted* to permit the number of persons to be not over three hundred (300) on the third floor *on condition* that all stairs shall be carried to the roof as indicated on plans filed with this appeal marked "Received September 23, 1955" (5 sheets), as amended by plans marked "Received November 8, 1955" (3 sheets), and further amended by revised plans marked "Received November 30, 1956" (3 sheets), *on condition* that access shall be maintained from the roof easterly to the roof of the three story portion of the adjoining four story dwelling from which access to the street is provided by means of existing Multiple Dwelling Law fire escape; and to require a ladder on the roof of the building for use to permit exit to the existing roof to the west; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto.

324-56-A

APPLICANT—Lionel K. Levy, for Anilico Realty Corp., owner.

SUBJECT—Application April 18, 1956—Appeal from a decision of the borough superintendent, re egress.

PREMISES AFFECTED—150-154 West 22nd street, south side, 195 ft. 10 in. east of 7th avenue, Block 797, Lot 70, Borough of Manhattan.

APPEARANCES—

For Applicant: J. A. Tishman and C. F. Marano.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert and Deputy Chief Connolly 3
Negative 0
Not Voting: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated April 2, 1956, on Alt. App. 1300/55, reads:

"1. Provide two (2) legal means of egress for all floors including cellar and 1st floor, adequate for the proposed occupancy, and enclosed as required by law and leading directly to the street. A fire escape is not acceptable as a legal exit for a factory bldg. over five stories in height. Sect. 271 L.L."

and

WHEREAS, the applicant states the building is 12 stories, 150 ft. in height, 62 ft. 6 in. front by 98 ft. 9 in. in depth at street level, 88 ft. in depth at typical floor level, of fire-proof construction, erected 1910, located in an unrestricted use, B area, class 2 height district, and used and occupied since 1910 as follows: cellar—storage, superintendent's office, boiler room and elevator machinery room, 10 persons; 1st

MINUTES

floor—offices, showroom and stockroom, 84 persons; 2nd floor—offices, and manufacturing shoulder pads, 84 persons; 3rd floor—office and printing, 84 persons; 4th floor—office and manufacturing silverware, 80 persons; 5th floor—office and engraving dies, 76 persons; 6th floor—office and printing, 76 persons; 7th floor—office and manufacturing plastics, 76 persons; 8th floor—office and manufacturing dresses, 76 persons; 9th floor—office and manufacturing dresses and bags, 76 persons; 10th floor—office and manufacturing bronze tablets, 76 persons; 11th floor—office and metal stamping, 76 persons; 12th floor—office and manufacturing plastics, 76 persons; no change in use or occupancy is now proposed. The building is provided with an approved standpipe system, an approved one-source sprinkler system, and an interior fire alarm system, regular monthly fire drills are not maintained; that there is one 3 ft. wide interior fireproof enclosed stairs, leading from roof bulkhead direct to street, and two fire escapes extending to roof by stair and to street by stair and yard by stair; that egress from the rear to street is through fireproof passage; that window and door openings on the course of the fire escapes are fireproof self-closing; and

WHEREAS, Violation No. 605 was issued February 3, 1955, for not providing two legal means of egress for all occupants of all floors including cellar as required by Section 271 of the Labor Law, in that fire escapes are not considered legal means of egress in buildings over five stories in height and the 6th and 9th floors each have two different tenants; and

WHEREAS, the owner was prosecuted in Municipal Term, Magistrates' Court, April 9, 1956, on a charge of violation of Section 271 of the Labor Law and the matter was adjourned; and

WHEREAS, the Board is in receipt of a certificate issued by the borough superintendent pursuant to Section 668 (c) of the Charter of the City of New York that a stay in prosecution of this violation would cause imminent peril to life and property; and

WHEREAS, the applicant states that the means of egress for the upper floors is a fireproof interior stairway leading from roof to street and two exterior screened fire escapes at the rear extending to roof and terminating at a level about 8 ft. above the first floor; that the west fire escape extends through a fireproof passage to the front of the building and down one flight of stairs to the street; that the east fire escape extends through a fireproof passage and connects with the interior fireproof stair one flight above the first floor and continues down the entrance lobby as part of the interior stairs and thence to the street; that from the first floor there is a door direct to the street and a door to the entrance lobby; that the cellar is subdivided into a stockroom for the first floor occupancy at the rear and a boiler room and building service locker rooms; that the stockroom has one stair up to the first floor and the front portion is serviced by an elevator with an engineer's exit and ladder leading to the street; and

WHEREAS, the applicant states that the occupancy of 76 to 84 persons per floor is based on the capacity of the interior stairs and no credit for either the exterior fire escapes as emergency exits; that the entire building is completely sprinklered and provided with an approved standpipe system; and

WHEREAS, the applicant requests that the Board grant a modification by the Labor Law as the building was erected according to the laws existing at the time of its erection and no major alterations have been made since erection; that the type of occupancy is not changed and the capacity of floors not increased since the day of erection; that to be required to comply with the existing laws would be a great hardship on the owner through no fault of his own.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. App. 1300/55, Objection No. One and that the appeal be and it hereby is granted, to permit exits as

proposed consisting of an interior stair and an exterior fire escape for all stories except the ninth floor, where there are two tenants, one with only single approved means of exit as proposed and shown on plans marked "Received November 9, 1956," (5 sheets), on condition that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the standpipe system, one-source sprinkler system and interior fire alarm system shall be maintained in accordance with the requirements therefor; and that there shall be no manufacturing in the cellar.

MINUTES

permits and complete the work, so that as *amended* this portion of the resolution shall read:

"that in view of the statement by the applicant that plans have been approved by the Department of Buildings, and the work will commence shortly, that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this *amended* resolution." (N.B. App. 3387/52)

341-53-BZ

APPLICANT—Maxon, Sells and Ficke, for Gold Coast Realty Corp., owner.

SUBJECT—Application for consideration—reopening for extension of time to complete—re Application (decision of the borough superintendent); previously granted on condition, under sections 7c, 21 and 7A of the zoning resolution, permitting in a residence and business use B area district, the erection and maintenance of a building to be used as stores and multiple dwelling, using more than the area permitted at curb level and with show windows nearer to the residence use district than is permitted.

PREMISES AFFECTED—1439-1509 York avenue, west side, from East 79th to East 80th street; 431-439 East 79th street and 434-438 East 80th street, Block 1559, Lots 19-30 inclusive, Borough of Manhattan.

APPEARANCES—

For Applicant: Lester H. Maxon.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and time to complete work extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on July 21, 1953, on certain conditions; and

WHEREAS, the resolution was amended on April 12, 1955; and

WHEREAS, time to obtain permit and complete the work was extended from time to time and last extended on June 5, 1956; and

WHEREAS, the applicant requested a further extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 21, 1953, only as to the time within which to obtain permits and complete the work, so that as *amended* this portion of the resolution shall read:

"that in view of the statement by the applicant that the building is completed except for some finishing work on stores on the first floor, that all permits required shall be obtained and all work completed within six months from the date of this *amended* resolution." (N.B. App. 3/53)

367-53-BZ

APPLICANT—Reginald S. Hardy, for Constance Counes, owner; Texas Company, lessee.

SUBJECT—Application for consideration—reopening for extension of time to complete—re Application (decision of the borough superintendent); previously granted on condition, under sections 7e and 7f of the zoning resolution, permitting in a residence and retail use district, the erection and maintenance of a gasoline service station, lubritorium, auto laundry (non-automatic) storage and sale of accessories and office, for a term of 15 years.

PREMISES AFFECTED—3632-3640 Eastchester road and 1167-1175 East 222nd street, northeast corner, Block 4901, Lot 17, Borough of The Bronx.

APPEARANCES—

For Applicant: Reginald S. Hardy and Joseph B. Lynch.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and time to complete work extended.

Affirmative: Chairman Murdock, Commissioner Kleintert,

Commissioner Keating and Deputy Chief Connolly... 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on December 13, 1955, on certain conditions; and

WHEREAS, the resolution was amended on April 17, 1956; and

WHEREAS, the applicant requested an extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on April 17, 1956, only as to the time within which to obtain permits and complete the work, so that as *amended* this portion of the resolution shall read:

"that in view of the statement by the applicant that plans have been approved by the Department of Buildings, that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this *amended* resolution." (N.B. 199/55)

88-55-BZ

APPLICANT—Henry Nordheim, for Ralph Di Girolamo, owner.

SUBJECT—Application for consideration—reopening for extension of time to obtain a certificate of occupancy—re Application (decision of the borough superintendent); previously granted on condition, under section 7e of the zoning resolution, permitting in a residence and retail use district, the use of existing structure at rear of site as a garage and motor vehicle repair shop, for a term of five years.

PREMISES AFFECTED—3327 White Plains road, west side, 246.77 ft. north of Rosewood street, Block 4624, Lot 49, Borough of The Bronx.

APPEARANCES—

For Applicant: Henry Nordheim.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and time extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on July 26, 1955, on certain conditions; and

WHEREAS, time to obtain permits and complete the work was extended on March 6, 1956; and

WHEREAS, the applicant requested a further extension of time to obtain a certificate of occupancy.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 26, 1955, as thereafter *amended* by resolution adopted on March 6, 1956, only as to the time within which to obtain permits and complete the work, so that as *amended* this portion of the resolution shall read:

"that in view of the statement by the applicant that work has been completed and additional time is required to obtain a certificate of occupancy, that all permits required and a certificate of occupancy shall be obtained within six months from the date of this *amended* resolution" (Alt. App. 11/55).

SECTION 21-C

(Continued from Page 2009)

taken on an application which makes a change in the stated requirements is granting a variance, a term which is all inclusive. Misusing the word "exception" as describing a deviation from the requirements in a given case indicates that the thoughtful opinions of the courts are being disregarded.

The present zoning Resolution uses the word "exception" correctly in the heading of Section 7 with its paragraphs a to j, where under the limitations set, the Board may "determine and vary."

To Mr. Edward M. Bassett, the City of New York and the entire country are indebted for the principles of planning

and zoning and the separate functions of the varying power as set forth in his book on Zoning and in his book on The Master Plan. The New York City Charter provides for planning and zoning and the varying power and the rule-making power in accordance with his stated principles and these principles should be adhered to. No revolutionary procedure, such as has been unlawfully adopted and is proposed under Section 21-C, should be permitted to be continued. The jurisdiction of the Board should be promptly restored in all cases where the Board has been unlawfully deprived of its jurisdiction, including garages and parking areas.

Section 21-C should remain as now written but could be enlarged to include commercial and business proposals, pro-

SECTION 21-C

vided it is understood that in all such projects applicants commence their actions by filing applications with the Board as therein stated.

The six types of large scale projects of over 200,000 square feet area specified in the proposed amendment to Section 21-C are nothing new. Projects of that size and smaller have been dealt with by the Board where zoning variances and variances of other laws were proposed since the Board was established in 1916. No one has been dissatisfied. Why should a change in procedure be suggested? These types of projects are not city planning, statements to the contrary notwithstanding. City Planning does not deal with buildings. The function of planning is to provide through mapping and zoning the proper uses of the land. As recently stated by the highest court in Connecticut—"the power to determine what are the needs of the town with reference to real property located in it and to legislate in such a manner that those needs will be satisfied is, by statute, vested exclusively in the Zoning Commission, accordingly, it is the function of the Commission to decide what uses may be made of property to best promote public welfare."

The Commission has plenty to do to carry out its Charter functions without reaching out for more at the expense of the Charter powers of other agencies. The Master Plan is generally understood to be far from complete, judging from the words "as far as adopted," which appear from time to time in the Commission's reports to the Board of Estimate.

As pointed out by the Regional Plan Association and by Mr. Reginald Hardy in his masterful brief filed with you, the provision for Court review as provided for in Board cases is not possible in matters determined by the Commission except in an action for Declaratory Judgment to determine constitutionality and not the merits of the case. The public should not be assured that a similar court review as in a Board case would be possible in a matter determined by the Commission and the Board of Estimate. Neither should the public be assured that if Section 21-C were adopted, the areas involved would not be later reduced, still further diminishing the Board's jurisdiction. Where the Commission unlawfully assumed jurisdiction to grant variances for garage and parking areas, the original assumed jurisdiction of 500 cars or over was later changed to 150

cars or over. No assurance is given that similar down amending would not occur again.

The Commission in their reports to the Board of Estimate on changes to zoning has been calling for approval by three-fourths vote. Section 200 provides for the Commission's recommendation to take effect within thirty days unless modified or disapproved by the Board of Estimate, except that where there are twenty per cent protests, a unanimous vote is required. The Commission now proposes a change in the Charter provisions by amendment to the Zoning Resolution, which is not the prescribed method of amending the Charter.

It is the usual condition in dealing with zoning applications, particularly large projects, that appeals are also filed for variances as to the Administrative Code, the General City Law and other laws. These are considered by the Board at one time. In the Commission's proposal this could not be done, much to the detriment of the applicant, particularly as under 21-C, subdivision E, no variance is proposed to be allowed. In this respect, it might be cited that a garage permitted by the Commission on Kew Gardens Road could not have lawfully been used as such until a variance was granted by the Board under proper conditions to permit the rear section to be used for public assembly.

The reason stated by the Commission in its News Letters of July, August and September for adopting 21-C are not only not convincing but are incorrect and misleading. The proposal to amend 21-C should not be adopted, as it is out of harmony with the established principles and not in the public interest.

It would be desirable to defer this and other amendments to the Zoning Resolution until the recently employed Zoning Specialists have submitted their recommendations.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
EDWIN W. KLEINERT,
Commissioner,
SEAN P. KEATING,
Commissioner,
P. JOSEPH CONNOLLY,
Deputy Chief.

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication of this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying property owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1014, Municipal Building, Manhattan, at five cents each—postage to be added if the forms are forwarded by mail.

APPEALS AS TO MULTIPLE DWELLINGS

The Legislature, under Chapter 333 of 1948, has clarified Section 60 of the Multiple Dwelling Law by describing the agency authorized to grant variances under this Section, so as clearly to mean in New York City—the Board of Standards and Appeals.

Chapter 508 of 1948 has also been adopted by the Legislature, amending the Multiple Dwelling Law to provide, under new Section 310, for a Board of Appeals. By description the Board of Appeals means in New York City—the Board of Standards and Appeals. Section 310 provides as follows as to appeals:

LAWS OF NEW YORK—By Authority CHAPTER 508 OF 1948

§ 310. Board of appeals. 1. As used in this section "board" shall mean the agency of a city constituted as a board and authorized by law both to grant variances of the zoning resolution and to make rules supplemental to laws regulating construction, maintenance, use and area of buildings.

2. Where the compliance with the strict letter of this chapter causes any practical difficulties or any unnecessary hardships the board shall have the power, on satisfactory proof at a public hearing, provided the spirit and intent of this chapter are maintained and public health, safety and welfare preserved and substantial justice done, to vary or modify any provision or requirement of this chapter, or any rule, regulation, supplementary regulation, ruling or order of the department with respect to the provisions of this chapter, as follows:

a. For multiple dwellings and buildings existing on July first, nineteen hundred forty-eight, provisions relating to:

- (1) Height and bulk;
- (2) Required open spaces;
- (3) Minimum dimensions of yards or courts; or
- (4) Means of egress.

b. For multiple dwellings and buildings erected or to be erected after July first, nineteen hundred forty-eight, and

such dwellings thereafter altered or to be altered, provisions relating to:

- (1) Required open spaces; or
- (2) Minimum dimensions of yards or courts.

Variations or modifications may be granted pursuant to this paragraph b only on condition that open areas for light and air are provided which are at least equivalent in area to those required by the applicable provisions of this chapter.

3. An application for such a variance or modification may be made by any person aggrieved or by the head of any public agency, within such time and under such procedure, conditions and rules as may be prescribed by the board. The board shall fix a reasonable time for the hearing of an application and shall require that due notice be given of the time and place of such hearing to the applicant and to the department. Any person or a duly authorized representative of any public agency may appear at any such hearing and be heard on any such application.

4. In every case the board shall state the reason or reasons for its decision. All decisions of the board shall be subject to review in the same manner as is provided by law for review of decisions of such board respecting variances of the zoning resolution.

5. A record of all decisions of the board, indexed according to the section or sections of this chapter affected thereby, shall be kept in the office of the board. Such record shall be open to public inspection at all times during business hours.

SECTION 21-C

Reference is made to the Public Hearing before the City Planning Commission, involving the proposed amendment of Art. IV, Sec. 21-C of the Zoning Resolution, held on July 18th, 1956.

I appeared at the hearing in behalf of the Property Owners of Brooklyn, Inc., and individually as a member of the Citizen's Housing and Planning Council of New York, Inc., Committee on the Multiple Dwelling Law.

The amendment initiated by the Commission, attempts to by-pass the Board of Standards and Appeals by granting to itself the right to grant variances of the Zoning Law involving large scale projects of both residential and industrial characters.

This amendment, if adopted, would deny to the small property owner, adversely affected by a proposed project, the right of judicial review presently permitted. Further, it would invite the political influence in the granting of the zoning variances which touched off the Seabury Investigation in the thirties.

The Commission is a quasi-legislative body, charged with making Zoning Laws. The Department of Buildings is the Administrative Body which effectuates the laws of the Commission. The Board of Standards and Appeals is the quasi-judicial body which hears applications to obtain variance from the laws. The separation of these powers on the municipal level is relatively as important to the individual property owner of New York City, as the separation of powers in the Federal Government is to the citizens of the United States.

LEONARD F. ROTHKRUG,
Attorney-at-law.

COURT DECISION

re

DECLARATORY JUDGMENT

Matter of Florence Rand vs. Board of Standards and Appeals:—This owner of property located at 94-66—158th Street, south side, 22.45 ft. west of Atlantic Avenue, Jamaica, Borough of Queens, brought action for a Declaratory Judgment to have General City Law, Section 35, declared unconstitutional in its application to her property and moved for summary judgment. She stated that she acquired the property in 1952 by foreclosing a transfer of tax lien, which she bought from the City of New York, the defendant in this

606-56-BZ

APPLICANT—Samuel Miller, for S. Jules Lakin and M. L. Bennett, owners (Esso Standard Oil Co., lessee).

SUBJECT—Application September 10, 1956—(decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a business use district, the erection of a gasoline service station, lubritorium, auto laundry, non automatic, minor auto repair shop with hand tools only, parking of motor vehicles awaiting service for a term of 15 years.

PREMISES AFFECTED—63-07 Broadway, northwest corner of 64th street, entire block bounded by Broadway and 35th avenue, from 63rd to 64th streets, Block 1190, Lot 41, Jackson Heights, Borough of Queens.

APPEARANCES—

For Applicant: Murray Stockman, Joseph B. Lynch and J. I. Isaacs.

For Opposition: Weidenbaum Krein and Harold McArthur.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to January 22, 1957, at 10 A. M. for applicant to furnish to the Board a plan showing sub-surface conditions in connection with the subway and also the sidewalk conditions approved by the

Transit Authority for driving over; and for further consideration; premises inspected; hearing previously closed.

608-56-BZ

APPLICANT—Leonard F. Rothkrug, for Michael Sirote and Anne Golden (partners), owners.

SUBJECT—Application September 11, 1956—(decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a business use district, the erection and maintenance of a gasoline service station, accessory motor vehicle repair shop, lubritorium, car washing (non-automatic), office and sales for a term of 15 years.

PREMISES AFFECTED—2812-2818 Westchester avenue, 1601-1611 Mulford avenue, southwest corner and 2815-2819 Middletown road, Block 4152, Lots 1, 2, 9, 10 and 11, Borough of The Bronx.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Opposition: Wilhemine Kappes, Angelo M. Torrisi, Joseph T. Brent, Angeline Argytos, Anna Riccio, Mary N. Marco, Harry H. Mah and John Lenehan.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to January 29, 1957, at 10 A. M.; applicant to file revised plan as to curb cuts; and for inspection and decision; hearing closed.

656-56-BZ

APPLICANT—Lama, Proskauer and Prober, for Rayhurst Realty Corp., and Nostrand Building Corp., owners.

SUBJECT—Application October 3, 1956—(decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a local retail, D area, Class ½ height district, the erection of a 6 story multiple dwelling, exceeding the permitted height.

PREMISES AFFECTED—3203-3220 Nostrand avenue, east side, 95 ft. north of Avenue S, Block 6836, Lot 52, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama and Meyer Berfond.

For Opposition: Bernard H. Loizzo, Senator William Rosenblatt and Isaac Marks.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to January 29, 1957 at 10 A. M. for inspection and decision; hearing closed.

661-56-BZ

APPLICANT—S. Jules Lakin and M. L. Bennett, owners.

SUBJECT—Application October 5, 1956—(decision of the borough superintendent) under sections 7f, 7i, 7e of the zoning resolution, to permit in a retail and residence use district, a gasoline service station, lubritorium, auto laundry (non automatic), minor auto repairs with hand tools only, parking of motor vehicles awaiting service for a term of 15 years.

PREMISES AFFECTED—92-10 Astoria boulevard, southeast corner of 92nd street, Block 1366, Lot 32, Jackson Heights, Borough of Queens.

APPEARANCES—

For Applicant: Joseph B. Lynch, Murray Stockman and J. I. Isaacs.

For Opposition: Thomas J. Guida.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to January 29, 1957, at 10 A. M. for inspection and decision; hearing closed.

MINUTES

277-56-BZ

APPLICANT—Morris Kweller, for The Liberty Sackman Corp., owner.

SUBJECT—Application April 11, 1956—(decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a residence use, DD area district, the erection and maintenance of a gasoline service station, auto washing, lubrication, minor repairs with hand tools only, office and accessory sales, with less than the required setback.

PREMISES AFFECTED—2252-2254 Linden boulevard and 885-893 Cleveland street, southeast corner, Block 4360, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: Morris Kweller.

For Opposition: Edward S. Lentol and Robert I. Greenberg.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application withdrawn.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the Board is of the opinion that the site is inadequate in size for occupancy as a gasoline service station; and

WHEREAS, the applicant requested to withdraw his application.

Resolved, that the application be and it hereby is withdrawn.

607-56-BZ

APPLICANT—Spencer L. Eddy, for Harry and Benjamin Neisloss, and Benjamin Braunstein, trustees (Esso Standard Oil Co., lessee).

SUBJECT—Application September 10, 1956—(decision of the borough superintendent) under sections 7f, 7i and 21 of the zoning resolution, to permit in a retail use, F area district, the erection of a gasoline service station, lubricatorium, auto laundry (non automatic), minor auto repair shop with hand tools only, parking of motor vehicles awaiting service, for a term of 15 years.

PREMISES AFFECTED—29-30 Union street, west side, 189.24 ft. north of 31st road, Block 4343, Lot 105, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: J. I. Isaacs.

For Opposition: L. Feibenbaum and Dr. Gerald J. Levine.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application withdrawn.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the premises were inspected by a Committee of the Board; and

WHEREAS, the applicant requested the withdrawal of the application due to the change in ownership respecting certain trustees and that the lessee, Esso Standard Oil Company, was unable to obtain a revised lease because of the fact that two of the trustees are not available.

Resolved, that the application be and it hereby is withdrawn.

212-27-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Webster Hutton Co., Harry and Isadore Glasser and Louis Ricklin, owners (D. Kaltman and Co., Inc., lessee).

SUBJECT—Application reopened December 13, 1955 as Vol. II—re (decision of the borough superintendent) under sections 19A (j) and 21 of the zoning resolution, to permit in a business use, B area district, the change of occupancy from public garage, wholesale drugs and storage, to manufacturing wholesale drugs, receiving, shipping and storage with less than the required loading area.

PREMISES AFFECTED—3200-3220 Jerome avenue and 1-15 East Van Cortlandt avenue, northeast corner, Block 3323, Lots 36 and 45, Borough of The Bronx.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on December 13, 1955 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on October 23, 1956 after due notice by publication in the Bulletin; laid over to November 20, 1956, for inspection and decision; hearing closed; then to December 11, 1956, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a business use, B area, class 1¼ height district; Jerome avenue is in business and unrestricted use, B area, class 1¼ height districts; East Van Cortlandt avenue is in business and residence use, B area, class 1¼ height districts; and

WHEREAS, the decision of the borough superintendent, dated October 31, 1955 acting on Alt. Applic. 760-55, reads:

"3. Loading berth does not conform to Sect. 19-A(h)(2) of the Zoning Resolution. Height as shown not acceptable.

4. Provide loading berth conforming to Sect. 19-A(e)(1) of the Zoning Resolution, accessible to both occupants of building."

and

WHEREAS, the applicant states that the premises consist of a plot, 355.36 ft. frontage by 200 ft. in depth, irregular, presently developed with a class 1 building, basement and one story in height, having a frontage of 355.36 ft. on Jerome avenue and 200 ft. on East Van Cortlandt avenue; that the building is composed of two units; that unit No. 3200 Jerome avenue was originally erected under N.B. 2333-27 and certificate of occupancy N.B. 429-28 was issued for a public garage; that unit 3220 Jerome avenue was originally erected under N.B. 2334-27 and certificate of occupancy No. 726-1928 was issued for a public garage; that both units were also erected under a variance granted by the Board under Cal. No. 212-27-BZ permitting public garages; that subsequently building No. 3200 Jerome avenue was altered under Alt. Applic. 642-50 and certificate of occupancy No. 8051 was issued to use the basement and first floor as a pharmaceutical warehouse; that at the present time building No. 3200 Jerome avenue is being used in the basement for the storage, receiving and shipping of wholesale drugs and the first floor for the storage of wholesale drugs; that an opening has been cut through the separating walls of buildings 3200 and 3220 Jerome avenue on the first floor so that the first floor of building No. 3200 Jerome avenue is used for the storage of wholesale drugs in connection with the storage of wholesale drugs in building No. 3200 Jerome avenue; that it is proposed to maintain the above

MINUTES

present uses and convert the basement of building No. 3220 Jerome avenue from a garage to manufacturing use; that it is also proposed to continue all present uses; that the proposed uses are conforming uses in the present business use district; and

WHEREAS, the applicant states that the loading berth as provided for the proposed manufacturing in the basement of building No. 3220 Jerome avenue is 12 ft. wide and 9 ft. high and does not conform to section 19-A(h)(2) in that it should be 14 ft. high, but said section 19-A clearly relates to "buildings hereafter constructed" and not to buildings converted from one use to another; that the area of this basement floor is only 10,000 sq. ft. and said area having no connection with the 1st floor and no connection with building No. 3200 Jerome avenue at the basement level, and being only 10,000 sq. ft. in area, should not require a loading berth; that in any event section 19-A(e) only requires a loading berth for a floor area of 15,000 sq. ft.; that the present loading berth as proposed with a height of 9 ft. is ample for receiving and shipping and as this basement floor is partly below grade, it would be impossible to gain a higher height without raising the floor above and thereby destroying said area above; and

WHEREAS, the applicant contends that when building No. 3200 Jerome avenue was converted from a garage to its present wholesale drug storage use under Alt. Applic. 642-50, the building code under section 19-A only required a loading berth for buildings having a floor area of 25,000 sq. ft., and the building in question having only 20,000 sq. ft., no loading berth was required; that subsequently 10,000 sq. ft. of floor area was added in building No. 3220 Jerome avenue at the first floor level but the building code under section 19-A as amended only requires a loading berth for the additional area only if it equals 15,000 sq. ft., so that no loading berth should be required at this time; that the entire 30,000 sq. ft. of floor area now devoted in both buildings to the wholesale storage, receiving and shipping of drugs is under one tenancy and proposes to continue its receiving and shipping through the present sidewalk loading and rapid conveyor system extending to two such sidewalk loading spaces; and

WHEREAS, the applicant states that the present owner has held title to lot No. 36 since February 9, 1951 and to lot No. 45 since February 24, 1955; that the assessed valuation of land is \$65,000 and of the buildings \$140,000 making a total of \$205,000; that the buildings were erected in 1928; and

WHEREAS, the premises and surrounding area where inspected by a committee of the Board; and the committee has noted that Jerome Avenue, at this point, is not a heavily trafficked street, and also that the shape of the building precludes the construction of the required loading berth, and that the building throughout is sprinklered and recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 19A, Subdivision (j) of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use and area district regulation of the zoning resolution and that the application be and it hereby is granted under Section 19A(j) to omit the loading berth as required by Section 19A, and to permit the method of loading and unloading as proposed and as indicated on plans filed with this application marked "Received November 15, 1955", 7 sheets, and to permit curb cuts, as proposed, opposite such loading spaces; that the building in all other respects shall comply with all laws, rules and regulations applicable thereto other than as amended this day under Cal. No. 247-52-A, Vol. III; that the building throughout shall be protected with a sprinkler system as proposed and as shown on such plans cited above; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

247-52-A—Vol. III

APPLICANT—Lama, Proskauer and Prober, for Webster Hutton Co., Harry and Isadore Glasser and Louis Ricklin, owners (D. Kaltman and Co., Inc., lessee).

SUBJECT—Application reopened December 13, 1955 as Vol. III—re Appeal from a decision of the borough superintendent—egress and curb (driveway).

PREMISES AFFECTED—3200-3220 Jerome avenue and 1-15 East Van Cortlandt avenue, northeast corner, Block 3323, Lots 36 and 45, Borough of The Bronx.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated October 31, 1955, on Alt. App. 760-55 reads:

"1. Provide 2 means of egress from the 1st floor conforming to Sect. 270 of the Labor Law:—

(a) stair as provided does not conform as treads are only 9¾" wide instead of 10".

(b) stair as provided does not conform as stair does not extend to the roof.

(c) ramp as provided does not conform as same has a slope of 1 ft. in 6 ft. instead of 1' in 8'.

"2. Means of egress provided do not conform to Sect 270(3b) of the Labor Law.

"5. Curb cut approval for sidewalk loading and unloading not permitted Sect C26-228(6) A. C."

and

WHEREAS, the applicant states the building is one story and basement, 22 ft. and 23 ft. 4 in. in height, 355.36 ft. front by 200 ft., irregular, in depth, of fireproof construction, erected 1928, located in a business use, B area, Class 1¼ height district, and used and occupied since 1950 as follows—cellar—boiler room; basement—garage and wholesale drugs, 8 persons; 1st floor—storage of wholesale drugs, 20 persons; and now proposed to be used and occupied as follows—cellar—boiler room; basement—manufacture and storage, receiving and shipping of wholesale drugs, 20 persons; 1st floor—storage of wholesale drugs, 20 persons; and

WHEREAS, Certificate of Occupancy #726 was issued against N.B. App. 2334-27 describing the building as two story, brick construction, and permitting its use as a public garage, this certificate refers to premises at the east side of Jerome Avenue, 200 ft. north of Van Cortlandt avenue; and

WHEREAS, Certificate of Occupancy #8051 issued November 3, 1950 for premises 3200 Jerome avenue, northeast corner of Van Cortlandt avenue, located on lot 36 in block 3323, describes the building as fireproof and permits the following use and occupancy—cellar—on ground, boiler room; basement, on ground and 120 lb. liveload, pharmaceutical warehouse and office, 13 persons; 1st floor—120 lb. liveload, pharmaceutical warehouse, 10 persons; this certificate bears the notation, "Fire Department approval of fire extinguishing equipment received;" and

WHEREAS, the applicant has filed copy of Order No. 82564LC issued by the Fire Commissioner February 5, 1951 and repeated in a decision of the Fire Commissioner dated March 11, 1952, refusing to issue a permit to conduct a wholesale drug store at these premises since the building is not equipped with a fire extinguishing system approved by the Commissioner (Sect. C19-136.0.4); and

WHEREAS, the applicant states that there is an approved standpipe system in the building at 3200 Jerome avenue only and that a one-source sprinkler system is being installed in the premises; that the building is equipped with one 3 ft. 8 in. wide steel stair fireproof enclosed, equipped with

MINUTES

fireproof self-closing doors leading direct to street and provided with a ladder and scuttle to roof and that there are two fire escapes on the front extending to street by ladder and windows and doors on the course of the fire escapes are fireproof self-closing; and

WHEREAS, the applicant states that the premises are developed with a class One building, basement and one story in height, 355.36 ft. on Jerome avenue and 200 ft. on East Van Cortlandt avenue composed of two units; #3200 Jerome avenue was erected under NB 2333-27 and certificate of occupancy 429-28 was issued for a public garage; Unit #3220 Jerome avenue was erected under #2334-27 and certificate of occupancy 726-28 was issued for a public garage. Both units were also erected under a variance granted by the Board under Cal. No. 212-27-BZ; that 3200 Jerome avenue was altered under alt. 642-50 and certificate of occupancy 8051 was issued to use the basement and first floor as a pharmaceutical warehouse; that 3200 Jerome avenue is now being used in the basement for storage, receiving and shipping of wholesale drugs and first floor for the storage of wholesale drugs. An opening has been cut through the walls of 3200 and 3220 Jerome avenue on the first floor and the first floor of 3220 Jerome avenue is used for the storage of wholesale drugs in connection with the storage of wholesale drugs in building 3200 Jerome avenue; that it is proposed to maintain the present uses and convert the basement of 3220 Jerome avenue to manufacturing; the first floor of the combined buildings are used for the storage of wholesale drugs and not factory; factory use only occurs in the basement of 3200 Jerome avenue in which the Building Department construes the receiving and shipping of wholesale drugs as a factory use and in the basement of 3220 Jerome avenue which is to be used for true manufacturing and would come under the Labor Law, but the basements of both 3200 and 3220 Jerome avenue have ample and direct exit to the street in full conformity to the Labor Law; and

WHEREAS, the applicant contends as to Objection 1(a) that the first floor should not come within the Labor Law as it is only used for storage; that the stairs have $9\frac{3}{4}$ in. treads in lieu of 10 in. as required, a capacity of 68 persons for a building having sprinkler system and the proposed occupancy is only 20; and

WHEREAS, the applicant contends as to objection 1(b) that section 272(2) as amended effective January 1st, 1956 exit stairs need not extend to the roof in buildings not over two stories high erected after October 1, 1913; and

WHEREAS, the applicant contends as to objection 1(c) that the ramp proposed for secondary exit in 3220 Jerome avenue has a slope of 1 ft. in 6 ft. in lieu of 1' in 8' as provided under the Labor Law. The doors at the base of the ramp will be replaced with one 3'-8" wide door opening out; this 3 ft. 8 in. wide door will have a capacity of 100 persons and the first floor has an occupancy of 20 persons; the building is fireproof and is fully equipped with an automatic sprinkler system; in addition the first floor has exit through two 3 ft. 4 in. wide fire escapes and sliding drop ladders on the Jerome avenue front; and

WHEREAS, the applicant contends as to Objection 2, that the only point in the first floor more than 150 ft. from an exit occurs at the corner of the building at Jerome avenue and East Van Cortlandt avenue and said excess will be 15 ft.; this 15 ft. of floor space has exit to a 3 ft. 4 in. wide fire escape and sliding drop ladder through a lift up portion of the conveyor system; and

WHEREAS, the applicant contends as to objection 5 that the curb cuts and sidewalk loading have been used for the past five years for the sidewalk receiving and shipping; the openings adjoining said loading are equipped with a conveyor system for fast loading and unloading so that the trucks are not maintained on the sidewalk for any great length of time; said sidewalk loading is no more hazardous than the former garage entrances; there is no pedestrian hazard at this point as the entire block front is occupied by a garage and a gasoline station; the adjoining block east of the site is occupied by a gasoline station; the corner of

the adjoining block is occupied by a garage; the entire frontage of Jerome avenue directly opposite the site and extending for 863 ft. in block 3251, lot 401 is occupied by the Department of Water Supply, Gas & Electricity; lot 420 in the same block is a railroad yard; therefore, as shown there are no uses within this area which would cause pedestrian travel and therefore very little pedestrian hazards could exist; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. App. 760-55, Objection No. 1, 2 and 5 and that the appeal be and it hereby is *granted*, on condition that the exits as proposed throughout the building shall be maintained as proposed and as indicated on plans filed with Cal. No. 212-27-BZ, Vol. II, as approved this day under resolution adopted; and to permit curb cuts as may be necessary for reaching the loading and unloading spaces, as to Objection No. 5.

803-28-BZ—Vol. II

APPLICANT—Reginald S. Hardy, for Land Buyers, Inc., owner.

SUBJECT—Application reopened May 8, 1956 as Vol. II —re (decision of the borough superintendent) under section 7f of the zoning resolution, to permit in a business use district, the erection and maintenance of a gasoline service station.

PREMISES AFFECTED—1571-1581 Albany avenue and 4101-4107 Glenwood road, northeast corner, Block 5016, Lots 7 and 9, Borough of Brooklyn.

APPEARANCES—

For Applicant: R. S. Hardy.

For Opposition: W. L. Nemick.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on May 8, 1956 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on October 30, 1956 after due notice by publication in the Bulletin; laid over to November 14, 1956, at request of attorney for objectors, applicant concurring; then to December 11, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Albany avenue are in a business use, D area, class 1 height district; Glenwood road is in an unrestricted use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated March 12, 1956 acting on N.B. Applic. 149-56, reads:

"1. Proposed building and premises, in a business zone, to be used for gasoline service station, lubritorium, auto laundry (non-automatic), minor auto repair shop with hand tools only & parking of motor vehicles awaiting service is contrary to Article II, PP. 4a, subsections 29 and 46 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 95 ft. in depth, now vacant; that it is proposed to erect a gasoline service station, lubritorium, auto laundry (non-automatic), minor auto repair

MINUTES

shop with hand tools only and parking of motor vehicles awaiting service; and

WHEREAS, the applicant states that the property was acquired by the present owner by deed recorded May 13, 1954, but prior to that time it was owned by an affiliated corporation who acquired title to a portion of it on January 13, 1951 and the remainder on May 16, 1952; that the property is located within a business use district; that however, the adjoining property to the east is located within an unrestricted district and is now improved with a gas station; that this use occupies the remainder of the block front on Glenwood road; that the property on the opposite side of Glenwood road, that is, the southerly side, is improved with uses commonly found only in unrestricted districts; and

WHEREAS, the applicant contends that the subject premises, hemmed in on the east by the gas station and on the north by a one story factory building erected on the lot line, is not adaptable for use in conformity with present zoning and that the application should, therefore, be granted; and

WHEREAS, the applicant states that the present owner has held title to the property since May 13, 1954 and that the assessed valuation of lot 7 is \$4,600 and of lot 9, \$3,800 making a total of \$8,400; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board which noted that a gasoline station adjoins and there is one in the block to the east; also that the block is partly unrestricted, and recommended that the application be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of fifteen years, to permit the premises to be occupied as a gasoline service station and accessory uses, substantially as proposed and indicated on plans filed with this application, marked "Received April 6, 1956, 3 sheets, and "December 3, 1956", 1 sheet, *on condition* that the premises shall be leveled substantially to the grade of the abutting streets; that any structure or use now on the site shall be removed; that the accessory building shall be faced with face brick on all sides, except the north which may be of common brick, painted or stuccoed, shall have no cellar and shall be of the design and arrangement shown on such plans except that doors to toilets shall be arranged so as not to be contiguous; that along the interior lot lines, where walls of adjoining buildings do not occur, there shall be erected a chain link fence of the woven wire type, erected on a masonry base to a total height of not less than 5 ft. 6 inches; that pumps shall be of a low approved type erected not nearer than 15 ft. to the street building lines; that the number of gasoline storage tanks shall not exceed ten 550 gallon approved tanks; that curb cuts shall be restricted to two on Glenwood road each 30 ft. in width, located where shown, and two of similar width, on Albany avenue; that at the intersection, the building line, there shall be erected a block of concrete not less than 12 in. in height, extending for 5 feet along each street; that sidewalks and curbing abutting the site shall be repaired or reconstructed to the satisfaction of the Borough President; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that the premises, where not occupied by accessory building, pumps and planting, shall be paved with concrete or asphalt; that signs shall be restricted to permanent signs attached to the accessory building facing Albany avenue and the illuminated globes of the gasoline pumps, excluding all roof signs and temporary signs, but permitting the erection at the intersection of a post standard to support a sign which may have two leaves and which may be illuminated, advertising only the brand of gasoline and permitting such sign to extend beyond the building line not more than 4

feet; that under section 7i there may be minor repairing with hand tools only for adjustments, maintained solely within the accessory building; that all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

21-33-BZ—Vol. II

APPLICANT—John F. Fitzsimons, for Felco Realty Corp., owner (Knapp Auto Bodies Inc., lessee).

SUBJECT—Application reopened November 9, 1955 as Vol. II—re (decision of the borough superintendent) under sections 7e and 7A of the zoning resolution, to permit in a retail zone and partly in a residence zone, the increase in area of an existing non-conforming use for the purpose of a boiler room, storage garage, body and fender works, spraying, painting, welding, storage of paint and to permit the location of a business entrance within 75 ft. of an abutting residence use district.

PREMISES AFFECTED—181-02 to 181-18 Hillside avenue and 88-01 181st street, southeast corner, Block 9917, Lot 43, Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: John F. Fitzsimons.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on November 9, 1955 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on November 14, 1956 after due notice by publication in the Bulletin; laid over to December 11, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in retail and residence use C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated April 15, 1955 acting on Alt. Applic. 564-55, reads:

"1. Proposed increase in area of an existing non-conforming use, and change of such use within the retail portion of a lot, partly in a retail zone and partly in a residence zone, for the purpose of a boiler room, storage garage, body & fender work, spraying & painting, welding, storage of paint & parking in open rear yard of motor vehicles or trucks waiting for service, brake service, showroom for display & installation of auto seat covers, stores & offices is contrary to Art. II Sec. 4A of the Zoning Resolution.

2. Proposed business entrance within 75 ft. of an abutting residence use district is contrary to Art. II Sec. 7A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 205.04 ft. frontage by 93.69 ft., irregular in depth, on which is located a one story building 205 ft. by 75 ft. in area, occupied as a five car garage, brake service, show rooms, office, etc.; that it is proposed to occupy the building as a storage garage, body and fender works, painting and spraying, welding, storage of paint and parking of motor vehicles waiting for service; and

WHEREAS, the applicant states that the buildings on the premises were originally erected under N. B. Applic. 6190-1930 and N. B. Applic. 6191-1930; that this application does not concern the building erected under N. B. 6190-1930 for which certificate of occupancy No. 46081 has been issued, the permitted use being brake service, store and office and the location of the building being the southeast corner of Hillside avenue and 181st street; that this application is

MINUTES

solely concerned with the structure erected under N. B. 6191-1930, the location of which, under certificate of occupancy No. 46082, is given as Hillside avenue, south side, 125 ft. east of 181st street; that the permitted use under that certificate of occupancy is for five car garage, stores and showroom; that it is proposed to use the cellar of this building and the rear yard adjacent thereto for the additional uses above enumerated; that the entrance to this cellar is through a driveway on the east side of 181st street, immediately southerly of the corner building; that the cellar floor and the yard which is proposed to be used for the parking of motor vehicles, is 12 ft. below grade; and

WHEREAS, the applicant contends that the irregular nature of the tax block and of the tax lot, as well as their topographical aspects, make the proposed uses very feasible without being detrimental to the adjoining properties; that all work proposed to be carried on will be in accordance with the applicable rules of the Board and all other pertinent laws, rules and regulations; and

WHEREAS, the applicant states that the present owner has held title to the property since January 16, 1951; that the assessed valuation of land is \$90,000 and of the building \$50,000, making a total of \$140,000; that the building was erected in 1930; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted as shown on the amended plans; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e and 7A of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e and 7A for a term of ten years to permit the erection within the building of a storage room, as now shown on revised plans marked "Received December 4 1956," one sheet; that the use of the building shall be as shown on plans marked "Received October 3, 1955," (3 sheets), and to permit the use of the unbuilt upon portion of the premises at the rear for parking and storage of motor vehicles being serviced; that such space at the rear and driveway to 181st street shall be properly paved; that a woven wire fence or walls shall be constructed on the rear lot line to the south; that there may be a curb cut at the end of such ramp at 181st street not exceeding 12 ft. in width; that in all other respects the building rear yard and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits shall be obtained and all work shall be completed and a certificate of occupancy obtained within the requirements of Section 22A of the zoning resolution.

433-41-BZ—Vol. III

APPLICANT—Lama, Proskauer and Prober, for Park Utica Realty Corp., Anna Spiegel and Belle May Dattelbaum, owners.

SUBJECT—Application reopened June 26, 1956 as Vol. III —re (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a retail and residence use district, the change in use of portion of the first floor from office to catering, meeting room, weddings, bar mitzvahs, music and dancing.

PREMISES AFFECTED—1125-1137 Eastern parkway and 269-279 Utica avenue, northeast corner, Block 1391, Lots 1, 76 and 78, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: Edward Hoffman for Dept. of Parks and T. H. McManus.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert.

Commissioner Keating and Deputy Chief Connolly... 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on June 26, 1956 subject to regular procedure, to consider a new arrangement; and

WHEREAS, a public hearing was held on this application on November 7, 1956 after due notice by publication in the Bulletin; laid over to November 27, 1956, for inspection and decision; hearing closed; then to December 11, 1956, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Eastern parkway are in retail and residence use, B and C area, class 1¼ height districts; Utica avenue is in a retail use, B area, class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated May 23, 1956 acting on Alt. Applic. 576-56, reads:

"1. The change in use of portion of the 1st floor from office to catering, meeting rooms, weddings, bar mitzvahs, music & dancing, of this building, located partly in a residence and partly in a retail use district is contrary to the Zoning Res., Art. II, Sect. 3."

and

WHEREAS, the applicant states that the premises consist of a plot, 120 ft. frontage by 90 ft. 7 in. in depth, presently developed with three buildings identified as A, B and C on plans submitted with this application; that it is proposed to maintain the present permissible uses of ordinary storage in the cellars of buildings A, B and C; that it is further proposed to maintain the present permissible use of stores, dining room, kitchen and restaurant on the first floor in buildings A and B and change the use of the first floor of building C to meeting rooms, catering, weddings, bar mitzvahs, music, dancing and storage; that it is also proposed to use conjunctively the uses in buildings A, B and C on the first floor; that it is proposed to maintain the second and third floors of building C, as legally permitted, as office on the second floor and one-family on the attic floor; that the frame extension on the second floor of building C will be removed; that it is further proposed to maintain the present second floor use of building A as offices and maintain the present legal roof sign on said building; and

WHEREAS, the applicant states that the premises are in a class 1¼ height district; that part of the premises within 100 ft. of Utica avenue is in a retail use district and class B area district and the balance of the premises is in a residence use district and class C area district; that as of July 25, 1916 that part of the premises within 100 ft. of Utica avenue was in a business use district and received the present use designation on March 25, 1954; and

WHEREAS, the applicant states that building A is two stories in height, of class 3 construction having a frontage of 40 ft. and a depth of 90 ft. 7 in., erected under N.B. 9413-1927 for use as follows: cellar—ordinary; 1st floor—store; 2nd floor—offices, and that certificate of occupancy No. 47343 was issued for said uses; that the building was later altered under Alt. Applic. 375-1931 and the use changed as follows: cellar—ordinary; 1st floor—seven stores; 2nd floor—private business school and five offices, and certificate of occupancy No. 63124 was issued for said uses; that the building was further altered under Alt. Applic. 3878-1943 and the use changed as follows: cellar—ordinary; 1st floor—stores; 2nd floor—offices; that no certificate of occupancy was issued for said uses; and

WHEREAS, the applicant states that building B is one story in height of class 3 construction, with a frontage of 40 ft. and a depth of 90 ft. 7 in.; that the first available records of the department of buildings indicate Alt. Applic. 13618-1836 for use as follows: 1st floor—restaurant, for which certificate of occupancy No. 82754 was issued; that the building was later altered under B.N. 8670-1937 and the use changed as follows: cellar—ordinary; 1st floor—restaurant and beauty parlor, for which certificate of occupancy No. 83579 was issued; that the building was further altered

MINUTES

under Alt. Applic. 3200-1943 and the use changed as follows: cellar—store; 1st floor—restaurant, for which certificate of occupancy No. 110161 was issued; and

WHEREAS, the applicant states that building C is 2½ stories in height, of class 3 construction, with a frontage of 28 ft. and an irregular depth of 120 ft. 4 in., erected under N.B. 2731-1913 for use as follows: cellar, 1st and 2nd floors and attic—dwelling for one family, and no certificate of occupancy was issued; that the building was later altered under Applic. No. 9098-1920 and the use changed as follows: one family and doctor's office, for which no certificate of occupancy was issued; that the building was further altered under Alt. Applic. 8639-1922 and the use was changed to one family and medical treatment rooms, for which no certificate of occupancy was issued; that the building was further altered under B. N. 3123-1943 and the use changed as follows: cellar—ordinary; 1st floor—offices; 2nd floor—office; attic—one family, and certificate of occupancy No. 103702 was issued; that the roof sign on building A was erected under Applic. No. 1213-1938; and

WHEREAS, the applicant states that the buildings are presently occupied as follows:—building A: cellar—ordinary; 1st floor—stores and dining room in conjunction with restaurant in building B; building B: cellar—ordinary; 1st floor—restaurant in conjunction with dining room in building A; building C: cellar—ordinary; 1st floor—offices; 2nd floor—offices; attic—one family; and

WHEREAS, the applicant states that building C is partly in a retail use district and partly in a residence use district and therefore it is only proposed to extend the allowable use of catering, meeting rooms, weddings, bar mitzvahs, music and dancing permitted in part of the first floor of building C, to the entire first floor of said building; that the first and second floors of this building, partly in residence and partly in a retail use district are occupied as offices, which is a business use and was originally established under Alt. Applic. 3997-1914 before the zoning ordinance was established; that the proposal will only replace a present non-conforming legal use; and

WHEREAS, the applicant contends that there are to be no signs on the building within the residence zone advertising the proposed use and therefore no indication to the community that such a use is being conducted; that as the outward residential character of the building is not being changed, the community will not be affected; and

WHEREAS, the applicant states that the present owners have held title to lot 1 since March 28, 1910; lot 76—December 5, 1945 and to lot 78 since January 15, 1951; that the assessed valuation of land is \$145,500 and of the buildings \$99,500 making a total of \$245,000; that the buildings were erected in 1913, 1927 and 1936; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c, to permit the inclusion of the existing building in connection with the lawfully existing uses in buildings to the west, to permit the continuance on the second floor for the use previously lawfully permitted, and to permit the use of extension of the first floor, substantially as indicated on plans filed with this application, marked "Received June 12, 1956," 5 sheets, *on condition* that there shall be no windows facing the yard and passageway to the street on the first floor, as indicated on plans marked "proposed conditions"; that the building shall not be increased in height or area and shall comply in all respects applicable thereto other than as modified this day by resolution adopted by the Board under Cal. 455-56-A; that all music shall be with stringed instruments only; that dancing shall be only in connection with weddings and social functions held on the premises; and that all permits required

shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

455-56-A

APPLICANT—Lama, Proskauer and Prober, for Park Utica Realty Corp., Anna Spiegel and Belle May Dattelbaum, owners.

SUBJECT—Application June 12, 1956—Appeal from a decision of the borough superintendent, re public occupancy, Class 3 construction, re exit stairs, etc.

PREMISES AFFECTED—1125-1137 Eastern parkway and 269-279 Utica avenue, northeast corner, Block 1391, Lots 1, 76 and 78, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klerert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated May 23, 1956, on Alt. App. 576/56 reads:

"2. The change of use from business to public occupancy, meeting rooms, of this 3 sty. Class 3 building is contrary to Sect. 4.2.1 of the Bldg. Code.

3. The exit stairs from the 2nd floor business use should be enclosed in 3 hr. partitions with all doors ¾ hr. fire resistive as required by Sect. 6.4.18.1 of the Bldg. Code."

and

WHEREAS, the applicant states the building is 1 and 2 stories, 14 and 32 ft. in height, 120 ft. by 90 ft. 7 in. in depth at street level; 28 ft. and 40 ft. front by 59 and 90 ft. in depth at typical floor level, Class 3 construction, erected in 1927, 1936 and 1913, on a lot 120 ft. front by 90 ft. 7 in. in depth, in a retail and residence use, B and C area, Class 1¼ height districts; used and occupied since 1913, 1927 and 1936: cellar—ordinary storage; 1st floor—stores, offices, dining room and restaurant, 350 persons; 2nd floor—offices, 52 persons; 3rd floor—one family dwelling; now proposed to be occupied: cellar—ordinary storage; 1st floor—stores, catering, meeting rooms, weddings, Bar Mitzvahs, music and dancing, 190 persons; 2nd floor—offices, 52 persons; 3d floor—dwelling, 1 family; that the building is provided with two 3 ft. 8 in. wide interior wood stairs, enclosed in partitions of wood studs, lath and plaster, equipped with wood doors; stairhall leads direct to street but not to roof; and

WHEREAS, Certificate of Occupancy 110161 issued March 31, 1944, against Alt. App. 8670/37 and P. A. App. 283/44 for premises 1131-1137 Eastern Parkway, north side, 40 ft. each of Utica avenue, Block 1391, lot 78, permits the following occupancy: cellar—storage; 1st floor—restaurant, 350 persons; and Certificate of Occupancy #103702 issued December 12, 1941 against B. N. 3123/41 for premises 1135-1137 Eastern parkway, north side, 80 ft. east of Utica avenue, Block 1391, lot 75, permits the following: cellar—ordinary use; 1st floor—offices; 2nd floor—offices; attic—one family; and

WHEREAS, the applicant states the premises are developed with three buildings; Building A is 2 stories, Class 3 construction, 40 ft. front by 90 ft. erected under N. B. 9413/27 for use as follows: cellar—ordinary use; 1st floor—store; 2nd floor—offices and Certificate of Occupancy #47343 issued thereon; that the building was altered under Alt. 375/31 and the use changed as follows: cellar—ordinary; 1st floor—seven stores; second floor—private business school and five offices, and Certificate of Occupancy #63124 issued for said uses; that the building was further altered under Alt. App. 3878/43 and the use changed as follows: cellar—ordinary; 1st floor—stores; 2nd floor—offices and no certificate of occupancy issued for said uses; that Building B is 1 story, Class 3, 40 ft. front by 90 ft., altered under Alt.

MINUTES

13618/36 for use of the 1st floor as a restaurant and certificate of occupancy #82754 issued for such use; later altered under B. N. 8670/37 and the use changed as follows: cellar—ordinary; 1st floor—restaurant and beauty parlor, for which certificate of occupancy #83579 was issued; and against altered under Alt. App. 3200/43 and the use changed to—cellar, store; 1st floor—restaurant and certificate of occupancy 110161 was issued for such use; that Building C is 2½ stories in height, Class 3, 28 ft. front by 120 ft. 4 in. in depth, erected under N. B. 2731/13 for use as a one-family dwelling, for which no certificate of occupancy was issued; that this building was altered under Alt. App. 3997/14 for use as follows: 1st and 2nd floor—offices; attic—one family, for which no certificate of occupancy was issued; and again altered under Alt. App. 9098/20 and the use changed to one family and doctor's office, without a certificate of occupancy and further altered under Alt. App. 8639/22 and its use changed to one family and medical treatment rooms, for which no certificate of occupancy was issued, and again altered under B. N. 3124/43 for use as follows: cellar—ordinary; 1st and 2nd floors—offices; attic, 1 family for which certificate of occupancy 103702 was issued; and

WHEREAS, the applicant states that the roof sign erected on Building A was erected under App. 1213/38; and that this building is now used and occupied as follows: cellar—ordinary; 1st floor—stores and dining room in conjunction with restaurant in Building B; 2nd floor—offices; Building B—cellar—ordinary; 1st floor—restaurant in conjunction with dining room in Building A; Building C—cellar, ordinary; 1st floor—offices; 2nd floor—offices; attic—one family and

WHEREAS, the applicant states it is now proposed to maintain the existing permissible uses of ordinary storage in cellars of Buildings A, B and C to maintain the present permissible use of stores, dining room, kitchen and restaurant on first floor of Buildings A and B and to change the use of 1st floor of Building C to meeting rooms, catering, weddings, Bar Mitzvahs, music and dancing and storage, and also proposed to use conjunctively the uses in Buildings A, B and C on the 1st floor; that the 2nd and 3d floors of Building C will be maintained as legally permitted for offices on 2nd floor and one family on the attic floor; that the frame extension on 2nd floor of Building C will be removed; it is proposed to maintain the existing 2nd floor use of Building A for offices and maintain the legal roof sign on this building; and

WHEREAS, the applicant contends as to Objection 2, that the portion of the building over 20 ft. in height will be occupied for the same uses, namely, offices on second floor and one family dwelling in the attic; that as these legal uses are not being changed on the upper stories, no greater hazard is introduced and the public use will be confined to the first floor, the ceiling of which is only 15 ft. above grade; and

WHEREAS, the applicant contends as to Objection 3, that the offices on the second floor are now legal as are the existing exits; that although a public use is being introduced into the first floor, no public use will be introduced into the upper floors, and therefore as the present legal offices will be maintained, the present exits are considered ample; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the decision of the borough superintendent, dated May 23, 1956, acting on Alt. App. 576-56, Objections 2 and 3, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, to permit the use of the building and the continuance of exits as enclosed and with doors, as proposed and shown on plans filed with the Board under Cal. No. 433-41-BZ, Vol. III, resolution as to which has been adopted this day; that in all respects the building shall comply with all laws and rules applicable other than as herein permitted; that the building shall not be increased in height or area other than as proposed; that such portable

fire fighting appliances shall be maintained as the Fire Commissioner shall require.

421-49-BZ—Vol. III

APPLICANT—Herman E. Horwood, for Frank and Anthony Lauria, owners.

SUBJECT—Application reopened February 21, 1956 as Vol. III—re (decision of the borough superintendent) under sections 7c and 7h of the zoning resolution, to permit in a business and residence use district, the proposed extension of a gasoline service station, office, car washing, lubritorium, parking and storage of more than 5 cars.

PREMISES AFFECTED—46-11 108th street and 108-01 47th avenue, northeast corner, Block 2002, Lot 18, Corona, Borough of Queens.

APPEARANCES—

For Applicant: Herman E. Horwood.

For Opposition: Edward Hoffman for Dep't of Parks.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert,

Commissioner Keating and Deputy Chief Connolly... 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on February 21, 1956, subject to regular procedure, to consider extension of use and area; and

WHEREAS, a public hearing was held on this application on November 7, 1956 after due notice by publication in the Bulletin; laid over to December 4, 1956, for inspection and decision; hearing closed; then to December 11, 1956, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in business and residence use, C and D area, class ¾ and class 1 height districts; 47th avenue is in business and residence use, C area, class ¾ and class 1 height districts; 108th street is in a business use, C area, class ¾ and class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated July 5, 1956 acting on Alt. Applic. 1313-56, reads:

"1. Premises is located partly in a residence and partly in a business use district. Proposed extension of gasoline service station, office, car washing, and lubritorium and parking and storage of more than 5 cars, by use of premises located in a residence use district, by use of premises located in a residence use district is contrary to Article II section 3 of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 375 ft. in depth, on which is located a gasoline service station, car washing, lubritorium, minor repairs, parking and storage of more than five cars; that it is proposed to secure a variance for a term of five years to permit the use of the vacant portion of this lot, which is zoned for business use for 100 ft. from 108th street, and the balance residence, to be used for parking and storage of more than five cars; and

WHEREAS, the applicant states that this entire square block was zoned unrestricted until May 1, 1936 at which time the 108th street front was changed to business, 1 time height and C area, and the balance of the frontage on 47th avenue and on 109th street was changed to residence use, with 1 time height and C area on 47th avenue and ¾ time height and D area on 109th street, but there has not been any new residential construction there; and

WHEREAS, the applicant contends that immediately adjoining to the north in block 2002, lot 1, is a storage garage, gas station and repair shop, and on the block to the south in block 2003, lot 1, is a gas station, motor vehicle repair shop with parking of cars granted by the Board under Cal.

MINUTES

No. 787-50-BZ; that directly north of the proposed parking area there is a motor vehicle repair shop in block 2002, lot 5 and lot 8 contains a garage; that on the south side of 47th avenue in block 2003, lot 6, is an ice distributing station; that directly across on 108th street, opposite the premises under appeal, is a truck garage, block 1990, lot 47, with storage and parking of trucks on lots 41 and 44; that there has been a steady increase in the ownership of automobiles in this neighborhood; that many of the small homes have no garage and those that exist are in many instances too small to accommodate the cars now being manufactured, and there is a demand for off street parking by many car owners; that the vacant balance of this plot facing 47th avenue, which has not been cut through or paved, is an eyesore to the neighborhood, and in spite of the owners to prevent it is used for unauthorized parking and dumping of rubbish; that there is to be no opening or driveway on 109th street which faces the rear of a playground which has its entrance near the northeast corner of 46th avenue and 111th street; that there is a service entrance to the playground on 109th street, which is kept closed with chain and lock; and

WHEREAS, the applicant states that the present owner has held title to the property since July 10, 1948 and July 14, 1953; that the assessed valuation of land is \$40,150 and of the building \$15,000 making a total of \$55,150; that the building was erected in 1928; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions c and h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Sections 7c to permit the premises to be occupied for the parking and storage of motor vehicles, as accessory to the existing gasoline station, but not as an extension of use thereof, substantially as proposed and indicated on plans filed with this application, marked "Received January 17, 1956", 3 sheets, "August 2, 1956", 1 sheet and "November 28, 1956", 1 sheet, *on condition* that all buildings and uses except the existing gasoline station on the 108 street portion of the plot shall be removed and the site leveled substantially to the grade of the abutting streets, surfaced with clean gravel or steam cinders treated with a binder and properly rolled; that there shall be erected on all lot lines except along the northerly line where buildings of adjoining premises occur and the portion occupied by the gasoline station, a woven wire fence of the woven wire chain link type not less than 5 ft. 6 in. in height with no openings therein to 109th street and no openings to 47th avenue nearer than 200 feet to the corner of 109th street; that there may be two openings to 47th avenue except in the distance proscribed with curb cuts opposite not over 15 ft. in width each; that the sidewalks and curbing abutting the site shall be constructed by this owner to the satisfaction of the Borough President; that signs shall be restricted to a permanent sign attached to the fence at the entrance of the parking lot portion of plot, advertising only the use, the rates charged and such other information as the commissioner of licenses may require; that such sign shall not exceed 15 sq. ft. in area, shall not be illuminated and shall not extend beyond the building line; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

298-50-BZ—Vol. II

APPLICANT—Lawrence M. Rothman, for Efram Realty Corp., owner.

SUBJECT—Application reopened April 24, 1956 as Vol. II—re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a business and residence use district, the proposed erection and maintenance of a 1 story extension to a business building which extends from business into residence use district.

PREMISES AFFECTED—326-328 East 149th street, south side, 222 ft. west of Courtlandt avenue and 325-331 East 148th street, Block 2330, Lot 30, Borough of The Bronx.

APPEARANCES—

For Applicant: Abraham Brandinger and M. A. Freeman.
For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings, C. J. Cammarata, N. Y. City Housing Authority and John I. Saunders, Board of Education.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-
ert, Commissioner Keating 3

Negative 0

Absent: Deputy Chief Connolly 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on April 24, 1956 subject to regular procedure, to consider extension of area; and

WHEREAS, a public hearing was held on this application on December 11, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in business and residence use, B area, class 1½ height district; East 149th street and East 148th street are in residence and retail use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated February 17, 1956 acting on Alt. Applic. 1104-55, reads:

"1. The proposed extension into the residence portion of a premises located partly in business and partly in residence district is contrary to Art. II Sect. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 75 ft. frontage by 193 ft. in depth, on which is located a one story building of class 3 construction, 75 ft. front by 193 ft. in depth, occupied as retail store and bank; that it is proposed to erect and maintain a one story extension 34 ft. by 75 ft. to existing building, which would extend from business into residence use district; and

WHEREAS, the applicant contends that the needs of the bank are increasing and in order that it may render the services necessary to its clientele, additional space is required; that the nature and design of the present structure makes it mandatory that an extension be over the area presently occupied as loading dock, fronting on East 148th street; that the drawings submitted indicate that the loading dock will be maintained, except that instead of an open area, it will be within the building; that the open loading dock had a disadvantage in that children have climbed over and broken the wall, gates and chain and been generally destructive in this area; that the proposed extension will eliminate this condition; that the 148th street front will be used as presently, for loading dock, entrance to service area and exits from both units of the building; that East 149th street is in a business use district and East 148th street in a residence use district; that prior to November 19, 1946 this plot was entirely in an unrestricted district; that the general use of East 148th street is still of a non-conforming nature; and

WHEREAS, the applicant states that the present owner has held title to the property since April, 1950; that the assessed valuation of land is \$70,000 and of the building \$110,000 making a total of \$180,000; that the building was erected in 1950; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

MINUTES

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e to permit for a term of twenty years the extension of the building occupied as a bank, substantially as proposed and as indicated on plans filed with this application marked "Received March 15, 1956", 3 sheets, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable to the building and occupancy; and that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the zoning resolution.

906-50-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Nathan Fisher, owner.

SUBJECT—Application reopened January 17, 1956 as Vol. II—re decision of the borough superintendent) under sections 7f, 7i and 7A of the zoning resolution, to permit in a retail use district, the proposed change of use from parking and storage of motor vehicles to auto showroom, new and used cars, gasoline service station, lubritorium, minor auto repairs, car washing, office and sales, storage, parking and storage of motor vehicles, proposed show windows, signs, curb cuts within 75 ft. of the residence use district.

PREMISES AFFECTED—8101-8111 3rd avenue and 302-312 81st street, southeast corner, Block 5997, Lots 7 and 11, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: A. Russmann.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on January 17, 1956 subject to regular procedure, based on alleged new facts, namely, lease with an automobile agency, Atlantic Packard Corporation, and new showroom for the agency; and

WHEREAS, a public hearing was held on this application on September 18, 1956 after due notice by publication in the Bulletin; laid over to October 30, 1956, at the request of applicant and objectors; no further requests for adjournment considered; then to November 20, 1956, for inspection and decision; hearing closed; then to December 11, 1956, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 3rd avenue are in a retail use, C area, class 1¼ height district; 81st street is in retail and residence use, C area, class 1¼ height districts; and

WHEREAS, the decision of the borough superintendent, dated September 15, 1955 acting on N.B. Applic. 2186-55, reads:

"1. The change of use from parking & storage of motor vehicles to auto showroom, new and used cars, gasoline service station, lubritorium, minor auto repairs, car washing, office and sales, storage, parking & storage of motor vehicles in a retail use district is contrary to Art. II, Sec. 4-A of the Zoning Resolution.

"2. The proposed signs, show windows and curb cuts facing 81st street are within 75'-0" of a residence use district and are contrary to Art. II, Sec. 7-A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 109 ft. 4 in. frontage by 100 ft. in depth, presently being used for the parking and storage of more than five

motor vehicles installed under application number 537-41 and granted by the Board under Cal. No. 215-42-BZ for a period of two years; that this use has been continued by permission of the department of buildings under certificate of occupancy No. 122853; that it is proposed to develop the site with an automobile show room for new and used cars and a gasoline service station consisting of ten 550 gallon gasoline storage tanks and six dispensing pumps; that the proposed auto showroom and accessory building will have a frontage of 68 ft., a depth of 55 ft., one story in height, of class 3 construction and will contain the conjunctive uses of car washing, storage, lubritorium and minor auto repairs; and

WHEREAS, the applicant states that as of July 25, 1916 the premises were in a business use district and the present use designation became effective October 15, 1954; and

WHEREAS, the applicant contends that the proposed automobile showroom is a permissible use in the retail zone and the proposed gas station, minor auto repairs and car washing are a natural conjunctive use to said auto sales; that 3rd avenue is a main auto lane leading across Brooklyn and coupled with the large home development in the area makes the proposal in keeping and as much a required service as any permitted local retail store would be; that there are sufficient stores now in the area for public requirements so that if the owner were to develop the site with additional stores, it would not only be financially unfeasible but would work a hardship on the present stores now in the affected area, in that vacancies would develop and the sales of the present stores would drop off; that the curb cuts as proposed on 81st street are required for the efficient operation of the showroom and gas station and cannot affect the residential aspect of said street to a greater extent than the many private curb cuts in front of the private dwellings now on said street; that the proposed sign on the accessory building sets 32 ft. back of the 81st street building line and the proposed show windows set 74 ft. back of the 81st street building line, so that these proposals cannot be seen from the residence zone on 81st street and therefore cannot affect said street; and

WHEREAS, the applicant states that the present owner has held title to the property since September 5, 1950 and that the assessed valuation of land is \$17,300; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of fifteen years, to permit the premises to be occupied as a gasoline service station and accessory uses, and automobile showroom for new and used cars, substantially as proposed and indicated on plans filed with this application marked "Received September 27, 1955" 4 sheets, *on condition* that the premises shall be leveled substantially to the grade of the abutting streets; that any structure or use now on the site shall be removed; that the accessory building shall be of the design and arrangement shown on such plans; that pumps shall be of a low approved type, erected not nearer than 15 feet to the street building line of 3rd avenue; that on the lot lines to the east where walls of adjoining buildings do not occur, there shall be erected a masonry wall not less than 5 ft. 6 in. in height and a steel picket fence erected on a masonry base 2 ft. in height, to total height of not less than 5 ft. 6 inches along the street line of 81st street for a distance of approximately 60 feet; that curb cuts shall be restricted to two curb cuts on 3rd avenue, each 30 ft. in width, located where shown, and one of similar width, on 81st street, within the first 25 ft. from the intersection, no curb cut to be nearer than 5 ft. to a street line as prolonged; that at

MINUTES

the intersection within the building line a block of concrete at least 12 in. in height, extending for 5 feet along each street shall be maintained; that sidewalks and curbing abutting the site shall be repaired or reconstructed to the satisfaction of the Borough President; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that the number of gasoline storage tanks shall not exceed ten 550-gallon approved tanks; that the premises where not occupied by accessory building, pumps and planting shall be paved with concrete or asphalt; that signs shall be restricted to permanent signs attached to the accessory building and the globes of the gasoline pumps, excluding all roof signs and temporary signs, but permitting the erection at the intersection of 81st street, a post standard facing 3d avenue may be erected, to support a sign, which may be illuminated, advertising only the brand of gasoline sold, and permitting such sign to extend beyond the building line not more than 4 feet; that under section 7i there may be minor repairing with hand tools only for adjustments, maintained solely within the accessory building; that under section 7h for a similar term, there may be parking of cars, provided same are so parked as not to interfere with the servicing of the station; that under Section 7A, any uses contrary thereto are hereby permitted; that working drawings of accessory buildings and arrangement of the site shall be re-studied and submitted within three months from this date; that there shall be no windows in the accessory building on the east or south; and that all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

602-51-BZ—Vol. IV

APPLICANT—Robert Gottlieb, for Hermany Realty Corp., owner.

SUBJECT—Application reopened September 18, 1956 as Vol. IV—re (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence use district, the proposed erection of a loading platform in parking lot; proposed installation of ice machine and cooling tower on roof of west building; proposed relocation of two gasoline tanks and pump from inside of building to parking lot and proposed omission of west portion of proposed extension which is contrary to resolution of the Board of Standards and Appeals Cal. 602-51-BZ Vol. III.

PREMISES AFFECTED—2338 Hermany avenue, south side, 341 ft. west of Zerega avenue, Block 3697, Lots 19, 21 and 25, Borough of The Bronx.

APPEARANCES—

For Applicant: Robert Gottlieb and William Schwartz.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Conolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. IV on September 18, 1956 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on November 27, 1956 after due notice by publication in the Bulletin; laid over to December 11, 1956 for inspection and decision; in connection with Cal. Nos. 1016-55-BZ and 1017-55-BZ; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, E-1 area, class ½ height district; Hermany avenue and Turnbull avenue are in business and residence use, F-1 area, class ½ height districts; and

WHEREAS, the decision of the borough superintendent, dated July 2, 1956 acting on Alt. Applic. 295-52, reads:

"1. Proposed omission of west portion of proposed extension is contrary to the resolution of the Board. Cal. 605-51-BZ. Bul. 52, Vol. 37.

2. Proposed erection of a loading platform to be used in conjunction with an existing non-forming use in a residence use district is contrary to Art. 2, Sec. 3 of the Z.R.

3. Proposed installation of ice machine and cooling tower on the roof of the west bldg. is contrary to Art. 2 Sec. 3 of the Z. R.

4. Proposed removal of two gasoline tanks and pump from inside of bldg. (legal non conforming use) to new location on parking lot and the installation of two additional gasoline tanks in a Residence use district is contrary to Art. 2, Sec. 3 of the Z. R."

and

WHEREAS, the applicant states that the premises consist of a plot, 183 ft. frontage by 206 ft. in depth, consisting of a 75 ft. by 103 ft. two story and cellar building on plot 75 ft. by 206 ft. used as a milk pasteurization and bottling and distribution plant, and an adjoining plot to the west 108 ft. by 206 ft. used as a parking lot and motor vehicle repair shop for milk delivery trucks; and

WHEREAS, the applicant states that the building was erected in 1931 when the zone was unrestricted, and since then the zone has been changed many times and is now residence, E-1, ½ zone; that however, the character of the neighborhood has not changed since 1931; and

WHEREAS, the applicant states that the present owners bought the milk plant in 1951 and as soon afterwards the adjoining land to the west (lots 19 and 21) for proposed parking and storage of their milk delivery trucks; that an application was made with the Board and a variance granted under Cal. No. 602-51-BZ, Vol. I on February 13, 1952 to allow the proposed parking for a period of three years, subsequently extended for five more years in 1955; that on September 16, 1952 the above calendar number was reopened as Vol. II and the Board granted variance under 7c to allow the vertical extension of the one story wing to the east for offices and the one story wing to the west for storage; that on June 12, 1956 acting on Vol. III the Board granted for a term of about four years permission to alter and extend the four car garage on the parking lot into a motor vehicle repair shop for owners' milk delivery trucks; that this application is a request for an amendment to Vol. II; that the east portion was completed and a temporary certificate of occupancy No. 12501 was obtained on June 15, 1953; that the west portion extension was not erected (see Alt. Applic. 295-52, Obj. Item No. 1), but an ice machine and cooling tower erected instead (see photo No. 1 and Obj. Item No. 3); that the owners request at this time a further variance under section 7c to allow the change as noted above and the proposed removal of the interior loading platform and driveway in the first floor west portion, and the removal of the gas pump and two gas tanks from this driveway; that they wish to substitute for this an outside loading platform along the west wall on the parking lot (see Alt. 295-52, Obj. Item No. 2), and install two pumps and four tanks on the parking lot (see Obj. Item No. 4); and

WHEREAS, the applicant contends that the following explanation of the present and proposed cycle of operation at the plant will show the Board that the proposed outside loading would be quieter and better for the neighborhood than the present setup; that the pasteurization of milk is finished about 5 p. m. daily; that the 60 or 70 milk delivery trucks now parked on the lot are driven through the gate onto Hermany avenue into the west loading bay and loaded up with milk and gasoline and returned to the lot; that this operation takes place daily from about 6 p. m. to 2 a. m. in the morning; that the milk drivers appear about 4 a. m., take their trucks out of the lot and proceed on their way; that this method produces two waves of traffic and noise all night long; that the proposed method would be as follows: the erection of a loading platform outside and in the parking lot (discontinuing the interior loading and gassing up),

MINUTES

would allow the loading of the milk delivery trucks without driving out on the street (the Board granted permission in Vol. III to replace the woven wire fence at front on Hermany avenue with a masonry wall); that this would be a much quieter and quicker operation and would benefit both the neighbors and the owners; that the installation of four gas tanks on the lot to replace the two tanks proposed to be removed from the building would lessen the fire hazard and would also make for quieter operations; and

WHEREAS, the applicant states that the present owner has held title to the property since April 6, 1951; that the assessed valuation of land is \$13,100 and of the buildings \$48,900 making a total of \$61,000; that the buildings were erected in 1931 and 1937; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on February 13, 1952, as thereafter amended by resolutions adopted through June 12, 1956 by adding thereto:

"that the alteration, as proposed, to the existing building and the removal of two gasoline tanks and pumps from inside the building to a space outside the building, where shown on plans filed with this application marked 'Received July 24, 1956', 5 sheets, may be permitted where not inconsistent with the resolution above referred to; that such resolution shall be complied with other than as herein amended; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

757-53-BZ—Vol. II

APPLICANT—Paul Friedman, for Morris and Israel M.

Dolgin, owners (Cornell Paper and Box Co., Inc., lessee).

SUBJECT—Application reopened January 17, 1956 as Vol.

II—re (decision of of the borough superintendent) under sections 7e and 19A(j) of the zoning resolution, to permit in a residence use district, the proposed change in occupancy from public garage for more than 5 motor vehicles on 1st and 2nd floors to office, storage of new paper stock and twine on first floor and storage of new paper stock and manufacturing of paper boxes on 2nd floor, with less than the required loading area.

PREMISES AFFECTED—664-666 Halsey street, south side, 200 ft. west of Patchen avenue, Block 1667, Lot 32. Borough of Brooklyn.

APPEARANCES—

For Applicant: Paul Friedman.

For Opposition: Z. Brinkley, E. M. Quarterman, Z. F. Dixon, Ruth Leach, F. Beckles, Virginia Foeman, Gladys Duggins and Philip Cohen.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Keating and Deputy Chief Con-
nolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on January 17, 1956 subject to regular procedure, to consider a new proposal, previously withdrawn; and

WHEREAS, a public hearing was held on this application on October 23, 1956 after due notice by publication in the Bulletin; laid over to November 14, 1956, for inspection and decision; hearing closed; then to December 11, 1956, for decision; and for statements to be filed by objector as to parking and garage facilities in the area, and by applicant as to rent; the premises and area were previously inspected by a Committee of the Board; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Halsey street and Patchen avenue are in a residence use, C area, class 1 height district;

and

WHEREAS, the decision of the borough superintendent, dated August 9, 1956 acting on Alt. Applic. 4073-55, reads:

"1. Proposed change of occupancy from public garage for more than 5 cars on 1st & 2nd floors, to office, storage of new paper stock & twine on 1st floor and storage of new paper stock & mfg. of paper boxes in a bldg. located within a residence use district, is contrary to Art. 2, Sect. 3 of zone resolution.

2. Loading area to comply fully as to requirements under Sect. 19A(h) of zone resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 ft. frontage by 100 ft. in depth, on which is now located a public garage for more than five cars, two stories in height, 50 ft. front by 98 ft. 6 in. in depth; that it is proposed to obtain a new certificate of occupancy to permit the building to be occupied as follows: cellar—boiler room and coal storage, no persons; 1st floor—office and storage of new paper stock and twine, 2 persons; 2nd floor—manufacture of paper boxes and storage of new paper stock, 3 persons; and

WHEREAS, the applicant states that originally, a one story building was constructed under N.B. Applic. 2001-1905, 25 ft. front by 90 ft. in depth, on a plot 25 ft. front by 100 ft. deep, located 225 ft. west of Patchen avenue for occupancy as automobile storage; that under N.B. Applic. 4032-1906 a one story structure, 13 ft. wide and 10 ft. deep was constructed to be used as a boiler room in conjunction with the existing garage building; that under Alt. Applic. 923-1907 the building was extended in height by the addition of a second story for use as a garage; that under Alt. Applic. 5046-1909 the building was extended in area on its easterly side 25 ft. front and 100 ft. deep, two stories, 30 ft. in height, the entire building to be used as a garage; that on July 5, 1929 certificate of occupancy No. 56809 was issued for a public garage for more than five cars (live loads shown as 120 lbs.); that on July 25, 1947 the premises was used for the storage of matches; that the Board, under Cal. No. 705-47-A, denied an appeal from a decision of the fire commissioner, which ordered the occupant to reduce the quantity of matches stored to a quantity of not more than 60 matchman's gross (14,400 matches in each gross); that on March 30, 1948 the Board, under the same calendar number voted to reopen the appeal subject to regular procedure; that on September 14, 1948 the appeal was withdrawn to permit the filing of an application for a zoning variance for change from garage use in a residence use district; that on October 15, 1953 an application was filed under Cal. No. 757-53-BZ, similar to the instant application, and an appeal was also filed under Cal. No. 758-53-A for a variance from the exit requirements; that on November 16, 1954 the application and the appeal were withdrawn after the then tenant vacated the premises; that on September 1, 1954 a 10 year lease was made with new tenants for use of the subject premises as a public garage in accordance with the certificate of occupancy; that the garage tenants remained in possession approximately 7 months and were dispossessed after failing to pay rent for a period of four months; that thereafter the premises was vacant for several months during which time vandals caused considerable damage to the property; that on September 1, 1955 the premises was leased for five years, to the present tenant, who had occupied the building at the time the previous application for a zoning variance was made; that the premises is now occupied as follows: cellar—boiler room and coal storage—no persons; 1st floor—storage of new paper stock and twine and office—2 persons; 2nd floor—manufacture of paper boxes and storage of new paper stock—3 persons; that zoning violation No. 158-55 issued September 28, 1955 is pending in the building division in that no certificate of occupancy has been secured for the present occupancy; and

WHEREAS, the applicant contends that there is no economic demand for use of the subject premises for a public garage use as the residents of the neighborhood either keep their

MINUTES

cars in the street or in the nearby parking lots; that there is an economic demand for the proposed use as indicated by the fact that the owners have a tenant for such use; that the proposed use is of a kind that is a conforming use in a business, retail and restricted retail district while the public garage use is a conforming use only in a manufacturing or unrestricted use district; that the proposed use will not impede pedestrian and vehicular traffic because it will provide an off street loading berth and because it will involve less frequent crossings of the sidewalk than a public garage use; that the proposed use does not involve the storage of gas and oil; that the proposed manufacturing at the subject premises is limited to 5% of the building's total floor space and is limited to the cutting, stapling and assembling of paper stock to form paper boxes; that such manufacturing is occasional rather than steady, and has no adverse effect upon the neighborhood since it creates neither odors, dust, smoke nor gas nor noise; that the manufacturing operations are conducted by not more than three employees, and usually a lesser number; and

WHEREAS, the applicant further contends that only 63% of the Halsey street frontage between Patchen and Reid avenues is zoned and used for residence uses, while 37% of the frontage is zoned or used for other than residence use; that the block is 760 ft. long making a total frontage of 1,520 ft. on both sides of Halsey street and the four corners are zoned for business use for 100 ft., making a total of 400 ft. zoned for business use; that within the residence use district, there are three non-residence uses: two parking lots having frontages of 125 ft. and 50 ft. and the subject premises with a frontage of 50 ft., making a total of 175 ft. of residence use frontage used for other than residence purposes; that the character of the neighborhood would not be affected or changed by the granting of this application; that at premises 670-674 Halsey street, block No. 1667, Lot 35, 18 ft. east of the subject premises, granted by the Board on July 22, 1932 under Cal. No. 215-32-BZ, and thereafter extended from time to time, for which temporary certificate of occupancy No. 107700 has been issued to expire March 15, 1954; that at premises 625 Halsey street, block No. 1662, lot Nos. 59, and 61, directly opposite the subject premises, there are a two story brick stable, a one story frame shed and a lot used for parking and storage of more than five motor vehicles; and

WHEREAS, the applicant further contends that the application conforms to the spirit of the law in that it is proposed to maintain an off street loading berth which complies with the requirements of section 19A(h) as to size and height of the loading area; that the only variation sought is to permit the continued maintenance of the existing entrance door 10 ft. in width instead of the required 12 ft. in width; that the premises was originally constructed and used for the storage of automobiles and trucks and the existing 10 ft. wide entrance door is of sufficient size to accommodate and facilitate entrance to and egress from the off street loading area for most trucks and delivery vehicles, so that there is substantially no loading or unloading at the curb; that to require the applicant to conform strictly to the width requirements for unloading berths would impose practical difficulties and unnecessary hardship upon the owner by requiring costly structural alteration of the building, benefiting no one and it is therefore requested that the Board grant a variation for the unloading berth so as to permit the maintenance of the existing entrance and exit to the required off street loading area, subject to such conditions as the Board may deem appropriate; and

WHEREAS, the applicant states that the present owner has held title to the property since July 25, 1944; that the assessed valuation of land is \$5,500 and of the building \$29,500 making a total of \$35,000; that the building was erected in 1905; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the matter has been given careful study; the committee is of the opinion there is no use presumably for the building as a garage; that the owner is entitled to some use of his building and

recommended the application be granted for a term of two years; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e and Section 19A, sub. j of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of two years, to permit the existing building to be occupied as proposed for the storage of new paper stock and twine, as shown on plans filed with this application, marked "Received December 15, 1955", 3 sheets, and "February 14, 1956", 1 sheet *on condition* that the building shall not be increased in height or area; that such fire-fighting equipment shall be installed as the fire commissioner shall direct; that under Section 19A, subdivision j, all loading and unloading shall be within the building, using the existing doors formerly used for the garage, as shown on such plans in lieu of an unloading berth; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto except as modified by the Board this day under Cal. 758-53-A, Vol. II, and that all permits required, including a certificate of occupancy shall be obtained and all work completed within three months from the date of this resolution.

758-53-A—Vol. II

APPLICANT—Paul Friedman, for Morris and Israel M. Dolgin, owners (Cornell Paper and Box Co., Inc., lessee).

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated August 9, 1956, on Alt. App. 4073/55 reads:

"3. Provide exits from 1st & 2nd floors that comply with Sect. 270 of the Labor Law."

and

WHEREAS, the applicant states the building is 2 stories, 25 feet in height, 50 ft. front by 98 ft. 6 in. in depth, of Class 3 construction, erected in 1905 in a residence use, C area, Class 1 height district; used and occupied: since September 1955 as follows: 1st floor—public garage for more than 5 cars; 2nd floor—public garage for more than five cars, pursuant to Certificate of Occupancy No. 56809 issued July 5, 1929 against Alt. permit 7598/28; and

WHEREAS, the applicant states that under N.B. 2001/1905, a one-story building 25 ft. front by 90 ft. in depth was erected for use as "Automobile storage"; that under N.B. 4032/06 a one-story building 13 ft. wide 10 ft. deep was constructed as a boilerroom for the garage building; that under Alt. App. 923/07 the building was extended in height by addition of second story for use as a garage; that under Alt. App. 5046/09 the building was extended on its easterly side 25 ft. front by 100 ft. deep, such extension was 2 stories, 30 ft. in height and the entire building was proposed to be used as a garage; that Certificate of Occupancy 56809 was issued in 1929 for a public garage for more than five cars;

MINUTES

and

WHEREAS, the applicant states the building is actually used as follows: cellar—boilerroom and coal storage, 0 persons; 1st floor—storage of paper stock and twine and office, 2 persons; 2nd floor—manufacture of paper boxes and storage of paper stock, 3 persons; and that the building is equipped with a fireproof, enclosed stairway 4 ft. wide from 2nd floor to street, equipped with 1-hour fireproof, self-closing doors and a 3 ft. wide fire escape with drop ladder to street on the front; that there is a concrete stairway from cellar to street, covered by a ventilated steel cover at sidewalk level; and

WHEREAS, the applicant states it is now proposed to obtain a certificate of occupancy for the present use and occupancy; and

WHEREAS, the applicant contends the existing exit facilities will adequately safeguard the occupancy of the building; that the level of the second floor is only 14 ft. above the sidewalk; that the occupancy of the first floor is limited to two persons and no manufacturing is conducted therein; that the occupancy of the second floor is limited to three persons and only a small portion used for manufacturing which is limited to the cutting, stapling and assembling of paper stock to form paper boxes; that such manufacturing is occasional rather than steady; that in a 2-story commercial building of approximately the same area with an occupancy of up to fifty persons a single stairs is considered adequate. It is therefore requested that this appeal be granted subject to such conditions that the Board may deem necessary; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the borough superintendent, acting on Alt. App. 4073/55, Objection No. 3 and that the appeal be and it hereby is *granted*, to permit the existing exits, as proposed and indicated on plans filed with this appeal, marked "Received December 15, 1955", 2 sheets, *on condition* that the number of persons occupying the second floor shall not exceed three; and that the requirements of the resolution adopted by the Board this day under Cal. No. 757-53-BZ, Vol. II shall be complied with.

740-54-BZ

APPLICANT—Herman Kron, for Michael Berg, owner.

SUBJECT—Application October 4, 1954—re (decision of the borough superintendent) under sections 7f, 7e and 7i of the zoning resolution, to permit in a business and residence use district, the proposed reconstruction of a gasoline service station, auto repairs, parking and storage for more than 5 motor vehicles.

PREMISES AFFECTED—587 Kings highway, north side, 5.11 ft. west of Ocean parkway, Block 662, Lot 37, Borough of Brooklyn.

APPEARANCES—

For Applicant: Herman Kron.

For Opposition: Edward Hoffman for Dept. of Parks.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 14, 1956 after due notice by publication in the Bulletin; laid over to December 11, 1956, for further consideration after records have been obtained from the Department of Buildings and the Fire Department; applicant to file certified copy of actual lot in possession; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Kings highway are in residence and business use, C area, class 1 height districts;

Ocean parkway is in a residence use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated September 16, 1954 acting on Alt. Applic. 2946-54, reads:

"1. Gas station, auto repairs, parking and storage of more than 5 motor cars, is contrary to Art. II Sects. 3 & 4A of Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 144.23 ft. frontage by 79 ft. 11 $\frac{3}{4}$ in. in depth, irregular, on which is located a gasoline service station; that it is proposed to extend use of gasoline service station into the residence use portion of the plot; and

WHEREAS, the applicant contends that this gas station was established prior to 1925 and has been so used since then; that being that premises is partly in residence and partly in a business district, the balance of same which is not in use, is of a peculiar shape and cannot be used for any other purpose, especially as a conforming use; and

WHEREAS, the applicant states that the present owner has held title to the property since January 15, 1930; that the assessed valuation of land is \$51,000 and of the building \$60,000 making a total of \$111,000; that the building was erected in 1930; and

WHEREAS, certificate of occupancy No. 73604, dated June 7, 1934 was issued for auto laundry, office, lubritorium and 2-car garage; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted under certain conditions.

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e and f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit extension of the area, substantially as proposed and as indicated on plans filed with this application marked "Received October 4, 1954", 2 sheets, and "September 24, 1956", one sheet, *on condition* that all uses on the premises not proposed to be retained shall be removed and the premises shall be reconstructed and rearranged as indicated on such plans; that the entire premises where not occupied by the accessory building and pumps shall be paved with concrete or asphaltic pavement; that the sidewalks and curbing abutting the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that along the rear lot line there shall be erected a woven wire fence of the chain link type not less than 5 ft. 6 in. in height on a masonry base; that curb cuts shall be restricted to four curb cuts as shown, two of 30 feet in width and two 20 ft. in width; that curb cuts shall be rearranged so that no curb cuts shall be nearer than 30 ft. from the Ocean Parkway building line as projected; that the existing pumps and tanks may be continued provided that the tanks are tested by the Fire Commissioner and found to be in usable condition; that signs shall be restricted to the existing signs on the building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs and requiring the removal of the existing roof sign; that there shall be no sign erected within 30 ft. from the building line of Ocean Parkway; that any signs now existing within such 30 ft. shall be removed; that under Section 7i there may be minor repairing within the accessory building for adjustments only with hand tools; and that all permits shall be obtained and all work completed within six months from the date of this resolution.

resolution, to permit in a residence use district, the proposed erection of storage garage for owners' trucks and mechanical equipment in conjunction with existing buildings and uses, such as storage shed, 4 car garage, one 550 gallon buried gasoline tank, one approved pump and two dwellings.

PREMISES AFFECTED—1351-1399 Allerton avenue, north side, from Fish avenue to Seymour avenue, 2700-2710 Fish avenue and 2701-2707 Seymour avenue, Block 4530, Lots 1, 2, 4, 6 and 8, Borough of The Bronx.

APPEARANCES—

For Applicant: James E. Vassalotti.

For Opposition: Leo S. Marcus.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 14, 1956 after due notice by publication in the Bulletin; laid over to December 11, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Fish avenue and Seymour avenue are in a residence use, D and D-1 area, class 1 and class ½ height district; Allerton avenue is in residence and local retail use, D and D-1 area, class 1 and class ½ height districts; and

WHEREAS, the decision of the borough superintendent, dated July 20, 1955 acting on N. B. Applic. 1067-55, reads:

"1. Proposed erection of a storage garage for owners' trucks and contractors mechanical equipment with existing legal bldgs. and uses as follows: storage shed, 4 car storage garage, 1-550 gal. buried gasoline tank, 1 approved pump and two (2) dwellings on same lot and occupied by same owner on a plot located in a Residence use district is contrary to Art. 2, Sec. 3 of the Z. R."

and

WHEREAS, the applicant states that the premises consist of a plot, 200 ft. frontage by 100.16 ft. in depth, presently developed with seven buildings; that building No. 1 is one story in height of class 3 construction, with a frontage of 48 ft. 10 in. and a depth of 26 ft. 4 in., erected under N. B. 604-1938 and certificate of occupancy No. 7705-1950 was issued for use as storage shed and is being used for the storage of mechanical equipment; that building No. 2 is one story in height of class 3 construction, with a frontage of 48 ft. 6¾ in. and a depth of 22 ft. 6½ in., erected under N. B. 233-1927 and certificate of occupancy No. 444-1938 was issued for use as a four car storage garage and is so being used; that building No. 3 is two stories in height, 23 ft. 2¼ in. and 46 ft. 11½ in., of class 3 construction, erected under N. B. 2842-1921 as a one family dwelling and is so being used; that no certificate of occupancy was issued; that building No. 4 is one story in height, 22 ft. 2½ in. by 58 ft., of class 4 construction, erected under N. B. 3131-1922 for use as a dwelling and is so being used and for which no certificate of occupancy was issued; that no records have been found in the department of buildings for buildings Nos. 5, 6 and 7; that the one 550-gallon gasoline tank and pump were installed under fire department application No. 4195-1937 and fire department plan No. 829-1937; that fire department permit was issued in conjunction with building No. 2, certificate of occupancy No. 444-1938; that it is proposed to maintain the present legal uses of building Nos. 1, 2, 3 and 4, demolish buildings Nos. 5, 6 and 7 and secure a variance in order to erect a new building, one story in height, of class 3 construction, having a frontage of 50 ft. and depth of 50 ft. for use as storage of owners' trucks and contractors' mechanical equipment; that the open area will also be used for storage of owners' trucks and contractors' mechanical equipment; that it is further proposed

to install one 550-gallon diesel oil tank inside of the proposed building with two approved type pumps, for owners' use only; and

WHEREAS, the applicant states that the premises are located in a residence use district; that part of the premises within 100 ft. of Allerton avenue is in a class ½ height district and a class D-1 area district; that the balance of the premises is in a class 1 height district and a class D area district; that as of July 25, 1916 that part of the premises within 100 ft. of Allerton avenue was in a business use district and the balance of the plot was in a residence use district; that as of July 25, 1916 the premises were in a class C area district and a class 1 height district; that the present use, height and area designations were received on July 20, 1942; and

WHEREAS, the applicant contends that inasmuch as the same uses legally exist in the present buildings, it is only proposed to extend said uses to the balance of the site; that a woven wire fence 5 ft. 6 in. in height will be constructed around the new uses and entrance and exit will be confined to one 16 ft. wide gate facing Allerton avenue; that the owners of the site live in the two dwellings now on said site; that the removal of buildings 5, 6 and 7 and the erection of the new proposed building in a modern manner will do much towards improving the entire community; and

WHEREAS, the applicant states that the present owners have held title to lots 1 and 2 since May 24, 1952; lot 4—March 24, 1947; lot 6—August 10, 1920; lot 8—August 9, 1940; that the assessed valuation of land is \$12,400 and of the buildings \$10,100 making a total of \$22,500; that the buildings were erected in 1938; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should not be granted; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivision c of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on N.B. App. 1067-55, Objection No. One be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

652-55-BZ

APPLICANT—John F. Fitzsimons, for Mohawk Valet Service Inc., owner.

SUBJECT—Application August 4, 1955—(decision of the borough superintendent) under sections 7b, 7c and 7e of the zoning resolution, to permit in a retail and manufacturing use district, the change of occupancy from garage to storage, manufacturing, dry cleaning and parking of motor vehicles on unbuilt upon portion of the premises; proposed access to factory across retail use district portion of premises.

PREMISES AFFECTED—219-42 Jamaica avenue, south side, 176 ft. east of Springfield boulevard, Block 10789, Lot 27, Queens Village, Borough of Queens.

APPEARANCES—

For Applicant: John F. Fitzsimons and Michael Giunta.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 11, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in retail and manufacturing

MINUTES

use, D and B area, class ½ height districts; Jamaica avenue is in retail and residence use, D and B area, class ½ height districts; Springfield boulevard is in retail, residence and unrestricted use, D and B area, class ½ height districts; and

WHEREAS, the decision of the borough superintendent, dated August 11, 1955 acting on Alt. Applic. 1300-55, reads:

"1. Proposed access to a factory across a Retail Use District is contrary to Art. II Sec. 4-A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 10.73 ft. frontage by 220.10 ft. in depth, irregular, on which there is an existing building constructed under N.B. 12012-22 for use as a garage; that under Alt. Applic. No. 8-50, dry cleaning was added to the uses; that it is now proposed to use the premises for storage, manufacturing, dry cleaning and the parking of motor vehicles in the open; and

WHEREAS, the applicant states that as of July 25, 1916 the property was zoned as an unrestricted district, except for the portion within 100 ft. of Jamaica avenue and west of the center line of 219th Place as formerly mapped, which was located in a business district; that on April 28, 1927 the business district was extended to include the portion of the property north of the center line of 96th avenue as formerly mapped; that on January 21, 1947 the portion of the property north of the center line of 96th avenue as formerly mapped was placed in a retail district and the remainder was placed in a manufacturing district; that the present use zoning pattern became effective on October 15, 1947; that as of July 25, 1916 the property was zoned as a one times height district and a C area district; that the present height and area designations became effective on June 30, 1952; and

WHEREAS, the applicant contends that this is an application for a variance of the zoning resolution so as to permit the use of the retail portion of a plot located partly in retail and partly in manufacturing use districts, as an easement to and from the manufacturing uses on the rear of the premises; that because of the change in occupancy, the building department refuses access over the retail portion of the premises without a variance from the Board; that in view of the foregoing, it is requested that this application be granted; and

WHEREAS, the applicant states that the present owner has held title to the property since September 1, 1948; that the assessed valuation of land is \$12,800 and of the building \$13,000 making a total of \$25,800; that the building was erected in 1922; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit the extension of use into the more restricted district, consisting of a driveway as proposed as access to the building located at the rear of the lot, and as shown on plans filed with this application marked "Received August 4, 1955", 3 sheets, *on condition* that such portion of the plot shall be used solely as proposed and permitting a curb cut at the street line as now exists provided there is a proper license for such curb cut; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

658-55-BZ

APPLICANT—Leonard F. Rothkrug, for 1982 Bergen Realty Corp., owner.

SUBJECT—Application August 4, 1955—re (decision of the borough superintendent) under section 7e of the zon-

ing resolution, to permit in a business use district, the proposed change of occupancy from a wet wash laundry, boiler room and office, to dyeing of cashmere, synthetic fibre and natural fibre, office and boiler room and meat preserving, including smoking.

PREMISES AFFECTED—1980-1990 Bergen street, south side, 225 ft. west of Hopkinson avenue, Block 1453, Lots 26, 29 and 30, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug and Henry J. Schlosser.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 16, 1956 after due notice by publication in the Bulletin; laid over to December 11, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolutions show that the site and Bergen street and Hopkinson avenue are in a business use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated August 29, 1956 acting on N.B. Applic. 98-56, reads:

"1. Proposed conjunctive use with a bldg. which is used for dyeing of cashmere, nylon, natural and synthetic fibers at 1988 Bergen St. violates Art II, Sect. 4-a subd. 11 of the Zone Resolution."

and

WHEREAS, the decision of the borough superintendent, dated August 31, 1956 acting on Alt. Applic. 606-56, reads:

"1. Proposed occupancy for preserving meat and rear portion of building to be used for dyeing of cashmere, nylon, natural and synthetic fibers to be used in conjunction with premises at 1980-86 Bergen St. and 1990 Bergen St. is contrary to Article II, PP. 4a subsection 11 of the Zoning Resolution."

and

WHEREAS, the decision of the borough superintendent, dated July 8, 1955 acting on Alt. Applic. 1491-55, reads:

"1. Proposed change of occupancy from a wet wash laundry, boiler room & office to dyeing of cashmere, nylon & natural & synthetic fibers, office & boiler room in a bldg. located within a business use district, is contrary to Art. 2 Sect. 4a-11 of the zone resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 125 ft. front on Bergen street by 127 ft. 9½ in. in depth, on which are located three buildings presently used conjunctively by the owner for the dyeing of cashmere, nylon, natural and synthetic fibers, with part of one building being occupied by a tenant for the preparation and preserving of meats; that the present owner initially occupied the building at 1980-1986 in block 1453, lot 26, which consists of a one story building, 14 ft. in height, 75 ft. front on Bergen street by 125 ft. 3½ in. and 126 ft. 3½ in. in depth, irregular, erected in 1928 of class 3 construction under N.B. 12236-28, and certificate of occupancy No. 53530 was issued November 8, 1928 as a "private garage—not more than 4 cars", altered in 1930 under Alt. Applic. 8981-30, approved October 7, 1940, work completed April 18, 1931 and certificate of occupancy No. 63644 was issued for wet wash laundry—30 persons; that the premises was used for a wet wash laundry from 1931 until 1953, at which time the present owner became a tenant of the then owner, New Leader Laundry, Inc.; and

WHEREAS, the applicant contends that the present owner had leased the premises and installed its equipment at great cost and expense believing that the nature of the use and

MINUTES

the similarity of equipment was in accordance with the certificate of occupancy as a wet wash laundry; that immediately upon being served with the notice of violation the application for a variance was initiated; that at the time this application was filed, the present owner held a lease on the rear portion of the adjoining building at 1988 Bergen street and proposed to discontinue this lease and vacate the premises; that the present owner purchased the vacant plot at 1990 Bergen street, block 1453, lot 30, and proceeded to erect a one story building under N.B. 98-56 for storage use, a conforming use within the business use district; that however, on June 5, 1956 the owner purchased 1988 Bergen street, block 1453, lot 29, the building separating the one initially leased and the one newly erected, and now proposes to use the three buildings conjunctively; that the front portion of the building known as 1988 Bergen street is subject to the lease of the Brooklyn Veterans Provisions, Inc., and is used for the preparation and preserving of meats; that certificate of occupancy No. 93179 issued August 18, 1939 reads "establishment to prepare and preserve meats—note no smoking of meats nor any fat rendering will be done on premises"; that the tenant proposes to continue this occupancy in accordance with the certificate of occupancy except that it proposes to smoke meats as part of the preservation of meat; that no fat rendering will be done on the premises; that the use of the premises by the tenant is a conforming use in the business use district; that the storage use in the building at 1990 Bergen street is likewise a conforming use in a business use district and it is not proposed to do any processing or dyeing in this newly erected building; that this appeal deals principally with the building known as 1980-1986 Bergen street; that the legal use of the building is as a wet wash laundry and said use was established at a time when it was a conforming use in a business use district; that the machines used for dyeing and processing of cloth materials are of the same general nature and character of those formerly used in the laundry; that the proposed uses do not adversely affect the neighborhood; that regular tests are made checking the dispersion of chemical fumes in the atmosphere and all have proved negative; that an intricate system is in use trapping all fumes and only a small quantity of chemicals is stored on the premises; that the premises are entirely located within a business use district and a factory use is a permitted use; that all work is conducted within the premises; and

WHEREAS, the applicant states that the present owner has held title to lot 29 since June 5, 1956; lot 26, August 4, 1955; lot 30, January 19, 1956; that the assessed valuation of land is \$14,000 and of the building \$51,000 making a total of \$65,000; that the building was erected in 1928; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7e for a term of ten years, to permit the uses as proposed and indicated on plans filed with this application, marked "Received September 4, 1956", 4 sheets, on condition that the buildings shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; that such fire-fighting equipment shall be installed as the fire commissioner shall direct; that the separation of uses as proposed shall be by a masonry wall and fireproof doors, as indicated on such plans; and that all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

713-55-BZ

APPLICANT—Meyer Kraushaar, for Cohen-Kraushaar Realty Corp., owner.

SUBJECT—Application September 14, 1955—re (decision

of the borough superintendent) under section 7e of the Zoning resolution, to permit in a residence use district, the erection and maintenance of a gasoline service station, lubritorium, minor repairs (hand tools only), auto washing (non-automatic), office, sales and storage of motor accessories, parking for cars waiting to be serviced.

PREMISES AFFECTED—181-01 to 181-11 (181-05 official) Horace Harding expressway and 58-25 to 58-53 Utopia parkway, northeast corner and 58-28 to 58-52 182nd street, Block 7065, Lot 8, Fresh Meadows, Borough of Queens.

APPEARANCES—

For Applicant: Meyer Kraushaar and Ingram S. Carner.
For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings and John J. Saunders, Board of Education.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert,
Commissioner Keating and Deputy Chief Connolly .. 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on June 12, 1956 after due notice by publication in the Bulletin; laid over to July 3, 1956, for inspection, and decision; hearing closed; then to September 18, 1956, for additional information as to the plans for the new school building proposed on Block 6886; then to October 23, 1956, to await information from the Board of Education as to plans for the proposed new school building; then to December 4, 1956, for further consideration as to school proposed for adjacent block; then to December 11, 1956 for applicant to file revised plans showing measurements along Utopia parkway; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Utopia parkway, 182nd street and Horace Harding expressway are in a residence use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated September 6, 1955 acting on N. B. Applic. 3323-55, reads:

"1. The use of the premises as a gasoline service station, lubritorium, minor repairs with hand tools only, auto washing (non-automatic), office, sales and storage of auto accessories, parking for cars waiting to be serviced in a Residence Use District is contrary to Art. II Sec. 3—Z. R."

and

WHEREAS, the applicant states that the premises consist of a plot, 125.40 ft. frontage by 275.43 ft. in depth, irregular, now vacant; that it is proposed to erect a one story, colonial type gasoline service station; that the accessory building will be built 100 ft. back from Horace Harding expressway and the remaining portion of the property will be seeded and landscaped and left as a buffer to the residential area to the north; and

WHEREAS, the applicant states that the height and area districts have not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the applicant contends that Horace Harding expressway (service road) will be a heavily trafficked thoroughfare; that the Board granted a new gas station to be erected on the opposite corner in block 6890, lot 24 under Cal. No. 468-54-BZ; that the gas station in lot 3, block 7065 will be taken as part of Horace Harding expressway and will be moved to lot 24, block 6890 as per 468-54-BZ; that in view of the fact that there is a need for this improvement and that this improvement would give the owner a fair return on his investment and is but for a temporary period of years, it is requested that this application be granted; and

WHEREAS, the applicant states that the present owner has held title to the property since June 18, 1947 and that the assessed valuation of land is \$6,600; and

MINUTES

WHEREAS, that portion extending northerly and southerly for a distance of 100 ft. now taken by the Horace Harding expressway widening project, was formerly zoned for business and was changed to retail on September 18, 1947; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions e and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of fifteen years, to permit the premises to be occupied as a gasoline service station and accessory uses, substantially as proposed and indicated on plans filed with this application, marked "Received September 14, 1955," 3 sheets, and "December 7, 1956", 3 sheets, *on condition* that the premises including the proposed landscaped area shall be leveled substantially to the grade of the abutting streets and constructed and arranged as proposed toward the southerly end of the plot; that any structure or use now on the site shall be removed; that the accessory building shall be faced with face brick on all sides and roofed with asphalt slate shingles, shall have no cellar and shall be of the design and arrangement shown on such plans; that pumps shall be of a low approved type erected facing Horace Harding Expressway only, not nearer than 15 ft. to the nearest street building line thereof; that the northerly portion of the plot shall be maintained as landscaped area and the plan for such landscaping shall be submitted for approval to the Commissioner of Parks; that along the lot lines of such landscaped area there shall be erected an ornamental fence of such suitable height as the Park Commissioner may suggest; that there shall also be a fence wall maintained along Utopia parkway on the gasoline station portion for a distance of approximately 50 feet; such fence wall shall be constructed with a masonry base two feet in height with steel pickets above to a total height of 5' 6" with suitable terminating posts; that a similar fence wall shall be erected along 182nd street for a similar distance; that curb cuts shall be restricted to three to Horace Harding Expressway, located within the first 25 ft. each 30 ft. in width, and one from the intersection along 182d street, where shown, and one of similar width within the first 25 ft. from the intersection along Utopia parkway; that at the intersection, within the building line, there shall be erected a block of concrete at least 12 in. in height, extending for 5 feet along 182d street, Horace Harding Expressway and Utopia parkway; that sidewalks and curbing abutting the site shall be constructed to the satisfaction of the Borough President; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that the number of gasoline storage tanks shall not exceed twelve 550 gallon approved tanks; that the premises where not occupied by accessory building, pumps and planting shall be paved with concrete or asphalt; that signs shall be restricted to permanent signs attached to the accessory building, facing Horace Harding expressway and the globes of the gasoline pumps, excluding all roof signs and temporary signs, but permitting the erection toward the easterly end along Horace Harding expressway of a post standard to support a sign, which may be illuminated, advertising only the brand of gasoline sold, which sign may extend beyond the building line not more than 4 feet; that under section 7i for a similar term there may be minor repairing with hand tools only for adjustments, maintained solely within the accessory building; that under section 7h for a similar term, there may be parking of cars, provided same are so parked as not to interfere with the service of the station; that all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

865-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Nat Patterson and Herbert H. Pensig, owners.

SUBJECT—Application October 28, 1955—re (decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a business use district, the erection and maintenance of a gasoline service station, lubritorium, car washing, minor auto repairs, office, sales, storage, parking and storage of motor vehicles.

PREMISES AFFECTED—89-15 Rockaway boulevard and 101-12 to 101-28 90th street, northwest corner, Block 9093, Lot 13, Ozone Park, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama, Herbert H. Pensig and James E. Vassalotti.

For Opposition: H. Hainslaus.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 16, 1956 after due notice by publication in the Bulletin; laid over to November 7, 1956, for inspection and decision; hearing closed; then to December 11, 1956, for further consideration by the Board; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Rockaway boulevard are in a business use, D area, class 1 height district; 90th street is in business and residence use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated October 20, 1955 acting on N. B. Applic. 4435-55, reads:

"1. Proposed gasoline service station, lubritorium, car wash, minor auto repairs, office and sales, storage room, and parking and storage of motor vehicles in a plot located within a business use district is contrary to Art. II Sect. 4(a) of the Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 160 ft. frontage by 160 ft. in depth, irregular, now vacant; that it is proposed to secure a variance for a period of fifteen years in order to erect and maintain a modern gasoline service station consisting of ten 550 gallon gasoline storage tanks and four dispensing pumps; that the proposed accessory building will be one story in height, of class 3 construction, having a frontage of 57 ft., a depth of 28 ft. and contain the conjunctive uses of lubritorium, car washing, minor auto repairs, storage and office and sales; and

WHEREAS, the applicant states that as of July 25, 1916 that part of the site more than 100 ft. distant from Rockaway boulevard and 89th street was in a residence use district and received its present use designation on November 20, 1925; and

WHEREAS, the applicant contends that the building will be modern in design; that Rockaway boulevard is a main auto lane leading across Queens and as such the proposal is entirely in keeping at this point; that there are sufficient stores in the area for public requirements; that the many non-conforming uses within the affected area also clearly indicate that the only feasible development of the site would be a gas station; that block 9090, lot 21 contains a gas station; block 9093, lots 21 and 6—auto repair shop and garage; block 9096, lot 22—gas station; block 9097, lot 12—machine shop and block 9090, lot 1 contains a gas station; that it would create a hardship on the owner to deny him the right to develop his site as proposed and in the same manner as all of the above properties have been developed; that the premises adjoining the site to the north are under the same ownership as the site in question, so that the block cannot be affected with said property acting as a bumper;

MINUTES

and

WHEREAS, the applicant states that the present owner has held title to the property since October 7, 1953 and that the assessed valuation of land is \$18,000; and

WHEREAS the premises and surrounding area were inspected by a committee of the Board, which recommended that the application be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7f for a term of fifteen years, to permit the premises to be occupied as a gasoline service station and accessory uses, substantially as proposed and indicated on plans filed with this application, marked "Received October 28, 1955", (3 sheets), on condition that the premises shall be leveled substantially to the grade of the abutting streets; that any structure or use now on the site shall be removed; that the accessory building shall have no cellar and be of the design and arrangement shown on such plans; that pumps shall be of a low approved type, erected not nearer than 15 feet to the street building line of Rockaway boulevard; that on the lot lines to the north and west where walls of adjoining buildings do not occur, there shall be erected a chain link fence of the woven wire type, erected on a masonry base to a total height of not less than 5 ft. 6 inches; that curb cuts shall be restricted to three on Rockaway boulevard, each 30 ft. in width, located where shown, and two of similar width, on 90th street; that at the intersection, within the building line, there shall be erected a block of concrete at least 12 in. in height, extending for 5 feet along each street; that sidewalks and curbing abutting the site shall be repaired or reconstructed to the satisfaction of the Borough President; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that the number of gasoline storage tanks shall not exceed ten 550 gallon approved tanks; that the premises where not occupied by accessory building, pumps and planting shall be paved with concrete or asphalt; that signs shall be restricted to permanent signs attached to the accessory building and the globes of the gasoline pumps, excluding all roof signs and temporary signs, but permitting the erection within the intersection of a post standard to support a sign, which may be illuminated, advertising only the brand of gasoline sold, which sign may extend beyond the building line not more than 4 feet; that under section 7i there may be minor repairing with hand tools only for adjustments, maintained solely within the accessory building; that under section 7h for a similar term, there may be parking of cars, provided same are so parked as not to interfere with the service of the station; that all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

1016-55-BZ

APPLICANT—Robert Gottlieb, for Hermany Realty Corp., owner (Hermany Farms, Inc., lessee).

SUBJECT—Application December 29, 1955—re (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence and business use district, the parking and storage of more than 5 motor vehicles, in conjunction with a milk bottling plant 50 ft. to the west.

PREMISES AFFECTED—2351-2355 Hermany avenue, north side, 191.52 ft. west of Zerega avenue and 2346-2350 Story avenue, Block 3698, Lots 31-34 and 58, Borough of The Bronx.

APPEARANCES—

For Applicant: Robert Gottlieb and William Schwartz.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly .. 4

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 9, 1956 after due notice by publication in the Bulletin; laid over to October 23, 1956, at the request of an objector; no further request for adjournment considered; then to November 27, 1956, for inspection and decision; hearing closed; then to December 11, 1956, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Story avenue and Hermany avenue are in business and residence use, D and E-1 area, class ½ height districts; and

WHEREAS, the decision of the borough superintendent, dated December 28, 1955 acting on Alt. Applic. 1177-55, reads:

"1. On a lot partly in a business and partly in a residence district the proposed parking and storage of motor vehicles is contrary to Sect. 3, Art. II of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 206 ft. in depth, now vacant; that it is proposed to fence off the lot and make a planted area at the front and rear, and use it for a period of five years for parking of drivers' cars and small milk delivery trucks used in conjunction with the milk pasteurization and bottling plant operated by the owners at 2334 Hermany avenue, 50 ft. to the west; and

WHEREAS, the applicant states that the plot is located primarily in a residence, E-1, ½ district, with 9 ft. at the east located in a business, D, ½ district; that the section was zoned for unrestricted use until April, 1945 when it was changed to residence, with the west 200 ft. fronting on Zerega avenue, business, and the east side of Zerega avenue remaining unrestricted; and

WHEREAS, the applicant contends that this immediate section has always been undeveloped and except for about 20 private residences has been the same since the zoning resolution was enacted; that all the residences were erected while the section was unrestricted and some even before the zoning law; that no new residences have been erected in the vicinity since the zone was changed to residential in 1945; that the area consists mainly of vacant land, non-conforming uses and the large department of sanitation garage and incinerator on Zerega avenue; that the owners need this additional parking space to help keep the streets clear; that the sanitation department truck drivers keep their automobiles on the lot and in the streets around this area; that the Board, noting this need, has already granted permission under Cal. No. 602-51-BZ and Cal. No. 777-54-BZ to the owners to maintain two large parking areas on the south side of Hermany avenue; that the owners have recently purchased this plot, together with the adjoining one on the east, lot 47, from the City, for the express purpose of adding parking space in this area; that due to the fact that this plot adjoins a business area, with 9 ft. in the business zone, it would never be used for the erection of homes, and by permitting the owners to utilize it as proposed for a period of five years, would not harm the neighborhood or adjoining owners in any way; that proper leveling and fencing the property would even clean up the neighborhood; and

WHEREAS, the applicant states that the present owner has held title to the property since October 18, 1954 and that the assessed valuation of land is \$4,400; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board which recommended that there should not be a parking lot maintained in the residence district and that the site is mostly in a residence district; and

MINUTES

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivision c of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on Alt. App. 1177-55, Objection No. One be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

1017-55-BZ

APPLICANT—Robert Gottlieb, for Hermany Realty Corp., owner.

SUBJECT—Application December 29, 1955—re (decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a business use district, the erection and maintenance of a gasoline service station, lubritorium, car wash, motor vehicle repair shop and auto parking.

PREMISES AFFECTED—861-875 Zerega avenue and 2361-2385 Hermany avenue, northwest corner, Block 3698, Lot 47. Borough of The Bronx.

APPEARANCES—

For Applicant: Robert Gottlieb and William Schwartz.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 9, 1956 after due notice by publication in the Bulletin; laid over to October 23, 1956, at the request of an objector; no further request for adjournment considered; then to November 27, 1956, for inspection and decision; hearing closed; then to December 11, 1956, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a business use, D area, class ½ height district; Hermany avenue is in business and residence use, D area, class ½ height districts; Zerega avenue is in business and unrestricted use, D area class ½ height districts; and

WHEREAS, the decision of the borough superintendent, dated December 16, 1955 acting on N.B. Applic. 1984-55, reads:

"1. Proposed gas service station, lubritorium, office, sales of parts, minor motor repairs, auto washing and parking and storage of more than 5 motor vehicles in a business use district is contrary to Art. II Sect. 4 of the Z. R."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 191 ft. in depth, now vacant; that the entire section was unrestricted until April, 1945 when it was changed to business and residence; that the 200 ft. west of Zerega avenue became business and across the street to the east still is unrestricted; and

WHEREAS, the applicant states that this application is for a variation to permit for a term of ten years, the use of this corner for the erection of a modern complete gasoline service station, with accessory uses and room for parking about forty automobiles; and

WHEREAS, the applicant contends that although this is not a main traffic area, there is a distinct need for a service station in this immediate vicinity; that across the street is the garage of the department of sanitation and the main offices of a large sand and ready mixed concrete deliverer; that the truck drivers for the sanitation department and for the sand company all come to work in their cars and leave them in the vicinity all day while working; that the owners of this plot also are the owners of the milk pasteurization and bottling plant diagonally across the street to the west; that they employ hundreds of milk delivery drivers

who also come to work in their own cars; that all these drivers as well as the city drivers need servicing for their cars and the time to do it is when they are at work; that the owners of this plot recently bought it from the City with the idea of using it as proposed, together with parking space for forty cars; that the immediate section has always been undeveloped and unrestricted and the erection of a modern gas station at this location would in no way be detrimental to the neighborhood; that there are no gas stations in the vicinity and the need for this one is great; and

WHEREAS, the applicant states that the present owner has held title to the property since October 18, 1954 and that the assessed valuation of land is \$7,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board that the application should be granted to permit the gasoline service station and parking use substantially as proposed; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of fifteen years to permit the premises to be occupied for parking and for the maintenance of a gasoline service station substantially as proposed and as indicated on plans filed with this application marked "Received December 29, 1955", 3 sheets, *on condition* that all uses on the premises shall be removed and the premises shall be levelled substantially to the grade of Zerega Avenue and shall be constructed and arranged substantially as indicated on such plans; that the accessory building shall be faced with face brick and shall be arranged as indicated; that there shall be no cellar underneath; that the toilet rooms shall be located so that the doors shall not be contiguous; that pumps shall be of a low approved type erected not nearer than 15 ft. to the street building line; that along the lot lines to the north and east and to the south for a distance of approximately 100 ft. there shall be erected a woven wire fence of the chain link type on a masonry base for a total height of not less than 5 ft. 6 in; that such fences shall have suitable terminating posts; that curb cuts shall be restricted to two curb cuts to Hermany Avenue, each not over 30 ft. in width, leading to the gasoline station and omitting the curb cut shown to the rear of the plot for parking, and two curb cuts of similar width to Zerega Avenue; that sidewalks and curbing abutting the premises shall be constructed or repaired to the satisfaction of the Borough President; that signs shall be restricted to permanent signs attached to the facade of the accessory building and to the illuminated globes of the pumps excluding all roof signs and temporary signs but permitting within the intersection the erection of a post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than 4 ft.; that at such intersection there shall be erected a block of concrete extending for a distance of not less than 5 ft. along either street and not less than 12 in. in height; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that revised plans shall be filed with the Board showing the changes required by this resolution as against the plans above cited; and that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

88-56-BZ

APPLICANT—Samuel Rosenblum, for City Bank, Farmers Trust Co., owner (Park Avenue Corporation, long term lessee of ground and owner of building).

SUBJECT—Application February 8, 1956—re (decision of the borough superintendent) under section 19A.(j) of the zoning resolution, to permit in a restricted retail and

MINUTES

retail use district, the erection of a 21 story office building of class 1 construction, without required loading berth. PREMISES AFFECTED—400 Park avenue, northwest corner of East 54th street, Block 1290, Lot 36, Borough of Manhattan.

APPEARANCES—

For Applicant: Samuel Rosenblum and Larry Fisher.
For Opposition: Edward Hoffman for City Construction Coordinator.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly... 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 30, 1956, after due notice by publication in the Bulletin; laid over to November 14, 1956, for inspection if necessary and decision; hearing closed; then to December 11, 1956, for inspection; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Park avenue are in a restricted retail use, B area, class 1½ height district; East 54th street is in retail and restricted retail use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated February 3, 1956, acting on amendment to N.B. Applic. 86-55, reads:

"1. The omission of the loading berth is contrary to Sec. 19A Art. IV Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. 4 in. frontage by 125 ft. in depth, on which is now located a twelve story multiple dwelling, being demolished; that it is proposed to erect a class 1, 21-story office building with bank and store on grade floor, having a frontage of 100 ft. 4 in. on Park avenue and 125 ft. on East 54th street; that the premises are located in a restricted retail and retail district and there is to be no manufacturing, no occupancy that would require loading or unloading of any merchandise, and no deleterious uses; and

WHEREAS, the applicant states that the entire floor area of the building is about 225,000 sq. ft., but the space taken up by elevators, stairs, mechanical utilities, columns, walls, etc., reduces the usable area to about 163,000 sq. ft.; that setbacks, pursuant to the zoning resolution, reduces the areas in the upper floors, each floor being less in area as each story rises; and

WHEREAS, the applicant contends that Park avenue is a restricted thoroughfare and no trucks are permitted on this avenue; that only the highest grade office occupancy will be permitted in this building; that there will be no occupancy that will require any merchandise to be loaded or unloaded and nothing that will require a loading berth; that should any deliveries be made when the tenants move into the structure, same will be done at night so that there is no necessity for trucks to drive into the building; that distinction must be made of the character of the occupancy in a restricted retail zone, as compared with the erection of a building in the western section of the city where warehousing, manufacturing and similar types of occupancy are located; that the very designation of the term Park avenue connotes a restricted type of occupancy and is really a trade mark; that loading berths are out of place in this section, especially with the restrictions provided for this building; that in view of the limited occupancy exclusively for office purposes, the small area, the restricted neighborhood and the location, it is requested that the Board grant a variation for the elimination of a loading berth; and

WHEREAS, the applicant states that the present owner has held title to the property since August 15, 1955; that the assessed valuation of land is \$980,000 and of the building \$370,000 making a total of \$1,350,00; and

WHEREAS, the zone was changed from business to restricted retail on June 3, 1946; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which gave the matter careful study and studied the conditions as to loading and unloading in the Lever Brothers building directly opposite; that the Board found that the subject building being proposed solely for office use, there is no need for trucking except occasional delivery or moving of tenants' furniture and for removing refuse each day and under these conditions recommended that the application be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 19A, Subdivision j of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the district regulations of the zoning resolution and that the application be and it hereby is granted under Section 19A, subdivision j, to permit the omission of the one required loading berth, on condition that the first floor shall be occupied throughout as a bank, as proposed and indicated on plans filed with this application, marked "Received February 8, 1956", 4 sheets; that the floors above shall be occupied solely by tenants doing office work only, without any storage of merchandise or delivery of advertising matter required to be brought to the building and taken away in trucks, and any other use which would require trucking over and above the usual removal of daily waste; that such daily waste removal and any other removal or delivery shall be made during the night; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

187-56-BZ

APPLICANT—Arthur Levien, for Bernard Hamovitz, owner (U. S. Truck Body Co., lessee).

SUBJECT—Application March 9, 1956—re (decision of the borough superintendent) under sections 7c, 7e and 7i of the zoning resolution, to permit in a business and unrestricted use district, the proposed manufacture and repair of truck bodies, office and storage yard.

PREMISES AFFECTED—37-05 24th street and 24-02 37th avenue, southeast corner, Block 367, Lot 15, Long Island City, Borough of Queens.

APPEARANCES—

For Applicant: John F. Fitzsimons.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings and John J. Saunders, Board of Education.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 23, 1956 after due notice by publication in the Bulletin; laid over to November 7, 1956, at the request of an objector; no further requests for adjournment considered; then to December 4, 1956, for inspection and decision; hearing closed; applicant to file plan showing entire plot, including the existing building and also to file existing certificate of occupancy; then to December 11, 1956, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, 37th avenue and 24th street are in business and unrestricted use, B area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated March 7, 1956 acting on N. B. Applic. 375-56, reads:

"1. Proposed manufacture and repair of truck bodies, office and storage yard on a plot partly in a Business and partly in an Unrestricted Use District is contrary to Sec. 4(a) (29) of the Zoning Resolution inasmuch

MINUTES

as repair of truck bodies constitutes motor vehicle repairing which is not permitted in a Business Use District."

and

WHEREAS, the applicant states that the premises consist of a plot, 129.10 ft. frontage by 126.58 ft. in depth, irregular, occupied for storage of trucks, truck bodies, wooden packing boxes and lumber; and

WHEREAS, the applicant states that the premises are presently occupied by the proposed lessee, the U. S. Truck Body company, which also occupies the building immediately south of the subject premises, which building is entirely in an unrestricted use district and is used for the same purpose, that is, the manufacture and repair of truck bodies; that incidental to the manufacture and repair of truck bodies is the use of a power saw for cutting wood panels, welding apparatus for putting the metal frame work together and various other accessory operations which, as main uses in a business use district, might very well be prohibited by section 4(a) of the zoning resolution; and

WHEREAS, the applicant contends that the proposed building will front on 24th avenue, the southerly 26.61 ft. plus or minus, being in an unrestricted use district; that out of consideration for the residence structures on the north side of 37th avenue (in a business use district), there will be no entrances into the building on 37th avenue; that the yard entrances on 37th avenue will not adversely affect the business district along 37th avenue; that the surrounding area to the west and south of the subject premises are developed with uses which are not higher in the zoning scale than what is proposed; and

WHEREAS, the applicant states that the present owner has held title to the property since August 15, 1951 and that the assessed valuation of land is \$17,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c, to permit the arrangement of the plot and the extension of the building located within the business use district, substantially as proposed and indicated on plans filed with this application, marked "Received March 9, 1956", (1 sheet), "March 23, 1956", (1 sheet), and "October 3, 1956" (4 sheets), *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that a heavy wood fence shall be constructed along the lot lines to the east, north and south, as proposed and shown; that the opening to 37th avenue shall be fitted with gates similar in construction to the fence, and such gates shall be kept closed except when the opening is used for ingress or egress; that the storage yard shall be paved with suitable paving material; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

WHEREAS, the district maps accompanying the zoning resolution show that the site, 188th street and Wicklow place are in a residence use, G-1 area, class ½ height district; and

WHEREAS, the decision of the borough superintendent, dated March 26, 1956 acting on Alt. Applic. 2968-55, reads:

"1. Conversion of a one family dwelling to a two family dwelling in a G-1 Zone is contrary to Section 16-C(a) of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 50.22 ft. frontage by 111.85 ft. in depth, on which is located on a one family dwelling with one car accessory garage; and

WHEREAS, the applicant contends that since the death of Mr. Sammarco on August 11, 1954 the premises has been occupied by only one person, Berthe W. Sammarco, his wife; that the amount of work required to properly maintain a house of this size is considerable; that regular maintenance items which would ordinarily be done by the man of the house such as caring for the grounds, removing and replacing storm windows and screens and minor repairs, are entirely too much for a woman; that as a result professional help must be employed and the cost of this work, added to that usually incurred for such major items as interior and exterior painting, etc., adds substantially to the overall operating cost which is further increased by rising taxes, all of which is a considerable drain on the resources of Mrs. Sammarco; that since she desires to continue to live in the house, she must secure additional income, which the proposed conversion to a two family house would bring her; that because 188th street is a through street there is considerable vehicular traffic on it; that the Transit Authority has also established a bus route on 188th street to accommodate the ever increasing traffic and the City has under consideration the widening of the roadway; that although the zoning here is classed as a G-1 area, prospective purchasers with children indicate a preference for one family homes on streets less heavily traveled and less hazardous for children, and the sale of one family homes here becomes increasingly difficult, with resulting reduction of property values; that there are now four 2-family houses within the area affected by the proposed change, and in addition there are five 2-family houses just outside the area and a total of 12 within the 500 ft. circle from the property; that the proposed conversion of the premises will involve no change in the size or outward appearance of the building; that internally the house has four bed rooms on the second floor; that the conversion will create two 1-bedroom apartments and it may be assumed that the total number of occupants thus accommodated will not be as large as if the four bedrooms were occupied; that although the provisions of section 7g do not apply to this application, he is submitting a list of signatures of the majority of home owners affected as evidence that there is no objection on their part to this conversion; and

WHEREAS, the applicant states that the present owner has held title to the property since August 11, 1954; that the assessed valuation of land is \$2,500 and of the building \$7,000 making a total of \$9,500; that the building was erected in 1928; and

MINUTES

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the applicant furnished the Board with a list of houses in the area occupied by more than one family, which showed at least five in the site block and one or two others adjoining that had been changed over to multiple dwellings, and under the conditions the committee recommended that the application should be granted; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21, to permit the building to be occupied by two families, as indicated on plans filed with this application, marked "Received April 17, 1956", 7 sheets, and "April 19, 1956", 1 sheet, *on condition* that the building shall be altered as may be required by the Building Code in complete compliance for such occupancy; that the building shall not be increased in height or area and in all other respects the existing conditions as to exterior construction shall remain as required when the building was erected.

289-56-BZ

APPLICANT—Carl H. Salminen, for Joseph J. Crupi, owner.

SUBJECT—Application April 17, 1956—(decision of the borough superintendent) under sections 7e and 21 of the zoning resolution, to permit in a retail use, D area district, the proposed erection of a 1 story building to be occupied as office, showroom, storage and welding of aluminum and steel windows and manufacturing; building to occupy more of the area than permitted.

PREMISES AFFECTED—45-42 162nd street, west side, 400 ft. south of 45th avenue, Block 5440, Lot 61, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Carl H. Salminen and Lucille Crupi.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 27, 1956 after due notice by publication in the Bulletin; laid over to December 11, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a retail use, D area, class 1 height district; 162nd street is in a retail use, C and D area, class 1 height district; 46th avenue is in a business use, D area, class 1 height district; 45th avenue is in retail, local retail and residence use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated April 10, 1956 acting on N.B. Applic. 1088-56, reads:

"1. The proposed use of office, showroom, storage & welding of aluminum & steel windows & manufacturing in a retail use district, is contrary to Art. 2 Sec. 4A of Zone Res.

2. The covered area of plot is contrary to Art. 4 Sec. 14(c) of the Zone Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 40 ft. frontage by 100 ft. in depth, now vacant; that it is proposed to erect and maintain a one story building,

28 ft. front by 100 ft. in depth, to be occupied as offices, showroom, storage and welding of aluminum and steel windows and manufacturing, building to occupy more than the permitted area; and

WHEREAS, the applicant states that the premises is zoned at present as a retail use district, D area district and class 1 height district; that on May 4, 1953 the use was changed from business to retail and there are no changes pending at the city planning commission at the present time; that the premises is unimproved at present and it is the owner's desire to erect a modern, one story, masonry, class 3 structure, to be used for office, showroom, storage and welding of steel and aluminum windows, and manufacturing not to exceed 25% of the first floor area, and unloading of material; that the total area of the plot is 4,000 sq. ft.; that the proposed building will cover 3,520 sq. ft. which includes an open unloading area of 96 sq. ft. and built over rear yard; that the coverage is 88% of the area of the property, which is 33% in excess of the coverage permitted within the zoning requirements of the D area district; that it is requested that the excess coverage be permitted; that the variance to use and area is requested because the vicinity is predominantly business with light manufacturing; that manufacturing is permitted in several of the establishments along 162nd street, namely, block 5440, lots 48, 51, 68, 74, 76, also block 5441, lots 32 and 84; that several of the buildings are along the rear lot line, thus eliminating the rear yards; and

WHEREAS, the applicant contends that the owner at present is operating his business at 45-74 162nd street; that he has found this space to be wholly inadequate for his business demands and therefore desires to construct this new building to supplement the storage space and also the assembling of steel and aluminum windows; and

WHEREAS, the applicant states that the present owner has held title to the property since February 8, 1956 and that the assessed valuation of land is \$2,000; and

WHEREAS the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution, as to use, and that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21, and is therefore entitled to relief, as to area, on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulation of the zoning resolution and that the application be and it hereby is *granted* under Sections 7e and 21 for a term of fifteen years to permit the construction of a one-story building, substantially as proposed and indicated on plans filed with this application, marked "Received April 17, 1956", (5 sheets), *on condition* that the building shall be erected not nearer than 5 feet to the building line of 162nd street and shall have shrubbery across the front of the plot not occupied by the driveway for delivery; that the driveway for delivery may have a curb cut opposite not more than 12 ft. in width; that along the lot line where such driveway occurs there shall be erected a woven wire fence of the chain link type on a masonry base to a total height of not less than 5 ft. 6 in., with terminating post; that along the interior lot line walls and rear walls of the building there may be openings, provided same are filled with glass blocks of a type approved for exterior walls; that such openings shall have no ventilators; that the ventilation of the building shall be by skylights or an interior ventilating system; that the use of the building may be as proposed, provided the work is of light aluminum and the machinery installed shall not exceed the machines enumerated in letter received dated December 8, 1956; that the building shall not be increased in height or area beyond that proposed and in all other respects shall comply with all laws, rules and regulations applicable thereto; that the required rear yard may be built over as permitted in the zoning resolution in this district; and that all permits re-

MINUTES

quired shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

For Applicant: None.

For Opposition: Joseph B. Franklin.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert,

Commissioner Keating and Deputy Chief Connolly... 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 30, 1956 after due notice by publication in the Bulletin; laid over to November 27, 1956, for inspection and decision; hearing closed; then to December 11, 1956, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Findlay avenue are in business and residence use, B area, class 1¼ height districts; East 167th street is in a business use, B area, class 1¼ height district; East 168th street is in a residence use, B area, class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated May 2, 1956 acting on Alt. Applic. 76-56, reads:

"1. The proposed motor vehicle parking lot as accessory to the hospital on the opposite side of the street is contrary to Sect. 3, (9) (c) of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 250 ft. frontage by 100 ft. in depth, now vacant; that it is proposed to maintain a parking lot for more than five motor vehicles, accessory to a hospital on the opposite side of the street; and

WHEREAS, the applicant states that the Home and Hospital is a non-profit-making institution which provides care for the aged of both sexes and hospitalization for the ill; that the plot faces Findlay avenue on which there is little pedestrian traffic, probably chiefly due to its excessive grade; that Findlay avenue has a rise from East 167th street to East 168th street at the rate of .0646 per foot, or approximately 6½ ft. per 100 ft.; that there exists a high stone retaining wall at the building line on the easterly side of Findlay avenue and the home and hospital is situated high above Findlay avenue; that the entrance to the home and hospital is located at the northeast corner of 167th street and Findlay avenue; that the lot proposed for parking adjoins a business district on the southerly side and it would appear that no serious objection could be raised for the proposed use; that immediately opposite the proposed parking lot there is a side entrance to the institution which is of little use now insofar as visitors are concerned, but which would be opened should this parking lot be made available and it would permit easy access to the various buildings of the institution without the necessity of going up the hill, which many visitors find beyond their capacity; and

WHEREAS, the applicant contends that the home and hospital has in recent years devoted much time to research work in geriatrics and about 50 members of the medical profession who are on the visiting staff of the institution volunteer their time without remuneration to the care of

the patients; that in recent years the parking problem has become increasingly acute and because the limited space on the grounds of the institution are quickly filled, many of these doctors are reluctant or refuse to continue their service, claiming they have no space to park either on the grounds or adjacent to the grounds, and that the time element in looking for parking space elsewhere precludes the possibility of their being of assistance to the patients; that these physicians and other personnel of the home should be provided with facilities for parking their cars, for which no fee will be charged; that the home encourages the visiting of patients by friends and relatives and encourages the family to take patients out for automobile rides and excursions; that this practice has a definite psychological and therapeutic benefit and the lack of any parking area greatly hinders this practice; that the rugged sidewalk grades in the vicinity of the home makes walking difficult and actually dangerous for many cardiac patients; that there is no desirable location on the hospital grounds for the parking of cars because of the various differences in the grade elevations and because of its use by the ambulant aged; and

WHEREAS, the applicant states that the present owner has held title to the property since May 27, 1955 and that the assessed valuation of land is \$45,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e and h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Sections 7e and h, to permit the plot to be occupied for parking and storage of motor vehicles for a term of five years, *on condition* as shown on plans marked "Received September 26, 1956", 2 sheets, that all uses on the plot shall be removed and the plot shall be levelled substantially to the grade of Findlay Avenue and shall be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that on all lot lines there shall be erected a woven wire fence of the chain link type, on a masonry base, where walls of adjoining buildings do not occur, to a total height of not less than 5 ft. 6 in., with no openings therein except to Findlay avenue where shown; that such openings shall be not over 15 ft. in width and shall be fitted with gates which shall normally be kept closed when the parking lot is not in operation; that opposite such openings there may be curb cuts of similar width; that sidewalks and curbing abutting the premises shall be restored or repaired to the satisfaction of the Borough President; that the use of the premises shall be as proposed for parking solely for the patients, staff and visitors of the Home and Hospital opposite; that no sign shall be erected except that there may be a sign near the entrance advertising the private use provided such sign does not exceed 15 sq. ft., does not extend beyond the building line and is not illuminated; and that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert,

Commissioner Keating and Deputy Chief Connolly... 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 11, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, G-1 area, class ½ height district; 267th street is in residence and local retail use, G1 and D area, class ½ height districts; Hillside avenue is in retail and local retail use, D area, class ½ height districts; and

WHEREAS, the decision of the borough superintendent, dated May 21, 1956 acting on N.B. Applic. 2542-55, reads:

"1. In a G-1 district each building shall have two side yards of at least 5 feet each. Art. IV—16C(c) Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 40 ft. frontage by 100 ft. in depth, on which is located a one family residence of class 4 construction; and

WHEREAS, the applicant states that the entire block was zoned D from 1916 to January 27, 1949, when it was changed to residence G-1 with the exception of the property fronting on Hillside avenue, to a depth of 100 ft. that was zoned retail D; and

WHEREAS, the applicant states that the property under appeal is a one story, one family frame family dwelling, 26 ft. 4 in. by 47.04 ft., erected on a 40 ft. by 100 ft. plot under N.B. No. 2542-55; that the approved plot plan called for 5 ft. 2 in. side yard on the north side of the lot and 9 ft. 6 in. on the south side; and

WHEREAS, the applicant contends that the foundation was poured and the house built, and it wasn't until the final survey came in that the error was discovered; that the survey showed the side yard on the north side to be 4.15 ft. and 4.27 ft. and 9.54 ft. and 9.44 ft. on the south side; that when the error was discovered the owner tried to purchase the ten inches required to make up the 5 ft., but because the adjoining property is a corner plot located in a retail D district, the owner refused to sell any portion of it because it would jeopardize the value of his property for a future business building; and

WHEREAS, the applicant further contends that many of the houses in this area were built prior to the zone change in 1949, when it was a residence D area; that it would be a great hardship and an expensive operation to move the entire building, involving new foundations, column footings, etc., and would in no improve the appearance of the house; that the building conforms in every other respect to the requirements of a residence G-1 zone and is an asset to the neighborhood, and adjoins a retail-D zone on the short side yard, and in all other respects complies with the rules and regulations of the building department as to construction and the building code of the City of New York; and

WHEREAS, the applicant states that the present owner has held title to the property since April 12, 1955; that the assessed valuation of land is \$1,200 and of the building \$6,300, making a total of \$7,500; that the building was erected in 1955; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the area district regulations of the zoning resolution and that the application be and it hereby is granted under Section 21, to permit the

width of existing side yards, as constructed and proposed and shown on plans filed with this application, marked "Received June 12, 1956", 4 sheets and "October 25, 1956", 1 sheet, on condition that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits, including a certificate of occupancy, shall be obtained and all work completed within six months from the date of this resolution.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 14, 1956 after due notice by publication in the Bulletin; laid over to December 11, 1956, for applicant to correct his plans and for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in business and residence use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated June 11, 1956 acting on Alt. Applic. 1882-56, reads:

"1. Proposed change of occupancy of building and premises, to office and motor vehicle repair shop accessory to business conducted on premises and vacant space for parking and storage of more than 5 motor vehicles and gasoline pump and tanks restricted for use of owners motor vehicles, on a lot partly in business and partly in a residence zone (with the uses located only in the business portion of the lot) is contrary to Art. II, PP. 3 and PP. 4a subsections 29 and 46 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 40 ft. frontage by 200.2 ft. in depth, on which is located a one story building occupied as office and storage parking, and storage of more than five motor vehicles, all in conjunction with a taxicab business; that it is proposed to use the one story building and as an office and motor vehicle repair shop accessory to the taxicab business conducted on premises; that the repairs will be minor in nature and no body or fender work will be performed; that no auto painting will be performed except for minor touch-up painting, and no spray booth is proposed; that it is also proposed to provide a gasoline pump solely and exclusively for use in conjunction with the business conducted on the premises—no gasoline to be sold; and

WHEREAS, the applicant states that the entire premises is located in a business use district except for a small portion along the easterly side lot line, which is located in a residence use district; that it is not proposed to use that portion of the premises in the residence use district; that a woven wire fence has been erected along the business use district zone line, separating the two zones; that Tilden avenue and Rogers avenue are both in business use districts:

MINUTES

and

WHEREAS, the applicant contends that there is an existing curb cut on to Tilden avenue and it is not proposed to change or enlarge this curb cut; that all repairs will be conducted within the existing building; that motor vehicle repairs is not the principal business conducted on the premises; that the principal use is a permitted use for which certificate of occupancy No. 148797 was issued May 7, 1956; that minor motor vehicle repairs is a necessary incidental to this business; that the proposed additional uses can have no detrimental effect upon the adjoining premises or the neighborhood, in view of their incidental nature; that the owners have made a substantial investment in the development and improvement of this property and require these accessory uses for the proper conduct of their business; and

WHEREAS, the applicant states that the present owner of the property has held title since April 20, 1953; that the assessed valuation of land is \$5,200 and of the building \$5,200, making a total of \$10,400; that the building was erected in 1956; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions e and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Sections 7e and i, for a term of five years, to permit the premises to be used as proposed for minor motor vehicle repairs and storage of more than five motor vehicles with continuation of the gasoline pump and permitting an additional auxiliary pump for emergency use, but permitting no sale of gasoline to the general public, substantially as proposed and as indicated on plans filed with this application marked "Received June 15, 1956", 3 sheets, as amended by revised plans marked "Received December 4, 1956", 2 sheets, *on condition* that the space proposed for parking shall be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that the chain link fence, including the existing fence on the interior and rear lot lines, shall be maintained and shall be fitted with gates at the street line which shall normally be kept closed when the parking lot is not in operation; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; and that all permits, including a new certificate of occupancy, shall be obtained and all work completed within six months from the date of this resolution.

437-56-BZ

APPLICANT—Paul Friedman, for Parsons Homes, Inc., owner.

SUBJECT—Application June 19, 1956—(decision of the borough superintendent) under sections 7e and 21 of the zoning resolution, to permit in a residence use, E-1 area district, the erection and maintenance of a gasoline service station, auto washing, lubrication, office and accessory sales, minor repairs with hand tools only, for a term of 15 years, without required rear yard.

PREMISES AFFECTED—148-20 Cross Island parkway, west side, 102.67 ft. south of 14th avenue, Block 4645, Lot 3, Whitestone, Borough of Queens.

APPEARANCES—

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 30, 1956 after due notice by publication in the Bulletin; laid over to November 27, 1956, for inspection and decision; hearing closed; then to December 11, 1956, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Cross Island parkway and 148th street are in a residence use, E-1 area, class ½ height district; and

WHEREAS, the decision of the borough superintendent, dated July 11, 1956 acting on N.B. Applic. 1828-56, reads:

"1. Proposed erection of a gasoline service station, auto washing (non automatic), lubrication, office & accessory sales & minor repairs with hand tools only and parking of more than 5 cars awaiting service in a residence use zone is contrary to Art. II Sec. 3 of Zoning Res.

2. Provide rear yard in E-1 zone to conform to Sec. 15A of zoning res. (Note—substitution of front yard for rear yard credit does not apply due to pump location of 15'-0" from Bldg. Line."

and

WHEREAS, the applicant states that the premises consist of a plot, 149.89 ft. frontage by 147.83 ft. in depth, on which is located a vacant storage warehouse; that it is proposed to remove the existing structure and to erect a modern parkway type gas station, non-automatic auto washing, lubrication, office and accessory sales and minor repairs with hand tools only; and

WHEREAS, the applicant states that the subject premises is presently zoned as a residence use, class ½ height and E-1 area district; that as of July 25, 1916 the property was zoned as a business use, a one times height and a D area district; that on March 30, 1940 the property was rezoned to residence use and ½ times height; that on March 30, 1940 the property was also rezoned to an E area district and the present E-1 area designation became effective on December 14, 1953; that no zoning amendment relating to the property is pending at the present time; and

WHEREAS, the applicant states that the subject premises consists of an interior, irregular, trapezoidal parcel on the westerly side of Cross Island parkway, distant 102.67 ft. south of 14th avenue and having a frontage on Cross Island parkway of 148.89 ft., a rear of 101.10 ft. and two sides of 37.52 ft. and 147.83 ft. respectively; that the premises is presently developed with a one story and two story brick building for which certificate of occupancy No. Q74001 was issued on June 27, 1951, for storage (non-combustible); that building department records show that the premises was approved for an electric sub-station on August 12, 1912 under N.B. 2159-1912; that the present certificate of occupancy was issued on the basis of affidavits filed showing that the premises were used for storage warehouse since the 1930's; that the premises is presently untenanted; and

WHEREAS, the applicant contends that there is no economic demand for the use of the subject premises for the existing non-conforming storage warehouse use; that the premises have been vacant for some time and is in a state of disrepair; that there is no demand for residence use as it is located on the Cross Island parkway service road, which is a heavily travelled thoroughfare, and adjoins a lumber yard; that there is an economic demand for the proposed use of the subject premises as it is located on the service road of Cross Island parkway which sustains a substantial volume of automobile traffic; that a grant of the instant application would have no adverse effect upon nearby properties; that the adjoining property to the east along Cross Island parkway is vacant and the adjoining property to the west and south is developed with an extensive lumber yard and accessory buildings; that all of the adjoining properties will be protected and buffered by the proposed fence wall and landscaping arrangements; that it is proposed to set back the proposed building at the southwesterly corner of the premises and to erect a 5 ft. 6 in. high brick fence wall

MINUTES

extending from the unpierced rear wall of the proposed building along the building lines of the subject premises to the Cross Island parkway building lines, and to maintain a seeded and landscaped strip adjoining the proposed fence wall, protected by 6 in. by 8 in. concrete curbs; that a grant of the proposed application would benefit the area by the removal of the vacant buildings which are potential fire and delinquency hazards; that the proposed application does not violate section 21-A of the zoning resolution as proposed entrances to and exits from the proposed gas station are more than 200 ft. (measured along the line of normal pedestrian travel) from the nearest exit from and the nearest entrance to Cross Island parkway; and

WHEREAS, the applicant further contends that the unique and irregular shape of the plot does not permit full compliance with the rear yard regulation applicable hereto; that the premises is irregular and trapezoidal in shape and has a depth of only 37.52 ft. on its easterly lot line and a depth of 147.83 ft. on its westerly lot line, or a mean depth of 92.68 ft.; that the rear yard requirements applicable hereto require, in an E-1 area district, a rear yard of 25% of the mean depth of the lot, or 23.17 ft.; that this would require the building to be moved forward an additional 12.17 ft. from the 11-foot setback, so that it would be almost adjacent to the pump islands; that such an awkward arrangement of the subject premises for a gas station would be functionally and economically unsound; that the premises could not be utilized in a beneficial manner and because of its unique shape and size, no arrangement other than as proposed is feasible and practical; that the erection of the proposed building with an 11 ft. rear yard setback, instead of the required 23.17 ft. setback, would not deprive the adjoining property owners of light and ventilation, nor adversely affect them; and

WHEREAS, the applicant further contends that the proposed arrangement of the subject premises complies with the spirit of the law, in that the area district regulations permit a substitution of one foot of depth of unoccupied space across the whole width of the front of the lot at the curb level between the street line and the street wall of the building, for each one foot in excess of 10 ft. of the depth of the rear yard; that the pump islands are set back 15 ft. from the building line, as required in an E-1 district, but no credit can be taken for this front yard, as in this particular case, the street line is in effect 15 ft. from the actual street line; that between the pump islands and the street wall of the building, there is a minimum of 20 ft. of additional unoccupied space, but the borough superintendent in his decision indicates that substitution of front yard for rear yard requirements does not apply due to pump location of 15 ft. from building line; that therefore, there is technically no unoccupied space across the whole width of the front of the lot; that however, the pump islands occupy only a minute portion of the area of the plot and would not interfere in any manner whatsoever with light and ventilation of the subject premises or of adjoining properties; that the area of the building is only 1350 sq. ft. or only 14.5% of the total area of the plot, leaving a total occupied area, exclusive of pump islands, landscaping and fencing of 14.5% of the area of the plot, whereas a building conforming to the area district requirements could be built to cover 40% of the 9292 sq. ft. area of the plot or 3716.8 sq. ft.; that therefore adjoining properties will be assured of more light and ventilation if this variance were granted than would be available if a structure conforming to the E-1 area district regulations were to be erected without a variance; that the proposed building, one story, 19 ft. 6¾ in. in height and occupying an area of only 1350 sq. ft. would provide more light and ventilation to adjoining properties than if the present non-conforming structure would continue to be maintained; that the existing structure, 1 and 3 stories in height now occupies an area of 2687.72 sq. ft. and has only a rear yard of 9.8 ft., whereas the proposed structure would have a rear yard of 11 ft. and would occupy approximately 50% less area; that the adjoining properties to the rear of the subject premises would not be adversely affected

by the proposed variation; that these adjoining properties are developed with two story residences set back approximately 40 ft. from their rear lot lines, with the exception of lot 29 which is vacant except for an accessory garage built at the rear lot line, and lot 31 which also has an accessory garage at the rear lot line; that the adjoining property to the west is developed with a lumber yard and the adjoining property to the east is a small, irregular parcel, with a frontage of only 16 ft. on 149th street, which is vacant; and

WHEREAS, the applicant states that the present owner has held title to the property since June 6, 1946; that the assessed valuation of land is \$3,500 and of the building \$3,500 making a total of \$7,000; that the building was erected in 1912; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and the Board has taken particular notice of the entrance to Cross Island Parkway and also the type of traffic along the service road; that Cross Island Parkway is depressed; and also noted that this would involve the taking down of an old building which was formerly used in connection with the railroad, and which has no further use and believes this would be an improvement to the neighborhood and recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution, as to use, and that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21, and is therefore entitled to relief, as to area, on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use and area district regulation of the zoning resolution and that the application be and it hereby is *granted* under Section 21 as to rear yard and Section 7e to permit for a term of fifteen years the use of the premises as a gasoline service station and accessory uses substantially as proposed and as indicated on plans filed with this application marked "Received June 19, 1956", one sheet and "August 7, 1956", 4 sheets, *on condition* that all buildings now on the premises shall be removed and the premises shall be levelled substantially to the grade of the service road and shall be constructed and arranged as indicated on such plans; that the accessory building shall have no cellar below and shall be of the design as indicated on such plans and shall be faced with face brick on all sides; that pumps shall be not nearer than 15 ft. to the street building line and shall be of a low approved type; that planted areas shall be maintained along the lot lines where shown, with suitable planting material and protected with curbing not less than 6 in. in width and 8 in. in height; that along the interior lot lines to the east, south and west there shall be erected a masonry wall not less than 5 ft. 6 in. in height, of brick matching the brick as used on the accessory building; that such walls shall have suitable terminating posts; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that the balance of the premises where not occupied by pumps, accessory building and planted areas shall be paved with concrete or asphaltic pavement; that curb cuts shall be restricted to three curb cuts, where shown, two 30 ft. in width and one 20 ft. in width, with no portion of any curb cut nearer than 5 ft. to a side lot line as prolonged; that there may be for a similar term under Section 7i minor repairs with hand tools only for adjustments maintained solely within the accessory building; that sidewalks and curbing abutting the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that signs shall be restricted to permanent signs attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs, but permitting the erection within the building line of one post standard, to the east, for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permit-

MINUTES

ting such sign to extend beyond the building line for a distance of not more than 4 ft.; that as to Objection No. 2, the arrangement permitted herein may be permitted under Section 21; and that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the zoning resolution.

APPLICANT—Paul Friedman, for Louis P. Levine, Alfonso Bivona, S. Richard Bivona and Robert J. Perillo, owners.

SUBJECT—Application June 20, 1956—re (decision of the borough superintendent) under sections 7e and 7h of the zoning resolution, to permit in a residence use district for a term of 15 years, the erection of a gasoline service station with accessory uses of lubritorium, car washing, sales of auto accessories and parking of cars awaiting service.

PREMISES AFFECTED—3900-3910 Bronxwood avenue, northeast corner of East 222nd street, Block 4858, Lots 27, 29 and 30. Borough of The Bronx.

APPEARANCES—

For Applicant: Paul Friedman.

For Opposition: Darwin W. Telesford.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioner Kleinert,

Commissioner Keating and Deputy Chief Connolly... 4

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 9, 1956 after due notice by publication in the Bulletin; laid over to November 14, 1956, at the request of the applicant, representative of objectors joining the request; no further request for adjournment considered; then to December 11, 1956, for inspection and decision; hearing closed; applicant to amend papers to include motor vehicle repairing and file a new decision including such use; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Bronxwood avenue and East 222nd street are in a residence use, C area, class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated May 22, 1956 acting on N.B. Applic. 1053-56, reads:

"1. Proposed use of gasoline service station, lubritorium, auto washing, non automatic, office, sales & storage of auto accessories, & parking of cars waiting to be serviced in a residence use district is contrary to Art. II, Sect. 3 of the Z. R."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 98.02 ft. in depth, now vacant; that it is proposed to erect and maintain for a term of fifteen years, a gasoline service station, lubritorium, non-automatic auto wash, office, sales and storage of auto accessories, and parking of cars waiting to be serviced; and

WHEREAS, the applicant states that as of July 25, 1916 the property was zoned as a residence use district and was rezoned for business use on March 13, 1925; that the present residence designation became effective October 18, 1949; that the height and area designations have not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the applicant contends that there is no economic demand for residential use development as the property is located at the intersection of Bronxwood avenue and East 222nd street, both major thoroughfares which sustain substantial volumes of automobile traffic; that there is an economic demand for use of the subject premises as a gas station, as it is situated on the intersection of two heavily travelled auto thoroughfares, because no similar facilities exist for the convenience of the neighborhood in the area

and because a grant of this application would result in a substantial investment to improve the property so as to yield a reasonable return on the owners' investment; that the property opposite the subject premises on the southerly side of East 222nd street is mostly vacant, as is the property opposite, on the westerly side of Bronxwood avenue; that the adjoining properties, north and east of the site, will be protected and buffered by the proposed fence wall and landscaping arrangements; that it is proposed to set back the proposed building 10 ft. from the easterly and northerly lot lines and to erect a 5 ft. 6 in. high brick fence wall, extending from the unpierced rear wall of the proposed building to the East 222nd street building line and along the East 222nd street building line for a distance of 10 ft.; that it is also proposed to erect a 5 ft. 6 in. high brick fence wall along the northerly lot line, adjoining the garages at the rear of the adjoining lots, for a distance of 60 ft., starting at the Bronxwood avenue building line; that it is also proposed to return this wall to the front of the building and to provide a 3 ft. 6 in. gate in this wall, so as to obtain access to the landscaped area; that the landscaped and seeded areas will aggregate 1667 sq. ft., or approximately 17% of the area of the plot; that the proposed gas station would have no adverse effect upon nearby properties; that the proposed building, set back 60 ft. from Bronxwood avenue and 23.02 ft. from East 222nd street, would promote public safety as it would give clear visibility to traffic at the intersections; that the area would be benefitted by the elimination of a vacant, debris-strewn lot, which is a potential health menace; and

WHEREAS, the applicant states that the present owner has held title to the property since September 23, 1955 and that the assessed valuation of land is \$8,800; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application should not be granted; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivisions e and h of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on N.B. App. 1053/56, Objection No. 1, dated May 22, 1956, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

452-56-BZ

APPLICANT—Frederick A. Ketcher, for Adolph C. Blochner, owner.

SUBJECT—Application June 26, 1956—(decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a local retail and residence use district the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—1172 Castle Hill avenue, east side, 53.06 ft. south of Gleason avenue, Block 3820, Lots 5, 6 and 12, Borough of The Bronx.

APPEARANCES—

For Applicant: Frederick A. Ketcher.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 30, 1956 after due notice by publication in the Bulletin; laid over to November 27, 1956, for inspection and decision; hearing closed; then to December 11, 1956, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in local retail and residence use, D area, class 1 height districts; Castle Hill avenue is in a local retail use, D area, class 1 height district; and

MINUTES

WHEREAS, the decision of the borough superintendent, dated June 8, 1956 acting on Alt. Applic. 585-56, reads:

"1. Proposed parking lot for more than 5 cars on a lot which is partly in a local retail use district and partly in a residence use district is contrary to Art. 2, Sec. 4-c and Sec. 3 of the Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 75 ft. frontage by 105.74 ft. in depth, irregular, on which is located a one story frame building, 12 ft. front by 8 ft. 6 in. in depth and two metal garages; that it is proposed to occupy the plot for the parking and storage of more than five motor vehicles; and

WHEREAS, the applicant states that on July 25, 1916 Castle Hill avenue was in a business use, 1¼ height and C area; that on April 26, 1945 it was changed to residence use, class 1 height district and D area; that on May 27, 1953 it was changed to local retail use, class 1 height district and D area (to date); that Gleason avenue is both a local retail use and residence use district and that only 5.21 ft. is in a residence district; and

WHEREAS, the applicant states that it is proposed to demolish the building and metal garages, grade the plot and erect a 5 ft. 6 in. chain link fence along the property lines where no adjoining walls or buildings occur; erect substantial bumpers along property lines; provide an entrance on Castle Hill avenue and an emergency side exit to Gleason avenue; install properly controlled lighting so as to prevent reflection into adjoining premises and to provide a frame office for the attendant; that it is further proposed, in addition to the legal rate sign as directed by the license department, to limit premises to one sign not to exceed 50 sq. ft., with the word "parking"; that this sign will be attached to the fence on Castle Hill avenue; that there will be no sign on Gleason avenue; that the entire plot will be surfaced with cinders, treated with a binder and be properly rolled and will be kept orderly and clean at all times; and

WHEREAS, the applicant contends that the taxes of \$1,080 per annum have placed a heavy financial burden on the owner; that the premises consist of an irregular shaped plot with a 25 ft. wide panhandle leading to Gleason avenue; that there are two rusted and unsafe metal garages and an old, dilapidated frame building which was built about 1899; that the irregular shape of the plot and its small area eliminate it as an apartment house site and the assessed valuation of \$27,000 precludes its use for any new residence construction; that the adjoining gas station, garage and repair shop is an obvious deterrent to its use for local retail shops; that because of these conditions the owner has not been able to develop this plot for any conforming use which would be economically sound; and

WHEREAS, the applicant further contends that because of the limited street parking in the day and the congested side street parking at night, there is a serious need for protected and safe off street parking in this area; that although only 8,200 sq. ft. could be made available, it would provide for a limited amount of off street parking and definitely contribute towards reducing the present traffic congestion, particularly on Fridays and Saturdays, and afford a great convenience to the neighborhood car owners; that the granting of this application for the temporary use would enable the owner to make reasonable use of his property without affecting any one adversely; and

WHEREAS, the applicant states that the present owner has held title to the property since September 21, 1951; that the assessed valuation of land is \$18,700 and of the building \$8,300 making a total of \$27,000; that the building was erected in 1899; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application

be and it hereby is *granted* under Section 7h for a term of five years, to permit the premises to be occupied for the parking of motor vehicles, substantially as proposed and indicated on plans filed with this application, marked "Received June 26, 1956", 3 sheets, *on condition* that all uses shall be removed and the plot shall be leveled substantially to the grade of the abutting street, constructed and arranged as indicated on such plans; that there shall be erected on the interior lot lines where walls of adjoining buildings do not occur, a woven wire fence of the chain link type erected on a masonry base to a total height of 5 ft. 6 in.; that similar fences shall be erected along the lot lines of Castlehill and Gleason avenues; that the hedge along the building line shall be preserved; that at Gleason avenue there may be an exit with a gate for emergency use only; that a gate shall also be installed at the exit and entrance to Castlehill avenue, which entrance may be 15 ft. in width and with curb cut opposite of similar width; that the gate to Castlehill avenue entrance shall be kept closed when the parking lot is not in operation; that during the term of this variance the premises shall be used for no other use and no building shall be erected thereon, except there may be a building erected not over 100 sq. ft. in area and one story in height for use only as an office and shelter for the attendant; that signs shall be restricted to a sign attached to the fence at the entrance, advertising the parking and storage use, the rates charged and such information as may be required by the Commissioner of Licenses; that such sign shall not be illuminated, and shall not exceed 15 sq. ft. in area and shall not extend beyond the building line; that the premises shall be surfaced with clean gravel or steam cinders, treated with a binder and properly rolled; that such portable fire fighting appliances shall be maintained as the fire commissioner shall require; that all permits required, including a certificate of occupancy, shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

453-56-BZ

APPLICANT—Frederick A. Ketcher, for Edlar Realty Corp., owner.

SUBJECT—Application June 26, 1956—re (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence use district, the parking and storage of more than 5 motor vehicles.

PREMISES AFFECTED—3511 Willett avenue, west side, 100.2 ft. north of Gunhill road and 3510 Olinville avenue, Block 4642, Lots 6 and 65, Borough of The Bronx.

APPEARANCES—

For Applicant: Frederick A. Ketcher.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 7, 1956 after due notice by publication in the Bulletin; laid over to December 4, 1956, for inspection and decision; hearing closed; then to December 11, 1956, for applicant to file revised plan, showing retaining wall, distance of house on lot, etc.; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Olinville avenue and Willett avenue is in a residence use, C area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated June 11, 1956 acting on Alt. Applic. 587-56, reads:

"1. Parking & storage of more than five motor vehicles in a residence use district is contrary to Art. II Sect. 3 of the Z. R."

MINUTES

and

WHEREAS, the applicant states that the premises consist of a plot, 63.36 ft. frontage by 190.37 ft. in depth, irregular; that the land is now vacant and it is proposed to occupy the plot for the parking and storage of more than five motor vehicles; and

WHEREAS, the applicant states that the owner has held title to lot No. 6 for six years and to lot No. 65 for 26 years; that the irregular shape of the plot and its location adjoining the gas station, eliminate its use for residential purposes; that this has placed a severe financial burden on the owner, who has not been able to develop this plot for any conforming use which would be economically sound; that the proposed offer by Kesbec, Inc. to improve this plot and operate it in conjunction with the adjoining gas station has been the only practical offer presented; that the granting of this application, for the temporary use, would permit the owner to make a reasonable use of his property without adversely affecting anyone; and

WHEREAS, the applicant further states that it is proposed to fill in and grade the plot substantially to the level of the fronting streets; that because of the difference in elevations along the property lines, several small areas will be graded at the angle of repose with adequate retaining wall; that substantial bumpers will be erected along all property lines except where entrance openings occur; that a 5 ft. 6 in. chain link fence will be erected along the building lines and the northerly lot line; that one entrance on each street will be provided and a 3 ft. wide access gate, for the convenience of the attendants, will be hung in the southerly fence; that the entire plot will be surfaced with cinders treated with a binder and properly rolled; that it is further proposed, in addition to the legal parking rate signs as required by the license department, to restrict the premises to two signs not to exceed 50 sq. ft. each, with the word parking; that one sign will be attached to the fence on Willett avenue and the other will be attached to the fence on Olinville avenue; and

WHEREAS, the applicant contends that because of the congested side street parking, particularly at night, there is a serious need for safe and protected off-street parking in this area; that although only 11,000 sq. ft. could be made available, it would be a definite contribution towards relieving the present traffic congestion and afford a great convenience to neighborhood car owners; that the proposed temporary use for parking will result in a decided improvement in the general appearance of the premises, will add to the character of the neighborhood and will inure to the comfort, convenience and safety of the public; and

WHEREAS, the applicant states that the present owner has held title to lot 65 since October, 1929 and to lot 6 since January, 1951 and that the assessed valuation of land is \$18,800; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years to permit the plot to be occupied for parking and storage as proposed and as indicated on plans filed with this application marked "Received June 26, 1956." 3 sheets, and "December 6, 1956", one sheet, *on condition* that the plot shall be leveled as proposed, with retaining wall toward the northerly side, and with gravel banks as may be necessary to carry out the grading plan; that the plot, where proposed for parking, shall be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that there shall be erected where shown where woven wire fences do not now exist, a woven wire fence of the chain link type not less than 5 ft. 6 in. in height, with no openings therein except one to Willett avenue and one to Olinville

avenue, where shown, with curb cuts opposite, each not over 15 ft. in width; that such entrance shall not exceed 15 ft. in width and each shall be fitted with a gate of construction similar to the fence; that such gates shall be kept closed when the parking lot is not in operation; that signs shall be restricted to a sign at each street, attached to the fence and not exceeding 15 sq. ft. in area, and not extending beyond the building line and not illuminated, advertising the parking use and the rates charged and such other information as may be required by the Commissioner of Licenses; that this plot may be operated in conjunction with the existing gasoline station on Lot #1 but shall not be deemed to be an extension thereof but there may be one pedestrian access gate in the southerly wall; that adequate bumpers shall be maintained for protection to fences; and that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the zoning resolution.

536-56-BZ

APPLICANT—Robert Gottlieb, for Casper R. Nevola, owner.

SUBJECT—Application August 1, 1956—re (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence use district, the use of a vacant lot for parking and storage of motor vehicles.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 7, 1956 after due notice by publication in the Bulletin; laid over to December 11, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and East 181st street are in a residence use, B area, class 1½ height district; Prospect avenue is in business and residence use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated July 18, 1956 acting on Alt. Applic. 748-56, reads:

"1. Parking & storage of motor vehicles in a residence use district is contrary to Art. II, Sect. 3 of the Z. R."

and

WHEREAS, the applicant states that the premises consist of a plot, 66 ft. frontage by 115 ft. in depth, now vacant; that it is proposed to use premises for the parking and storage of motor vehicles; and

WHEREAS, the applicant states that premises consist of a vacant corner plot about 5 ft. below grade, fronting 115 ft. on Prospect avenue and 66 ft. on East 181st street; that it is proposed to raise the ground approximately to sidewalk level and use it for the parking and storage of motor vehicles; that a small wooden attendant's shack would be built, a chain link fence would enclose the premises, and the top would be cinders, properly treated; that this proposed use is requested for a period of five years; and

WHEREAS, the applicant contends that the proposed parking lot would not in any way affect the neighborhood which is filled mainly by residences and old apartment houses without any facilities for auto parking; that the adjoining street, East 180th street, is filled with business buildings and a bus line runs along the street; that there is definitely a

MINUTES

shortage of parking space on that street; that as the neighborhood is old, the plot is not suitable for erection of a modern apartment house or private residences and as taxes are high, the granting of a variance would give some income to the owner and also help alleviate the parking situation in this crowded area; that the Board granted a variance under Cal. No. 269-55-BZ to permit parking on the small lot directly to the south (lot 33); that this is mainly used by the owner for his own cars; and

WHEREAS, the applicant states that the present owner has held title to the property since June 1956 and that the assessed valuation of land is \$3,800; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which recommended that the application be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years, to permit the premises to be occupied for the parking of motor vehicles, substantially as proposed and indicated on plans filed with this application, marked "Received August 1, 1956", 2 sheets, *on condition* that the plot shall be leveled substantially to the grade of the abutting streets, constructed and arranged as indicated on such plans; that there shall be erected on the interior lot lines where walls of adjoining buildings do not occur, a woven wire fence of the chain link type to a height of 5 ft. 6 inches; that where fences of substantially the same height exist, they may be permitted to remain; that there shall be an exit and entrance solely on Prospect avenue, 15 ft. in width which shall be equipped with gates that shall be kept closed when the parking lot is not in operation; that opposite such opening there shall be a curb cut of similar width; that during the term of this variance the premises shall be used for no other use and no building shall be erected thereon, except there may be a building erected not over 100 sq. ft. in area and one story in height for use as an office and shelter for the attendant; that signs shall be restricted to a sign attached to the fence at the entrance, advertising the parking and storage use, the rates charged and such information as may be required by the Commissioner of Licenses, that such sign shall not be illuminated, and shall not exceed 15 sq. ft. in area and extend beyond the building line; that the premises shall be surfaced with clean gravel or steam cinders, treated with a binder and properly rolled; that such portable fire fighting appliances shall be installed as the fire commissioner shall require; that proper bumpers shall be maintained against the fences, properly spaced therefrom for their protection; that all permits required, including a certificate of occupancy, shall be obtained and all work completed within six months from the date of this resolution.

560-56-BZ

APPLICANT—Charles V. Halley, Jr., for John J. Reynolds, Inc., owner (Gristede Bros. Inc., lessee).

SUBJECT—Application August 14, 1956—re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district, the extension of parking for patrons of a food market.

PREMISES AFFECTED—565-577 West 235th street, northeast corner of Netherland avenue, Block 3409, Lot 484, Borough of The Bronx.

APPEARANCES—

For Applicant: Charles V. Halley, Jr. and Archie M. Hertz.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 11, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Netherland avenue and 235th street are in local retail and residence use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated July 26, 1956 acting on Alt. Applic. 768-56, reads:

"1. Extension of parking area for patrons of food market in a residence use district is contrary to Art. II Sect. 3 of the Z. R."

and

WHEREAS, the applicant states that the premises consist of a plot, 113 ft. 5 $\frac{3}{8}$ in. frontage by 209 ft. 5 $\frac{1}{8}$ in. in depth, on which is now located a food market and retail stores, parking, loading and unloading space; that it is proposed to extend the present parking area for the benefit of the patrons of the food market; and

WHEREAS, the applicant states that the property is now in a local retail use, class 1 height and D area district; that as of July 25, 1916 the portion of the property within 100 ft. of West 235th street and Netherland avenue was zoned business and the remainder was zoned residence; that all of the property was in a 1 $\frac{1}{4}$ height district and B area district; that the present use district became effective May 8, 1952; that the present height and area district became effective January 14, 1954; present local retail district 150 ft. from West 235th street, then residence; and

WHEREAS, the applicant contends that it is a well known fact that most patrons who shop in large food markets usually use their automobiles; that unless off the street parking space is made available to them, such patrons would be compelled to seek parking space in the streets and nearby avenue; that this would result in congesting and overcrowding the streets with automobiles, creating traffic problems and causing hazardous and dangerous conditions to pedestrians; that the proposed extended parking area, which is within the owner's property lot lines and boundaries, will ease automobile traffic in the streets because patrons using the food market will be able to park in an area provided for that purpose; that the parking area is immediately adjacent to the food market; that it is pitched for proper drainage and the piping and traps are sewer connected, which would eliminate any accumulation of water; that no immediate residential neighbor or property owner would be adversely affected by the proposed extension of the parking area; and

WHEREAS, the applicant states that the present owner has held title to the property since April, 1954; that the assessed valuation of land is \$95,000 and of the building \$80,000 making a total of \$175,000; that the building was erected July 3, 1956; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variance* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c, to permit the extension of the parking area for use in connection with the one-story stores, as proposed and indicated on plans filed with this application, marked "Received August 14, 1956", 6 sheets, *on condition* that the extension of the plot shall be leveled substantially to the grade of the present parking lot, surfaced with clean gravel or steam cinders, treated with a binder and properly rolled; that there shall

MINUTES

be erected on the lot lines where walls of adjoining buildings and concrete retaining walls do not occur, a woven wire fence of the chain link type, not less than 5 ft. 6 in. in height; that bumpers shall be maintained for protection of such fences; that this portion of the parking lot as extended shall be used only in conjunction with the existing parking lot permitted by the Department of Buildings for use by employees and patrons of the adjoining stores; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

568-56-BZ

APPLICANT—Milton S. Zeiberg, for Helen Weiss, owner (Lawrence Parking Corp., lessee).

SUBJECT—Application August 16, 1956—re (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a business and residence use district, the proposed use of parking of motor vehicles.

PREMISES AFFECTED—927-939 East Tremont avenue, north side, 50 ft. west of Vyse avenue, Block 3126, Lots 3, 4 and 8, Borough of The Bronx.

APPEARANCES—

For Applicant: Milton S. Zeiberg.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings and John J. Saunders, Board of Education.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 7, 1956 after due notice by publication in the Bulletin; laid over to December 4, 1956, for inspection and decision; hearing closed; then to December 11, 1956, for report from applicant as to possibility of providing an emergency exit and for decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Daly avenue and Vyse avenue are in business and residence use, B area, class 1½ height districts; East Tremont avenue is in a business use, B area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated August 14, 1956 acting on Alt. Applic. 447-56, reads:

"1. Proposed use of parking of motor vehicles in a residence use district is contrary to Art. II Sect. 3 of the Z. R."

and

WHEREAS, the applicant states that the premises consist of a plot, 62.55 ft. frontage by 272 ft. in depth; that it is proposed to level, fence and comply with all requirements of the department of buildings for plot A, and to use the same for the parking and storing of more than five motor vehicles conjunctive with the similar use of plot B; that plot A adjoins plot B; that this proposal would deviate from the zoning resolution in that the proposed use for parking and storing of more than five motor vehicles is in a residence use zone, and the purpose of this proceeding is to obtain a variance of the use for the proposed purpose; and

WHEREAS, the applicant states that the premises with respect to the within appeal consists of an interior plot, 62.55 ft. by 202 ft. of vacant land, of block 3126, lot 8, which plot shall be referred to herein as plot A; that the adjoining premises consisting of 25 ft. by 43.22 ft. of block 3126, lot 4; 50.01 ft. by 100.3 ft. of block 3126, lot 3 and 45 ft. by 60 ft. irregular of Block 3126, lot 8, for which certificate of occupancy No. 18399, dated March 1, 1956, was issued as follows: live loads 0 vacant lot; use—parking and storage for more than five motor vehicles; note—no portion of lot,

located in residence use district, shall be used for any commercial purpose; that the plot described above for which certificate of occupancy has been issued shall be referred to herein as plot B; that the owners have leased the premises to Lawrence Parking Corporation who now conduct the business of parking and storing of motor vehicles on plot B; that plot A premises is located in a residence use district and plot B is located in a business and residence use district; that the entire premises is located in a B area, class 1½ height district; and

WHEREAS, the applicant contends that the proposed use will relieve the congestion caused by the parking of motor vehicles which is in excess of available street parking space; that garaging facilities in the neighborhood have been reduced recently by the demolition of existing garages to make way for the Cross Bronx expressway; that it is also anticipated that one side parking regulations will go into effect in a short time; that no curb cut is required for the use of plot A, as access thereto will be provided from the existing use of plot B; and

WHEREAS, the applicant states that the present owner has held title to lots 3 and 4 since April 20, 1955 and to lot 8 since October 18, 1948; that the assessed valuation of land is \$40,000 and of the building \$12,000 making a total of \$52,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years to permit the extension of the existing parking use within the business district into the more restricted district substantially as proposed and as indicated on plans filed with this application marked "Received August 16, 1956", 3 sheets, *on condition* that the plot shall be leveled substantially to the grade of East Tremont avenue and surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that there shall be erected on the interior lot lines, continuing the required fences on the lot lines in the business district, a woven wire fence of the chain link type not less than five feet six inches in height, with no openings therein; that proper bumpers shall be maintained against such fence for protection thereto; that such portable fire-fighting appliances shall be maintained as the Fire commissioner shall direct; that this portion of the plot shall be serviced as to entrance and egress by the existing entrance as permitted by the Department of Buildings to Tremont avenue; and that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the zoning resolution.

605-56-BZ

APPLICANT—Samuel Miller, for Episcopal Church of St. Peters, owner (Esso Standard Oil Co., purchaser under contract).

SUBJECT—Application September 5, 1956—(decision of the borough superintendent) under sections 7c, 7e, 7f and 7i of the zoning resolution, to permit in a residence, retail and restricted retail, D area district a gasoline service station, lubritorium, auto laundry (non automatic), minor auto repair shop with hand tools only and parking of motor vehicles awaiting service for a term of 15 years.

PREMISES AFFECTED—2511 Westchester avenue, northwest corner of St. Peters avenue, Block 3980, Lot 1, Borough of The Bronx.

APPEARANCES—

For Applicant: Joseph B. Lynch.

MINUTES

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 30, 1956 after due notice by publication in the Bulletin; laid over to November 27, 1956, for inspection and decision; hearing closed; then to December 11, 1956, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in residence, retail and restricted retail use, D area, class 1 height districts; St. Peters avenue is in restricted retail and retail use, D area, class 1 height districts; Tratman avenue is in a residence use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated August 8, 1956 acting on N.B. Applic. 402-56, reads:

"1. The erection and maintenance of a gasoline service station, lubritorium, auto laundry (non automatic), minor auto repair shop with hand tools and the parking of motor vehicles awaiting service partly in a residence use zone, partly in a restricted retail zone and partly in a retail zone is contrary to Art. 2, sections 3, 4B and 4A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 198.68 ft. frontage by 108.98 ft. in depth, on which is located a 2½ story frame dwelling, a two car garage, a wood picket fence and a line of hedges; that it is proposed to remove the frame dwelling and erect a gasoline service station; and

WHEREAS, the applicant states that the property in question is presently owned by the Episcopal Church of St. Peters, which is a religious corporation, with offices at 2500 Westchester avenue, in the borough of The Bronx; that subject to a zoning variance, Esso Standard Oil company proposes to purchase this property and erect thereon a modern one-stop gasoline service station; and

WHEREAS, the applicant further states that present zoning shows that the west side of Westchester avenue between St. Peters avenue and Overing avenue, for a depth of 100 ft. and parallel to same, is located in a retail use district; that the north side of St. Peters avenue from a point 100 ft. west of Westchester avenue and extending to Tratman avenue and parallel to same is zoned for restricted retail use; that the balance of the block bounded by Westchester avenue, St. Peters avenue, Tratman avenue and Overing avenue is zoned for residence use and that the entire block is zoned for class 1 height and D area; that on July 25, 1916 the plot in question was zoned for business use on both Westchester avenue and St. Peters avenue for a depth of 100 ft. parallel to same, with the balance being zoned for residence use; that also, on July 25, 1916 the plot, as well as the entire block was located in a class 1¼ height district and C area; that the business use was rezoned to retail and restricted retail on June 3, 1947 and the height and area were changed from class 1¼ height and C area, to class 1 height and D area, on April 26, 1945; and

WHEREAS, the applicant states that section 7A of the zoning resolution does not apply inasmuch as the proposed curb cut and ramp on St. Peters avenue will be within the first 25 ft. of the corner and the retail use abuts or adjoins restricted retail use and not residence zone along this street; that likewise, the application does not contravene section 21A of the zoning resolution; that the playground located on Tratman avenue between the south side of St. Peters avenue and the north side of Rowland avenue in block 3974, Lot 20, is in excess of one half acre; that however, the only entrance to same is located on Tratman avenue approximately 90 ft. from St. Peters avenue and this distance is in excess of the distances prescribed in section 21A; that along Trat-

man avenue from the aforementioned entrance or exit gate and returning along the entire depth of the playground on St. Peters avenue, there exists a cyclone type (chain link) fence between 12 ft. and 15 ft. in height, with no openings therein; and

WHEREAS, the applicant states that existing conditions show a 2½ story frame dwelling with cellar which is now vacant and was formerly used as the parsonage for the Church, which is located across Westchester avenue; that there also exists a two car garage of masonry construction as well as numerous trees and privet hedges, a wood board fence along St. Peters avenue, a wood picket fence along Westchester avenue, a 6 ft. high chain link wire fence on a stone retaining wall along the rear or west side of the plot, and returning approximately 10 ft. along the northerly lot line; that continuing along the northerly line to Westchester avenue, there are hedge trees about 12 ft. high; that on the northerly side of the hedges, which is the property of the owner of the adjoining funeral home, there is a 3 ft. high wood picket fence; that the plot is generally two to three feet above the grade of the surrounding streets and the sidewalks on both streets are paved in part with blue stone flags and the street curbs are in reasonably good condition; that the six story multiple dwelling fronting on Tratman avenue is about 8 ft. from the westerly lot line and the existing 6 ft. high woven wire fence on the stone retaining wall, which it is proposed to retain, acts as a suitable buffer; that the funeral home located to the north will be protected by the present 12 ft. high hedge trees, which it is also proposed to retain; that the Huntington Library and Reading room, located at No. 9 Westchester square in block 3981, lot 2 at the northwest corner of Overing street and Westchester square (Westchester avenue and/or Lane avenue) consists of a free reading room with daily hours from 2 P. M. to 5 P. M. except Saturdays, Sundays and holidays; that this so-called library was established about 1895; that the nearest entrance from the plot in question is more than 230 ft. and this entrance consists of a 3 ft. gate, normally locked, used for an emergency entrance; that the main entrance gate is located on Lane avenue and is more than 350 ft. from the subject plot and same is not on the same street between the same intersecting streets; and

WHEREAS, the applicant also states that the proposed work consists of demolishing the present 2½ story frame building and the two car masonry garage; the levelling of the plot, except that portion used for planted areas, substantially to the grade of Westchester avenue; the repairing or replacing of the present sidewalks and curbs; the erection of a one story accessory building for use as a sales office, rest rooms, combination heater and store room and three service bays for lubrication, non-automatic car washing and minor repairs and adjustments with hand tools only; that the building will be of masonry construction finished with face brick and porcelain trim on the two street fronts; that the building will be set forward 20 ft. from the west line which adjoins the six story multiple dwelling and will also be set in from St. Peters avenue approximately 61 ft.; that existing interior lot line fences will be used as shown on plan filed with this application; that it is also proposed to erect a new chain link fence 3 ft. 6 in. high on a 1 ft. high masonry base from the rear of the plot for a distance of 50 ft. along the building line of St. Peters avenue; that 12 gasoline tanks together with 2 pump islands and 5 dispensing pumps will be installed; that the pumps will be of the low approved type and will be set back a minimum distance of 15 ft. from the lot line of Westchester avenue; that one 550 gallon fuel oil tank for an approved type Gilbert & Barker ceiling suspended furnace will also be installed; that suitable planted areas will be provided and the yard area where not used for planted spaces will be paved with asphaltic concrete; that one post standard with an "Esso" brand sign will be located at the intersection; that curb cuts will consist of one 20 ft. cut on St. Peters avenue within the first 25 ft. of the corner, and three 30 ft. cuts on Westchester avenue; that no curb cut will be within 5 ft. of any lot line as extended; and

MINUTES

WHEREAS, the applicant contends that present legal or otherwise non-conforming uses include the parking of cars in block 3981, lots 10 and 11 for employees and customers of the Bronx Savings bank, as permitted by the Board under Cal. No. 604-52-BZ for a term of fifteen years on November 18, 1952; that the Board also granted a variance for a gas station under Cal. No. 116-56-BZ, for a term of fifteen years, in block 3974, lot 1 at the northwest corner of Westchester avenue and Rowland street; that at No. 2463 Westchester avenue in block 3974, lot 53, there exists an auto showroom, garage and repair shop; that abutting the plot in question on the north and fronting on Westchester avenue for a distance of 145 ft., there exists the Thomas C. Bible funeral home and grounds; that while this funeral home and grounds extend into the residence zone, it must be considered a legal non-conforming use inasmuch as it was established prior to effective zoning on July 25, 1916; that also located in block 3974, lots 43 and 48, at the southwest corner of Westchester avenue and St. Peters avenue, there is the former I.R.T. sub-station and power house which premises are now under the jurisdiction of the Transit authority; that the plot, which extends in part into a restrictive retail zone, is also a legal non-conforming use since it was established before July 1916; that in addition, across Westchester avenue from the plot under consideration, there exists the Episcopal Church of St. Peters and a cemetery burial grounds; that this plot extends along Westchester avenue for a distance of about 683 ft. between Seabury avenue and Herschell street; that also located in block 3858 in lots 1, 5, 8, 9, 12 and 40, at the northeast corner of Westchester avenue and Seabury avenue, there is a licensed parking lot for 270 cars; that the stores in the neighborhood along Westchester avenue are used generally for industrial and wholesale purposes such as warehousing and distribution, cabinet making, automobile accessories, sheet metal and junk shop; and

WHEREAS, the applicant further contends that there is no economic demand for the use of the subject premises with a use permissible in a retail use district, such as retail stores or residences, as is evidenced by the type of occupancy in the stores already in existence, but there is an economic demand for the use of the premises as a gas station; that there is an elevated railroad along Westchester avenue in front of the site and all along the affected area, and this structure acts as a deterrent to development with a conforming use; that in addition, Westchester avenue is a heavily travelled thoroughfare which sustains a substantial volume of transient traffic, so that an attractive gas station could be constructed at a substantial capital investment and would yield a reasonable return; that the proposed gas station will not adversely affect the surrounding area but will be in harmony with nearby non-conforming uses; that the proposed use will provide an open and attractive area and will thus insure to owners of adjacent properties permanent light and air, which such properties would not derive from a large conforming structure; and

WHEREAS, the applicant states that the present owner has held title to the property since January 17, 1886; that the assessed valuation of land is \$42,500 and of the building \$7,500 making a total of \$50,000; that the building was erected in 1886; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e, f and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Sections 7e and 7i for a term of fifteen years, to permit the premises to be occupied as a gasoline service station and accessory uses, substantially as proposed and indicated on plans filed with this application, marked "Received October 22, 1956," 4 sheets, on condition that all existing buildings and uses shall be removed and the premises shall be leveled substantially

to the grade of Westchester avenue; that the accessory building shall have no cellar and shall be of the design and arrangement as indicated, except that the doors to toilet rooms shall not be contiguous; that this building shall be located where shown and the space in back for the distance shown shall be landscaped with suitable material, properly protected by a concrete curbing not less than 6 in. in width and 8 in. in height; that along the rear lot line to the west, the present retaining wall may be continued, provided a fence of the woven wire chain link type not less than 5 ft. 6 in. in height is erected thereon; that along the lot line to the north there shall also be a similar chain link woven wire fence of the chain link type of the same height; that any hedges shall be maintained; that along the side lot line to the south, a fence 75 ft. in length, where shown, shall be erected on a 12 in. masonry wall to a total height of 5 ft. 6 in.; that curb cuts shall be restricted to three to Westchester avenue, each 30 ft. in width, located where shown, and one curb cut located within the 25 ft. from the intersection of St. Peters avenue, 20 ft. in width; that at the intersection, within the building line, there shall be erected a block of concrete at least 12 in. in height, extending for 5 feet along each street; that sidewalks and curbing abutting the site shall be repaired or reconstructed to the satisfaction of the Borough President; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that the number of gasoline storage tanks shall not exceed twelve 550 gallon approved tanks; that the premises where not occupied by accessory building, pumps and planting shall be paved with concrete or asphalt; that signs shall be restricted to permanent signs attached to the accessory building, and the globes of the gasoline pumps, excluding all roof signs and temporary signs, but permitting the erection at the intersection Westchester and St. Peters avenue of a post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline sold, and permitting such sign to extend beyond the building line not more than 4 feet; that under section 7i for a similar term, there may be minor repairing with hand tools only for adjustments, maintained solely within the accessory building; that under section 7h for a similar term, there may be parking of cars, provided same are so parked as not to interfere with the servicing of the station; that all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

Adjourned: 4:00 P. M.

JOSEPH J. DOYLE, *Chief Clerk*.

REGULAR MEETING

TUESDAY AFTERNOON, DECEMBER 11, 1956, 2 P.M.

Present: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly.

634-52-A

APPLICANT—Lama, Proskauer and Prober, for Samuel Margolin, owner. (Tells Dept. Stores, Inc., lessee).

SUBJECT—Application for consideration—reopening for amendment of resolution as to fire alarm system—re Appeal from a decision of the borough superintendent; previously granted on condition.

PREMISES AFFECTED—1333-1339 Broadway and 1-13 Linden street, northwest corner (cellar and 1st floor), Block 3321, Lot 52, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal reopened and resolution amended.

MINUTES

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on June 30, 1953, on certain conditions; and

WHEREAS, the applicant requested an amendment to the preamble to the resolution adopted by the Board on January 30, 1953, for the purpose of omitting the statements made by him that the sprinkler system is connected to fire headquarters through a central station and that at the present time there is no fire alarm system and no fire drills are maintained, but the owner proposes to install a fire alarm system and maintain fire drills.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on June 30, 1953, by adding thereto:

"that the requirements as to installation of a fire alarm system and maintenance of fire drills shall be complied with and such system shall be installed and maintained in addition to the central station connection for the sprinkler system." (Alt. 1878/52)

997-55-A

APPLICANT—Hal I. Mirowitz, for Kate A. Fielding, owner.

SUBJECT—Application December 19, 1955—Appeal from a decision of the borough superintendent; re frame building—use of more than 2 stories for living quarters.

PREMISES AFFECTED—112-01 208th street, southeast corner of 112th avenue, Block 10985, Lot 18, Queens Village, Borough of Queens.

APPEARANCES—

For Applicant: Hal I. Mirowitz and Kate A. Fielding.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated December 8, 1955, on Alt. App. 715/55 reads:

"1. The use of more than two stories for living quarters in a two-family frame residence is contrary to Section 8.7.2.1 of the Building Code."

and

WHEREAS, the applicant states that the building is two stories and attic, 28 ft. in height, 20 ft. front by 42 ft. in depth, at first floor; 20 ft. front by 28 ft. depth at second floor, of class 4 construction, erected 1907, located on a lot 32.50 ft. front by 100 ft. in depth, in a residence use, E-1 area, class ½ height district, and used and occupied since 1938: cellar—household storage; 1st floor—dwelling, one family in conjunction with second floor; attic: dwelling, one family; no change in use or occupancy is now proposed; the building is provided with one 2ft. 10 in. wide interior wood stairs, enclosed in partitions of wood lath and plaster equipped with wood doors which are not self-closing; there is one fire escape at the rear, extending to yard by ladder; and

WHEREAS, Violation No. 1069 was issued February 24, 1955 for installing plumbing without filing plans or securing permission from the Department of Buildings; and

WHEREAS, the owner states that she has been living in this building since 1931; that in February or March, 1938, the dwelling was converted to a two-family dwelling; that an architect and contractor were retained to perform the work consisting of three rooms and kitchen and bath on the third story which had been a former attic; that all the necessary inspections were passed at that time; that on

February 4, 1955 she received a notice of complaint that a multiple dwelling violation existed; that the occupancy of the building is the occupancy by her daughter and her daughter's husband and herself, occupying the first and second floors combined, and the attic by a separate tenant; that the complaint of the Department of Buildings was later changed to: installing a kitchen on the third floor of a frame dwelling without permission; that the architect who drew and filed the plans in 1938 neglected to show a kitchen and the owner knew nothing of this condition until the notice was received from the Department of Buildings; that an architect was engaged to draw up corrected plans, which were filed and approved, and the building and plumbing inspectors examined the property and passed it in May of 1955; that on July 15, 1955, notice was received that such approval had been cancelled and certificate of occupancy could not be obtained for the reason that the Code enacted in January 1938 did not permit an apartment on the third floor of a frame dwelling; that the owner signed a contract for the installation of a fire escape and surfacing of the exterior of the dwelling in stone and fire-proof shingles for extra protection; and

WHEREAS, the applicant contends that she needs the income from the attic apartment to sustain herself since she is dependent entirely on Social Security and it is therefore requested that the Board permit the continuance of the occupancy of the attic apartment as it has existed for the past 17 years; and

WHEREAS, the records of the Department of Buildings indicate that the building was erected under approved N. B. App. 7337/37 as a dwelling arranged for occupancy by one family and that under Slip Applic. 5012/28 a one car accessory frame garage was erected on the rear of the lot and that certificate of occupancy No. 34635 was issued; and

WHEREAS, Alt. App. 715/55 was filed with the borough superintendent approximately March 24, 1955, to legalize the two-family dwelling approved under Alt. App. 1694/38 and to obtain a certificate of occupancy for same; that this application was approved by the borough superintendent May 20, 1955, and permit issued June 1, 1955; the specification sheet as approved by the borough superintendent contains the notation, "Work done under Alt. App. 1694/38, but no CO obtained", in connection with this alteration application the plumbing inspector stated that the plumbing work was existing and installed prior to inspection and that it was installed in a satisfactory manner; and

WHEREAS, application for certificate of occupancy was filed May 27, 1955 and the work was signed off by the inspector June 9, 1955; and

WHEREAS, the borough superintendent issued the following decision under date of July 13, 1955 to the owner,

"This letter is to inform you that approval given on Alteration #715-55, on May 20, 1955, to legalize two-family dwelling approved under Alteration 1694/38, is hereby revoked, the reason for this revocation being that since January 1st, 1938, according to Section C26-536.0, it is unlawful to use more than two stories for living quarters in two-family frame residence buildings."

and

WHEREAS, the Acting Borough Superintendent advised the Board under date of August 26, 1955, that Alt. App. 715/55, filed with the department March 24, 1955, to legalize two-family dwelling approved under Alt. App. 1694/38, was approved May 20, 1955; that however, the engineer reported that the alteration was approved in error and requested the revocation of such approval; that on July 13, 1955, a letter was addressed to the owner revoking the approval granted on such application for the reason that since January 1, 1938, under Section C26-536.0 it was unlawful to use more than two stories for living quarters in a two family frame residence building; and

WHEREAS, records of the department filed under Alt. App. 1694/38, have not been made available to the Board; and

WHEREAS, the premises was inspected by a committee of the Board.

MINUTES

Resolved, that the decision of the borough superintendent, dated December 8, 1955, acting on Alt. App. 715/55, Objection #1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the fire escape on the rear of the building, consisting of a balcony on the attic storey and fire escape and balcony from approximately the second storey with drop ladder to grade shall be maintained so as to provide a second means of exit from the attic storey; and that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto and shall be occupied by no more than two families.

127-56-A

APPLICANT—James E. Casale, for Montmoor Corp., owner.

SUBJECT—Application February 24, 1956—Appeal from a decision of the borough superintendent—re non-fireproof building, commercial use, exits, etc.

PREMISES AFFECTED—22 East 67th street, south side, 44 ft. west of Madison avenue, Block 1381, Lot 58, Borough of Manhattan.

APPEARANCES—

For Applicant: James E. Casale.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated February 17, 1956, on Alt. App. 1518/55 reads:

"1. Proposed change in use from class A MD to commercial for this class 3, 6 story building is contrary to 4.2.1 B.C. since the 4 story and 50' limitations are exceeded.

"2. Exits inadequate under 6.1.5 and 6.1.7 B.C."

and

WHEREAS, the applicant states the building is 5 stories, and basement, 69 ft. 9½ in. in height, 24 ft. front by 92 ft. in depth, at street level, 24 ft. front by 72 ft. 5 in. in depth at typical floor level, of class 3 construction, erected prior to 1899, located on a lot 24 ft. front by 100 ft. 5 in. in depth, now in a restricted retail use, B area, class 1½ height district and used and occupied since 1944 as follows—cellar—boiler room and storage; basement—display, 2 persons; 1st floor—retail display and one apartment, 2 persons; 2nd, 3rd, 4th and 5th floors—one apartment per floor; proposed to be used and occupied as follows—cellar—boiler room and storage; basement—display and office, 3 persons; 1st floor—display and office, 4 persons; 2nd to 5th floors, offices, 4 persons each floor; the building is provided with a one-source sprinkler system in the stairhall and under the stair soffits in accordance with Sect 187 of the Multiple Dwelling Law; there is one interior stairs, 2 ft. 8 in. and 4 ft. in width, enclosed in partitions of studs and plaster, equipped with ¾ hour fireproof self-closing doors; and

WHEREAS, Certificate of Occupancy #30289 was issued May 5, 1944, against Alt. App. 541/43, describing the building as a hereafter converted class A multiple dwelling and permitting the following uses—cellar—storage; basement—storage and display, 4 persons; 1st floor—one apartment, display space, retail trade; 6 persons; 2nd floor—one apartment; 3rd floor—two apartments; 4th floor—2 apartments—5th floor—one apartment; and

WHEREAS, the applicant states the building was erected prior to 1899 as a private residence and altered in 1937 to business use on the basement and 1st floor and the balance of the building as a converted multiple dwelling consisting of six housekeeping apartments; that in 1944 a new certificate of occupancy was obtained permitting the second floor to be used as retail display and one apartment; and

WHEREAS, the applicant states that the building is provided with wood stairs, 4 ft. wide from street to 4th floor; these stairs are elliptical but do not contain sharp winders or narrow treads; that from the 4th to 5th floor there is a 2 ft. 8 in. wide iron stairs; that access to the roof is by means of a 26 inch iron stair leading to a terra-cotta bulkhead; and

WHEREAS, the applicant contends that the egress facilities are not inadequate inasmuch as the building is less than 2,500 sq. ft. in area and less than 75 ft. in height; that the proposed occupancy, from 4 to 8 persons per floor, is well within the limits of one person for each 50 sq. ft. of floor area; that under normal conditions, a similar building would require but one stairway from street to roof; that the existing stairs are within a partition of studs, rock lath and plaster, and the entire enclosure, including stair soffits, is protected by a multiple dwelling type sprinkler system; that all doors to the stair enclosure from office space are to be made ¾ hour fireproof self-closing; existing elevator doors and 1½ hour fireproof doors made self-closing; that the occupants of the building will be individual concerns but no manufacturing or storage of combustible materials will be permitted; it is therefore requested that a variance be granted to permit the use of the premises as indicated on plans filed with this appeal; and

WHEREAS, Violation 3594 was issued May 22, 1956, for changing the arrangement, use and occupancy of the building contrary to certificate of occupancy; and

WHEREAS, the premises was inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the decision of the borough superintendent, dated February 17, 1956, acting on Alt. App. 1518/55, Objections 1 and 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, to permit the change of use to a commercial building, as proposed and with exits as shown on plans filed with this appeal, marked "Received February 24, 1956", 13 sheets and "October 10, 1956", 2 sheets, *on condition* that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto.

439-56-A

APPLICANT—A. H. Salkowitz, for Woodside Savings and Loan Association, owner.

SUBJECT—Application June 19, 1956—Appeal from a decision of the borough superintendent, re egress, stairways, etc.

PREMISES AFFECTED—39-46 61st street, west side, 78.23 ft. north of Roosevelt avenue, Block 1229, Lot 119, Woodside, Borough of Queens.

APPEARANCES—

For Applicant: A. H. Salkowitz.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated May 27, 1956, on Alt. App. 1095/53 reads:

"1. The means of egress from the first floor as indicated on the plans is contrary to Section 6.1.2.2.2, 6.1.2.4 (1), 6.2.2.4(4) Bldg. Code.

2. Provide stairway enclosure from 2nd story as per 6.4.1.8.1 Bldg. Code.

3. Provide scuttle and ladder to roof as per 6.4.1.11 Bldg. Code."

and

MINUTES

WHEREAS, the applicant states the building is 1 story, 16 ft. in height, 24 ft. 10 in. front by 60 ft. in depth, of Class 3 construction, erected in 1949 on a lot 25 ft. front by 100 ft. in area, in a business use, B area, Class 1 height district; used and occupied since 1949: cellar—boiler room, 0 persons; 1st floor—bank, 11 persons; and

WHEREAS, it is proposed to increase the building to two stories, 27 ft. in height, 25 ft. by 100 ft. in depth at 1st floor and 25 ft. front by 90 ft. in depth at 2nd floor and to use and occupy the altered building as follows: cellar—boiler room, number of persons not stated; 1st floor—bank—11 persons; 2nd floor—bank and offices, 5 persons. The building is provided with one fireproof 3 ft. wide steel stairs, enclosed in fireproof blocks, equipped with fireproof, self-closing doors. Stairhall will not lead directly to street; and

WHEREAS, Certificate of Occupancy #Q55379 was issued May 24, 1949, against N.B. App. 2978/48 for the existing building, permitting the use and occupancy thereof as follows: Cellar—boiler room, number of persons not stated; 1st floor—bank, 5 persons; and

WHEREAS, the applicant states the existing building is constructed of masonry walls, steel joists, roof beams and incombustible roof slab; that it is proposed to erect the addition entirely fireproof, erect a glass-enclosed lobby at front which will provide access to first floor bank area and the second floor bank-office area; that to be required to provide additional exits or enclose the stair would be impractical and interfere with the operation of the bank; that an additional stair will be provided from first floor leading to second floor at rear of the bank and down to the existing boiler room; that the interior stair leading to cellar will be entirely enclosed; and

WHEREAS, the applicant contends that strict compliance with the law would cause unnecessary hardship to the owner, in curtailing the volume of business handled and that no other location for the expansion of bank facilities is available and it is therefore requested that a variation be granted permitting this extension and use as herein proposed and indicated on filed plans; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the decision of the borough superintendent, dated May 27, 1956, acting on Alt. App. 1095/53, Objections 1, 2 and 3, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that revised plans marked "Received December 7, 1956", (7 sheets), shall be carried out and the entire building used as proposed for bank occupancy without other tenants; that the building shall not be further increased in height or occupancy and in all other respects shall comply with all laws, rules and regulations applicable thereto.

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 17, 1956, only so far as it refers to the proposed elevators so that as *amended* this portion of the resolution shall read:

"that in the event the owner desires to omit the elevators and substitute ramps as now proposed and as shown on plans filed with this request for amendment marked "Received November 26, 1956" (2 sheets), such change may be made as passed on by the Borough Superintendent under Alt. App. 1398/55, Objection dated December 7, 1956, *on condition* that in all other respects the resolution above cited shall be complied with and the construction of the ramp shall meet all requirements of the Code therefor."

359-56-BZ

APPLICANT—Voorhees Walker Smith & Smith, for Seatlantic Fund, Inc., owner of land. (The Protestant Center—owner of bldg. and lessee of land.)

SUBJECT—Application for consideration—reopening for amendment of resolution—re Application (decision of the borough superintendent); previously granted on condition, under section 21 of the zoning resolution, permitting in a residence use B area, Class 1½ height district, the erection of an 18 story office building of Class 1 construction, exceeding the permissive coverage, height limit exceeding the permissive height limit.

PREMISES AFFECTED—470-476 Riverside drive, east side, 621-635 West 119th street, 620-634 West 120th street, and 61-79 Claremont avenue, Block 1991, Lot 1, Borough of Manhattan.

APPEARANCES—

For Applicant: Joseph B. Klein.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE RESOLUTION—

WHEREAS, this application was granted by the Board on July 24, 1956, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 24, 1956 by adding thereto:

"that in the event the owner desires to install an off-street loading berth as now proposed and as shown on plans marked "Received December 3, 1956" (one sheet), as passed on by the borough superintendent under N.B. App. 43/56, Objection dated November 20, 1956, such loading berth, in the location as shown, may be permitted under Section 19A(j) *on condition* that in all other respects the resolution above cited shall be complied with."

1202-21-BZ—Vol. IV

APPLICANT—Leonard F. Rothkrug, for Automotive Craftsmen, Inc., owner. (All Star Metal Finishing Company, lessee).

SUBJECT—Application for consideration—reopening as Vol. IV to consider change of use, subject to regular procedure—re Application (decision of the borough superintendent); previously dismissed, under section 7i of the zoning resolution, to permit in a residence and business use district, the proposed change from storage garage for more than five motor vehicles to five car garages and one six car garage, to storage garages for more than five motor vehicles, body and fender work, spraying, welding, auto repairs, office, storage of parts, locker room, seven one car garages, one two car garages and six car garage.

PREMISES AFFECTED—2714 Beverly road, southwest corner of 200-222 East 28th street and the northwest corner of 2713-2723 Cortelyou road, Block 5171, Lot 5, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened as Vol. IV subject to the regular procedure to consider change of use.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

APPLICANT—Harry Silverman, for Grand Central Gar-
age Corp. and Ginsboro Garage Corp., owners.

SUBJECT—Application for consideration—reopening for
extension of time to complete which expired July 26, 1956
—re Application (decision of the borough superintendent);
previously granted on condition, under sections 7c and 21
of the zoning resolution, permitting in a residence and
business use B area district, the change in use of cellar of
142 East 41st street, lot 44, from storage to storage gar-
age and also to provide openings in wall of building to
east on lot 41 and also to use the roof of building at
144-148 East 41st street, lot 41, for parking of cars and
permitting the extension of garage use into proposed
newly excavated cellar and newly constructed fireproof
roof at 145-147 East 40th street, lots 29 and 30 (building
to be reduced to one story) and permitting the extension
in rear of building using more than the area permitted.

PREMISES AFFECTED—142-148 East 41st street south
side and 145-147 East 40th street, north side, 100 ft. west
of 3rd avenue, Block 1295, Lots 29, 30, 41 and 44, Borough
of Manhattan.

APPEARANCES—

For Applicant: Harry Silverman.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application reopened to amend the
resolution as adopted by the Board on July 26, 1955, and
to set for hearing on January 8, 1957, at 10 a.m., subject
to the regular procedure waiving all requirements except
a new decision of the Borough Superintendent, which has
been filed, and two publications in the Bulletin, as notice,
in view of the time to complete having expired on July
26, 1956.

JOSEPH J. DOYLE, Chief Clerk.

COURT DECISION

(Continued from Page 2053)

matter. On March 1, 1951, the Board of Estimate of the City of New York adopted a map laying out a proposed Atlantic Avenue Extension from Van Wyck Boulevard to Liberty Avenue. 80% of the plaintiff's property lies within the bed of the proposed street.

In 1954 plaintiff applied for a building permit for erection of a non-storage garage, a permitted use under the Zoning Ordinance. The application was denied by the Borough Superintendent on the ground that a building in the bed of the street was prohibited by Section 35.

On January 2, 1955, an application was filed with this Board, pursuant to Section 35 of the General City Law, from the decision of the Borough Superintendent, denying permission to erect a non-storage garage in the bed of a mapped street, premises 94-66—158th Street, south side, 22.45 ft. West of Atlantic Ave., Jamaica, Borough of Queens, Cal. No. 7-55-A.

On September 27, 1955, the Board granted this appeal for the erection of said non-storage garage on the premises extending into the bed of the proposed Atlantic Avenue Extension as proposed and indicated on plans filed on condition that, among other conditions imposed, in the event of condemnation, the cost of the building as determined by the court shall amortize over a term of ten years at the rate of ten per cent per year starting from the completion of the building.

On November 10, 1955, a Summons and Complaint was served on the Board by attorney for owner, seeking a review of the Board's determination on September 27, 1955.

At Special Term, Supreme Court, Mr. Justice Rabin granted plaintiff's motion for summary judgment, denying defendant's cross-motion, in the following decision (N. Y. L. J. August 22, 1956, page 6):

"In this action for a declaratory judgment in which plaintiff seeks to have section 35 of the General City Law declared unconstitutional in its application to her property, plaintiff now moves for summary judgment, and defendants cross-move for summary judgment.

Plaintiff is the owner of a parcel of vacant land located at No. 94-66 One Hundred and Fifty-eighth street in the County of Queens. She acquired title thereto on June 16, 1952, by foreclosing a transfer of tax lien which she had purchased from the defendant City. Plaintiff's property lies in an unrestricted use district in which the erection of a non-storage garage is permitted by the zoning ordinance.

On March 1, 1951, the Board of Estimate of the City of New York adopted a map laying out the confines of the proposed Atlantic Avenue Extension from Van Wyck boulevard to Liberty avenue. More than 80 per cent of plaintiff's property lies in the bed of said proposed street.

Sometime prior to December 30, 1954, plaintiff applied for a building permit for the erection of a non-storage garage, but on that date her application was denied on the ground that the erection of a garage in the bed of a mapped street is forbidden by section 35 of the General City Law.

Thereafter, plaintiff appealed to the Board of Standards and Appeals for a variance and after a hearing that board granted a variance on condition: 'that the building shall in all other respects meet all other requirements of all other laws applicable thereto; that in the event of condemnation the cost shall be amortized over a term of ten years at the rate of ten per cent per year starting from the completion of the building.'

Plaintiff's property has not been taken in condemnation proceedings and, of course, she has not been compensated in any way for the restrictions placed on the use of her property. She has been paying taxes on it, but has derived no income therefrom.

In support of her motion for summary judgment, plaintiff submits an affidavit by a professional engineer, who is also the architect who designed the proposed building for the plaintiff. He states that the proposed building was to be a brick and steel one-story garage fifteen feet high and 25x100 feet in area. In his opinion, the minimum useful life of the proposed building would be fifty years. This estimate is not controverted in the opposing affidavit.

Plaintiff contends that the conditions upon which the variance was granted constitute an onerous and confiscatory burden and, in effect, constitute the taking of her property without just compensation in violation of the Federal and State Constitutions.

The first point in defendants' brief is: 'Section 35 of the General City Law standing by itself is a lawful exercise of the police power and does not violate the Constitution.' (Emphasis supplied.) Assuming the truth of this proposition, it is not decisive either of this action or of this motion for General City Law, section 35, is not being considered in the abstract, but in its application to the facts of this case. If the defendants have so restricted plaintiff's use of her property that it cannot be used for any reasonable purpose for an indefinite period of time, then they have acted beyond the bounds of permissive regulation and their action constitutes a taking of the property (Arverne Bay Const. Co. v. Thatcher, 278 N. Y., 222, 232).

Defendants' second point is that the restriction imposed by the Board of Standards and Appeals does not render the statute unconstitutional with respect to plaintiff's property. In support of this proposition, defendants cite Van Gellow v. City of Rochester (190 Misc., 128, 71 N. Y. S., 2d, 672). In that very case, however, which involved merely setting back new buildings ten feet from the building line, the court said: 'It is true that no valid condition could be imposed requiring plaintiffs, their successors or assigns, to surrender the right to just compensation in event that the City should later condemn the ten-foot strip.' In the same case, the court also said: 'While the zoning board of appeals could not, unless the evidence before it were to be widely different from that which is now before the Court, refuse to permit the construction of show-rooms on the ground floor up to the existing street line, nor impose as a condition thereof that plaintiffs should waive the right to just compensation when and if the street is widened. * * *' (Emphasis supplied.) But that in effect is exactly the condition that the Board of Standards and Appeals imposed here. Plaintiff is to receive no compensation for the building if condemnation takes place more than ten years from the completion thereof, though it may still have a useful life of forty years. If the condemnation takes place sooner, plaintiff's compensation will be reduced by 10 per cent. for each year that has elapsed, although proper depreciation would be closer to 2 per cent.

It is clear that the application of the law to plaintiff's property under the conditions imposed constitutes the taking of her property without just compensation.

Defendants' third point is that plaintiff's remedy should be a review of the board's action by certiorari rather than by this action for a declaratory judgment. Suffice it to say that an action for a declaratory judgment is a proper remedy available to the plaintiff (Vernon Park Realty, Inc., v. City of Mt. Vernon, 307 N. Y., 493, 500; Arverne Bay Construction Co. v. Thatcher, 278 N. Y., 222, 227; Baddour v. City of Long Beach, 279 N. Y., 167, 177).

Defendants attempt to distinguish this case from cases where a variance was denied on the ground that in this case the Board of Standards and Appeals granted a variance upon certain conditions. The conditions, however, are confiscatory in part during the first ten years, completely after the tenth year.

Defendants' fourth point is that a question of fact is presented as to whether the condition imposed by the Board of Standards and Appeals is reasonable. They contend that the presence of an issue of fact renders an action for declaratory judgment improper. Questions of fact can be determined in actions for declaratory judgments, as well as in any other actions (cf. Rule 213, R. C. P.).

The presence of an issue of fact would, of course, require a denial of the motion for summary judgment. In this case, however, no issue of fact is presented where the Board arbitrarily set a ten-year life expectancy on a building which would normally stand for fifty years. Defendants have not controverted plaintiff's engineer's affidavit. Moreover, defendants at page 26 of their brief state: 'The value of the building at any given time will vary. What that value will be ten years after its completion is necessarily an issue of fact.' But the board arbitrarily set that value as naught. What the value may be if and when the City condemns the property undoubtedly will be a question of fact, but that it will have some value cannot be gainsaid. From the undisputed facts, it is apparent that plaintiff has been deprived of her property without due process (Roer Const. Corp'n v. City of New Rochelle, 207 Misc., 46, 136 N. Y. S., 2d, 414).

Plaintiff's motion for summary judgment is granted. Defendants' cross-motion is denied.

Settle order."

THE BUILDING LAWS

NOW ON SALE

THE VARIOUS BUILDING LAWS OF THE CITY OF NEW YORK published in four volumes, amended to September, 1955, are now ON SALE AT THE CITY RECORD OFFICE, ROOM 2213, MUNICIPAL BUILDING, MANHATTAN, N. Y. 7. Each volume contains a Table of Contents indicating what matters appear in each one of the four volumes.

The prices are as follows: One Dollar and Fifty Cents each for Volumes Nos. I, II and IV (\$1.65 each by mail); and One Dollar for Volume III (\$1.15 by Mail). The price for the complete set of four volumes is Five Dollars and Fifty Cents (\$6 by mail).

We require PAYMENT IN ADVANCE. Make check payable to the Supervisor of The City Record.

WILLIAM VIERTTEL, Supervisor of The City Record.

RULES

OIL BURNER RULES

(217-21-SR)

RULES COVERING THE INSTALLATION AND USE OF OIL BURNING EQUIPMENT AND THE STORAGE OF OILS USED IN CONNECTION THEREWITH

Adopted by the Board of Standards and Appeals June 15, 1934, Amended July 12, 1935, January 28, 1936, December 4, 1936, July 1, 1941, June 15, 1948, July 13, 1951 and September 14, 1956, effective October 8, 1956.

(Superseding Fuel Oil Rules adopted by the Board of Standards and Appeals, November 6, 1919; amended January 6, 1922; January 18, 1924; November 3, 1926; September 11, 1928; January 11, 1929; March 20, 1931; May 12, 1931; November 24, 1931; May 10, 1932; June 24, 1932; November 4, 1932).

Authority: Section 666, paragraph 2 of the New York City Charter and C19-57.0 Administrative Code.

Rule 2. Definitions.

- 2.6 CONTROLS: Such electrical or mechanical devices as are installed for the purpose of providing safe and continuous or intermittent operation.
- 2.10 ELECTRICALLY GROUNDED: For protection against lightning shall mean storage tanks set directly in or on the ground and/or with underground piping connections. Where storage tanks without underground piping connections are built on bases above the surface of the earth outside of buildings, such storage tanks shall be grounded at two (2) points 180° (degrees) apart as follows:
- 2.14 INDUSTRIAL INSTALLATIONS: Oil burner installations for industrial purposes under same requirements as for Commercial Installations.

Rule 3. Oil Permitted.

- 3.1 Oil permitted under these rules shall be any hydrocarbon oils free from acid, grit and fibrous or other foreign matter. The fuel oils shall be classified as provided in current Commercial Standard published by the U. S. Department of Commerce, and shall have a flashpoint not lower than 100 degrees Fahrenheit when tested in a Pensky-Martens closed cup tester (American Society for Testing Materials Method D-93-36) and marketed under the following commercial grades:

{	Range Oil
{	No. 1 Fuel Oil
	No. 2 " "
	No. 4 " "
	No. 5 " "
	No. 6 " "

Rule 4. Standards for Approval of Oil Burners by the Board.

- 4.1 Approved burners, including oil-burning heaters, shall be an assembly of approved parts and electrical controls suitable for use with each other for the service intended, as approved, such burners shall be provided with suitable safeguards to prevent abnormal discharge of oil.

Rule 6. Location of Tanks.

- 6.1 Inside of Buildings, Above Ground.

- 6.1.2 Storage tanks having a capacity of more than two hundred and seventy-five (275) gallons, when installed inside of buildings shall be located on the lowest floor level and all portions of such tanks above the floor shall be protected

by not less than four inches (4") of masonry with weep holes along the bottom one inch in diameter not more than 3 ft. apart. The masonry walls of a structure may be used as part of the protection.

Storage tanks may be placed in a protective enclosure having solid masonry walls not less than eight inches (8") in thickness and of dimension not less than fifteen (15") greater on all sides than the outside dimensions of the storage tanks. The walls of enclosure shall be carried up to a height not less than two feet (2') above the top of the tank or to the ceiling where the ceiling is less than two feet (2') above the top of the tank. A fireproof access door shall be installed in the enclosure above the point where the enclosure has a capacity equal to the largest tank installed, and for each additional 10 feet or fraction thereof by which the longest inside dimension of the enclosure exceeds 35 feet an additional fireproof access door shall be similarly installed at one or more intervals of not less than 10 feet.

Columns, pipes, or similar obstructions, may project into the required fifteen inches (15") of space within the enclosure, provided that access door or doors are so arranged that all portions of the enclosure are accessible. The ceiling above the tank enclosure shall be either fireproof or fire-retarded.

6.3 Outside of Buildings, Below Ground.

- 6.3.3 All buried storage tanks prior to or at the time of installation, shall be thoroughly cleaned and coated on the outside with two (2) coats of red lead and coated at the site with hot tar, asphalt or other equivalent rust-resisting material. All tanks shall be electrically grounded.

6.4 Outside of Buildings, Above Ground.

- 6.4.1 Storage tanks of a capacity greater than 275 gallons located outside of buildings above ground shall be not less than one and one-quarter (1¼) tank diameters and in no case less than ten feet (10') from the line of adjoining property, the nearest building or adjacent tank. Such tanks shall be electrically grounded. The maximum capacity of individual tanks located outside of buildings above ground shall be fixed by the following schedule:

If distant 25 feet from line of adjoining property which may be built upon.....	16,000 gallons
If distant 30 feet.....	24,000 "
If distant 40 feet.....	36,000 "
If distant 50 feet.....	48,000 "
If distant 60 feet.....	60,000 "
If distant 75 feet.....	96,000 "
If distant 85 feet or more..	100,000 "

- 6.4.1.1 Two hundred and seventy-five (275) gallon tanks shall be located so as not to interfere with or obstruct any means of egress.

- 6.4.3 All above ground storage tanks prior to or at the time of installation, shall be thoroughly cleaned and coated on the outside with two (2) coats of red lead and coated at the site with hot tar, asphalt or other equivalent rust-resisting materials. All tanks shall be electrically grounded. All above ground two hundred and seventy-five (275) gallon tanks shall be protected against injury in a manner satisfactory to the Administrative Official.

RULES

6.5 Tanks Located Along Line of Subways.

- 6.5.1 Along the line of subways no buried tank shall be placed within twenty feet (20') from the outside line of the subway wall, and where practicable, tanks shall be placed in a lower position than the roadbed of the subway, except as may be modified in specific instances by the Board of Standards and Appeals. Where an above ground tank within a building is located within the outer lines of the subway, or within twenty feet (20') from the outside line of the subway wall, such tank shall be placed within a welded steel oil-tight pan of not less than 18 gauge metal of adequate capacity to contain the contents of the tank.

Rule 7. Piping.

7.2. Relief Valves.

- 7.2.2 Oil preheaters shall be of approved type and provided with a relief or pressure regulating valve in the piping system to prevent excessive oil pressure. Oil preheaters shall not be installed in the steam or water space of the boiler and shall be so designed that in the event of oil leakage within the preheater, the oil shall be prevented by an approved method from entering the water or steam circulation system. Water piping connection shall be equipped with a blow-down system providing positive flushing of the water side of the preheater. Two (2) thermometers shall also be installed, one on the intake oil line of the preheater and the other on the discharge oil line.

- 7.2.3 Relief valves shall be set to discharge at not more than one and one-half ($1\frac{1}{2}$) times the maximum working pressure of the system. The discharge from relief valves shall be returned to storage tank or to the supply line. Pressure regulating valves and viscosity valves are not included within the scope of this subdivision. There shall be no shut-off valve in the line of relief.

7.3 Vent Pipes.

- 7.3.4 Vent pipes shall be provided with an approved weatherproof hood having a free area of not less than the pipe size area and shall terminate outside the building not less than two feet (2') from any building opening and not less than two feet (2') nor more than twelve feet (12') above the fill pipe terminal, except as may be otherwise approved by the Board. When such openings are fixed and constructed of incombustible materials they shall not be deemed openings within the intent of this rule. If the vent pipe terminal is not visible from the fill pipe terminal location, a one-inch (1") line shall be connected to tank and shall parallel the fill pipe and terminate at the fill pipe terminal with unthreaded end. Such tell-tale lines shall be provided with a check valve set to prevent flow of surface water to storage tank.

Rule 7.4 Fill Pipes.

- 7.4.1 Fill pipe shall terminate outside the buildings with the fill pipe terminal located at or above grade at least two feet (2') from any building opening and five feet (5') from any subway grating, at or below the level of the fill pipe terminal. No fill pipe shall be less than two inches (2") in diameter and no fill pipe for #6 oil shall be less than three inches

(3") in diameter. Where #6 oil is used, the fill pipe terminal shall be located within three feet (3') of the curb, unless otherwise required by the Highway Department or the Transit Authority. Where there are facilities for the delivery tank truck to drive onto the premises, the fill pipe terminal may be located elsewhere than at the curb provided that the location complies with the other requirements of this rule.

- 7.4.3 Where the top of the storage tanks is above the fill pipe terminal the fill pipe shall be connected to the top of the tank and be provided with a shut-off valve and swing check valve which shall be located at the fill pipe terminal, or the shut-off valve may be located inside the building at or below the level of the fill pipe terminal, in an accessible location.

Rule 8. Valves and Control of Oil Flow.

- 8.2 Each supply line for storage tanks of more than two hundred and seventy-five (275) gallons' capacity, shall be provided with a shut-off valve at the burner and where the top of the tank is above the oil inlet connection to the burner and/or transfer pump, shall be provided with an approved anti-syphon device located at the highest point in the supply line, except that where heavy oil (No. 6 Commercial Standard Grade) having a viscosity of one hundred (100) seconds or more Saybolt Furol at one hundred and twenty-two degrees Fahrenheit (122° F.) is used, the anti-syphon device shall not be required. No anti-syphon device shall be required where a foot valve is installed at the inlet of the suction line.

Rule 10. Permits, Plans, Inspection and Tests of Storage Tanks and Piping.

10.1 Permits.

- 10.1.2 Application for permit shall be made and fee covering the permit as per Rule 10.4.1 be paid within ten days after the completion of the installation by the installer who holds a certificate of license issued by the Fire Commissioner, on forms furnished by the Fire Commissioner which shall include the location of the building in which the installation has been made, name and address of owner and/or occupant, name and address of installer, make and approval number of burners, pumps and other devices, capacity, number and location of storage tanks, together with approval of such installation by the Borough Superintendent of Buildings when required under Rule 10.2.

- 10.1.3 No permit shall be issued by the Fire Commissioner until the installer has furnished an affidavit that the installation complies with all requirements, and that the CO₂ content of the flue gas by actual test of the completed installation is not less than 8 per cent without smoking.

10.3 Inspection and Tests of Installations of Storage Tanks and Piping.

- 10.3.1 All fuel oil storage tanks and piping installed as required to be tested by these Oil Burner Rules, shall after installation, except as indicated in this section, be tested by the installer in the manner and to the pressures set forth in this section, and proved tight before any fuel oil system shall be placed in operation. A sworn statement by the installer in proper affidavit form attesting to such installation and test shall be filed with the Fire Commissioner.

RULES

(See Sections of the Administrative Code C19-19, as amended by Local Law 46 of 1951 and C19-152).

Rule 12. Ventilation.

- 12.1 No burner shall be installed in any boiler, heater, range or stove unless each boiler, heater, range or stove be connected to a legal chimney, complying with Article 12 of the Building Code, except that several units may be connected to a common chimney.
- 12.2 Adequate ventilation, at least equivalent to area of the smoke pipe at the point where it enters the flue, shall be provided in all rooms in which burners are installed, except that in commercial installations the area for natural fixed ventilation shall be at least equivalent to eight (8) square inches for each gallon of oil for which the fuel burning equipment is rated. Where the fixed ventilation is supplied mechanically and electrically interlocked with the burner, at least the equivalent of two (2) square inches for each gallon of oil for which the fuel burning equipment is rated, shall be provided.
- 12.3 Dampers shall be so constructed that they cannot completely cut off the passage of flue gases at any time. Approved automatic draft controls may be installed when necessary to provide proper draft where the draft is excessive.

Rule 14. Fire Protection.

- 14.6 Oil burning devices designed for installation with storage of not more than six (6) gallons shall be set level and firmly anchored. The floor beneath stoves or any such heating devices shall be protected by a shield of $\frac{1}{2}$ " asbestos or equivalent extending at least twelve inches (12") beyond the projected area of such device where required within the specific approval of each burner. Approved safety cans only shall be used for the storage and filling of oil containers. The fuel oil used for these burners shall be range oil or No. 1 or No. 2 fuel oil. The manufacturer or installer of these burners shall within 48 hours after each installation notify the Fire Department in writing of the name of the person to whom this burner is sold and the address of the premises where installed.
- 14.7 Near each boiler, furnace or suspended fuel oil-burning unit there shall be immediately available one (1) approved hand fire extinguisher of not less

than two quart capacity suitable for oil fires or two (2) rounded bottom pails filled with sand.

Rule 15. Instruction Cards and Certificate of Fitness.

- 15.2 Except as provided in Rule 15.2.1 every heating system in which the oil is preheated or systems not fully automatic when operating shall be under the direct supervision of a person holding a certificate of fitness issued by the Fire Commissioner and who shall be in the building at all times while the burners are in operation, except, that a person holding a certificate of fitness as a licensed engineer or as a licensed fireman issued after May 1, 1941, under the provisions of C-26-213.0 of the Administrative Building Code, or a person with such license issued prior to May 1, 1941 carrying an endorsement reading "Oil Burners" shall not be required to obtain such certificate.
- 15.2.1 The provisions of Rule 15.2 shall not apply to heating systems in residential occupancies where the building or the building units are contiguous on a site or plot under common ownership, and when such systems are equipped with approved, fully automatic, self-checking electrical safety controls which will shut down the system or systems within five (5) seconds following oil flame failure. The collective number of such heating systems, while in operation, shall be under the care and supervision of one person holding a certificate of fitness issued by the Fire Commissioner and who is regularly employed on full time, and resides on the premises, and whose employment has as one of its purposes the operating and maintenance of the oil burner, except that a person holding a certificate of fitness as a licensed engineer or as a licensed fireman issued after May 1, 1941 under the provisions of C-26-213.0 of the Administrative Building Code, or a person with such license issued prior to May 1, 1941 carrying an endorsement reading "Oil Burner" shall not be required to obtain such certificate. The safety controls shall be reset for burner operation only by the person holding the certificate of fitness or license referred to in this section, or by an installer holding a certificate of license issued by the Fire Commissioner for the installation of such oil burning equipment.

PETITIONS AND ORDERS OF CERTIORARI SERVED ON THE BOARD OF STANDARDS AND APPEALS

On November 28, 1956, Copy of Petition and Order of Certiorari was served on the Board by Paul Mintz, attorney for John Montebello, objecting property owner, seeking a review of the Board's determination on October 16, 1956, granting a variance under Section 7e, for a term of fifteen years, to permit in a restricted retail use district the erection and maintenance of a gasoline service station, lubritorium, auto washing, motor vehicle repairs, storage and sale of accessories and to permit the parking and storage of motor vehicles on unbuilt upon portion of a plot, with an accessory building in accordance with revised plan and amendment adopted on October 30, 1956; Cal. No. 636-54-BZ, Vol. II; Premises 9612-9624 Seaview Ave. and 2016-2024 Rockaway Parkway, Borough of Brooklyn.

* * * * *

On November 30, 1956, Copy of Petition and Order of Certiorari was served on the Board by Morris Braun, attorney for Ferdinand Zanfardino, John J. Coppeletti and Grace Bianco, objecting property owners, seeking a review of the Board's determination on November 7, 1956, granting a variance under Sections 7f and 7i of the Zoning Resolution, for a term of fifteen years, to permit in a retail use district, the erection and maintenance of a gasoline service station, lubritorium, auto laundry (non-automatic), minor auto repair shop with hand tools only and the parking of motor vehicles awaiting service; Cal. No. 60-54-BZ; Premises 904 Burke Avenue, southeast corner Bronxwood Avenue, Borough of The Bronx.

COURT DECISION

Matter of Hazel Brainard, et. al, vs. Board of Standards and Appeals:—On May 3, 1955, the Board granted an application under Section 7, subdivisions f and i, of the Zoning Resolution, to permit in the business use portion of a plot located in a residence and business use district, for a term of fifteen years, the erection of a gasoline service station, auto showroom and service building, lubritorium, motor vehicle repairs, car washing, brake testing, wheel alignment, painting and spraying, welding, storage and sale of accessories and an office, and to permit on the unbuilt-upon portion of plot the sale and display of new and used cars and the parking and storage of motor vehicles; Cal. No. 887-54-BZ; premises 218-01 to 218-19 Northern Boulevard, north side, from 218th to 219th Street, 43-31 to 43-39 — 218th Street and 43-32 to 43-40 — 219th Street, Bayside, Borough of Queens.

At Special Term, Supreme Court, Queens County, Mr. Justice Pette sustained the Board in a decision, part of which is as follows: (New York Law Journal, February 9, 1956, page 12)

" * * * There is no proof that the board exercised its discretion in excess of the power expressly conferred upon it by section 7 (f) and (i) of the Zoning Resolution. The present case is distinguishable from those which arise under section 21 of the Zoning Resolution in which a unique hardship must be established (Matter of Thomas v. Board of Standards and Appeals, 290 N. Y. 109, 115; Matter of Reed v. Board of Standards and Appeals, 255 N. Y. 126, 135). Under the circumstances the determination of the board is not arbitrary, capricious or illegal and, consequently, may not be set aside. The petition is accordingly dismissed on the merits and the determination under review confirmed. Submit order."

An appeal was taken in this matter but same was withdrawn by stipulation without costs to any party, on October 23, 1956.

CALENDAR

JANUARY 8, 1957, 10 A.M.

NOTICE IS HEREBY GIVEN of a public hearing *Tuesday morning*, January 8, 1957, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

344-33-BZ—Vol. V

APPLICANT—Lama, Proskauer and Prober, for Nicholas Scandore, owner.

SUBJECT—Application reopened September 13, 1955 as Vol. V—re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district, proposed change of use of cellar to pastry baking, dishwashing, boiler room, storage of tables and chairs, employees' locker room, maintenance room, oven and refrigeration and change on second floor to banquet hall, kitchen and office; also removal of limitation as to size of orchestra.

PREMISES AFFECTED—1048-1072 Ocean parkway, west side, 380 ft. south of Avenue J and 1151-1167 East 5th street, Block 5495, Lot 870, Borough of Brooklyn.

Laid over from October 30, 1956 to November 27, to await the decision of the court as to violations and for further inspection; hearing closed; then to December 11, 1956, pending court decision on violations; hearing previously closed; then to January 8, 1957, to await the decision of the court on violations.

100-56-A

APPLICANT—Lama, Proskauer and Prober, for Nicholas Scandore, owner.

SUBJECT—Application February 1, 1956—Appeal from a decision of the borough superintendent—re exits.

PREMISES AFFECTED—1048-1072 Ocean parkway, west side, 380 ft. south of Avenue J and 1151-1167 East 5th street, Block 5495, Lot 870, Borough of Brooklyn.

585-54-BZ

APPLICANT—Kitzler and Nurick, for Stern Holding Corp., owner (Victor and Adeline Girard, lessees).

SUBJECT—Application July 1, 1954—re (decision of the borough superintendent) under sections 7c and 7h of the zoning resolution, to permit in a residence and business use district, the proposed extension of existing parking and storage of motor vehicles on open portion of plot on which is located a Class B Multiple Dwelling, and the parking of cars in the required rear yard.

PREMISES AFFECTED—194-200 Schermerhorn street and 311-319 State street, southeast corner and 53-71 Hoyt street, Block 171, Lots 1, 2, 60 to 66 inclusive and part of Lot 7, Borough of Brooklyn.

Laid over from October 2, 1956 to October 23, 1956, for inspection and decision; and for applicant to file revised plans and new decision of borough superintendent, also reassigned lot numbers; hearing closed; then to November 14, 1956, at the request of applicant to file further revised plans and new decision of the borough superintendent; then to December 4, 1956, at request of the applicant, to furnish revised plans and new decision; then to December 11, 1956, at the request of the applicant to file revised plans; then to January 8, 1957, at request of the applicant, to file required revised plans.

586-54-A

APPLICANT—Kitzler and Nurick, for Stern Holding Corp. (Victor and Adeline Gerard, lessee).

SUBJECT—Application July 1, 1954—filed pursuant to section 310 of the Multiple Dwelling Law for variation of section 172, subdivisions 1 and 2 of the Multiple Dwelling Law re required rear yard.

PREMISES AFFECTED—194-200 Schermerhorn street and 311-319 State street, southeast corner and 53-71 Hoyt street, Block 171, Lots 1, 2, 60 to 66 inclusive and part of Lot 7, Borough of Brooklyn.

322-56-BZ

APPLICANT—Latham C. Squire, for 139 East 36th Street Corp., owner.

SUBJECT—Application April 17, 1956—re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district, the change in occupancy from a private hospital to a group medical center.

PREMISES AFFECTED—139 East 36th street, north side, 100 ft. east of Lexington avenue, Block 892, Lot 26, Borough of Manhattan.

Laid over from December 11, 1956 to January 8, 1957, for further consideration and decision; hearing closed.

392-56-BZ

APPLICANT—William A. Giesen, for Ralph Reda, owner.

SUBJECT—Application May 24, 1956—re (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use, E-1 area district, proposed change in occupancy from a 2 family, cellar and 3 story brick, non fireproof dwelling to a 3 family multiple dwelling.

PREMISES AFFECTED—1510 Bayview avenue, east side, 116.22 ft. north of Griswald avenue, Block 5417, Lot 126, Borough of The Bronx.

Laid over from December 11, 1956 to January 8, 1957, for inspection and decision; hearing closed.

418-56-BZ

APPLICANT—Ingram S. Carner, for Louis Mintz, owner.

SUBJECT—Application June 12, 1956—re (decision of the borough superintendent) under section 7f of the zoning resolution, to permit in a business use district, the proposed erection and maintenance of a gasoline service station, car washing (non automatic), minor repairs with hand tools only, office and sales, storage of accessories, parking for more than 5 cars waiting to be serviced.

PREMISES AFFECTED—7101-7127 New Utrecht avenue and 1573 72nd street, northeast corner, 1572 71st street and 7102-7124 16th avenue, Block 6180, Lots 63, 70, 71 and 72, Borough of Brooklyn.

Laid over from December 11, 1956 to January 8, 1957, at request of objector, applicant concurring.

323-55-BZ

APPLICANT—Fred C. Dahlem, for Julian Simon, owner.

SUBJECT—Application April 20, 1955—re (decision of the borough superintendent) under section 7i of the zoning resolution, to permit in a business use district a motor vehicle repair shop, body and fender work.

PREMISES AFFECTED—238 Delancey street, north side, 100 ft. west of Sheriff street, Block 338, Lot 76, Borough of Manhattan.

Laid over from October 16, 1956 to December 18, 1956, pending determination as to acquisition of the site by the city for a housing development; then to January 8, 1957, pending determination of acquisition of size by the City for a housing development; hearing previously closed.

324-55-A

APPLICANT—Fred C. Dahlem, for Julian Simon, owner.

583-56-BZ

APPLICANT—Leonard F. Rothkrug, for Sam Rose Realty Corp., owner.

SUBJECT—Application September 4, 1956—re (decision of the borough superintendent) under sections 7f, 7i and 7A of the zoning resolution, to permit in a business use district for a term of 15 years, the erection and maintenance of a gasoline service station, lubritorium, car washing (non automatic) minor motor vehicle repairs (hand tools only).

PREMISES AFFECTED—3106-3116 Voorhies avenue and 2702-2712 Knapp street, southwest corner, Block 7510, Lot 6, Borough of Brooklyn.

APPEARANCES—

For Applicant: None.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to January 29, 1957, at 10 A.M. for inspection and decision; hearing previously closed.

636-56-BZ

APPLICANT—A. H. Salkowitz, for Queensview Holding Corp., owner.

SUBJECT—Application September 26, 1956—(decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use, G-1 area district, the change in occupancy of two 1 family dwellings to 2 family occupancy.

PREMISES AFFECTED—145-31 14th avenue, northeast corner of 145th place, 145-15 14th avenue, northwest corner of 145th place, Block 4463, Lots 19 and 20, Whitestone, Borough of Queens.

MINUTES

APPEARANCES—

For Applicant: Peter Gray and Frank Vitale.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to January 29, 1957, at 10 A.M., awaiting statement from applicant of list of two-family houses in area of notification, whether legal or illegal, also for inspection and decision.

725-56-BZ

APPLICANT—Samuel Miller, for Arcy Co., owner (Purchaser under Contract: Esso Standard Oil Co.).

SUBJECT—Application October 26, 1956—(decision of the borough superintendent) under sections 7e and 7A of the zoning resolution, to permit in a local retail use district, a proposed gasoline service station, lubritorium, auto laundry (non automatic), minor auto repair shop with hand tools only and the parking of motor vehicles awaiting service for a term of 15 years and part of a proposed curb cut within 75 ft. of a residence zone.

PREMISES AFFECTED—82-06 Astoria boulevard, southeast corner of 82nd street, Block 1094, Lot 1, Jackson Heights, Borough of Queens.

APPEARANCES—

For Applicant: Joseph B. Lynch, Murray Stockman and J. I. Isaacs.

For Opposition: Louis C. Moser.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Laid over to January 29, 1957, at 10 A.M., for inspection and decision; hearing closed.

572-31-BZ—Vol. II

APPLICANT—Esso Standard Oil Company, lessee, for Margaret Watson, owner.

SUBJECT—Application reopened November 27, 1956 for consideration as to extension of time to complete—re (decision of the borough superintendent) previously granted on condition under sections 7c and 7i of the zoning resolution, permitting in a residence and business use district, the extension in use and area of existing gasoline service station, to include gasoline service station, lubritorium, car wash, motor vehicle repairs, welding and office, and to include gasoline service station, lubritorium, car wash, motor vehicle repairs, welding and office, and to include garage for more than 5 motor vehicles and the parking of motor vehicles.

PREMISES AFFECTED—112-05 to 112-07 Sutphin boulevard, northeast corner of 113th avenue, Block 12168, Lot 1, Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Time extended to complete the work.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly.. 4

Negative 0

THE RESOLUTION—

WHEREAS, on March 18, 1932, this application, under Vol. I, was denied by the Board under sections 7c and 21 of the zoning resolution, for the erection and maintenance of a gasoline service station, partly in an unrestricted use district and partly in a business use district; and

WHEREAS, this action of the Board was reversed by the Court, the variation granted and the application remitted to the Board for imposition of appropriate conditions and safeguards as required by section 7 of the zoning resolution; and

WHEREAS, this application was granted by the Board under Vol. I on July 5, 1933, on certain conditions; and

WHEREAS, on June 15, 1954, under Vol. II, the resolution was amended under sections 7c and 7i of the zoning resolution, permitting in residence and business use districts, the extension in use and area of existing gasoline service station, to include gasoline service station, lubritorium, car wash, motor vehicle repairs, welding and office, and to include garage for more than five motor vehicles and the parking of motor vehicles; and

WHEREAS, the resolution was further amended on December 14, 1954; and

WHEREAS, the applicant requested reopening of this application and extension of time, to obtain permits and complete the work, which had expired by time limitation; and

WHEREAS, this application was reopened on November 27, 1956, and set for hearing on December 18, 1956 at 10 A.M., subject to the regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin, in view of the expiration of the time to complete on June 15, 1955; and

WHEREAS, a public hearing was held on this application on December 18, 1956, after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated November 26, 1956, acting on Alt. Applic. 624-53, reads:

"1. Proposed extension of a gasoline service station located partly in a Business use and partly in a Residence use district to include garage for more than five (5) cars, auto laundry, auto repairs, welding parts and additional gasoline pumps, parking and lubrication, is contrary to the resolution of the Board of Standards & Appeals, Cal. No. 572-31-BZ and contrary to Art. 2 Sec. 3 & 4a of the Zoning Resolution."

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on July 5, 1933, as thereafter amended by resolutions adopted through June 15, 1954 and December 14, 1954, only so far as it has reference to the time within which to complete the work, so that as amended this portion of the resolution shall read:

"that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

66-38-BZ—Vol. I

APPLICANT—First Leasing Corp., owner.

SUBJECT—Application reopened November 27, 1956 for consideration as to extension of term of variance—expired November 8, 1955—re (decision of the borough superintendent) previously granted on condition under section 7h of the zoning resolution permitting in a local retail use district, the change of location of curb cut for reduced parking lot.

PREMISES AFFECTED—340 Avenue of the Americas and 151 West 4th street, northeast corner, Block 552, Lot 1, Borough of Manhattan.

APPEARANCES—

For Applicant: Saul Cohen.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Term of variance extended. Time extended to complete the work.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated October 16, 1956, on Parking Lot Application 1979-56, reads:

"1. Board of Standards and Appeals variance, BSA66-38-BZ, permitted use as parking lot for five (5) years from November 8, 1950. This variance was amended on June 22, 1954 to permit parking on only

MINUTES

northerly section of lot. The term of the variance was not extended at that time. Therefore the five year period permitting parking expired November 8, 1955."

and

WHEREAS, the decision of the borough superintendent, acting on Alt. App. 1727/56, dated December 14, 1956, reads:

"1. A parking lot for more than 5 motor vehicles and attendant's shelter located in a Local Retail Use District, is contrary to Art. II, Para. 4c Zoning Resolution."

WHEREAS, the Board, on November 9, 1938, acting under Section 7h of the zoning resolution, granted a variance for a term of two years to permit Lot 1, fronting 192 ft. 11 in. on Avenue of the Americas (6th) to be used for transient parking of more than five motor vehicles, in a business use district; and

WHEREAS, the term of this variance was extended by the Board, the last variance granted November 8, 1950, for a term of five years to expire November 8, 1955, the premises then being in a local retail use district by reason of an amendment to the use district map July 12, 1945; and

WHEREAS, on June 22, 1954, the term of the Board's resolution were amended so as to permit the continuance of the parking use on the northerly end of the plot and to permit a new curb cut to Washington Place, and that the southerly portion of the plot formerly permitted for parking be discontinued in view of the proposed construction of a bank building thereon; and

WHEREAS, the applicant requested reopening of the application and amendment of the resolution to consider a new curb cut on the reduced parking area and an extension of the term of the variance; and

WHEREAS, this application was reopened February 25, 1955, to consider such request for amendment; and

WHEREAS, on March 15, 1955, the Board affirmed the resolution adopted June 22, 1954, including permission for a curb cut as indicated on plans previously submitted; and

WHEREAS, under date of November 8, 1956, the applicant requested reopening of this application for the purpose of considering an extension of the term of the variance; and

WHEREAS, this application was reopened by a vote of the Board November 27, 1956, to consider an extension of the term of the variance; and

WHEREAS, a public hearing was held on this application for extension of the term of the variance on December 18, 1956, after due notice by publication in the Bulletin.

Resolved, that the Board of Standards and Appeals does hereby amend the resolutions adopted by the Board on November 9, 1938, as thereafter amended by resolutions adopted through March 15, 1955, only so far as it has reference to the term of the variance, so that as amended this portion of the resolution shall read:

"granted under section 7h for a term of five years from the date of this amended resolution, to permit the parking and storage of motor vehicles of the pleasure car type only, * * * that other than as herein amended, the resolution adopted on November 9, 1938, as thereafter amended shall be complied with; and that a certificate of occupancy shall be obtained" (Alt. 208/54; Parking Lot App. 1979/56; Alt. 2065/48; Alt. 1727/56; decision of 12/14/56).

338-49-BZ—Vol. II

APPLICANT—Leonard F. Rothkrug for Automotive Craftsmen, Inc., owner.

SUBJECT—Application reopened July 6, 1955 as Vol. II—re (decision of the borough superintendent) under sections 7f and 7e of the zoning resolution, to permit in a residence use district proposed parking and storage of motor vehicles and sale of new and used cars.

PREMISES AFFECTED—201-209 East 28th street and 2802-2812 Beverly road, southeast corner, Block 5172, Lots 1, 4, 71 and 73, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Conolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on July 6, 1955 subject to regular procedure, to consider new proposal; and

WHEREAS, a public hearing was held on this application on November 20, 1956 after due notice by publication in the Bulletin; laid over to December 18, 1956, for applicant to file plans showing portions of plot proposed to be set aside for the sale of cars and the balance for parking; and for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and East 28th street are in a residence use, C area, class 1¼ height district; Beverly road is in residence and business use, C area, class 1¼ height districts; and

WHEREAS, the decision of the borough superintendent, dated June 17, 1955 acting on Alt. Applic. 2290-55, reads:

"1. The proposed parking and storage of motor vehicles and sale of new & used cars (pleasure cars) in a residence use district is contrary to Art. II Sec. 3 of Zoning Resolution. Note: See Board of Standards & Appeals Res. Number Cal. 338-49-BZ."

and

WHEREAS, the applicant states that the premises consist of a plot, 99 ft. 4¼ in. frontage by 80 ft. 7¼ in. in depth, presently vacant; that it is proposed to permit parking and storage of motor vehicles and sale of new and used cars; and

WHEREAS, the applicant states that the premises were subject to the resolution of the Board under Cal. No. 338-49-BZ, granted on condition on September 13, 1949 under section 7h of the zoning resolution, to permit the sale and display of more than five motor vehicles, new and used, for a term of two years; that at the time of the granting of the variance the premises was used in conjunction with a Ford new car agency repair shop and garage located on the southwest corner of Beverly road and East 28th street opposite these premises; that the business failure of the repair shop in 1955 caused the termination of the use of both garage and the parking lot by the former tenant; and

WHEREAS, the applicant contends that the subject premises was occupied substantially in accordance with the resolution of the Board; that a dilapidated frame dwelling alleged to have been on the premises in the prior resolution of the Board was removed and the premises was leveled to grade and a 6 ft. high wire fence constructed along the lot lines and building lines; that there is one 12 ft. opening in the fence on to East 28th street; that it is proposed to occupy the premises for a limited term; that there is no present economic demand for development of the premises with a conforming use; that the owner has had the premises available for sale during the two year period that it was vacant and unused, but received no reasonable offer to purchase; and

WHEREAS, the applicant further contends that the neighborhood is heavily developed and there has been only a very limited amount of new construction in the past fifteen years; that the high cost of new residential construction and the limited rentals and sale value in this neighborhood makes improvement with a conforming use uneconomic at this time; that the maintenance of the lot as proposed will permit the possibility of future development with a conforming use if a change in the neighborhood occurs and it

MINUTES

will also prevent the lot from becoming a dangerous, unattended playground and trash depositing area; that there is an urgent need for parking in this neighborhood, which was developed without provision for accessory parking; that this is a heavily trafficked area and the recent street parking restrictions have created an additional need; that only one curb cut, as previously granted by the Board, is proposed for this large plot; that the parking will be mostly non-transient in nature; and

WHEREAS, the applicant states that the present owner has held title to the property since October 20, 1946 and that the assessed valuation of land is \$7,300; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and the applicant has filed revised plans; the committee recommended that the application should be granted under certain condition; it having been granted in 1949 for the previous use.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on September 13, 1949, to permit for a term of five years, the use of the premises as now proposed for parking and storage of motor vehicles of the pleasure car type and for the sale of used cars on the portion of the premises as indicated on revised plans marked "Received December 3, 1956" (one sheet), at the corner of Beverly Road and East 28th street, for a space not exceeding 25 ft. by 40 ft.; that the premises shall be leveled substantially to the grade of Beverly Road and surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that there shall be erected on the interior lot lines suitable fences; that where fencing does not exist in substantial construction there shall be erected a woven wire fence of the chain link type not less than 5 ft. 6 in. in height; that curb cuts shall be restricted to two curb cuts, one to East 28th street and one to Beverly Road, where shown on plans filed with this application marked "Received June 22, 1955" (2 sheets), and "October 23, 1956" (one sheet), as amended by revised plans marked "Received December 3, 1956" (one sheet); that proper bumpers shall be maintained against the fences for the protection thereof; that lights for illumination at night shall be maintained on standards with metal reflectors so arranged as to reflect away from the adjoining residences opposite; that signs shall be restricted to a sign at each entrance advertising the parking and storage use and the rates charged and such other information as shall be required by the Commissioner of Licenses; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; and that all permits shall be obtained and all work completed and a certificate of occupancy obtained within six months from the date of this amended resolution.

916-55-BZ

APPLICANT—Lama, Proskauer and Prober, for Mary Marano and Richard Carbisiero, owners.

SUBJECT—Application November 17, 1955—re (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a residence use, D area district, the proposed partial demolition, reconstruction and extension of use of existing restaurant, bar and grill, cabaret, banquet and meeting rooms and one family dwelling on second floor, to restaurant bar and grill, cabaret, banquet and meeting rooms, brides waiting rooms, proposed extension to exceed permitted coverage.

PREMISES AFFECTED—21-01 to 21-13 24th avenue and 23-82 to 23-91 21st street, northeast corner, Block 876, Lots 12 and 14, Astoria, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Applicant granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 20, 1956 after due notice by publication in the Bulletin; laid over to December 18, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 21st street are in a residence use, D area, class 1 height district; 24th avenue is in residence and business use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated November 9, 1955 acting on Alt. Applic. 1640-55, reads:

"1. The proposed partial demolition, reconstruction and extension of use of an existing restaurant, bar & grill, cabaret, banquet and meeting rooms and one family dwelling on second floor to Restaurant, bar & grill, cabaret, banquet & meeting rooms and brides waiting rooms on second floor in a plot located within a residence use district is contrary to Article II Sec. 3 of the Zoning Resolution.

2. Proposed extensions exceed the allowable area coverage permitted in a D area district and is contrary to Art. II Sect. 14(c) of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 125 ft. frontage by 129.71 ft. in depth, irregular, presently developed with a frame building, partly two stories in height, having an irregular frontage of 99.20 ft. and a depth of 104.03 ft.; that the first recorded permit for part of these buildings was under Alt. Applic. No. 402-08 wherein the occupancy was established as a hotel and bowling alley; that the building was altered under Alt. Applic. No. 496-1911 to extend the second floor, and Alt. Applic. No. 557-1911 to erect a storm shed; that under Alt. Applic. No. 18-1936 the use of the building was established as first floor—bar, dining room and dancing; second floor—one family dwelling; that under Misc. No. 2240-39 the first floor occupancy was established as bar, dining and dancing room and open garden restaurant and one family on the second floor; that the plans attached to said permit indicate a building the same size as shown on existing conditions submitted with this application; that public assembly permit No. 318-44 was issued March 10, 1944 showing the first floor use as restaurant, bar and grill, cabaret, banquet and meeting rooms, with a total occupancy of 530 persons; that no certificates of occupancy were ever issued; that the site is also developed with a 24.70 ft. by 9.55 ft. brick refreshment stand reconstructed under Alt. No. 1420-1952; that the rear frame storage building having a frontage of 25.19 ft. and a depth of 15.45 ft. was erected without a permit and violation No. 3929 was issued in 1954 for said building; that these two buildings are to be removed; and

WHEREAS, the applicant states that it is proposed to alter the present frame building and also erect three extensions of class 3 construction, but having fireproof roofs consisting of 2 in. concrete planks; that the northerly extension, with a frontage of 60 ft. on 21st street and a depth of 96 ft., will be completely isolated from the present frame building with a concrete block fire wall and fireproof, self-closing doors and will be used as a restaurant, meeting and banquet room and kitchen; that the westerly extension, with a frontage of 18 ft. and a depth of 10 ft., will be used as a hand stand and will be completely open to the present restaurant; that the southerly extension will have a frontage of 53.60 ft. on 24th avenue and a depth of 45.44 ft. and will be used as a cabaret, meeting and banquet room; and

WHEREAS, the applicant contends that it is only proposed that the present legal use of restaurant, bar and grill, cabaret,

MINUTES

banquet and meeting room will be extended to the open areas of the present site on the first floor, and the second floor will be used for brides' waiting rooms; that the first floor will have a total occupancy of 750 persons and the second floor, 10 persons; that inasmuch as the same present legal use is only being extended, the community will not be affected and the heretofore legal open air dining areas will be contained within buildings, thereby improving conditions for the community; that the present site has an area of 15,565 sq. ft., and after demolishing those parts of the building at the northerly part of the site, the present 9.55 ft. by 24.70 ft. refreshment stand and the 25 ft. by 15.45 ft. storage building, the open area will be 9,205 sq. ft.; that the permissible coverage of said area is 5,813 sq. ft. and as the proposed extensions total 7,083 sq. ft., the excess coverage equals 1,270 sq. ft.; that the site is adjoined to the north by lot No. 15 which has a three and one story brick building erected directly on the lot line; that to the northeast the site is adjoined by lot No. 18 which has a frame shed and concrete block garage directly on the lot line and to the east by lot No. 7, which is also built directly on the lot line; that the site is almost completely enclosed by the walls of the adjoining buildings so that the leaving of greater open areas on the site would not benefit the block or said adjoining lots; that the proposed alteration will leave a 4 ft. wide court to the north and the northeast, which is ample for light and ventilation for the building in question; and

WHEREAS, the applicant states that the present owner was held title to lot 12 since January 30, 1936 and to lot 14 since July 1, 1953; that the assessed valuation of land is \$18,700 and of the buildings \$8,500 making a total of \$27,200; that the buildings were erected in 1908; and

WHEREAS, the premises and surrounding area where inspected by a committee of the Board; and the committee recommended that the application should be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution, as to use, and that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21, and is therefore entitled to relief, as to area, on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use and area district regulation of the zoning resolution and that the application be and it hereby is granted under Section 7c as to use and Section 21 as to extension of area, to permit the reconstruction and alteration of the existing premises so as to permit the continuance of the use with the alterations as proposed and as shown on plans filed with this application marked "Received November 17, 1955", 12 sheets, on condition that all openings, toward the rear and side lot line on exit passage shown, except doors for exit purposes, shall be filled with glass blocks approved for exterior walls; that the exit doors shall normally be kept closed; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified this day by resolution adopted under Cal. No. 917-55-A; that the passageway to 21st street shall be maintained and paved to the satisfaction of the borough superintendent; and that the building shall not be increased in height or area beyond what is now shown.

917-55-A

APPLICANT—Lama, Proskauer and Prober, for Mary Marano and Richard Corbisiero, owners.

SUBJECT—Application November 17, 1955—Appeal from a decision of the borough superintendent—reframe building, business use.

PREMISES AFFECTED—21-01 to 21-13 24th avenue and 23-83 to 23-91 21st street, northeast corner, Block 876, Lots 12 and 14, Astoria, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly

Negative

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated November 9, 1955, on Alt. App. 1640/55 reads:

"3. The extension of a frame bldg. used for business purposes is contrary to Secs. 4.2.3 and 4.2.1 B. C."

and

WHEREAS, the applicant states the building is 1 and 2 stories, 14 and 22 ft. in height, 99.20 ft. front by 1203.03 ft. in depth at street level, 21 ft. front by 62 ft. in depth at 2nd floor level, of Class 4 construction, erected in 1908 on a lot 125 ft. front by 129.71 ft. irregular in depth, in a residence use, D area, Class 1 height district; used and occupied since 1936: cellar—boilerroom, storage and refrigerator; 1st floor—restaurant, bar and grill, cabaret, banquet and meeting rooms, 530 persons; 2nd floor—waiting rooms, 10 persons; proposed to be increased in area at the first floor to 99.20 ft. front by 125.71 ft. irregular in depth in Class 3 construction and used as follows: cellar—boiler room, storage and refrigerator; 1st floor—restaurant, bar and grill, cabaret, banquet and meeting rooms, 750 persons; 2nd floor—waiting rooms, 10 persons; that the building is provided with two interior 3 ft. wide stairs of steel and wood construction, enclosed in masonry and fire retarded partitions, equipped with fireproof, self-closing doors; and

WHEREAS, Violation No. 3929/54 was issued March 15, 1955, for erecting a frame shed without approval; and

WHEREAS, the applicant states the premises are developed with a frame building, partly two stories in height with a frontage of 99.20 ft. and a depth of 104.03 ft.; that the occupancy was established under Alt. 402/08 as a hotel and bowling alley; that the building was altered under Alt. App. 496/11 to extend the 2nd floor, and under Alt. App. 557/11 to erect a storm shed; that under Alt. 18/36 the use of the building was established as 1st floor—bar, dining room and dancing; 2nd floor—one family dwelling; that under Misc. App. 2240/39 the 1st floor use was established as bar, dining and dancing room and open garden restaurant and one family on the 2nd floor; that Public Assembly Permit No. 318 was issued March 10, 1944, showing the 1st floor use as Restaurant, Bar and Grill, Cabaret, Banquet and Meeting rooms with a total occupancy of 530 persons; that no certificate of occupancy was ever issued; that there is also on the site of 24.70 ft. by 9.55 ft. brick refreshment stand, reconstructed under Alt. App. 1420/52; that the rear frame storage shed having a frontage of 25.19 ft. and a depth of 15.45 ft. was erected without a permit and Violation No. 3929 was issued for such building; that both the brick refreshment stand and the frame storage shed will be removed; and

WHEREAS, the applicant states it is proposed to alter the existing frame building and erect three Class 3 extensions with fireproof roofs, consisting of 2 in. concrete planks; that the northerly extension having a frontage of 60 ft. on 21st st. and a depth of 96 ft. will be isolated from the existing frame building with a concrete block fire wall, equipped with fireproof self-closing doors and be used as a restaurant, meeting and banquet rooms and kitchen, that the westerly extension having a frontage of 18 ft. and a depth of 10 ft. will be used as a Band Stand and be completely open to present restaurant; that the southerly extension will have a frontage of 53.60 ft. on 24th Avenue and a depth of 45.44 ft. and be used as a cabaret, meeting and banquet room; that it is also proposed that the present legal use of restaurant, bar and grill, cabaret, banquet and meeting rooms be extended to the open areas of site on the first

MINUTES

floor level, and that the 2nd floor will be used for brides' waiting rooms; that the first floor will have a total occupancy of 750 persons and the 2nd floor, 10 persons; and

WHEREAS, the applicant contends that although the existing building is frame all the new extensions will be of Class III construction with fireproof roofs; that the westerly extension will be isolated from the frame building by a fire wall, equipped with fireproof self-closing doors and will not constitute an extension to a frame building; that the westerly extension to be used as a band stand will also be of fireproof construction with fireproof roof, consisting of 2 in. concrete plank, so that although it will extend a frame building, it will provide a better condition than if the entire project were conforming, since a wood beam roof would be acceptable; that the easterly extension will be of Class III construction with fireproof roof consisting of 2 in. concrete planks and the frame wall abutting on the west will be fire retarded and the frame wall abutting on the north will consist of folding partitions so that the proposed extension will be of better construction than if project were new, in which event wood roof beams would be acceptable in lieu of the fireproof roof proposed; that the conversion of the 2nd floor, which is only 21 ft. by 62 ft. in area, for use as a brides' waiting room with a combined occupancy of ten persons will have all its partitions enclosing existing stairs fire-retarded and in addition a new 3 ft. wide steel stair, fireproof enclosed, will be installed leading direct to street; and

WHEREAS, the premises was inspected by a committee of the Board and the committee recommended that the appeal should be granted under certain conditions.

Resolved, that the decision of the borough superintendent, dated November 9, 1955, acting on Alt. App. 1640-55; Objection No. 3 be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the requirements of the resolution as adopted this day under Cal. No. 916-55-BZ shall be complied with; that the new construction as proposed shall be of class 3 construction; that there shall be no extension of the frame building; that such frame building now legally in use and as proposed to be retained may be continued and connected to proposed construction as shown.

247-56-BZ

APPLICANT—J. Berman, for John and Irene Steven, owners.

SUBJECT—Application March 21, 1956—re (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a business and residence use district, the extension of existing uses of baseball field, miniature golf and refreshment building, to include club house and golf driving range.

PREMISES AFFECTED—160-10 Cross Bay boulevard, west side, from 160th to 161st avenues, Block 14027, Lot 7, Block 14028, Lots 1 and 7, Block 14029, Lot 1 and Block 14030, Lots 1, 6, 19, 21, 22, 24, 25, 26 and 28, Howard Beach, Borough of Queens.

APPEARANCES—

For Applicant: Jacob Berman, Irene Steven and John Steven.

For Opposition: Harold Kieval.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0
Negative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 20, 1956 after due notice by publication in the Bulletin; laid over to December 18, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, 160th avenue and 161st avenue are in business and residence use, D and G-1 area, class ½ height districts; Cross Bay boulevard is in a business use, D area, class ½ height district; and

WHEREAS, the decision of the borough superintendent, dated February 24, 1956 acting on Alt. Applic. 77-56, reads:

"1. Proposed use of premises located partly in a residence use district as a club house, golf driving range and parking area for more than 5 patrons' cars is contrary to Article II, Sec. 3 of Zoning Resolution.

"2. Area district zoning is incorrect, premises is located partly in a G-1 district."

and

WHEREAS, the applicant states that the premises consist of a plot, 465 ft. frontage by 817 ft. in depth, on which is now located a baseball field, miniature golf, and a refreshment building; and

WHEREAS, the applicant states that the use was changed from undetermined to residential, effective May 15, 1941; that the area was changed from an F district a G-1 district effective July 22, 1954, and the height designation was changed from class 1 to class ½ effective July 22, 1954; and

WHEREAS, the applicant states that the property in question was recently acquired from the City of New York, and being of a marsh land nature, the land has been filled in thus eliminating a nesting place for vermin, etc.; and

WHEREAS, the applicant states that it is proposed to extend the operation of the now existing miniature golf and batting range thus increasing the revenue so as to make this venture a profitable one; that by filling in this area the infestation of mosquitoes and other insects has been minimized; that the entire area will be enclosed with a chain link wire fence 20 ft. in height and the grounds will be graded and seeded, thus enhancing the esthetic appearance for adjoining properties; that no building of any nature will be installed in the residential area and its sole use will be that of a golf driving range; that the present ball field, miniature golf and refreshment building are now located in a business district, zone D, and certificate of occupancy No. Q-80685 dated April 7, 1952 was issued for such use; that the new club house will also be located in this business area, zone D; and

WHEREAS, the applicant contends that the proposed golf driving range will be of benefit rather than a detriment to this area and it is therefore requested that the Board grant favorable consideration to this appeal so that the necessary certificates can be obtained; and

WHEREAS, the applicant states that the present owner has held title to the property since October 1955 and July 1951; that the assessed valuation of land is \$35,000 and of the buildings \$15,000 making a total of \$50,000; that the buildings were erected in December, 1951; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivision c of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 77-56, Objection No. 1 and 2 be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

255-56-BZ

APPLICANT—Lama, Proskauer and Prober, for Robert Jacoby and Sidney Jacoby, owners.

SUBJECT—Application March 29, 1956—re (decision of the borough superintendent) under sections 7f, 7i, 7h and 7A of the zoning resolution, to permit in a business and residence use district, the erection and maintenance of a gasoline service station, lubritorium, minor auto repairs, storage room, office and sales, parking and storage of

MINUTES

motor vehicles, show windows and signs within 75 ft. of the residence use district.

PREMISES AFFECTED—2120-2130 Amsterdam avenue and 501-509 West 165th street, northwest corner, Block 2123, Lots 17, 43 and 45, Borough of Manhattan.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings and John J. Saunders, Board of Education.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Keating and Deputy Chief Conolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 20, 1956 after due notice by publication in the Bulletin; laid over to December 18, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, West 165th street and Amsterdam avenue are in residence and business use B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated March 3, 1956 acting on N.B. Applic. 20-56, reads:

"1. Proposed gasoline service station, lubritorium, minor auto repairs, storage room, office and sales and parking and storage of motor vehicles on open portion of lot, located partially within a Residence Use District and partly within a Business Use District is contrary to Art. II, PP. 3 and PP. 4, Zoning Resolution.

2. Proposed show window and sign located within 75 feet of a Residence Use District is contrary to PP. 7-A, Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 175 ft. in depth, irregular, presently developed with several buildings, one and three stories in height, of class 3 and class 4 construction, now occupied as stores, offices and dwellings; that department of buildings records show that on lot No. 43 an application was filed under N.B. 67-1908 to erect a one story building of class 3 construction for use as a store; that in 1908 on the same lot No. 43 an application was filed under N.B. 480-1908 to erect a one story building of class 3 construction for use as a theatre; that in 1914, on the same lot, an application was filed under Alt. 1738-1914 to alter the buildings and enlarge the theatre; that on lot No. 45 an application was filed under N.B. 405, 1883 to erect a three story building of class 4 construction for use as three family and store and that this building was further altered in 1909 and 1914; that in 1932 under Applic. No. 1423-1932 the use of the building was changed to store, office and one family; that no certificate of occupancy was ever issued on any of these buildings; that the premises are presently being used for stores, office and one family dwelling; and

WHEREAS, the applicant states that it is now proposed to demolish the present outmoded buildings and secure a variance for a period of fifteen years in order to erect a modern gasoline service station consisting of ten 550 gallon buried gasoline tanks and four approved type gasoline pumps; that the contemplated accessory building will be one story in height, of class 3 construction, with a frontage of 62 ft., a depth of 34 ft. and contain the conjunctive uses of lubritorium, minor auto repairs, car wash, storage room, office and sales; that the open portion of the plot, not proposed to be used for the gas station, will be reserved for parking and storage of motor vehicles; and

WHEREAS, the applicant contends that the upper floors of the present corner building and one store on the site are now vacant and the theatre on the site has outlived its usefulness and is now being used as a plumbing supply house;

that there are many other vacant stores within the affected area so that there is no economic demand for the erection of additional stores; that the land is very high in assessed value so that it is mandatory that the owner develop this site as proposed in order that he may receive an equitable return on his investment and thereby retain ownership of the site; that adjoining the site on lot 20 there is a non-conforming use of post office, so that the application of the zoning law which leaves within the block 2123, lot 17 of site the only residence use portion of the entire block, and as such has rendered this site useless and inflicted a serious hardship upon the owner; that the building as contemplated is modern in design and will do much to enhance the appearance of the entire area which consists mainly of four to six story walk-up, old law tenements; that the proposal will furnish permanent light and ventilation to adjoining properties as it only occupies approximately 13% of the area of the site; that the gasoline pumps as proposed, set 15 ft. in back of the Amsterdam avenue building line will protect pedestrian travel and keep the cars being serviced off the sidewalk; that the large parking area as proposed will help to alleviate the acute parking situation in this area; that the show windows and signs within 75 ft. of the residence use district cannot affect the residence use district as said sign and show windows are set 38 ft. in back of the West 162nd street building line; and

WHEREAS, the applicant states that the present owner has held title to the property since June 30, 1955; that the assessed valuation of land is \$71,000 and of the buildings \$6,000 making a total of \$77,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommended that the application should be granted under certain conditions.

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision of of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of fifteen years to permit the occupancy of the premises as proposed as a gasoline service station and accessory uses and parking of motor vehicles in the westerly portion of the site *on condition* that all buildings and uses now on the premises shall be removed and the premises shall be leveled substantially to the grade of Amsterdam Avenue and 165th street and shall be constructed and arranged substantially as indicated on plans filed with this application marked "Received March 29, 1956", 4 sheets, and "November 7, 1956", one sheet; that the accessory building shall be of the arrangement and design as indicated on such plans and shall be faced with face brick on all sides, except to the north; that there shall be no cellar under the accessory building; that pumps shall be of a low approved type, erected not nearer than 15 ft. to the street building line of Amsterdam Avenue; that the number of gasoline storage tanks shall not exceed the ten (10) 550 gallon approved tanks; that along West 165th street, at a point commencing approximately 50 ft. from the intersection of West 165th street and Amsterdam Avenue there shall be erected a masonry wall consisting of a masonry base not less than 2 ft. in height and a steel picket fence to a total height of not less than 5 ft. 6 in. with suitable masonry terminating post; that such fence-wall shall be returned northerly as shown and from that point to the rear line there shall be a woven wire fence not less than 5 ft. 6 in. in height; that a similar woven wire fence shall be erected on a retaining wall at the north lot line and this retaining wall shall be constructed at the expense of this owner; that a facing wall shall be constructed from the accessory building along the northerly lot line to Amsterdam Avenue against the adjoining building on Lot No. 42; that the premises where not occupied by the accessory building and pumps shall be paved, as to the gasoline selling area, with concrete or asphaltic pavement; that the

MINUTES

rear portion proposed to be used as a parking area shall be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that suitable bumpers shall be maintained a proper distance away from the fences for protection thereto; that the rear portion may be occupied under Section 7h for a similar term for parking and storage; that under Section 7i there may be minor repairing with hand tools only carried on in the accessory building only for adjustments; that under Section 7A any show window or curb cuts deemed not in accordance therewith are hereby granted for a similar term; that curb cuts shall be restricted to two curb cuts to Amsterdam Avenue each not over 30 ft. in width, with no portion of any curb cut nearer than five feet to a lot line as prolonged; that to West 165th street there may be a curb cut 20 ft. in width within the first 25 ft. from the intersection; that sidewalks and curbing abutting the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that signs shall be restricted to permanent signs attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs but permitting the erection within the intersection of West 165th street and Amsterdam Avenue of a post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than four feet; that at the intersection there shall be erected a block of concrete extending for a distance of not less than 5 ft. from the intersection along either building line not less than 12 in. in height; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

263-56-BZ

APPLICANT—Charles A. Buckley, Jr., for A. Paul Toschi, owner.

SUBJECT—Application April 9, 1956—re (decision of the the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a business use district, the erection of a gasoline service station, lubritorium, car washing, auto sales and parking of patrons' cars.

PREMISES AFFECTED—3409-3498 Boston road and 3375-3381 Eastchester road, southwest corner, Block 4743, Lot 5, Borough of The Bronx.

APPEARANCES—

For Applicant: Charles A. Buckley, Jr.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly.. 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 2, 1956 after due notice by publication in the Bulletin; laid over to October 30, 1956, for inspection and decision; hearing closed; then to November 20, 1956, for applicant to file revised plans showing grades and treatment; then to December 11, 1956, for further inspection in view of the revised plans filed; then to December 18, 1956, for applicant to file revised plans showing ingress from Boston road; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Boston road are in a business use, C area, class 1 height district; Eastchester road is in business and residence use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated March 14, 1956 acting on N.B. Applic. 6-56, reads:

"1. In a business district the proposed gasoline service station, lubritorium, car washing, car repair, sales area, utility room and parking of patrons cars is contrary to Sect. 4 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 100.01 ft. frontage by 100 ft. in depth, now vacant; that it is proposed to erect a modern gasoline service station; and

WHEREAS, the applicant states that the present owner purchased the site in question from the City of New York for the sum of \$42,000, said property having been taken for tax deficiencies; that the property is slightly below grade and prior to the present owner's acquisition it was utilized by tenants for the sale of Christmas trees in winter and melons in warmer weather; that it was also used as a general neighborhood dump which evoked protests from the neighboring owners; that there is no gas station on any other corner at this intersection, the other corners being occupied by a used car lot, a bar and grill and a drive-in; and

WHEREAS, the applicant contends that Boston road and Eastchester road are two of the principal traffic arteries in The Bronx; that both roads are highly developed for business purposes and serve a large volume of commercial traffic, Boston road in particular being a heavy trucking route; that Eastchester road carries a large volume of traffic between Westchester Square section and White Plains road; that adjoining the property on Boston road is a vacant lot and on Eastchester road a combination restaurant and catering house; that the owner plans to lease this station to a major oil company; that since acquisition of the site, the owner has removed the accumulated debris, leveled the existing shack and displaced the open vendors previously using this property; and

WHEREAS, the applicant states that the present owner has held title to the property since October 25, 1955 and that the assessed valuation of lands is \$27,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions f and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of fifteen years, to permit the premises to be occupied as a gasoline service station and accessory uses, substantially as proposed and indicated on plans filed with this application, marked "Received April 9, 1956," 5 sheets, "November 7, 1956," 4 sheets and "December 17, 1956," 4 sheets, *on condition* that the premises shall be leveled substantially to the grade of Boston Road and Eastchester road, as shown on plans; that any structure or use now on the site shall be removed; that the accessory building shall be faced with face brick on all exposed sides; that the roofing shall be of asbestos shingles as proposed and the gable end may be of wood as shown; that the building shall be of the design and arrangement shown on such plans; that pumps shall be of a low approved type, erected not nearer than 15 feet to the street building lines of Boston road and Eastchester road; that the number of gasoline storage tanks shall not exceed twelve 550 gallon approved tanks, located where shown unless piling is required, in which case such tanks shall be moved to a location where it is not required; that curb cuts shall be restricted to two on Eastchester road each 30 ft. in width, located where shown, and two of similar width, on Eastchester road; that no curb cut shall be nearer than 5 feet to a lot line as prolonged; that at the intersection, within the building line, there shall be erected a block of concrete at least 12 in. in height, extending for 5 feet along each street; that sidewalks and curbing abutting the site shall be repaired or re-

MINUTES

constructed to the satisfaction of the Borough President; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that the premises where not occupied by accessory building, pumps and planting shall be paved with concrete or asphalt; that signs shall be restricted to permanent signs attached to the accessory building, and the globes of the gasoline pumps, excluding all roof signs and temporary signs, but permitting the erection at the intersection of Eastchester and Boston roads a post standard with two leaves, for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line not more than 4 feet; that under section 7i there may be minor repairing with hand tools only for adjustments, maintained solely within the accessory building; that under section 7h for a similar term, there may be parking of cars, provided same are so parked as not to interfere with the service of the station; that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

276-56-BZ

APPLICANT—Gibbs and Hill, Inc., for Dora Levine, owner (Whitehead Metal Products Co., lessee).

SUBJECT—Application April 13, 1956—(decision of the borough superintendent) under section 19A(j) of the zoning resolution, to permit in an unrestricted use, A area district, a vertical extension to the existing fireproof reinforced concrete storage and office building, without the required loading berth.

PREMISES AFFECTED—287-303 West 10th street, and 150-168 Charles street, south side, 51 ft. 10½ in. west of Washington street, Block 636, Lot 70, Borough of Manhattan.

APPEARANCES—

For Applicant: Salvatore A. Urzi, John W. Bonnett, L. S. Kandell and A. E. Schnopp.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 18, 1956 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Charles street, West 10th street and Washington street are in an unrestricted use, A area, class 2 height district; and

WHEREAS, the decision of the borough superintendent, dated April 10, 1956 acting on Alt. Applic. 80-56, reads:

"25. A loading Berth is required, section 19A of the Z. R."

and

WHEREAS, the applicant states that the premises consist of a plot, 237 ft. 4¾ in. frontage on West 10th street and 257 ft. 11½ in. on Charles street, 193 ft. 7¼ in. in depth, four stories and basement in height, occupied for storage and offices; and

WHEREAS, the applicant states that the entire building is used by the lessee, dealers in metal sheets and shapes; that the enlargement, amounting to approximately 35,000 sq. ft., will be used solely as offices for the transaction of their business; and

WHEREAS, the applicant states that the area of the enlargement subjects them to the requirements of section 19-A (h) (1) of the zoning resolution for off street loading berths and the Board is requested to accept, in lieu thereof, and for the reasons stated hereinafter, the existing loading

berths as complying, in effect, with said section; that the existing building was constructed in 1937 with three loading berths on the Charles street side and three on the West 10th street side; that each berth is approximately 19 ft. 6 in. wide and 19 ft. 10 in. deep, measured from the building line; that headroom varies but a headroom of 12 ft. is available for the one berth required by the new enlargement; that each of the existing berths accommodates two trucks for a total of twelve; that in addition to these, a railroad platform 200 ft. long, at the level of the elevated railroad tracks of the New York Central, exists along the east wall of the building; that a very large percentage of the shipping and receiving is handled through this medium, thus relieving street congestion; that the existing building occupies the entire plot, hence it is impossible to avail themselves of unoccupied ground floor space for the purpose of a berth; that they have explored the possibility of altering one of the existing berths to the required depth and height; that the building is constructed entirely of reinforced concrete with flat floor slabs and mushroom type columns and therefore does not readily lend itself to extreme alterations such as, the intricate design and construction required to increase the depth to 33 ft., a change which would entail the demolition and reconstruction of the greater part of a floor panel which is about 4 ft. higher than the floor of the berth; and

WHEREAS, the applicant contends that the increased floor area is for office use and that office supplies are generally delivered in small panel type trucks which can be readily accommodated by a 20 ft. deep berth; and

WHEREAS, the applicant states that the present owner has held title to the property since July 1948; that the assessed valuation of land is \$220,000 and of the building \$630,000 making a total of \$850,000; that the building was erected 1937 and 1938; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 19A Subdivision j of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 19A, subdivision j, to permit the continuance of the loading berths as constructed both on West 10th and Charles streets, as proposed and indicated on plans filed with this application, marked "Received April 13, 1956", 8 sheets, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

297-56-BZ

APPLICANT—Julius S. Rapson, for Nicholas J. Stravino, owner.

SUBJECT—Application April 19, 1956—re (decision of the borough superintendent) under section 21 of the zoning resolution to permit in a residence use, F area district, the erection of a 2 family dwelling and detached 2 car garage, with less than the required 15 ft. setback.

PREMISES AFFECTED—241-03 83rd avenue, northeast corner of 241st street, Block 7904, Lot 9, Bellerose, Borough of Queens.

APPEARANCES—

For Applicant—Irving Newman.

For Opposition: John R. Monaghan.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleiner, Commissioner Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 20, 1956 after due notice by publication in the Bulletin; laid over to December 18, 1956, for inspection

MINUTES

and decision; hearing closed; applicant to file corrected plan; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, 83rd avenue and 241st street are in a residence use, F area, class $\frac{1}{2}$ height district; and

WHEREAS, the decision of the borough superintendent, dated April 2, 1956 acting on N.B. Applic. 384-56, reads:

"1. In an F-district no building can be erected nearer than 15'-0" to any street lot line in accordance with Section 16(a) of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 40 ft. frontage by 100 ft. in depth, now vacant; that it is proposed to erect a two family dwelling and detached two car garage; that the proposed dwelling is 25 ft. 10 in. wide and 40 ft. deep, $1\frac{1}{2}$ stories in height and the garage 20 ft. by 22 ft.; that this would give a setback of 16 ft. 3 in. in the front on 83rd avenue, but would permit only 9 ft. from 241st street; that the garage will set back 17 ft. from 241st street; and

WHEREAS, the applicant states that this property, prior to 1938 was zoned residence D and changed December 19, 1938 to E, and changed January 27, 1949 to F zone; and

WHEREAS, the applicant contends that this corner plot is the only available vacant land in this vicinity and the owner has been unable to purchase additional land; that this area is almost completely built up with one and two family dwellings, and most of these were built prior to the present F zone requirements; that this house is not large and to all practical intents and purposes is suitable to the owner's needs, and with the income from the attic apartment will be within his financial ability to maintain; that a building of this size will give adequate sized rooms in each apartment and will be economical to construct; that inasmuch as this dwelling will conform to the other houses in this vicinity and will not deteriorate or detract in any way from the general character of the neighborhood, and the construction and architecture will conform to the existing houses, and in all other respects will comply with the rules and regulations of the department of buildings as to construction and the building code, it is requested that this appeal be granted; and

WHEREAS, the applicant states that the present owner has held title to the property since January 10, 1956 and that the assessed valuation of land is \$1,200; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee is of the opinion that in view of the narrowness of the lot and the fact that the side lot is along the street where no one would be particularly affected, the application should be granted under certain conditions; and

WHEREAS, the committee also noted that the other yards in adjoining buildings apparently are not in compliance with the present zoning requirements; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the Zoning Resolution, and is therefore entitled to relief as to area on the grounds of practical difficulty and unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 21, to permit the side yard along 241 street to be of the width proposed, as shown on plans filed with this application, marked "Received April 19, 1956", 4 sheets and "October 17, 1956", 1 sheet, *on condition* that the building shall be located so as to be in line with the other buildings in the block between 241st and 242nd streets facing 83d avenue; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits required, including a certificate of occupancy shall be obtained and all work completed

within the requirements of Section 22A of the Zoning Resolution.

414-56-BZ

APPLICANT—James E. Casale, for Benjamin J. Somoroff, owner.

SUBJECT—Application June 8, 1956—re (decision of the borough superintendent) under section 7b of the zoning resolution, to permit in a business and residence use, B and D area district, the change in occupancy of part of premises from bachelor apartments and photographers' studio, to photographers' studio and one (1) family residence to occupy more than the area permitted.

PREMISES AFFECTED—251 East 61st street, north side, 85 ft. west of 2nd avenue, Block 1416, Lot 120, Borough of Manhattan.

APPEARANCES—

For Applicant: James E. Casale and Alice Somoroff.

For Opposition: Carl W. Painter, John Elliott, A. B. Cantor, R. C. Hollyday, L. Willard, Jr. and L. F. Timmerman.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION

WHEREAS, a public hearing was held on this application on October 23, 1956 after due notice by publication in the Bulletin; laid over to November 7, 1956, at the request of an objector's representative; no further request for adjournment considered; then to December 4, 1956, for inspection and decision; hearing closed; applicant to furnish the Board with information as to the uses in the building since its erection and to submit a memorandum as to the practical difficulty and unnecessary hardship; then to December 18, 1956, at the request of the applicant to file revised plans and a new decision of the borough superintendent; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and East 61st street are in residence and business use, B and D area, class $1\frac{1}{2}$ height districts; 2nd avenue is in a business use, B area, class $1\frac{1}{2}$ height district; and

WHEREAS, the decision of the borough superintendent, dated June 6, 1956 acting on Alt. Applic. 478-56, reads:

"1. Proposal to change the use of part of subject bldg., located partly in a 'Business Use District' and partly in a 'Residence Use District' (area B & D), from bachelor apts., as approved under C.O. 2581, to photographers' studio is contrary to Art. II, Sect. 3 of the Zon. Resol.

2. Proposal to occupy more than 65% of the area of the lot in the 'B Area' portion of the lot is contrary to Art. IV Sect. 12(b) of the Zon. Resol.

3. Proposal to occupy more than 55% of the area of the lot in the 'D Area' portion of the lot is contrary to Art. IV Sect. 14(c) of the Zon. Resol."

and

WHEREAS, the applicant states that the premises consist of a plot, 19 ft. 6 in. frontage by 100 ft. 5 in. in depth, on which is located a basement and three story building of class 3 construction, now occupied as bachelor apartments, 19 ft. 6 in. in height, 36 ft. 6 in. in depth, and a one story building 39 ft. 5 in. by 19 ft. 6 in.; and

WHEREAS, the applicant states that the building was erected prior to 1919 as a private residence; that in 1919 and 1920 the premises was converted to a class B multiple dwelling and a separate one story brick building was erected at the rear of the lot for use as a studio; that the proposed

MINUTES

use of the building as altered is as follows: cellar—boiler room and storage; basement—photographer's office in the main building and his studio in the new extension and present studio: 1st floor and 2nd floor will be occupied by the photographer as his residence; 3rd floor—two room apartment separately tenanted; that it is proposed to add an additional 10 ft. to the existing studio from the main building; and

WHEREAS, the applicant states that the total area occupied by the existing two buildings is 75% of the B area and 75% of the D area; that the total area occupied by the buildings when altered will be 80% of the B area and 80% of the D area; that the owner of the premises intends to occupy the basement floor as offices and photographic studio and maintain his residence in the duplex apartment on the 1st and 2nd floors and extend it to the 3rd floor; and

WHEREAS, the applicant contends that the nature of the photographic work is that of photography for advertising; that all photographs are from still settings; that the materials used are non-inflammable such as manufactured by Eastman Kodak, Du Pont or other reliable manufacturers; that for developing, fixing and cleaning of plates, films and only ordinary and well known harmless solutions as manufactured by the above concerns will be used; that since all of these materials may be obtained freely on the open market, no large quantities of films and chemicals need be stocked on the premises; that the equipment to be used in the above business consists of the usual paraphernalia including cameras, lights and background props; that as indicated on the plan of the basement floor, the photographic studio is located in the building at the rear of the lot, separated from the dwelling portion of the building; that only the offices for the conducting of the business are in the main part of the building; that a separate entrance to the business portion of the building is being provided on the easterly side of the building, which is the side located in the business use district; that in all other respects the building and occupancy will be made to comply with all laws, rules and regulations applicable thereto, and a new certificate of occupancy will be obtained; and

WHEREAS, the applicant states that the present owner has held title to the property since March 2, 1956; that the assessed valuation of land is \$24,000 and of the buildings \$20,000 making a total of \$44,000; that the building was erected prior to 1919; and

WHEREAS, the applicant has changed the basis of his application from section 21 to section 7b; and

WHEREAS, the applicant has withdrawn his request for variance for extension of area as expressed in objections of the Borough Superintendent under 2 and 3, leaving objection 1 only as to use; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, and the Board has taken into account the fact that the better part of the street is toward Third avenue and that the building in question is approximately three-quarters in a business district and that toward Second avenue the adjoining buildings to the east are used for business purposes; and

WHEREAS, the committee recommended that in view of the revised plans which have been filed, eliminating any extension in area of the building, that the variance sought should be permitted for a term of years under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, subdivision b of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under section 7b for a term of ten years, to permit the use of the existing building substantially as proposed and as indicated on plans filed with this application, marked "Received June 8, 1956," 16 sheets,

as revised by plans marked "Received November 29, 1956," 13 sheets and "December 7, 1956," 2 sheets, on condition that no changes shall be made to the building except to construct a storage room in the cellar of the rear building, as proposed; that the residential character and appearance of the building shall be retained without change and no signs shall be erected, except there may be a sign attached to the masonry near the entrance, not exceeding 144 square inches in area, not illuminated, advertising only the name of the owner and the use, provided such sign shall be of metal; that the building shall not be increased in height or area; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

470-56-BZ

APPLICANT—Paul Friedman, for The Boot Felt Co., Inc., owner.

SUBJECT—Application July 5, 1956—re (decision of the borough superintendent) under sections 7e, 7h and 7A of the zoning resolution, to permit in a local retail use district, the erection of a gasoline service station, lubricatorium, car washing, minor motor vehicle repairs, sale of auto accessories and parking of more than five (5) motor vehicles and the location of curb cuts, show windows and signs within 75 ft. of residence use district.

PREMISES AFFECTED—1712-1720 10th avenue and 559-567 18th street, northwest corner, Block 877, Lots 45-49 inclusive, Borough of Brooklyn.

APPEARANCES—

For Applicant: Paul Friedman.

For Opposition: Carl N. Mione.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly.. 4

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 16, 1956 after due notice by publication in the Bulletin; laid over to November 7, 1956, for inspection and decision; hearing closed; then to December 18, 1956, to permit applicant to consult with his client; hearing previously closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a local retail use, G area, class 1 height district; 18th street is in local retail and residence and business use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated June 15, 1956 acting on N.B. Applic. 936-56, reads:

"1. Proposed building and premises, on a lot in a Local Retail zone, to be used for gasoline service station, lubrication, washing (non-automatic), minor repairs with hand tools only, office & sale of auto accessories and parking and storage of more than five motor vehicles is contrary to Art. II, PP. 4-c of the Zoning Resolution.

2. Business entrances (curb cuts), show windows and signs within 75' of a Residence zone in a transition from non-residential to residential zone is contrary to Art. II, PP. 7-A of the Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 100 ft. 2 in. in depth, now vacant; that it is proposed to remove the existing fence and sheds and to erect a modern gasoline service station and incidental accessory uses; and

WHEREAS, the applicant states that as of July 25, 1916 the property was zoned as a business district and the present local retail designation became effective on May 10, 1956; that the height and area designations have not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; and

MINUTES

WHEREAS, the applicant contends that there is no economic demand for the use of the subject premises for retail store development; that existing store facilities are located elsewhere in the area and are sufficient to satisfy the present needs of the residents in the neighborhood; that the surrounding area is almost fully developed so no further need for store facilities in the neighborhood can be reasonably anticipated; that the proposed Prospect expressway will be a physical barrier, despite the proposed pedestrian overpass, to any possible retail support for this site southwest of the expressway, and the character of the development on said other side of the expressway provides substantially no support for a retail store at the site; that there is no economic demand for the residential development of the subject premises as it is located in a local retail use district and along the new proposed Prospect expressway which will sustain a substantial volume of automotive traffic, so that new residences cannot be constructed so as to yield a reasonable return on the investment; that there is an economic demand for a gas station at the subject premises as it is located along the service road of the new proposed Prospect expressway and because there are no similar facilities for the convenience of the public in the immediate area; and

WHEREAS, the applicant further contends that a grant of this application would have no adverse effect upon nearby properties as the premises are located entirely within a local retail use district and opposite the proposed Prospect expressway; that the adjoining property to the east in block 877, lot 44 is developed with a garage; that the property opposite the subject premises on the southerly side of 10th avenue in block 878, lot 74 is developed with a store and residence above; that the adjoining property to the west will be protected and buffered by the proposed fencing and landscaping arrangements; that it is proposed to set the building back to 10 ft. from the northerly lot line and to erect a 5 ft. 6 in. high woven wire fence along the northerly and easterly lot lines; that it is also proposed to seed and landscape the intervening 10 ft. strip between the rear of the proposed building and the northerly lot line, creating a landscaped buffer between the proposed use and the adjoining property; that it is also proposed to install a 4 ft. 6 in. wide seeded and landscaped strip adjoining the proposed fence, protected by a 6 in. by 8 in. concrete curb; that the proposed structure, one story, 14 ft. 10 in. in height and occupying an area of 1260 sq. ft. would provide more light and ventilation to nearby properties than if a conforming use structure were erected; that the proposed curb cuts located within 75 ft. of the residence use district would not adversely affect anyone and at the same time would enable the owner to make better use of the location of the premises by facilitating ingress and egress; that the proposed show windows and signs within 75 ft. of the residence use district are small, unobtrusive and set back 35 ft. 8 in. from the 18th street building line, with a landscaped area and fence serving as an effective buffer between them and the residence use district; and

WHEREAS, the applicant states that the present owner has held title to the property since May 3, 1955 and that the assessed valuation of land is \$6,600; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under Section 7, Subdivisions e, h and 7A of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on N.B. App. 936-56, Objection No. 1 and 2 be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

492-56-BZ

APPLICANT—Leonard F. Rothkrug, for 324 Lafayette Realities, Inc., owner.

SUBJECT—Application July 10, 1956—re (decision of the borough superintendent) under sections 7f and 7i of the

zoning resolution, to permit in a residence and retail use district, the erection and maintenance of a gasoline service station, minor auto repairs with hand tools only, office and sales, car washing (non automatic) and lubritorium.

PREMISES AFFECTED—3400-3408 Baychester avenue and 2001-2021 Tillotson avenue northeast corner and 3401-3409 Dereimer avenue, Block 5257, Lots 37 and 47, Borough of The Bronx.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly

Negative

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 20, 1956 after due notice by publication in the Bulletin; laid over to December 18, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Tillotson avenue and Baychester avenue are in residence and retail use, C area, class 1 height districts; Dereimer avenue is in a residence use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated June 26, 1956 acting on N. B. Applic. 1181-56, reads:

"1. Proposed erection of a gasoline service station, minor auto repairs (hand tools only) office and sales, car washing (non-automatic) and lubritorium on the retail portion of a lot located partly in a retail use district and partly in a residence use district is contrary to Art. 2, Sec. 4-A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 102.42 ft. frontage by 200 ft. in depth, irregular, presently vacant; that it is proposed to use only the 102.42 ft. Baychester avenue frontage for a depth of 100 ft. (front along Tillotson avenue) back from and parallel with Baychester avenue, for a gasoline service station, minor auto repairs with hand tools only, office and sales and non-automatic car washing; and

WHEREAS, the applicant states that on July 25, 1916 the entire premises was in an unrestricted use district; that on January 20, 1927 Baychester avenue was changed to a business use district so that the premises was then partly in a business and partly in an unrestricted use district; that on August 26, 1954 Baychester avenue was changed to a retail use district; that the balance of the premises, not the subject of this application, is now in a residence use district; and

WHEREAS, the applicant contends that the portion of the premises under consideration is entirely within a retail use district; that at the time of the passage of the zoning resolution and for more than ten years thereafter, the premises was in an unrestricted use district and the proposed uses would have been permitted uses at that time; that the premises cannot be economically developed with a conforming use; that there is no economic demand for the construction of retail stores at the subject premises; that the entire area is only sparsely developed and the small number of residents would not be sufficient to warrant development with retail stores; that in the event that there is an increase in residential development, there is adequate retail store property available north of the Dyre avenue elevated railroad along Baychester avenue; that the subject premises is separated and cut off from the Baychester avenue frontage, zoned retail, by this elevated structure, so that it is outside of the area which might conceivably be developed with conforming uses; that there is no economic demand for the development of the premises for residential purposes, as the

MINUTES

property adjoins the elevated railroad structure and is therefore undesirably situated; that in addition, more than 80% of the entire area within a 500 ft. radius is vacant and undeveloped; that there is an economic demand for the use of the subject premises as a gas station and accessory uses; that there are no gas stations within the affected area, the 500 ft. radius, nor to the north and south along Baychester avenue; that Baychester avenue and Tillotson avenue will be heavily trafficked streets in view of the proposed exit from the New York thruway; that there is no property along Baychester avenue appropriately zoned for the purposed uses and a vital community service is therefore lacking; that a grant of the proposed variance will not adversely affect the neighborhood as the property is mostly undeveloped—immediately adjacent to the north is the elevated railroad; that the property adjacent to the east for 100 ft. is under the same ownership and is not subject of this application; that this property offers a substantial buffer area protecting the development of Tillotson avenue to the east; that it is estimated that the cost of construction would be such that it would require approximately 15 years in order to properly amortize the same and it is therefore asked that the variance be granted for that term; and

WHEREAS, the applicant states that the present owner has held title to the property since December 1, 1949 and September 30, 1948 and that the assessed valuation of land is \$10,700; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the Committee ascertained that there is no proposed widening of Baychester avenue at this point; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions f and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of fifteen years, to permit a portion of the premises as proposed and indicated on plans filed with this application, marked "Received July 10, 1956", 2 sheets, and "November 7, 1956", 1 sheet, to be occupied as a gasoline service station and accessory uses, substantially as proposed on such plan, *on condition* that the accessory building shall be faced with face brick on the front and two sides and shall have no cellar; that the rear of such building may be of common brick, painted or stuccoed; that the doors to toilets shall be arranged so as not to be contiguous; that the building shall be of the design and arrangement initiated on such plan and in all other respects shall comply with the requirements of the Building Code and all other laws, rules and regulations applicable thereto; that from the accessory building north and south there shall be erected a masonry wall not less than 5 ft. 6 in. in height, of masonry agreeing with that of the accessory building; that such wall shall be returned along the building line of Tillotson avenue, where shown, for approximately 30 feet; that pumps shall be of a low approved type, erected not nearer than 15 feet to the street building line of Baychester avenue; that gasoline storage tanks shall not exceed twelve 550 gallon approved tanks; that curb cuts shall be restricted to two on Baychester avenue, each not over 30 ft. in width and one curb cut of similar width to Tillotson avenue; that the sidewalk and curbing abutting the site shall be constructed or repaired to the satisfaction of the Borough President; that signs shall be restricted to a permanent sign attached to the facade of the accessory building, facing Baychester avenue only, and to the illuminated globes of the pumps, excluding all roof and temporary signs, but permitting the erection at the intersection of Baychester and Tillotson avenues of a post standard to support a sign, which may be illuminated, advertising only the gasoline on sale and permitting such sign may extend beyond the building line of Baychester avenue not more than 4 feet; that at such intersection there shall be

erected a block of concrete not less than 12 in. in height, extending for at least 5 feet along each street building line; that such portable fire-fighting appliances shall be installed as the fire commissioner shall direct; that the rear portion of the property to the east where not included in this gasoline service station shall be left vacant with existing trees and properly fenced; that under section 7i there may be repairing of motor vehicles, provided such repairing is by hand tools only, of a minor nature for adjustments only and maintained solely within the accessory building; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

Adjourned: 3:15 P. M.

JOSEPH J. DOYLE, *Chief Clerk*.

Negative 0

THE RESOLUTION

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 236-38-SM Vol. II.

Subject: Amendment to resolution as to additional steel subpurlins.

U. S. Gypsum Company requested by letter dated April 11, 1956 that the resolution adopted February 27, 1940 and amended at various times through December 13, 1955 under Cal. No. 236-38-SM Vols. I and II be amended so as to include additional bulb tees. The application was reopened by a vote of the Board May 22, 1956.

Purpose

The reinforced gypsum concrete slab construction is used as an incombustible roof deck for all classes of construction.

Description

The construction is the same as the construction previously approved under Cal. No. 236-38-SM Vols. I and II except that the applicant wishes to use additional bulb tees and different spans in the construction of the slab.

The requested tees are identified as follows:

Type 1480—Sec. Modulus in ins.—0.173 wt.—1.55 lbs./lin. ft.
Type 1680—Sec. Modulus in ins.—0.261 wt.—2.00 lbs./lin. ft.
Type 2180—Sec. Modulus in ins.—0.520 wt.—3.05 lbs./lin. ft.
Type 2140—Sec. Modulus in ins.—0.639 wt.—3.65 lbs./lin. ft.
Type 3258—Sec. Modulus in ins.—1.050 wt.—4.67 lbs./lin. ft.

Inspection and Test

The requested tees were load tested at the applicant's plant at New Brighton, Staten Island, New York, in the presence

MINUTES

of Asst. Engr. J. A. Darts Committee on Test and Messrs. W. W. Bainbridge, F. J. Decarlo and J. D. Olsen representing the applicant.

SLAB I

Tee Type 1480—Clear Span 4'-8"
Area under test—37.6 sq. ft.
Load at failure—13005 lbs.
Carrying capacity— $13005 \div 4 = 346$ lbs./sq. ft.
Safe carrying capacity in accordance with C26-626.0
Administrative Building Code— $346 \div 4 = 86\frac{1}{2}$ lbs. per sq. ft.

The samples were constructed as follows:

SLAB II

Tee Type 1680 Clear Span 5'-8"
Area under Test—45.6 sq. ft.
Load at failure—12180 lbs.
Carrying capacity— $12180 \div 45.6 = 267$ lbs./sq. ft.
Safe carrying capacity in accordance with C26-626
Administrative Building Code— $267 \div 4 = 67$ lbs./sq. ft.

SLAB III

Tee Type 2180 Clear Span 7'-8"
Area under Test—61.1 sq. ft.
Load at failure—14207 lbs.
Carrying capacity— $14207 \div 61.6 = 230$ lbs./sq. ft.
Safe carrying capacity in accordance with C26-626
Administrative Building Code— $230 \div 4 = 57\frac{1}{2}$ lbs./sq. ft.

SLAB IV

Tee Type 2140 Clear Span 9'-4"
Area under Test 74.4 sq. ft.
Load at failure—15455 lbs.
Carrying capacity— $15455 \div 74.4 = 207$ lbs./sq. ft.
Safe carrying capacity in accordance with C26-626.0
Administrative Building Code— $207 \div 4 = 52$ lbs./sq. ft.

SLAB V

Tee Type 3258—Clear Span 10'-2"
Area under Test—78.2 sq. ft.
Load at failure—15,677 lbs.
Carrying capacity— $15,677 \div 78.2 = 200$ lbs./sq. ft.
Safe carrying capacity in accordance with C26-626.0
Administrative Building Code— $200 \div 4 = 50$ lbs./sq. ft.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends that the resolution adopted February 27, 1940 and amended at various times through December 13, 1955 under Cal. No. 236-38-SM—Vol. I and II be amended so as to permit the use of the following bulb tees with spans and loads as follows: Tee 1480 for a clear span of 4'-8" at not over $86\frac{1}{2}$ lbs./sq. ft. uniform; Tee 1680 for a clear span of 5'-8" at not over 67 lbs./sq. ft. uniform load; Tee 2180 for a clear span of 7'-8" at not over $57\frac{1}{2}$ lbs./sq. ft. uniform load; Tee 2140 for a clear span of 9'-4" at not over 52 lbs./sq. ft. uniform load and Tee 3258 for a clear span of 10'-2" at not over 50 lbs./sq. ft. uniform load on condition that the requirements of the resolution adopted February 27, 1940 and amended through December 13, 1955 under Cal. No. 236-38-SM—Vols. I and II are complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,

GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby amend the resolutions of February 27, 1940 through December 13, 1955 in accordance with the above report.

THE RESOLUTION—

REPORT OF COMMITTEE ON TEST

WHEREAS, the report of a Committee on Test reads:

RE: Cal. No. 56-54-SA

Subject: Hastings Heatwell Inshot Conversion Burner, Models MX1-150 and MX1-300.

Calray Distributors Inc., agent for Hastings Air Conditioning Co., manufacturer filed January 25, 1954 an application with the Board of Standards and Appeals for approval of the Hastings Heatwell Inshot Conversion Burner, Models MX1-150 and MX1-300 under the provisions of Article 12, Chapter 26 Administrative Code.

Purpose

A conversion burner using gas fuel.

Description

The Hastings Inshot Conversion Burners are pedestal mounted gun type burners.

A gas fuel is burned through a cast iron orifice burner at a pressure of $3\frac{1}{2}$ " W. C. Combustion air is supplied by means of a blower fan and air quantity is adjustable by means of a shutter which can be locked in position. Ignition is by pilot flame.

Automatic safety controls used are a blower safety switch, thermocouple and automatic gas valve.

The blower safety switch will shut down the burner within 60 seconds in case the blower should fail to operate. The thermocouple will shut-off the supply of gas in case of flame failure.

The MX1-150 has an input range of 70,000 BTU per hr. minimum to 150,000 BTU per hr. maximum.

The MXK-300 has an input range of 150,000 BTU per hr. minimum to 300,000 BTU per hr. maximum.

Inspection and Test

All data submitted by the applicant were examined at the offices of this Board by Asst. Engr. G. F. Sklenarik, Committee On Test.

Both the MX1-150 and MX1-300 have been listed by the American Gas Association, Certificates 20—(304.1 & .11) .001 and 20—(304.2 & .21) .001.

Recommendation

On the basis of the data submitted by the applicant, the Committee on Test recommends the approval of the Hastings Heatwell Inshot Conversion Burners, Models MX1-150 and MX1-300 for use in New York City when installed in accordance with this report and the provisions of Article 12, Administrative Building Code, all electrical work to be in accordance with the Electrical Code of the City of New York and provided each burner will bear a label, permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 56-54-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,

GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this appliance in accordance with the above report.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 58-54-SA

Subject: Hastings Heatwell Adjusto V Gas Burner, Models V-12, V-18, V-24, V-30 and V-36 and V-54.

Calray Distributors Inc., agent for Hastings Air Conditioning Co., manufacturer, filed January 25, 1954 an application with the Board of Standards and Appeals for approval of the Hastings Heatwell Adjusto V Gas Burner, Models V-12, V-18, V-24, V-30, V-36 and V-54 under the provisions of Article 12, Chapter 26, Administrative Code.

Purpose

A conversion burner using gas fuel.

Description

The Hastings Adjusto V Gas Burner consists of a sheet steel air box serving as a plenum chamber to supply primary and secondary air from an electrically operated blower to the burner which is made up of a group of individual burner heads assembled in rows in V form.

Each burner head is fed gas through an orifice into an open end venturi tube which feeds the resulting air-gas mixture into openings in a soft fire brick that is drilled out for flame ports and secondary air supply.

Ignition is by non-automatic standing pilot which burns continuously and acts as igniter for runner tube and intermittent pilot located on the adjacent line of burner heads.

The smallest size V-12 model has two rows of three burner heads each. The largest size V-54 model has three rows of six burner heads each. The angle between rows of burner heads is adjustable.

The various models with their BTU input capacities are as follows:

Burner Number	BTU Input 4 WC Pressure
V12-30	360,000
V12-38	456,000
V18-25	450,000
V18-30	540,000
V18-40	720,000
V24-33	792,000
V24-40	960,000
V30-40	1,200,000
V30-47	1,400,000
V36-44	1,584,000
V36-62	2,230,000
V54-52	2,800,000
V54-65	3,350,000
V54-75	4,000,000

Gas is supplied through a pressure regulator which is factory set at 3½" WC outlet pressure.

In the usual sequence of operation, when the primary control (thermostat) calls for heat a Minneapolis-Honeywell R890 relay opens a pilot solenoid valve admitting gas to the runner tube and intermittent pilot which is ignited by the standing pilot. The flame from the intermittent pilot is set to contact a flame rod or thermocouple and completes an

electronic circuit causing the R890 relay to start the blower. Air pressure from the blower actuates a sail switch opening the main gas valve. The volume of air supplied by the blower may be adjusted by a manual shutter.

Failure of the intermittent pilot flame during operation will cause instant closing of the main automatic gas valve. If the standing pilot should fail when burner is off, then when the primary control calls for heat the pilot solenoid will again open admitting gas to the runner tube and intermittent pilot. Since the intermittent pilot will not light, the electronic circuit will not be completed and within 35 to 55 seconds the R890 relay will go to safety lockout position requiring manual reset. If the blower fails to run the sail switch will not operate and the main gas valve then will not open.

Other safety controls used such as low water cut-off, high limit pressuretrol, etc., should be wired into the low voltage circuit in the relay.

Inspection and Test

All data submitted was examined at the offices of this Board by Asst. Engr. G. F. Sklenarik, Committee on Test.

Recommendation

On the basis of the data submitted, the Committee on Test recommends the approval of the Hastings Heatwell Adjusto V Gas Burner, Models V-12, V-18, V-24, V-30, V-36 and V-54 for voluntary use in New York City when installed in accordance with this report and the provisions of Article 12 Administrative Building Code; all electrical work to be in accordance with the Electrical Code of the City of New York and provided each burner bears a label, permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 58-54-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,

GEORGE F. SKLENARIK,

Calray Distributors Inc., agent for Hastings Air Conditioning Co. Inc., owner, filed January 25, 1954, an application

MINUTES

with the Board of Standards and Appeals for approval of the Hastings Air Control Gas Unit Heater Models F-80, F-100, F-120, F-160, F-200, F-250; B-80, B-100, B-120, B-160, B-200, B-250 and DU-80, DU-100, DU-120, DU-160, DU-200, DU-250 under the provisions of Article 12 Administrative Building Code.

Purpose

suspended type gas fired heaters for commercial and industrial use.

Description

The Hastings-Air Control Gas Unit Heaters are self-contained cabinet type units designed for overhead installation.

They are made up of a series of vertical heat exchanger tubes of 18 gauge aluminized steel welded together with 16 gauge aluminized steel header plates. Internal baffles are of stainless steel.

Beneath the heat exchanger tubes are cast iron burners with stainless steel ribbon type openings. They fire directly into the heat exchanger tubes and the products of combustion are carried off through a flue connection. A draft hood is built into each unit. The outer cabinet is made of 20 gauge cold rolled steel with baked-on enamel finish.

Each series of heaters has an input rating beginning at 80,000 Btu per hr. For the "80" model up to 250,000 Btu per hr. for the "250" model.

The F series have electrically driven fans for heat circulation whereas the B series have electrically driven centrifugal blowers for the same purpose. Both series are constructed with four way adjustable louvers for directing the flow of heated air.

The Du series are designed to be connected to duct work.

Controls used in all models consist of a gas pressure regulator, manual gas shut-off valve, a manual pilot, and a thermocouple and automatic gas shut-off valve to stop the flow of gas in case of flame failure.

Inspection and Test

A sample burner was inspected at 735 Bergen Street, Brooklyn, N. Y. Present were G. F. Sklenarik, Asst. Engr., Committee on Test and M. S. Frankle representing the manufacturer. The unit was designed and equipped in accordance with the data submitted.

All models are approved by the American Gas Association.

Recommendation

On the basis of the inspection and the data submitted by the applicant, the Committee on Test recommends the approval of the Hastings Air Control Gas Unit Heater, Models F-80, F-100, F-120, F-160, F-200, B-80, B-100, B-120, B-160, B-200, B-250 and DU-80, DU-100, DU-120, DU-160, DU-200 and DU-250 for voluntary use in New York City for commercial and industrial installation other than in garages or places of explosive atmospheres as these gas heaters are not provided with flashback screen protection around the combustion air intake openings; all installations to comply with Article 12 Administrative Building Code and each appliance to bear a label, permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 59-54-SA."

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 625-55-SA

Subject: Huebsch Twin Cylinder Tumbler (to tumble dry washed clothing).

Huebsch Manufacturing Company, Milwaukee, Wisconsin filed July 8, 1955 an application with the Board of Standards and Appeals for approval of the appliance known as the Huebsch Twin Cylinder Tumbler under the provisions of Article 12, Chapter 26 Administrative Building Code.

Purpose

The appliance is used to dry clothes by the application of heat.

Description

This appliance, a gas heated commercial drying tumbler, consists of two perforated metal cylinders, each 26" in diameter by 24" deep, inside dimensions.

The cylinders rotate within a single enclosing metal shell. A motor driven fan is located in the rear and at bottom of outer shell. A gas heating unit is placed on top of the enclosing shell, so that the fan draws air through the heater to warm it and then through the perforated cylinders and dries the material therein.

Each of the 26" by 24" cylinders dry about 15 lbs. of material. Drying time varies from approximately 5 to 25 minutes, depending upon size and type of load.

The damp clothes or fabrics are placed in the perforated cylinders, the doors closed, the motor switches on and the gas turned on.

The warm air circulating through the clothes dries them and is then exhausted to the outer air.

A large lint trap is provided and installed as a part of the tumbler, located at the extreme bottom. This lint trap is so constructed as to catch and hold all and any lint coming from the drying operation. A large drawer also is provided at extreme bottom of tumbler to enable the operator to remove lint caught in this trap.

The machine is entirely safe to operate as a switch interlock causes the motor to shut off if either door is opened. When the motor cuts off by switch or by power failure, a Basoid cuts off the gas supply to the heater. This prevents the gas burners from operating unless the fan is drawing off the heat. A thermocouple attached to the Basoid shuts off the gas supply if for any reason the pilot light for the burners is not lighted.

Inspection and Test

The equipment was examined by Asst. Engr. J. A. Darts Committee on Test. It was noted that the gas cannot be turned on unless the motor driven fan is drawing off the heated air, the clothes must be inside the cylinder and the doors closed before the machine can be started.

Recommendation

On the basis of the inspection the Committee on Test recommends the approval of the Huebsch Twin Cylinder Tumbler (gas heated) when installed in accordance with the requirements of Article 12, Chapter 26 Administrative Building Code, that all ports and orifices be maintained for the type of gas used and that the appliance bears a label, permanently affixed reading as follows: "Approved by the

MINUTES

Board of Standards and Appeals for the use in New York City under Cal. No. 625-55-SA."

(Sgd.) HARRIS H. MURDOCK,

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 626-55-SA

Subject: Huebsch 16 Pound Tumbler.

Huebsch Manufacturing Company, Milwaukee, Wisconsin filed July 8, 1955, an application with the Board of Standards and Appeals for approval of the appliance known as the Huebsch 16 Pound Tumbler under the provisions of Article 12, Chapter 26 Administrative Building Code.

Purpose

The appliance is used to dry clothes by the application of heat.

Description

The appliance, a gas heated commercial drying tumbler, consists of a perforated metal cylinder 26" by 24" (26" in diameter by 24" deep, inside dimensions).

The cylinder rotates within an enclosing metal shell and is equipped with a motor driven fan located in the rear and at bottom of outer shell. A gas heating unit is placed on top of the enclosing shell, so that the fan draws air through the heater to warm it and then through the perforated cylinder and dries the material therein.

The 26" by 24" cylinder dries about 16 lbs. of material. Drying time varies from approximately 5 to 25 minutes depending upon size and type of load.

The damp clothes or fabrics are placed in the perforated cylinder, the doors closed, the motor switched on and the gas turned on.

The warm air circulating through the clothes dries them and is then exhausted to the outer air.

A large lint trap is provided and installed as a part of the tumbler, located at the extreme bottom. This lint trap is so constructed as to catch and hold all and any lint coming from the drying operation. The lint trap is so constructed as to enable the operator to easily remove the lint caught in this trap.

The machine is entirely safe to operate as a switch interlock causes the motor to shut off if the door is opened. When the motor cuts off by switch or by power failure, a Basoid cuts off the gas supply to the heater. This prevents the gas burners from operating unless the fan is drawing off the heat. A thermocouple attached to the Basoid shuts off the gas supply if for any reason the pilot light for the burners is not lighted.

Inspection and Test

The equipment was examined by Asst. Engr. J. A. Darts, Committee on Test. It was noted that the gas cannot be turned on unless the motor driven fan is drawing off the heated air, the clothes must be inside the cylinder and the doors closed before the machine can be started.

Recommendation

On the basis of the inspection, the Committee on Test recommends the approval of the Huebsch 16 Pound Tumbler (gas fired) when installed in accordance with the requirements of Article 12, Chapter 26, Administrative Building Code, that all ports and orifices be maintained for the type of gas used and that the appliance bears a label, permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 626-55-SA."

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 741-55-SA.

Subject: The A. P. Smith Manufacturing Company, 8 Inch Electric Motor Operated Vertical Gate Valve.

The A. P. Smith Manufacturing Company, East Orange, New Jersey, filed September 2, 1955 an application with the Board of Standards and Appeals for approval of their 8 Inch Electric Motor Operated Vertical Gate Valve (300 lbs. test) under the provisions of C26-1383 Administrative Building Code.

Purpose

An electrically operated control valve to start and stop the flow of water from a city main into a yard hydrant system.

Description

The A. P. Smith 8 Inch Electric Motor Operated Vertical Gate Valve is designed for installation in the feed main of yard hydrant systems, where such systems are exposed to the weather and subject to frost in the winter months. The valve enables such yard hydrant systems to be kept dry during cold weather and when necessary to be opened electrically by remote control, from any desired location or locations permitting water to flow into the system.

The valve is a double flanged vertical non-rising stem gate with a double disc parallel seat and is made with a square bottom case. It is tested hydrostatically at 300 lbs.

MINUTES

per sq. inch by the manufacturer and the maximum non-shock water working pressure rating is 150 lbs. It is opened or closed by an electric motor driven unit provided with a Limitorque switch; in addition it is equipped with a hand-wheel which can be used to open and close the valve in case of power failure.

Inspection and Test

The valve was inspected at the Brighton Marine Repair Service Shipyard on Staten Island where it is installed in the yard hydrant system. Present were Asst. Engr. G. F. Sklenarik and J. A. Darts Committee on Test.

The valve is installed in a heated masonry pit and a manually operated by-pass arrangement is provided around the valve so that it could be removed or serviced if necessary without interfering with the water supply. The valve is operated remotely through an A.D.T. alarm system from any one of four alarm box locations on these premises.

Under test the valve was opened fully within 20 seconds, its open position being indicated by a red light on the panel board. A green light shines when the valve is closed.

The valve motor operates on 220V—3 phase current.

Recommendation

On the basis of the inspection and the date filed by the applicant, the Committee on Test recommends the approval of the A. P. Smith Manufacturing Company, 8 Inch Electrical Motor Operated Vertical Gate Valve for use in New York City under the provisions of C26-1383.0 Administrative Building Code on condition:

1. That a suitable current supervisory alarm panel having an indicating relay for each phase of the current of motor valve control be provided. This alarm is to be equipped with an 8" alarm gong and a 3" trouble bell. The cabinet housing this current supervisory panel is to be located adjacent to the push button controls.

2. That the valve control shall be of the double line breaker type.

3. That all local switches located in sight of valve motors shall be contained in a metal cabinet, securely locked, the key to be in charge of a responsible person.

4. The valve relay control panels and operating boxes to be housed in a heavy metal box fitted with a Fire Department Lock, painted red with 2" white letters to read as follows: "Yard Hydrant Remote Control Valve(s)." Each operation box is to show the number of each valve—by a green light that valve is closed and by a red light that valve is open. A blue or white print elevation showing the yard hydrant mains and all remote control valves shall be in a glass frame and be posted at remote control operation box.

NOTE: The above local supervisory alarm system may have central office supervisions if deemed necessary or if so desired.

5. Each valve shall be tested after installation by the Fire Department at such pressures and in such manner as deemed necessary by the Fire Department. Working pressures are not to be in excess of the required water working pressure approved for the body of the valve.

6. The Fire Department is to be notified and approve of each proposed installation.

7. There shall be permanently attached to each valve installed a metal plate reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 741-55-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 339-56-SM

Subject: Luminated Ceiling.

Thermotank Inc., Luminated Ceiling Division, Detroit, Michigan, filed April 27, 1956 an application with the Board of Standards and Appeals for approval of the material known as Luminated Ceiling under the provisions of C26-461.0 Administrative Building Code.

Purpose

The ceiling is to be used as a light diffuser and also to provide acoustical treatment.

Description

The system consists of corrugated translucent plastic sheets supported on metal members which are themselves suspended from the ceiling floor or roof above.

The plastic sheet is corrugated rigid vinyl chloride vinyl acetate sheet that contains no plasticizer and the corrugations are $\frac{1}{2}$ inch deep by $1\frac{1}{4}$ inch amplitude.

The installation is as follows:

The steel strap is attached to the floor, ceiling or roof above and hooks into the main aluminum carrying member, which is in the form of a modified I being 1 inch wide on the top flange, $1\frac{1}{8}$ inches wide on the lower flange and $\frac{3}{4}$ inch deep. These main members are spaced 3'-0" on centers and lateral support is provided by $\frac{1}{4}$ inch diameter rod. The ceiling hanger straps are installed 3'-0" on centers and a maximum of 8'-0" on centers in a direction perpendicular to those on 3'-0" centers so that a gullage is set up supporting a gullage 3'-0" in one direction and 8'-0" in the other direction.

Inspection and Test

The plastic met the requirements of C26-461.1 Administrative Building Code as to the self extinguishing qualities. The hangers and supports met the requirements of C26-88.0 as to combustibility.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of Luminated Ceiling as manufactured by Thermotank, Inc. (plastic light diffusing ceiling) for installation in New York City when constructed of materials as herein described and installed in accordance with the requirements of C26-461.1 Administrative Building Code on condition that the main carrying members shall be carried on straps as herein described, secured to the ceiling floor or roof construction above; that wires shall not be used in the suspension system and further that all plans filed with the Department of Housing and Buildings showing the proposed use of this system shall be marked or stamped as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 339-56-SM" and the containers or cartons in which the material is marketed shall be similarly marked. It is further recommended that the use of this material in Class I and II construction be limited to an area to be covered not to exceed 10,000 sq. ft. in area and only when such space is separated from the remainder

MINUTES

of the floor area by an approved wall, fire wall, fire partition or fireproof partition. In Class III the construction shall be limited in accordance with the requirements of the Administrative Building Code.

The Committee further recommends that as C26-1354.0 Administrative Building Code was amended by Local 105 of 1955 to allow the use of this type of light diffusers in locations as permitted under C26-1351 Administrative Building Code as amended by Local Law 91 of 1954 the plans filed with the Department of Buildings shall also show the proposed occupancy so that the use of this ceiling in the proposed location may be checked as to its use in the type of hazard occupancy as set forth under C26-1351.1 as amended by Local Law 91 of 1954. The Committee further recommends that, in approving the installation the Department of Buildings shall require that, in the event of the change of occupancy, the installation shall be re-examined under C26-1354.0 Administrative Building Code, as amended by Local Law 105 of 1955.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

JOHN A. DARTS,
Assistant Engineer,

GEORGE F. SKLENARIK,
Assistant Engineer,

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 693-56-SA

Subject: Forney Oil Burner, Models QWRMA, QMA, QSA, & QMSA.

R. V. Perotto for Forney Engineering Company, Dallas, Texas, filed September 19, 1956 an application with the Board of Standards and Appeals for approval of the appliance known as the Forney Oil Burner, Models QWRMA, QMA, QSA & QMSA under the provisions of the Oil Burner Rules of the Board.

Purpose

The appliance is an oil burner for use in residential public and commercial buildings.

Description

The type QWRMA oil burner gun may be installed in natural, induced or forced draft installations. The finely atomized oil is discharged from the orifice in the center of the air stream where it is mixed with the proper amount of air and carried into the combustion chamber for ignition and burning. Air for combustion is forced into the atomized oil spray in a definite pattern as determined by the type of air control register. Except for small capacity natural or induced draft burners, the type "D", "E" or

"H" air register is used which spins the air as it enters the oil spray.

The type QWRMA is basically a pressure atomizer (mechanical atomizing) depending entirely on the release of oil under pressure through a relatively small orifice to break up the oil into very small (atomized) drops. The oil is introduced into a cavity in the sprayer plate, through tangential slots so that it is spinning in the cavity before being discharged through the orifice. The centrifugal force due to spinning increases the angle of spray to force the atomized oil out into the air stream.

Because of the desirable effect of spinning the oil into the orifice cavity, the wide range type of mechanical atomizer "WR" maintains a relatively constant flow of oil through the tangential slots. At low capacity, the excess oil which is not discharged into the furnace is returned to storage an inner tube connected to the spinning cavity.

Connections to the tube assembly are made through a quick change type "Q" coupling and head connection coupled together by means of yoke and screw with "tee" handle. Connections to the coupling piece are made with flexible metal hose connections which permit adjustments in or out along the axis of the burner to position the tip for best mixing of fuel and air.

All parts of the atomizer tip assembly and the diffuser are made from stainless steel containing 25% chromium and 12% nickel. Many years of experience with different alloys prompted the selection of 25-12 stainless steel to best withstand high temperature and the corrosive effects of impurities in the fuel.

The type QMA oil burner gun may be used with type "D", "E", or "H" air registers. The principle of operation is the same as above except that the wide range feature is not used. All of the oil passing through the tangential slots in the sprayer plate is discharged into the furnace. The inner tube and return oil connection is omitted.

The type "QSA" is basically an internal mix design using steam to atomize the oil. Oil is brought to the tip assembly in the space between the oil tube and the steam tube. From this space it passes through four holes into the mixing chamber of the mixing tube. Steam for atomization is brought in through the steam tube and directed by means of the steam nozzle into the four oil streams. The mixture of finely atomized oil and steam is discharged from orifices in the tip.

The burner gun assembly is located at the axis of the main burner assembly. The atomized oil is discharged from the tip in the center of the air stream where it is mixed with the proper amount of air and carried into the combustion chamber for ignition and burning. Air for combustion is forced into the atomized oil spray in a definite pattern as determined by the type of air control register. Except for small capacity natural or induced draft burners, the type "D", "E", or "H" air register is used which spins the air as it enters the oil spray. Forney photograph No. 368 shows a type "H" register with directional vanes for spinning the air and the center guide tube with diffuser through which the oil gun is inserted.

Connections to the tube assembly are made through a quick change type "Q" coupling and head connection coupled together by means of a yoke and screw with "tee" handle. Connections to the coupling piece are made with flexible metal hose connections which permit adjustments in or out along the axis of the burner to position the tip for best mixing of fuel and air.

All parts of the atomizer tip assembly and the diffuser are made from stainless steel containing 25% chromium and 12% nickel. Many years of experience with different alloys prompted the selection of 25-12 stainless steel to best withstand high temperature and the corrosive effects of impurities in the fuel.

The type QMSA is basically an internal mix design using steam to atomize the oil. In addition, however, pressure or mechanical atomization is used to supplement the steam. Oil is brought into the center tube, then through tangential slots in the sprayer plate into a spinning cavity. From the

MINUTES

spinning cavity, the oil is discharged at relatively high pressure into the mixing chamber. Due to the combination of spinning and pressure atomization the oil is broken up into a fine spray in the mixing chamber. Steam is brought in around the center tube and discharged through a concentric row of orifices into the oil spray where it produces further atomization and mixing. The final mixture of atomized oil and steam is discharged through orifices in the tip as above.

Inspection and Test

The burners were inspected at Jamaica High School, Queens, New York by Asst. Engr. J. A. Darts and G. F. Sklenarik, Committee on Test and representatives of the applicant.

The burners were stripped so that the parts could be examined against detail drawings. A unit was then checked in operation. The CO₂ was found to be 8% with a 310°F. stack temperature.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Forney Oil Burner, Models QWRMA, QMA, QSA & QMSA for use in New York City with No. 6 oil when installed in accordance with the Oil Burner Rules of the Board and bearing a label permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 693-56-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

702-56-SA

APPLICANT—Aeroil Products Co., Inc., owner.
SUBJECT—Application October 3, 1956—Aeroil Liquefied Petroleum Gas-Fired Salamander, Model 35VP, approval of.

APPEARANCES—

For Applicant: Loyal W. Lohse.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. No. 702-56-SA

Subject: Aeroil Liquefied Petroleum Gas-Fired Salamander, Model 35VP.

Aeroil Products Company, Inc., South Hackensack, New Jersey, filed October 3, 1956, an application with the Board of Standards and Appeals for approval of the Aeroil Liquefied Petroleum Gas-fired Salamander, Model 35VP under the provisions of C-19-91 Administrative Code and the requirements of the Fire Commissioner.

Purpose

A space heater for temporary use in the setting and drying of concrete and plaster construction work.

Description

The Aeroil salamander is a cylindrical type made of sheet steel. It consists of a base to which is attached a venturi type upright burner equipped with a steel flame spreader over the top of the burner tube. The orifice of the burner is protected from clogging by a screen.

The housing shell surrounding the burner is of such diameter that it is not impinged by the spread out flame of the burner.

A cover is mounted on top of the shell with adequate clearance to deflect the heat and permit the flue gasses to escape.

In operation the Salamander is connected to a standard I.C.C. cylinder containing L.P.G. (propane). Heavy wall neoprene hose having threaded connections is used. Gas pressure is controlled by means of a regulator, factory set for a pressure not to exceed 11 inches W.C. This regulator is attached close to the cylinder. The unit is equipped with a manual shut-off valve and a Baso automatic gas shut-off valve operated through a thermocouple.

The Model 35VP is rated at 35,000 BTU per hour input.

Inspection and Test

A sample unit was inspected and tested at the premises of the applicant. Present were Asst. Engr. G. F. Sklenarik, Committee on Test, T. Creighton, P. Wollner, E. Truemper and L. Lohse representing the applicant.

The Gas valve was opened, the manual reset button on the automatic valve was held open and the burner ignited. After approximately 20 seconds the reset button was released and the automatic valve remained in the open position. The combustion was free of smoke and the flame, burning with a blue core and yellowish tips, was confined within the unit with no apparent impingement on the shell or cover. After 15 minutes of operation, tests made with a pyrometer showed a maximum surface temperature of 460°F.

With the flame extinguished and the gas flowing, the automatic valve stopped the escape of gas within 60 seconds.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant, the Committee on Test recommends the approval of the Aeroil Liquefied Petroleum Gas-fired Salamander, Model 35VP rated at 35,000 BTU per hour input as an unvented spaceheater for temporary use in dry concrete and plaster construction in accordance with this report and under the provisions of C-19-91 Administrative Code, Rule 2.7 of the Board's Rules for the Erection, Alteration, Repair, Excavation for and Demolition of Buildings and the requirements of the Fire Commissioner, provided that each appliance will bear a label, permanently affixed reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 702-56-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
JOHN A. DARTS,
Assistant Engineer,
GEORGE F. SKLENARIK,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated October 15, 1956, on amendment to Alt. App. 2325/40, reads:

"1. The five year time limit set by the Bd. of St. and Appeals in resolution 588-40-A amended resolution has expired."

WHEREAS, under date of June 18, 1940, the Board modified an objection of the borough superintendent on Alt. App. 2325/40, to permit the proposed use of a frame extension for business use within the fire limits on condition that the building be plastered throughout with wire lath and plaster; that the exterior be covered with incombustible weather surfacing; that the building be used only as proposed; basement, boiler room and gymnasium, 2 persons; 1st story, offices, 150 persons; 2nd story, offices, 150 persons, for a temporary term of five years; and

WHEREAS, the term of this variance was extended for an additional five years on February 17, 1948; and

WHEREAS, the applicant requested reopening of the appeal for the purpose of obtaining an extension of the term of the variance; and

WHEREAS, under date of November 20, 1956, the appeal was reopened and set for hearing on December 18, 1956, for consideration of the new decision of the borough superintendent; and

WHEREAS, the applicant contends that through inadvertence the term of the variance has expired and an amendment was filed with the borough superintendent October 1, 1956, and the decision referred to obtained; and

WHEREAS, the applicant requests that the decision of the borough superintendent be modified and the term of the variance be extended for a further period of five years.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on February 7, 1948, only insofar as it refers to the term of the variance so that as amended this portion of the resolution shall read:

"granted for a term of five years from the date of this amended resolution; that other than as herein amended the provisions of the resolution adopted by the Board on June 18, 1940 shall be complied with and a certificate of occupancy shall be obtained."

634-44-A—Vol. IV

APPLICANT—M. Martin Elkind, for 227 East 56th street Corp., owner (George Lazernick, lessee).

SUBJECT—Application reopened October 16, 1956 as Vol. IV—re Appeal from a decision of the borough superintendent—height and area.

APPEARANCES—

For Applicant: M. Martin Elkind.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated September 19, 1956, on Alt. App. 1099/56 reads:

"1. Res. 634-44-A states that the building shall not be increased in height or area". Proposed work contrary to this resolution."

and

WHEREAS, the applicant states the building is six stories, 74 ft. 11 in. in height, 50 ft. front by 90 ft. in depth, of fireproof construction, erected in 1888, altered in 1917, in a business use, B area, Class 1½ height district; used and occupied:—cellar—storage and boiler room, 2 persons; mezzanine—office, 3 persons; 1st floor—showroom, 5 persons; 2nd, 3d, 4, 5th and 6th floors—office, storage and factory, 15 persons per floor; proposed to be used and occupied without change except that the 6th floor will be used for photographers studio, offices and processing of photos with an occupancy of 10 persons and the mezzanine used for storage with no occupants; that the building is provided with one 3 ft. 8 in. wide interior fireproof stairs from roof bulkhead direct to street and one fire-escape at rear extending to roof by stair; and

WHEREAS, Certificate of Occupancy #33062 issued July 30, 1947, against Alt. App. 1257/44 describes the building as Class 1 construction and permits the following use and occupancy: cellar on ground, boiler room and storage, 2 persons; 1st floor, 120 lbs. liveload—showrooms and office, 5 persons; mezzanine—office, 3 persons; 2nd to 6th floors, inc., office, storage and factory, 15 persons each floor and contains the limitation that space used for manufacturing is not to exceed 25% of the floor area of the building and the factory use is to be a type permitted in a business use district; and

WHEREAS, the applicant states it is proposed to install partitions, plumbing equipment, etc. on the 6th floor to provide offices and facilities in connection with its use by a commercial photographer and to increase the ceiling height in part of the 6th story by removing a portion of the roof tier and constructing a new roof at a higher elevation with new enclosure walls for this raised portion; that in the process of extending the roof to the support of the rear wall a small mezzanine wall be formed at the rear of the 6th floor and an iron stair installed for access thereto, together with a railing along the open side overlooking the 6th floor area; and

WHEREAS, the applicant requests that the Board permit the proposed alteration on the 6th floor as a modification to the previous resolution adopted by the Board relating to this building; and

WHEREAS, the applicant contends that the greater ceiling height is necessary for the commercial photographer's use because of tall lighting equipment and camera equipment; that the proposed alteration will not be adverse to the intent of the Board's prior resolution; that the small additional change proposed is necessary due to the physical requirements of the equipment and does not represent a mere extension of the premises; that the nature of the proposed 6th floor use will not require as much activity or occupancy as the present certificate of occupancy permits; that the proposed use of the 6th floor is desirable and the alteration to accommodate it will in no way affect the character of the building or the considerations which the Board previously contemplated; and

WHEREAS, on December 19, 1944 under Cal. No. 634-44-A,

MINUTES

Vol. I, the Board modified Objection 2 issued by the borough superintendent October 19, 1944, on Alt. App. 1257/44 requiring exit passage to the street from the rear exterior stairs in accordance with Section C26-291.0 of the Administrative Code, on condition that the resolution adopted by the Board under Cal. No. 764-17-A as to second means of egress shall be complied with and granted so long as the number of persons employed above the first floor will not exceed ten persons, and in all other respects the building and occupancy comply with the Labor Law and all other laws, rules and regulations applicable thereto; and

WHEREAS, on April 10, 1945, under Cal. No. 634-44-A, Vol. II, the Board modified Objection 10a, b and c, issued by the borough superintendent February 5, 1945, on Alt. App. 1257/44, requiring compliance with Section 270 of the Labor Law as to exits on condition that the number of persons employed above the first floor shall exceed ten persons including those engaged in factory work; and

WHEREAS, the Board on December 10, 1946, under Cal. No. 634-44-A, Vol. III, modified Objection 10a and c issued by the borough superintendent September 18, 1946, on Alt. App. 1257/44, requiring exits to comply with the Labor Law, on condition that the primary means of egress be maintained as proposed and shown on plans marked "Received December 3, 1946" (4 sheets), and in addition that there be a second means of exit consisting of an exterior steel stairway with exit through fireproof passage from the cellar to the hallway of the primary means of exit and that the building be not increased in height or area and that the number of occupants not exceed the number then proposed (15 persons per floor) and in no event exceed the capacity of the primary means of egress; and

WHEREAS, this appeal was reopened by vote of the Board October 16, 1956, to consider a new decision of the borough superintendent relating to the increase in height of the sixth story; and

WHEREAS, the applicant respectfully requests that the Board grant approval for the proposed alteration.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on December 19, 1944, as thereafter *amended* by resolutions adopted April 10, 1945 and December 10, 1945 by adding thereto:

"that in the event the owner desires to increase the height of the top story, or sixth story, by altering the roof so as to provide a higher portion with a mezzanine, as proposed and as indicated on plans filed with this appeal marked "Received September 25, 1956" (4 sheets), such change may be permitted *on condition* that in all other respects the resolution above cited shall be complied with and a new certificate of occupancy shall be obtained and the work as proposed shall comply with the requirements of the Building Code therefor in all other respects."

661-49-A—Vol. III

APPLICANT—Ferdinand Savignano, for Concetta Giordano, owner.

SUBJECT—Application reopened May 8, 1956 as Vol. III—re Appeal from a decision of the borough superintendent—exit stairs.

PREMISES AFFECTED—1361 61st street, north side, 180 ft. west of 14th avenue, Block 5719, Lot 52, 1st and 2nd floors, Borough of Brooklyn.

APPEARANCES—

For Applicant: Joseph Luca.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioner Kleinert,
Commissioner Keating and Deputy Chief Connolly .. 4

THE RESOLUTION:

WHEREAS, the decision of the borough superintendent dated April 13, 1956, on Alt. App. 5019/54 reads:

"2. The exit stairs should be enclosed on each floor and arranged as accepted by the Bd. of Standards & Appeals under Cal. 661-49-A."

and

WHEREAS, the applicant states the building is 3 stories, 33 ft. in height, 20 ft. by 80 ft. in area at street level, 20 ft. by 82 ft. in area at typical floor level, of Class 3 construction, erected in 1905, in an unrestricted use, C area, Class 1 height district, used and occupied since 1947:—cellar—storage of piano parts, 0 persons; 1st floor—piano showroom and repairs, 3 persons; 2nd floor—piano repairs, 2 persons; 3d floor—woodworking (novelties)—4 persons; that no change in use or occupancy is now proposed; that the building is provided with one interior 3 ft. wide wood stairs, enclosed in partitions of wood studs with wire lath and 1 in. portland cement mortar on both sides, equipped with fireproof, self-closing, 1-hour test assemblies; stairhall leads direct to street and is provided with ladder and scuttle to roof. In addition there is a fire-escape on the front extending to street by drop ladder (Note: plans show counterbalanced ladder); and

WHEREAS, the applicant states it is now proposed to omit the stairhall partitions on 1st and 2nd floors and to have the showroom on first floor and have potential buyers make a tour of the repair portion of the building; that it is also requested that the partition on the 2nd floor enclosing the stair be omitted so as to have a continuous opening between the 1st and 2nd floors; that the omission of this enclosure will permit more area for working space which is very necessary for piano repairs as they are cumbersome and odd to handle; and

WHEREAS, the applicant contends that a total of four persons will be employed on the 3rd floor; that the width of the stair is adequate to accommodate this occupancy; that and it is requested since the condition is not dangerous and the occupancy low, that the function of this use will be highly alleviated into a better if the Board permits the omission of the partitions as herein proposed; and

WHEREAS, on March 25, 1949, under Cal. No. 661-49-A an appeal from objections 1 and 2 issued by the borough superintendent September 21, 1949, on Alt. App. 2659/49, requiring a dual means of egress for all floors in conforming with Sec. 270 of the Labor Law and requiring 120 lb. p.s.f. liveload for the factory occupancy was withdrawn without prejudice; and

WHEREAS, on December 20, 1949, under Cal. No. 661-49-A, Vol. II the appeal was restored to the docket to consider the same objections of the borough superintendent, redened on March 7, 1950, and this appeal was granted on condition that the prime means of exit be maintained as proposed and previously approved by the borough superintendent; that as a second means of exit the fire escape be maintained on the front with a counterbalanced stair to street; that the liveload on the 1st floor of 120 lbs. per superficial foot be maintained and the load on the upper floors at 75 lbs. per s.f. and so posted; that such portable fire-fighting appliances be installed as the fire commissioner may direct; that the building be not increased in height or occupancy; that the occupancy of the upper floors be limited to the capacity for the primary means of egress; and

WHEREAS, on May 8, 1956, this appeal was reopened as Vol. III to consider the new decision of the borough superintendent dated April 18, 1956, cited above.

Resolved, that the decision of the borough superintendent, acting on Alt. App. 5019/54, Objection No. 2 be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

THE RESOLUTION—

WHEREAS, Order #56320 Lf issued by the Fire Commissioner February 24, 1950, reads:

"1. Have at least one elevator kept in readiness for use by the Fire Department during all hours of the day and night, including holidays and Sundays, and a man competent to operate the elevator present at all times."

and

WHEREAS, the decision of the Fire Commissioner dated September 13, 1950, reads as follows:

"In reply to your letter of August 31, 1950, relative to item #4 of Order 56320 LF, your request must be denied as this department is without jurisdiction to grant modification of this item."

and

WHEREAS, the applicant states the building is 16 stories, 188 ft. in height, 55½ ft. by 90 ft. in area at 1st floor, 55½ ft. by 75 ft. in area at typical floor, fireproof construction, erected in 1925, located in unrestricted and retail use, B area, Class 1½ height district; used and occupied since 1925 as a tenant factory with a maximum capacity of 45 persons per floor; that the building is equipped with an approved stand-pipe system, an approved two-source sprinkler system, an interior fire alarm system and regular monthly fire drills are maintained; that there are two interior fireproof stairs and one fire tower; and

WHEREAS, Certificate of Occupancy #10321 issued December 1, 1925, permits the use of the building from 2nd to 16th stories for factory, 70 persons per floor and for store and offices on the 1st and mezzanine floors; and

WHEREAS, the applicant contends that in lieu of strict compliance with the order of the Fire Commissioner it is proposed to contract with the Automatic Fire Alarm Company and the Quick Response Service, Inc. to provide service in the building in accordance with the provisions specified in the General Resolution adopted by the Board under Cal. No. 630-56-GR; and

WHEREAS, the applicant contends that the plan proposed if carried out will provide the safety precautions intended by the pertinent provisions of the Administrative Code, as under this plan there will be an elevator operator available anytime the Fire Department arrives for the purpose of fighting a fire in the building.

Resolved, that the decision of the borough superintendent, dated February 24, 1950, acting on Order #756320 LF, Objection No. 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted* on condition that there shall be provided service in the building in accordance with the provisions specified in the General Resolution adopted by the Board under Cal. No. 630-56-GR and that evidence that such system has been put in working condition under such general resolution shall be furnished the Board within three weeks.

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated March 12, 1956, on amendment to Alt. App. 2096/55, reads:

"7M. Records show the above building 18' x 70' erected and completed in 1925, (N. B. 1504-25). Present building is 18' x 100'. An extension is shown on above plans (Alt. 2096-55). Records of this department show no previous plans or application filed for extension.

The above extension 30' in length encroaches 5' into the bed of a mapped street (101st St.). Apply to the Board of Standards and Appeals for approval as per Sec. 35 General City Law."

WHEREAS, the applicant states the building is 2 stories, 23 ft. in height, 100 ft. front by 18 ft. in depth, at street level, 70 ft. front by 18 ft. in depth at typical floor level, of class 3 construction, erected in 1925, located on a lot 100 ft. front by 18 ft. in depth, in a business use, C area, class one height district, and used and occupied since 1940—cellar—storage; 1st floor—store and one apartment; 2nd floor—two apartments; no change in use or occupancy is now proposed; and

WHEREAS, the applicant states that no work is now proposed to be done; that this application is for the purpose of obtaining acceptance of existing conditions, partly in the bed of a mapped street, and for which there are no approvals on record; that the questionable conditions consist of one-story extension occupied partly as a two-car garage and partly as a room forming an apartment in conjunction with space in the main building; and

WHEREAS, the applicant contends that the extension was erected about 1927 as a three car garage and subsequently one of the car spaces converted, together with an existing store space, into an apartment; that this alteration was done without approval and has now been presented to the Department for approval; that there is no obstacle to the Department's approval of the conditions except the fact that 5 ft. of the frontage of the property is within the bed of the mapped street widening; and

WHEREAS, the applicant contends that although the records of the Department do not show an approval of the extension, it is not certain that such an approval has not been obtained; that many of the records of the Department's

file on this property indicate damage by fire; that this condition is not uncommon in Queens, where records are missing in many cases due to fire and flood damage; that in addition, the fact that the Tax Department record for the year 1927 to 1928 describes this extension raises doubt as to whether or not an approval was obtained; that at the time of the erection of the extension in question, there were no procedures in the Department of Buildings to check construction in the beds of mapped streets, and therefore, the construction as now existing would have been approved had it been filed.

Resolved, that the decision of the borough superintendent, acting on Alt. App. 2096/55, Objection No. 7M, be and it hereby is *modified* under the powers vested in the Board by Section 35 of the General City Law, and that the appeal be and it hereby is *granted*, to permit the continuation of the building toward the rear alleged to be encroaching on the bed of the mapped street, as shown on plans filed with this appeal, marked "Received March 14, 1956" (3 sheets), on condition that in the event the property is taken by the city for such street widening, the liquidated damage shall be as determined by the court for the portion of the building herein involved as may be so taken; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

460-56-A

APPLICANT—Seymour A. Mitteldorf, and U. and H. Company, owner.

SUBJECT—Application June 22, 1956—Appeal from a decision of the borough superintendent, re light diffuser (plastic) ceiling within 10 ft. of entrance.

PREMISES AFFECTED—1457-1463 Broadway, west side, 51 ft. 3 in. south of West 42nd street and 587-595 7th avenue, Block 994, Lot 7, Borough of Manhattan.

APPEARANCES—

For Applicant: Seymour A. Mitteldorf.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0
Negative: Chairman Murdock, Commissioner Kleinert, Commissioner Keating and Deputy Chief Connolly 4

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent dated February 15, 1956, on Alt. App. 2375/50, redened June 19, 1956, reads:

"3. Plastic ceiling is not permitted in required stair enclosure. Sect. C26-461.1. Obtain Bd. S & A approval."

and

WHEREAS, the applicant states the building is 11 stories, 149 ft. 8 in. in height, 92 ft. and 106 ft. front by 99 ft. 10 1/8 in., irregular in depth, of fireproof construction, erected 1916, located in a business use, B area, class 1 1/2 height district, and used and occupied since 1916: cellar boiler room and utilities, 3 persons; basement—stores and banking offices, 18 persons; 1st floor—store and bank—25 persons; mezzanine—banking office, 10 persons; 2nd to 11th floors—offices, 40 persons per floor; penthouse—offices, 30 persons; no change in use or occupancy is now proposed; the building is equipped with an approved standpipe system, an approved two-source sprinkler system throughout, three interior stairs of fireproof construction and one fire tower; and

WHEREAS, the owner was convicted and fined in Municipal Term, Magistrates' Court, June 6, 1955, on charge of violation of the Administrative Code; and

WHEREAS, the Board is in receipt of a certificate from the borough superintendent dated June 29, 1956, issued pursuant to Section 668(c) of the Charter that the existence of the

MINUTES

plastic ceiling in the lobby of the building in question constitutes a hazard; and

WHEREAS, the applicant contends that the premises are adequately and properly provided with required means of egress by the existing stair in the northwesterly corner of the building and by the existing fire tower stair centrally located on the southerly side of the building; and

WHEREAS, the applicant contends that these two stairs run from the roof to the street terminating directly on to 7th avenue without having to pass through the elevator lobby wherein the plastic light diffuser ceiling has been installed; that these two stairs will adequately accommodate the number of persons permitted irrespective of the additional existing stair located in the northwesterly corner of the premises, which stair is in question; that the entire building including the elevator lobby in question is provided with 100% coverage by an approved sprinkler system and it is therefore requested that the plastic light diffuser, which was installed prior to the effective date of the enactment of Section C26-461.1(c) of the Administrative Code be permitted to remain inasmuch as the required exits from the building do not open on to the elevator lobby in question; and

WHEREAS, the applicant states that the ceiling in question is "Acoustiluminous ceiling" as approved by the Board under Cal. No. 99-53-SM; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee noted that the space in main elevator lobby where the ceiling apparently had been constructed, but the material had been removed, except for the supporting bars, the committee recommended that the application should not be granted.

Resolved, that the decision of the borough superintendent, acting on Alt. App. 2375/50, Objection No. 3 be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on October 2, 1956 after due notice by publication in the Bulletin; laid over to October 30, 1956, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Nurge avenue are in business and residence use, C area, class 1½ height districts; Flushing avenue is in business and unrestricted use, C area, class 1½ height districts; 54th street is in business, residence and unrestricted use, C area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated June 28, 1956 acting on Alt. Applic. 1302-56, reads:

"1. Parking and storage of more than 5 motor vehicles in the portion of lot and lots located in a Residence Use District is contrary to Section 3, Article II of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 36.61 ft. and 112 ft. frontage by 300 ft. and 364 ft. in depth, irregular, now vacant; that it is proposed to use premises for the parking and storage of more than five motor vehicles; and

WHEREAS, the applicant states that the district maps show that a portion of the plot is now in a business use district for 100 ft. south of Flushing avenue and the balance of the

plot is in a residence use district; that on July 25, 1916 the entire site was in an unrestricted use district, C area, 1½ height district; that the use district was changed to its present use by amendment H6674 by the Board of Estimate on February 28, 1929; and

WHEREAS, the applicant states that at present the entire plot is vacant; that Alt. Applic. No. 2571-51 for lot No. 11 of block 2633, which is completely within the business use district portion of the plot, was approved by the department of buildings on November 23, 1951 for use as a parking lot for more than five motor vehicles; that B.N. Applic. No. 2507-51 was approved November 23, 1951 for the installation of two curb cuts for this parking lot and permit No. Q42320 was issued for these cuts; that no certificate of occupancy was ever issued for this use; that the entire plot in question now has a 6 ft. high chain link fence around the perimeter of the plot at the building lines; and

WHEREAS, the applicant contends that the present owners have owned this property since January 1951; that the same owners also own lot No. 362 in block No. 2611 on Flushing avenue which is within the 500 ft. radius of the affected plot; that the balance of the north side of Flushing avenue is improved with industrial buildings that are occupied by a great number of employees; that there are no rapid transit facilities available to this area and many of these employees reach this location by automobile, creating the need for off street parking; and

WHEREAS, the applicant states that the present owner has held title to the property since January 1951 and that the assessed valuation of land is \$12,600; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions h and e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Sections 7h and 7e for a term of five years, to permit the premises to be occupied as to lots 14, 23 and 25 in conjunction with lot 11, for which a permit is outstanding, substantially as proposed and indicated on plans filed with this application, marked "Received July 23, 1956", 2 sheets, *on condition* that the premises shall be leveled substantially to the grade of the abutting streets, surfaced with clean gravel or steam cinders treated with a binder and properly rolled; that the fences proposed and shown along 54th street and Nurge avenue shall be maintained; that on the interior lot lines the existing fences may be retained if in good condition and to the satisfaction of the borough superintendent; that during the term of this variance the premises shall be occupied for no other use and no building shall be erected thereon; that there shall be no parking of motor vehicles except those of the pleasure car type; that suitably anchored bumpers shall be maintained against all fences for protection thereof and at sufficient distance from such fences; that curb cuts shall be limited to one on Flushing avenue now existing and permitted by the borough superintendent, not over 10 ft. in width and one additional curb cut of similar width on Nurge avenue may be constructed where shown; that such portable fire fighting appliances shall be installed as the fire commissioner shall direct; that signs shall be restricted to a permanent sign not more than 15 sq. ft. in area, attached to the fence at each entrance, advertising only the parking and storage use, the rates charged and such other information as the Commissioner of Licenses may require; that such signs shall not be illuminated and shall not extend beyond the building line; and that all permits required, including a certificate of occupancy shall be obtained and all work completed within six (6) months from the date of this resolution.

* Correction—Lot 25 inserted in the resolution, as being included with Lots 11, 14 and 23, in the Board's action.

MINUTES

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on October 2, 1956, as they appeared in Bulletin No. 41, Vol. 41, are hereby corrected to read as follows:

861-54-A

APPLICANT—Arnold W. Lederer, for 444 Rockaway Avenue, Inc., owner.

SUBJECT—Application November 15, 1954—Appeal from a decision of the borough superintendent—re construction and egress.

PREMISES AFFECTED—444 Rockaway avenue, west side, 165 ft. 7 in. south of Pitkin avenue, Block 3521, Lot 48, Borough of Brooklyn.

APPEARANCES—

For Applicant: Arnold W. Lederer.

For Administration: Samuel L. Becker, Dep't of Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert, Commissioner Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated November 1, 1954, on Alt. App. 4451/49 reads:

"1. Entire 1st tier to be of 3 hr. construction as re-
quired under Sect. 3.2.3. of the Bldg. Code.

"2. Stairs from upper floors to lead in a continuous
enclosure to street as per Sect. 6.4.1.11.

"3. Stair bulkhead to roof to be of 2-hr. construction
as required under Sect. 3.2.3 of the Code.

"4. Stairs & hallways to be constructed of incombust-
ible material as required under Sect. 4.1.1.7.1 of the
Code.

"5. 1st fl. walls under stair exten. to be 12" thick as
in Sect. 8.4.8.5."

and

WHEREAS, the applicant states the building is 4 stories,
48 ft. in height, 20 ft. by 100 ft. in area at 1st floor, 20 ft.
by 82 ft. in area at typical floor, class 3 construction, erected
in 1907 on a lot 20 ft. front by 100 ft. in depth, in a business
use, C area, class one height district, used and occupied since
1939: cellar storage, stockroom and boiler room; 1st floor—
retail furniture store, 5 persons; 2nd 3rd, 4th floors—retail
furniture showrooms, no persons; entire building occupied by
the owner; no change in use or occupancy is now proposed.
The building is provided with one interior 3 ft. wide wood
stairs, enclosed in fireproof blocks and extending to roof
bulkhead. There are no doors provided in stair enclosure.
There is one fire escape at rear extending to roof by ladder
and with no egress from its lowest termination; and

WHEREAS, the owner was fined in Magistrates Court
October 27, 1954, on charge of violating the Multiple
Dwelling Law; and

WHEREAS, on October 27, 1954, a charge of violating the
Multiple Dwelling Law was dismissed against the owner in
Magistrates Court, Brooklyn; and

WHEREAS, the applicant states that this four story building
was erected under N.B. App. 1486/07 and used as a store and
6 family new law tenement; that, however, the neighborhood
changed into a furniture mart and the families moved out
and the entire building is now being used by the owner as a
furniture showroom with one tenant occupancy without a
certificate of occupancy; that an alteration was performed
wherein the main stairway terminated within the store on
the first floor near the front by an ornamental run of stair;
that this stairway is enclosed in brick and has a fireproof
roof in the outer court; that under Alt. App. 4451/49, plans
were approved for an extension in the rear yard; and

WHEREAS, the applicant states that the existing exits con-
sist of the following: Cellar—an open 2 ft. 10 in. wide wood
stair at the rear leading to the 1st story store; a 1 ft. 8 in.
wide steel ladder with trap doors over flush with sidewalk;

a 3 ft. 6 in. iron stair at the front with trap door over flush
with sidewalk and 2 2 ft. 4 in. doors at front and 2 2 ft.
trap doors flush with sidewalk; that the ceiling under the
ornamental stair and over the boiler room is of concrete
arch; from the first floor, exits consist of a 4 ft. wide open
stairway from the 2nd floor enclosed in brick in three sides
and equipped with a fireproof roof, an open 2 ft. 10 in. wide
wood stair from the rear of the store down to the rear of
the cellar, a 3 ft. open wood stairs from the first floor sample
room in rear extension up to second floor showroom, and
a 2 ft. 6 in. door from rear extension at east of first floor
extension to outer court which adjoins an outer court of an
adjoining tenement; that from the 2nd floor to the roof the
exits consist of a 3 ft. wide wood main stair enclosed in fire-
proof blocks with stair platforms and ceilings fire retarded
with plasterboards and plaster; that there are no doors in the
openings to the stairway; an ornamental fireproof stairs
4 ft. wide leading to first floor and connected by a 4 ft. hall
to the main stairs; that there are no doors on this stairway;
that from the second floor rear extension there is a 3 ft. open
stair leading to the first story; that there also exists a closet
under the main stair leading from second to third floor; and

WHEREAS, the applicant states that the exits from the
third and fourth floor consist of a 3 ft. wide wood main
stair enclosed in fireproof blocks with platforms and ceil-
ings fire retarded with plasterboards and plaster, there are
no doors in this stairway; there is a multiple dwelling type
fire escape on the rear wall serving the third and fourth
floors; that at the foot of the main stair leading to roof
on the fourth floor there exists a wood door and wood
enclosure; and

WHEREAS, the applicant states the exit from the roof
consists of the main stair of wood construction leading to the
roof bulkhead which is fire retarded with ½ in. plaster
boards and plaster and gooseneck ladder leading to the rear
fire escape; and

WHEREAS, the applicant states the 4 story building adjoins
to the north and south at the same level; and

WHEREAS, the applicant contends as to Objection 1, that it
is requested a variance be granted on the grounds that com-
pliance would prove unnecessarily harsh and be practical
only in new buildings and should not be made to apply to
an existing building; that a modified sprinkler system will
be installed in the cellar and first story under the converted
dwelling sprinkler Rules and connected to the street supply
with separate tap; that the cellar ceiling is ½ in. plaster-
boards and plaster; and

WHEREAS, the applicant contends as to Objection 2, that
a modification is requested as the entire building will be
occupied by the owner for the retail sale and display of
household furniture and as a rule there are no persons on
any floor except the first floor; that it is now proposed to
rearrange the second floor hall with new fire retarded parti-
tions and enclosing the stair from the second floor with one
hour self-closing fire test door; that this stair will have
a continuous enclosure except at the first floor where the
stair is enclosed in brick on three sides and with fireproof
arch and is open on one side; that this stair terminates
13 ft. 6 in. from the street exit door; that in order to
substitute for the required continuous enclosure to the
street it is proposed to provide a sprinkler system on cellar
and first floor installed in accordance with the usual require-
ments for converted dwellings; and

WHEREAS, the applicant contends as to Objection 3, that a
variance is requested to accept the existing bulkhead as it is
constructed of studs and plasterboards and plaster inside and
covered on the outside with 26 gauge metal, as required by
the Tenement House Law when the bulkhead was erected; and

WHEREAS, the applicant contends as to Objection 4, that
it is requested that the existing stairs and hallways be
accepted on the grounds that the enclosure partitions in the
second, third and fourth floors are fireproof blocks and
stair platforms and ceilings are of fire retarded construction
as is required by the Tenement House Law which also

MINUTES

required a 5 in. cinder deafening in the platforms; that a new fire retarded stair hall passage be constructed connecting the present main stair and the present ornamental stair leading to first floor; that all door openings in the stair hall be protected with one hour self-closing fire test doors and steel bucks and provided with exit signs and lights; that the auxiliary wood stairway enclosure on the fourth floor be completely removed; that closet under the second floor stairway be removed; and

WHEREAS, the applicant contends as to Objection 5, it is requested that the walls be accepted on the grounds that 8 in. walls can be erected unbraced for a height of 13 ft.; that stresses are not exceeded; and the second story walls are well braced to cross walls; that the area is small, the loads are light, and the height is low; and

WHEREAS, the applicant contends generally that the condition is good and, in addition, the cellar and first floor will be sprinklered, and the main stairs will have enclosure and fireproof doors and the cellar stairs will be enclosed in fireproof construction; that all exit doors will have approved exit signs and light; that a wrought iron stationary ladder will be provided in the second floor rear extension leading to a new 2 ft. by 3 ft. scuttle in the roof so that access to the roof can be provided; that fire escape stair of the rear fire escape will be extended to the roof of the second story extension; that the trap doors of the southerly street cellar stairs will have no locks on the outside but will have draw bolts on the inside; and

WHEREAS, the applicant requests in view of the above proposals and in consideration of the very light occupancy, it is requested that the relief herein sought be granted; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the decision of the Borough Superintendent dated November 1, 1954, acting on Alt. App. 4451/49, Objections 1 to 5 be and it hereby is *modified* and that the appeal be and it hereby is *granted* to permit the building to be occupied as proposed, as indicated on plans filed with this application, marked "Received June 27, 1956" (4 sheets) *on condition* that the building shall not be increased in height or area; that the variance shall continue only so long as the building is occupied as proposed as a furniture store; that the fire escape at the rear of the building shall be put in good condition with gooseneck ladder to roof and counterbalanced ladder from the second story roof to the court on the premises from which means of exit shall be by access to the adjoining property whence there shall be a means of exit direct to the street, *consisting of a passage through the cellar of the adjoining premises, terminating with stairs leading to street and protected by trap doors at sidewalk level with no locks of any kind*; that the cellar ceiling shall be fire retarded as proposed; that the windows on the court as indicated shall be protected with studs and plasterboard so as to make a protective enclosure; that a door shall be maintained at the stairs at all points above the first story and such door shall be fireproof and self-closing so as to provide a stairway enclosure; that the stairway shall be protected with a sprinkler system of a type as approved for multiple dwellings with a water service line from the street main; that similar sprinklers shall be maintained in the cellar fed from the above required street line and on the first floor; that in all respects the building and occupancy shall comply with all rules and regulations applicable thereto.

*Correction—As indicated in the resolution and printed in italics.

NOTICE

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication of this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying property owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1014, Municipal Building, Manhattan, at five cents each—postage to be added if the forms are forwarded by mail.

NOTICE

APPEALS AS TO MULTIPLE DWELLINGS

The Legislature, under Chapter 333 of 1948, has clarified Section 60 of the Multiple Dwelling Law by describing the agency authorized to grant variances under this Section, so as clearly to mean in New York City—the Board of Standards and Appeals.

Chapter 508 of 1948 has also been adopted by the Legislature, amending the Multiple Dwelling Law to provide, under new Section 310, for a Board of Appeals. By description the Board of Appeals means in New York City—the Board of Standards and Appeals. Section 310 provides as follows as to appeals:

LAWS OF NEW YORK—By Authority CHAPTER 508 OF 1948

§ 310. Board of appeals. 1. As used in this section "board" shall mean the agency of a city constituted as a board and authorized by law both to grant variances of the zoning resolution and to make rules supplemental to laws regulating construction, maintenance, use and area of buildings.

2. Where the compliance with the strict letter of this chapter causes any practical difficulties or any unnecessary hardships the board shall have the power, on satisfactory proof at a public hearing, provided the spirit and intent of this chapter are maintained and public health, safety and welfare preserved and substantial justice done, to vary or modify any provision or requirement of this chapter, or any rule, regulation, supplementary regulation, ruling or order of the department with respect to the provisions of this chapter, as follows:

a. For multiple dwellings and buildings existing on July first, nineteen hundred forty-eight, provisions relating to:

- (1) Height and bulk;
- (2) Required open spaces;
- (3) Minimum dimensions of yards or courts; or
- (4) Means of egress.

b. For multiple dwellings and buildings erected or to be erected after July first, nineteen hundred forty-eight, and

such dwellings thereafter altered or to be altered, provisions relating to:

- (1) Required open spaces; or
- (2) Minimum dimensions of yards or courts.

Variations or modifications may be granted pursuant to this paragraph b only on condition that open areas for light and air are provided which are at least equivalent in area to those required by the applicable provisions of this chapter.

3. An application for such a variance or modification may be made by any person aggrieved or by the head of any public agency, within such time and under such procedure, conditions and rules as may be prescribed by the board. The board shall fix a reasonable time for the hearing of an application and shall require that due notice be given of the time and place of such hearing to the applicant and to the department. Any person or a duly authorized representative of any public agency may appear at any such hearing and be heard on any such application.

4. In every case the board shall state the reason or reasons for its decision. All decisions of the board shall be subject to review in the same manner as is provided by law for review of decisions of such board respecting variances of the zoning resolution.

5. A record of all decisions of the board, indexed according to the section or sections of this chapter affected thereby, shall be kept in the office of the board. Such record shall be open to public inspection at all times during business hours.
